

CURRENT PERIODICAL SERIES

PUBLICATION NO: 2575

TITLE: FEDERAL REGISTER

VOLUME: 38

ISSUES: 40-61  
(pages 5449-8418)

DATE: March 1973  
Reel 3 of 12

Notice: This periodical may be copyrighted, in which case the contents remain the property of the copyright owner. The microfilm edition is reproduced by agreement with the publisher. Duplication or resale without permission is prohibited.

Xerox University Microfilms, Ann Arbor, Michigan

MICROFILMED — 1973

**VOL 38**

# federal register

# Index

**MARCH 1973**

Volume 38 Numbers 40-61

Pages 5449-8417

**INDEX**

XUM

The FEDERAL REGISTER INDEX is published monthly and annually. Entries are carried primarily under the names of the issuing agencies. Significant subjects are also carried.

A numerical finding aid keyed to the Code of Federal Regulations (List of CFR Sections Affected) is published monthly and is cumulated each month during the calendar year.

A list of pages and dates of publication in the FEDERAL REGISTER appears at the end of this INDEX.

# INDEX, MARCH 1973

## Accidents:

AIRCRAFT. *See* National Transportation Safety Board.  
SHIPBUILDING, longshoring, etc.; reporting requirements, deletion..... 5467

## Additives, Color and Food:

*See* Food and Drug Administration.

## Adjustment Assistance:

*See* Labor Department; Tariff Commission.

## Advertising:

ENDORSEMENTS AND TESTIMONIALS. *See* Federal Trade Commission.

## Aged:

*See* Social Security Administration.

## AGENCY FOR INTERNATIONAL DEVELOPMENT:

COMMODITY TRANSACTIONS financed by AID: Ineligible suppliers, list..... 6909

MEETINGS, advisory committees: Research, 5914.  
Voluntary Foreign Aid, 7243.

## VOLUNTARY FOREIGN AID:

Certificates of registration: Asian-American Free Labor Institute, Inc., 6909.  
CODEL (Cooperation in Development), Inc., 6909.

## AGRICULTURE DEPARTMENT:

*See* Commodity Credit Corporation.  
Commodity Exchange Authority.  
Farmers Home Administration.  
Federal Crop Insurance Corporation.  
Forest Service.  
Rural Electrification Administration.  
Soil Conservation Service.

## ALMONDS:

*See also* Nuts.  
Marketing: California, 7395.

Products, credit for paid advertising; proposed rule.. 6395

## ANIMALS AND PRODUCTS:

Diseases; areas quarantined, regulations, etc.: Brucellosis, 7113.  
Exotic Newcastle disease in poultry, psittacosis, etc., 6167, 8240.  
Hog cholera, 5455, 6167, 7318, 7982.  
Scabies in cattle, 5624, 6665.

Viruses, serums, toxins, and analogous products; organisms and vectors: Animals used in testing, proposed rules..... 7467

Detection of viable bacteria and fungi in live vaccines, proposed rules..... 8064

ANISE, SWEET; U.S. standards for grades..... 5622

APPEAL REGULATIONS special handling..... 6665

APPLE BUTTER, standards for grades; proposed rules..... 7188

## AUTHORITY DELEGATIONS:

By Executive Vice President, Commodity Credit Corporation to Directors, Commodity Office et al., Agricultural Stabilization and Conservation Service; service of process..... 7134

## BEANS:

Warehouses, federally licensed, storage in..... 7262

## BIRDS:

Import, relief of restrictions; proposed rule, extension of time..... 5641

Pigeons..... 8240

CHEESE, import quotas..... 7122

## CHERRIES:

Marketing: Maryland, 7570.  
Michigan, 7570.  
New York, 7570.  
Ohio, 7570.  
Pennsylvania, 7570.  
Virginia, 7570.  
West Virginia, 7570.  
Wisconsin, 7570.

## CHRISTMAS TREES:

Labeling requirements..... 7447

COMMITTEES. *See* Meetings, below.

## COTTON:

Classification: Cotton futures legislation..... 7395

Marketing quotas, acreage allotments: Extra long staple, determinations: 1966 and succeeding crops, 5880.

Upland: 1973 crop, 5879, 7393.

Producers leasing federally owned land, eligibility for certain payment and price-support loan program..... 7564

Warehouses, federally licensed, storage in..... 7247

Canceled or terminated since December 31, 1972..... 7262

COTTONSEED: Warehouses, federally licensed, storage in..... 7262

Canceled or terminated since December 31, 1971..... 7264

ENVIRONMENTAL STATEMENTS, availability: Beet sugar producing areas, North Dakota, 6205, 6206.

EVERGREENS, labeling regulations..... 7447

FARMS, reconstitution of; producers leasing federally owned land, eligibility for certain payments and price-support programs..... 7564

FEED GRAIN: *See also* Grains.

Donations: Santa Domingo, San Juan, Tesuque, and Zuni Indian lands distress area, New Mexico..... 7012

Utah and Ouray Indian lands distress area, Utah..... 6416

Producers leasing federally owned land, eligibility for certain payment and price-support loan programs..... 7564

FLOWERS AND FLOWER BULBS, labeling regulations..... 7447

## FRUITS:

*See also specific fruits.*

Canned, dried, dehydrated, or frozen: Plant sanitation regulations, proposed rules..... 7466

Fresh: Labeling regulations..... 7447

## GRAINS:

*See also specific grains.*

Inspection points, various agencies at: Albany, N.Y., 8286.

Erie, Pa., 8286.

Muscatine, Iowa, 7350.

New York, N.Y., 8286.

Ogdensburg, N.Y., 8286.

Pittsburgh, Pa., 6293.

Warehouses, federally licensed, storage in..... 7250

Canceled or terminated since December 31, 1971..... 7263

## GRAPEFRUIT:

Marketing: Florida, 7565.

HONEY: Plant sanitation regulations, proposed rules..... 7466

HOPS, domestic: Marketing allotment percentage for 1973-74 marketing year..... 5882, 8236

IMPORTS, restrictions, etc.: Birds, commercial; proposed rules, extension of time, 5641.

Cheese, 7122.

Onions, minimum grades and sizes, 6802.

Overtime services. *See* Overtime services, below.

Pigeons, 8240.

Pork and pork products, correction, 6275.

INDIANS, donation of feed grain to: Santa Domingo, San Juan, Tesuque, and Zuni Indian lands distress area, New Mexico..... 7012

Utah and Ouray Indian lands distress area, Utah..... 6416

INSPECTION AND CERTIFICATION of certain commodities: Fees..... 6284, 7318

LEMONS: Marketing: Arizona and California, 5623, 6167, 6375, 7122, 7565, 8235.

LIVESTOCK: *See also* Animals and products; Meat and products; Packers and Stockyards Administration.

Humanely slaughtered livestock; list of establishments..... 7822

Swine: List of additional livestock markets approved to handle interstate shipments of any class..... 7378

**AGRICULTURE DEPARTMENT—Continued**

MARKETING QUOTAS, farm acreage allotments, etc.: <i>See also specific commodities.</i> Certain areas of venue, marketing quota regulations... Referenda, holding of; canvassing by county committee, proposed rule.....	7448 7467
MEAT AND PRODUCTS: <i>See also Animals and products; Livestock; Packers and Stockyards Administration.</i> Inspection regulations: Labels and containers, open dates; proposed rules... Pork imports, correction..... Sausage products, cooked; frankfurter, weiner, knock-wurst, etc., proposed standards.....	7398 6275 6898
MEETINGS, advisory committees: Shippers, Florida, 7822.....	
MILK AND PRODUCTS: Marketing in certain States, orders proposed or adopted: Florida, 7810. Illinois, 8002. Indiana, 8174. Iowa, 5996, 7339. Kansas, 7234. Kentucky, 7396, 8174, 8236. Mississippi, 5641. Nebraska, 7318, 7339. Ohio, 8172. Pennsylvania, 8172. Texas, 6683. Washington, 5882, 7398.	5622
Nonfat dry milk, grade standards.....	5622
NUTS: <i>See also Almonds; Peanuts.</i> Processed, plant sanitation regulations; proposed rules..... Raw, labeling regulations..... Warehouses, federally licensed, storage in.....	7466 7447 7262
OLIVE OIL: Plant sanitation regulations, proposed rules.....	7466
ONIONS: Imports, minimum grades and sizes..... Onion sets, labeling regulations.....	6802 7447
ORANGES: Marketing: Arizona and California: Navel, 5480, 5880, 6375, 6665, 6987, 7449, 7790, 8170. Valencia, 5480, 6288, 6987, 7216, 7234, 7450, 8171. Florida, 7565, 8169.	
ORGANIZATION AND FUNCTIONS: Agricultural Stabilization and Conservation Service...	6367
OVERTIME SERVICES, imports and exports: Animal and products: Travel time, 7216. Plants and products: Travel time, 7216.	
PACKERS AND STOCKYARDS ADMINISTRATION: Posted stockyards, designation and removal.....	8288
PAPAYAS: Marketing: Hawaii, 5880.	
PAYMENT LIMITATION, estate or trust, interpretation.....	8164
PEANUTS, producers leasing federally owned land, eligibility for certain payment and price-support loan program.....	7564
PIGEONS, importation restrictions; definitions.....	8240
PLANT QUARANTINE: Domestic: Brown-tail moth, 8233. Gypsy moth, 8233. Japanese beetle, 5877, 6286. Pink bollworm, 6286.	
PLUMS, fresh: Standards for grades, proposed rules.....	8063
POTATOES, Irish: Marketing: California, 6801. Minnesota, 7988. North Dakota, 7988. Oregon, 6801.	

National Potato Promotion Board, members term of office.....	7123
POULTRY AND PRODUCTS: Inspection: Labels and containers, open dates; proposed rules.....	7398
PROCUREMENT: Contract cost, principles and procedures..... Research agreements with educational institutions.....	5640 5637, 5639
PRUNES, fresh: Standards for grades, proposed rules.....	8063
REFERENDA, holding of; canvassing by county committee, proposed rule.....	7467
RICE: Marketing quotas, acreage allotments, etc.: 1973-74 marketing year, 6287.	
SEEDS: Ryegrass seed grown in Oregon; proposed rules.....	8063
SIRUP: Warehouses, federally licensed, storage in.....	7262
SOIL SAMPLES, list of approved laboratories for processing, testing, and analysis.....	5915, 6912
SUGAR: Acreage allocations: Sugar beets, 8233. Allotment of quotas: Mainland cane area: 1973 crop, 7339. Beet sugar producing areas in North Dakota, availability of environmental statements..... Conditional payments provisions: Beet sugar area 1973 and subsequent crop, 6367. Continental requirement and area quotas: 1973 decrease in requirements, 6287. Proportionate shares: Sugarcane: Mainland, 1974 crop, 7350. Wage rates: Sugar beets, 1973 crop, 8164.	6205, 6206
TANGELOS: Marketing: Florida, 7565.	
TANGERINES: Marketing: Florida, 7565, 8170.	
TOBACCO: Marketing quotas, acreage allotments, etc.: Burley, identification; proposed rule..... Cigar-binder (types 51 and 52): 1973-74 marketing year, 5905. Producers leasing federally owned land, eligibility for certain payment and price-support loan program.....	7395 7564
VEGETABLES: Canned, dried, dehydrated, or frozen: Plant sanitation regulations, proposed rules..... Fresh, labeling regulations.....	7466 7447
VIRUSES, SERUMS, TOXINS, etc.: Animals used in testing biological products, proposed rules..... Detection of viable bacteria and fungi in live vaccines, proposed rules.....	7467 8064
WHEAT: Marketing quotas, acreage allotments, etc.: 1974 crop, 7810. Producers leasing federally owned land, eligibility for certain payment and price-support loan program.....	7564
WOOL, warehouses, federally licensed, storage in.....	7262
<b>Air Carriers:</b> <i>See Aircraft and air carriers.</i>	
<b>AIR FORCE DEPARTMENT:</b> <i>See also Defense Department.</i> ACADEMY, U.S. AIR FORCE: Appointment; applications, requirements and procedures..... Disenrollment; separation or discharge procedures.....	6794, 8254 6797

ACTIVE DUTY SERVICE COMMITMENTS, officers.....	6784, 8155
COMMISSARY STORE PRIVILEGES, individuals and organizations authorized.....	5632
CONTRACT FUNDS STATUS REPORT, Part deleted.....	6893
ENLISTMENTS: Active Duty Service Commitments, all officers..... Regular Air Force, eligibility requirements..... Reserves, qualifications and procedures..... Specified period of time contract, active duty period extended.....	6784, 8155 6770, 8155 6779, 8254 6793, 8254
ENVIRONMENTAL STATEMENT, Pacific Cratering Experiments; hearings.....	7349
FEEs, records servicing.....	6768
INFORMATION: Personnel records, release/withholding by Consolidated Base Personnel Offices..... Records servicing, schedule of fees.....	6995 6768
MEETINGS, advisory committees, etc.: Aeromedical-Biosciences, 7589. Aeronautical Systems Division: Avionics, 8286. F-4E, 7404. Air University Board of Visitors, 7349. B-1 Aerodynamics, 7011. B-1 Structures, 7011. Engine Development, 8286. Munitions-Armament, 7011. On-Board Test and Recording Systems, 7011.	
MORTUARY AFFAIRS, benefits, cemeteries, etc.....	6761
RECORDS: Personnel, release/withholding by Consolidated Base Personnel Offices..... Servicing, schedule of fees.....	6995 6768
SPECIFIED PERIOD OF TIME CONTRACT, active duty period extended.....	6793, 8254
<b>Air Pollution Control:</b> <i>See Environmental Protection Agency.</i>	
<b>Aircraft and Air Carriers:</b> ACCIDENT INVESTIGATION. <i>See National Transportation Safety Board.</i> RADIO COMMUNICATIONS, aviation services. <i>See Federal Communications Commission.</i> REGULATORY AGENCIES. <i>See Civil Aeronautics Board; Federal Aviation Administration.</i> WALLOPS STATION AIRSTRIP, use by aircraft not operated for Federal Government.....	6383

## Culturally Significant Objects:

EXHIBITION in United States. *See* State Department.

**COAST GUARD:**

ANCHORAGE REGULATIONS, grounds and special areas, rules proposed or adopted:

Hawaii:

Barbers Point, Oahu, 8277.

Wisconsin:

Milwaukee Harbor, 7240.

**BOATING SAFETY:**

Authority of district commanders to designate specific recreational boats unsafe for certain voyages; proposed rules

Boat performance or safety standards, certain requirements; exemption to supersede existing exemption

Hazardous conditions on certain river bars and coastal outlets for recreational vessels, determination of

Lifesaving equipment, personal flotation devices, carriage requirements

**BRIDGES:**

Drawbridge operation, rules proposed or adopted:

Florida:

Biscayne Bay, 6893.

Halifax River, AIWW, 6901.

Vero Beach, AIWW, 5657.

Whitcomb Bayou, 6901.

Mississippi:

Escatawpa and Pascagoula Rivers, 7115.

New Jersey:

Debbies Creek, Manasquan, 6390.

**CARGO AND VESSELS:**

Emergency position indicating radiobeacon as part of lifesaving equipment, proposed rules

**DANGEROUS CARGOES:**

Transportation or storage on board vessels:

Defense Department shipments, proposed rule

Etiologic agents, exemptions

**DOCUMENTATION OF VESSELS:**

Qualification as citizen of United States:

Shell Oil Co., 6422.

Registration of house flag and funnel mark:

Exxon Corp. and Exxon Transportation Co., 7484.

**ETIOLOGIC AGENTS. See under Dangerous cargoes, above.****LOADLINES:**

Great Lakes, calculations of freeboards, etc.; proposed rules

**MERCHANT MARINE seamen, certification:**

Licenses for operation of uninspected towing vessels

Original licenses, requirements

**NAVY DEPARTMENT REGULATIONS respecting**

Coast Guard functions

**OCEANOGRAPHIC VESSELS:**

Emergency position indicating radiobeacon as part of lifesaving equipment, proposed rules

**ORGANIZATION AND FUNCTIONS:**

Districts:

Twelfth, San Francisco Vessel Traffic System; operating procedures

Federal Boat Safety Act, authority of district commanders to designate specific recreational boats unsafe for certain voyages; proposed rules

**PASSENGER VESSELS:**

See also Small passenger vessels, below.

Emergency position indicating radiobeacon as part of lifesaving equipment; proposed rules

**SECURITY ZONES:**

Hampton Roads, Elizabeth River, Norfolk, Va., 6069.

**SMALL PASSENGER VESSELS:**

Emergency position indicating radiobeacon as part of lifesaving equipment; proposed rules

Original licenses, requirements

**SPECIFICATIONS:**

Electrical equipment:

Emergency position indicating radiobeacon as part of lifesaving equipment; proposed rules

Engineering equipment:

Marine-type portable fire extinguishers

Lifesaving equipment:

Buoyant articles, etc.; termination of approval notice

Sizes, models, marking, etc.

**Materials:**

Incombustible materials for merchant vessels

**TANK VESSELS:**

Emergency position indicating radiobeacon as part of lifesaving equipment, carriage; proposed rules

TOWING VESSELS, licensing of personnel:

Uninspected towing vessels, licenses for operation

**UNINSPECTED VESSELS:**

Life preservers and other lifesaving equipment requirements

Towing vessels, licenses for operation

**VESSEL INSPECTIONS:**

Etiologic agents, incident reports involving

**Coffee:**

PRICE CONTROL. See Cost of Living Council.

SOLUBLE COFFEE PRODUCTION, inquiry

**Color Additives:**

See Food and Drug Administration.

**COMMERCE DEPARTMENT:**

See East-West Trade Bureau.

Foreign Direct Investments Office.

Import Programs Office.

Maritime Administration.

National Bureau of Standards.

National Oceanic and Atmospheric Administration.

National Technical Information Service.

Patent Office.

Travel Service, United States.

FLAMMABILITY STANDARD:

Carpets and rugs, standard for surface flammability; proposed sampling plan

Small carpets and rugs, proposed sampling plan

Children's sleepwear, sizes 7-14; proposed standard

SALARY SCHEDULE, Federal executive, positions placed in (Executive Order 11708)

**COMMODITY CREDIT CORPORATION:**

AUTHORITY DELEGATIONS:

By Executive Vice President to certain officials:

Directors, Commodity Office et al., Agricultural Stabilization and Conservation Service; service of process

Controller, Commodity Credit Corporation; Export Credit Sales Program

**BYLAWS**

EXPORTS:

Tobacco export program, contracts

FEED PROGRAM, emergency, for livestock

LOANS, PURCHASES, etc.:

1973 crop and subsequent crops:

Cotton, 6803.

**PRICE SUPPORT PROGRAMS:**

Milk

Sales of certain commodities acquired through price support operations, monthly sales list (fiscal year ending June 30, 1973)

**COMMODITY EXCHANGE AUTHORITY:**

TRADING, "puts" and "calls" in nonregulated commodities; proposed rules

**COMPTROLLER OF CURRENCY:**

MEETINGS, consulting committees:

Bank Economists, 6292.

**Conduct Standards:**

See also specific agencies.

WITHOUT-COMPENSATION EMPLOYEES. See Interior Department.

**Construction:**

PAY ADJUSTMENTS. See Cost of Living Council.

WAGES, MINIMUM, federally assisted construction.

See Employment Standards Administration.

**CONSTRUCTION INDUSTRY STABILIZATION COMMITTEE:**

AUTHORITY DELEGATIONS from Cost of Living Council Chairman, wage and salary increases

**CONSUMER AFFAIRS OFFICE:**

ORGANIZATION AND FUNCTIONS

**COST ACCOUNTING STANDARDS BOARD:**

ADMINISTRATION:

Authority delegations, waivers and exemptions

Information release, copying fees

HOME OFFICE EXPENSES, allocation of; effective date

OPERATING POLICIES AND PROCEDURES

UNALLOWABLE COSTS, accounting for; proposed rules

**COST OF LIVING COUNCIL:**

AUTHORITY DELEGATIONS:

By Deputy Director to certain officials:

General Counsel, prosecution of violations

Internal Revenue Commissioner, subpoenas and oaths

Pay Board Matters Administrator, decisions and orders on exception requests, pay challenges, appeals, etc.

Wage Stabilization Office Administrator, pay adjustment decisions and orders

By Director to Internal Revenue Commissioner, exception request decisions

COFFEE OR COFFEE PRODUCTS, manufacturers of; revocation of Price Commission orders

FOOD INDUSTRY WAGE AND SALARY COMMITTEE, establishment, certification

HEALTH SERVICES, institutional providers of; uniform rates, compliance certificates for State agencies

LUMBER PRICES, hearings

MEETINGS, advisory committees, etc.:

Food, 5674.

Food Industry Wage and Salary, 7354, 8081.

PAY BOARD, termination date

PETROLEUM AND PETROLEUM PRODUCTS, CRUDE, Phase III regulations, mandatory controls reassessed

PHASE III REGULATIONS:

Construction industry pay adjustments

Definitions

Food industry:

Meat products pricing rule

Profit margin measurement

Mandatory controls on crude petroleum and petroleum products

Scope

Wages and salaries, executive and variable compensation

PRICE COMMISSION, termination date

**Cotton:**

See Agriculture Department; Commodity Credit Corporation.

**Cotton Textiles:**

See Textile Agreements Implementation Committee.

**Cottonseed:**

See Agriculture Department.

**Courts-Martial:**

See Navy Department.

**Credit Unions:**

See National Credit Union Administration.

**VOR Federal airways:**

Domestic..... 5455, 6989, 8133, 8244, 8278  
 INSTRUMENT FLIGHT RULES:  
   Approach procedures, takeoff and landing, alterations..... 5456, 5628, 6276, 6990, 7453, 8135

JET ROUTES, rules proposed or adopted:  
   Area high routes..... 6990, 8067, 8177  
   Jet routes, alterations..... 6989, 7393

MEETINGS, advisory committees, etc.:  
 Visual Aids to Approach and Landing, 7350.

**ORGANIZATION AND FUNCTIONS:**

District Offices:  
 Alaska, Unalakleet, Flight Service Station; conversion to Remote Control Outlet..... 6093  
 Missouri, Kirksville, Flight Service Station at Clarence Cannon Memorial Airport; decommissioning..... 7825  
 Washington, Seattle, General Aviation and Air Carrier District Offices; consolidation..... 7129  
 West Virginia, Beckley, change of jurisdiction and establishment of airports field office..... 6713  
 National Airspace System:  
   Area navigation concepts..... 6093, 6422, 7414  
   Development and improvement, reduced channel spacing for ILS, VOR, and TACAN (DME); inquiry..... 7414

PARACHUTE JUMPING, authorizations; extension of time..... 6076

RADIOACTIVE MATERIALS, transportation of; proposed rules..... 6690

RESTRICTED AREAS over military installations, etc.:  
 Various States, alterations:

Alabama, 8134.  
 California, 5628.  
 New Mexico, 8051, 8066.  
 North Carolina, 8050.  
 Oklahoma, 7393.  
 Texas, 7218, 7401.  
 Utah, 8051.  
 Virginia, 8245.

SCHOOLS AND OTHER CERTIFICATED AGENCIES:  
 Non-Federal navigation aids, standards for facility performance; proposed rules..... 7401  
 Pilots and flight instructors, certification:  
   Solo flight, requirements, correction..... 6276

**FEDERAL COMMUNICATIONS COMMISSION:**

AMATEUR RADIO SERVICES:  
 Examination points, correction..... 6180

AVIATION SERVICES:  
 Airborne stations, frequencies available..... 7228  
 Applications and licenses, fleet license operation of aircraft; proposed rule..... 7403  
 Definition, emergency locator transmitter and test station..... 7228  
 Land test stations..... 7228  
 Operating requirements, fleet license operation of aircraft, proposed rule..... 7403, 8284  
 Technical specifications, operating requirements..... 7228

CABLE TELEVISION RELAY SERVICE:  
 Technical regulations; equipment changes, antenna height or direction..... 6827

CABLE TELEVISION SERVICE:  
 Cross-ownership divestiture requirement, waiver..... 8082

CANADIAN BROADCAST STATIONS:  
 Standard stations, list, changes..... 5933, 7018

COMMUNITY PROBLEMS, ascertainment of, by broadcast applicants, inquiry..... 8190

DOMESTIC PUBLIC RADIO SERVICES:  
 Applications accepted for filing..... 5506, 6715, 7278, 8017  
 Land mobile service, operations between 806 and 960 MHz; proposed rule, hearing..... 7340

EXPERIMENTAL BROADCAST SERVICES:  
 Aural broadcast STL and intercity relay stations, equipment changes; antenna height..... 6827  
 Land mobile service, operations between 806 and 960 MHz; proposed rule, hearing..... 7340

FEES. See under Practice and procedure, below.

FOREIGN LANGUAGE PROGRAMS, broadcast license responsibility to exercise adequate control..... 7840

FREQUENCY ALLOCATIONS:  
 Call signs..... 6822  
 Definitions:  
   Emergency locator transmitter..... 7227  
   Space telecommunications..... 5565  
 International regulations in force..... 5566  
 Table, changes:  
   11.7-12.2 MHz, 5562.  
   806-960 MHz, 7340.  
   2500-2690 MHz, 5562.  
   41.0-43.0 GHz, 5562.  
   84-86 GHz, 5562.

Treaties and other international agreements..... 6818

INDUSTRIAL RADIO SERVICES:  
 Land mobile service, operations between 806 and 960 MHz; proposed rule, hearing..... 7340

INDUSTRIAL, SCIENTIFIC, AND MEDICAL EQUIPMENT:  
 Land mobile service, operations between 806 and 960 MHz; proposed rule, hearing..... 7340

LAND MOBILE APPLICATIONS filed in Chicago:  
 Availability..... 5678  
 Processing..... 8191

LAND TRANSPORTATION RADIO SERVICES:  
 Land mobile service, operations between 806 and 960 MHz; proposed rule, hearing..... 7340

MARITIME RADIO SERVICES:  
 Land stations and Alaska-public fixed stations:  
   Definitions, mobile repeater stations, proposed rule..... 7342  
   Public coast radiotelephone mobile repeater stations, Alaska; proposed rule..... 7342  
 Station authorization:  
   Call signs assignment..... 6822

Shipboard stations:  
 Definitions, proposed rule..... 5970  
 Operating requirements, proposed rule..... 5972  
 Operator requirements, proposed rule..... 5972

Radiodetermination:  
 Distress call, proposed rule..... 5972

Radiotelegraphy:  
 Distress call, proposed rule..... 5972

**Shipboard Stations—Continued**

Radiotelephony:  
 Distress call, proposed rule..... 5972

Very high frequency transmitter reduction, proposed rule..... 7816

Survival craft stations, proposed rule..... 5971

Technical requirements:  
 Emergency position indicating radiobeacons, proposed rule..... 5971

Transmitter power reduction, proposed rule..... 7816

MEETINGS; advisory committees, etc.:  
 Cable Television, 5505  
 Class II channels (Panel 4), 7489.  
 Dialer Devices, 7843.  
 Dialer Devices Task Group, 7843.  
 Interconnection, 5936.  
 National Industry, 7355, 7488, 7599, 8081.  
 PBX, 7355, 7489.  
 Radio Technical Commission for Marine Services, 6428.  
 Steering Committee of Federal/State-Local, 5936, 8081.  
 Technical (Panel 3), 7355, 8082.

MEXICAN BROADCAST STATIONS:  
 Standard stations, list, changes..... 6719, 7488

OBSCENITY, in broadcasting, inquiry..... 8301

ORGANIZATION AND FUNCTIONS:  
 Amateur and commercial operator examination points, correction..... 6180

Field Engineering Bureau, Chief..... 7118

Safety and Special Radio Services Bureau, Chief..... 8247

PRACTICE AND PROCEDURE:  
 Broadcast applications and proceedings:  
   Standard broadcast applications, processing of..... 5874

Fees:  
   Certification or type acceptance, combined fees..... 6818  
   Proposed rule, time extension..... 6082

Safety and Special Radio Services, aircraft station license to operate with emergency locator transmitter..... 7227

Telephone and telegraph companies, tariffs and evidence..... 8250

PUBLIC SAFETY ROAD SERVICES:  
 Land mobile service, operations between 806 and 960 MHz; proposed rule, hearing..... 7340

RADIO BROADCAST SERVICES:  
 Educational FM:  
   Frequency measurements, proposed rules..... 8281

FM stations:  
 Channel assignments:  
   Alabama, 6826.  
   Indiana, 7118.  
   Michigan, 7118, 7577.  
   Minnesota, 7576.  
   New Jersey, 5635.  
   North Dakota, 7576.  
   Virginia, 6695.

Foreign language programs, broadcast licensee responsibility to exercise adequate control..... 7840

Frequency measurements, proposed rules..... 8281

Obscenity in broadcasting, inquiry..... 8301

Land mobile service, operations between 806 and 960 MHz; proposed rule, hearing..... 7340

Standard broadcast stations:  
 Allocation of facilities, showings required, and prohibited overlap..... 5874

Antenna monitors with directional antennas, standards; inquiry..... 5666

Canadian broadcast stations, list, changes..... 5933, 7018

Foreign language programs, broadcast licensee responsibility to exercise adequate control..... 7840

Frequency measurements, proposed rules..... 8281

Mexican broadcast stations, list, changes..... 6719, 7488

Network programs, clipping of..... 6918

Obscenity in broadcasting, inquiry..... 8301

TV stations:  
 Channel assignments:  
   California, 7342.  
   Tennessee, 8252.

Foreign language programs, broadcast licensee responsibility to exercise adequate control..... 7840

Frequency measurements, proposed rules..... 8281

Network programs, clipping of..... 6918

Obscenity in broadcasting, inquiry..... 8301

RADIO FREQUENCY DEVICES:  
 Auditory training devices..... 6826

# FEDERAL COMMUNICATIONS COMMISSION—Continued

Western Union Telegraph Co., 6428.

## FEDERAL CROP INSURANCE CORPORATION:

### FEDERAL CROP INSURANCE:

Various 1973 crops:  
Burley tobacco, 5878.  
Peanuts, 5878.  
Peas, canning and freezing, 7822.

### Federal Employees:

See Government employees.

## FEDERAL HIGHWAY ADMINISTRATION:

HIGHWAY BEAUTIFICATION PROGRAM, exemption of urban highway systems..... 7826

### MOTOR CARRIER SAFETY REGULATIONS:

Motor vehicle inspection and maintenance, inquiry..... 7127  
Parts and accessories:  
Bus exhaust systems, discharge location..... 7464  
Tiedown assemblies, minimum strength..... 8162

## FEDERAL HOME LOAN BANK BOARD:

### FEDERAL SAVINGS AND LOAN INSURANCE CORPORATION:

Conversions of mutual associations to stock form; proposed rules, extension of time..... 6908  
Definitions, net worth..... 6058

### Operations:

Investments in entities which invest in loans through out-of-State offices, proposed rules..... 8005  
Subordinated debt security..... 6057

### FEDERAL SAVINGS AND LOAN SYSTEM:

Conversions of mutual associations to stock form; proposed rules, extension of time..... 6908  
Operations; borrowing, issuance of obligations, and giving of security..... 6057

### INFORMATION, access to records..... 6376, 7323

### MEETINGS, advisory councils, etc.:

Federal Savings and Loan, 7018.

### RECORDS, availability..... 6376, 7323

### SAVINGS AND LOAN HOLDING COMPANIES:

Acquisitions excepted from requirement of prior written approval, proposed rule..... 8006  
Regulated activities, acquisitions; specific companies:  
Camco Financial Corp., 7246.  
Southwestern Group Investors, Inc., 6314.

## FEDERAL HOUSING ADMINISTRATION:

FIRE PROTECTION, minimum property standards; inquiry..... 5921

## FEDERAL INSURANCE ADMINISTRATION: Page

CIVIL DISORDERS, National Insurance Development Program; reinsurance against excess aggregate loss..... 8076

### FLOOD INSURANCE PROGRAM, National:

#### Areas eligible and special hazard areas, list:

Alabama, 7550, 7551, 8269, 8271.  
Arkansas, 6992, 7224.  
California, 5461, 5462, 7224, 7225.  
Colorado, 6677, 8269.  
Connecticut, 5461, 6677, 8269.  
Delaware, 7224, 7225, 7550, 7551, 8269, 8271.  
Florida, 6679, 6992, 7224, 7550, 7551, 8269, 8271.  
Georgia, 6677, 6679.  
Illinois, 5461, 6677, 7224, 8269, 8271.  
Indiana, 7224, 7225, 8269, 8271.

ACUPUNCTURE DEVICES, labeling; notice of manufacturers, packers, and distributors ..... 6419

AEROSOLIZED food, drug, and cosmetic products; warning statements, proposed rules ..... 6191

AMPHETAMINES for human use, withdrawal of approval of new drug applications ..... 8290

ANTIBIOTIC DRUGS. See under Drugs.

ANTIPERSPIRANTS AND DEODORANTS, use of neomycin sulfate in; postponement of effective date... 7007

AUTHORITY DELEGATIONS:  
By Commissioner to other officers, detention of meat, poultry, eggs, and related products ..... 6669

BEVERAGES, noncarbonated, containing no fruit or vegetable juice; label statement of no juice content, proposed rules ..... 6974

CHEESE, identity standards:  
Cheddar, low sodium; nutrition labeling requirements ..... 6967

Colby, low sodium; nutrition labeling requirements ..... 6967

Cold-pack cheese food:  
Mold-inhibitors, added or increased levels, proposed rules ..... 7008

Xanthan gum ..... 6883

Cottage cheese:  
Acidification, direct, by vat method ..... 6886

Labeling requirements, direct acidification by vat method ..... 6886

Xanthan gum as optional ingredient ..... 6883

Grated, microcrystalline cellulose as optional ingredient ..... 6887

Low sodium, nutrition labeling requirements ..... 6887

Microcrystalline cellulose as optional ingredient in grated cheeses ..... 6887

Mold inhibitors, added or increased levels; proposed rules ..... 7008

Neufchatel, xanthan gum as optional ingredient ..... 6883

Nutrition labeling ..... 6967

Spread, pasteurized process; optional ingredients:  
Mold inhibitors, added or increased levels, proposed rules ..... 7008

Xanthan gum ..... 6883

Xanthan gum as optional ingredient in certain cheeses ..... 6883

**CHILD PROTECTION PACKAGING STANDARDS:**

Aspirin:  
Effervescent, correction ..... 6892

In 12-tablet tins, temporary exemption from requirements ..... 5459

Paint solvents; liquid, containing petroleum distillates; proposed rules, correction ..... 6074

Petroleum distillate-containing liquid paint solvents, proposed rules; correction ..... 6074

CHOLESTEROL, fat, and fatty acid composition of foods:  
Labeling requirements, policy statement ..... 6961

COLOR ADDITIVES:  
Environmental statements, preparation of ..... 7005

Provisional listings, postponement of closing dates; proposed rules ..... 7006

Specific additives:  
D&C Brown No. 1, 7006.

D&C Violet No. 2, external, 7006.

Metallic salts, 7006.

Vegetable substances, 7006.

COMMITTEES. See Meetings, below.

CONVENIENCE FOODS, to be used in preparing "dishes" or "dinners", common or usual name; proposed rules ..... 6975

COSMETICS, aerosolized; warning statements, proposed rules ..... 6191

DEODORANTS. See Antiperspirants, above.

DESSERTS, frozen; mellowine, parevine, identity standards, proposed rules, extension of time ..... 8273

DIAGNOSTIC PRODUCTS, in vitro, for human use; policy statements or interpretative regulations ..... 7096

DIETARY FOODS, label statements, etc.; proposed rules, extension of time ..... 6336

DIETARY SUPPLEMENTS, vitamins and minerals; identity standards, definitions, label statement of ingredients, proposed rules, extension of time ..... 6396

DRUGS:  
Aerosolized, warning statement; proposed rules ..... 6191

Antibiotic drugs:  
Ampicillin, nonaqueous titrations; proposed rules ..... 8064

Carbenicillin indanyl:  
Master and working standards, definition ..... 6890

Thin layer chromatography identify test ..... 6889

Combinations, in animal feeds no longer sanctioned; list ..... 6340

Environmental statements, preparation of ..... 7006

Gramicidin, change in identity test ..... 6813

Potency at time of certification, policy statement; proposed rules withdrawn ..... 6074

Specific antibiotics. See list at end of this agency.

Applications, approvals, opportunities for hearing, announcements, etc. See list at end of this agency.

New drugs:  
Environmental statements, preparation of ..... 7005

Intrauterine devices, certain; policy statement ..... 6137

ELECTRONIC DEVICES. See X-Ray equipment.

ENVIRONMENTAL STATEMENTS, procedures for preparation ..... 7001, 8152

FAIR PACKAGING AND LABELING ACT:  
Labeling, "cents off" and "economy size" package promotions ..... 6393

FLAVORING, SPICES, and food containing added flavor, labeling; proposed rules, extension of time ..... 8273

FOOD ADDITIVES:  
Environmental statements, preparation of ..... 7005

Specific additives:  
Adhesives, 6215.

Aspartame, 6921.

O,O-Dimethyl 2,2,2-Trichloro-1-hydroxyethyl phosphonate, correction, 6394.

2-Methyl-1,3-butadiene, 8291.

Paper and paperboard in contact with aqueous and fatty foods, 6214.

Polyethylene phthalate films, 6091.

Polyethylene terephthalate, 6091.

Resinous and polymeric coatings, 6887.

Rubber articles intended for repeated use, 8291.

Sodium polyacrylate, 6214.

Styrene block polymers with 1,3-butadiene, 8291.

Trisnonyl phenyl phosphite/formaldehyde polymer, 6215.

Vinyl chloride-acetate-2,3-epoxypropyl methacrylate copolymers, 6887.

FOOD LABEL INFORMATION PANEL ..... 6950

FOOD LABELING:  
Cholesterol, fat, and fatty acid composition ..... 6961

Dietary foods; proposed rules, extension of time ..... 6396

Dietary supplements, vitamins and mineral; proposed rules, extension of time ..... 6396

Exemption from requirements, proposed rules, extension of time ..... 8273

Flavoring, spices, and food containing added flavor; proposed rules, extension of time ..... 8273

Food label information panel ..... 6950

"Imitation" foods, application of term; proposed rules, extension of time ..... 8273

Nonstandardized foods, common or usual names ..... 6964

Nutrition labeling ..... 6951

Correction of prior document ..... 5459

Standardized foods, nutrition labeling ..... 6967

FOOD PRODUCTS, aerosolized; warning statements, proposed rules ..... 6191

FROZEN "HEAT AND SERVE" DINNERS:  
Common or usual name, proposed rules ..... 6974

Nutritional quality guidelines ..... 6969

FRUITS AND FRUIT JUICES, canned:  
Applesauce, nutrition labeling ..... 6968

Nutrition labeling ..... 6968

Orange juice beverages, diluted; stay of identity standard ..... 6968

GENERALLY RECOGNIZED AS SAFE (GRAS) status:  
Petitions filed:  
Calcium hypochlorite, treatment of various substances:  
Barley, 7578.

Chlorine dioxide, use in treatment of potable water and washing of fruits and vegetables, 7578.

**Petitions filed—Continued**

1-Cysteine, use in yeast-leavened bakery products, 6214.

Magnesium acetate, use in vitamin mineral food supplement, 6214.

Water:  
Cannery-cooling, 8011.

Live-oyster-conditioning, 6215.

Potable, 7578.

Whey fractions, use in food generally, 6215.

Zinc acetate, use in vitamin-mineral food supplement, 6214.

HAIR DYE, use of metallic salts and vegetable substances as color components; proposed postponement of closing date ..... 7006

HAZARDOUS SUBSTANCES:  
Banned:  
Toys, electrically operated, and children's articles ..... 6138

IMITATION FOODS, application of term "imitation"; proposed rules, extension of time ..... 8273

IN VITRO DIAGNOSTIC PRODUCTS for human use; policy statements or interpretative regulations ..... 7096

INTRAUTERINE DEVICES, policy statement ..... 6137

MARGARINE AND OLEOMARGARINE, nutrition labeling ..... 6967

MEETINGS; review panels, committees, etc.:  
Anesthesiology devices, 5492.

Antimicrobial agents, 5492, 7409.

Bacterial vaccines and bacterial antigens, 6417.

Cardiovascular devices, 5492.

Cardiovascular and renal, 7409.

Cough, cold, allergy, bronchocillator, and antihistaminic agents, 7409.

Dental devices, 7409.

Diagnostic products, 5492.

Drug abuse, 5492.

Drugs, 7409.

Elderly, long term care for, 8291.

Food, 6417.

Health services developmental grants, 8291.

Internal analgesics, 7409.

Loan guarantee programs in health, 8291.

Migrant Health, 8291.

Neuropharmacology, 7049.

Radiological health research and training grants, 7409.

Sedative, tranquilizer, and sleep aid products, 5492, 7409.

Technical electronic product radiation safety standards, 5492.

Topical analgesics, 5492, 7409.

MELLORINE, use in frozen desserts; identity standards, proposed rules, extension of time ..... 8273

METHADONE, interim approval of new regulations ..... 7014

MILK AND CREAM, nutrition labeling ..... 6967

NONSTANDARDIZED FOODS, common or usual names:  
Beverages, noncarbonated, containing no fruit or vegetable juice; label statement of no juice content, proposed rules ..... 6974

Convenience foods, used in preparing "dishes" or "dinners"; proposed rules ..... 6975

Frozen "heat and serve" dinners, proposed rules ..... 6974

General principles ..... 6964

Orange juice beverages, diluted; stay of identity standards ..... 6968

Seafood ..... 6964

NUTRITION LABELING:  
Correction of prior document ..... 6951

NUTRITIONAL QUALITY GUIDELINES:  
Frozen dinners ..... 6969

General principles ..... 6969

ORANGE JUICE beverages. See Fruits and fruit juices, above.

ORGANIZATION AND FUNCTIONS:  
Commissioner's office ..... 6668

Veterinary Medicine Bureau, reorganization ..... 5670

Washington headquarters, changes ..... 6394

PACKAGING PROMOTIONS, "cents off" and "economy size" offers ..... 6393

PAVEVINE, use in frozen desserts; identity standard, proposed rules, extension of time ..... 8273

SEAFOOD, labeling of nonstandardized foods, common or usual names ..... 6964

SPICES, labeling; proposed rules, extension of time ..... 8273

STANDARDIZED FOODS:  
Nutrition labeling ..... 6967

TOYS, electrically operated; hazardous, banned ..... 6138

WATER, bottled; quality standards, proposed rules, extension of time ..... 8273

 Multiple-use management:  
   Arizona, 7477.

**FOREST PRODUCTS,** timber sales, contract procedures ..... 6280

**HOMESTEADS,** lands open to entry:

  Colorado, 7559.  
   Idaho, 7560, 7561.  
   Montana, 7560.  
   Oregon, 7560.  
   Wyoming, 7478, 7558.

**MEETINGS;** advisory committees, etc.:

  Arizona State Multiple Use, 6416.  
   Eugene District, 8073.  
   Horses and Burros, Wild Free-Roaming, 6416.  
   Idaho State Multiple Use, 5484.  
   Roseburg District, 7245.  
   Wyoming State Multiple Use, 8180.

**MINERAL LANDS:**

*See also under Oil and gas, below.*  
 Lands open to mineral entry:

  Arizona, 7011.  
   Colorado, 7559.  
   Montana, 7560.

**NATIONAL FORESTS,** additions, etc.:

*See also under Withdrawals, below.*

  California:  
     Eldorado National Forest, addition to (PLO 5334) ..... 7559

  Idaho:  
     Salmon National Forest, exclusion of lands from (PLO 5336) ..... 7560

**NATIONAL MONUMENT, DINOSAUR,** Colorado, reclamation project revoked in part ..... 7558

**OIL AND GAS:**

  Leases, noncompetitive:  
     Revised drawing entry card, simultaneous filing; time extension ..... 5668  
     Simultaneous offers, proposed rule, time extension and correction ..... 6188, 6900  
 Protraction diagrams:  
   California, 6204.

**ORGANIZATION AND FUNCTIONS:**

  Lake States Project Office, address change ..... 5668

**SURVEY PLATS:**

  Arizona, 7011, 7012, 8180.  
   New Mexico, 8073.

**TIMBER,** sale contract procedures ..... 6280

**VEHICLES:**

  Off-road vehicles, use on public lands; proposed rule, time extension ..... 7008

**WILDLIFE REFUGES,** etc.:

## List of CFR Sections Affected

January-March 1973  
Volume 38  
Numbers 1-61

Includes U.S.C.-C.F.R.  
Table of Authorities

CODE

XUM

CODE

## LIST OF SECTIONS AFFECTED

### WHAT IT IS

The List of Sections Affected is designed to lead users of the Code of Federal Regulations to amendatory actions published in the Federal Register. Entries indicate the nature of the changes. Certain terms used are defined in the glossary below. Proposed rules are listed at the end of appropriate titles.

### CHANGE IN SIZE

The List of Sections Affected has been changed to the same size as the Code of Federal Regulations to improve the usefulness of this finding aid. It should be shelved with current Code volumes.

### HOW TO USE THIS FINDING AID

The Code of Federal Regulations, revised as of January 1, 1973, may be brought up to immediate date by the following steps:

1. Consult this List of Sections Affected for any changes, deletions, or additions published after January 1.
2. Check the "Cumulative List of Parts Affected" appearing at the end of the latest issue of the Federal Register for changes published after the last date covered by this issue of the List of Sections Affected.
3. If the edition of the Code of Federal Regulations as of January 1, 1973, is not available, use the previous year's edition and consult the 1972 Annual List of Sections Affected before beginning with step 1 above.

### GLOSSARY

**Amended**—A typographical unit of the CFR was partially set forth.

**Recodified**—Major portions of CFR were restructured or rearranged, or both.

**Redesignated**—A typographical unit or larger was renumbered and transferred from one place to another place in the CFR with no change in text.

**Removed**—A typographical unit was removed from the CFR.

**Revised**—A typographical unit of the CFR was set forth in full.

**Superseded**—An existing CFR unit was replaced by regulations appearing under another CFR unit.

**Suspension**—The entire CFR unit was not in effect for the period of time indicated.

**Suspension in part**—A portion of the CFR unit was not in effect for the period of time indicated.

**Technical amendment**—General amendment that may have no substantive effect on regulations.

**Typographical unit**—A numbered, lettered or undesignated entity appearing in the CFR.

### TABLE OF FEDERAL REGISTER ISSUE PAGES AND DATES

A finding aid has been included at the end of this issue which lists the page numbers with the date of publication in the Federal Register.

### INQUIRIES AND SUGGESTIONS

Future monthly issues of the List of Sections Affected also will appear in this format. The Office of the Federal Register hopes to bring about other changes which will improve the usefulness of the Federal Register and the Code of Federal Regulations. Inquiries concerning this and other publications of this office and suggestions for improvements will be welcomed by the Director, Office of the Federal Register, National Archives and Records Service, Washington, D.C. 20408.

### SUBJECT INDEX

A subject index to the daily Federal Register is published separately, covering the contents of the Federal Register as follows: Monthly for the months of January, February, April, May, July, August, October, November and December; quarterly for the quarters ending in March, June and September; and annually for the calendar year.

## PARALLEL TABLE OF STATUTORY AUTHORITIES AND RULES

(Additions to 2 CFR; January-March 1973)

This table lists the sections of the U.S. Code which were added to 2 CFR as a result of new citations of authority carried in the *Federal Register* during January-March 1973. Recent legislation not yet assigned within the U.S. Code is carried by public law number at the end of the list.

In order to determine the *Federal Register* page numbers of the parallel CFR citations, users should consult the list of CFR Sections Affected, above.

—Truck-camper loading, consumer information	26607; 12-14-72
—Use of Canadian driver's log form.	1934; 1-19-73

federal register  
Area Code 202  
Phone 962-6626

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C. Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by the Executive Branch of the Federal Government. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for \$2.50 per month or \$25 per year, payable in advance. The charge for individual copies is 20 cents for each issue, or 20 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

## List of CFR Parts Affected

The following numerical guide is a list of the parts of each title of the Code of Federal Regulations affected by documents published in today's issue. A cumulative list of parts affected, covering the current month to date, appears following the Notices section of each issue beginning with the second issue of the month. In the last issue of the month the cumulative list will appear at the end of the issue.

A cumulative guide is published separately at the end of each month. The guide lists the parts and sections affected by documents published since January 1, 1973, and specifies how they are affected.

## Rules and Regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510. The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

**Title 1—General Provisions**  
**CHAPTER I—ADMINISTRATIVE**  
**COMMITTEE OF THE FEDERAL REGISTER**  
**CFR CHECKLIST**  
**1973 Issuances**

This checklist, prepared by the Office of the Federal Register, is published in the first issue of each month. It is arranged in the order of CFR titles, and shows the issuance date and price of revised volumes of the Code of Federal Regulations issued to date during 1973. New units issued during the month are announced on the back cover of the daily FEDERAL REGISTER as they become available.

Order from Superintendent of Documents, Government Printing Office, Washington, D.C. 20402.

CFR unit (Rev. as of Jan. 1, 1973):

Title	Price
1.....	\$0.55
2 (Reserved)	
7 Part 750-899.....	2.10
8.....	1.85
11.....	.75

**Title 4—Accounts**  
**CHAPTER III—COST ACCOUNTING**  
**STANDARDS BOARD**  
**SUBCHAPTER A—ADMINISTRATION**  
**PART 303—RELEASE OF INFORMATION**  
**Fees for Copying Board Records**

The purpose of this publication by the Cost Accounting Standards Board is to modify Part 303, Release of Information, of its rules and regulations by reducing the fee set forth in § 303.5 for copying Board records. Initially, the Board established a fee of 25 cents per page. This fee was based on the Board's estimates of the probable cost of preparing such copies and on information regarding the fees charged by other agencies. Experience indicates that the cost for copying will not be as high as originally estimated and that a 10-cent-per-page charge will suffice. This is consistent with the experience of other agencies which have adopted lower fee schedules.

Section 303.5 *Fees for copying* is revised as follows:

**§ 303.5 Fees for copying.**

(a) The fee for copying Board records shall be 10 cents per page for standard-size pages. The fee for copying non-standard-size pages shall be determined proportionately.

(b) Fees shall be paid in advance to the Cost Accounting Standards Board.

(c) There shall be no charge made for search, retrieval, and handling of records.

*Effective date.* This amendment is effective on March 1, 1973.

(84 Stat. 796, sec. 103; 50 U.S.C. App. sec. 2168)

ARTHUR SCHOENHAUT,  
*Executive Secretary.*

[FR Doc. 73-3793 Filed 2-28-73; 8:45 am]

**Title 9—Animals and Animal Products**  
**CHAPTER I—ANIMAL AND PLANT HEALTH**  
**INSPECTION SERVICE, DEPARTMENT**  
**OF AGRICULTURE**

**SUBCHAPTER C—INTERSTATE TRANSPORTATION OF ANIMALS (INCLUDING POULTRY) AND ANIMAL PRODUCTS; EXTRAORDINARY EMERGENCY REGULATION OF INTRASTATE ACTIVITIES**

[Docket No. 73-514]

**PART 76—HOG CHOLERA AND OTHER COMMUNICABLE SWINE DISEASES**

**Release of Area Quarantined**

The amendment excludes portions of Northampton, Hertford, and Gates Counties in North Carolina from the areas quarantined because of hog cholera. Therefore, the restrictions pertaining to the interstate movement of swine and swine products from or through quarantined areas contained in 9 CFR Part 76, as amended, do not apply to the excluded area, but will continue to apply to the quarantined areas described in § 76.2(e). Further, the restrictions pertaining to the interstate movement of swine and swine products from nonquarantined areas contained in said Part 76 apply to the excluded area. No area in North Carolina remains under quarantine.

Pursuant to provisions of the Act of May 29, 1884, as amended, the Act of February 2, 1903, as amended, the Act of March 3, 1905, as amended, the Act of September 6, 1961, and the Act of July 2, 1962 (21 U.S.C. 111-113, 114g, 115, 117, 120, 121, 123-126, 134b, 134f), Part 76, Title 9, Code of Federal Regulations, restricting the interstate movement of swine and certain products because of hog cholera and other communicable swine diseases, is hereby amended in the following respects:

In § 76.2, paragraph (e) (3) relating to the State of North Carolina is deleted. (Secs. 4-7, 23 Stat. 32, as amended; secs. 1 and 2, 32 Stat. 791-792, as amended; secs. 1-4, 33 Stat. 1264, 1265, as amended; sec. 1, 75 Stat. 481; secs. 3 and 11, 76 Stat. 130, 132; 21 U.S.C. 111-113, 114g, 115, 117, 120, 121, 123-126, 134b, 134f; 37 FR 28464, 28477)

*Effective date.* The foregoing amendment shall become effective February 23, 1973.

The amendment relieves restrictions presently imposed but no longer deemed necessary to prevent the spread of hog cholera and must be made effective promptly in order to be of maximum benefit to affected persons. It does not appear that public participation in this rule making proceeding would make additional relevant information available to the Department.

Accordingly, under the administrative procedure provisions in 5 U.S.C. 553, it is found upon good cause that notice and other public procedure with respect to the amendment are impracticable and unnecessary, and good cause is found for making it effective less than 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 23d day of February 1973.

C. H. WISE,  
*Acting Administrator, Animal and Plant Health Inspection Service.*

**Title 14—Aeronautics and Space**  
**CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION**

[Airspace Docket No. 72-SW-75]

**PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS**

**Alteration of VOR Federal Airway**

On December 8, 1972, a notice of proposed rule making (NPRM) was published in the FEDERAL REGISTER (37 FR 26125) stating that the Federal Aviation Administration (FAA) was considering an amendment to Part 71 of the Federal Aviation Regulations that would alter VOR Federal Airway No. 306 to the north between Navasota, Tex., and Daisetta, Tex.

Interested persons were afforded an opportunity to participate in the proposed rule making through the submission of comments. Two comments were received in response to this proposal. The Air Transport Association of America concurred with the proposal. The manager of the Cleveland Municipal Airport objected to the proposal. The objection was resolved by changing the Daisetta, Tex. 286° T to 283° T radial.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations

is amended, effective 0901 G.m.t., April 26, 1973, as hereinafter set forth.

Section 71.123 (38 FR 307) is amended as follows:

In V-306 "via Navasota, Tex.; Dalsetta, Tex.;" is deleted and "via Navasota, Tex.; INT of Navasota 084° and Dalsetta, Tex. 283° radials; Dalsetta;" is substituted therefor.

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348(a); sec. 6(c), Department of Transportation Act 49 U.S.C. 1655(c))

Issued in Washington, D.C., on February 22, 1973.

CHARLES H. NEWPOL,  
Chief, Airspace and Air  
Traffic Rules Division.

[Airspace Docket No. 72-RM-25]

# **PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS**

## **Designation of Transition Area**

On January 9, 1973, a notice of proposed rule making was published in the FEDERAL REGISTER (38 FR 1125) stating that the Federal Aviation Administration was considering an amendment to Part 71 of the Federal Aviation Regulations that would designate a transition area at Madison, S. Dak.

Interested persons were given 30 days in which to submit written comments, suggestions, or objections. No objections have been received and the proposed amendment is hereby adopted without change.

**Effective date.** This amendment shall be effective 0901 G.m.t., May 24, 1973.

(Sec. 307(a), Federal Aviation Act of 1958, as amended, 49 U.S.C. 1348(a); sec. 6(c), Department of Transportation Act 49 U.S.C. 1655(c))

Issued in Aurora, Colo., on February 20, 1973.

M. M. MARTIN,  
Director, Rocky Mountain Region.

In § 71.181 (37 FR 2143) the description of the Madison, S. Dak., transition area is designated to read:

MADISON, S. DAK.

That airspace extending upward from 700 feet above the surface within a 5-mile radius of the Madison Municipal Airport (latitude 44°00'54" N., longitude 97°04'45" W.); within 3 miles each side of the 346° bearing from the Madison Municipal Airport, extending from the 5-mile radius to 8½ miles north of the airport; and that airspace extending upward from 1,200 feet above the surface within 5½ miles east and 9½ miles west of the 346° and 166° bearings from the Madison Municipal Airport; extending from 7 miles south of the airport to 18½ miles north of the airport.

## **RULES AND REGULATIONS**

[Airspace Docket No. 72-CE-24]

# **PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS**

## **Alteration of Transition Area; Correction**

In FR Doc. 72-21070 appearing on page 26101 of the issue for Friday, December 8, 1972, the Parsons, Kans., transition area description is corrected by deleting "Tri-City RBN" each place it appears in the text and substituting "Parsons RBN" therefor.

Issued in Kansas City, Mo., on February 6, 1973.

JOHN M. CYROCKI,  
Director, Central Region.

[FR Doc 73-3761 Filed 2-28-73; 8:45 am]

[Docket No. 12570; Amdt. No. 853]

# **PART 97—STANDARD INSTRUMENT APPROACH PROCEDURES**

## **Recent Changes and Additions**

This amendment to Part 97 of the Federal Aviation Regulations incorporates by reference therein changes and additions to the Standard Instrument Approach Procedures (SIAPs) that were recently adopted by the Administrator to promote safety at the airports concerned.

The complete SIAPs for the changes and additions covered by this amendment are described in FAA Forms 3139, 8260-3, 8260-4, or 8260-5 and made a part of the public rulemaking dockets of the FAA in accordance with the procedures set forth in Amendment No. 97-696 (35 FR 5609).

SIAPs are available for examination at the Rules Docket and at the National Flight Data Center, Federal Aviation Administration, 800 Independence Avenue SW., Washington, DC 20591. Copies of SIAPs adopted in a particular region are also available for examination at the headquarters of that region. Individual copies of SIAPs may be purchased from the FAA Public Document Inspection Facility, HQ-405, 800 Independence Avenue SW., Washington, DC 20591 or from the applicable FAA regional office in accordance with the fee schedule prescribed in 49 CFR 7.85. This fee is payable in advance and may be paid by check, draft or postal money order payable to the Treasurer of the United States. A weekly transmittal of all SIAP changes and additions may be obtained by subscription at an annual rate of \$150 per annum from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Additional copies mailed to the same address may be ordered for \$30 each.

Since a situation exists that requires immediate adoption of this amendment, I find that further notice and public procedure hereon is impracticable and good cause exists for making it effective in less than 30 days.

In consideration of the foregoing, Part 97 of the Federal Aviation Regulations is amended as follows, effective on the dates specified:

1. Section 97.23 is amended by originating, amending, or canceling the following VOR-VOR/DME SIAPs, effective April 12, 1973.

Findlay, Ohio—Findlay Airport, VOR Runway 7, Amdt. 6.

Fresno, Calif.—Fresno-Chandler Downtown Airport, VOR-A, Amdt. 2.

Logan, Utah—Logan-Cache Airport, VOR-A, original.

Logan, Utah—Logan-Cache Airport, VOR-B, original.

Martha's Vineyard, Mass.—Martha's Vineyard Airport, VOR Runway 6, original.

Martha's Vineyard, Mass.—Martha's Vineyard Airport, VOR Runway 24, Amdt. 6.

\*\*\* effective March 15, 1973.

Big Rapids, Mich.—Roben Hood Airport, VOR-A, original.

2. Section 97.25 is amended by originating, amending, or canceling the following SDF-LOC-SDF SIAPs, effective April 12, 1973.

Atlanta, Ga.—Fulton County Airport, LOC-A, original, canceled.

Atlanta, Ga.—Fulton County Airport, LOC Runway 8R, original.

\*\*\* effective April 5, 1973.

Baltimore, Md.—Friendship International Airport, LOC (BC) Runway 28, Amdt. 9.

Baltimore, Md.—Friendship International Airport, LOC (BC) Runway 33, Amdt. 1.

3. Section 97.27 is amended by originating, amending, or canceling the following NDB/ADF SIAPs, effective April 12, 1973.

Atlanta, Ga.—Fulton County Airport, NDB-A, Amdt. 1, canceled.

Atlanta, Ga.—Fulton County Airport, NDB Runway 8R, original.

Florence, S.C.—Florence Municipal Airport, NDB Runway 9, Amdt. 3.

Fresno, Calif.—Fresno-Chandler Downtown Airport, NDB-A, Amdt. 2.

Logan, Utah—Logan-Cache Airport, NDB-A, original.

Logan, Utah—Logan-Cache Airport, NDB (ADF) Runway 17, Amdt. 2, canceled.

Martha's Vineyard, Mass.—Martha's Vineyard Airport, NDB Runway 24, Amdt. 15.

Troutdale, Oreg.—Portland-Troutdale Airport, NDB-A, Amdt. 1.

\*\*\* effective February 21, 1973.

Appleton, Wis.—Outagamie County Airport, NDB Runway 2, Amdt. 2.

\*\*\* effective February 16, 1973.

La Crosse, Wis.—La Crosse Municipal Airport, NDB Runway 18, Amdt. 2.

4. Section 97.29 is amended by originating, amending, or canceling the following ILS SIAPs, effective April 12, 1973.

Florence, S.C.—Florence Municipal Airport, ILS Runway 9, Amdt. 3.

97.29 \*\*\* effective February 21, 1973.

Appleton, Wis.—Outagamie County Airport, ILS Runway 2, Amdt. 3.

## **RULES AND REGULATIONS**

5. Section 97.31 is amended by originating, amending, or canceling the following Radar SIAPs, effective April 12, 1973.

Reno, Nev.—Reno International Airport, Radar-1, Amdt. 1.

(Secs. 307, 313, 601, 1110, Federal Aviation Act of 1958; 49 U.S.C. 1438, 1354, 1421, 1510; sec. 6(c) Department of Transportation Act, 49 U.S.C. 1655(c) and 5 U.S.C. 552(a) (1))

Issued in Washington, D.C., on February 22, 1973.

C. R. MELUGIN, Jr.,  
Acting Director,  
Flight Standards Service.

NOTE: Incorporation by reference provisions in §§ 97.10 and 97.20 (35 FR 5610) approved by the Director of the Federal Register on May 12, 1969.

# **Title 17—Commodity and Securities Exchanges**

## **CHAPTER II—SECURITIES AND EXCHANGE COMMISSION**

[Releases Nos. 33-5310, 34-9796, IC-7390, IA-336]

# **PART 231—INTERPRETATIVE RELEASES RELATING TO THE SECURITIES ACT OF 1933 AND GENERAL RULES AND REGULATIONS THEREUNDER**

## **PART 241—INTERPRETATIVE RELEASES RELATING TO THE SECURITIES EXCHANGE ACT OF 1934 AND GENERAL RULES AND REGULATIONS THEREUNDER**

## **PART 271—INTERPRETATIVE RELEASES RELATING TO THE INVESTMENT COMPANY ACT OF 1940 AND GENERAL RULES AND REGULATIONS THEREUNDER**

## **PART 276—INTERPRETATIVE RELEASES RELATING TO THE INVESTMENT ADVISERS ACT OF 1940 AND GENERAL RULES AND REGULATIONS THEREUNDER**

## **Commencement of Enforcement Proceedings and Termination of Staff Investigations**

The Report of the Advisory Committee on Enforcement Policies and Practices, submitted to the Commission on June 1, 1972, contained several recommendations designed to afford persons under investigation by the Commission an opportunity to present their positions to the Commission prior to the authorization of an enforcement proceeding. These procedural measures, if adopted, would in general require that a prospective defendant or respondent be given notice of the staff's charges and proposed enforcement recommendation and be accorded an opportunity to submit a written statement to the Commission which would accompany the staff recommendation. The objective of the recommended procedures is to place before the Commission prior to the authorization of an enforcement proceeding the contentions of both its staff and the adverse party.

See Report of the Advisory Committee on Enforcement Policies and Practices, June 1, 1972, p. 31, et seq.

concerning the facts and circumstances which form the basis for the staff recommendation.<sup>2</sup>

The Commission has given these recommendations careful consideration. While it agrees that the objective is sound, it has concluded that it would not be in the public interest to adopt formal rules for that purpose. Rather, it believes it necessary and proper that the objective be attained, where practicable, on a strictly informal basis in accordance with the procedures which are now generally in effect.

The Commission desires not only to be informed of the findings made by its staff but also, where practicable and appropriate, to have before it the position of persons under investigation at the time it is asked to consider enforcement action.

The Commission, however, is also conscious of its responsibility to protect the public interest. It cannot place itself in a position where, as a result of the establishment of formal procedural requirements, it would lose its ability to respond to violative activities in a timely fashion.

The Commission believes that the adoption of formal requirements could seriously limit the scope and timeliness of its possible action and inappropriately inject into actions it brings issues, irrelevant to the merits of such proceedings, with respect to whether or not the defendant or respondent had been afforded an opportunity to be heard prior to the institution of proceedings against him and the nature and extent of such opportunity.

The Commission is often called upon to act under circumstances which require immediate action if the interests of investors or the public interest are to be protected. For example, in one recent case involving the insolvency of a broker-dealer firm, the Commission was successful in obtaining a temporary injunctive decree within 4 hours after the staff had learned of the violative activities. In cases such as that referred to, where prompt action is necessary for the protection of investors, the establishment of fixed time periods, after a case is otherwise ready to be brought, within which proposed defendants or respondents could present their positions would result in delay contrary to the public interest.

<sup>2</sup> It should be noted that the obtaining of a written statement from a person under investigation is expressly authorized by section 20(a) of the Securities Exchange Act of 1934, section 21(a) of the Exchange Act provides as follows: "The Commission may, in its discretion, make such investigations as it deems necessary to determine whether any person has violated or is about to violate any provision of this title or any rule or regulation thereunder, and may require or permit any person to file with it a statement in writing, under oath or otherwise as the Commission shall determine, as to all the facts and circumstances concerning the matter to be investigated. . . ."

The Commission, however, wishes to give public notice of a practice, which it has heretofore followed on request, of permitting persons involved in an investigation to present a statement to it setting forth their interests and position. But the Commission cannot delay taking action which it believes is required pending the receipt of such a submission, and, accordingly, it will be necessary, if the material is to be considered, that it be timely submitted. In determining what course of action to pursue, interested persons may find it helpful to discuss the matter with the staff members conducting the investigation. The staff, in its discretion, may advise prospective defendants or respondents of the general nature of its investigation, including the indicated violations as they pertain to them, and the amount of time that may be available for preparing a submission. The staff must, however, have discretion in this regard in order to protect the public interest and to avoid not only delay, but possible untoward consequences which would obstruct or delay necessary enforcement action.

Where a disagreement exists between the staff and a prospective respondent or defendant as to factual matters, it is likely that this can be resolved in an orderly manner only through litigation. Moreover, the Commission is not in a position to, in effect, adjudicate issues of fact before the proceeding has been commenced and the evidence placed in the record. In addition, where a proposed administrative proceeding is involved, the Commission wishes to avoid the possible danger of apparent prejudgment involved in considering conflicting contentions, especially as to factual matters, before the case comes to the Commission for decision. Consequently, submissions by prospective defendants or respondents will normally prove most useful in connection with questions of policy, and, on occasion, questions of law, bearing upon the question of whether a proceeding should be initiated, together with considerations relevant to a particular prospective defendant or respondent which might not otherwise be brought clearly to the Commission's attention.

Submissions by interested persons should be forwarded to the appropriate Division Director or Regional Administrator with a copy to the staff members conducting the investigation and should be clearly referenced to the specific investigation to which it relates. In the event that a recommendation for enforcement action is presented to the Commission by the staff, any submissions by interested persons will be forwarded to the Commission in conjunction with the staff memorandum.

It is hoped that this release will be useful in encouraging interested persons to make their views known to the Commission and in setting forth the procedures by which that objective can best be achieved.

The Advisory Committee also recommended that the Commission should adopt in the usual case the practice of notifying a person who is the subject of an investigation, and against whom no further action is contemplated, that the staff has concluded its investigation of the matters referred to in the investigative order and has determined that it will not recommend the commencement of an enforcement proceeding against him.\*

We believe this is a desirable practice and are taking steps to implement it in certain respects. However, we do not believe that we can adopt a rule or procedure under which the Commission in each instance will inform parties when its investigation has been concluded. This is true because it is often difficult to determine whether an investigation has been concluded or merely suspended, and because an investigation believed to have been concluded may be reactivated as a result of unforeseen developments. Under such circumstances, advice that an investigation has been concluded could be misleading to interested persons.

The Commission is instructing its staff that in cases where such action appears appropriate, it may advise a person under inquiry that its formal investigation has been terminated. Such action on the part of the staff will be purely discretionary on its part for the reasons mentioned above. Even if such advice is given, however, it must in no way be construed as indicating that the party has been exonerated or that no action may ultimately result from the staff's investigation of that particular matter. All that such a communication means is that the staff has completed its investigation and that at that time no enforcement action has been recommended to the Commission. The attempted use of such a communication as a purported defense in any action that might subsequently be brought against the party, either civilly or criminally, would be clearly inappropriate and improper since such a communication, at the most, can mean that, as of its date, the staff of the Commission does not regard enforcement action as called for based upon whatever information it then has. Moreover, this conclusion may be based upon various reasons, some of which, such as workload considerations, are clearly irrelevant to the merits of any subsequent action.

By the Commission, September 27, 1972.

#### Title 18—Conservation of Power and Water Resources

##### CHAPTER II—TENNESSEE VALLEY AUTHORITY

#### PART 305—LAND BETWEEN THE LAKES

##### Subpart A—Use of Motorized Vehicles

In accordance with the requirements of section 4 of Executive Order 11644,

\* Report, p. 20.

this document establishes regulations prescribing operating conditions for off-road vehicles, and also for other vehicles, in the designated portions of TVA's recreation and conservation demonstration area, Land Between the Lakes. It prescribes licensing, speed, and equipment requirements for roads open to general vehicular travel, provides for the designation of areas where the use of off-road vehicles will be permitted, and designates the areas presently available for such use. The regulations specify the times when designated areas will be open for off-road vehicle operation, limitations on their use designed to prevent significant adverse effects on the environment, equipment requirements and other safety measures, and provisions for enforcement of the regulations. As required by Executive Order 11644, the regulations are directed at protecting resource values, preserving public health, safety, and welfare, and minimizing use conflicts.

**Effective date.** These regulations are effective April 1, 1973.

LYNN SEEGER,  
General Manager.

##### Subpart A—Use of Motorized Vehicles

- Sec.  
305.1 Motor vehicles generally.  
305.2 Motorcycles.  
305.3 Off-road vehicles.  
305.4 Major off-road vehicle areas.  
305.5 Mini-bike areas at family campgrounds as designated.  
305.6 Enforcement.

**AUTHORITY:** 16 U.S.C. 831-831dd, Sections 305.1 to 305.6 also issued under 42 U.S.C. 4321 and E.O. 11644, 37 FR 2877.

##### § 305.1 Motor vehicles generally.

All properly licensed motor vehicles may be operated on paved, graveled, or graded roads unless otherwise posted or gated or barricaded, and on other roads if specifically authorized in writing by an authorized Land Between the Lakes official. Driving in woods or fields or on footpaths or utility rights of way is prohibited, except as authorized in §§ 305.3-305.5. Drivers must hold a valid State operator's license to drive on improved roads. All vehicles must be equipped with properly functioning mufflers. Maximum speed within Land Between the Lakes is 35 miles per hour or less if so posted, except on the Trace and U.S. Highway 68, where a maximum speed of 60 miles per hour is permitted unless posted for reduced speeds.

**§ 305.2 Motorcycles.**

Motorcycles of all types shall be equipped with properly functioning spark arresters. Safety requirements for motorcycle riders on improved roads are safety helmets and protective eyewear.

##### § 305.3 Off-road vehicles.

Except for operation as authorized in § 305.1, off-road vehicles, including trail bikes and mini-bikes, may be operated only within the posted boundaries of areas designated by TVA for this purpose during daylight hours, in accordance with posted regulations, and at the

sole risk of the operator. TVA recommends that off-road vehicle riders follow all safety practices recommended by the American Motorcycle Association regarding safety helmets, heavy shoes, protective clothing, and protective shatterproof eyewear. All vehicles shall be equipped with properly functioning mufflers, and motorcycles with spark arresters. No vehicles emitting an unusually loud noise may be operated in such areas. All operation of such vehicles shall be in full compliance with applicable State laws. If such laws permit operation within such areas without registration and licensing, any unlicensed bikes must be transported to the areas.

##### § 305.4 Major off-road vehicle areas.

(a) Off-road vehicles of all kinds, including trail bikes and mini-bikes, may be operated within the posted boundaries of major off-road vehicle areas, which include trails, camping space, unloading ramps, and sanitary facilities. The only area presently so designated is the Turkey Bay Off-Road Vehicle Area, a 2,500-acre tract reached by a drive running west off the Trace approximately 2½ miles south of the U.S. Highway 68 overpass.

(b) Off-road vehicles may be operated in these areas from 8 a.m. until 30 minutes before sundown. Motors must be off at all other times except for the purpose of entering or leaving the area.

(c) The areas will not be made available for competitive events sponsored by any organized riding groups.

(d) All one-way and other directional signs on trails shall be strictly observed.

(e) Signs designating cemeteries, experimental plantings, and other portions of these areas as off limits to riders shall be strictly observed.

(f) All garbage and other debris must be placed in containers provided.

(g) Riders and campers in the areas shall not harass or otherwise disturb other persons or wildlife in any way.

##### § 305.5 Mini-bike areas at family campgrounds as designated.

(a) Mini-bikes and small trail bikes may be ridden on marked trails and within posted boundaries in areas designated for that purpose at family campgrounds. Such areas are presently designated at the Piney and Hillman Ferry campgrounds.

(b) These areas are open from 9:30 a.m. until 30 minutes before sundown.

(c) All bikes must be equipped with a properly functioning combination muffler and U.S. Forest Service-approved spark arrester.

(d) All one-way and other directional signs on trails shall be strictly observed.

(e) Reckless operation, horseplay, and any action endangering or disturbing other users is prohibited.

##### § 305.6 Enforcement.

Persons violating any of the foregoing rules and regulations may be excluded from Land Between the Lakes or denied use of the areas and trails designated

for operation of off-road vehicles, as deemed appropriate by authorized officials of Land Between the Lakes.

#### Title 21—Food and Drugs

#### CHAPTER I—FOOD AND DRUG ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

##### SUBCHAPTER A—GENERAL

#### PART 1—REGULATIONS FOR THE ENFORCEMENT OF THE FEDERAL FOOD, DRUG, AND COSMETIC ACT AND THE FAIR PACKAGING AND LABELING ACT

##### Nutrition Labeling; Correction

In FR Doc. 73-988, appearing at page 2125 in the issue of Friday, January 19, 1973, the second sentence in § 1.17(a) on page 2130 is corrected to read "Except as provided in paragraph (h) of this section, inclusion of any added nutrient in a product or of any nutrition claim or information, other than sodium and/or cholesterol content, on a label or in advertising for a food subjects the label to the requirements of this section, and in labeling for a food subjects the label and that labeling to the requirements of this section except that the label of a food will not be subject to the requirements of this section solely because of a manufacturer's or distributor's direct written reply to an unsolicited request for information on the nutrient, cholesterol, or calorie content of such a food."

Dated: February 23, 1973.

WILLIAM F. RANDOLPH,  
Acting Associate Commissioner  
for Compliance.

[FR Doc. 73-3886 Filed 2-28-73; 8:45 am]

##### SUBCHAPTER C—DRUGS

#### PART 148e—ERYTHROMYCIN Erythromycin Ethylsuccinate Oral Suspension

The Commissioner has evaluated data submitted in accordance with regulations promulgated under section 507 of the Federal Food, Drug, and Cosmetic Act, with respect to approval of a reformulation of the antibiotic drug erythromycin ethylsuccinate oral suspension.

The Commission concludes that data supplied by the manufacturer concerning the subject antibiotic drug is adequate to establish its safety and efficacy when used as directed in the labeling and that the regulations should be amended to provide for the certification of this drug.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 507, 59 Stat. 463, as amended; 21 U.S.C. 357) and under authority delegated to the Commissioner (21 CFR 2.120), Part 148e is amended in § 148e.13 by revising paragraphs (a) (1), (a) (3) (i) (b), and (b) to read as follows:

#### RULES AND REGULATIONS

##### § 148e.13 Erythromycin ethylsuccinate oral suspension.

(a) . . . .  
(1) *Standards of identity, strength, quality, and purity.* Erythromycin ethylsuccinate oral suspension is erythromycin ethylsuccinate with suitable and harmless buffer substances, dispersing agents, diluents, colorings, flavorings, and preservatives. Each milliliter contains erythromycin ethylsuccinate equivalent to 40 milligrams of erythromycin. Its potency is satisfactory if it is not less than 90 percent and not more than 120 percent of the number of milligrams of erythromycin that it is represented to contain. Its pH is not less than 6.5 and not more than 8.5. The erythromycin ethylsuccinate used conforms to the standards prescribed by § 148e.7(a) (1).

(3) . . . .  
(i) . . . .

(b) The batch for potency and pH.

(b) *Tests and methods of assay—(1) Potency.* Proceed as direct in § 141.110 of this chapter, preparing the sample for assay as follows: Place an accurately measured representative volume of the suspension into a high-speed glass blender jar and add sufficient methyl alcohol to give a concentration of 1.0 milligram of erythromycin base per milliliter (estimated). Blend for 3 to 5 minutes. Further dilute with 0.1M potassium phosphate buffer, pH 8.0 (solution 3), to the reference concentration of 1.0 microgram of erythromycin base per milliliter (estimated).

(2) *pH.* Proceed as directed in § 141.503 of this chapter, using the undiluted drug.

Since the conditions prerequisite to providing for certification of this drug have been complied with and since the matter is noncontroversial in nature, notice and public procedure and delayed effective date are not prerequisites to this promulgation.

**Effective date.** This order shall be effective on March 1, 1973.

(Sec. 507, 59 Stat. 463, as amended; 21 U.S.C. 357)

Dated: February 21, 1973.

MARY A. MCENIRY,  
Assistant to the Director for  
Regulatory Affairs, Bureau of  
Drugs.

[FR Doc. 73-3888 Filed 2-28-73; 8:45 am]

#### PART 148m—TROLEANDOMYCIN Troleandomycin Oral Suspension; Upper Potency Limit

In a notice of proposed rule making published in the FEDERAL REGISTER of November 9, 1972 (37 FR 23845), the Commissioner of Food and Drugs proposed that Part 148m be amended to raise the upper limit of potency for troleandomycin oral suspension from 120 to 125 percent. Interested persons were invited to submit their comments in response to the notice of proposed rule making within 60 days. No comments were received. Accordingly, the Commissioner concludes that the antibiotic drug regulations should be amended as set forth below.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 507, 59 Stat. 463, as amended; 21 U.S.C. 357) and under authority delegated to the Commissioner (21 CFR 2.120), Part 148m is amended in § 148m.7 Troleandomycin oral suspension, to raise the upper limit of potency for the drug by changing "not more than 120 percent of the number of milligrams" in the third sentence of paragraph (a) (1) to read "not more than 125 percent of the number of milligrams".

**Effective date.** This order shall become effective April 2, 1973.  
(Sec. 507, 59 Stat. 463, as amended; 21 U.S.C. 357)  
Dated: February 22, 1973.

MARY A. MCENIRY,  
Assistant to the Director for  
Regulatory Affairs, Bureau of  
Drugs.

##### SUBCHAPTER F—REGULATIONS UNDER SPECIFIC ACTS OF CONGRESS OTHER THAN THE FEDERAL FOOD, DRUG, AND COSMETIC ACT

#### PART 295—REGULATIONS UNDER THE POISON PREVENTION PACKAGING ACT OF 1970

##### Temporary Exemption From Requirements for Poison Prevention Packaging for Metal Containers With 12 Aspirin Tablets

In the FEDERAL REGISTER of January 26, 1973 (38 FR 2487), the Commissioner of Food and Drugs published for comment petitions received from Sterling Drug, Inc., and American Home Products Corp. requesting exemptions from the child protection packaging requirements as they pertain to 12-tablet metal containers (tins) of aspirin. The time for comment expired on February 12, 1973.

Comments were received in support of the petitions from one of the petitioners (enclosing an affidavit of a physician who is an associate professor of physiology at the University of Texas Southwestern Medical School); a pediatrician who is director of the Poison Control Center at Duke University; the technical director of the Poison Information Center of the Academy of Medicine of Cleveland, who is a past president of the American Association of Poison Control Centers; a pediatrician, who is director of the Syracuse, N.Y., Poisoning Prevention Program and a member of the Committee on Accident Prevention of the American Academy of Pediatrics; a pediatrician, who is chief of the Pediatric Department at Madigan General Hospital, Tacoma, Wash., and the chairman of the Subcommittee on Accidental Poisoning of the American Academy of Pediatrics; the professor of

toxicology, pharmacology, and pathology and director of the Institute of Experimental Pathology and Toxicology at the Albany Medical College; an associate professor of pharmacology and associate professor of medicine at Cornell University Medical College; and Plough, Inc., a manufacturer and distributor of 5-grain aspirin packaged in 12-tablet tins. Two comments were received in opposition to the petitions, one from the American Academy of Pediatrics and one from the chief of the Maternal and Child Health Division of the Omaha-Douglas County Health Department, Omaha, Nebr. Burroughs Wellcome Co. requested that the temporary exemption be expanded to cover all packaging of aspirin-containing tablets of less than 75 grains aspirin content because the company has had on order since May 1972 safety closure caps for a 12-tablet bottle, which have not yet been supplied. Bristol-Myers Products, which currently markets an aspirin product in a vial containing 12 tablets using a safety closure that meets the requirements of the act and regulations, opposed the temporary exemption or, in the alternative, recommended that it be made a permanent exemption.

After considering all of the comments and other information available to him, the Commissioner concludes that a temporary exemption from the safety packaging closure requirements should be granted to permit manufacturers to use existing packaging until packaging meeting the requirements of the regulations is developed, or through June 30, 1973, whichever occurs first. Any packaging shipped in interstate commerce on or after July 1, 1973, must fully meet the requirements for safety packaging. This temporary exemption will not apply to flavored aspirin or aspirin intended for pediatric use.

The Commissioner recognizes that it is often difficult to draw a hard and fast line between the level that will cause serious personal injury or illness and the level that is free from serious harm, because of the numerous variables involved. It is apparent from the comments received on these petitions that the levels here involved (60 and 75 grains of aspirin) fall within a gray zone that is neither clearly harmful nor clearly safe. Under these circumstances, the Food and Drug Administration should always err on the side of caution. Accordingly, there is no question but that poison preven-

tion packaging should be required for all products containing aspirin above a minimal level as soon as is feasible. At the same time, however, the comments reflect the fact that the levels here involved have not, in actual practice, created a significant public health hazard. Comments from poison control centers and statistics from the National Clearinghouse for Poison Control Centers indicate that this quantity of aspirin, packaged in this way, has resulted in only four reported instances of accidental ingestion by a child in 1971, and in no known death, permanent harm, or serious injury.

The Commissioner has carefully reviewed the record of the companies on this matter. There appears to be no dispute that the companies in good faith entered into agreements to purchase an adequate supply of packaging that would meet the requirements of the regulations, and that the failure of closure manufacturers to meet their commitment was not the fault of the aspirin manufacturers. The Commissioner recognizes that at least one aspirin manufacturer has developed its own poison prevention packaging, and is aware of the competitive unfairness involved in a temporary exemption for others. To reduce this impact the exemption will be granted for only 4 months.

None of the comments seriously suggest that aspirin packaged in units of 12 tablets, containing 60 or 75 grains of aspirin, should permanently be exempt from the poison prevention packaging requirements, and the Commissioner would not entertain such a suggestion. The major reason for the enactment of the Poison Prevention Packaging Act of 1970 was the hazard associated with accidental ingestion of aspirin by children. The act provides for one noncomplying package, and this is the only package that should be permanently exempt. To permit a proliferation of noncomplying packages would, over the long run, substantially increase the potential hazard of accidental ingestion and thus undermine the entire purpose of the statute.

The Commissioner concludes that the temporary exemption here granted for 4 months will not create a public health hazard. The metal containers now being used come close to meeting the requirements for poison prevention packaging. The act itself permits manufacturers to use a noncomplying package, and

manufacturers have generally chosen bottles containing substantially more than 12 tablets for this permanent exemption. The act also permits manufacturers to use up their inventory of already manufactured products, and thus allows manufacturers to continue to market other noncomplying packages for an undeterminable period of time regardless of the temporary exemption granted in this order. The temporary exemption granted in this order permits interstate shipment only through June 30, 1973, and thus does not permit the interstate shipment of any noncomplying inventory of 12-tablet packages after that date pursuant to this temporary exemption.

Accordingly, pursuant to provisions of the Poison Prevention Packaging Act of 1970 (secs. 2(4), 3, 5, 84 Stat. 1670-1672; 15 U.S.C. 1471(4), 1472, 1474) and under authority delegated to the Commissioner (21 CFR 2.120), § 295.2(a) is amended by adding a new subdivision (iii) to paragraph (1) as follows:

**§ 295.2 Substances requiring "special packaging."**

- (a) . . . .
- (1) . . . .
- (i) . . . .

(iii) Unflavored aspirin-containing preparations in tablet form (other than those intended for pediatric use) that are packaged in a container with 12 or less tablets containing a total of less than 75 grains of aspirin: *Provided*, That this exemption shall expire on June 30, 1973, or on the date when packaging meeting the requirements of § 295.3 (a), (b), and (c) becomes available to the individual manufacturer, whichever occurs first, and in no event may such products be shipped in interstate commerce on or after July 1, 1973, except in compliance with the requirements of § 295.3 (a), (b), and (c).

**Effective date.** This order shall be effective on March 1, 1973.

(Secs. 2(4), 3, 5, 84 Stat. 1670-1672; 15 U.S.C. 1471(4), 1472, 1474)

Dated: February 23, 1973.

SHERWIN GARDNER,  
Acting Commissioner of  
Food and Drugs.

Title 24—Housing and Urban Development

CHAPTER X—FEDERAL INSURANCE ADMINISTRATION, DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

SUBCHAPTER B—NATIONAL FLOOD INSURANCE PROGRAM

PART 1914—AREAS ELIGIBLE FOR THE SALE OF INSURANCE

Status of Participating Communities

Section 1914.4 of Part 1914 of Subchapter B of Chapter X of Title 24 of the Code of Federal Regulations is amended by adding in alphabetical sequence a new entry to the table. In this entry, a complete chronology of effective dates appears for each listed community. Each date appearing in the last column of the table is followed by a designation which indicates whether the date signifies (1) the effective date of the authorization of the sale of flood insurance in the area under the emergency or under the regular flood insurance program; (2) the effective date on which the community became ineligible for the sale of flood insurance because of its failure to submit land use and control measures as required pursuant to § 1909.24(a); or (3) the effective date of a community's formal reinstatement in the program pursuant to § 1909.24(b). The entry reads as follows:

**§ 1914.4 Status of participating communities.**

State	County	Location	Map No.	State map repository	Local map repository	Effective date of authorization of sale of flood insurance for area

**Title 26—Internal Revenue**  
**CHAPTER I—INTERNAL REVENUE SERVICE, DEPARTMENT OF THE TREASURY**  
**SUBCHAPTER A—INCOME TAX**  
 [T.D. 7261]

**PART 1—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953**  
**Income Tax Treatment of Mineral Production Payments**

By a notice of proposed rule making appearing in the FEDERAL REGISTER for July 2, 1971 (36 FR 12624), and corrected in the FEDERAL REGISTER for July 14, 1971 (36 FR 13096), amendments to the Income Tax Regulations were proposed in order to conform such regulations to the provisions of section 503 of the Tax Reform Act of 1969 (83 Stat. 630), relating to the income tax treatment of mineral production payments. After consideration of all such relevant matter as was presented by interested persons regarding the rules proposed, certain changes were made, and the proposed amendments of the regulations,

as revised, are adopted by this document. In general, section 636 and the regulations thereunder provide that mineral production payments are to be treated as mortgage loans on the mineral property burdened thereby and not as "economic interests" in mineral in place.

Certain exceptions to this rule are provided (1) in the case of a production payment which is carved out of mineral property for the exploration or development of that property, and (2) in the case of a production payment retained in a mineral property by the lessor in a leasing transaction. In the latter case, insofar as the lessee is concerned the retained production payment is treated as a bonus granted by the lessor to the lessor payable in installments.

The proposed regulations had limited the application of the first exception to production payments carved out of a single mineral property. On the basis of comments received, this limitation has been modified and the final regulations refer parenthetically to production pay-

ments which are created from more than one mineral property.

The proposed regulations have also been amended to provide that, in general, an expenditure is for exploration or development to the extent that it is necessary for ascertaining the existence, location, extent, or quality of any deposit of mineral or is incident to and necessary for the preparation of a deposit for the production of mineral.

The proposed regulations contained an example of a "variable royalty" which is treated as a production payment under section 636 of the Code. Comments with respect to this provision expressed concern as to the scope of its application. Accordingly, another example has been added to illustrate the type of variable royalty which would not be treated as a production payment under section 636.

On July 2, 1971, notice of proposed rule making with respect to the amendments of the Income Tax Regulations (26 CFR Part 1) to conform such regulations to the amendments made by section 503 of the Tax Reform Act of 1969

(83 Stat. 630), relating to the income tax treatment of mineral production payments, was published in the FEDERAL REGISTER (36 FR 12624). On July 14, 1971, a notice of correction of such notice of proposed rule making was published in the FEDERAL REGISTER (36 FR 13096). After consideration of all such relevant matter as was presented by interested persons regarding the rules proposed, the amendment of regulations is hereby adopted, subject to the changes set forth below:

**PARAGRAPH 1.** Section 1.636-1, as set forth in paragraph 1 of the proposed rule making, is amended by revising paragraph (a) (1) (i) and (2) and so much of paragraph (b) (1) as precedes subdivision (ii) to read as set forth below.

**PAR. 2.** Paragraph (a) (2) of § 1.636-3, as set forth in paragraph 1 of the proposed rule making, is amended to read as set forth below.

(Sec. 636(e), 7805, Internal Revenue Code of 1954, 83 Stat. 630, 26 U.S.C. 636(e); 68A Stat. 917, 26 U.S.C. 7805)

[SEAL] **JOHNNIE M. WALTERS,**  
 Commissioner of Internal Revenue.

Approved: February 15, 1973.

**FREDERIC W. HICKMAN,**  
 Assistant Secretary  
 of the Treasury.

The regulations under section 636 of the Internal Revenue Code of 1954, as added by section 503(a) of the Tax Reform Act of 1969 (83 Stat. 630), relating to the income tax treatment of mineral production payments, set forth in paragraph 1 are hereby prescribed. Section 1.636-4 of the regulations hereby adopted supersedes those provisions of § 13.0 of this chapter relating to section 503(c) (2) of such Act, which were prescribed by T.D. 7032, approved March 9, 1970 (35 FR 4330). In addition, the Income Tax Regulations (26 CFR Part 1) are amended as set forth in paragraphs 2 through 7 to conform them to the rules relating to the income tax treatment of mineral production payments prescribed under section 636.

MINERAL PRODUCTION PAYMENTS	
Sec. 1.636	Statutory provisions; income tax treatment of mineral production payments.
1.636-1	Treatment of production payments as loans.
1.636-2	Production payments retained in leasing transactions.
1.636-3	Definitions.
1.636-4	Effective dates of section 636.

**PARAGRAPH 1.** There are inserted immediately after § 1.632-1 the following new sections:

**MINERAL PRODUCTION PAYMENTS**  
 § 1.636 Statutory provisions; income tax treatment of mineral production payments.

**Sec. 636. Income tax treatment of mineral production payments—(a) Carved-out production payment.** A production payment carved out of mineral property shall be treated, for purposes of this subtitle, as if it were a mortgage loan on the property, and shall not qualify as an economic interest in

the mineral property. In the case of a production payment carved out for exploration or development of a mineral property, the preceding sentence shall apply only if and to the extent gross income from the property (for purposes of section 613) would be realized, in the absence of the application of such sentence, by the person creating the production payment.

**(b) Retained production payment on sale of mineral property.** A production payment retained on the sale of a mineral property shall be treated, for purposes of this subtitle, as if it were a purchase money mortgage loan and shall not qualify as an economic interest in the mineral property.

**(c) Retained production payment on lease of mineral property.** A production payment retained in a mineral property by the lessor in a leasing transaction shall be treated, for purposes of this subtitle, insofar as the lessee (or his successors in interest) is concerned, as if it were a bonus granted by the lessor to the lessor payable in installments. The treatment of the production payment in the hands of the lessor shall be determined without regard to the provisions of this subsection.

**(d) Definition.** As used in this section the term "mineral property" has the meaning assigned to the term "property" in section 614(a).

**(e) Regulations.** The Secretary or his delegate shall prescribe such regulations as may be necessary to carry out the purposes of this section.

[Sec. 636 as added by sec. 503(a), Tax Reform Act 1969 (83 Stat. 630)]

**§ 1.636-1 Treatment of production payments as loans.**

**(a) In general.** (1) (i) For purposes of subtitle A of the Internal Revenue Code of 1954, a production payment (as defined in paragraph (a) of § 1.636-3) to which this section applies shall be treated as a loan on the mineral property (or properties) burdened thereby and not as an economic interest in mineral in place, except to the extent that § 1.636-2 or paragraph (b) of this section applies. See paragraph (b) of § 1.611-1. A production payment carved out of mineral property which remains in the hands of the person carving out the production payment immediately after the transfer of such production payment shall be treated as a mortgage loan on the mineral property burdened thereby. A production payment created and retained upon the transfer of the mineral property burdened by such production payment shall be treated as a purchase money mortgage loan on the mineral property burdened thereby. Such production payments will be referred to hereinafter in the regulations under section 636 as carved-out production payments and retained production payments, respectively. Moreover, in the case of a transaction involving a production payment treated as a loan pursuant to this section, the production payment shall constitute an item of income (not subject to depletion), consideration for a sale or exchange, a contribution to capital, or a gift if in the transaction a debt obligation used in lieu of the production payment would constitute such an item of income, consideration, contribution to capital, or gift, as the case may be. For the definition of the term "transfer" see paragraph (c) of § 1.636-3.

(ii) The payer of a production payment treated as a loan pursuant to this section shall include the proceeds from (or, if paid in kind, the value of) the mineral produced and applied to the satisfaction of the production payment in his gross income and "gross income from the property" (see section 613(a)) for the taxable year so applied. The payee shall include in his gross income (but not "gross income from the property") amounts received with respect to such production payment to the extent that such amounts would be includible in gross income if such production payment were a loan. The payer and payee shall determine their allowable deductions as if such production payment were a loan. See section 483, relating to interest on certain deferred payments in the case of a production payment created and retained upon the transfer of the mineral property burdened thereby, or in the case of a production payment transferred in exchange for property. See section 1232 in the case of a production payment which is originally transferred by a corporation at a discount and is a capital asset in the hands of the payee. In the case of a carved-out production payment treated as a mortgage loan pursuant to this section, the consideration received for such production payment by the taxpayer who created it is not included in either gross income or "gross income from the property" by such taxpayer.

(2) If a production payment is treated as a loan pursuant to this section, no transfer of such production payment or any property burdened thereby (other than a transfer between the payer and payee of the production payment which, if the production payment were a loan, would extinguish the loan) shall cause it to cease to be so treated. For example, A sells operating mineral interest X to B for \$100,000, subject to a \$500,000 retained production payment payable out of X. Subsequently, A sells the production payment to C, and B sells X to D. C and D must treat the production payment as a purchase money mortgage loan.

(3) The provisions of this paragraph may be illustrated by the following examples:

**Example (1).** On December 22, 1972, A, a cash-basis calendar-year taxpayer who owns operating mineral interest X, carves out of X a production payment in favor of B for \$300,000 plus interest, payable out of 50 percent of the first oil produced and sold from X. In 1972, A treats the \$300,000 received from B for the production payment as the proceeds of a mortgage loan on X. In 1973, A produces and sells 125,000 barrels of oil for \$373,500. A pays B \$186,750 with respect to the production payment, \$186,750 being principal and \$186,750 being interest. In computing his gross income and "gross income from the property" for the year 1973, A includes the \$373,500 and takes as deductions the allowable expenses paid in production of such mineral. A also takes a deduction under section 163 for the \$18,000 interest paid with respect to the production payment. For 1973, B would treat \$18,000 as ordinary income not subject to the allowance for depletion under section 611.

**Example (2).** Assume the same facts as in example (1) except that the principal amount

of the production payment is to be increased by the amount of the ad valorem tax on the mineral attributable to the production payment which is paid by B. Under State law, the ad valorem tax with respect to the mineral attributable to the production payment is a liability of the owner of the production payment. For 1973, B includes the amount received with respect to such taxes as income and takes a deduction under section 164 for the taxes paid by him. Since the ad valorem taxes paid by B are his liability under State law, A may not take a deduction under section 164 for such taxes.

**Example (3).** On December 31, 1974, C, a calendar-year taxpayer and owner of the operating mineral interest Y, sells Y to D for \$10,000 cash and retains a \$40,000 production payment payable out of Y. At the time D acquires the property, it is estimated that 500,000 tons of mineral are recoverable from the property. In 1975, D produces a total of 50,000 tons from the property. D's cost depletion for 1975 is \$5,000 determined as follows:

Basis in property:	\$50,000
Total recoverable units:	500,000
Rate of depletion per ton:	\$0.10
Cost depletion for year:	\$5,000 (\$0.10 × 50,000)

(b) **Exception.** (1) A production payment carved out of a mineral property (or properties) for exploration or development of such property (or properties) shall not be treated as a mortgage loan under section 636(a) and this section to the extent "gross income from the property" (for purposes of section 613) would not be realized by the taxpayer creating such production payment, under the law existing at the time of the creation of such production payment, in the absence of section 636(a). See section 83 and the regulations thereunder, relating to property transferred in connection with the performance of services. For purposes of section 636(a) and this paragraph, an expenditure is for exploration or development to the extent that it is necessary for ascertaining the existence, location, extent, or quality of any deposit of mineral or is incident to and necessary for the preparation of a deposit for the production of mineral. However, an expenditure which relates primarily to the production of mineral (as, for example, in the case of a pilot water flood program with respect to the secondary recovery of oil) is not for exploration or development as those terms are used in section 636(a) and this paragraph. Whether or not a production payment is carved out for exploration or development shall be determined in light of all relevant facts and circumstances, including any prior production of mineral from the mineral deposit burdened by the production payment. However, a production payment shall not be treated as carved out for exploration or development to the extent that the consideration for the production payment—

(i) Is not pledged for use in the future exploration or development of the mineral property (or properties) which is burdened by the production payment;

(ii) May be used for the exploration or development of any other property, or for any other purpose than that described in subdivision (i) of this subparagraph;

(iii) Does not consist of a binding obligation of the payee of the production payment to pay expenses of the exploration or development described in subdivision (i) of this subparagraph; or

(iv) Does not consist of a binding obligation of the payee of the production payment to provide services, materials, supplies, or equipment for the exploration or development described in subdivision (i) of this subparagraph.

(2) In the case of a carved-out production payment only a portion of which is subject to the exception provided in this paragraph, the rules contained in paragraph (a) of this section with respect to the treatment of income and deductions where a production payment is treated as a loan shall apply to the portion of the taxpayer's income or expenses attributable to the production payment which bears the same ratio to the total amount of such income or expenses, as the case may be, as the amount of the consideration for the production payment which would have been realized as income in the absence of section 636(a), by the taxpayer creating such production payment, bears to the total consideration to the taxpayer for the production payment. For example, A, owner of a mineral property, carves out a production payment in favor of B for \$600,000 plus interest in return for \$600,000 cash. A pledges to use \$400,000 for the development of the burdened mineral property. In each of the payout years loan treatment applies to one-third of the income and expenses of A and B attributable to the production payment.

(c) **Treatment upon disposition or termination of mineral property burdened by production payment.** (1) (i) In the case of a sale or other disposition of the mineral property burdened by a production payment treated as a loan pursuant to this section, there shall be included in determining the amount realized upon such disposition an amount equal to the outstanding principal balance of such production payment on the date of such disposition. However, if such a production payment is created in connection with the disposition, the amount to be so included shall be the fair market value of the production payment, rather than its principal amount, if the fair market value is established by clear and convincing evidence to be an amount which differs from the principal amount. See section 1001 and the regulations thereunder. In determining the cost of the transferred mineral property to the transferee for purposes of section 1012, the outstanding principal balance of the production payment shall be included in the cost.

(ii) The provisions of this subparagraph may be illustrated by the following examples:

**Example (1).** A, the owner of mineral property X which is burdened by a carved-out production payment to which section 636(a) applies having an outstanding principal balance of \$10,000, sells property X to B, an individual, for \$100,000 cash. The amount realized by A on the sale of property X is \$110,000. B's basis in property X for cost depletion and other purposes is also \$110,000.

**Example (2).** Assume the same facts as in example (1) except that the production payment is retained by A in connection with the sale of property X to B, that section 636(b) applies to the production payment, that the production payment includes, in addition to the \$10,000 principal amount, an additional amount equivalent to interest at a rate which precludes application of section 483, and that the fair market value of the production payment is \$9,000. The amount realized by A on the sale of property X is \$109,000. B's basis in property X for cost depletion and other purposes is \$110,000. A's basis in the retained production payment is \$9,000. If the production payment is paid in full, A realizes income of \$1,000 plus the amount equivalent to interest, which income is includible in A's gross income at the time when such amounts would be so includible if such production payment were a loan.

**Example (3).** C, the owner of mineral property Y, sells the mineral property to D for \$500,000 cash. Property Y is burdened by a carved-out production payment with an outstanding principal balance of \$600,000, 40 percent of the consideration for which was pledged for the development of property Y. The amount realized by C on the sale is \$880,000 (\$500,000 plus \$600,000 × .60). D's basis in property Y for cost depletion and other purposes is \$880,000.

(2) In the case of the expiration, termination, or abandonment of a mineral property burdened by a production payment treated as a loan pursuant to this section, for purposes of determining the amount of any loss under section 165 with respect to the burdened mineral property the adjusted basis of such property shall be reduced (but not below zero) by an amount equal to the outstanding principal balance of such production payment on the date of such expiration, termination, or abandonment. Thus, in example (2) in subparagraph (1) (ii) of this paragraph, if B abandons the mineral property at a time when \$5,000 of the principal amount of the production payment remains unsatisfied, B's adjusted basis immediately before the abandonment would be reduced by \$5,000 for determining his loss on abandonment under section 165.

(3) In the case of a transfer of a portion of the mineral property burdened by a production payment treated as a loan pursuant to this section, such production payment shall be apportioned between the transferred portion and the retained portion by allocating to such transferred portion that part of the outstanding principal balance of the production payment which bears the same ratio to such balance as the value of such transferred portion (exclusive of any value not related to the burdened mineral) bears to the total value of the burdened mineral property (exclusive of any value not related to the burdened mineral).

(4) In general, the entire amount of gain or loss realized pursuant to this paragraph shall be recognized in the taxable year of such realization. See section 1211 for limitation on capital losses. This subparagraph shall not affect the applicability of rules providing exceptions to the recognition of gain or loss which has been realized (e.g., a transfer to which section 351 or 1031 applies). However, see section 357(c) with respect to the assumption of liabilities in excess of basis in certain tax-free exchanges. Furthermore, in the case of a transaction which otherwise qualifies, gain realized on a transfer of a mineral property to which section 636(b) applies may be returned on the installment method under section 453.

#### § 1.636-2 Production payments retained in leasing transactions.

(a) **Treatment by lessee.** In the case of a production payment (as defined in paragraph (a) of § 1.636-3) which is retained by the lessor in a leasing transaction (including a sublease or the exercise of an option to acquire a lease or sublease), the lessee (or his successors in interest) shall treat the retained production payment for purposes of subtitle A of the Code as if it were a bonus granted by the lessee to the lessor payable in installments. Accordingly, the lessee shall include the proceeds from (or, if paid in kind, the value of) the mineral produced and applied to the satisfaction of the production payment in his gross income for the taxable year so applied. The lessee shall capitalize each payment (including any interest and any amounts added on to the production payment other than amounts for which the lessee would be liable in the absence of the production payment) paid or incurred with respect to such production payment. See paragraph (c) (5) (ii) of § 1.613-2 for rules relating to computation of percentage depletion with respect to a mineral property burdened by a production payment treated as a bonus under section 636(c) and this section.

(2) A right which is in substance economically equivalent to a production payment shall be treated as a production payment for purposes of section 636 and the regulations thereunder, regardless of the language used to describe such right, or the method of creation of such right, or the form in which such right is cast (even though such form is that of an operating mineral interest). Whether or not a right is in substance economically equivalent to a production payment shall be determined from all the facts and circumstances. An example of an interest which is to be treated as a production payment under this subparagraph is that portion of a "royalty" which is attributable to so much of the rate of the royalty which exceeds the lowest possible rate of the royalty at any subsequent time (disregarding any reductions in the rate of the royalty which are based solely upon changes in volume of production within a specified period of no more than 1 year). For example, assume that A creates a royalty with respect to a mineral property owned by A equal to 5

(c) **Example.** The provisions of this section may be illustrated by the following example:

**Example.** In 1971, A leases a mineral property to B reserving a one-eighth royalty and a production payment (as defined in § 1.636-3 (a)) with a principal amount of \$300,000 plus an amount equivalent to interest. In 1972, B pays to A \$60,000 with respect to the principal amount of the production payment plus \$16,350 equivalent to interest. The adjusted basis of the property in the hands of B for cost depletion and other purposes for

1972 and subsequent years will include (subject to proper adjustment under section 1016) the \$76,350 paid to A. In 1973, B pays to A \$80,000 with respect to the principal amount of the production payment plus \$12,750 equivalent to interest. The adjusted basis of the property in the hands of B for cost depletion and other purposes for 1973 and subsequent years will include (subject to proper adjustment under section 1016) the \$72,750 paid to A. The \$76,350 received by A in 1972, and the \$72,750 received by A in 1973, will constitute ordinary income subject to depletion in the hands of A in the years of receipt of such amounts by A.

#### § 1.636-3 Definitions.

For purposes of section 636 and the regulations thereunder—

(a) **Production payment.** (1) The term "production payment" means, in general, a right to a specified share of the production from mineral in place (if, as, and when produced), or the proceeds from such production. Such right must be an economic interest in such mineral in place. It may burden more than one mineral property, and the burdened mineral property need not be an operating mineral interest. Such right must have an expected economic life (at the time of its creation) of shorter duration than the economic life of one or more of the mineral properties burdened thereby. A right to mineral in place which can be required to be satisfied by other than the production of mineral from the burdened mineral property is not an economic interest in mineral in place. A production payment may be limited by a dollar amount, a quantum of mineral, or a period of time. A right to mineral in place has an economic life of shorter duration than the economic life of a mineral property burdened thereby only if such right may not reasonably be expected to extend in substantial amounts over the entire productive life of such mineral property. The term "production payment" includes payments which are commonly referred to as "in-oil payments", "gas payments", or "mineral payments".

(2) A right which is in substance economically equivalent to a production payment shall be treated as a production payment for purposes of section 636 and the regulations thereunder, regardless of the language used to describe such right, or the method of creation of such right, or the form in which such right is cast (even though such form is that of an operating mineral interest). Whether or not a right is in substance economically equivalent to a production payment shall be determined from all the facts and circumstances. An example of an interest which is to be treated as a production payment under this subparagraph is that portion of a "royalty" which is attributable to so much of the rate of the royalty which exceeds the lowest possible rate of the royalty at any subsequent time (disregarding any reductions in the rate of the royalty which are based solely upon changes in volume of production within a specified period of no more than 1 year). For example, assume that A creates a royalty with respect to a mineral property owned by A equal to 5

percent for 5 years and thereafter equal to 4 percent for the balance of the life of the property. An amount equal to 1 percent for 5 years shall be treated as a production payment. On the other hand, if A leases a coal mine to B in return for a royalty of 30 cents per ton on the first 500,000 tons of coal produced from the mine in each year and 20 cents per ton on all coal in excess of 500,000 tons produced from the mine in each year, the fact that the royalty may decline to 20 cents per ton on some of the coal in each year does not result in a production payment of 10 cents per ton of coal on the first 500,000 tons in any year. Another example of an interest which is to be treated as a production payment under this subparagraph is the interest in a partnership engaged in operating oil properties of a partner who provides capital for the partnership if such interest is subject to a right of another person or persons to acquire or terminate it upon terms which merely provide for such partner's recovery of his capital investment and a reasonable return thereon.

(b) **Property.** The term "property" has the meaning assigned to it in section 614(a), without the application of section 614(b), (c), or (e).

(c) **Transfer.** The term "transfer" means any sale, exchange, gift, bequest, devise, or other disposition (including a distribution by an estate or a contribution to or distribution by a corporation, partnership, or trust).

#### § 1.636-4 Effective dates of section 636.

(a) **In general.** Except as provided hereinafter in this section, section 636 and §§ 1.636-1, 1.636-2, and 1.636-3 apply to production payments created on or after August 7, 1969, other than production payments created before January 1, 1971, pursuant to a binding contract entered into before August 7, 1969.

(b) **Election.** Under section 503(c) (2) of the Tax Reform Act of 1969, if the taxpayer so elects, section 636(a) of the Code and §§ 1.636-1 and 1.636-3 apply to all production payments carved out by him after the beginning of his last taxable year ending before August 7, 1969, including such production payments created after such date pursuant to a binding contract entered into before such date. No interest shall be allowed on any refund or credit of any overpayment of tax resulting from an election under section 503(c) (2) for any taxable year ending before August 7, 1969. The provisions of this paragraph may be illustrated by the following example:

**Example.** A, a fiscal-year taxpayer whose taxable year ends on October 31, carved out and sold (from a producing property) production payments on October 1, 1967, and on July 9, 1969. On August 1, 1969, A entered into a binding contract to create another carved-out production payment (from a different producing property) and the production payment was carved out on December 22, 1969. If A elects under section 503(c) (2), the production payments carved out on July 9, 1969, and December 22, 1969, are treated as mortgage loans under section 636(a). The production payment carved out on October 1, 1967, is not treated as a mortgage

loan under section 636(a) because it was carved out before the beginning of A's last taxable year ending before August 7, 1969.

(c) *Time and manner of making election.* (1) Any election under section 503(c)(2) of the Tax Reform Act of 1969 must be made not later than the 90th day after the date on which permanent regulations under section 636(a) are published in the FEDERAL REGISTER.

(2) An election under section 503(c)(2) shall be made by a statement attached to the taxpayer's income tax return (or amended return) for the first taxable year in which the taxpayer created a production payment (i) to which the election applies, and (ii) which, in the absence of section 636, would not have been treated as a loan. A statement shall also be attached to an amended return for each subsequent taxable year for which he has filed his income tax return before making the election, but only if his tax liability for such year is affected by the election. Each such statement shall indicate the taxpayer's election under section 503(c)(2), and shall identify by date, amount, parties, and burdened mineral properties all production payments described in subdivisions (i) and (ii) of this subparagraph which have been created by the date on which the statement is filed. However, a taxpayer who, prior to the date on which permanent regulations under this section are published in the FEDERAL REGISTER, made a valid election under section 503(c)(2) pursuant to Part 13 of this chapter (Temporary Income Tax Regulations Under the Tax Reform Act of 1969) is not required to amend statements previously furnished which meet the requirements of paragraph (b)(1)(ii) of § 13.0 of Part 13 unless requested to do so by the district director. In applying the election to the taxable years affected, there shall be taken into account the effect that any adjustments resulting therefrom have on other items affected thereby and the effect that adjustments of any such items have on other taxable years. In the case of a member of a consolidated return group (as defined in paragraph (a) of § 1.1502-1), section 503(c)(2) and paragraphs (b), (c), and (d) of this section shall be applied as if such member filed a separate return.

(d) *Revocation of election.* A valid election under section 503(c)(2) shall be binding upon the taxpayer unless consent to revoke the election is obtained from the Commissioner. The application to revoke such election must be made in writing to the Commissioner of Internal Revenue, Washington, D.C. 20224, not later than the 90th day after the date on which permanent regulations under section 636(a) are published in the FEDERAL REGISTER. Such application must set forth the reasons therefor and a recomputation of the tax reflecting such revocation for each prior taxable year affected by the revocation, whether or not the period of limitations for credit or refund or assessment and collection has expired with respect to such

taxable year. Consent shall not be given in any case in which the revocation would result in an increase in the taxpayer's tax liability for a taxable year for which such period of limitations has expired unless the taxpayer waives his right to assert the statute of limitations.

(e) *Special rule.* (1) Except as provided in subparagraph (2) of this paragraph, in the case of a taxpayer who does not make the election provided in section 503(c)(2) of the Tax Reform Act of 1969, section 636 of the Code applies to production payments carved out during the taxable year which includes August 7, 1969, as provided in paragraph (a) of this section, only to the extent that the aggregate amount of such production payments exceeds the lesser of—

(i) The excess of—  
(a) The aggregate amount of production payments carved out and sold by the taxpayer during the 12-month period immediately preceding his taxable year which includes August 7, 1969, over

(b) The aggregate amount of production payments carved out and sold before August 7, 1969, by the taxpayer during his taxable year which includes such date, or

(ii) The amount necessary to increase the amount of the taxpayer's gross income within the meaning of chapter 1 of subtitle A of the Code, for his taxable year which includes August 7, 1969, to an amount equal to the amount of his deductions (other than any deduction under section 172) allowable for such year under such chapter.

In applying the preceding sentence, production payments carved out for exploration or development are to be taken into account only to the extent, if any, that "gross income from the property" (for purposes of section 613) would have been realized by the taxpayer creating such production payment under the law existing at the time of the creation of such production payment, in the absence of section 636(a).

(2) Subparagraph (1) of this paragraph shall not apply for any taxable year for purposes of determining the amount of any deduction for cost or percentage depletion allowable under section 611 or the limitation on any foreign tax credit under section 904.

(3) The application of this paragraph may be illustrated by the following examples:

*Example (1).* (a) A, a calendar-year taxpayer who does not make the election provided in section 503(c)(2) of the Tax Reform Act of 1969, carves out and sells on December 31, 1968, a \$500,000 production payment. Further, A carves out and sells on March 4, 1969, a \$300,000 production payment, and on November 14, 1969, a \$150,000 production payment. None of the production payments are carved out for exploration or development. During 1969, A has gross income of \$600,000 (determined initially for this purpose by treating the \$150,000 production payment carved out on November 14, 1969, as a loan) and allowable deductions of \$700,000.

(b) The provisions of section 636 do not apply to a portion of the November 14, 1969, production payment for purposes other than

section 611 and section 904 of the Code, determined as follows:

(1) Amount of production payment carved out in 1969 on or after August 7, 1969.....	\$150,000
(2) Amount of production payment carved out during 1969.....	500,000
(3) Amount of production payment carved out during 1969 taxable year before August 7, 1969.....	300,000
(4) Item (2) minus item (3).....	200,000
(5) Excess of allowable deductions over gross income for 1969.....	100,000
(6) Amount of production payment carved out in 1969 on or after August 7, 1969, to which section 636 does not apply (lesser of items (1), (4), and (5)).....	100,000

Thus, A will not treat \$100,000 of the consideration received for the production payment carved out on November 14, 1969, as a loan and as a result his gross income for 1969 will be \$700,000. However, in computing percentage depletion, A will not include the \$100,000 in "gross income from property" and in computing cost depletion A will not include the mineral units attributable thereto. Nor, will A include the \$100,000 in determining the limitation on foreign tax credit under section 904.

*Example (2).* Assume the same facts as in example (1) except that for taxable year 1969 A's gross income (determined initially for this purpose by treating the November 14, 1969, production payment as a loan) exceeds the amount of his allowable deductions under chapter 1 of subtitle A of the Code. The entire amount of the November 14, 1969, production payment is treated as a mortgage loan under section 636(a).

PAR. 2. Paragraph (b) of § 1.512(b)-1 is amended to read as follows:

§ 1.512(b)-1 Exceptions, additions, and limitations.

(b) *Royalties.* Royalties, including overriding royalties, and all deductions directly connected with such income shall be excluded in computing unrelated business taxable income. Mineral royalties shall be excluded whether measured by production or by gross or taxable income from the mineral property. However, where an organization owns a working interest in a mineral property, and is not relieved of its share of the development costs by the terms of any agreement with an operator, income received from such an interest shall not be excluded. To the extent not treated as a loan under section 636, payments in discharge of mineral production payments shall be treated in the same manner as royalty payments for the purpose of computing unrelated business taxable income. To the extent treated as a loan under section 636, the amount of any payment in discharge of a production payment which is the equivalent of interest shall be treated as interest for purposes of section 512(b)(1) and paragraph (a) of this section.

PAR. 3. Section 1.543-1 is amended by revising paragraph (b)(11)(ii) to read as follows:

§ 1.543-1 Personal holding company income.

(b) *Definitions.* (1) *Mineral, oil, or gas royalties.*

(i) The term "mineral, oil, or gas royalties" means all royalties, including overriding royalties and, to the extent not treated as loans under section 636, mineral production payments, received from any interest in mineral, oil, or gas properties. The term "mineral" includes those minerals which are included within the meaning of the term "minerals" in the regulations under section 611.

PAR. 4. Section 1.543-12 (as proposed and published in the FEDERAL REGISTER for September 5, 1968, 33 F.R. 12564) is amended by revising paragraph (e)(2), to read as follows:

§ 1.543-12 Definitions.

(e) *Adjusted income from mineral, oil, and gas royalties.*

(2) *Definition of mineral, oil, and gas royalties.* For purposes of determining personal holding company income, the term "mineral, oil, and gas royalties" means all royalties, including overriding royalties and, to the extent not treated as loans under section 636, mineral production payments, received from any interest in mineral, oil, or gas properties. The term "mineral" includes those minerals which are included within the meaning of the term "minerals" in the regulations under section 611. The term "overriding royalties" includes amounts received from the sublessee by the operating company which leased and developed the natural resource property in respect of which such overriding royalties are paid.

PAR. 5. Paragraph (b)(1) of § 1.611-1 is amended to read as follows:

§ 1.611-1 Allowance of deduction for depletion.

(b) *Economic interest.* (1) Annual depletion deductions are allowed only to the owner of an economic interest in mineral deposits or standing timber. An economic interest is possessed in every case in which the taxpayer has acquired by investment any interest in mineral in place or standing timber and secures, by any form of legal relationship, income derived from the extraction of the mineral or severance of the timber, to which he must look for a return of his capital. For an exception in the case of certain mineral production payments, see section 636 and the regulations thereunder. A person who has no capital investment in the mineral deposit or standing timber does not possess an economic interest merely because through a contractual relation he possesses a mere economic or pecuniary advantage derived from production. For example, an agreement between the owner of an economic interest and another entitling the latter to purchase or process the product upon production or entitling the latter to compensation for extraction or cutting does not convey a depletable economic interest. Further, depletion deductions with respect to an economic interest of a corporation are allowed to the corporation and not to its shareholders.

PAR. 6. Paragraph (c)(5)(ii) of § 1.613-2 is amended to read as follows:

§ 1.613-2 Percentage depletion rates.

(c) *Rules for application of paragraph (a) of this section.*

(5) (i) If bonus payments have been paid in respect of the property in any taxable year or any prior taxable years, there shall be excluded in determining the "gross income from the property", an amount equal to that part of such payments which is allocable to the product sold (or otherwise giving rise to gross income) for the taxable year. For purposes of the preceding sentence, bonus payments include payments by the lessee with respect to a production payment which is treated as a bonus under section 636(c). Such a production payment is equally allocable to all mineral from the mineral property burdened thereby. The following examples illustrate the provisions of this subdivision:

*Example (1).* In 1956, A leases oil bearing lands to B, receiving \$200,000 as a bonus and reserving a royalty of one-eighth of the proceeds of all oil produced and sold. It is estimated at the time the lease is entered into that there are 1,000,000 barrels of oil recoverable. In 1956, B produces and sells 100,000 barrels for \$240,000. In computing his "gross income from the property" for the year 1956, B will exclude \$30,000 (¼ of \$240,000), the royalty paid to A, and \$20,000 (100,000 bbls. sold/1,000,000 bbls. estimated to be available × \$200,000 bonus), the portion of the bonus allocable to the oil produced and sold during the year. However, in computing B's taxable income under section 63, the \$20,000 attributable to the bonus payment shall not be either excluded or deducted from B's gross income computed under section 61. (See paragraph (a)(3) of § 1.612-3.)

*Example (2).* In 1971, C leases to D oil bearing lands estimated to contain 1,000,000 barrels of oil, reserving a royalty of one-eighth of the proceeds of all oil produced and sold and a \$500,000 production payment payable out of 50 percent of the first oil produced and sold attributable to the seven-eighths operating interest. In 1972, D produces and sells 100,000 barrels of oil. In computing his "gross income from the property" for the year 1972, D will exclude, in addition to the royalty paid to C, \$50,000 (100,000 bbls. sold/1,000,000 bbls. estimated to be available × \$500,000 treated under section 636(c) as a bonus), the portion of the production payment allocable to the oil produced and sold during the taxable year. However, in computing D's taxable income under section 63, the \$50,000 attributable to the retained production payment shall not be either excluded or deducted from D's gross income computed under section 61.

PAR. 7. Paragraph (a)(2) of § 1.614-1 is amended to read as follows:

§ 1.614-1 Definition of property.

(a) *General rule.* (2) The term "interest" means an economic interest in a mineral deposit. See paragraph (b) of § 1.611-1. The term includes working or operating interests, royalties, overriding royalties, net profits interests, and, to the extent not treated as loans under section 636, production payments.

[FR Doc. 73-765 Filed 2-26-73; 9:49 am]

#### Title 29—Labor

#### CHAPTER XVII—OCCUPATIONAL SAFETY AND HEALTH ADMINISTRATION, DEPARTMENT OF LABOR

[S-73-3]

#### PART 1916—SAFETY AND HEALTH REGULATIONS FOR SHIPBUILDING PART 1917—SAFETY AND HEALTH REGULATIONS FOR SHIPBREAKING PART 1918—SAFETY AND HEALTH REGULATIONS FOR LONGSHORING

#### Deletion of Regulations Establishing Penalties and Requiring Notification of Accidents

Pursuant to authority in sections 6(b) and 8(g), of the Williams-Steiger Occupational Safety and Health Act of 1970 (OSHA) (29 U.S.C. 655, 657), section 41 of the Longshoremen's and Harbor Workers' Compensation Act (44 Stat. 1444, as amended; 33 U.S.C. 941), Secretary of Labor's Order No. 12-71 (36 FR 8754), and the regulations in 29 CFR 1911.5 (37 FR 8664), Parts 1916, 1917, and 1918 of Title 29 of the Code of Federal Regulations are hereby amended by the deletion of §§ 1916.3, 1916.6, 1917.3, 1917.6, 1918.4, and 1918.7 as set forth below.

The rules in Parts 1916, 1917, and 1918 were published under the Longshoremen's and Harbor Workers' Compensation Act, and have been incorporated by references under the Occupational Safety and Health Act (29 U.S.C. 651 et seq.). The respective incorporations are published in §§ 1910.14, 1910.15, and 1910.16 of the aforementioned title.

Sections 1916.3, 1917.3, and 1918.4 do not contain standards. They describe statutory penalties for violations of section 41 of the Longshoremen's and Harbor Workers' Compensation Act (33 U.S.C. 941). However, to avoid possible confusion to persons following the references under the Occupational Safety and Health Act, §§ 1916.3, 1917.3, and 1918.4 are hereby deleted. The deletions, of course, do not derogate from the statutory penalty.

Sections 1916.6, 1917.6, and 1918.7, each require an employer to follow special reporting procedures when an accident results in a fatality or serious injury. The same information must be reported under § 1904.8 of the aforementioned title, a rule issued under the Occupational Safety and Health Act which applies concurrently with §§ 1916.6,

## RULES AND REGULATIONS

1917.6, and 1918.7. Under these circumstances, §§ 1916.6, 1917.6, and 1918.7 are deleted as being unnecessary.

Notice and public procedure under 5 U.S.C. 553 concerning the deletions of §§ 1916.6, 1917.6, and 1918.7 are found unnecessary because of the minor rule-making involved. The deletions of §§ 1916.3, 1917.3, and 1918.4 are essentially editorial changes.

Accordingly, the amendments to Parts 1916, 1917, and 1918 are as follows:

1. Section 1916.3 *Penalty* is deleted.
2. Section 1916.6 *Notification of accidents resulting in fatalities or serious injuries* is deleted.
3. Section 1917.3 *Penalty* is deleted.
4. Section 1917.6 *Notification of accidents resulting in fatalities or serious injuries* is deleted.
5. Section 1918.4 *Penalty* is deleted.
6. Section 1918.7 *Notification of accidents resulting in fatalities or serious injuries* is deleted.

(Sec. 6(b), 8(g), 84 Stat. 1593, 1598, 29 U.S.C. 655, 657; sec. 41, 44 Stat. 1444, 33 U.S.C. 941; Secretary of Labor's Order No. 12-71, 36 FR 854)

**Effective date.** This amendment shall become effective March 1, 1973.

Signed at Washington, D.C., this 26th day of February 1973.

CHAIN ROBBINS,  
Acting Assistant Secretary of Labor.

### Title 33—Navigation and Navigable Waters CHAPTER II—CORPS OF ENGINEERS, DEPARTMENT OF THE ARMY

#### PART 207—NAVIGATION REGULATIONS Oklawaha River, Fla.

Pursuant to the provisions of section 7 of the River and Harbor Act of August 8, 1917 (40 Stat. 266; 33 U.S.C. 1) § 207.169 governing the operation of a lock on the Oklawaha River at Moss Bluff, Fla., is hereby amended with respect to paragraph (a) to change the hours of operation, effective March 1, 1973, as follows:

§ 207.169 *Oklawaha River, navigation lock and dam at Moss Bluff, Fla.; use, administration, and navigation.*

(a) The owner of or agency controlling the lock shall not be required to operate the navigation lock except from 7 a.m. to 7 p.m. during the period of February 15 through October 15 each year, and from 8 a.m. to 6 p.m. during the remaining months of the year. During the above hours and periods the lock shall be opened upon demand for the passage of vessels. The hours of operation are based on local time.

(Regs., Feb. 12, 1973, 1522-01 (Oklawaha River, Moss Bluff, Marion County, Fla.)—DAEN-CWO-N) (Sec. 7, 40 Stat. 266; 33 U.S.C. 1)

For the Adjutant General.

E. W. GANNON,  
Lieutenant Colonel, U.S. Army,  
Chief, Plans Office, TAGO.

### Title 38—Pensions, Bonuses, and Veterans' Relief

#### CHAPTER I—VETERANS ADMINISTRATION PART 1—GENERAL PROVISIONS

#### PART 14—LEGAL SERVICES, GENERAL COUNSEL

##### Litigation and Claims for Property Loss, Damage and Personal Injury

On page 1058 of the *FEDERAL REGISTER* of January 8, 1973, there was published a notice of regulatory development to amend § 1.511, §§ 14.514 through 14.618, and §§ 14.664 through 14.669 to provide a complete revision and updating of those regulations relating to litigation involving the Veterans Administration or its personnel and the disposition of administrative claims for personal injury, property loss, and damage. Interested persons were given 30 days in which to submit comments, suggestions, or objections regarding the proposed regulation.

No written objections have been received and the proposed regulations are hereby adopted without change and are set forth below.

**Effective date.** These VA regulations are effective February 23, 1973.

Approved: February 23, 1973.

By direction of the Administrator.

[SEAL] FRED B. RHODES,  
Deputy Administrator.

1. In Part 1, § 1.511(a) is amended to read as follows:

§ 1.511 *Judicial proceedings generally.*

(a) (1) Where a suit has been threatened or instituted against the Government, or a prosecution against a claimant has been instituted or is being contemplated, the request of the claimant or his duly authorized representative for information, documents, reports, etc., shall be acted upon by the General Counsel in central office, or the Chief Attorney in the field station, who shall determine the action to be taken with respect thereto. Where the files have been sent to the Department of Justice in connection with any such suit, the request will be referred to the Department of Justice, Washington, D.C., through the office of the General Counsel, for attention. In all other cases where copies of documents or records are desired by or on behalf of parties to a suit, whether in a court of the United States or any other, such copies shall be furnished as provided in paragraph (d) of this section; otherwise to the court only, and on an order of the court or subpoena duces tecum addressed to the Administrator of Veterans' Affairs or the head of the field station in which the records desired are located requesting the same. The determination as to the action to be taken upon any order received in this class of cases shall be made by the service having jurisdiction over the subject matter in central office or the division having jurisdiction over the subject matter in the field station, except in those cases in which the records desired are to be used adversely to the claimant, in which latter event the order of the court or the sub-

poena will be referred to the General Counsel in Central Office or to the Chief Attorney in the field station for disposition.

(2) Where a claim under the provisions of the Federal Tort Claims Act has been filed or where such a claim can reasonably be anticipated, no information, documents, reports, etc., will be released except through the Chief Attorney of jurisdiction, who will be limited to release of information which would be available under discovery proceedings, were the matter in litigation. Any other information may be released only after concurrence by the General Counsel.

2. In Part 14, §§ 14.514 through 14.617 are revoked and §§ 14.514 through 14.618 are added to read as follows:

#### LITIGATION (OTHER THAN UNDER THE FEDERAL TORT CLAIMS ACT)

§ 14.514 *Suits by or against United States or Veterans' Administration officials.*

(a) *Suits against United States or Veterans' Administration officials.* When a suit is filed against the United States or the Administrator involving any activities of the Veterans' Administration, or a suit is filed against any employee of the Veterans' Administration in which is involved any official action of the employee, not covered by the provisions of §§ 14.600 through 14.617, a copy of the petition will be forwarded to the General Counsel who will take necessary action to obtain the pertinent facts, cooperate with or receive the cooperation of the Department of Justice and, where indicated, advise the Chief Attorney of any further action required.

(b) *Counsel and representation of employees.* The Department of Justice may afford counsel and representation to Government employees who are sued individually as a result of the performance of their official duties. A civil action commenced in a State court against an employee, as the result of an action under color of his office, may be removed to the applicable Federal district court. If a suit is filed against an employee as the result of the performance of his official duties, where the provisions of either 28 U.S.C. 2679 or 38 U.S.C. 4116 are not applicable (see § 14.610), and the employee desires to be represented by the U.S. attorney, the Chief Attorney will obtain a written request to this effect from the employee and furnish it together with a copy of the petition and two copies of a summary of pertinent facts to the General Counsel, who will transmit copies thereof to the Department of Justice for appropriate action.

(c) *Suits by the United States.* In any instance wherein direct submission to a U.S. attorney for institution of civil action has been authorized by the Department of Justice, the Chief Attorney will furnish the U.S. attorney a complete report of the facts and applicable law, documentary evidence, names and addresses of witnesses, and, in cases

wherein Veterans' Administration action has been taken, a copy of any pertinent decision rendered. The Chief Attorney will forward two copies of such report and of any proposed pleading prepared by him to the General Counsel, and will render any practicable assistance requested by the U.S. attorney.

§ 14.515 *Suits involving loan guaranty matters.*

(a) In actions for debt, possession or actions similar in substance (including title actions) in which § 36.4282 or § 36.4319 of this chapter has been complied with, the Chief Attorney is authorized to enter the appearance of and represent the Administrator of Veterans' Affairs as his attorney and to file claims for debt in probate proceedings without prior reference to the General Counsel. Any such action will normally be taken within the time prescribed by law as though there had been valid service of process. In all other types of cases, the Chief Attorney will not enter an appearance or file any pleading on behalf of the Administrator except in imperative emergency until authorization is received from the General Counsel after submission of all relevant facts. In doubtful cases, the Chief Attorney will request instructions from the General Counsel, submitting copy of so much of the pleadings or other papers, together with a sufficient recital of the facts as will make clear the background, the issues, and the relief sought. The submission also will include names and addresses of adverse parties and attorneys so that immediate action may be taken if injunctive relief seems proper. Where necessary in any case to preserve rights which might be lost by default if there had been proper service of process, appropriate action will be taken by a special appearance, or, in jurisdictions where a special appearance does not serve the purpose or under State statute or decisions will constitute a general appearance for a later date, by an appearance through amicus curiae, to obtain an extension of time, preferably 30 days or more, in which to appear and plead without prejudice. If not feasible to obtain an extension, the Chief Attorney will explain to adverse counsel by letter, and personally, if desirable, the necessity of deferring all action and will see that the proper judge receives a signed copy of the letter before default day. The letter will point out that there is no valid service of process on the Administrator of Veterans' Affairs but will not base the delay on that alone.

(b) The General Counsel and each Chief Attorney representing the General Counsel is the attorney of the Administrator of Veterans' Affairs for all purposes of 38 U.S.C. 1820 and as such is authorized to represent the Administrator in any court action, or other legal matter arising under said statutory provisions. Said authorization is subject to any applicable statutes and executive orders concerning claims of the United States. A Chief Attorney may enter appearance in such cases, subject to the provisions of §§ 36.4282 and 36.4319 of this chapter and paragraph (a) of this section. Each Chief Attorney is authorized to contract for the employment of attorneys on a fee basis for conducting any action arising under guaranty or insurance of loans or direct loans by the Veterans' Administration; or for examination and other proper services with respect to title to and liens on real and personal property, material incident to such activities of the Veterans' Administration, when such employment is deemed by him to be appropriate. The authority delegated to the Chief Attorney may, with the approval of the General Counsel, be redelegated.

(c) The General Counsel and each Chief Attorney in carrying out his duties as authorized in paragraph (a) or (b) of this section is authorized (1) to contract for and execute for and on behalf of the Administrator, any bond (and appropriate contract or application therefor) which is required in or preliminary to or in connection with any judicial proceeding in which the Chief Attorney is attorney for the Administrator, and to incur obligations for premiums for such bonds and (2) to do all other acts and incur all costs and expenses which in his professional opinion are necessary or appropriate to further or protect the interests of the Administrator in or in connection with prosecuting or defending any cause in any court or tribunal within the United States, which cause arises out of or incident to the guaranty or insurance of loans, or the making of direct loans by the Veterans' Administration, pursuant to 38 U.S.C. Chapter 37.

(d) Except in an emergency, no Chief Attorney will initiate action for appellate review without prior approval by the General Counsel. These limitations do not preclude the filing of a motion for a new trial, appeal to intermediate court with hearing de novo, the giving of notice of appeal, reserving of bills of exception, or any other preliminary action in the trial court which may be necessary or appropriate to protect or facilitate the exercise of the right of appellate review, nor do they preclude the taking of appropriate steps on behalf of the Administrator as appellee (respondent) without prior reference to the General Counsel. Upon the conclusion of the trial of a case, the Chief Attorney will report the result thereof to the General Counsel with recommendation as to seeking appellate review if the result reported is adverse to the position of the Veterans' Administration in the litigation. The reporting Chief Attorney who recommends appellate review will include as a part of his communication, or in exhibits attached, (1) a summary of the evidence; (2) a summary of the law points to be reviewed; (3) citations of statutes and cases; (4) statements of special reasons for recommending appellate review; (5) time limitations for the action recommended; (6) requirements, if any, respecting printing of the record and briefs; (7) the estimated total expenses

## RULES AND REGULATIONS

to be incurred by reason of the appeal, reporting separately the estimated costs for printing the brief and record so that authority for printing may be granted in accordance with prescribed procedure, MF-1, Part II, Chapter 9; and (8) the recommendation by the Loan Guaranty Officer, or that he does not desire to make a recommendation.

§ 14.516 *Escheat or post fund cases.*

In any case in which the Veterans' Administration is entitled to possession of assets or property under the escheat provisions of 38 U.S.C. 3202(e), the gifts provisions of 38 U.S.C. Chapter 83 or the General Post Fund provisions of 38 U.S.C. Chapter 85, the Chief Attorney will endeavor to obtain possession of such assets or property in any manner appropriate under local procedure and practice, other than litigation. This procedure would include the making of exploratory inquiry of the person having custody or possession of the assets or property for the purpose of determining whether he would be willing to turn over the property to the Veterans' Administration without litigation. If unsuccessful in this effort, a complete report will be submitted by the Chief Attorney to the General Counsel so that appropriate action may be taken to obtain the assistance of the Department of Justice in the matter.

§ 14.517 *Cases affecting the Veterans' Administration generally.*

Chief Attorneys will establish and maintain such close liaison with the State and Federal courts as to insure that notice will be afforded the Veterans' Administration on all cases affecting the Veterans' Administration. Such information will be forwarded to the General Counsel promptly in every case.

§ 14.518 *Habeas corpus writs.*

Any director, manager, or other employee at a field station of the Veterans' Administration who is served with writ of habeas corpus concerning any beneficiary of the Veterans' Administration in his custody or with any other legal process involving his official actions, in addition to taking such steps as, in his judgment, are necessary to protect himself, will immediately notify the Chief Attorney of the region in which he is situated.

#### PROSECUTION

§ 14.560 *Procedure where violation of penal statutes is involved.*

(a) The submission to the appropriate U.S. attorney of a violation or suspected violation of the penal provisions of the statutes of the United States will be made by the Chief Attorney, regional office, or center, within whose jurisdiction the alleged offense appears to have been committed. Where the file or record which contains evidence of a penal offense is located in or forwarded to Central Office,

<sup>1</sup> Available in any Veterans' Administration station.

the matter will be referred to the General Counsel for development and reference to the proper Chief Attorney or direct to the Department of Justice. Where the file or record is maintained in any other field station, it will be referred to the Chief Attorney of the regional office in whose area the station is located for development and determination as to whether prosecution is indicated and reference to the proper U.S. attorney if in order.

(b) In all instances where, in developing a necessary administrative investigation, there is evidence of a violation of the penal provisions of the Federal statutes, the case will be submitted to the appropriate U.S. attorney. In central office, investigation and security service reports showing any criminal acts will be reported by the General Counsel to the Department of Justice. If such offense seems probable, but an administrative investigation is not necessary, the matter will be reported, without investigation, to the U.S. attorney or the Department of Justice, as the case may be. The Department of Justice is charged with the duty and responsibility of interpreting and enforcing criminal statutes, and the final determination as to whether the evidence is sufficient to warrant prosecution in any case is a matter for that department. The function of any administrative official is to marshal all evidence within his possession and, when the evidence is sufficient to make a prima facie case of a violation of the statute, to transmit the same to the U.S. attorney for such action as the Department of Justice, acting through the U.S. attorney, may deem necessary. If the U.S. attorney decides to prosecute, the Chief Attorney will cooperate with him as may be requested. Cases deemed essential to protect Veterans' Administration interests or policy will be reported to the General Counsel if prosecution is delayed or declined.

(c) A report will be made to the Federal Bureau of Investigation concerning criminal matters arising under prior laws authorizing readjustment benefits and war orphans' educational assistance (see sec. 3, Public Law 85-857; 72 Stat. 1262) and current grants of readjustment and educational assistance as authorized in title 38, United States Code. In cases arising under the foregoing acts any evidence or information coming to the attention of a Chief Attorney requiring determination as to whether there may be a violation of a Federal criminal statute will be brought promptly to the attention of the local office or agent of the Federal Bureau of Investigation without attempting to develop any criminal aspects, as will such facts or evidence subsequently discovered in administrative investigation or other action. Copy of the final investigation report in administrative investigation shall be forwarded to the U.S. attorney, if, in the opinion of the Chief Attorney, prosecutive action is necessary for administrative purposes. The Chief Attorney will bring to the attention of the General Counsel any case wherein he is of the opinion that criminal

action should be initiated, notwithstanding adverse report or lack of report, by the Federal Bureau of Investigation.

#### § 14.561 Administrative action prior to submission.

Before a submission is made to the U.S. attorney in cases involving personnel or claims, the General Counsel, if the file is in Central Office, or the Chief Attorney, regional office or center, if the file is in the regional office or other field station, will first ascertain that necessary administrative or adjudicatory (forfeiture (see Public Law 86-222; 73 Stat. 452), etc.), action has been taken; except that in urgent cases such as breaches of the peace, disorderly conduct, trespass, robbery, or where the evidence may be lost by delay, or prosecution barred by the statute of limitations, submission to the U.S. attorney will be made immediately.

#### § 14.563 Collections or adjustments.

When it is determined that a submission is to be made to the U.S. attorney, no demand for payment or adjustment will be made without his advice. However, if, before or after submission, the potential defendant or other person tenders payment of the liability to the United States, payment will be accepted if the U.S. attorney states he has no objection. If the U.S. attorney determines that prosecution is not indicated, or when prosecution has ended, the file will be returned to the appropriate office with a report as to the action taken.

#### § 14.583 Crimes or offenses on reservations.

Upon receipt by the Chief Attorney of a report from the Director of any Veterans' Administration hospital or domiciliary located in his regional office area, other than the District of Columbia, indicating a violation of any penal statutes occurring on such Veterans' Administration hospital or domiciliary reservation, he will extend full cooperation and advice to the Director. In so doing, the Chief Attorney will be guided by the provisions of 18 U.S.C. 13 and 3041, and 38 U.S.C. 625. Serious crimes (felonies or misdemeanors) committed on a hospital or domiciliary reservation will be reported direct to the U.S. attorney or local agent of the Federal Bureau of Investigation. The Chief Attorney will give every assistance to the Director in such cases.

#### FEDERAL TORT CLAIMS

#### § 14.600 Federal Tort Claims Act.

(a) The Federal Tort Claims Act (28 U.S.C. 1291, 1346, 1402, 1504, 2110, 2401, 2402, 2411, 2412, and 2671 through 2680) prescribes a uniform procedure for the handling of claims against the United States, for money only, on account of damage to or loss of property, or on account of personal injury or death, caused by the negligent or wrongful act or omission of a Government employee while acting within the scope of his office or employment, under circumstances where the United States, if a private person, would be liable in accordance with the law of the place where the act or omission occurred.

(b) The act provides that: (1) No court action (except those involving a third party complaint, cross-claim, or counterclaim) shall be instituted unless the claimant shall have first presented his claim to, and it has been finally denied by, the appropriate Federal agency. The failure, however, of the agency to make final disposition of the claim within 6 months after it is filed may, at the option of the claimant, be deemed a final denial of the claim (28 U.S.C. 2675(a));

(2) Where a suit is filed after the denial of the administrative claim, the amount sought is limited to the amount of the claim presented to the Federal agency, except on proof of newly discovered evidence or intervening facts relating to the amount of the claim (28 U.S.C. 2675(b));

(3) Suits are tried without a jury, and a district court judgment may be appealed to the appropriate U.S. Circuit Court of Appeals, or upon consent, to the Court of Claims of the United States;

(4) Administrative claims must be filed in writing with the appropriate Federal agency within 2 years from the date the claim accrues, and a suit must be filed within 6 months from the date of mailing of the final denial by the agency of the administrative claim (28 U.S.C. 2401(b));

(5) Section 2680 of title 28, United States Code, enumerates certain types of claims for which the United States is not liable under the Federal Tort Claims Act.

#### PREMATURE SUITS

#### § 14.601 Dismissal action.

Where a tort suit against the United States (other than by third party complaint, cross-claim, or counterclaim) is filed without being preceded by an administrative claim (see § 14.600(b)(1)), the Chief Attorney shall promptly, upon receipt of notice of the action thereon, notify the U.S. attorney and the General Counsel, who will, in turn, notify the Department of Justice, that the provisions of 28 U.S.C. 2675(a) have not been complied with, and that the suit appears to be subject to a motion to dismiss for lack of jurisdiction. The General Counsel should be kept advised as to subsequent developments, and should be furnished a copy of any order of dismissal which may be entered by the court.

#### ADMINISTRATIVE CLAIMS

#### § 14.602 Scope and authority to consider claims.

(a) The Administrator and those delegated such authority in § 2.6(e) and (f) of this chapter are authorized to consider, ascertain, adjust, determine, compromise and settle claims for money damages against the United States in accordance with regulations prescribed by the Attorney General (28 CFR 14.1 et seq.). Any award, compromise, or settlement exceeding \$25,000 shall be effected by the Attorney General or his designee. In only with the prior written approval of addition, a claim may be compromised or settled only after consultation with the Department of Justice when:

(1) A new precedent or point of law is involved;

(2) A question of policy is or may be involved;

(3) The United States is or may be entitled to indemnity or contribution from a third party and the Veterans' Administration is unable to adjust the third party claim;

(4) For any reason, the compromise of a particular claim, as a practical matter, will, or may, control the disposition of a related claim in which the amount to be paid may exceed \$25,000; or

(5) The United States, an employee, agent, or cost-plus contractor, is involved in litigation based on a claim arising out of the same incident or transaction.

(b) Authority is delegated by § 2.6(f) of this chapter to Chief Attorneys to act on claims not exceeding the specified dollar value, except that any claim which comes within the purview of the five categories stated in paragraph (a) of this section will be forwarded to the General Counsel, who will consult with the Department of Justice thereon.

(c) Where multiple claims (including claims of a subrogor and a subrogee) arise from the same incident, and the total of such claims exceeds the amount delegated Chief Attorneys by § 2.6(f) of this chapter, all such claims will be forwarded to the General Counsel for consideration.

(d) For the purpose of §§ 14.600 through 14.617, any reference to the General Counsel includes all other personnel in the General Counsel's office to which authority to handle Federal tort claims has been delegated by § 2.6(e)(1) and (2) of this chapter.

#### § 14.603 Proper claimants.

(a) (1) A claim for damage to or loss of property may be presented by the owner of the property, his duly authorized agent or legal representative.

(2) A claim for personal injury may be presented by the injured person, his duly authorized agent, or legal representative.

(3) A claim based on death may be presented by the executor or administrator of the decedent's estate, or by any other person legally entitled to assert such a claim in accordance with applicable State law.

(4) A claim for loss wholly compensated by an insurer with the rights of a subrogee may be presented by the insurer. A claim for loss partially compensated by an insurer with the rights of a subrogee may be presented by the parties individually as their respective interests appear, or jointly. However, when an insurer presents a claim asserting the rights of a subrogee, he shall also present appropriate evidence to support his right.

(5) A claim presented by an agent or legal representative shall be presented in the name of the claimant, be signed by the agent or legal representative, show the title or legal capacity of the person signing, and be accompanied by evidence

of his authority to present a claim on behalf of the claimant as agent, executor, administrator, parent, guardian, or other representative.

(b) State court procedures relating to the presentation of claims on behalf of mentally incompetent claimants will be complied with. Applicable statutes of limitation are not, however, tolled by the claimant's incompetency.

(c) State court procedures, other than statutes of limitation, relating to the presentation of claims on behalf of minors will be complied with where:

(1) The claimant is represented by an attorney who, at minimal expense and inconvenience, can easily obtain State court approval;

(2) The claimant is not a parent or is otherwise unrelated to the infant;

(3) The minor will reach majority before the expiration of the 2-year period of limitation prescribed by 28 U.S.C. 2401(b); or

(4) The amount involved or the permanence and seriousness of personal injuries are of such magnitude as to warrant judicial approval in order to assure that the interests of the minor are fully protected.

#### § 14.604 Filing a claim.

(a) Each person who inquires as to the procedure for filing a claim against the United States, predicated on a negligent or wrongful act or omission of an employee of the Veterans' Administration acting within the scope of his employment, will be furnished a copy of SF 95, Claim for Damage, Injury, or Death. The claimant will be advised to submit the executed claim directly to the Chief Attorney having jurisdiction of the area wherein the occurrence complained of took place. He will also be advised to submit the information prescribed by § 14.607, to the extent applicable. If a claim is presented to the Veterans' Administration which involves the actions of employees or officers of other agencies, it will be forwarded to the Veterans' Administration General Counsel, and transmitted by him forthwith to the appropriate agency.

(b) A claim shall be deemed to have been presented when the Veterans' Administration receives from a claimant, his duly authorized agent or legal representative, an executed SF 95, or other written notification of an incident, together with a claim for money damages, in a sum certain, for damage to or loss of property or personal injury or death: *Provided, however,* That before compromising or settling any claim, an executed SF 95 shall be obtained from the claimant.

(c) A claim presented in compliance with paragraphs (a) and (b) of this section may be amended by the claimant at any time prior to final Veterans' Administration action or prior to the exercise of the claimant's option under 28 U.S.C. 2675(a). Amendments shall be submitted in writing and signed by the claimant or his duly authorized agent or legal representative. Upon the timely filing of an amendment to a pending

claim, the Veterans' Administration shall have 6 months in which to make a final disposition of the claim as amended and the claimant's option under 28 U.S.C. 2675(a) shall not accrue until 6 months after the filing of the amendment. (See § 14.600(b)(1).)

#### § 14.605 Investigation and development.

(a) *Development of untoward incidents prior to receipt of a claim.* (1) A report of any collision involving a Government-owned vehicle which results in property damage or personal injury or death will be made by the operator of the Government vehicle immediately following the accident, on SF 91, Operator's Report of Motor Vehicle Accident, and shall be submitted to the Manager or Director of the station involved. A copy of said report, accompanied by an executed copy of SF 91-A, Investigation Report of Motor Vehicle Accident, will be promptly submitted by the Manager or Director to the appropriate Chief Attorney, who will authorize such additional investigation as the circumstances of the case may warrant.

(2) (i) Any incident resulting in damage to, or loss of, property, other than personal effects of a patient in a Veterans' Administration facility, or in personal injury or death, due apparently or allegedly to the negligent or wrongful act or omission of an employee of the Veterans' Administration acting within the scope of his office or employment, or damage to or loss of Government-owned property caused by other than a Veterans' Administration employee acting within the scope of his office or employment, will be immediately reported on SF 92-A, Report of Accident Other Than Motor Vehicle. The Director of the station where such occurrence took place will promptly transmit a copy of the report to the appropriate Chief Attorney, who will authorize such additional investigation as the circumstances of the case may warrant.

(ii) Where the incident involves the loss of personal effects of a patient in a Veterans' Administration facility, the Director will assist the patient in completing a SF 95, Claim for Damage, Injury, or Death, and will advise the patient that it will be forwarded immediately to the appropriate Chief Attorney for consideration. The Director will forward along with the claim a brief summary of the facts, as well as his recommendation, to the Chief Attorney. The Chief Attorney will expedite his consideration and processing of claims of this nature.

(3) An employee will be designated at each station to investigate motor vehicle collisions and other incidents involving damage to, or loss of privately owned property or personal injury or death, apparently or allegedly resulting from the negligent or wrongful act or omission of an employee of the Veterans' Administration acting within the scope of his employment, other than investigation of alleged malpractice, or damage to or loss of Government-owned property caused by other than Veterans Administration

employees. In Central Office, the designation will be made by the Manager, Administrative Services, and at all other stations, by the Director.

(4) The Chief Attorney, Veterans Benefits Office, District of Columbia, or the Chief Attorney of the regional office for the area in which a field station is located will be the appropriate Chief Attorney within the purview of this section. The Chief Attorney will be responsible for processing claims involving motor vehicle collisions and other occurrences resulting in property damage, personal injury, or death, within such area. The Chief Attorney, Veterans Benefits Office, will also have jurisdiction, except as otherwise provided in subparagraph (3) of this paragraph over incidents occurring in Veterans Administration Central Office.

(b) *Postclaim requirements.* (1) Claims coming within the jurisdiction of the Chief Attorney (see § 2.6(f) of this chapter) shall be handled in accordance with the provisions of § 14.608;

(2) Where a claim is presented for an amount in excess of that for which authority has been delegated to the Chief Attorney, he will immediately forward a copy of the SF 95 (or other written statement of a claim), specifying the demand in a sum certain, to the General Counsel, along with any existing information concerning the claim. The Chief Attorney will notify the claimant of this referral and will commence his investigation and development. In the course of the investigation, any photographs or other graphic material which can be obtained should be included in the report to be submitted to the General Counsel;

(3) Within 60 days after receipt of a claim, the Chief Attorney will review all evidence available, and prepare a concise, complete report, including a summary of the evidence, his findings of essential facts, citations of applicable local laws, regulations, and decisions, and his conclusion as to the liability of the United States. This report will also include sufficient information so that a determination can be made as to the amount of damages for which the United States could be held responsible, and the Chief Attorney will state his conclusions and recommendations in this area. The Chief Attorney will transmit two copies of this report to the General Counsel, along with the original and two copies of any applicable medical records which may be available, assembled so they are identical in arrangement with the originals. An extra complete copy of these medical records will be retained by the Chief Attorney which can be forwarded to the U.S. attorney together with the original report of investigation if the claim subsequently reaches the litigation stage. The report itself and the supporting materials, will be indexed, tabbed, and fastened so that it is one unit. If the claimant is a veteran, or the claim involves personal injury or death to a veteran, the veteran's claims folder will be forwarded to the General Counsel along with the report;

(4) In the consideration of claims involving a medical question, the General Counsel will be guided by the views of the Chief Medical Director as to the standard of medical care and treatment, and nature and extent of injuries, the degree of temporary or permanent disability, the prognosis, the necessity for future treatment or physical rehabilitation, and any other pertinent medical aspects of a claim. In claims of this nature, within the jurisdiction of the Chief Attorney, he will be guided by the views of the applicable hospital Director or Chief of Staff where the Director is not a physician.

#### § 14.606 Requests for medical information.

(a) Where there is indication that a tort claim will be filed, medical records or other information shall not be released without approval of the Chief Attorney.

(b) Request for medical records, documents, reports, or other information shall be handled in accordance with the provisions of § 1.511(a) (2) of this chapter.

#### § 14.607 Evidence to be submitted.

In conducting his investigation into the facts and circumstances giving rise to the claim, the Chief Attorney will consider the following guidelines to the extent applicable:

(a) *Death.* In support of a claim based on death, the claimant may be required to submit the following evidence or information:

(1) An authenticated death certificate or other competent evidence showing cause of death, date of death, and age of the decedent.

(2) Decedent's employment or occupation at time of death, including his monthly or yearly salary or earnings (if any), and the duration of his last employment or occupation.

(3) Full names, addresses, birth dates, kinship, and marital status of the decedent's survivors, including identification of those survivors who were dependent for support upon the decedent at the time of his death.

(4) Degree of support afforded by the decedent to each survivor dependent upon him for support at the time of his death.

(5) Decedent's general physical and mental condition before death.

(6) Itemized bills for medical and burial expenses incurred by reason of the incident causing death, or itemized receipts of payment for such expenses.

(7) If damages for pain and suffering prior to death are claimed, a physician's detailed statement specifying the injuries suffered, duration of pain and suffering, any drugs administered for pain, and the decedent's physical condition in the interval between injury and death.

(8) Any other evidence or information which may have a bearing on either the responsibility of the United States for the death or the damages claimed.

(b) *Personal injury.* In support of a claim for personal injury, including pain

and suffering, the claimant may be required to submit the following evidence or information:

(1) A written report by his attending physician or dentist setting forth the nature and extent of treatment, any degree of temporary or permanent disability, the prognosis, period of hospitalization, and any diminished earning capacity. In addition, the claimant may be required to submit to a physical or mental examination by a physician employed by the agency or another Federal agency. A copy of the report of the examining physician shall be made available to the claimant upon the claimant's written request provided that he has, upon request, furnished the report referred to in the first sentence of this subparagraph and has made or agrees to make available to the agency any other physician's reports previously or thereafter made of the physical or mental condition which is the subject matter of his claim.

(2) Itemized bills for medical, dental, and hospital expenses incurred, or itemized receipts of payment for such expenses.

(3) If the prognosis reveals the necessity for future treatment, a statement of expected expenses for such treatment.

(4) If a claim is made for loss of time from employment, a written statement from his employer showing actual time lost from employment, whether he is a full- or part-time employee, and wages or salary actually lost.

(5) If a claim is made for loss of income and the claimant is self-employed, documentary evidence showing the amount of earnings actually lost.

(6) Any other evidence or information which may have a bearing on either the responsibility of the United States for the personal injury or the damages claimed.

(c) *Property damage.* In support of a claim for injury to or loss of property, real or personal, the claimant may be required to submit the following evidence or information:

(1) Proof of ownership.

(2) A detailed statement of the amount claimed with respect to each item of property.

(3) An itemized receipt of payment for necessary repairs or itemized written estimates of the cost of such repairs.

(4) A statement listing date of purchase, purchase price and salvage value, where repair is not economical.

(5) Any other evidence or information which may have a bearing on either the responsibility of the United States for the damage to or loss of property or the damages claimed.

#### § 14.608 Disposition of claims.

(a) *Disallowance.* In the case of a claim where a determination is made that there is no liability on the part of the United States, the Chief Attorney (if he has jurisdiction under § 2.6(f) of this chapter), or the General Counsel will notify the claimant (or his attorney or legal representative) by certified or registered

mail. Notification of final denial may include a statement of reasons for the denial and shall include a statement that, if the claimant is dissatisfied with the agency action, suit in an appropriate U.S. district court may be instituted not later than 6 months after the date of mailing of the notice of final denial.

(b) *Reconsideration of disallowance.* Prior to the expiration of the 6-month period provided in 28 U.S.C. 2401(b), a claimant, his duly authorized agent, or legal representative, may file a written request with the agency for reconsideration of a final denial of a claim under paragraph (a) of this section. Upon the timely filing of a request for reconsideration, the agency shall have 6 months from the date of filing in which to make a final disposition of the claim, and the claimant's option under 28 U.S.C. 2675(a), shall not accrue until 6 months after the filing of a request for reconsideration. Final agency action on a request for reconsideration shall be effected by the Chief Attorney if the claim is one within his jurisdiction as authorized by § 2.6(f) (1) of this chapter, otherwise by the General Counsel. If the previous denial decision is upheld, the notice shall be by certified mail and the claimant will be advised of his right to bring suit within 6 months.

(c) *Allowance or compromise.* (1) In the case of a claim where a determination is made by the Chief Attorney (if the claim is one for which he has been delegated authority under § 2.6(f) (1) of this chapter), or by the General Counsel, that there is or could be liability on the part of the Government, an attempt will be made to obtain an agreement with the claimant, or his attorney, as to a fair and reasonable settlement or compromise;

(2) If the claim is one being handled by the Chief Attorney, and a tentative settlement agreement is reached, advice will be obtained from the General Counsel as to the availability of funds to pay the amount agreed upon. The claimant's signature, as well as that of his spouse if appropriate, shall then be obtained on SF 1145, Voucher for Payment Under Federal Tort Claims Act, and the Chief Attorney will indicate his approval in the area designated therefor. Where required by the applicable State law, approval of a court of competent jurisdiction will be obtained. He will then forward the voucher, and the order of approval if applicable, to the General Counsel for necessary action to effect payment;

(3) Where the claim is being handled by the General Counsel, and is to be settled or compromised, the appropriate voucher will be forwarded to and executed by the claimant, or his duly authorized agent, and by his spouse if appropriate. Where required by the applicable State law, approval of a court having jurisdiction will be obtained. The General Counsel will then take necessary action to effect payment.

(d) *Attorney fees.* In any claim administratively settled or compromised, no specific portion of the award shall be designated as an attorney fee. However, 28 U.S.C. 2676 prohibits an attorney from charging, demanding, receiving, or collecting for services rendered, fees in excess of 20 per centum of any award, compromise, or settlement made pursuant to 28 U.S.C. 2672. Violation of this prohibition will subject the attorney to a fine of not more than \$2,000 or imprisonment for not more than 1 year, or both. When a claimant is represented by an attorney, the voucher for payment shall designate as "payee" both the claimant and his attorney and the check shall be delivered to the attorney whose address shall appear on the voucher.

(e) *Setoff for cost of unauthorized medical treatment.* In any tort claim administratively settled or compromised where the claimant owes the Veterans' Administration for unauthorized medical treatment, there will be set off against the tort claim award the amount of the claimant's indebtedness to the Government. The amount set off is for credit to the appropriation account from which the services were provided. The voucher prepared for settlement of the claim will specify that the amount of the setoff be deposited to the credit of the designated account and that the balance of the award be paid to the claimant.

#### LITIGATED CLAIMS

##### § 14.609 Tort suits following denial of an administrative tort claim.

Where civil action against the United States follows denial of an administrative claim, the General Counsel, upon receipt of notice of the action, will furnish to the Department of Justice a copy of the investigation report and other related materials obtained in connection with the consideration of the administrative claim previously submitted to the agency. The General Counsel will instruct the Chief Attorney to forward to the appropriate U.S. attorney the investigation report and other related materials, including medical records and any other information, which may be appropriate to the litigation. The Chief Attorney will keep the General Counsel advised of subsequent developments, and will render assistance as requested by the U.S. attorney and the General Counsel with respect to the defense of the suit.

##### § 14.610 Suits against Veterans' Administration employees arising out of the operation of motor vehicles or based upon medical care and treatment furnished by or for the Department of Medicine and Surgery.

(a) (1) Section 2679 of title 28, United States Code, provides for the defense of suits against Federal employees or their estates arising out of their operation of motor vehicles in the scope of their office or employment with the Federal Government.

(2) Section 4116, title 38, United States Code, provides for the defense of suits,

alleging malpractice or negligence in furnishing medical care and treatment, filed against physicians, dentists, nurses, pharmacists, or paramedical or other supporting personnel as a result of an act or omission which occurred while acting within the scope of their employment in or for the Department of Medicine and Surgery.

(b) Any Veterans' Administration employee against whom a civil action or proceeding is brought for damage to property, or for personal injury or death, on account of the employee's operation of a motor vehicle in the scope of his office or employment with the Government or on account of malpractice or negligence in furnishing medical care and treatment which occurred while acting within the scope of his employment in or for the Department of Medicine and Surgery, shall deliver all process and pleadings served upon him, or an attested true copy thereof, forthwith to the Chief Attorney having jurisdiction over the area in which the employee is employed. In addition, upon his receipt of such process or pleadings, or any prior information regarding the commencement of such a civil action or proceeding, he shall immediately so advise the Chief Attorney.

(c) Where civil action against an employee is covered by the provisions of either of the laws cited in paragraph (a) of this section, the Chief Attorney shall promptly, upon receipt thereof, furnish the U.S. attorney for the district embracing the place wherein the action or proceeding is brought, information concerning the commencement of such action or proceeding, and copies of all process and pleadings therein. In addition, the Chief Attorney shall submit a report to the U.S. attorney containing all available data bearing upon the question and state whether the employee was acting within the scope of his office or employment with the Federal Government at the time of the incident out of which the suit arose. Two copies of the report will be submitted to the General Counsel. In cases involving the operation of motor vehicles, the report shall include factual information bearing upon the nature of the employee's duties, his authorized destination, the conveyance authorized, whether he had departed from the route authorized or disobeyed the instructions given him, whether at the time of the incident he was engaged in the furtherance of his own personal interests, and any other relevant data. In cases involving allegations of malpractice or negligence in furnishing medical care and treatment, the report shall include factual information bearing upon the nature of the employee's duties and all available facts and circumstances surrounding the alleged act or omission, together with any other relevant information. The Chief Attorney will advise the U.S. attorney of the provisions of either 28 U.S.C. 2679 or of 38 U.S.C. 4116 and render such assistance as may be requested by the U.S. attorney or the General Counsel with respect to the defense of the suit.

## ADMINISTRATIVE SETTLEMENT OF TORT CLAIMS ARISING IN FOREIGN COUNTRIES

## § 14.615 General.

(a) *Authority.* Section 236, title 38, United States Code, provides that the Administrator of Veterans' Affairs may pay tort claims, in the manner authorized in the first paragraph of section 2672 of title 28, United States Code, when such claims arise in foreign countries in connection with Veterans' Administration operations abroad.

(b) *Action by claimant.* Claims for property loss or damage may be filed by the owner of the property or his duly authorized agent or legal representative. If the property was insured and the insurer is subrogated, in whole or in part, and if both the owner and the insurer desire to file a claim for their respective losses, they should join in one claim. Claims for personal injury may be filed by the injured person or his agent or legal representative. Claims for death may be filed by the personal representative of the decedent or any other legally qualified person. When filed by an agent or legal representative, the claim must show the title or capacity of the person representing the claimant and be accompanied by evidence of the appointment of such person as agent, legal representative, executor, administrator, guardian, or other fiduciary.

(c) *Time for filing.* A claim may not be allowed under 38 U.S.C. 236 unless it is presented to the Administrator or his designee within 2 years after the claim accrues.

## § 14.616 Form and place of filing claim.

(a) *Form of claim.* Claims arising under 38 U.S.C. 236 will be prepared in the form of a sworn statement and submitted in duplicate. The original copy of the claim will be sworn to or affirmed before an official with authority to administer oaths or affirmations and will contain the following information, at least:

- (1) The name and address of claimant;
- (2) The amount claimed for injury or death, and for property loss or damage;
- (3) If property was lost or damaged, the amount paid or payable by the insurer together with the name of the insurer;
- (4) A detailed statement of the facts and circumstances giving rise to the claim, including the time, place, and date of the accident or incident;
- (5) If property was involved, a description of the property and the nature and extent of the damage and the cost of repair or replacement based upon at least two impartial estimates;
- (6) If personal injury was involved, the nature of the injury, the cost of medical and/or hospital services, and time and income lost due to the injury;
- (7) If death is involved, the names and ages of claimants and their relationship to decedent;
- (8) The name and official position of the employee of the United States alleg-

edly responsible for the accident or injury, or loss or damage of property;

(9) The names and addresses of any witnesses to accident or incident; and

(10) If desired, the law applicable to the claim.

(b) *Place of filing claim.* Claims arising in the Philippines under 38 U.S.C. 236 will be filed with the Chief Attorney, Veterans' Administration Regional Office, Manila, Republic of the Philippines. Claims arising in other foreign countries will be filed with the American Embassy or Consulate nearest the place where the incident giving rise to the claim took place.

(c) *Evidence to be submitted by claimant.*—(1) *General.* The amount claimed on account of damage to or loss of property or on account of personal injury or death shall, so far as possible, be substantiated by competent evidence. Supporting statements, estimates and the like will, if possible, be obtained from disinterested parties. All evidence will be submitted in duplicate. Original evidence or certified copies shall be attached to the original copy of the claim, and simple copies shall be attached to the other copy of the claim. All documents in other than the English language will be accompanied by English translations.

(2) *Personal injury or death.* In support of claims for personal injury or death, the claimant will submit, as may be appropriate, itemized bills for medical, hospital, or burial expenses actually incurred; a statement from the claimant's or decedent's employer as to time and income lost from work; and a written report by the attending physician with respect to the nature and extent of the injury, the nature and extent of treatment, the degree of disability, the period of hospitalization or incapacitation, and the prognosis as to future treatment, hospitalization and the like.

(3) *Damage to personal property.* In support of claims for damage to personal property which has been repaired, the claimant will submit an itemized receipt, or, if not repaired, itemized estimates of the cost of repairs by two reliable parties who specialize in such work. If the property is not economically repairable, the claimant will submit corroborative statements of two reliable, qualified persons with respect to cost, age of the property and salvage value.

(4) *Damage to real property.* In support of claims for damage to land, trees, buildings, fences, or other improvements to real property, the claimant will submit an itemized receipt if repairs have been made, or, if repairs have not been made, itemized estimates of the cost of repairs by two reliable persons who specialize in such work. If the property is not economically repairable, the claimant will submit corroborative statements of two reliable, qualified persons with respect to the value of the improvements both before and after the accident or incident and the cost of replacements.

(5) *Damage to crops.* In support of claims for damage to crops, the claimant will submit an itemized signed statement

showing the number of acres, or other unit measure of crop damaged, the probable yield per unit, the gross amount which would have been realized from such probable yield and an estimate of the costs of cultivating, harvesting and marketing the crop. If the crop is one which need not be planted each year, the diminution in value of the land beyond the damage to the current year's crop will also be stated.

## § 14.617 Disposition of claims.

(a) *Disposition of claims arising in Philippines.* All claims arising under 38 U.S.C. 236 in the Philippines, including a complete investigation report and a brief résumé of applicable law, will be forwarded directly by the Chief Attorney to the General Counsel, together with his recommendation as to disposition.

(b) *Disposition of claims arising in foreign countries other than the Philippines.* When a claim is received in an American Embassy or Consulate, the Embassy or Consulate receiving such claim shall make such investigation as may be necessary or appropriate for a determination of the validity of the claim and thereafter shall forward the claim, together with all pertinent material, including a résumé of applicable law and a recommendation regarding allowance or disallowance of the claim, through regular channels of the Department of State to the General Counsel, Veterans' Administration Central Office, Washington, D.C.

(c) *Payment of claims.* Upon determining that there is liability on the part of the United States under 38 U.S.C. 236, the General Counsel, or such other personnel as may be designated by the Administrator, will take the necessary action to effect payment.

## CLAIMS FOR DAMAGE TO OR LOSS OF GOVERNMENT PROPERTY

## § 14.618 Collection action.

(a) In a case where the Chief Attorney determines that damage to or loss of Government property under the jurisdiction of the Veterans' Administration resulted from the negligence or other legal wrong of a person other than an employee of the United States, and such damages do not exceed \$20,000, he will request payment of the amount of damage from the person liable therefor or his insurer.

(b) The Chief Attorney may collect, compromise, suspend, or terminate collection action on any such claim as is authorized under § 2.6(f) of this chapter, in conformity with the standards in § 1.900 series of this chapter. Any such claim which is not compromised or on which collection action is not suspended or terminated, will be referred by the Chief Attorney direct to the appropriate U.S. attorney along with the information required by §§ 1.951 through 1.953 of this chapter. Any claim in excess of the authorized amount on which voluntary payment in full has not been made, will be transmitted along with the report required by § 14.605(a)(2)(i), a report on credit data (§ 1.952 of this chapter), and any other pertinent information, to the General Counsel for appropriate action.

(c) The General Counsel or those designated in § 2.6(e)(4) of this chapter will take action to collect, compromise, suspend, or terminate collection action on such claims not exceeding \$20,000 in conformity with § 1.900 series of this chapter. Any such claims not compromised, or on which collection action is not suspended or terminated in accordance with § 1.900 series of this chapter, will be referred promptly to the Department of Justice for appropriate action.

(d) The provisions of paragraphs (a) through (c) of this section are not applicable to the collection of claims involving damage to General Services Administration Motor Pool System vehicles issued for Veterans' Administration use. Whenever there is any indication that a party other than the operator of a motor pool system vehicle is at fault in an accident, all documents and data pertaining to the accident and its investigation will be submitted to the General Services Administration Regional Counsel of the region that issued the vehicle who has jurisdiction over such matters. Whenever a motor pool system vehicle is involved in an accident, resulting in damage to the property of, or injury to the person of a third party, and the third party asserts a claim against the Veterans Administration based upon the alleged negligence of the vehicle operator, the claim will be considered under § 14.600 et seq.

3. In Part 14, §§ 14.664 through 14.670 are revoked and §§ 14.664 through 14.669 are added to read as follows:

## PERSONNEL CLAIMS

## § 14.664 Scope of authority and effective date.

Public Law 88-558 (78 Stat. 767), approved August 31, 1964, authorizes the Administrator or his designee to settle and pay a claim for not more than \$6,500 made by a civilian officer or employee of the Veterans' Administration for damage to, or loss of personal property incident to his service. Authority is delegated by § 2.6(e)(5) of this chapter to the General Counsel, Associate General Counsel, Assistant General Counsel (Professional Staff Group I), and the Deputy Assistant General Counsel, of said staff group, or those acting for them, to settle and pay such claims on behalf of the Administrator, and such settlement shall be final and conclusive. Authority is delegated to Chief Attorneys by § 2.6(f)(5) of this chapter to settle and pay on behalf of the Administrator a claim under the Military Personnel and Civilian Employees' Claims Act of 1964, not exceeding amounts authorized by said section, in accordance with instructions issued by the General Counsel.

(b) The Personnel Officer receiving the claim will forward same to the person designated to investigate accidents at the station pursuant to § 14.605 within 5 days after receipt.

## § 14.665 Claims.

(a) The claim must be presented in writing on VA Form 2-4760, Employee's Claim for Reimbursement for Personal Property Damaged or Lost Incident to Employment. It will be submitted to the personnel office where the claim originates within 2 years after it accrues, except that if the claim accrues in time

of war or in time of armed conflict in which any armed force of the United States is engaged or if such war or armed conflict intervenes within 2 years after it accrues, and if good cause is shown, the claim may be presented not later than 2 years after that cause ceases to exist. The claim must be executed and certified by the officer or the employee suffering the loss or damage, or in the event of his death, by the surviving spouse, children, father or mother or both, or brothers or sisters or both. Claims of survivors shall be settled and paid in the order named. All claims must contain the following:

(1) The date, time, and place the loss or damage occurred and the circumstances surrounding such loss or damage, together with the supporting statements of any witnesses who can verify such facts.

(2) In the event of damage, the date of acquisition, original cost, condition before damage, and at least two estimates of the cost of repair or replacement. In the event of loss, the date of acquisition, the original cost, the condition, and an estimate of the reasonable market value of the article or articles.

(3) A statement as to any claims or potential claim he may have for indemnification of the loss or damage against other than the United States and whether he will assign such to the United States and cooperate in its prosecution. Where such claim or potential claim is against a carrier or insurer, evidence that a timely claim has been properly made. Where a recovery from the carrier or his insurer has been obtained or offered, such information shall be included.

(4) In cases involving damage or destruction of personal property by patients or domiciliary members, a statement as to whether a claim was filed pursuant to 38 U.S.C. 233(a)(5) and whether such claim has been finally denied.

(b) The Personnel Officer receiving the claim will forward same to the person designated to investigate accidents at the station pursuant to § 14.605 within 5 days after receipt.

(c) The employee designated pursuant to § 14.605 will ascertain if such claim is complete in all respects and conduct such investigation as is necessary to establish all facts required to properly evaluate the claim both as to merit and the reasonable amount payable for the loss or damage. Where it is indicated that the claimant may have a potential claim against other than the United States, he will secure a suitable assignment of all right and title to such claim, to the extent the United States makes reimbursement, and the agreement of the claimant to furnish such evidence as may be necessary to pursue such claim. If the potential claim is against a carrier or insurer, he will ascertain that the claimant has filed a timely proper claim and procure evidence thereof. He will also include information concerning any offer of settlement the carrier may have made. The completed investigation, original claim and supporting evidence will

be forwarded to the appropriate Chief Attorney.

## § 14.666 Chief attorney responsibility.

(a) The Chief Attorney having jurisdiction will conduct such additional investigation as he deems necessary to establish all facts required. If the claimant has indicated he may have a potential claim for indemnification against other than the United States, the Chief Attorney will ascertain that a suitable assignment, legally enforceable, of all right and title to such claim, to the extent the United States makes reimbursement, and the agreement of the claimant to furnish such evidence as may be necessary to pursue such claim is of record. If such potential claim is against a carrier or insurer, he will ascertain that claimant has filed a timely proper claim against the carrier or insurer and review same for legal sufficiency.

(b) If the claim is for an amount within his jurisdiction, the Chief Attorney will take action thereon in accordance with §§ 14.664 through 14.667. If the claim exceeds an amount within his jurisdiction, the Chief Attorney will forward the original claim with the supporting evidence, the initial investigation report, the original of his investigation report, if any, and a recommendation as to disposition of the claim to the General Counsel.

## § 14.667 Claims payable.

(a) No claim shall be paid unless timely filed in proper form as provided in § 14.665 and the preponderance of the evidence establishes that the loss or damage:

(1) Actually occurred and the amount claimed is reasonable.

(2) Was incident to the employee's service and his possession of the property was reasonable, useful or proper under the circumstances.

(3) Did not occur at quarters occupied within the 50 States or the District of Columbia that were not assigned to the claimant or otherwise provided in kind by the United States.

(4) Was not caused wholly or partly by the negligent act of claimant, his agent, or his employee, and that the claimant has no right to indemnification for his loss or damage from other than the United States, except to the extent that he assigns such right to the United States and agrees to furnish evidence required to enable the United States to enforce such right. In the event he has a right to recovery for the loss or damage from a carrier or insurer he will be required to file a timely claim for such recovery before consideration of his claim against the United States.

(b) No claim for the cost of repair or replacement of personal property of employees damaged or destroyed by patients or domiciliary members while such employees are engaged in the performance of official duties shall be entertained under §§ 14.664 through 14.667, unless claim filed pursuant to 38 U.S.C. 233(a)(5) (§ 17.78 of this chapter) has

been finally denied for the reason that such claim did not meet the criteria established by that law.

#### § 14.668 Disposition of claims.

(a) *Disallowed claims.* Claimants will be promptly notified of the disallowance of a claim and the reasons therefor.

(b) *Allowed claims.*—(1) *Reimbursement in kind.* Where a claim is allowed and it is determined to be to the advantage of the Government, reimbursement will be made in kind. The official authorizing settlement will request the Director, Supply Service, Department of Medicine and Surgery, to procure the necessary article or articles and deliver same to the claimant.

(2) *Reimbursement by check.* The official authorizing settlement will forward allowed claims, other than those requiring reimbursement in kind, to the Finance activity at the Veterans Administration installation where the claim arose. That activity will audit the claim, which if found proper for payment, will be scheduled on VA Form 4-1423, Voucher and Schedule of Payments, and forwarded to the appropriate Regional Disbursing Office for payment.

#### § 14.669 Fees of agents or attorneys; penalty.

The Military Personnel and Civilian Employees' Claims Act of 1964 (Public Law 88-558; 78 Stat. 767) was amended by Public Law 89-185 (79 Stat. 789), on September 15, 1965, by adding a new section which provided that no more than 10 percent of the amount paid in settlement of each individual claim submitted and settled under the authority of the Act shall be paid or delivered to or received by any agent or attorney on account of services rendered in connection with that claim. Any person violating the provisions of this Act is deemed to be guilty of a misdemeanor and upon conviction thereof shall be fined in any sum not exceeding \$1,000.

[FR Doc 73-3892 Filed 2-28-73; 8:45 am]

#### PART 2—DELEGATIONS OF AUTHORITY

##### General Counsel et al.

Section 2.75 is revised to read as follows:

§ 2.75 The General Counsel, Associate General Counsel, Assistant General Counsel (Professional staff group 1), and the Deputy Assistant General Counsel of said staff group, or those acting for them are delegated authority to settle and pay a claim for not more than \$6,500 made by a civilian officer or employee of the Veterans Administration for damage to, or loss of, personal property incident to his service on behalf of the Administrator, and such settlement shall be final and conclusive.

This delegation of authority is identical to § 14.664 of this chapter.

Approved: February 23, 1973.

By direction of the Administrator.

[SEAL] FRED B. RHODES,  
Deputy Administrator.

[FR Doc 73-3935 Filed 2-28-73; 8:45 am]

## RULES AND REGULATIONS

### Title 39—Postal Service CHAPTER I—U.S. POSTAL SERVICE BYLAWS

#### Miscellaneous Amendments

On February 6, 1973, the Board of Governors of the U.S. Postal Service by Resolution No. 73-1 amended §§ 3.2, 4.1, 5.1, 5.2, and 6.1 of its bylaws (§§ 3.2, 4.1, 5.1, 5.2, and 6.1 of Title 39 CFR (36 FR 689-690)). The changes, which took effect on the date of adoption, relate to the scheduling of the Board of Governors' annual meeting; the appointment, and term of office, of committee members; the term of office of the Chairman of the Board; the term of office of the Vice Chairman of the Board; and when the Postmaster General shall render an annual report to the board.

Accordingly, the following amendments are made to Title 39, CFR.

#### PART 3—BOARD OF GOVERNORS [ARTICLE III]

1. The second sentence of § 3.2 is amended to read as follows:

§ 3.2 Regular meetings.

The first regular meeting held in each calendar year shall be designated as the annual meeting. \* \* \*

#### PART 4—COMMITTEES OF THE BOARD [ARTICLE IV]

2. The second sentence of § 4.1 is amended to read as follows:

§ 4.1 Establishment and appointment of committees.

The chairman and members of each committee shall be appointed by the Chairman of the Board to serve for terms which shall expire at the end of each annual meeting. \* \* \*

#### PART 5—OFFICERS [ARTICLE V]

3. Paragraph (c) of § 5.1 is amended to read as follows:

§ 5.1 Chairman.

(c) Serve for a term that shall commence at the time of his election and shall expire at the end of the first annual meeting following the meeting at which he was elected. \* \* \*

4. The first sentence of § 5.2 is amended to read as follows:

§ 5.2 Vice Chairman.

The vice chairman shall be elected by the board from among the members of the board and shall serve for a term that shall commence at the time of his election and shall expire at the end of the first annual meeting thereafter. \* \* \*

#### PART 6—REPORTS AND RECORDS [ARTICLE VI]

5. The first sentence of § 6.1 is amended to read as follows:

§ 6.1 Annual report.

At or before the annual meeting of the board, the Postmaster General shall render an annual report to the board con-

cerning the operations of the Postal Service as required by 39 U.S.C. section 2402. \* \* \*

(39 U.S.C. 202, 205, 401(2))

LOUIS A. COX,  
General Counsel of the U.S.  
Postal Service, and Secretary  
to the Board of Governors.

[FR Doc 73-3876 Filed 2-28-73; 8:45 am]

#### Title 41—Public Contracts and Property Management

### CHAPTER 8—VETERANS ADMINISTRATION

#### PART 8-7—CONTRACT CLAUSES Clauses for Fixed-Price Supply and Construction Contracts

On page 26439 of the FEDERAL REGISTER of December 12, 1972, there was published a notice of proposed regulatory revision of §§ 8-7.150 and 8-7.650, Title 41, Code of Federal Regulations, to revise clauses currently prescribed for fixed-price supply contracts and for fixed-price construction contracts in excess of \$10,000, to incorporate additional construction contract clauses typically used, and to delete material inappropriate thereto. Interested persons were given 30 days in which to submit comments, suggestions, or objections regarding the proposed regulations.

Only one comment was received. It was recommended that the clause on contract changes (§ 8-7.650-2) be amended to raise the requirement for itemized breakdowns from \$100 to \$1,000. The basis of the recommendation was stated to be a saving of paperwork for both the contractor and the contracting officer. It is believed, however, that the preparation of an itemized cost breakdown is essential to the estimating process regardless of amount. The degree of detail, however, can vary with the complexity of the work, and considerable latitude is permitted in the case of smaller and less complex change proposals. Accordingly, the clause is adopted as proposed. Sections 8-7.150 and 8-7.650 are set forth below.

*Effective date.* These regulations are effective March 1, 1973.

Approved: February 23, 1973.

By direction of the Administrator.

[SEAL] FRED B. RHODES,  
Deputy Administrator.

#### § 8-7.150-19 [Revoked]

1. Section 8-7.150-19 *Affirmative action compliance program*, is revoked.

2. Section 8-7.150-23 is revised to read as follows:

§ 8-7.150-23 *Noncompliance with packaging, packing, and/or marking requirements.*

The following clause will be included in contracts for supplies for delivery to supply distribution warehouses or depots for storage and subsequent issue to a using activity. It may also be included when appropriate when delivery is direct to a using activity.

## RULES AND REGULATIONS

#### NONCOMPLIANCE WITH PACKAGING, PACKING, AND/OR MARKING REQUIREMENTS

Failure to comply with the packaging, packing, and marking requirements indicated herein, or incorporated herein by reference, may result in rejection of the merchandise and request for replacement, or repackaging, repacking, and/or marking. The Government reserves the right without obtaining authority from the Contractor to perform the required repackaging, repacking, and/or marking services and charge the Contractor therefor at a rate of \$11 per man-hour for the first or fractional hour and \$6 for any succeeding or fractional hour, or have the required repackaging, repacking, and/or marking services performed commercially under Government orders and charge the Contractor therefor at the above rates. In connection with any discount offered, time will be computed from the date of completion of such repackaging, repacking, and/or marking services.

3. Section 8-7.650-2 is revised to read as follows:

§ 8-7.650-2 *Specifications and drawings.*

Clause 2 of the general provisions (Construction Contract) SF 23A is supplemented as follows:

(a) The Contracting Officer's interpretation of the drawings and specifications will be final, subject to the disputes clause.

(b) Large scale drawings supersede small scale drawings.

(c) Dimensions govern in all cases. Scaling of drawings may be done only for general location and general size of items.

(d) Dimensions shown of existing work and all dimensions required for work that is to connect with existing work, shall be verified by the Contractor by actual measurement of the existing work. Any work, at variance with that specified or shown in the drawings shall not be performed by the Contractor until approved in writing by the Contracting Officer.

4. Section 8-7.650-4 is added to read as follows:

§ 8-7.650-4 *Bonds.*

The contractor must furnish a Performance Bond (Standard Form 25) for one-hundred (100) percent of the amount of the contract, and a Payment Bond (Standard Form 25A) in the penal sums set forth below:

Amount of contract	Penal sum of bond
\$2,000 to \$1,000,000.....	Fifty (50) percent of the amount of the contract
\$1,000,000 to \$5,000,000.....	Forty (40) percent of the amount of the contract
\$5,000,000 and over.....	\$2,500,000

5. Section 8-7.650-8 is added to read as follows:

§ 8-7.650-8 *Reference to "Standards".*

(a) Any materials, equipment, or workmanship specified by references to number, symbol, or title of any specific Federal, Industry or Government Agency Standard Specification shall comply with all applicable provisions of such standard specifications, except as limited to type, class or grade, or modified in contract specifications. Reference to "Standards" referred to in the contract specifications, except as modified, shall have

full force and effect as though printed in detail in specifications.

(b) Federal Specification numbers refer to specifications issued by General Services Administration. Such specifications may be seen at the Office of Construction, Veterans Administration, Washington, D.C., or at the office of the Resident Engineer for this project. An Index to the Specifications may be purchased from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Single copies of specifications may be obtained without charge for bidding purposes, from any GSA Business Service Center provided a copy of the Invitation for Bids is furnished. Multiple copies may be purchased only from Specifications Activity, Printed Materials Division, Building 197, Naval Weapons Plant, Washington, D.C. 20407.

§ 8-7.650-11 [Revoked]

6. Section 8-7.650-11, affirmative action compliance program, is revoked.

7. Section 8-7.750-12 is added (material formerly in § 8-7.650-13) and a new § 8-7.650-13 is added so that §§ 8-7.650-12 and 8-7.650-13 read as follows:

§ 8-7.650-12 *Subcontracts and work coordination.*

The following clause is for use except as provided in § 8-7.650-13.

#### SUBCONTRACTS AND WORK COORDINATION

(a) Nothing contained in this contract shall be construed as creating any contractual relationship between any subcontractor and the Government. Divisions or sections of specifications are not intended to control the Contractor in dividing work among subcontractors, or to limit work performed by any trade.

(b) The Contractor shall be responsible to the Government for acts and omissions of his own employees, and of the subcontractors and their employees. He shall also be responsible for coordination of the work of the trades, subcontractors, and materialmen.

(c) The Government reserves the right to refuse to permit employment on the work or require dismissal from the work of any subcontractor who, by reason of previous unsatisfactory work on Veterans Administration projects or for any other reason, is considered by the Contracting Officer to be incompetent or otherwise objectionable.

(d) The Government reserves the right to refuse to permit employment on the work or require dismissal from the work of any subcontractor who, by reason of previous unsatisfactory work on Veterans Administration projects or for any other reason, is considered by the Contracting Officer to be incompetent or otherwise objectionable.

§ 8-7.650-13 *Work coordination (alternate provision).*

For new construction work with complex mechanical-electrical work, the following provision relating to work coordination may be substituted for paragraph (b) of the clause set forth in § 8-7.650-12: \*

The Contractor shall be responsible to the Government for acts and omissions of his own employees, and subcontractors and their employees. He shall also be responsible for coordination of the work of the trades, subcontractors, and material suppliers. The Contractor shall, in advance of the work, prepare coordination drawings showing the location of openings through slabs, the pipe sleeves and hanger inserts, as well as the location and elevation of utility lines, including, but not limited to, conveyor sys-

tems, pneumatic tubes, ducts, and conduits and pipes 2 inches and larger in diameter. These drawings, including plans, elevations, and sections as appropriate shall clearly show the manner in which the utilities fit into the available space and relate to each other and to existing building elements. Drawings shall be of appropriate scale to satisfy the previously stated purposes, but not smaller than 1/8-inch scale. Drawings may be composite (with distinctive colors for the various trades) or may be separate but fully coordinated drawings (such as sepia or photographic paper reproductions) of the same scale. Separate drawings shall depict identical building areas or sections and shall be capable of being overlaid in any combination. The submitted drawings for a given area of the project shall show the work of all trades which will be involved in that particular area. Six complete composite reproducible drawings shall be received by the Government not less than 20 days prior to the scheduled start of the work in the area illustrated by the drawings, for the purpose of showing the Contractor's planned method of installation. The objectives of such drawings are to promote carefully planned work sequence and proper trade coordination, in order to assure the expeditious solutions of problems and the installation of lines and equipment as contemplated by the contract documents while avoiding or minimizing additional costs to the Contractor and to the Government. In the event the Contractor, in coordinating the various installations and in planning the method of installation, finds a conflict in location or elevation of any of the utilities with themselves, with structural items or with other construction items, he shall bring this conflict to the attention of the Contracting Officer immediately. In doing so, the Contractor shall explain his proposed method of solving the problem or shall request instructions as to how to proceed if adjustments beyond those of usual trades coordination are necessary. Utilities installation work will not proceed in any area prior to the submission and completion of the Government review of the coordinated drawings for that area, nor in any area in which conflicts are disclosed by the coordination drawings until the conflicts have been corrected to the satisfaction of the Contracting Officer. It is the responsibility of the Contractor to submit the required drawings in a timely manner consistent with the requirement to complete the work covered by this contract within the prescribed contract time.

8. Section 8-7.650-15 is revised to read as follows:

§ 8-7.650-15 *Schedule of work progress.*

(a) The Contractor shall submit with the schedule of costs, as required by "Payment to Contractor" clause a progress curve indicating anticipated work progression against elapsed contract time, for approval of the Contracting Officer. Submission shall be in quadruplicate on VA Form 08-6159, Construction Progress Chart, furnished by the Veterans Administration, and shall be signed by the Contractor. The curve shall start on the date the Contractor receives the "Notice to Proceed" and terminate on the original contract completion date. Both dates shall be indicated on the Construction Progress Chart.

(b) The scheduled percent completion will be compared to the actual percent completion to determine if the contract work is on schedule. Monthly progress reports will be prepared by the Veterans

Administration on a Contract Progress Report form (VA Form 08-6001 or 08-6001a, as appropriate). This report will indicate both scheduled percent completion and actual percent completion. The scheduled percent completion will be taken from the approved progress curve. The actual percent completion will be based on the value of work in place divided by current contract amount.

(c) The progress curve will be revised when additional time is granted for any reason. The curve will be revised only for individual or cumulative time extensions of 15 days or more. Either of the following methods of revising the curve will be used, depending on circumstances.

(1) Where there is additional time granted for reasons which do not immediately affect the job progress, such as changed work, use the following method: The curve is replotted between two points, starting with the point on the original or current curve established by the date when the change was ordered. The second point is the extended contract completion date resulting from the change.

(2) Where there is additional time granted for reasons which immediately affect the job progress, use the following method: The curve is replotted by means of a horizontal displacement to the original or current curve. The point on the original or current curve established by the date when the change was ordered or when job progress was affected is determined. The number of days granted is plotted horizontally from this point to establish the displacement. The remainder of the curve is replotted to the extended contract completion date.

(d) The revised curve will be used for reporting future scheduled percent completion.

9. Section 8-7.650-16 is revised to read as follows:

**§ 8-7.650-16 Supplementary labor standards provisions.**

(a) The wage determination decision of the Secretary of Labor is set forth in section GR, General Requirements, of this contract. It is the result of a study of wage conditions in the locality and establishes the minimum hourly rates of wages and fringe benefits for the described classes of labor in accordance with applicable law. No increase in the contract price will be allowed or authorized because of payment of wage rates in excess of those listed.

(b) The contractor shall submit the required copies of payrolls to the contracting officer through the resident engineer or engineer officer, when acting in that capacity. Department of Labor Form WH-347, Payroll, available from the Superintendent of Documents, Government Printing Office, Washington, D.C. 20402, may be used for this purpose. If, however, the contractor or subcontractor elects to use his own payroll form, it shall contain the same information shown on Form WH-347, and in addition be accompanied by Department of Labor Form WH-348, Statement of Compliance,

or any other form containing the exact wording of this form.

10. Section 8-7.650-20 is revised to read as follows:

**§ 8-7.650-20 Safety requirements.**

(a) In order to protect the lives and health of employees and others, the Contractor shall take such safety precautions as are required by insurance underwriters, and shall comply with all applicable provisions of "Safety and Health Regulations for Construction" as set out in Part 1926, Title 29—Labor, Code of Federal Regulations.

(b) The Contractor shall maintain an accurate record of, and shall report to the Contracting Officer through the Resident Engineer in the manner and on forms prescribed by the Contracting Officer, all cases of death, occupational disease, and traumatic injury arising out of, or in course of, performance of this contract.

(c) The Contracting Officer, through the Resident Engineer, will notify the Contractor in writing of any noncompliance with safety and health regulations and necessary corrective action to be taken. On receipt of such notice, the Contractor will immediately correct the conditions to which attention has been directed.

(d) If the Contractor fails to promptly comply with the Contracting Officer's demand for necessary corrective action, as mentioned in the preceding paragraph, the Contracting Officer may order a stoppage of all or any part of the work and have corrective action taken by others and the cost of such corrective action shall be charged to the Contractor. Work stoppage(s), issued hereunder, will be lifted when necessary corrective action has been taken by the Contractor or the Government. Work stoppage(s) issued hereunder shall not be the basis of a claim for time lost or for any delays directly or indirectly attributable to Contractor's failure to comply with the above specified safety requirements.

(e) "Safety and Health Regulations for Construction," mentioned in paragraph (a) of this clause may be obtained from any regional office of the Occupational Safety and Health Administration, Department of Labor.

11. In § 8-7.650-21, paragraphs (a), (d), and (e) are amended to read as follows:

**§ 8-7.650-21 Contract changes.**

Clause 3, Changes, and Clause 4, Differing Site Conditions, of General Provisions, SF 23A are supplemented as follows:

(a) When requested by the Contracting Officer, the Contractor shall submit proposals for changes in work to the Resident Engineer. Proposals, to be submitted within 30 calendar days after receipt of request, shall be in legible form, original and five copies, with an itemized breakdown that will include material, quantities, unit prices, labor costs (separated into trades), construction equipment, etc. (Labor costs are to be identified with specific material placed or operation performed.) The Contractor must obtain and furnish with his proposal an itemized breakdown as described above, signed by each subcontractor participating in the change regardless of tier. No itemized breakdown will be required for proposals amounting to less than \$100.

(d) Allowances not to exceed 10 percent each for overhead and profit for the party performing the work will be based on the

value of labor, material, and use of construction equipment required to accomplish the change. As the value of the change increases, a declining scale will be used in negotiating the percentage of overhead and profit. Allowable percentages on changes will not exceed the following: 10 percent overhead and 10 percent profit on first \$20,000; 7½ percent overhead and 7½ percent profit on next \$30,000; 5 percent overhead and 5 percent profit on balance over \$50,000.

(e) The Prime Contractor's fee on work performed by subcontractors will be based on the net increased cost to the Prime Contractor. Allowable fee on changes will not exceed the following: 10 percent fee on first \$20,000; 7½ percent fee on next \$30,000; and 5 percent fee on balance over \$50,000.

**§ 8-7.650-23 [Revoked]**

12. Section 8-7.650-23, Release of claims, is revoked.

[FR Doc. 73-3891 Filed 2-28-73; 8:45 am]

#### CHAPTER 103—DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE PART 103-1—INTRODUCTION Miscellaneous Amendments

Chapter 103, Title 41, Code of Federal Regulations is amended as set forth below. The purposes of this amendment is to accomplish minor editorial corrections.

It is the general policy of the Department of Health, Education, and Welfare to allow time for interested parties to take part in the rule making process. However, as the amendment herein involves editorial corrections, the public rule making process is deemed unnecessary in this instance.

**Subpart 103-1.1—Regulation System**

**§ 103-1.108 [Amended]**

1. Paragraph (b) of § 103-1.108 is hereby revoked.

**Subpart 103-1.50—Authorities and Responsibilities**

2. Section 103-1.5002-10 is revised to read as follows:

**§ 103-1.5002-10 Operating agency.**

"Operating agency" shall mean the Food and Drug Administration, Office of Education, Health Services and Mental Health Administration, National Institutes of Health, Social and Rehabilitation Service, Social Security Administration and National Institute of Education.

3. The first paragraph of § 103-1.5002-11 is revised to read as follows:

**§ 103-1.5002-11 Property.**

"Property" means any interest in property except the public domain; lands reserved or dedicated for national forest or national park purposes; minerals in lands or portions of lands withdrawn or reserved from the public domain which the Secretary of the Interior determines are suitable for disposition under the public land mining and mineral leasing laws; and lands withdrawn or reserved from the public domain except lands or

portions of lands so withdrawn or reserved which the Secretary of the Interior, with the concurrence of the Administrator of General Services, determines are not suitable for return to the public domain for disposition under the general public land laws because such lands are substantially changed in character by improvement or otherwise; and records of the Federal Government. To provide the necessary management and accounting control, property is identified by categories set forth as follows:

(5 U.S.C. 301, 40 U.S.C. 486(c))

Effective date. This regulation is effective on March 1, 1973.

Dated: February 13, 1973.

N. B. HOUSTON,  
Deputy Assistant Secretary  
for Administration.

[FR Doc. 73-3178 Filed 2-28-73; 8:45 am]

#### Title 43—Public Lands: Interior CHAPTER II—BUREAU OF LAND MANAGEMENT APPENDIX—PUBLIC LAND ORDERS

[Public Land Order 5331]  
[Arizona 6208]

#### ARIZONA Withdrawal for Post Office Site

By virtue of the authority vested in the President and pursuant to Executive Order No. 10355 of May 26, 1952 (17 FR 4831), it is ordered as follows:

1. Subject to valid existing rights, and the provisions of existing withdrawals, the following described public lands, which are under the jurisdiction of the Secretary of the Interior, are hereby withdrawn from all forms of appropriation under the public land laws, including the mining laws, 30 U.S.C. chapter 2, but not from leasing under the mineral leasing laws, for a post office site for the United States postal Service:

GILA AND SALT RIVER MERIDIAN, ARIZ.

T. 20 N., R. 22 W.,  
Sec. 20, the North 140 feet of the East 240 feet of the West 290 feet of the S½NW¼.

The area described contains .77 acre in Mohave County.

2. The withdrawal made by this order does not alter the applicability of the public land laws governing the use of the lands under lease, license, or permit, or governing the disposal of their mineral or vegetative resources other than under the mining laws. However, leases, licenses, or permits will be issued only if the U.S. Postal Service finds that the proposed use of the lands will not interfere with the proper operation of its facilities on the lands. The lands are also subject to the withdrawal for reclamation purposes made by the Secretary's Order of October 16, 1931.

NATHANIEL P. REED,  
Assistant Secretary of the Interior.  
FEBRUARY 22, 1973.

[FR Doc. 73-3842 Filed 2-28-73; 8:45 am]

#### Title 46—Shipping CHAPTER II—MARITIME ADMINISTRATION, DEPARTMENT OF COMMERCE SUBCHAPTER C—REGULATIONS AFFECTING SUBSIDIZED VESSELS AND OPERATORS

[General Order 24, 3d Rev., Amdt. 3]

#### PART 284—VALUATION OF VESSELS FOR DETERMINING CAPITAL EMPLOYED AND NET EARNINGS UNDER OPERATING-DIFFERENTIAL SUBSIDY AGREEMENTS

##### Residual Value of Vessels; Depreciation Adjustments

On February 2, 1972, the U.S. District Court for the District of Columbia, in *American Mail Line Ltd. v. Stans*, Civil No. 1824-70, held that previous amendments to this part which increased the residual value of vessels from 2.5 percent to 17 percent were null and void because the 17-percent figure was based on "salvage (resale)" value, not scrap value as mandated by sections 606 and 607 of the Merchant Marine Act, 1936, as amended, as those sections existed prior to their amendment by the Merchant Marine Act of 1970.

On March 25, 1972 (37 FR 6207), the Maritime Administration and the Maritime Subsidy Board invited comments on methods of determining scrap value. In addition to the comments received, a study of scrap value was undertaken by the Maritime Administration.

Paramount to fixing scrap values for vessels is a definition of the term "scrap value." Based upon the comments and the Maritime Administration study, "scrap value" is defined as "the value, if any, of a vessel when disposed of because of having reached the end of its economic productive life as a vessel."

Based upon this definition, a fixed scrap value of 2.5 percent of original domestic shipyard construction price is adopted for purposes of this part. The percentage was calculated by applying the average scrap price per light displacement ton (LDT) for the 10-year period 1963-72 to the original domestic shipyard construction cost of vessel on which construction-differential subsidy has been paid for the period 1967-72. Because the scrap market can and does fluctuate widely, the long-term average tends to be more accurate for predicting future events. The calculations show that the 2.5-percent figure is reasonable.

While the court's order is retroactive to May 22, 1970 (the date on which the 17-percent figure was adopted), the court recognized the hardship which would result if operators had to recalculate depreciation based on a new residual value. The court, therefore, ordered that operators could elect to recalculate for the period or not.

Therefore, amendments 1 and 2 to this part are repealed as though they never existed. Part 284, Title 46, Chapter II, Code of Federal Regulations is amended as follows:

**§ 284.2 [Amended]**

1. By deleting, in its entirety, clause (ii) of § 284.2(f) (1) as though it had never existed;

2. By adding to § 284.2(f) (1), after the words "the residual value of such vessel," the words "which means the scrap value of such vessel,"; and

3. By adding a new § 284.3 to read as follows:

**§ 284.3 Depreciation deposits for calendar years 1969, 1970, and 1971.**

In the event any subsidized operator deposited depreciation for calendar years 1969, 1970, and 1971 calculated on the basis of amendments to § 284.2(f) (1) whereby the residual value of vessels was established as 17 percent of original construction cost, such subsidized operator shall not be required to make further deposits of depreciation upon the revocation and repealer of said amendments. Such subsidized operator may, however, elect to make further deposits for all of such calendar years. If an election is made, the maximum deposit for those years shall not exceed that calculated on the basis of a residual value deemed to be 2.5 percent as provided in § 284.2(f) (1).

Effective date. This amendment shall be effective March 1, 1973.

(Sec. 204, 49 Stat. 1987, as amended; 46 U.S.C. 1114, sec. 607, 66 Stat. 764, as amended; 46 U.S.C. 1177)

Dated: February 26, 1973.

By order of the Assistant Secretary of Commerce for Maritime Affairs and the Maritime Subsidy Board.

JAMES S. DAWSON, Jr.,  
Secretary, Maritime Subsidy Board, Maritime Administration.  
[FR Doc. 73-3933 Filed 2-28-73; 8:45 am]

#### Title 50—Wildlife and Fisheries CHAPTER I—BUREAU OF SPORT FISHERIES AND WILDLIFE, FISH AND WILDLIFE SERVICE, DEPARTMENT OF THE INTERIOR PART 33—SPORT FISHING

##### Blackwater National Wildlife Refuge, Md.

The following special regulation is issued and is effective during the period April 1, 1973 through September 30, 1973.

**§ 33.5 Special regulations; sport fishing; for individual wildlife refuge areas.**

##### MARYLAND BLACKWATER NATIONAL WILDLIFE REFUGE

Sport fishing and crabbing on the Blackwater National Wildlife Refuge, Cambridge, Md., is permitted only on those areas designated by signs as open to fishing. These open areas, comprising approximately 2,700 acres, are delineated on a map available at the refuge headquarters and from the Regional Director, Bureau of Sport Fisheries and Wildlife, U.S. Post Office and Courthouse, Boston, Mass. 02109. Sport fishing and crabbing shall be in accordance with all applicable State regulations except for the following special conditions.

(1) Season: April 1-September 30, Daylight hours only.

(2) Boat launching from refuge lands prohibited.

- (3) All fish and crab lines must be attended. No set tackle may be used.  
 (4) Use of airboats prohibited.

The provisions of this special regulation supplement the regulations which govern sport fishing on wildlife refuge areas generally, which are set forth in Title 50, Code of Federal Regulations, Part 33, and are effective through September 30, 1973.

RICHARD E. GRIFFITH,  
 Regional Director, Bureau of  
 Sport Fisheries and Wildlife.

FEBRUARY 20, 1973.

[FR Doc. 73-3844 Filed 2-28-73; 8:45 am]

#### Title 7—Agriculture

#### CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

[Navel Orange Regulation 290]

#### PART 907—NAVEL ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

##### Limitation of Handling

This regulation fixes the quantity of California-Arizona Navel oranges that may be shipped to fresh market during the weekly regulation period March 2-March 8, 1973. It is issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended; and Marketing Order No. 907. The quantity of Navel oranges so fixed was arrived at after consideration of the total available supply of Navel oranges, the quantity currently available for market, the fresh market demand for Navel oranges, Navel orange prices, and the relationship of season average returns to the parity price for Navel oranges.

##### § 907.590 Navel Orange Regulation 290.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 907, as amended (7 CFR Part 907), regulating the handling of Navel oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and upon the basis of the recommendations and information submitted by the Navel Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such Navel oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The need for this section to limit the respective quantities of Navel oranges that may be marketed from District 1, District 2, and District 3 during the ensuing week stems from the production and marketing situation confronting the Navel orange industry.

(1) The committee has submitted its recommendation with respect to the quantities of Navel oranges that should

be marketed during the next succeeding week. Such recommendation, designed to provide equity of marketing opportunity to handlers in all districts, resulted from consideration of the factors enumerated in the order. The committee further reports that the fresh market demand for Navel oranges continues to be active this week, with prices slightly higher than a week ago. Prices f.o.b. average \$3.56 a carton on a reported sales volume of 902 cartons last week, compared with an average f.o.b. price of \$3.55 per carton and sales of 1,005 cartons a week earlier. Track and rolling supplies at 326 cars were down 39 cars from last week.

(ii) Having considered the recommendation and information submitted by the committee, and other available information, the Secretary finds that the respective quantities of Navel oranges which may be handled should be fixed as hereinafter set forth.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this section is based became available and the time this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for Navel oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such Navel oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on February 27, 1973.

(b) *Order.* (1) The respective quantities of Navel oranges grown in Arizona and designated part of California which may be handled during the period March 2, 1973, through March 8, 1973, are hereby fixed as follows:

- (i) District 1: 960,551 cartons;  
 (ii) District 2: 300,000 cartons;  
 (iii) District 3: Unlimited movement.  
 (2) As used in this section, "handled," "District 1," "District 2," "District 3,"

and "carton" have the same meaning as when used in said amended marketing agreement and order.

(Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674)

Dated: February 28, 1973.

PAUL A. NICHOLSON,  
 Acting Director, Fruit and  
 Vegetable Division, Agricultural  
 Marketing Service.

[FR Doc. 73-4081 Filed 2-28-73; 11:59 am]

[Valencia Orange Reg. 419]

#### PART 908—VALENCIA ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

##### Limitation of Handling

This regulation fixes the quantity of California-Arizona Valencia oranges that may be shipped to fresh market during the weekly regulation period March 2-March 8, 1973. It is issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, and Marketing Order No. 908. The quantity of Valencia oranges so fixed was arrived at after consideration of the total available supply of Valencia oranges, the quantity of Valencia oranges currently available for market, the fresh market demand for Valencia oranges, Valencia orange prices, and the relationship of season average returns to the parity price for Valencia oranges.

##### § 908.719 Valencia Orange Regulation 419.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 908, as amended (7 CFR Part 908), regulating the handling of Valencia oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and upon the basis of the recommendations and information submitted by the Valencia Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such Valencia oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The need for this section to limit the respective quantities of Valencia oranges that may be marketed from District 1, District 2, and District 3 during the ensuing week stems from the production and marketing situation confronting the Valencia orange industry.

(1) The committee has submitted its recommendation with respect to the quantities of Valencia oranges that should be marketed during the next succeeding week. Such recommendation, designed to provide equity of marketing opportunity to handlers in all districts, resulted from consideration of the factors enumerated in the order. Prices at auction have averaged \$3.16 per carton for the season to date.

(ii) Having considered the recommendation and information submitted by the committee, and other information, the Secretary finds that the respective quantities of Valencia oranges which may be handled should be fixed as hereinafter set forth.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this regulation until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter

set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for Valencia oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such Valencia oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective

date hereof. Such committee meeting was held on February 27, 1973.

(b) *Order.* (1) The respective quantities of Valencia oranges grown in Arizona and designated part of California which may be handled during the period March 2, 1973, through March 8, 1973, are hereby fixed as follows:

- (i) District 1: Unlimited;  
 (ii) District 2: Unlimited;  
 (iii) District 3: 150,604 Cartons.  
 (2) As used in this section, "handled," "District 1," "District 2," "District 3," and "carton" have the same meaning as when used in said amended marketing agreement and order.

(Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674)

Dated: February 28, 1973.

PAUL A. NICHOLSON,  
 Acting Director, Fruit and Vegetable  
 Division, Agricultural  
 Marketing Service.

## Proposed Rule Making

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

### DEPARTMENT OF TRANSPORTATION

#### Federal Aviation Administration

##### [ 14 CFR Part 71 ]

[Airspace Docket No. 72-NW-17]

#### TRANSITION AREA

##### Proposed Alteration

The Federal Aviation Administration (FAA) is considering an amendment to Part 71 of the Federal Aviation Regulations that would alter the description of the Astoria, Oreg., transition area.

Interested persons may participate in the proposed rule making by submitting such written data, views, or arguments as they may desire. Communications should identify the airspace docket number and be submitted in triplicate to the Director, Northwest Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, FAA Building, Boeing Field, Seattle, Wash. 98108. All communications received on or before March 2, 1973 will be considered before action is taken on the proposed amendment. The proposal contained in this notice may be changed in the light of comments received.

An official docket will be available for examination by interested persons at the Federal Aviation Administration, Office of the General Counsel, Attention: Rules Docket, 800 Independence Avenue SW., Washington, DC 20591. An informal docket also will be available for examination at the office of the Regional Air Traffic Division Chief.

As part of this proposal relates to the navigable airspace outside the United States, this notice is submitted in consonance with the ICAO International Standards and Recommended Practices.

Applicability of International Standards and Recommended Practices by the Air Traffic Service, FAA, in areas outside domestic airspace of the United States is governed by Article 12 of and Annex 11 to the Convention on International Civil Aviation, which pertain to the establishment of air navigation facilities and services necessary to promoting the safe, orderly, and expeditious flow of civil air traffic. Their purpose is to insure that civil flying on international air routes is carried out under uniform conditions designed to improve the safety and efficiency of air operations.

The International Standards and Recommended Practices in Annex 11 apply in those parts of the airspace under the jurisdiction of a contracting state, derived from ICAO, wherein air traffic services are provided and also whenever a contracting state accepts the responsibility

of providing air traffic services over high seas or in airspace of undetermined sovereignty. A contracting state accepting such responsibility may apply the International Standards and Recommended Practices to civil aircraft in a manner consistent with that adopted for airspace under its domestic jurisdiction.

In accordance with Article 3 of the Convention on International Civil Aviation, Chicago, 1944, state aircraft are exempt from the provisions of Annex 11 and its Standards and Recommended Practices.

As a contracting state, the United States agreed by Article 3(d) that its state aircraft will be operated in international airspace with due regard for the safety of civil aircraft.

Since this action involves, in part, the designation of navigable airspace outside the United States, the Administrator has consulted with the Secretary of State and the Secretary of Defense in accordance with the provisions of Executive Order 10854.

The airspace action proposed in this docket would extend the 700-foot portion of the Astoria, Oreg., transition area to a point 18.5 miles west of the Astoria VOR. The area's boundaries would be 4.5 miles north and 9.5 miles south of the Astoria VOR 268° T (247° M) radial beginning at the western edge of V-27.

This alteration is required to provide controlled airspace for the procedure turn area for the VOR Runway 7 approach procedure that has been developed for Clatsop County Airport, Astoria, Oreg.

(Secs. 307(a) and 1110, Federal Aviation Act of 1958, 49 U.S.C. 1348(a) and 1510; E.O. 10854 (24 FR 9565); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c))

Issued in Washington, D.C., on February 22, 1973.

CHARLES H. NEWPOL,  
Acting Chief, Airspace  
and Air Traffic Rules Division.

[FR Doc. 73-3758 Filed 2-28-73; 8:45 am]

##### [ 14 CFR Part 71 ]

[Airspace Docket No. 72-SO-105]

#### CONTROL ZONE AND TRANSITION AREA

##### Proposed Alteration

The Federal Aviation Administration (FAA) is considering amendments to Part 71 of the Federal Aviation Regulations that would alter the Key West, Fla., control zone and transition area.

Interested persons may participate in the proposed rule making by submitting

such written data, views, or arguments as they may desire. Communications should identify the airspace docket number and be submitted in triplicate to the Director, Southern Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, Post Office Box 20636, Atlanta, GA 30320. All communications received on or before March 2, 1973, will be considered before action is taken on the proposed amendments. The proposals contained in this notice may be changed in the light of comments received.

An official docket will be available for examination by interested persons at the Federal Aviation Administration, Office of the General Counsel, Attention: Rules Docket, 800 Independence Avenue SW., Washington, DC 20591. An informal docket also will be available for examination at the office of the Regional Air Traffic Division Chief.

As parts of these proposals relate to the navigable airspace outside the United States, this notice is submitted in consonance with the ICAO International Standards and Recommended Practices.

Applicability of International Standards and Recommended Practices by the Air Traffic Service, FAA, in areas outside domestic airspace of the United States is governed by Article 12 of and Annex 11 to the Convention on International Civil Aviation, which pertain to the establishment of air navigation facilities and services necessary to promoting the safe, orderly, and expeditious flow of civil air traffic. Their purpose is to insure that civil flying on international air routes is carried out under uniform conditions designed to improve the safety and efficiency of air operations.

The International Standards and Recommended Practices in Annex 11 apply in those parts of the airspace under the jurisdiction of a contracting state, derived from ICAO, wherein air traffic services are provided and also whenever a contracting state accepts the responsibility of providing air traffic services over high seas or in airspace of undetermined sovereignty. A contracting state accepting such responsibility may apply the International Standards and Recommended Practices to civil aircraft in a manner consistent with that adopted for airspace under its domestic jurisdiction.

In accordance with Article 3 of the Convention on International Civil Aviation, Chicago, 1944, state aircraft are exempt from the provisions of Annex 11 and its Standards and Recommended Practices. As a contracting state, the United States agreed by Article 3(d) that

its state aircraft will be operated in international airspace with due regard for the safety of civil aircraft.

Since these actions involve, in part, the designation of navigable airspace outside the United States, the Administrator has consulted with the Secretary of State and the Secretary of Defense in accordance with the provisions of Executive Order 10854.

The proposed airspace actions are necessary to contain instrument approach procedures in accordance with terminal instrument procedures (TERP's) criteria.

If these actions are taken the Key West, Fla., control zone and transition area would be amended as follows:

### PROPOSED RULE MAKING

#### 1. Key West, Fla., control zone:

Within a 5-mile radius of Key West International Airport (lat. 24°33'32" N., long. 81°45'35" W.); within 3 miles each side of the 268° bearing from Fish Hook RBN, extending from the 5-mile-radius zone to 8.5 miles west of the RBN; within 4 miles each side of Key West VORTAC 309° radial, extending from the 5-mile-radius zone to 8.5 miles northwest of the VORTAC; within a 5-mile radius of Key West NAS (Boca Chica) (lat. 24°34'30" N., long. 81°41'15" W.); within 3.5 miles each side of the 251° bearing from Key West NAS UHF RBN, extending from the 5-mile-radius zone to 10.5 miles west of the RBN.

#### 2. Key West, Fla., transition area:

That airspace extending upward from 700 feet above the surface within an 8.5-mile

radius of Key West International Airport (lat. 24°33'32" N., long. 81°45'35" W.); within 4 miles each side of Key West VORTAC 309° radial, extending from the 8.5-mile-radius area to 9.5 miles northwest of the VORTAC; within an 8.5-mile radius of Key West NAS (Boca Chica) (lat. 24°34'30" N., long. 81°41'15" W.).

(Secs. 307(a) and 1110, Federal Aviation Act of 1958, 49 U.S.C. 1348(a) and 1510; E.O. 10854 (24 FR 9565); sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Washington, D.C., on February 22, 1973.

H. B. HELSTROM,  
Chief, Airspace and Air  
Traffic Rules Division.

[FR Doc. 73-3759 Filed 2-28-73; 8:45 am]

## Notices

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

### DEPARTMENT OF THE TREASURY

#### Internal Revenue Service

(Order No. 127)

#### REGIONAL COMMISSIONERS ET AL. Delegation of Authority Regarding Extension of Time for Making Certain Elections With Respect to Casualty Losses

1. By virtue of the authority granted to the Commissioner of Internal Revenue under 26 CFR 1.9100, with respect to granting extensions of time for making certain elections, there is hereby delegated to each Regional Commissioner, District Director and Service Center Director, the authority to grant reasonable extensions of time (not to exceed a total of 180 days) for changing an election made under section 165(h) of the Internal Revenue Code of 1954 and 26 CFR 1.165-11(e) beyond the date that such election becomes or became irrevocable. This date is the later of (1) 90 days after the date on which the election was made, or (2) March 6, 1973, which is 90 days after the date the final regulations under section 165(h) were published.

2. When appropriate, each Regional Commissioner or District Director may exercise this authority by granting a single extension of time covering a group of taxpayers similarly situated.

3. This authority may not be redelegated.

Date of issue and effective date: February 23, 1973.

[SEAL] JOHNNIE M. WALTERS,  
Commissioner.

[FR Doc. 73-3841 Filed 2-28-73; 8:45 am]

### DEPARTMENT OF DEFENSE

#### Department of the Army

#### U.S. ARMY AVIATION SYSTEMS COMMAND

##### Notice of Meeting

In accordance with section 10(a) (2) of the Federal Advisory Committee Act (Public Law 92-463), announcement is made of the following Committee meeting:

The U.S. Army Aviation Systems Command (AVSCOM), will conduct a meeting of the Scientific Advisory Group for Aviation Systems (SAGAS), at 1300 hours, March 1, 1973. The meeting will be held at AVSCOM, St. Louis, Mo. The meeting will consist of a swearing-in ceremony for the members of the group and an executive session discussing classified defense information. The meeting will not be open to the public.

Any additional information concerning the meeting may be obtained from Mr. B. Thomas Horace, Executive Secretary, SAGAS, Autovon 698-3821.

E. W. GANNON,  
Lieutenant Colonel, U.S. Army,  
Chief, Plans Office, TAGO.

FEBRUARY 23, 1973.

[FR Doc. 73-3953 Filed 2-28-73; 8:45 am]

### DEPARTMENT OF THE INTERIOR

#### Bureau of Land Management

#### IDAHO STATE MULTIPLE USE ADVISORY BOARD

##### Notice of Meeting

Notice is hereby given that the Bureau of Land Management Idaho State Multiple Use Advisory Board will meet at 9:30 a.m. on March 13, 1973, at the Owyhee Plaza Motel, 11th and Main Streets, Boise, Idaho. Prior to this meeting at 8 a.m. the Bureau of Land Management District Wildlife Representatives for Idaho will meet for 1½ hours.

The agenda will include discussions of the State land selection program, the moratorium on land cases in Idaho, wild horse regulations, maintenance and contribution policy, and off-road vehicles.

The meeting will be open to the public insofar as seating is available. Time will be available for brief statements from members of the public but those wishing to make an oral statement must inform the chairman in writing prior to the meeting. Interested persons may file a written statement with the board for its consideration. They should be sent to Chairman, State Advisory Board, % State Director, Bureau of Land Management, Idaho State Office, Federal Building, Post Office Box 042, 550 West Fort Street, Boise, ID 83702.

WILLIAM L. MATHEWS,  
State Director.

[FR Doc. 73-3778 Filed 2-28-73; 8:45 am]

[OR 9605]

#### OREGON

##### Notice of Proposed Withdrawal and Reservation of Lands

FEBRUARY 20, 1973.

The Department of Agriculture, on behalf of the Forest Service, has filed application, OR 9605, for the withdrawal of National Forest land described below, from nonmetalliferous location and entry under the mining laws only (30 U.S.C., Ch. 2), but not from leasing

under the mineral leasing laws, subject to valid existing rights.

The applicant desires the land for use as a unique geological area.

All persons who wish to submit comments, suggestions, or objections in connection with the proposed withdrawal may present their views in writing, no later than March 28, 1973, to the undersigned officer of the Bureau of Land Management, Department of the Interior, Post Office Box 2965 (729 NE Oregon Street), Portland, OR 97208.

The authorized officer of the Bureau of Land Management will undertake such investigations as are necessary to determine the existing and potential demand for the land and its resources. He will also undertake negotiations with the applicant agency with the view of adjusting the application to reduce the area to the minimum essential to meet the applicant's needs, to provide for the maximum concurrent utilization of the land for purposes other than the applicant's, to eliminate land needed for purposes more essential than the applicant's, and to reach agreement on the concurrent management of the land and its resources.

He will also prepare a report for consideration by the Secretary of the Interior who will determine whether or not the land will be withdrawn as requested by the applicant agency.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

If circumstances warrant it, a public hearing will be held at a convenient time and place which will be announced.

The land involved in the application is:

DESCHUTES AND WILLAMETTE NATIONAL FORESTS

ROCK MESA, THREE SISTERS WILDERNESS

Willamette Meridian, Oregon

T. 17 S., R. 8 E.,  
Sec. 28, W¼;  
Sec. 29, all;  
Sec. 30, E½;  
Sec. 31, NE¼;  
Sec. 32, all;  
Sec. 33, W¼.

The area described contains 1,063 acres in Deschutes County, Oregon, in the Deschutes National Forest and 1,337 acres in Lane County, Oregon, in the Willamette National Forest, or a total of 2,400 acres.

IRVING W. ANDERSON,  
Chief, Branch of Lands  
and Minerals Operations.

[FR Doc. 73-3845 Filed 2-28-73; 8:45 am]

## NOTICES

### Office of Hearings and Appeals

[Appeal No. IBMA 72-6]

#### GATEWAY COAL CO.

#### Amended Petition for Modification of Application of Mandatory Safety Standards

Notice is hereby given of an amended petition of Gateway Coal Co. for modification of the application of mandatory safety standards, stipulation of parties, and intention of Board of Mine Operations Appeals to act on petition.

In accordance with section 301(c) of the Federal Coal Mine Health and Safety Act of 1969, 30 U.S.C. section 861(c) (1970), there was published in the FEDERAL REGISTER, on October 21, 1970, 35 FR 16420, notice of a petition filed by Gateway Coal Co. (Jones & Laughlin Steel Corp.) for modification of application of mandatory safety standards. The notice stated that Gateway Coal Co. was seeking modification of the application of section 311 of the Act, 30 U.S.C. section 871 (1970), as implemented by 30 CFR 75.1100-2(b), 35 FR 5247.

Subsequently, Gateway amended the petition seeking modification of the application of additional standards under section 311 of the Act to encompass the fire detection and suppression systems on the entire belt conveyor in Gateway Mine. Gateway alleged that "the fire protection at Gateway Coal Mine in its entirety is equal to or greater than the standards required under the Act and Regulations." An evidentiary hearing on the amended petition was held, and the hearing officer issued a decision on October 15, 1971, denying the amended petition. Gateway Coal Co. appealed such decision to the Board of Mine Operations Appeals pursuant to 43 CFR 4.600. The representative of miners, United Mine Workers of America, did not participate in the appeal.

While the appeal was pending, Gateway Coal Co. and the appellee, the U.S. Bureau of Mines, entered into the following stipulation:

In re: appeal of Gateway Coal Co., Gateway Mine, 301(c), petition for modification of mandatory safety standards of Section 311, Dockets Nos. PITT 71-51 and PITT 71-210, Petitioner.

#### STIPULATIONS OF FACT

1. Gateway Mine is located in the Pittsburgh seam in Greene County, Pa. Coal is conveyed along approximately twenty (20) miles of belt from the working places to the tipple.

2. The main and face belts (hereinafter referred to as "belt") were placed in operation in April 1963, and has [sic] carried more than 20 million tons of coal.

3. The belt is a U.S. Bureau of Mines approved neoprene flame resistant belt.

4. The belt is a transit aligned, roof suspended belt with the head and tail pieces set firmly in concrete to prevent movement and minimize friction at the head and tail pieces.

5. Belt supports are A-frames which are set on approximately 970 foot centers.

6. The belt is driven by electrical motors.

The electrical equipment controlling these drives is enclosed in noncombustible structures.

7. An underground storage bin receives coal from a coal crusher. Feeders located at the bottom of the storage bin permit an even flow of coal to be carried on the belt from the bin to the tipple.

8. Oversized idlers at the head and tail pieces and take-up drives with the attendant oversized shafts and bearings reduce possible friction at the drives.

9. The belt flights are set in sequence and when one belt flight stops all inby belts automatically stop.

10. The belt has been aligned with no or minimum of canting to assure training thereby minimizing friction.

11. Heavy duty loading and troughing idlers are installed so that they rotate slower than regular sized idlers.

12. The belt has specially designed reactor starting circuitry rather than a point contractor [sic] type starter. This minimizes slippage and will permit smooth starts thereby minimizing heat at the drive.

13. The belt system has the following devices which will automatically shut down or indicate impending trouble: Slip switches; belt drift at the head and tail pieces; belt pierce switch; a chute plug; a motor heat; a thermal magnetic overload switch in the motor; a belt slippage switch and a motor-bearing temperature increase.

14. Signal lights monitoring these devices are displayed on a panel which is viewed by the TV camera.

15. The transfer points on the main belt are monitored on a closed circuit TV system.

16. The TV system is viewed by a trained man in a control room who can stop the entire belt by use of a switch.

17. The belt will not be operated unless the TV system is in operation or in cases of an emergency where a TV camera is not functioning, a man with suitable communication to the control room operation will be located at such drive or transfer point in lieu of the TV camera until the TV camera is repaired.

18. After the belt drive system is stopped following a production shift each belt drive area will be (a) visually inspected for fire within 4 hours after shutdown or (b) the operator will be attending the television detection control panel system for a 4-hour period following shutdown or (c) any equivalent system approved by the Bureau.

19. The stopping of the belt creates a silence in the mine which serves as an "audible" warning system to men in the mine.

20. A communications system is installed and maintained so that suitable communication is maintained with miners.

21. Water is put on the belt primarily for dust control but it does also create a wet belt.

22. Firefighting equipment is located so that miners can transport it and attack a fire at an affected belt drive within fifteen (15) minutes after being notified of a fire.

23. The mine has a large source of water available from a large dam which is fed by a stream. City water is also fed into the mine. The main water lines are located in the haulage ways with water tapoff lines leading directly to the belt drives.

24. Firehoses capable of delivering a minimum of 50 gallons of water per minute at 50 p.s.i. to the belt drive equipment will be provided within sixty (60) days of date of order of the board or as further extended by the Bureau of Mines.

25. The firehoses have constant water to the valves and are tested at regular intervals.

26. At least 500 feet of hose will be at each belt drive.

27. The ventilation system will be maintained so that persons fighting fires will be able to travel and operate in intake air during fire control activities.

28. There are four specially equipped fire trains strategically located within the mine so that at least two and possible [sic] four trains can approach a fire in intake air.

29. A locomotive is attached to each fire train. The locomotives are tested weekly.

30. The fire trains consist of the following: a car with approximately 8 tons of rock-dust; a car with various brattice, fire extinguisher, tools, etc.; a water tank with a 1,200 gallon capacity and high pressure pump capable of delivering 50 gallons of water at 50 p.s.i. A special foam generator equipment [sic] is available.

31. High pressure rock-dusting machines with attached hose are available in the working areas of the mine and can be transported to any fire location.

32. At least one portable ABC dry chemical fire extinguisher is located at every belt drive.

33. There is a [sic] more than the required of 240 pounds of rock-dust located at each belt drive.

34. There are two completely equipped well-trained mine rescue teams of 16 people within the Jones & Laughlin Steel Corp. mine complex in this area, of which Gateway Mine is a part, who train at least 1 day each month.

35. All assistant mine foremen are trained in the use of fire suppression equipment.

36. There is a planned, well-publicized, and posted procedure for methods of fighting fires and specific lines of authority to direct the fighting of a fire.

37. There are several fire companies located within five (5) miles of the mine and their equipment is available.

38. The mine is located in an area with seven or eight other mines and equipment and well-trained men from these mines are available to fight fires.

39. Ventilation doors are installed to control the air flow over the belt drives in case of a fire.

40. Power is sectionalized so that it can be cut off in any area of the mine and still permit fire trains to get to the fire location.

41. The men in the mine walk section escapeways once a month.

42. Gateway Mine was used as an example of an excellent fire fighting program by the U.S. Bureau of Mines in a recent publication No. 8631.

43. The United Mine Workers of America did not appear at the hearing to object to this petition for modification.

44. This agreement applies only to the Gateway Mine of Gateway Coal Co. This agreement shall continue in effect until such time as the management of Gateway Mine determines in its discretion that it shall no longer operate in whole or in part in accordance with the terms of this stipulation and modification order and that it will, instead, operate in accordance with section 311 of the Act and the impending regulations. In the event that the management of Gateway Mine makes this determination, a 30-day prior written notice shall be given to the Bureau.

45. The Gateway Mine will at all times comply with these conditions as set forth in this stipulation of facts.

#### CONCLUSION OF LAW

The belt system at the Gateway Mine as set forth in the stipulation of facts is an acceptable alternate method of achieving the results of the mandatory safety standards of section 311 of the Federal Coal Mine

Health and Safety Act of 1969 which at all times guarantee no less than the same measure of protection afforded the miners in the Gateway Mine as the standards of in the Gateway Mine as the standards of section 311 and the implementing regulations.

Wherefore, the parties respectfully request the Board of Mines Operations Appeals to approve the Petitioner's 301(c) petition for modification as set forth in this stipulation.

Dated: December 13, 1972.

DANIEL R. MINNICK,  
Gateway Coal Co.

Dated: December 11, 1972.

I. AVUM FINGERET,  
Attorney for U.S. Bureau of Mines.

Gateway is now specifically requesting modification of the application of the following mandatory standards:

30 CFR 75.1100-1(f): (1) Except as provided in subparagraph (2) of this paragraph, the fire hose shall be lined with a material having flame resistant qualities meeting requirements for hose in Bureau of Mines' Schedule 2G. The cover shall be polyester, or other material with flame-spread qualities and mildew resistance equal or superior to polyester. The bursting pressure shall be at least four times the water pressure at the valve to the hose inlet with the valve closed; the maximum water pressure in the hose nozzle shall not exceed 100 p.s.i.g.

(2) Fire hose installed for use in underground coal mines prior to December 30, 1970, shall be mildew-proof and have a bursting pressure at least four times the water pressure at the valve to the hose inlet with the valve closed, and the maximum water pressure in the hose nozzle with water flowing shall not exceed 100 p.s.i.g.

Section 311 of the Act, 30 U.S.C. section 871(f) (1970): Deluge-type water sprays or foam generators automatically actuated by rise in temperature, or other no less effective means approved by the Secretary of controlling fire, shall be installed at main and secondary belt-conveyor drives. Where sprays or foam generators are used they shall supply a sufficient quantity of water or foam to control fires.

30 CFR 75.1101-1 Deluge-type water spray systems. (a) Deluge-type spray systems shall consist of open nozzles attached to branch lines. The branch lines shall be connected to a waterline through a control valve operated by a fire sensor. Actuation of the control valve shall cause water to flow into the branch lines and discharge from the nozzles.

(b) Nozzles attached to the branch lines shall be full cone, corrosion resistant and provided with blow-off dust covers. The spray application rate shall not be less than 0.25 gallon per minute per square foot of the top surface of the top belt and the discharge shall be directed at both the upper and bottom surfaces of the top belt and to the upper surface of the bottom belt.

75.1101-2 Installation of deluge-type sprays. Deluge-type water spray systems shall provide protection for the belt drive and 50 feet of fire-resistant belt or 150 feet of non-fire-resistant belt adjacent to the belt drive.

75.1101-3 Water requirements. Deluge-type water spray systems shall be attached to a water supply. Water so supplied shall be free of excessive sediment and noncorrosive to the system. Water pressure shall be maintained consistent with the pipe, fittings, valves, and nozzles at all times. Water systems shall include strainers with a flush-out connection and a manual shut-off valve. The water supply shall be adequate to provide flow for 10 minutes except that pressure tanks used as a source of water supply shall be

of 1,000-gallon capacity for a fire-resistant belt and 3,000 gallons for a nonfire-resistant belt may be provided.

75.1101-4 Branch lines. As a part of the deluge-type water spray system, two or more branch lines of nozzles shall be installed. The maximum distance between nozzles shall not exceed 8 feet.

75.1101-5 Installation of foam generator systems. (a) Foam generator systems shall be located so as to discharge foam to the belt drive, belt take-up, electrical controls, gear reducing unit, and the conveyor belt.

(b) Foam generator systems shall be equipped with a fire sensor which actuates the system, and each system shall be capable of producing and delivering the following amounts of foam within 5 minutes:

(1) At fire-resistant belt installations, an amount which will fully envelop the belt drive, belt take-up, electrical controls, gear reducing unit, and the conveyor belt over a distance of 50 feet; and,

(2) At nonfire-resistant belt installations, an amount which will fully envelop the belt drive, belt take-up, electrical controls, gear reducing unit, and the conveyor belt over a distance of 150 feet.

(c) The foam generator shall be equipped with a warning device designed to stop the belt drive when a fire occurs and all such warning devices shall be capable of giving both an audible and visual signal when actuated by fire.

(d) Water, power, and chemicals required shall be adequate to maintain water or foam flow for no less than 25 minutes.

(e) Water systems shall include strainers with a flush-out connection and a manual shut-off valve.

75.1101-6 Water sprinkler systems; general. Water sprinkler systems may be installed to protect main and secondary belt-conveyor drives, however, where such systems are employed, they shall be installed and maintained in accordance with §§ 75.1101-7 through 75.1101-11.

75.1101-7 Installation of water sprinkler systems; requirements. (a) The fire-control components of each water sprinkler system shall be installed, as far as practicable in accordance with the recommendations set forth in National Fire Protection Association 1968-69 edition, Code No. 13, "Installation of Sprinkler Systems" and such systems' components shall be of a type approved by the Underwriters' Laboratories, Inc., Factory Mutual Research Corp.

(b) Each sprinkler system shall provide protection for the motor drive belt take-up, electrical controls, gear reducing unit, and the 50 feet of fire-resistant belt, or 150 feet of nonfire-resistant belt adjacent to the belt drive.

(c) The components of each water sprinkler system shall be located so as to minimize the possibility of damage by roof fall or by the moving belt and its load.

75.1101-8 Water sprinkler systems; arrangement of sprinklers. (a) At least one sprinkler shall be installed above each belt drive, belt take-up, electrical control, and gear-reducing unit, and individual sprinklers shall be installed at intervals of no more than 8 feet along all conveyor branch lines.

(b) Two or more branch lines, at least one of which shall be above the top belt and one between the top and bottom belt, shall be installed in each sprinkler system to provide a uniform discharge of water to the belt surface.

(c) The water discharge rate from the sprinkler system shall not be less than 0.25 gallon per minute per square foot of the top surface of the top belt and the discharge shall be directed at both the upper and bottom surfaces of the top belt and to the upper surface of the bottom belt. The supply of

water shall be adequate to provide a constant flow of water for 10 minutes with all sprinklers functioning.

(d) Each individual sprinkler shall be activated at a temperature of not less than 150° F. and not more than 300° F.

(e) Water systems shall include strainers with a flush-out connection and a manual shut-off valve.

75.1101-9 Back-up water system. One fire hose outlet together with a length of hose capable of extending to the belt drive shall be provided within 300 feet of each belt drive.

75.1101-10 Water sprinkler systems; fire warning devices at belt drives. Each water sprinkler system shall be equipped with a device designed to stop the belt drive in the event of a rise in temperature and each such warning device shall be capable of giving both an audible and visual warning when a fire occurs.

75.1101-11 Inspection of water sprinkler systems. Each water sprinkler system shall be examined weekly and a functional test of the complete system shall be conducted at least once each year.

75.1101-12 Equivalent dry-pipe system. Where water sprinkler systems are installed to protect main and secondary belt conveyor drives and freezing temperatures prevail, an equivalent dry-pipe system may be installed.

75.1101-13 Dry powder chemical systems; general. Self-contained dry powder chemical systems may be installed to protect main and secondary belt conveyor drives, however, where such systems are employed, they shall be installed and maintained in accordance with the provisions of §§ 75.1101-14 through 75.1101-22.

75.1101-14 Installation of dry powder chemical systems. (a) Self-contained dry powder chemical systems shall be installed to protect each belt-drive, belt take-up, electrical-controls, gear reducing units and 50 feet of fire-resistant belt or 150 feet of non-fire-resistant belt adjacent to the belt drive.

(b) The fire-control components of each dry powder chemical system shall be a type approved by the Underwriters' Laboratories, Inc., or Factory Mutual Engineering Corp.

(c) The components of each dry powder chemical system shall be located so as to minimize the possibility of damage by roof fall or by the moving belt and its load.

75.1101-15 Construction of dry powder chemical systems. (a) Each self-contained dry powder system shall be equipped with hose or pipe lines which are no longer than necessary.

(b) Metal piping and/or hose between control valves and nozzles shall have a minimum bursting pressure of 500 p.s.i.g.

(c) Hose shall be protected by wire braid or its equivalent.

(d) Nozzles and reservoirs shall be sufficient in number to provide maximum protection to each belt, belt take-up, electrical controls, and gear reducing unit.

(e) Each belt shall be protected on the top surface of both the top and bottom belts and the bottom surface of the top belt.

75.1101-16 Dry powder chemical systems; sensing and fire-suppression devices. (a) Each self-contained dry powder chemical system shall be equipped with sensing devices which shall be designed to activate the fire-control system, sound an alarm and stop the conveyor drive motor in the event of a rise in temperature, and provision shall be made to minimize contamination of the lens of any optical sensing device installed in such system.

(b) Where sensors are operated from the same power source as the belt drive, each sensor shall be equipped with a standby power source which shall be capable of remaining operative for at least 4 hours after a power cutoff.

(c) Sensor systems shall include a warning indicator (or test circuit) which shows it is operative.

(d) Each fire-suppression system shall be equipped with a manually operated control valve which shall be independent of the sensor.

75.1101-17 Sealing of dry powder chemical systems. Each dry powder chemical system shall be adequately sealed to protect all components of the system from moisture, dust, and dirt.

75.1101-18 Dry powder requirements. Each dry powder chemical system shall contain the following minimum amounts of multipurpose dry powder:

	Dry powder, pounds
Belt:	
Fire resistant.....	125
Nonfire resistant.....	250

75.1101-19 Nozzles; flow rate and direction. The nozzles of each dry powder chemical system shall be capable of discharging all powder within 1 minute after actuation of the system and such nozzles shall be directed so as to minimize the effect of ventilation upon fire control.

75.1101-20 Safeguards for dry powder chemical systems. Adequate guards shall be provided along all belt conveyors in the vicinity of each dry powder chemical system to protect persons whose vision is restricted by a discharge of powder from the system. In addition, hand-rails shall be installed in such areas to provide assistance to those passing along the conveyor after a powder discharge.

75.1101-21 Back-up water system. One fire hose outlet together with a length of hose capable of extending to the belt drive shall be provided within 300 feet of each belt drive.

75.1101-22 Inspection of dry powder chemical systems. (a) Each dry powder chemical system shall be examined weekly and a functional test of the complete system shall be conducted at least once each year.

(b) Where the dry powder chemical system has been actuated, all components of the system shall be cleaned immediately by flushing all powder from pipes and hoses and all hose damaged by fire shall be replaced.

Section 311(g), 30 U.S.C. 871(g) (1970): Underground belt conveyors shall be equipped with slippage and sequence switches. The Secretary shall, within 60 days after the operative date of this title, require that devices be installed on all such belts which will give a warning automatically when a fire occurs on or near such belt. The Secretary shall prescribe a schedule for installing fire suppression devices on belt haulageways.

30 CFR 75.1103-1: Automatic fire sensors. A fire sensor system shall be installed on each underground belt conveyor. Sensors so installed shall be of a type which will (a) give warning automatically when a fire occurs on or near such belt; (b) provide both audible and visual signals that permit rapid location of the fire.

The alternative method of fire protection proposed by Gateway is the system of fire detection and suppression installed in Gateway Mine, with the addition of automatic fire suppressors on the butt belts, 500 feet of firehose capable of delivering 50 gallons of water per minute at 50 pounds per square inch nozzle pressure to each belt drive, and a man stationed at each belt drive or transfer point, if the television camera, which normally monitors the belt, malfunctions.

It is noted that the parties have not stipulated to Gateway's request for the modification of the application of 30 CFR 75.1100-1(f)(1) and 75.1100-1(f)(2). As an alternative to 30 CFR 75.1100-1(f)(1) and 75.1100-1(f)(2), Gateway proposes to install, in areas of the mine where the water pressure ex-

# WILLAMETTE NATIONAL FOREST MULTIPLE USE ADVISORY COUNCIL

## Notice of Meeting

The Willamette National Forest multiple use advisory council will meet March 30 at 1 p.m. in the conference room of the forest's office at 210 East 11th Avenue in Eugene, Ore.

This is the regular semiannual meeting of the council. Members are being asked to suggest those matters relating to the forest's management practices and policies they would like to discuss. The council may also discuss its own functions.

The meeting is open to the public. Persons who wish to attend should notify Zane G. Smith, Jr., Forest Supervisor, at (503) 342-5141. Written statements may be filed with the committee before or after the meeting.

ZANE G. SMITH, JR.,  
Forest Supervisor.

## DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric  
Administration  
[Docket No. H-27]

## KONA COAST SEAFOOD CO., INC.

### Notice of Loan Application

FEBRUARY 22, 1973.

Kona Coast Seafood Co., Inc., Post Office Box 2106, Kailua-Kona, HI 96740, has applied for a loan from the Fisheries Loan Fund to aid in financing the purchase of a new fiberglass vessel, about 42 foot in length, to engage in the fishery for yellowfin tuna, wahoo, and dolphin (Corphaena hippurus) off the island of Hawaii.

Notice is hereby given, pursuant to the provisions of 16 U.S.C. 742c, Fisheries Loan Fund Procedures (50 CFR Part 250, as revised), and Reorganization Plan No. 4 of 1970, that the above entitled application is being considered by the National Marine Fisheries Service, National Oceanic and Atmospheric Administration, Department of Commerce, Washington, D.C. 20235. Any person desiring to submit evidence that the contemplated operation of such vessel will cause economic hardship or injury to efficient vessel operators already operating in that fishery must submit such evidence in writing to the Director, National Marine Fisheries Service, on or before April 2, 1973. If such evidence is received it will be evaluated along with such other evidence as may be available before making a determination that the contemplated operation of the vessel will or will not cause such economic hardship or injury.

JOSEPH W. SLAVIN,  
Acting Director.

[FR Doc.73-3796 Filed 2-28-73; 8:45 am]

Parties who are interested in Gateway Coal Co.'s amended petition and the stipulation, and who desire to file comments or to request a hearing, should file such comments or request on or before April 2, 1973, with the Board of Mine Operations Appeals, Office of Hearings and Appeals, Ballston Tower No. 3, 4015 Wilson Boulevard, Arlington, VA 22203. In the absence of objection or necessity for further hearing, the Board proposes to render a decision based upon the above stipulation and the record. Copies of the record, the petition, amendment, and stipulation are available for inspection at the Board's offices at the above address.

JAMES M. DAY,  
Director,  
Office of Hearings and Appeals.

## DEPARTMENT OF AGRICULTURE

### Forest Service

## UMATILLA NATIONAL FOREST GRAZING ADVISORY BOARD COMMITTEE

### Notice of Meeting

The Umatilla National Forest Grazing Advisory Board Committee will meet at 1 p.m., March 13, 1973, at the U.S. Forest Service Office, 2517 Southwest Halley Avenue, Pendleton, Ore.

The purpose of this meeting is to review the three proposed Secretary of Agriculture regulations which might affect grazing permits. The three are wild, free roaming horses and burros, revocation and suspension of grazing permits, and use of pesticides and chemical toxicants.

The meeting will be open to the public. Persons who wish to attend should notify the Forest Supervisor's Office at 2517 Southwest Halley Avenue, Pendleton, OR 97801, or call 276-3811, extension 231. Written statements may be filed with the Forest Service before or after the meeting.

The Committee has established the following rules for public participation: A time period will be set up for the public to participate and time limits may be set on individual public participation.

Dated: February 22, 1973.

DENNIS E. JONES,  
Acting Forest Supervisor.

[FR Doc.73-3872 Filed 2-28-73; 8:45 am]

**Office of Import Programs  
BUCKNELL UNIVERSITY**  
**Notice of Decision on Application for Duty-Free Entry of Scientific Article**

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 FR 3892 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C.

Docket No. 73-00158-33-37100. Applicant: Bucknell University, Lewisburg, Pa. 17837. Article: Yeda-press (tissue homogenizer). Manufacturer: Yeda Research & Development Co., Ltd., Israel. Intended use of article: The article is intended to be used to prepare subcellular organelles or membrane fractions. Specifically it will be used to homogenize rat testicular tissue for preparation of Golgi apparatus membranes from the male germ cell in a research project designed to gain information regarding the Golgi apparatus membrane system as it relates to acrosome formation and sperm competence.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States. Reasons: The use in the preparation of Golgi apparatus membranes from testicular tissue will require the combination of controlled osmotic shock and pressure change. These capabilities provided by the foreign article are needed to release the Golgi apparatus intact and to maintain anaerobic conditions. The Department of Health, Education, and Welfare (HEW) advised in its memorandum dated February 9, 1973, that the capabilities described above are pertinent to the purposes for which the article is intended to be used. HEW also advised that it knows of no comparable domestic instrument of equivalent scientific value to the article for the purposes for which the article is intended to be used.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

B. BLANKENHEIMER,  
Acting Director,  
Office of Import Programs.  
[FR Doc.73-3880 Filed 2-28-73; 8:45 am]

**TEXAS TECHNICAL UNIVERSITY ET AL**  
**Notice of Consolidated Decision on Applications for Duty-Free Entry of Scientific Articles**

The following is a consolidated decision on applications for duty-free entry of scientific articles pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 FR 3892 et seq.).

A copy of the record pertaining to each of the applications in this consolidated decision is available for public review during ordinary business hours of the Department of Commerce, at the Special Import Programs Division, Office of Import Programs, Department of Commerce, Washington, D.C.

Decision: Applications denied. Applicants have failed to establish that instruments or apparatus of equivalent scientific value to the foreign articles, for such purposes as the foreign articles are intended to be used, are not being manufactured in the United States.

Reasons: Section 701.8 of the regulations provides in pertinent part:

The applicant shall on or before the 20th day following the date of such notice, inform the Deputy Assistant Secretary whether it intends to resubmit another application for the same article for the same intended purposes to which the denied application relates. The applicant shall then resubmit the new application on or before the 90th day following the date of the notice of denial without prejudice to resubmission, unless an extension of time is granted by the Deputy Assistant Secretary in writing prior to the expiration of the 90-day period. . . . If the applicant fails, within the applicable time periods specified above, to either (a) inform the Deputy Assistant Secretary whether it intends to resubmit another application for the same article to which the denial without prejudice to resubmission relates, or (b) resubmit the new application, the prior denial without prejudice to resubmission shall have the effect of a final decision by the Deputy Assistant Secretary on the application within the context of § 701.11.

The meaning of the subsection is that should an applicant either fail to notify the Deputy Assistant Secretary of its intent to resubmit another application for the same article to which the denial without prejudice relates within the 20-day period, or fails to resubmit a new application within the 90-day period, the prior denial without prejudice to resubmission will have the effect of a final denial of the application.

None of the applicants to which this consolidated decision relates has satisfied the requirements set forth above, therefore, the prior denials without prejudice have the effect of a final decision denying their respective applications.

Section 701.8 further provides:

. . . the Deputy Assistant Secretary shall transmit a summary of the prior denial without prejudice to resubmission to the FEDERAL REGISTER for publication, to the Commissioner of Customs, and to the applicant.

Each of the prior denials without prejudice to resubmission to which this consolidated decision relates was based on the failure of the respective applicants to submit the required documentation, including a completely executed application form, in sufficient detail to allow the issue of "scientific equivalency" to be determined by the Deputy Assistant Secretary.

Docket No. 71-00438-01-77040. Applicant: Texas Technical University, Lubbock, Tex. 79409. Article: Mass spectrometer, Model 311. Denial without prejudice to resubmission: October 31, 1972.

B. BLANKENHEIMER,  
Acting Director,  
Office of Import Programs.  
[FR Doc.73-3877 Filed 2-28-73; 8:45 am]

**UNIVERSITY OF MIAMI**  
**Notice of Decision on Application for Duty-Free Entry of Scientific Article**

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 FR 3892 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C.

Docket No. 73-00168-33-46040. Applicant: University of Miami, Post Office Box 8184, Coral Gables, FL 33124. Article: Electron Microscope, Model EM 300 and accessories. Manufacturer: Philips Electronic Instruments NVD, The Netherlands. Intended use of article: The article is intended to be used in investigation to assess the structural details of cells and their components, and to relate these, by ancillary and collaborative work, to physiological and biochemical function of the cell. The primary area of study is excitable tissue, including muscle, and the central and peripheral nervous system of a variety of cells within the tissue, and the fine details of membrane structure at specific points of intercellular communication and synapse. The article will be used for educational purposes through the training of post doctoral fellows, visiting scientists, and faculty members whose research calls for fine structural information.

Comments: No comments have been received with respect to this application. Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States. Reasons: The foreign article has a specified resolving capability of 3.5 angstroms. The most closely comparable domestic instrument is the Model EMU-4C electron microscope manufactured by the Forglow Corp. The Model EMU-4C has a specified resolving capability of 5 angstroms. (The lower the numerical rating in terms of angstrom units, the better the resolving

capability.) We are advised by the Department of Health, Education, and Welfare in its memorandum dated February 9, 1973, that the additional resolving capability of the foreign article is pertinent to the purposes for which the foreign article is intended to be used. We, therefore, find that the Model EMU-4C is not of equivalent scientific value to the foreign article for such purposes as the article is intended to be used.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

B. BLANKENHEIMER,  
Acting Director,  
Office of Import Programs.

**UNIVERSITY OF NORTH CAROLINA**  
**Notice of Decision on Application for Duty-Free Entry of Scientific Article**

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 FR 3892 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C.

Docket No. 73-00149-99-66700. Applicant: University of North Carolina, Department of Computer Science, New West Hall, Chapel Hill, N.C. 27514. Article: Teleprinter projector, Model 2510T. Manufacturer: I.P. Sharp Associates, Canada. Intended use of article: The article is intended to be used in the following courses in computer science, whose objectives are to train teachers and instructors in the Ph. D. level in computer science, to train practitioners of computer science, via the professional M.S. program, and to furnish vocational competence in computer use to undergraduates.

116. Numerical methods.  
118. Data processing techniques.  
120. Data representation and manipulation.  
125. Mathematical structures in computer science.  
140. Programming systems.  
151-152. Applied mathematics in computer science.  
155. Numerical analysis.

Comments: No comments have been received with respect to this application. Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States. Reasons: The applicant's use in teaching a number of courses, including data processing and computer science requires clear presentations to relatively large groups. The Department

of Health, Education, and Welfare (HEW) in its memorandum dated February 9, 1973, advises that the degree of legibility provided by the foreign article through direct projection is pertinent to the above cited uses within the meaning of § 701.2(n) of the regulations. HEW also advises that it knows of no comparable domestic instrument of equivalent scientific value to the foreign article for such purposes as this article is intended to be used.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

B. BLANKENHEIMER,  
Acting Director,  
Office of Import Programs.  
[FR Doc.73-3881 Filed 2-28-73; 8:45 am.]

**UNIVERSITY OF WASHINGTON ET AL**  
**Notice of Applications for Duty-Free Entry of Scientific Articles**

The following are notices of the receipt of applications for duty-free entry of scientific articles pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897). Interested persons may present their views with respect to the question of whether an instrument or apparatus of equivalent scientific value for the purposes for which the article is intended to be used is being manufactured in the United States. Such comments must be filed in triplicate with the Director, Special Import Programs Division, Office of Import Programs, Washington, D.C. 20230, on or before March 21, 1973.

Amended regulations issued under cited Act, as published in the February 24, 1972, issue of the FEDERAL REGISTER, prescribe the requirements applicable to comments.

A copy of each application is on file, and may be examined during ordinary Commerce Department business hours at the Special Import Programs Division, Department of Commerce, Washington, D.C.

Docket No. 73-00351-33-41500. Applicant: University of Washington, School of Medicine, Department of Pathology, SM-30, Seattle, Wash. 98195. Article: Lamina downflow recirculating work station with base assembly; stainless steel spillage tray; ultraviolet, 15-watt bactericidal tube and fitting; and front closing panel. Manufacturer: Microflow, Ltd., United Kingdom. Intended use of article: The article is intended to be used for studies of the biochemical genetics of cultured cells (human and animal), including treatment of the cells with mutagenic agents. In addition, the article will be used for educational purposes in the following courses:

*Somatic Cell Genetics*.—A conjoint seminar course dealing with mechanisms of inheritance of somatic cells offered to graduate and medical students at the University of Washington.

**Human Cytogenetics**—A pathology course giving lecture and laboratory experience in cytogenetic pathology.

Application received by Commissioner of Customs: January 22, 1973.

Docket No. 73-00379-01-07500. Applicant: Community Blood Council Inc., 310 East 67th Street, New York, NY 10021. Article: Microcalorimetry system, LKB 10700-2. Manufacturer: LKB Produkter AB, Sweden. Intended use of article: The article is intended to be used in studies of many aspects of platelet reactivity to aggregating agents, physical conditions, and metabolism. The article will also be extremely useful for ongoing enzyme interaction studies. Application received by Commissioner of Customs: February 4, 1973.

Docket No. 73-00380-33-46040. Applicant: Veterans Administration Hospital, 2002 Holcombe Boulevard, Houston TX 77031. Article: Electron microscope, Model EM 301. Manufacturer: Philips Electronic Instruments NVD, The Netherlands. Intended use of article: The article is intended to be used for studies of the ultrastructure of kidney biopsies and correlation with clinical and immunological status of patients to establish diagnosis and thereafter to guide therapeutic management. In addition, the article will be used for studies of the electron microscopic ultrastructures of human tumors and other lesions with the view of more precise delineation of the nature of the lesions examined in surgical pathology. In addition the applicant will study various structures deriving from human blood and discharge to isolate etiological agents using negative staining techniques. The article will also be used for the training of resident physicians and staff pathologists, medical students, and students of the School of Medical Technology in the basic electron microscopic techniques. Application received by Commissioner of Customs: February 4, 1973.

Docket No. 73-00381-33-46040. Applicant: Ball State University, Muncie, Ind. 47306. Article: Electron microscope, Model HS-8F-1. Manufacturer: Hitachi Ltd., Japan. Intended use of article: The article is intended to be used for embryonic, larval, pupal, and adult gonads, to elucidate interactions of somatic and germ tissues during development. The article will also be used for educational purposes in courses in biology, medical technology, general science, biology teaching, biological science for nurses, botany, zoology, medicine, dentistry, pharmacy and veterinary medicine (i.e. the preparation of electron micrographs and training in operations of the electron microscope). Application received by Commissioner of Customs: February 2, 1973.

Docket No. 73-00382-98-34040. Applicant: University of California, Lawrence Berkeley Laboratory, East End of Hearst Avenue, Berkeley, Calif. 94720. Article: Carcinotron tube, Type CO-40B. Manufacturer: Thomson CSF, France. Intended use of article: The article will serve as a replacement tube for three

## NOTICES

existing tubes in a polarized proton target used in high energy physics experiments in conjunction with the Laboratory's Bevatron Accelerator and the Stanford Linear Accelerator. The article energizes a microwave cavity, and in so doing polarizes the protons in the solid hydrogen crystals. Application received by Commissioner of Customs: February 3, 1973.

Docket No. 73-00136-01-77030. Applicant: Albert Einstein College of Medicine, Yeshiva University, 1300 Morris Park Avenue, Bronx, NY 10461. Article: NMR Spectrometer, Model PS-100. Manufacturer: Jeolco, Japan. Intended use of article: The article will be used to investigate biological phenomena at the molecular level by observing the nuclear magnetic resonance of various nuclei in the following:

1. Iron transport by iron binding proteins.
2. Chemistry of metal chelates and metalloproteins using <sup>19F</sup> as a probe.
3. Drug-Receptor interactions.
4. Mechanism of ion transport by anti-biotic ionophorus agents.
5. Structure and chemistry of heme proteins.
6. Conformation changes in oligosaccharide-hapten-antibody interactions using <sup>19F</sup> as a probe.
7. Enzyme mechanisms.

Application received by Commissioner of Customs: September 1, 1972.

**Social and Economic Statistics  
Administration  
SPECIAL ANNUAL SURVEY  
Notice of Determination**

In conformity with title 13, United States Code, sections 181, 224, and 225, and due notice having been published on January 18, 1973 (38 FR 1756), I have determined that the annual data to be derived from the survey, "Exports of Manufactured Products: 1971 and 1972," are needed to aid the efficient performance of essential Government functions and have significant application to the needs of the public and industry and are not publicly available from nongovernmental or other Government sources.

Report forms furnishing data on the total value of shipments, total value of shipments for exports, and number of employees will be required of a sample of establishments. The establishments covered by this survey directly account for about 70 percent of total exports of manufactured products.

The information to be developed from this survey is necessary to measure adequately the impact of manufactured exports, and employment attributable thereto, at the State, standard metropolitan statistical area, and congressional district levels.

The report forms will be furnished to firms included in this survey, and additional copies are available on request to

the Director, Bureau of the Census, Washington, D.C. 20233.

I have, therefore, directed that this survey be conducted for the purpose of collecting the data hereinabove described.

Dated: February 23, 1973.

**DEPARTMENT OF HEALTH,  
EDUCATION, AND WELFARE**

**Food and Drug Administration**  
[DESI 8943]

**ACETAZOLAMIDE IN SUSTAINED  
RELEASE DOSAGE FORM**

**Drugs for Human Use; Drug Efficacy Study  
Implementation Follow-up**

In an announcement (DESI 8943) published in the FEDERAL REGISTER of July 25, 1972 (37 FR 14828), the Commissioner of Food and Drugs announced his conclusions pursuant to the evaluation of a report received from the National Academy of Sciences-National Research Council, Drug Efficacy Study Group, on the following product:

Diamox Sequels (sustained release capsules) containing acetazolamide; Lederle Laboratories Division, American Cyanamid Co., Post Office Box 500, Pearl River, NY 10965 (NDA 12-945).

All identical, related, or similar products, not the subject of an approved new drug application, are covered by the new drug application reviewed and are subject to this notice. See 21 CFR 130.40 (37 FR 23185, Oct. 31, 1972). Any person who wishes to determine whether a specific product is covered by this notice should write to the Food and Drug Administration, Bureau of Drugs, Office of Compliance (BD-300), 5600 Fishers Lane, Rockville, MD 20852.

The announcement stated, insofar as it pertains to acetazolamide in sustained release form for oral use, that it is probably effective for treatment of chronic simple (open angle) glaucoma, secondary glaucoma, and preoperatively in acute angle closure glaucoma where delay of surgery is desired in order to lower intraocular pressure. Based upon a re-evaluation of available data, the Commissioner of Food and Drugs concludes that Diamox Sequels is effective for those conditions.

The other products included in the announcement of July 25, 1972, had been classified as effective and will not be affected by this notice.

Accordingly, the previous announcement is amended to read as follows, insofar as it pertains to acetazolamide in sustained release dosage form:

**A. EFFECTIVENESS CLASSIFICATION**

The Food and Drug Administration has considered the Academy's report, as well as other available evidence, and concludes that it is effective for adjunctive

treatment of: Chronic simple (open angle) glaucoma, secondary glaucoma, and preoperatively in acute angle closure glaucoma where delay of surgery is desired in order to lower intraocular pressure.

**B. CONDITIONS FOR APPROVAL AND  
MARKETING**

The Food and Drug Administration is prepared to approve abbreviated new drug applications and abbreviated supplements to previously approved new drug applications under conditions described herein.

**1. FORM OF DRUG**

Acetazolamide preparations are in sustained release, capsule form suitable for oral administration.

**2. LABELING CONDITIONS**

a. The label bears the statement, "Caution: Federal law prohibits dispensing without prescription."

b. The drug is labeled to comply with all requirements of the Act and regulations, and the labeling bears adequate information for safe and effective use of the drug. The "indications" are:

For adjunctive treatment of: Chronic simple (open angle) glaucoma, secondary glaucoma, and preoperatively in acute angle closure glaucoma where delay of surgery is desired in order to lower intraocular pressure.

**3. MARKETING STATUS**

Marketing of such drugs may be continued under the conditions described in the notice entitled "Conditions for Marketing New Drugs Evaluated in Drug Efficacy Study," published in the FEDERAL REGISTER July 14, 1970 (35 FR 11273), as follows:

a. For holders of "deemed approved" new drug applications (i.e., an application which became effective on the basis of safety prior to Oct. 10, 1962), the submission of a supplement for revised labeling, an abbreviated supplement for updating information, and adequate data to show the biologic availability of the drug in the formulation which is marketed as described in paragraphs (a) (1) (i), (ii), and (iii) of the notice of July 14, 1970. Clinical trials which have established the effectiveness of the drug may also serve to establish the bioavailability of the drug if such trials were conducted on the currently marketed formulation. The data should show that the drug is available at a rate of release which will be safe and effective.

b. For any person who does not hold an approved or effective new drug application, the submission of an abbreviated new drug application, to include adequate data to assure the biologic availability of the drug in the formulation which is or is intended to be marketed, as described in paragraph (a) (3) (ii) of that notice. The data should show that the drug is available at a rate of release which will be safe and effective.

c. For any distributor of the drug, the use of labeling in accord with this an-

## NOTICES

nouncement for any such drug shipped within the jurisdiction of the Act as described in paragraph (b) of that notice.

Communications forwarded in response to this announcement should be identified with the reference number DESI 8943, directed to the attention of the appropriate office listed below, and addressed to the Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20852:

Supplements (identify with NDA number):  
Office of Scientific Evaluation (BD-100), Bureau of Drugs.  
Original abbreviated new drug applications (identify as such): Drug Efficacy Study Implementation Project Office (BD-60), Bureau of Drugs.  
Requests for the Academy's report: Drug Efficacy Study Information Control (BD-66), Bureau of Drugs.  
All other communications regarding this announcement: Drug Efficacy Study Implementation Project Office (BD-60), Bureau of Drugs.

This notice is issued pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 502, 505, 52 Stat. 1050-53, as amended; 21 U.S.C. 352, 355), and the Administrative Procedure Act (5 U.S.C. 554), and under the authority delegated to the Commissioner of Food and Drugs (21 CFR 2.120).

Dated: February 21, 1973.

**WILLIAM F. RANDOLPH,**

[DESI 3523; Docket No. FDC-D-531; NDA 6-257 etc.]

**CERTAIN COMBINATION DRUGS  
CONTAINING XANTHINE DERIVATIVES  
Notice of Withdrawal of Approval of New  
Drug Applications**

On November 25, 1972, there was published in the FEDERAL REGISTER (37 FR 25063) a notice of opportunity for hearing (DESI 3523) in which the Commissioner of Food and Drugs proposed to issue an order under section 505(e) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355(e)) withdrawing approval of the new drug applications for the drugs listed below. The basis of the proposed action was the lack of substantial evidence that these combination drugs, as presently formulated, will have the effects that they purport or are represented to have under the conditions of use prescribed, recommended, or suggested in the labeling, or that each component of the combination contributes to the total effects claimed.

1. NDA 11-314; Deltasmyl Tablets containing theophylline, ephedrine hydrochloride, prednisone, and phenobarbital; Roussel Corp., 155 East 44th Street, New York, NY 10017.

2. That part of NDA 6-257 pertaining to Hydrylin Tablets and Elixir containing diphenhydramine and aminophylline; G. D. Searle and Co., Post Office Box 5110, Chicago, IL 60680.

3. NDA 6-821; Nethaprin Capsules and Syrup containing etafedrine hydrochloride, ambuphylline, and doxylamine succinate; Merrell-National Laboratories, Division of Richardson-Merrell, Inc., 110 East Amity Road, Cincinnati, OH 45215.

On December 1, 1972, G. D. Searle and Co. requested withdrawal of approval of that portion of NDA 6-257 that pertains to Hydrylin Tablets and Elixir. Also, on December 1, 1972, Cole Pharmacal Co. stated that Asminyl H-F Tablets, referred to in the notice of November 25, 1972, as a related drug, were discontinued on June 30, 1972. There were no other responses.

All identical, related, or similar products, not the subject of an approved new drug application, are covered by the new drug applications reviewed and are subject to this notice. See 21 CFR 130.40 (37 FR 23185, October 31, 1972). Any person who wishes to determine whether a specific product is covered by this notice should write to the Food and Drug Administration, Bureau of Drugs, Office of Compliance (BD-300), 5600 Fishers Lane, Rockville, MD 20852.

The Commissioner of Food and Drugs, pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 505, 52 Stat. 1053, as amended; 21 U.S.C. 355), and the Administrative Procedure Act (5 U.S.C. 554), and under authority delegated to him (21 CFR 2.120), finds that on the basis of new information before him with respect to each of said drugs, evaluated together with the evidence available to him when the applications were approved, there is a lack of substantial evidence that the drugs will have the effects they purport or are represented to have under the conditions of use prescribed, recommended, or suggested in the labeling thereof.

Therefore, pursuant to the foregoing findings, approval of the above new drug applications or pertinent parts thereof, and all amendments and supplements applying thereto, is withdrawn effective on March 1, 1973. Shipment in interstate commerce of the above-listed drug products or of any identical, related, or similar product, not the subject of an approved new drug application, is henceforth unlawful.

Dated: February 21, 1973.

**WILLIAM F. RANDOLPH,**  
Acting Associate Commissioner  
for Compliance.

[FR Doc. 73-3865 Filed 2-28-73; 8:45 am]

**ADVISORY COMMITTEES  
Notice of Meetings**

Pursuant to the Federal Advisory Committee Act of October 6, 1972 (P.L. 92-463, 86 Stat. 770-776), the Food and Drug Administration announces the following public advisory committee meetings and other required information in accordance with provisions set forth in section 10(a) (1) and (2) of the Act:

## NOTICES

Committee name	Date, time, place	Type of meeting and contact person
1. Diagnostic Products Advisory Committee.	March 1 and 2, 9 a.m., Conference Room M, Parklawn Bldg., 5600 Fishers Lane, Rockville, MD.	Open—Thomas A. Hayes, M.D., Room 10B-38, 5600 Fishers Lane, Rockville, MD 20852, 301-443-1100.

**Purpose.** Reviews and evaluates information pertaining to performance standards for selected diagnostic products, evaluates and recommends reference methodologies and standards of precision and accuracy, and recommends priorities for standard setting.

**Agenda.** Status of final orders and regulations, report of subgroup on microbiological and immunological diagnostic reagents, preclearances, laboratory water, priorities, and future calls.

Committee name	Date, time, place	Type of meeting and contact person
2. Panel on Review of Antimicrobial Agents.	March 3-5, 9 a.m., Conference Room C, Parklawn Bldg., 5600 Fishers Lane, Rockville, MD.	Closed March 3 and 4, Open March 5, 9 a.m. to 10 a.m., Closed March 5, after 10 a.m., Michael Kennedy, Room 10B-06, 5600 Fishers Lane, Rockville, MD 20852, 301-443-4960.

**Purpose.** Review and evaluates available data concerning safety and effectiveness of active ingredients of currently marketed nonprescription drug products for human use containing antimicrobial ingredients.

**Agenda.** Continuing review of over-the-counter antimicrobial agents under investigation.

Committee name	Date, time, place	Type of meeting and contact person
3. Panel on Review of Topical Analgesics.	March 6, 9 a.m., Conference Room C, Parklawn Bldg., 5600 Fishers Lane, Rockville, MD.	Open 9 a.m. to 11 a.m., closed after 11 a.m., Lee Gelsmar, Room 10B-06, 5600 Fishers Lane, Rockville, MD 20852, 301-443-4960.

**Purpose.** Reviews and evaluates available data concerning safety and effectiveness of active ingredients of currently-marketed nonprescription drug products containing topical analgesics.

**Agenda.** Orientation of members and review of material on over-the-counter drugs containing topical analgesics.

Committee name	Date, time, place	Type of meeting and contact person
4. FDA/NIMH Drug Abuse Advisory Committee.	March 8, 9 a.m., Conference Room C, Parklawn Bldg., 5600 Fishers Lane, Rockville, MD.	Open 9 a.m. to noon, closed 1 p.m. to 4 p.m., Elmer A. Gardner, M.D., Room 10B-46, 5600 Fishers Lane, Rockville, MD 20852, 301-443-4020.

**Purpose.** Advises FDA on action to be taken on Notices of Claimed Investigational New Drugs for substances with abuse potential and advises NIMH on supplies of substances for clinical studies, on requests for quantities of substances for studies, and on requests for any amount of substances which involve protocols containing unique problems.

**Agenda.** Minutes of previous meeting, status of LAAM (levo-alphaacetyl methadol) for clinical trials, methodology for determining abuse potential of drugs, report of animal research involving self-administration of drugs, and review of research protocols.

Committee name	Date, time, place	Type of meeting and contact person
5. Panel of Review of Anesthesiology Devices.	March 9, 9 a.m., Executive Board Room, Mailman Center for Child Development, University of Miami, Miami, FL.	Open 9 a.m. to 10 a.m., Closed after 10 a.m., David M. Link, Room 212H, 1801 Chapman Ave., Rockville, MD 20852, 301-443-1743.

**Purpose.** Reviews and evaluates available information concerning safety, effectiveness, and reliability of anesthesiology devices currently in use.

**Agenda.** Continuing review of anesthesiology devices under investigation.

Committee name	Date, time, place	Type of meeting and contact person
6. Panel on Review of Cardiovascular Devices.	March 20, 9:30 a.m., Room 621, 300 C Street SW, Washington, DC.	Open 9:30 a.m. to 10:30 a.m., Closed after 10:30 a.m., David M. Link, Room 212B, 1801 Chapman Ave., Rockville, MD 20852, 301-443-1743.

**Purpose.** Reviews and evaluates available information concerning safety, effectiveness, and reliability of cardiovascular devices currently in use.

**Agenda.** Continuing review of cardiovascular devices under investigation.

Committee name	Date, time, place	Type of meeting and contact person
7. Technical Electronic Product Evaluation Safety Standards Committee.	March 26 and 27, 9 a.m., Room 3001, HFW Building, 330 Independence Avenue SW, Washington, DC.	Open—Marshall S. Little, Room 527, 12720 Twinbrook Parkway, Rockville, MD 20862, 301-443-3126.

**Purpose.** Provides advice and guidance on technical feasibility, reasonableness, and practicability of performance standards for electronic products to control emission from such products.

**Agenda.** Review of activities of Bureau of Radiological Health, proposed performance standard for lasers and laser products, performance standard for cabinet radiography, proposed dental X-ray amendments to diagnostic X-ray standard, and ultrasonic diathermy.

Committee name	Date, time, place	Type of meeting and contact person
8. Panel on Review of Sedative, Tranquilizer, and Sleep Aid Drugs.	March 29-31, 9 a.m., Conference Room B, Parklawn Bldg., 5600 Fishers Lane, Rockville, MD.	Open March 29, 9 a.m. to 10 a.m., closed March 29 after 10 a.m., closed March 30 and 31, Michael Kennedy, Room 10B-06, 5600 Fishers Lane, Rockville, MD 20852, 301-443-4960.

**Purpose.** Reviews and evaluates available data concerning safety and effectiveness of active ingredients of currently marketed nonprescription drug products containing sedative, tranquilizer, and sleep aid drugs.

**Agenda.** Continuing review of over-the-counter sedative, tranquilizer, and sleep aid drugs under investigation.

**Agenda items** are subject to change as priorities dictate.

During the open sessions shown above, interested persons may present relevant information or views orally to any committee for its consideration. Information or views submitted to any committee in writing before or during a meeting shall also be considered by the committee.

A list of committee members and summary minutes of meetings may be obtained from the contact person for the committee both for meetings open to the public and those meetings closed to the public in accordance with section 10(d) of the Federal Advisory Committee Act.

Most Food and Drug Administration advisory committees are created to advise the Commissioner of Food and Drugs on pending regulatory matters. Recommendations made by the committees on these matters are intended to result in action under the Federal Food, Drug, and Cosmetic Act, and these committees thus necessarily participate with the Commissioner in exercising his law enforcement responsibilities.

The Freedom of Information Act recognized that the premature disclosure of regulatory plans, or indeed internal discussions of alternative regulatory approaches to a specific problem, could have adverse effects upon both public and private interests. Congress recognized that such plans, even when finalized, may not be made fully available in advance of the effective date without damage to such interests, and therefore provided that this type of discussion would remain confidential. Thus, law enforcement activities have long been recognized as a legitimate subject for confidential consideration.

These committees often must consider trade secrets and other confidential information submitted by particular manufacturers which the Food and Drug Administration by law may not disclose, and which Congress has included within the exemptions from the Freedom of Information Act. Such information includes safety and effectiveness information, product formulation, and manufacturing methods and procedures, all of

which are of substantial competitive importance.

In addition, to operate most effectively, the evaluation of specific drug or device products requires that members of committees considering such regulatory matters be free to engage in full and frank discussion. Members of committees have frequently agreed to serve and to provide their most candid advice on the understanding that the discussion would be private in nature. Many experts would be unwilling to engage in candid public discussion advocating regulatory action against a specific product. If the committees were not to engage in the deliberative portions of their work on a confidential basis, the consequent loss of frank and full discussion among committee members would severely hamper the value of these committees.

The Food and Drug Administration is relying heavily on the use of outside experts to assist in regulatory decisions. The Agency's regulatory actions uniquely affect the health and safety of every citizen, and it is imperative that the best advice be made available to it on a continuing basis in order that it may most effectively carry out its mission.

A determination to close part of an advisory committee meeting does not mean that the public should not have ready access to these advisory committees considering regulatory issues. A determination to close the meeting is subject to the following conditions: First, any interested person may submit written data or information to any committee, for its consideration. This information will be accepted and will be considered by the committee. Second, a portion of every committee meeting will be open to the public, so that interested persons may present any relevant information or views orally to the committee. The period for open discussion will be designated in any announcement of a committee meeting. Third, only the deliberative portion of a committee meeting, and the portion dealing with trade secret and confidential information, will be closed to the public. The portion of any meeting during which nonconfidential information is made available to the committee will be open for public participation. Fourth, after the committee makes its recommendations and the Commissioner either accepts or rejects them, the public and the individuals affected by the regulatory decision involved will have an opportunity to express their views on the decision. If the decision results in promulgation of a regulation, for example, the proposed regulation will be published for public comment. Closing a committee meeting for deliberations on regulatory matters will therefore in no way preclude public access to the committee itself or full public comment with respect to the decisions made based upon the committee's recommendation.

The Commissioner has been delegated the authority under section 10(d) of the Federal Advisory Committee Act to issue a determination in writing, containing the reasons therefor, that any advisory committee meeting is concerned with matters listed in 5 U.S.C. 552(b) which contains the exemptions from the Freedom of Information Act. Pursuant to this authority, the Commissioner hereby determines, for the reasons set out above, that the portions of the advisory committee meetings designated in this notice as closed to the public involve discussion of existing documents falling within one of the exemptions set forth in 5 U.S.C. 552 (b), or matters that, if in writing, would fall within 5 U.S.C. 552(b), and that it is essential to close such portions of such meetings to protect the free exchange of internal views and to avoid undue interference with Agency and committee operations. This determination shall apply only to the designated portions of such meetings which relate to trade secrets and confidential information or to committee deliberations.

Dated: February 23, 1973.

SHERWIN GARDNER,  
Acting Commissioner of  
Food and Drugs.

[FR Doc.73-3867 Filed 2-28-73; 9:45 am]

[Docket No. FDC-D-330; NADA No. 10-467V]

**DIAMOND LABORATORIES, INC.**  
Oxytocin; Notice of Withdrawal of Approval of New Animal Drug Application

In the FEDERAL REGISTER of February 13, 1969 (34 FR 2146), the Commissioner of Food and Drugs announced the conclusions of the Food and Drug Administration following evaluation of a report received from the National Academy of Sciences-National Research Council, Drug Efficacy Study Group on Oxytocin new animal drug application (NADA) No. 10-467V; marketed by Diamond Laboratories, Inc., Des Moines, Iowa 50304.

Diamond Laboratories, Inc., responded to the announcement by advising the Commissioner that they waived the opportunity for a hearing and by requesting that the new animal drug application for this product be withdrawn.

Based on the grounds set forth in said announcement and the firm's response, the Commissioner concludes that approval of said NADA should be withdrawn. Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 51r, 82 Stat. 343-351; 21 U.S.C. 360b) and under authority delegated to the Commissioner (21 CFR 2.120), NADA No. 10-467V, including all amendments and supplements thereto, is hereby withdrawn effective on March 1, 1973.

Dated: February 21, 1973.

WILLIAM F. RANDOLPH,  
Acting Associate Commissioner  
for Compliance.

G. D. SEARLE AND CO.

Combination Drug Containing Diphenhydramine, Aminophylline, and Racephedrine Hydrochloride for Oral Use; Notice of Withdrawal of Approval of New Drug Application

On November 15, 1972, there was published in the FEDERAL REGISTER (37 FR 24203) a notice of opportunity for hearing (DESI 6261) in which the Commissioner of Food and Drugs proposed to issue an order under section 505(e) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355(e)) withdrawing approval of that part of NDA 6-257 pertaining to Hydryllin with Racephedrine Tablets containing diphenhydramine, aminophylline, and racephedrine hydrochloride; G. D. Searle and Co., Post Office Box 5110, Chicago, IL 60680.

All identical, related, or similar products, not the subject of an approved new drug application, are covered by the new drug application reviewed and are subject to this notice. See 21 CFR 130.40 (37 FR 23185, Oct. 31, 1972). Any person who wishes to determine whether a specific product is covered by this notice should write to the Food and Drug Administration, Bureau of Drugs, Office of Compliance (BD-300), 5600 Fishers Lane, Rockville, MD 20852.

By letter of December 1, 1972, G. D. Searle requested withdrawal of approval of that portion of NDA 6-257 pertaining to Hydryllin with Racephedrine Tablets. There was no other response to the notice.

The Commissioner of Food and Drugs, pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 505, 52 Stat. 1053, as amended; 21 U.S.C. 355), and the Administrative Procedure Act (5 U.S.C. 554), and under authority delegated to him (21 CFR 2.120), finds that on the basis of new information before him with respect to the drug, evaluated together with the evidence available to him when the application was approved, there is a lack of substantial evidence that the drug will have the effect it purports or is represented to have under the conditions of use prescribed, recommended, or suggested in the labeling thereof.

Therefore, pursuant to the foregoing findings, approval of that part of the new drug application 6-257 providing for the above drug and all amendments and supplements applying thereto is withdrawn effective March 1, 1973.

Shipment in interstate commerce of the above-listed drug product or of any identical, related, or similar product, not the subject of an approved new drug application, is henceforth unlawful.

Dated: February 21, 1973.

WILLIAM F. RANDOLPH,  
Acting Associate Commissioner  
for Compliance.

[DESI 11735; Docket No. FDC-D-565;  
NDA 11-735]

# GEIGY PHARMACEUTICALS

**Combination Drug Containing Phenylbutazone, Prednisone, Aluminum Hydroxide Gel, Magnesium Trisilicate, and Homatropine Methylbromide; Notice of Opportunity for Hearing on Proposal To Withdraw Approval of New Drug Application**

The Food and Drug Administration has reviewed available evidence concerning the safety and efficacy of the following drug, for which the new drug application was approved on the basis of safety prior to October 10, 1962.

Sterazolidin Capsules, containing phenylbutazone, prednisone, aluminum hydroxide gel, magnesium trisilicate, and homatropine methylbromide; marketed by Geigy Pharmaceuticals Division, Ciba-Geigy Chemical Corp., Saw Mill River Road, Ardsley, N.Y. 10502 (NDA 11-735).

As a result of that review, the Commissioner of Food and Drugs concludes that (1) there is a lack of substantial evidence that the drug is effective as a fixed combination, (2) in view of the excessive risk associated with its use, proof of safety is lacking, and (3) that the drug is not appropriate for administration in fixed combination within the guidelines set forth in the statement of general policy and interpretation § 3.86 Fixed Combination Prescription Drugs for Humans, published in the FEDERAL REGISTER of October 15, 1971 (36 FR 20037).

Therefore, notice is given to the holder(s) of the new drug application(s) and to any other interested person that the Commissioner proposes to issue an order under section 505(e) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355(e)) withdrawing approval of the listed new drug application(s) and all amendments and supplements thereto on the grounds that new information before him with respect to the drug(s), evaluated together with the evidence available to him at the time of approval of the application(s), shows there is a lack of substantial evidence that the drug(s) will have all the effects purported or represented to have and the drug(s) is not shown to be safe for use under the conditions of use prescribed, recommended, or suggested in the labeling.

All identical, related, or similar products, not the subject of an approved new drug application, are covered by the new drug application(s) reviewed. See 21 CFR 130.40 (37 FR 23185, Oct. 31, 1972). Any manufacturer or distributor of such an identical, related, or similar product is an interested person who may in response to this notice submit data and information, request that the new drug application(s) not be withdrawn, request a hearing, and participate as a party in any hearing. Any person who wishes to determine whether a specific product is covered by this notice should write to the Food and Drug Administration, Bureau of Drugs, Office of Compliance (BD-300), 5600 Fishers Lane, Rockville, MD 20852.

## NOTICES

In accordance with the provisions of section 505 of the Act (21 U.S.C. 355) and the regulations promulgated thereunder (21 CFR Part 130), the Commissioner hereby gives the applicant(s) and any other interested person an opportunity for a hearing to show why approval of the new drug application(s) should not be withdrawn.

On or before April 2, 1973, the applicant(s) and any other interested person is required to file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 6-88, 5600 Fishers Lane, Rockville, MD 20852, a written appearance electing whether or not to avail himself of the opportunity for a hearing. Failure of an applicant or any other interested person to file a written appearance of election within said 30 days will constitute an election by him not to avail himself of the opportunity for a hearing.

If no person elects to avail himself of the opportunity for a hearing, the Commissioner without further notice will enter a final order withdrawing approval of the application(s).

If an applicant or any other interested person elects to avail himself of the opportunity for a hearing, he must file, on or before April 2, 1973, a written appearance requesting the hearing, giving the reasons why approval of the new drug application(s) should not be withdrawn, together with a well-organized and full-factual analysis of the clinical and other investigational data he is prepared to prove in support of his opposition. A request for a hearing may not rest upon mere allegations or denials, but must set forth specific facts showing that a genuine and substantial issue of fact requires a hearing (21 CFR 130.14(b)).

If review of the data submitted by an applicant or any other interested person warrants the conclusion that there exists substantial evidence demonstrating the effectiveness of the product(s), and that the drug is safe for use for the labeling claims involved, the Commissioner will rescind this notice of opportunity for hearing.

If review of the data in the application(s) and data submitted by the applicant(s) or any other interested person in a request for a hearing, together with the reasoning and factual analysis in a request for a hearing, warrants the conclusion that no genuine and substantial issue of fact precludes the withdrawal of approval of the application(s), the Commissioner will enter an order of withdrawal making findings and conclusions on such data.

If, upon the request of the new drug applicant(s) or any other interested person, a hearing is justified, the issues will be defined, a hearing examiner will be named, and he shall issue, as soon as practicable after April 2, 1973, a written notice of the time and place at which the hearing will commence. All persons interested in identical, related, or similar products covered by the new drug application(s) will be afforded an opportunity to appear at the hearing, file briefs, pre-

sent evidence, cross-examine witnesses, submit suggested findings of fact, and otherwise participate as a party. The hearing contemplated by this notice will be open to the public except that any portion of the hearing that concerns a method or process the Commissioner finds entitled to protection as a trade secret will not be open to the public, unless the respondent specifies otherwise in his appearance.

Requests for a hearing and/or elections not to request a hearing may be seen in the Office of the Hearing Clerk (address given above) during regular business hours, Monday through Friday.

This notice is issued pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 505, 52 Stat. 1052-53, as amended; 21 U.S.C. 355), and the Administrative Procedure Act (5 U.S.C. 554), and under authority delegated to the Commissioner (21 CFR 2.120).

Dated: February 21, 1973.

**WILLIAM F. RANDOLPH,**  
Acting Associate Commissioner  
for Compliance.

[FR Doc. 73-3862 Filed 2-28-73; 9:45 am]

[DESI 9411; Docket No. FDC-D-576;  
NDA No. 9-411 etc.]

# PREPARATIONS CONTAINING MECLIZINE HYDROCHLORIDE AND PYRIDOXINE HYDROCHLORIDE FOR ORAL USE

**Notice of Opportunity for Hearing on Proposal To Withdraw Approval of New Drug Applications**

In a notice (DESI 9411) published in the FEDERAL REGISTER of March 22, 1972 (37 FR 5838) the Commissioner of Food and Drugs announced his conclusions pursuant to the evaluation of reports received from the National Academy of Sciences-National Research Council, Drug Efficacy Study Group, on the drugs described below stating that the drugs were regarded as possibly effective and lacking substantial evidence of effectiveness for the various labeled indications. The possibly effective indications have been reclassified as lacking substantial evidence of effectiveness in that no new evidence of effectiveness of the drugs has been submitted pursuant to the notice.

Bonadonin Tablets and Drops, containing meclizine hydrochloride and pyridoxine hydrochloride; formerly marketed by J. B. Roerig Division, Pfizer Pharmaceuticals, 235 East 42d Street, New York, NY 10017 (NDA 9-411, NDA 10-095).

Therefore, notice is given to the holder(s) of the new drug application(s) and to any other interested person that the Commissioner proposes to issue an order under section 505(e) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355(e)) withdrawing approval of the listed new drug application(s) and all amendments and supplements thereto on the grounds that new information before him with respect to the drug(s), evaluated together with the evidence available to him at the time of approval of the application(s), shows there is a lack

of substantial evidence that the drug(s) will have all the effects purported or represented to have under the conditions of use prescribed, recommended, or suggested in the labeling.

All identical, related, or similar products, not the subject of an approved new drug application, are covered by the new drug application(s) reviewed. See 21 CFR 130.40 (37 FR 23185, Oct. 31, 1972). Any manufacturer or distributor of such an identical, related, or similar product is an interested person who may in response to this notice submit data and information, request that the new drug application(s) not be withdrawn, request a hearing, and participate as a party in any hearing. Any person who wishes to determine whether a specific product is covered by this notice should write to the Food and Drug Administration, Bureau of Drugs, Office of Compliance (BD-300), 5600 Fishers Lane, Rockville, Maryland 20852.

In accordance with the provisions of section 505 of the Act (21 U.S.C. 355) and the regulations promulgated thereunder (21 CFR Part 130), the Commissioner hereby gives the applicant(s) and any other interested person an opportunity for a hearing to show why approval of the new drug application(s) should not be withdrawn.

On or before April 2, 1973, the applicant(s) and any other interested person is required to file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 6-88, 5600 Fishers Lane, Rockville, Maryland 20852, a written appearance electing whether or not to avail himself of the opportunity for a hearing. Failure of an applicant or any other interested person to file a written appearance of election on or before April 2, 1973, will constitute an election by him not to avail himself of the opportunity for a hearing.

If no person elects to avail himself of the opportunity for a hearing, the Commissioner without further notice will enter a final order withdrawing approval of the application(s).

If an applicant or any other interested person elects to avail himself of the opportunity for a hearing, he must file, on or before April 2, 1973, a written appearance requesting the hearing, giving the reasons why approval of the new drug application(s) should not be withdrawn, together with a well-organized and full-factual analysis of the clinical and other investigational data he is prepared to prove in support of his opposition. A request for a hearing may not rest upon mere allegations or denials, but must set forth specific facts showing that a genuine and substantial issue of fact requires a hearing (21 CFR 130.14(b)).

If review of the data submitted by an applicant or any other interested person warrants the conclusion that there exists substantial evidence demonstrating the effectiveness of the product(s) for the labeling claims involved, the Commissioner will rescind this notice of opportunity for hearing.

If review of the data in the application(s) and data submitted by the appli-

## NOTICES

cant(s) or any other interested person in a request for a hearing, together with the reasoning and factual analysis in a request for a hearing, warrants the conclusion that no genuine and substantial issue of fact precludes the withdrawal of approval of the application(s), the Commissioner will enter an order of withdrawal making findings and conclusions on such data.

If, upon the request of the new drug applicant(s) or any other interested person, a hearing is justified, the issues will be defined, a hearing examiner will be named, and he shall issue, as soon as practicable after April 2, 1973, a written notice of the time and place at which the hearing will commence. All persons interested in identical, related, or similar products covered by the new drug application(s) will be afforded an opportunity to appear at the hearing, file briefs, present evidence, cross-examine witnesses, submit suggested findings of fact, and otherwise participate as a party. The hearing contemplated by this notice will be open to the public except that any portion of the hearing that concerns a method or process the Commissioner finds entitled to protection as a trade secret will not be open to the public, unless the respondent specifies otherwise in his appearance.

Requests for a hearing and/or elections not to request a hearing may be seen in the Office of the Hearing Clerk (address given above) during regular business hours, Monday through Friday. This notice is issued pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 505, 52 Stat. 1052-53, as amended; 21 U.S.C. 355), and the Administrative Procedure Act (5 U.S.C. 554), and under authority delegated to the Commissioner (21 CFR 2.120).

Dated: February 21, 1973.

# MERCK SHARP & DOHME

**Combination Drug Containing Dexamethasone Sodium Phosphate and Isoproterenol Sulfate for Inhalation; Notice of Withdrawal of Approval of New Drug Application**

On December 13, 1972 there was published in the FEDERAL REGISTER (37 FR 26537) a notice of opportunity for hearing; (DESI 12339) in which the Commissioner of Food and Drugs proposed to issue an order under section 505(e) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355(e)) withdrawing approval of the new drug application for the following drug:

NDA 13-415; ProDecadron Respihaler containing dexamethasone sodium phosphate and isoproterenol sulfate; Merck Sharp & Dohme, Division of Merck & Co., West Point, Pa. 19446.

The basis of the proposed withdrawal of approval was the lack of substantial

evidence that this fixed combination drug is effective for its claimed indications.

Neither Merck Sharp & Dohme nor any other interested person has filed a written appearance of election as provided by said notice. The failure to file such an appearance constitutes an election by such persons not to avail themselves of the opportunity for a hearing.

All identical, related, or similar products, not the subject of an approved new drug application, are covered by the new drug application reviewed and are subject to this notice. See 21 CFR 130.40 (37 FR 23185, Oct. 31, 1972). Any person who wishes to determine whether a specific product is covered by this notice should write to the Food and Drug Administration, Bureau of Drugs, Office of Compliance (BD-300), 5600 Fishers Lane, Rockville, Md. 20852.

The Commissioner of Food and Drugs, pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 505, 52 Stat. 1053, as amended; 21 U.S.C. 355), and the Administrative Procedure Act (5 U.S.C. 554), and under authority delegated to him (21 CFR 2.120), finds that on the basis of new information before him with respect to the drug, evaluated together with the evidence available to him when the application was approved, there is a lack of substantial evidence that the drug will have the effect it purports or is represented to have under the conditions of use prescribed, recommended, or suggested in the labeling thereof. The Commissioner further concludes that the drug is not appropriate for administration as a fixed dose combination within the guidelines set forth in the statement of General Policy or Interpretation § 3.86 Fixed-Combination prescription drugs for humans, published in the FEDERAL REGISTER of October 15, 1971 (36 FR 20037).

Therefore, pursuant to the foregoing findings, approval of new drug application 13-415 and all amendments and supplements applying thereto is withdrawn effective on March 1, 1973. Shipment in interstate commerce of the above-listed drug product or of any identical, related, or similar product, not the subject of an approved new drug application, is henceforth unlawful.

Dated: February 21, 1973.

**WILLIAM F. RANDOLPH,**  
Acting Associate Commissioner  
for Compliance.

[DESI 5597; Docket No. FDC-D-562; NDA 8-240]

# STRASBURGH PHARMACEUTICAL DIVISION, PENNWALT CORP.

**Preparation Containing Acetaminophen, Salicylamide, Amphetamine Phosphate and Methylatropine Nitrate; Notice of Withdrawal of Approval of New Drug Application**

A notice as published in the FEDERAL REGISTER of November 28, 1972 (37 FR 25185), extending to Strasburgh Pharmaceutical Division, Pennwalt

Corp., Post Office Box 1766, Rochester, NY 14623 and to any interested person, an opportunity for hearing on the proposal of the Commissioner of Food and Drugs to issue an order under section 505(e) of the Federal Food, Drug, and Cosmetic Act withdrawing approval of NDA 8-240 for Strascogest Tablets (acetaminophen, salicylamide, amphetamine phosphate and methylatropine nitrate). The basis of the proposed action was the lack of substantial evidence that the drug is effective for its labeled indications.

All identical, related, or similar products, not the subject of an approved new drug application, are covered by the new drug application reviewed and are subject to this notice. See 21 CFR 130.40 (37 FR 23185, Oct. 31, 1972). Any person who wishes to determine whether a specific product is covered by this notice should write to the Food and Drug Administration, Bureau of Drugs, Office of Compliance (BD-300), 5600 Fishers Lane, Rockville, Md. 20852.

Neither the holder of the application nor any other person filed a written appearance of election within the 30 days provided by said notice. The failure to file such an appearance constitutes an election by such persons not to avail themselves of an opportunity for hearing.

The Commissioner of Food and Drugs pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 505, 52 Stat. 1053, as amended; 21 U.S.C. 355), and the Administrative Procedure Act (5 U.S.C. 554), and under authority delegated to him (21 CFR 2.120), finds that on the basis of new information before him with respect to the drug, evaluated together with the evidence available to him when the application was approved, there is a lack of substantial evidence that the drug will have the effect it purports or is represented to have under the conditions of use prescribed, recommended, or suggested in the labeling thereof.

Therefore, pursuant to the foregoing finding, approval of new drug application No. 8-240 and all amendments and supplements thereto is withdrawn effective on March 1, 1973.

Shipment in interstate commerce of the above-listed drug product or of any identical, related, or similar product, not the subject of an approved new drug application, is henceforth unlawful.

Dated: February 21, 1973.

#### NINDS SCIENCE INFORMATION PROGRAM ADVISORY COMMITTEE

##### Notice of Meeting

Pursuant to Public Law 92-463, notice is hereby given of the meeting of the NINDS Science Information Program Advisory Committee, March 5 and 6, at 9 a.m., University of Nebraska Medical School, Omaha, Nebr., Wittson Hall, Room 3042. This meeting will be open to the public from 9 a.m. to 5 p.m. March 5, 1973, to discuss the program activities of the NINDS Neurological Information Network. Progress of contracts with the University of Nebraska, Johns Hopkins University, and the Mayo Clinic will be discussed, and a joint meeting with the Advisory Committee for the Clinical Neurology Information Center at the University of Nebraska will be held to discuss in some detail the operation of the Clinical Neurology Information Center. The meeting will be closed to the public from 8:30 a.m. to 5 p.m. March 6, 1973, in accordance with the provisions set forth in section 10(d) of Public Law 92-463. Attendance by the public will be limited to space available.

Mrs. Ruth Dudley, Information Officer, NINDS, Building 31, Room 8A03, Bethesda, Md., telephone: 496-5751, will furnish summaries of the open part of the meeting and rosters of committee members; and Mr. Alfred Weissberg, Federal Building, Room 706, Bethesda, Md., telephone 496-5228, will give program information.

Dated: February 20, 1973.

#### Office of Education ENVIRONMENTAL EDUCATION PROGRAM Notice of Closing Date for Submission of Applications

The Environmental Education Act, Public Law 91-516, authorizes a program of grants to institutions of higher education, State and local educational agencies, regional educational research organizations and other public and private nonprofit agencies, organizations, and institutions to support research, demonstration, and pilot projects designed to educate the public on the problems of environmental quality and ecological balance.

Notice is hereby given that, in order to receive consideration for an award from funds appropriated for the fiscal year 1973, applications for "General Project" grants and "Minigrants" under the Environmental Education Act must be received no later than March 5, 1973. Activities to be given priority within the "General Project" category (section 3 of the Act) include Resource Material Development, Personnel Development, Elementary and Secondary Education, and Community Education projects. Under the "Minigrant" category (section 5 of the Act), awards of \$10,000 or less will be

Official	Administrative jurisdiction
Assistant Secretary for Administration and Management.	Committees within the Office of the Secretary except those under the administrative authority of the Assistant Secretary for Health.
Assistant Secretary for Health.	Health Services and Mental Health Administration, Food & Drug Administration, and the National Institutes of Health committees and other committees established by the Assistant Secretary for Health.
Assistant Secretary for Education.	Office of Education and National Institute of Education committees and other committees under the Education Division.
Commissioner of Social Security.	Committees under Commissioner of Social Security Administration.
Administrator, Social and Rehabilitation Service.	Committees under Administrator, Social and Rehabilitation Service.

This authority is to be exercised in accordance with the requirements of the Act and only with respect to the following:

1. Meetings, to the extent that they directly involve review, discussion or consideration of records of the Department which are exempt from disclosure under 5 U.S.C. 552(b) (4), (6), and (7), namely, (a) records containing trade secrets and commercial or financial information obtained from a person and privileged or confidential; (b) personnel, medical and similar files the disclosure of which would constitute a clearly unwarranted invasion of personal privacy; and (c) inves-

tutes of Health, Building 31, Room 4B-43, phone 496-6631.

made for community education projects focusing on local environmental projects. Application forms, instructions, and other pertinent information may be obtained from and completed applications must be filed with the Office of Environmental Education, Office of Education, Code 424, 400 Maryland Avenue SW., Washington, D.C. 20202.

Dated: February 21, 1973.

JOHN OTTINA,  
Acting Commissioner of Education.

#### Office of the Secretary ASSISTANT SECRETARY FOR ADMINISTRATION AND MANAGEMENT ET AL.

##### Delegation of Authority

Notice is hereby given of the Delegation of Authority issued by the Secretary to the Assistant Secretary for Administration and Management, the Assistant Secretary for Health, the Assistant Secretary for Education, the Commissioner of Social Security and the Administrator, Social and Rehabilitation Service to make determinations that committee meetings or portions thereof may be closed to the public. The delegation reads as follows:

Authority to make determinations that committee meetings or portions thereof may be closed to the public pursuant to the provisions of section 10(d) of the Federal Advisory Committee Act (Public Law 92-463) is hereby delegated to the following officials with respect to those committees under their administrative jurisdiction:

titigatory files compiled for law enforcement purposes;

2. Meetings to the extent that they involve the review, discussion, and evaluation of specific drugs and devices regulated by FDA which are intended to result in recommendations for regulatory decisions under the Federal Food, Drug and Cosmetic Act and which are concerned with matters listed in 5 U.S.C. 552(b) (4), (5), and (7);

3. Meetings held for the sole purpose of considering and formulating advice which the committee will give or any final report it will render provided;

(a) The meeting will involve solely the internal expression of views and

judgments of the members and it is essential to close the meeting or portions thereof to protect the free exchange of such views and avoid undue interference with agency or committee operations, and such views if reduced to writing would be protected from mandatory disclosure under section 552(b)(5) of Title 5 U.S.C.

(b) The meeting is closed for the shortest time necessary, and a report summarizing the work of the committee during the closed session, prepared by the Executive Secretary, will be made available promptly to the public.

(c) When feasible, the public is given a timely opportunity to present relevant information and views to the committee; and

(d) Concurrence for closing the meetings for such purpose is obtained from the Office of the General Counsel and the Office of Public Affairs.

Determinations shall be made in accordance with procedures adopted from time to time by the Department Committee Management Officer.

The Assistant Secretary for Health may redelegate this authority to the heads of the Food and Drug Administration, Health Services and Mental Health Administration and National Institutes of Health. The Assistant Secretary for Education may redelegate this authority to the heads of Office of Education and National Institute of Education. No further redelegation may be made.

**Effective date.** This authority shall be effective January 5, 1973.

Dated: December 30, 1972.

THOMAS S. McFEE,  
Acting Assistant Secretary for  
Administration and Management.

FEBRUARY 21, 1973.

#### ATOMIC ENERGY COMMISSION

[Docket No. 50-382A]

##### LOUISIANA POWER & LIGHT CO.

##### Antitrust Hearing on Application for Construction Permit

Pursuant to the Atomic Energy Act of 1954, as amended (the Act), and the regulations in Title 10, Code of Federal

Regulations, Part 50, "Licensing of Production and Utilization Facilities," and Part 2, rules of practice, notice is hereby given that a hearing will be held at a time and place to be set in the future by an Atomic Safety and Licensing Board (Board) designated herein, to consider the antitrust aspects of the application filed under the Act by Louisiana Power & Light Co. (applicant) for a construction permit for a pressurized water nuclear power reactor, designated as Waterford Steam Electric Generating Station, Unit 3. The proposed facility is to be located on the west bank of the Mississippi River near the town of Taft in St. Charles Parish, about 20 miles west of New Orleans, La.

The hearing will be conducted by an Atomic Safety and Licensing Board (Board) designated by the Atomic Energy Commission (Commission) consisting of Dr. George R. Hall, Douglas V. Riegler, Esq., and Hugh R. Clark, Esq., chairman.

On August 31, 1972, the Commission published in the FEDERAL REGISTER the Attorney General's advice concerning the antitrust aspects of the Louisiana Power and Light Co.'s application for construction permits in this proceeding (37 FR 17775). Inter alia, the Attorney General informed the Commission of the applicant's agreement to accept certain conditions to a construction permit. In the Attorney General's opinion, the "conditions are calculated to provide immediately, and on reasonable terms, access to a number of the coordination arrangements which are most urgently needed by those who have complained about applicant's previous conduct." The advisory letter concluded that these license conditions would provide "prompt relief against many of the alleged anticompetitive practices of the applicant," and that:

[a]ccordingly, we recommend that these commitments by applicant be imposed by the Commission as license conditions, as agreed by applicant. If this were done, we do not think it would be necessary to hold an antitrust hearing on this application.

The August 31 FEDERAL REGISTER notice provided that, within 30 days, any person whose interest may be affected by this proceeding could file a petition for leave to intervene and request for an antitrust hearing. Petitions requesting leave to intervene and an antitrust hearing were subsequently received from the Louisiana Electric Cooperative, Inc. (LEC), the Cities of Lafayette and Plaquemine, La. (Cities), the Dow Chemical Co. (Dow), and the Louisiana Municipal Association Utilities Group (LMA). In its responses to these petitions, the applicant urged that each petition be denied. The Regulatory Staff supported the first three petitions, but considered the LMA petition inadequate in its present form.

As set forth in a memorandum and order on this matter dated February 23, 1973, the Commission has determined that an antitrust hearing should be held on applicant's request for a construction permit, and accordingly has established the aforementioned Atomic Safety and Licensing Board. The Commission has

#### NOTICES

further determined that insofar as the Cities, on the basis of the allegations in their petition seek access to the Waterford Unit involved in this proceeding, and the proposed license conditions would not grant such access, the Cities have satisfied the requirements for intervention and should be admitted as parties to the proceeding.

The Commission believes that the remainder of the Cities petition, as well as all the other petitions, raise various matters which need further clarification prior to a ruling concerning intervention. Accordingly, the Commission's memorandum and order directed the Board to meet with the parties, or require additional pleadings, as appropriate, to clarify the record. Among other things, the Board was directed to:

(a) Ascertain the specific relief sought by each petitioner, including the Cities. In this connection, petitioners should be asked to specify the relationship between the specific relief sought and the "activities under the license" proposed for Waterford Unit 3.

(b) Determine the scope of the Attorney General's proposed license conditions vis-a-vis the specific relief sought by each petitioner. Once the scope of the conditions is clarified, petitioners should detail in what respect, if any, the aforementioned license conditions would not grant the specified relief.

(c) Explore the possibility of developing some interim relief which would permit construction of the Waterford 3 Unit pending final disposition of all relevant antitrust matters.

Following clarification of these matters and any others the Board deems relevant, the Board shall certify the record to the Commission for further consideration, along with the Board's recommendations concerning the petitions to intervene, the issues appropriate for hearing, if any, and interim relief possibilities. In light of the status of the non-antitrust aspects of this proceeding, the Commission believes it appropriate that such certification occur within 60 days of the date of its aforementioned memorandum and order.

The ultimate issue to be considered in this proceeding is whether the activities under the permit in question would create or maintain a situation inconsistent with the antitrust laws as specified in subsection 105a of the Atomic Energy Act. In its initial decision the Board will decide those matters relevant to that issue which are in controversy among the parties and make its findings on the issue.

The application and the Attorney General's letter have been placed in the Commission's Public Document Room, 1717 H Street NW., Washington, DC. As

<sup>1</sup> Matters of radiological health and safety and common defense and security, and matters raised under the National Environmental Policy Act of 1969, are being considered at another hearing, pursuant to a notice published in the FEDERAL REGISTER on August 16, 1972 (37 FR 16562).

they become available, the transcripts of the prehearing conference and of the hearing will also be placed in the Commission's Public Document Room, where they will be available for inspection by members of the public. Copies of all the foregoing documents will also be available at the St. Charles Parish Library, Hahnville, La.

Any person who wishes to make an oral or written statement in this proceeding setting forth his position on the issue specified, but who has not filed a petition for leave to intervene, may request permission to make a limited appearance pursuant to the provisions of 10 CFR 2.715 of the Commission's rules of practice. Limited appearances will be permitted at the time of the hearing in the discretion of the Board, within such limits and on such conditions as may be fixed by the Board. Persons desiring to make a limited appearance are requested to inform the Secretary of the Commission, U.S. Atomic Energy Commission, Washington, D.C. 20545, not later than April 2, 1973. A person permitted to make a limited appearance does not become a party, but may state his position and raise questions which he would like to have answered to the extent that the questions are within the scope of the hearing as specified hereinabove. A member of the public does not have the right to participate in the proceeding unless he has been granted the right to intervene as a party or the right of limited appearance.

In the event that any of the remaining pending petitions to intervene are granted, persons permitted to intervene shall become parties to the proceeding, and shall have all the rights of the applicant and the regulatory staff to participate fully in the conduct of the hearing.

An answer to this notice, pursuant to the provisions of 10 CFR 2.705 of the Commission's rules of practice, must be filed by the applicant not later than March 21, 1973.

Papers required to be filed in this proceeding may be filed by mail or telegram addressed to the Secretary of the Commission, U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Chief, Public Proceedings Branch, 1717 H Street NW., Washington DC. Pending further order of the Board, parties are required to file, pursuant to the provisions of 10 CFR 2.708 of the Commission's rules of practice, an original and 20 conformed copies of each such paper with the Commission.

With respect to this proceeding, the Commission has delegated to the Atomic Safety and Licensing Appeal Board the authority and the review function which would otherwise be exercised and performed by the Commission. The Commission has established the Appeal Board pursuant to 10 CFR 2.785 of the Commission's rules of practice, and has made the delegation pursuant to paragraph (a) (1) of that section. The Appeal Board for this proceeding will be composed of

three members designated in a subsequent Commission notice (10 CFR 2.787).

Dated: February 23, 1973.

UNITED STATES ATOMIC  
ENERGY COMMISSION,  
PAUL C. BENDER,  
Secretary of the Commission.

[Dockets Nos. 50-416, 50-417]

#### MISSISSIPPI POWER & LIGHT CO. Notice and Order for Prehearing Conference

In the matter of Mississippi Power & Light Co. (Grand Gulf Nuclear Station, Units 1 and 2).

Notice is hereby given that, pursuant to the Atomic Energy Commission's notice of hearing on application for construction permit dated December 1, 1972 (37 FR 26459), and in accordance with § 2.751a of said Commission's rules of practice, 10 CFR Part 2, a special prehearing conference will be held in the above-captioned proceeding on Wednesday, April 18, 1973, at 10 a.m., local time, in the courtroom of the Circuit Court of Cleveland County, County Courthouse, Market Street, Fort Gibson, MS 39150.

This special prehearing conference will be held before the Atomic Safety and Licensing Board established by the Commission January 30, 1973, and composed of Dr. Marvin M. Mann, Dr. William E. Martin, and Mr. Daniel M. Head, Chairman, with Mr. Gustave A. Linenberger the technically qualified alternate and Mr. Joseph P. Tubridy the alternate chairman.

This special prehearing conference will deal with the following matters:

1. Identification of the key issues;
2. Any steps necessary for further identification of the issues;
3. Outstanding petitions for intervention;
4. All pending motions;
5. The need for discovery, and the time required therefor;
6. Establishment of a schedule for further action; and
7. Such other matters as may aid in the orderly disposition of the proceeding.

At the special prehearing conference, the Board will entertain oral argument on the outstanding petitions to intervene. As part of this oral argument, the Board will expect discussion in detail by counsel for the parties and for the petitioners, both of the petitioner's interest and of the specific contentions.

Members of the public are invited to attend this prehearing conference as well as the evidentiary hearing to be held at a later date to be fixed by the Board. Members of the public wishing to make limited appearances may identify themselves at this prehearing conference but oral or written statements to be presented by limited appearance will not be received at this conference. The Board will receive such statements at the aforementioned evidentiary hearing.

#### NOTICES

Dated this 22d day of February 1973 at Washington, D.C.

By order of the Atomic Safety and Licensing Board.

#### CIVIL RIGHTS COMMISSION ALABAMA STATE ADVISORY COMMITTEE Notice of Open Meeting

Notice is hereby given, pursuant to the provisions of the rules and regulations of the U.S. Commission on Civil Rights, that a meeting of the Alabama State Advisory Committee will convene at 1 p.m. on March 2 and at 9 a.m. on March 3, 1973, in the Blue Room of the Holiday Inn (Midtown), 924 Madison Avenue, Montgomery, AL 36104. This meeting shall be open to the public.

The purposes of this meeting shall be to collect information concerning legal developments constituting a denial of the equal protection of the laws under the Constitution because of race, color, religion, sex, or national origin which affect the rights of prisoners in Montgomery, Ala.; to appraise denials of equal protection of the laws under the Constitution because of race, color, religion, sex, or national origin as these pertain to the rights of prisoners in Montgomery, Ala.; and to disseminate information with respect to denials of the equal protection of the laws because of race, color, religion, sex, or national origin with respect to the rights of prisoners in Montgomery, Ala., and related areas.

A closed or executive session of the Alabama State Advisory Committee will convene on March 1, at 8 p.m. At this session Committee members will discuss matters which may tend to defame, degrade, or incriminate individuals, and as such this session is closed to the public.

This meeting will be conducted pursuant to the rules and regulations of the Commission.

Dated at Washington, D.C., February 26, 1973.

ISAIAH T. CRESWELL, JR.,  
Advisory Committee  
Management Officer.

#### COST OF LIVING COUNCIL

[Cost of Living Council Order No. 19]

#### COMMISSIONER OF INTERNAL REVENUE Delegation of Authority

EDITORIAL NOTE: This document was originally published as FR Doc 73-3333 on page 4801 of the issue of Thursday, February 22, 1973. The document is being republished to clarify the material in the paragraph numbered 2. The limitations in the material immediately following 2(b) modify both 2 (a) and (b), as set forth below.

Pursuant to the authority vested in me by Cost of Living Council Order No. 14, it is hereby ordered as follows:

1. The delegation of authority to the Commissioner of Internal Revenue (the Commissioner) in Cost of Living Council Order No. 15 is hereby reaffirmed and continued.

2. In addition, for the purpose of obtaining consistency in the stabilization of wages and salaries within certain trades, industries, and other specified groups of employees, there is hereby delegated to the Commissioner the authority to—

(a) Issue a decision on any request for exception, and

(b) Challenge, review and issue a decision under 6 CFR 201.35,

with respect to any pay adjustment which applies to a specified appropriate employee unit, group, or class of employees, the precedent for which has been established by a Pay Board decision and order issued prior to January 11, 1973, or pursuant to the interim authority delegated to the Chairman of the Pay Board by Cost of Living Council Order No. 17, which provides that pay adjustments within such specified appropriate employee unit, group or class of employees are appropriate for such action by the Commissioner.

Further, the Pay Board or the Council may issue a separate order identifying a particular decision and order, which does not contain such provision, as a precedent for the Commissioner to follow in carrying out the authority delegated to him under this order.

3. Where references are made in this order to specific CFR sections, such delegated authority shall extend to any subsequent renumbering of such sections. Where substantive changes are made to said enumerated CFR sections, the authority delegated by this order shall extend to such changes unless expressly provided otherwise by the Cost of Living Council.

4. The Commissioner may redelegate to any agency, instrumentality, or official of the United States any authority under this order, and may in carrying out the functions delegated by this order, utilize the services of any other agencies, Federal or State, as may be available and appropriate.

5. This delegation shall be effective as of January 11, 1973.

JOHN T. DUNLOP,  
Director, Cost of Living Council.  
[FR Doc. 73-3333 Filed 2-21-73; 8:45 am]

#### MANUFACTURERS OF COFFEE OR COFFEE PRODUCTS

Revocation of Price Commission Orders Nos. 9, 9A, 9B, and 9C

On August 16, 1972, the Price Commission issued Price Commission Order No. 9 (37 FR 16640, August 17, 1972) rescinding, with respect to green coffee beans and raw materials derived directly therefrom, all volatile pricing authorizations granted to prenotification firms under § 300.51(f) of the Phase II regulations of the Commission, prescribing special rules

governing manufacturers' prices for coffee or coffee products, and requiring special reports from prenotification and reporting firms engaged in the manufacture of coffee or coffee products.

Price Commission Order No. 9 was amended by Order No. 9A on August 22, 1972 (37 FR 17111, August 24, 1972) and revised and superseded by Order No. 9B (37 FR 17870, September 1, 1972) and Order No. 9C (37 FR 18595, September 13, 1972) which clarified various points raised by firms subject to the orders.

Under section 3(a) of Executive Order 11695, which initiated Phase III of the Economic Stabilization Program, Price Commission Orders Nos. 9, 9A, 9B, and 9C remained in effect after the termination of Phase II on January 11, 1973. Among other things, section 3(a) of the Executive order provided that orders, regulations, and notices issued pursuant to Executive Orders 11627 or 11640, which governed Phase II, remain in effect until "altered, amended, or revoked" by the Chairman of the Council or such competent authority as the Chairman may specify.

After review of Price Commission Orders Nos. 9, 9A, 9B, and 9C, the Council has determined that they should be revoked, effective February 27, 1973.

For manufacturers in the food industry subject to the prenotification requirements of § 130.57 of the Phase III regulations of the Council, revocation of the orders will reinstate the authorizations granted during Phase II for volatile pricing of green coffee beans and raw materials derived directly therefrom.

The Council considers it appropriate at this time to reinstate the pricing flexibility afforded prenotification firms by volatile pricing authorizations to enable the firms to establish price levels for coffee products in a manner responsive to continued frequent fluctuations in the market price for green coffee beans and raw materials derived directly therefrom.

For the purpose of cost justifying a price increase after the effective date of this order, a manufacturer of coffee or coffee products may only use cost increases incurred and continuing to be incurred since the date of the last price increase before the effective date of this order.

Prenotification firms for which volatile pricing authority is reinstated by this notice will be notified by the Council with respect to their adjusted currently authorized price level from which in-

creases in the cost of green coffee beans and raw materials derived directly therefrom may be reflected, dollar-for-dollar and without prenotification, in price increases under §§ 300.51(f)-(1) of the Phase II regulations of the Price Commission which remain applicable during Phase III under § 130.57 of the Phase III regulations.

Reinstitution of volatile pricing authority for prenotification firms with respect to green coffee beans and raw materials derived directly therefrom does not otherwise affect the applicability to all manufacturers of coffee or coffee products of Subpart F of the Phase III regulations which governs the prices of firms in the food industry.

In accordance with the foregoing, Price Commission Orders Nos. 9, 9A, 9B, and 9C are revoked, effective February 27, 1973.

Issued in Washington, D.C., on February 27, 1973.

JAMES W. McLANE,  
Deputy Director,  
Cost of Living Council.

#### FEDERAL COMMUNICATIONS COMMISSION

#### CABLE TELEVISION TECHNICAL ADVISORY COMMITTEE, PANEL 7 Notice of Public Meeting

FEBRUARY 21, 1973.

Panel 7 (Interconnection) of the Cable Television Technical Advisory Committee will hold an open meeting on March 6, 1973, at 9:30 a.m. It will be held in the MCI Corporate Offices, 1150 17th Street NW., Washington, D.C.

The agenda of the meeting will include:

1. A review of the activities to date.
2. Report from subcommittee on acquisition of standards.
3. Report from subcommittee on task definitions.
4. Reviewing and approving tasks to be accomplished.
5. Appointing task force leaders and members to all task forces.
6. Holding separate work sessions of all task force groups.

FEDERAL COMMUNICATIONS  
COMMISSION,  
[SEAL] BEN F. WAPLE,  
Secretary.

[Report 636]

#### COMMON CARRIER SERVICES INFORMATION

Domestic Public Radio Services  
Applications Accepted for Filing

FEBRUARY 20, 1973.

Pursuant to §§ 1.227(b)(3) and 21.30 (b) of the Commission's rules, an application, in order to be considered with any domestic public radio services application appearing on the list below, must be substantially complete and tendered for filing by whichever date is earlier: (a) The close of business 1 business day preceding the day on which the Commission takes action on the previously filed application; or (b) within 60 days after the date of the public notice listing the first prior filed application (with which subsequent applications are in conflict) as having been accepted for filing. An application which is subsequently amended by a major change will be considered to be a newly filed application. It is to be noted that the cutoff dates are set forth in the alternative—applications will be entitled to consideration with those listed below if filed by the end of the 60 day period, only if the Commission has not acted upon the application by that time pursuant to the first alternative earlier date. The mutual exclusivity rights of a new application are governed by the earliest action with respect to any one of the earlier filed conflicting applications.

The attention of any party in interest desiring to file pleadings pursuant to section 309 of the Communications Act of 1934, as amended, concerning any domestic public radio services application accepted for filing, is directed to § 21.27 of the Commission's rules for provisions governing the time for filing and other requirements relating to such pleadings.

FEDERAL COMMUNICATIONS  
COMMISSION,  
[SEAL] BEN F. WAPLE,  
Secretary.

1 All applications listed in the appendix are subject to further consideration and review and may be returned and/or dismissed if not found to be in accordance with the Commission's rules, regulations, and other requirements.

2 The above alternative cutoff rules apply to those applications listed below as having been accepted in Domestic Public Land Mobile Radio, Rural Radio, Point-to-Point Microwave Radio, and Local Television Transmission Services (Part 21 of the rules).

## POINT-TO-POINT MICROWAVE RADIO SERVICE

5875-C1-AP-73—MCI Texas East Microwave, Inc. Consent to the assignment of construction permits from the stockholders of MCI Texas East Microwave, assignor to the stockholders of Worthington-Uhl Corp., assignees for stations: WPX45, Dallas, Tex.; WPX34, Irving, Tex.; WPX35, Arlington, Tex.; WPX40, Burleson, Tex.; WPX47, Fort Worth, Tex.; WPX36, Covington, Tex.; WPX48, Milford, Tex.; WPX41, Bryan, Tex.; WPX42, Plantersville, Tex.; WPX40, Franklin, Tex.; WPX41, Bryan, Tex.; WPX42, Plantersville, Tex.; WPX43, Mosely, Tex.; WPX37, Westfield, Tex.; WPX44, Houston, Tex.; WPX38, Kinwood, Tex.

5878-C1-P-73—Northwestern Bell Telephone Co. (New), County Road 6 and Xenium Lane, Plymouth, Minn. Latitude 44°59'44" N., longitude 93°26'55" W. C.P. for a new station on frequencies 3770V, 3930V, 3850V, and 4010V MHz toward Rockford, Minn.

5879-C1-P-73—Same (New), 1 mile north of Rockford on County Road 18, Rockford, Minn. Latitude 45°06'12" N., longitude 93°44'10" W. C.P. for a new station on frequencies 3730V, 3890V, 3810V, and 3970V MHz toward Plymouth, Minn.; frequencies 3730H, 3810H, 3890H, and 3970H MHz toward Annandale, Minn.

5880-C1-P-73—Same (New), 2 miles south of Annandale on County Road 5, Annandale, Minn. Latitude 45°14'08" N., longitude 94°07'25" W. C.P. for a new station on frequencies 3770H, 3850H, 3930H, and 4010H MHz toward Rockford, Minn.; frequencies 3770H, 3850H, 3930H, and 4010H MHz toward St. Cloud, Minn.

5881-C1-P-73—Same (New), 2.5 miles northeast of Paynesville, Minn. Latitude 45°23'25" N., longitude 94°39'32" W. C.P. for a new station on frequency 3770V MHz toward Willmar, Minn.; frequency 3770V MHz toward St. Cloud, Minn.

5882-C1-P-73—Same (New), northeast edge of city limits, Willmar, Minn. Latitude 45°07'40" N., longitude 95°01'09" W. C.P. for a new station on frequency 3730V MHz toward Paynesville, Minn.

5883-C1-P-73—Same (New), 3.5 miles east of Little Falls on Highway 27, Little Falls, Minn. Latitude 45°58'21" N., longitude 94°16'31" W. C.P. for a new station on frequencies 3770V, 3850V, and 3930V MHz toward St. Cloud, Minn.; frequencies 3770V, 3850V, and 3930V MHz toward Brainerd, Minn.

5884-C1-P-73—Same (KAS91), South 10th Street and Ronald Avenue, Brainerd, Minn. Latitude 46°20'17" N., longitude 94°11'43" W. C.P. to add frequencies 3730V, 3810V, and 3900V MHz toward Little Falls, Minn.; frequency 3730H MHz toward Motley, Minn.

5885-C1-P-73—Same (KAU49), 1.5 miles southwest of Motley, Minn. Latitude 46°19'22" N., longitude 94°40'32" W. C.P. to add frequency 3770H MHz toward Brainerd, Minn.; frequency 3770H MHz toward Wadena, Minn.

5886-C1-P-73—Northwestern Bell Telephone Co. (KAU50), 500 feet east-northeast of southwest corner of Wadena, Minn. Latitude 46°25'32" N., longitude 95°09'02" W. C.P. to add frequency 3730H MHz toward Motley, Minn.

5887-C1-P-73—Same (New), one-quarter mile south of city limits, St. Cloud, Minn. Latitude 45°32'13" N., longitude 94°10'59" W. C.P. for a new station on frequencies 3730H, 3810H, 3890H, and 3970H MHz toward Annandale, Minn.; frequencies 3730V, 3810V, and 3890V MHz toward Little Falls, Minn.; frequency 3730V MHz toward Paynesville, Minn.

5888-C1-P-73—The Mountain States Telephone & Telegraph Co. (KVU54), 800 Main Street, Grand Junction, CO. Latitude 39°04'03" N., longitude 108°33'30" W. C.P. to add frequency 4010H MHz toward Whitewater, Colo.

5889-C1-P-73—Same (KAN80), 11 miles southeast of Grand Junction, Colo. Latitude 38°54'10" N., longitude 108°29'41" W. C.P. to add frequency 3710V MHz toward Grand Junction, Colo.; frequency 3710V MHz toward Ash Mesa, Colo.

5897-C1-P-73—Same (KAN84), 2 miles south-southeast of Olathe, Colo. Latitude 38°34'34" N., longitude 107°59'44" W. C.P. to add frequency 3750H MHz toward Montrose, Colo.; frequency 3750H MHz toward Whitewater, Colo.; frequency 10775V and 11,095V MHz toward Delta, Colo.

5898-C1-P-73—Same (New), 123 Fifth Street, Delta, Colo. Latitude 38°44'27" N., longitude 108°04'15" W. C.P. for a new station on frequencies 11,265H and 11,585H MHz toward Ash Mesa, Colo.

## NOTICES

FEDERAL REGISTER, VOL. 38, NO. 40—THURSDAY, MARCH 1, 1973

## APPENDIX

## DOMESTIC PUBLIC LAND MOBILE RADIO SERVICE

5752 C2-P-73—Southwestern Bell Telephone Co. (KKT400), C.P. to change antenna location and transmitter to operate on 152.75 MHz on Interstate Highway 20, Pote, Tex.

5844 C2-TC-(2)-(73)—All Services, Inc. Consent to transfer of control from Stephen J. Keckerson and Vivian R. Keckerson, transferors to Howard R. Chapman, transferee. Stations: KLF484 and KSV906 Charleston, S.C.

5876 C2-P-73—Deep Radio, Inc. (New), C.P. for a new two-way station to operate on 152.16 MHz at the southeast corner of Airport Road and Jones Road, Scriba, N.Y.

5877 C2-P-73—Mobile Telephone Service of Wheeling, W. Va. (KQK775), C.P. for additional facilities and an antenna location to operate on 152.21 MHz on Route 88, 0.5 mile northeast, West Liberty, W. Va.

5888 C2-P-73—Mentor Radio Service (New), C.P. for a new two-way station to operate on 454.175 MHz at Highway No. 3, 2 miles west of Fulton, N.Y.

5889 C2-P-73—The Pacific Telephone & Telegraph Co. (KMA612), C.P. for antenna changes on base frequencies 152.69, 152.72 MHz and 454.525 MHz, also increasing output power on 454.525 MHz, at 95 Almaden Avenue, San Jose, CA.

5890 C2-P-73—Southern Ohio Radio Telephone & Telegraph Co. (KSY960), C.P. to add points of communication and transmitter, operating on 454.30 MHz at 4527 Archoltz Road, Mount Carmel, Ohio.

5891 C2-P-73—Radio Dispatch Co. (KHY504), C.P. for additional facilities and to change antenna system operating on 152.18 MHz at Third Avenue and Duhan, Ala.

5892 C2-P-73—AAA Ausersphone, Inc., Jackson (KAS708), C.P. for additional facilities and to formally change control point address pursuant to section 21.11(d), operating on 152.06 MHz at 2.5 miles north of city limits of former Beech Springs School, Lee, Miss.

5893 C2-TC-(2)-(73)—York Telephone & Telegraph Co. Consent to transfer of control from General Telephone & Electronics Corp., transferor to General Telephone Company of Pennsylvania, transferee. Station: KGI776 Freysburg, Pa. and KGI783 York, Pa.

5894 C2-AL-(2)-(73)—York Telephone & Telegraph Co. Consent to assignment of license from assignee Station: KGI776 Freysburg, Pa.

5956 C2-AP/AL-73—Boynton Communications (KCB893), consent to assignment of permit and license from J. Richard Boynton, doing business as Boynton Communications, assignor to Barbara D. Boynton, doing business as Boynton Communications, Station: KCB893, Plainville, Mass.

5988 C2-AP-73—Mobilphone (KUC859), consent to assignment of permit from Mobilphone, assignor to Mobilphone Service, Inc., assignee. Station: KUC859, Oklahoma City, Okla.

## Major Amendments

04-C2-P-73—Tel-Page, Inc. (New), Columbia, S.C. Major amendment to add base frequency 454.100 MHz. All other particulars are to remain as reported on PN No. 604 dated July 10, 1972.

820-C2-P-(2)-(73)—Mobilphone, Inc. (KMB309), Los Angeles, Calif. Major amendment to change the location of base facilities operation on 43.58 MHz to 10880 Wilshire Boulevard, Los Angeles, CA. All other particulars to remain as reported on PN No. 612 dated September 5, 1972.

## RURAL RADIO SERVICE

5889-C1-P-73—General Communications Service, Inc. (New), C.P. for a new rural subscriber station to be located: Office at the X Bar Ranch, 9.5 miles south-southwest of Dinosaur City, Ariz., to operate on 158.490 MHz.

5987-C1-MI-73—RCA Alaska Communications, Inc. (WJL41), modification of license to delete frequency 157.85 and add frequency 158.01 MHz at Village Coop Store in west section of village, Aklachak approximately 15.6 miles east-northeast of Bethel, Alaska.

## POINT-TO-POINT MICROWAVE RADIO SERVICE—continued

5899-C1-P-73—Same (KAN32), 602 North First Avenue, Montrose, Colo. Latitude 38°28'54" N., longitude 107°52'28" W. C.P. to add frequency 3710H MHz toward Ash Mesa, Colo.

4359-C1-R-73—The Bell Telephone Company of Pennsylvania (KOC47), in any temporary fixed location within the territory of the grantee. Application for renewal of radio station license for term from March 11, 1973 to March 11, 1974.

5917-C1-P-MI-73—The Bell Telephone Company of Pennsylvania (KOC47), C.P. and modification of license to change power and add Time Domain Reflectometer on frequency bands 3700-4200 MHz: 5925-6425 MHz; 10,700-11,700 MHz.

5925-C1-P-73—Southwestern Bell Telephone Co. (KKB25), 220 Main Street, Beaumont, TX. Latitude 30°05'08" N., longitude 94°05'58" W. C.P. to add frequency 3890V MHz toward Silsbee, Tex.

5926-C1-P-73—Same (KKB26), 1.6 miles north-northwest of Silsbee, Tex. Latitude 30°22'37" N., longitude 94°12'02" W. C.P. to add frequency 3930V MHz toward Beaumont, Tex.

5971-C1-P-73—American Telephone & Telegraph Co. (KEA49), 158 State Street, Albany, NY. Latitude 42°39'03" N., longitude 73°45'28" W. C.P. to change antenna system and points of communications on frequencies 3710V, 3790V, 3870V, 3950V, and 4030V MHz toward Stephentown, N.Y.

5928-C1-P-73—Same (WJK78), 1.9 miles north-northwest of West Stephentown, N.Y. Latitude 42°36'20" N., longitude 73°27'38" W. C.P. to add frequencies 3750V, 3830V, 3910V, 3990V, and 4070V MHz toward Albany, N.Y.; frequencies 3750H, 3830H, 3910H, 3990H, and 4070H MHz toward Austerlitz, N.Y.

5929-C1-P-73—Same (KEB49), 1 mile west of Austerlitz, N.Y. Latitude 42°18'25" N., longitude 73°29'35" W. C.P. to change polarization from V to H on frequencies 3710H, 3790H, 3870H, 3950H, and 4030H MHz toward new point of communication Stephentown, N.Y.

5950-C1-MI-73—American Telephone & Telegraph Co. (KITQ86), 5.6 miles north of Julian, Calif. Latitude 33°09'33" N., longitude 116°36'53" W. Modification of C.P. to change power and replace transmitter on frequency 4108H MHz toward Warner Springs, Calif.

5951-C1-MI-73—Same (WIV86), 8.1 miles north-northwest of Warner Springs, Calif. Latitude 33°23'01" N., longitude 116°42'18" W. Modification of C.P. to change power and replace transmitter on frequency 4108H MHz toward Julian, Calif.; frequency 4190V MHz toward Wildomar, Calif.

5952-C1-MI-73—Same (WIV87), 2.9 miles north-northwest of Wildomar, Calif. Latitude 33°38'20" N., longitude 117°14'42" W. Modification of C.P. to change power and replace transmitter on frequency 4198V MHz toward Warner Springs, Calif.; frequency 4198V MHz toward Corona, Calif.

5953-C1-MI-73—Same (WIV88), Corona city boundary, Calif. Latitude 33°49'43" N., longitude 117°34'27" W. Modification of C.P. to change power and replace transmitter on frequency 4190V MHz toward Wildomar, Calif.

5957-C1-P-73—New England Telephone & Telegraph Co. (KCL85), 25 Concord Street, Manchester, NH. Latitude 42°59'32" N., longitude 71°27'46" W. C.P. to add frequency 10,975V MHz toward Dunbar, N.H.

5958-C1-P-73—Same (KZJ50), 1 mile north of Dunbar, N.H. Latitude 43°06'43" N., longitude 71°36'50" W. C.P. to add frequency 5882.3V MHz toward Gilford, N.H.; frequency 11,465V MHz toward Manchester, N.H.

5959-C1-P-73—Same (KZJ60), Gilford, 3 miles east-southeast of Laconia, Gilford, N.H. Latitude 43°30'48" N., longitude 71°34'49" W. C.P. to add frequency 6234.3V MHz toward Dunbar, N.H.; frequency 11,555.0H MHz toward Laconia, N.H.

5960-C1-P-73—New England Telephone & Telegraph Co. (KZJ61), 762 North Main Street, Laconia, N.H. Latitude 43°31'54" N., longitude 71°28'27" W. C.P. to add frequency 11,685H MHz toward Gilford, N.H.

5961-C1-P-MI-73—South Central Bell Telephone Co. C.P. and modification of license to add two Kruse-Storke Electronics Model 5,000 Sweepers to blanket license.

5,692-C1-MI-73—Interlata Communications, Inc. (WU99), modification of C.P. to change station location to 1150 17th Street NW, Washington, DC. Latitude 38°54'19" N., longitude 77°02'21" W. and to change frequencies to 10,735V and 11,135V MHz on azimuth 28°48' toward northeast Washington.

## NOTICES

## POINT-TO-POINT MICROWAVE RADIO SERVICE—continued

5863-C1-MP-73—Same (WID86), Station location: Riggs Road and First Place NE, Washington, D.C. Modification of C.P. to change frequencies to 11,265V and 11,665V MHz on azimuth 208°49' toward northwest Washington and to 6256.5 MHz on azimuth 48°26' toward Jessup.

5884-C1-MP-73—Same (WID87), modification of C.P. to change station location to 1.4 miles east-southeast of Jessup, Md. Latitude 39°08'29" N., longitude 76°45'08" W. and change frequency on azimuth 24°06' toward Towson to 5974.8V MHz.

5885-C1-MP-73—Same (WID88), modification of C.P. to change station location to Investment Building, State Route 45 near York Road, Towson, Md. Latitude 39°24'07" N., longitude 76°36'07" W. and to change frequency on azimuth 204°12' toward Jessup to 6265.9V MHz.

5886-C1-MP-73—Same (WID89), modification of C.P. to change station location to 2.8 miles northwest of Perryman, Md. Latitude 39°29'56" N., longitude 76°14'33" W.

5887-C1-MP-73—CPT Microwave, Inc. (New), 5 miles east of Robstown, Violet, Tex. Latitude 27°46'30" N., longitude 97°34'38" W. C.P. for a new station on frequencies 5960.0V and 6010.3V MHz toward Bishop, Tex. on azimuth 220°54'.

5888-C1-MP-73—Western Telecommunications, Inc. (WOI62), Mount Vaca, 8 miles north-west of Vacaville, Calif. Latitude 38°24'55" N., longitude 122°06'38" W. Modification of C.P. to change polarization of frequency 6315.9 to horizontal toward new point of communication Bird Valley on azimuth 11°26'.

5889-C1-MP-73—Same (New), C.P. for a new station Bird Valley, 4 miles southwest of Dunnigan, Calif. Latitude 38°50'04" N., longitude 122°00'06" W. Frequency 6123.1H on azimuth 345°41' toward Maxwell.

5970-C1-P-73—Same (New), C.P. for a new station 2.5 miles northeast of Maxwell, Calif. Latitude 39°17'50" N., longitude 122°08'13" W. Frequency 6315.9V on azimuth 168°36' toward Bird Valley and 6315.9H on azimuth 288°23' toward St. John Mountain.

5971-C1-MP-73—Western Telecommunications, Inc. (WOI66), St. John Mountain, 27 miles west of Willows, Calif. Latitude 39°26'05" N., longitude 122°41'32" W. Modification of C.P. to change frequency to 6123.1H on azimuth 108°02' to new point of communication Maxwell and to 6063.8H on azimuth 27°42' to new point of communication Henleyville.

5972-C1-P-73—Same (New), C.P. for a new station Henleyville, 7.8 miles northwest of Corning, Calif. Latitude 39°58'12" N., longitude 122°19'36" W. Frequency 6226.9V on azimuth 38°14' toward Inskip Hill.

5973-C1-P-73—Same (New), C.P. for a new station Inskip Hill, 1.5 miles west-northwest of Paynes Creek, Calif. Latitude 40°30'32" N., longitude 121°56'34" W. Frequency 5974.8V on azimuth 218°28' towards Henleyville and 6123.1V on azimuth 08°25' towards Hatchet Mountain.

5974-C1-MP-73—Same (WOI87), modification of C.P. to relocate facilities to Hatchet Mountain 5 miles northeast of Hillcrest, Calif. Latitude 40°54'21" N., longitude 121°49'58" W. Change frequency to 6404.8H on azimuth 188°30' towards new point of communication Inskip Hill and 6256.5H on azimuth 318°20' towards new point of communication Weed.

5975-C1-MP-73—Same (WOI88), modification of C.P. to relocate facilities to 3.1 miles south of Weed, Calif. Latitude 41°22'38" N., longitude 122°23'26" W. Change point of communication to Hatchet Mountain on azimuth 137°58' on frequency 6093.5V. Change frequency to 6123.1V towards new point of communication Little Chiquapin Mountain on azimuth 01°02'.

5976-C1-MP-73—Same (WOI69), modification of C.P. to relocate facilities to Little Chiquapin Mountain, 3.5 miles north of Pinehurst, Calif. Latitude 42°10'06" N., longitude 122°22'17" W. Change frequency to 6375.2V on azimuth 181°03' towards new point of communication Weed and change point of communication to Wolf Ridge on frequency 6226.9V on azimuth 331°10'.

5977-C1-MP-73—Same (WOI70), modification of C.P. to relocate facilities to Wolf Ridge, 8 miles southeast of Drew, Calif. Latitude 42°46'59" N., longitude 122°49'53" W. Change polarization of frequency 6093.5 to horizontal on azimuth 150°52' towards new point of communication Little Chiquapin Mountain. Change azimuth on frequency 6162.8V towards new point of communication Sutherland to 322°54'.

5978-C1-MP-73—Same (WOI71), modification of C.P. to relocate facilities to 6.5 miles west of Sutherland, Calif. Latitude 43°23'48" N., longitude 123°28'11" W. Change azimuth to 142°27' towards new point of communication Wolf Ridge and azimuth 25°14' towards new point of communication Coburg Ridge.

FEDERAL REGISTER, VOL. 38, NO. 40—THURSDAY, MARCH 1, 1973

## POINT-TO-POINT MICROWAVE RADIO SERVICE—Continued

5979-C1-MP-73—Same (WO172), modification of C.P. to relocate facilities to Coburg Ridge, 3.5 miles north of Springwater, Oreg. Latitude 44°06'58" N., longitude 122°59'55" W. Change azimuth to 205°33' towards new point of communication Sutherland and to 339°57' towards new point of communication Vineyard Hill.

5980-C1-MP-73—Western Tele-Communications, Inc. (WO173), Vineyard Hill, 3.8 miles north of Coryallis, Oreg. Latitude 44°38'47" N., longitude 123°16'11" W. Modification of C.P. to change point of communication to Coburg Ridge on azimuth 159°46'.

Informative: Applicant, Western Tele-Communications, Inc., proposes to reroute a portion of its presently granted Specialized Common Carrier System between San Francisco, Calif. and Seattle, Wash. as previously granted on File Nos. 4271 through 4290-C1-P-70.

5981-C1-AP-(15)-73—MCI Michigan, Inc. Consent to assignment from MCI Michigan, Inc., assignor to MCI Telecommunications Corp., assignee for stations: WOE, Jackson, Mich.; WOE46, Chelsea, Mich.; WOE47, Leslie, Mich.; WOE48, Lansing, Mich.; WOE49, Lennon, Mich.; WOE50, Flint, Mich.; WOE51, Ann Arbor, Mich.; WOE52, Bridgewater, Mich.; WOE53, Petersburg, Mich.; WOE54, Toledo, Ohio; WOE55, Pontiac, Mich.; Dearborn, Mich.; WOE57, Detroit, Mich.; WIV82, Northville, Mich.; WIV83, Fowlerville, Mich.

5982-C1-AP-(33)-73—MCI Mid-Continent Communications, Inc. Consent to assignment from MCI Mid-Continent Communications, Inc., assignor, to MCI Telecommunications Corp., assignee for stations: WPW43, Kansas City, Mo.; WPW44, Victory Junction, Kans.; WPW45, Naahua, Mo.; WPW46, Gower, Mo.; WPW47, Helene, Mo.; WPW48, Filmore, Mo.; WPW49, Skidmore, Mo.; WPW50, Elmo, Mo.; WPW51, Riverton, Iowa; WPW52, Tabor, Iowa; WPW53, Springfield, Nebr.; WPW54, Omaha, Nebr.; WPW55, Honey Creek, Iowa; WPW56, Woodbine, Iowa; WPW57, Irwin, Iowa; WPW58, Ross, Iowa; WPW59, Guthrie Center, Iowa; WPW60, Linden, Iowa; WPW61, Woodward, Iowa; WPW62, Grimes, Iowa; WPW63, Des Moines, Iowa; WPW64, Kelley, Iowa; WPW65, Colo, Iowa; WPW66, Lamolite, Iowa; WPW67, Toledo, Iowa; WPW68, Keystone, Iowa; WPW69, Atkins, Iowa; WPW70, Cedar Rapids, Iowa; WPW71, North Liberty, Iowa; WPW72, Buchanan, Iowa; WPW73, Bennett, Iowa; WPW74, Blue Grass, Iowa; WPW75, Davenport, Iowa.

5983-C1-AP-(33)-73—MCI New England, Inc. Consent to assignment from MCI New England, Inc., assignor to MCI Telecommunications Corp., assignee for stations: WOF53, Boston, Mass.; WOF54, Waltham, Mass.; WOF55, Clinton, Mass.; WOF56, Auburn, Mass.; WOF57, Staffordville, Conn.; WOF58, Avon, Conn.; WOF59, Hartford, Conn.; WOF60, Bethlehem, Conn.; WOF61, Redding Ridge, Conn.; WOF62, Stamford, Conn.; WOF63, Port Chester, N.Y.; WOF64, Bronx, N.Y.; WOF65, New York, N.Y.

5984-C1-AP-(53)-73—MCI Texas-Pacific, Inc. Consent to assignment from MCI Texas-Pacific, Inc., assignor to MCI Telecommunications Corp., assignee for stations: located within the States of Texas, New Mexico, Arizona, and California.

5940-C1-P-73—Eastern Microwave, Inc. (New), Pemberville, 2.3 miles southwest of Pemberville, Ohio. Latitude 41°23'11" N., longitude 83°29'18" W.: C.P. for a new station—frequencies 10,775H MHz and 10,935H MHz toward Bascom, Ohio, on azimuth 148°21'.

5941-C1-P-73—Same (New), Bascom, 0.4 mile north of Bascom, Ohio. Latitude 41°08'20" N., longitude 83°17'12" W.: C.P. for a new station—frequencies 11,385V MHz and 11,545V MHz toward Chatfield, Ohio, on azimuth 128°34'.

5942-C1-P-73—Same (New), Chatfield, 1.8 miles south-southeast of Chatfield, Ohio. Latitude 40°55'30" N., longitude 82°56'02" W.: C.P. for a new station—frequencies 10,775V MHz and 10,935V MHz toward Shenandoah, Ohio, on azimuth 89°48'.

5943-C1-P-73—Same (New), Shenandoah, 1.2 miles northeast of Shenandoah, Ohio. Latitude 40°55'31" N., longitude 82°29'07" W.: C.P. for a new station—frequencies 11,385H MHz and 11,545H MHz toward Sullivan, Ohio, on azimuth 70°39'.

5944-C1-P-73—Same (New), Sullivan, 2.4 miles south of Sullivan, Ohio. Latitude 40°59'42" N., longitude 82°13'20" W.: C.P. for a new station—frequencies 10,775H MHz and 10,935H MHz toward Lafayette, Ohio, on azimuth 63°14'.

5945-C1-P-73—Same (New), Lafayette, 1.5 miles west-southwest of Lafayette, Ohio. Latitude 41°05'35" N., longitude 81°57'52" W.: C.P. for a new station—frequencies 11,385V MHz and 11,545V MHz toward West Richfield. Latitude 41°14'43" N., longitude 81°39'23" W., Ohio, on azimuth 56°43'. (Informative: Eastern proposes to provide the signals of WKBD-TV, Detroit, Mich., and CKLW-TV, Windsor, Ontario, to Armstrong Utilities, Inc., for distribution on its CATV system at Orrville, Ohio.)

5946-C1-P-73—West Texas Microwave Co. (WAY39), Jennings Farm, 5.4 miles northwest of Ogg, Tex. Latitude 34°52'19" N., longitude 101°58'25" W.: C.P. to add frequencies 11,265H MHz, 11,345H MHz, and 11,425H MHz, via power split, toward new point of communication at Hereford. Latitude 34°50'18" N., longitude 102°22'40" W., Tex., on azimuth 264°21'. (Informative: West Texas proposes (a) to provide the television signals KERA and KDTV of Dallas, Tex., and KTVT, Fort Worth, Tex., to Hereford Cablevision Co. at Hereford, Tex., and (b) to provide, via audio subcarrier, the radio signal of station KWXI-FM, Dallas, Tex., to radio station KPAN, Hereford, Tex.)

5985-C1-AL-73—MCI Pacific Coast, Inc. (KPV31), consent to assignment from MCI Pacific Coast, Inc., assignor to MCI Telecommunications Corp., assignee for station KPV31 located at Tunk Mountain, Wash.

5986-C1-AP-(29)-73—MCI North Central, Inc., consent to assignment from MCI North Central, Inc., assignor to MCI Telecommunications Corp., assignee for stations located in the States of Minnesota, Wisconsin, and Illinois.

## Correction

5404-C1-ML-73—American Telephone & Telegraph Co. (KIL84), correct to read: Change polarization from V to H on frequency 3890 MHz toward Blackville, S.C.

## Major Amendments

3139-C1-P-73—Western Tele-Communications, Inc. (WO156), Toro Peak, 14.1 miles southwest of Palm Desert, Calif. Application amended to change polarization from H to V on frequencies 3990 and 4070 MHz toward El Centro, Calif. (WO152). (All other particulars the same as reported in Public Notice, Report No. 621, dated November 6, 1972.)

FEDERAL POWER COMMISSION  
NATIONAL GAS SURVEY TECHNICAL  
ADVISORY COMMITTEE-SUPPLY

## Order Designating Member

FEBRUARY 21, 1973.

The Federal Power Commission by Order issued April 6, 1971, established the Technical Advisory Committees of the National Gas Survey.

1. *Membership.* Mr. J. R. Grey has resigned his membership in the Technical Advisory Committee-Supply. A new member to the Technical Advisory Committee-Supply, as selected by the Chairman of the Commission, with the approval of the Commission, is as follows:

J. Dennis Bonney, vice president, Standard Oil Company of California.

By the Commission.

[SEAL] KENNETH F. PLUMB,  
Secretary.

[FR Doc. 73-3852 Filed 2-28-73; 8:45 am]

TECHNICAL ADVISORY COMMITTEE ON  
FUELS; TASK FORCE ADMINISTRATIVE

## Agenda of Meeting

Meeting to be held at the Federal Power Commission Offices, 1425 K Street NW, Washington, DC, on March 8, 1973, at 9:30 a.m., e.s.t., Room 859.

1. Meeting called to order.
2. Objectives and purposes of meeting:
  - A. Development of reports of task forces.
  - B. Assignment of duties.
  - C. Other business.
  - D. Date of next meeting.
3. Adjournment.

This meeting is open to the public. Any interested person may attend, appear before, or file statements with the committee, which statements, if in written form, may be filed before or after the meeting, or, if oral, at the time and in the manner permitted by the committee.

KENNETH F. PLUMB,  
Secretary.

[Docket No. G-10426, etc.]

## EL PASO NATURAL GAS CO.

Order Consolidating Proceedings, Extending Date for Filing of Evidence and Hearing Date, and Granting Late Petitions To Intervene

FEBRUARY 21, 1973.

On September 6, 1972, and on September 22, 1972, El Paso Natural Gas Company (El Paso) filed in Dockets Nos. CP70-137 and G-10426, respectively, petitions to amend the orders of the Commission issuing certificates of public convenience and necessity in said dockets on May 12, 1970 (43 FPC 723), and November 21, 1957 (18 FPC 690), as amended respectively, by authorizing an increase in its contract demand service for certain of its Northwest Division customers. Notice of those petitions was issued on October 7, 1972, and October 24, 1972, was set as the final date on which protests and petitions to intervene could be filed in this matter.

On January 8, 1973, by order of the Commission, a hearing in this matter

was scheduled for February 14, 1973, and El Paso was instructed to file its testimony and exhibits on or before January 29, 1973. The Commission stated that the record in this case should establish, inter alia the ultimate use of the natural gas proposed to be sold by El Paso, and should include a full market review (including end-use) through the submission of evidence by El Paso, its customers, and where appropriate, its customers' customers. On January 29, 1973, pursuant to a request filed by El Paso, the date for the filing of evidence in this matter was changed to March 8, 1973, and the hearing date was changed to March 28, 1973.

On January 26, 1973, an untimely petition to intervene in these proceedings was filed by Sierra Pacific Power Company, an electric, gas, and water public utility operating in the States of Nevada and California. Petitioner states that it purchases all of its natural gas from Southwest Gas Corporation, a customer of El Paso's Northwest Division. For this reason, it asserts that it has a substantial interest in any proceedings before the Commission concerning the allocation of gas by El Paso. It further asserts that its interests and those of its customers are not adequately represented by any of the existing parties in this case.

On November 30, 1970, El Paso filed a petition in Dockets Nos. G-8934 and G-10008 to amend the orders of November 25, 1955 (14 FPC 157), and May 8, 1956 (15 FPC 1378) respectively, by authorizing El Paso to deliver to Union Carbide Nuclear Company (Union Carbide) at Uravan, Colo., on a firm basis, quantities of natural gas of up to 23,700 therms per day at the rate of 4.20 cents per therm pursuant to an industrial gas sales contract dated August 1, 1970. El Paso is currently authorized in the instant dockets to sell a maximum quantity of 35,000 therms per day at a rate of 3.60 cents per therm to Union Carbide on an interruptible basis.

On August 11, 1972, El Paso filed an amendment to said petition to amend. El Paso stated that it had negotiated a new industrial gas sales contract with Union Carbide dated May 25, 1972, which canceled their contract of August 1, 1970. The new contract provides for firm deliveries of up to 1,120 therms daily at the rate of 4.20 cents per therm and deliveries of up to 22,580 therms daily on an interruptible basis at the rate of 3.8 cents per therm in lieu of the previously agreed upon 23,700 therms daily on a firm basis. El Paso requested, therefore, that the above referenced orders in Dockets Nos. G-8934 and G-10008 be amended only to the extent necessary to authorize deliveries to Union Carbide in accordance with this new contract. This new amendment to El Paso's earlier petition to amend was noticed on August 24, 1972, and September 11, 1972, was set as the final date on which protests and petitions to intervene would be filed in this matter.

On January 9, 1973, by order of the Commission, a hearing was scheduled in this matter for February 14, 1973, with evidence to be filed by El Paso on or before January 22, 1973. The Commission

stated that it would be necessary to determine, inter alia, the effect, if any, that the proposed attachment of additional firm load would have on El Paso's existing gas supply and on its ability to meet existing and future firm customer requirements on its system. The Commission also requested information on the end use of the proposed firm gas and on the feasibility of utilizing alternate fuels at Uravan. On January 24, 1973, pursuant to a request filed by El Paso, the dates for the filing of evidence and the hearing in these proceedings were changed to February 12, 1973, and February 28, 1973, respectively.

On February 2, 1973, El Paso filed in Dockets Nos. G-8934 and G-10008, an additional motion for an extension of time to file evidence and for a continuance of the hearing date. It stated that the evidentiary showing requested by the Commission in these dockets would require a thorough analysis of both customer requirements data and supply data for its Northwest Division System similar to that required for Dockets Nos. CP70-137 and G-10426. Since this data would not be ready until mid-March, El Paso asked that the dates for the filing of evidence and the hearing in Dockets Nos. G-8934 and G-10008 be changed to March 30, 1973, and April 10, 1973, respectively.

In its motion for extensions of time filed on January 24, 1973 in Dockets Nos. CP70-137 and G-10426, El Paso stated that the data needed for those dockets would be available by March 8, 1973. Accordingly, as referenced above, the dates for the filing of evidence and the hearing in those dockets were extended to March 8, 1973, and March 28, 1973, respectively. In Dockets Nos. G-8934 and G-10008, therefore, extensions of time similar to those granted in Dockets Nos. CP70-137 and G-10426 would appear to be justified, but further extensions are unnecessary. Accordingly, we will change the dates for the filing of evidence and the hearing in Dockets Nos. G-8934 and G-10008 to coincide with those in Dockets Nos. CP70-137 and G-10426. In view of this fact, and the similarity of the evidence required in all the above referenced dockets, the applications filed in Dockets Nos. CP70-137, G-10426, G-8934, and G-10008 are interdependent, and should therefore be consolidated and heard together.

On February 5, 1973, Union Carbide Corp. (Union Carbide) filed a late petition to intervene in Dockets Nos. G-8934 and G-10008. Union Carbide, of course, is a party to the gas sales contract which is the subject of this proceeding, and, as such, it alleges that it has a direct and vital interest in this matter which cannot be properly represented by any other party. It states that it failed to intervene in this proceeding within the time prescribed by the Commission for intervention because it only recently became aware that this matter would be treated as other than routine.

The Commission finds:

- (1) Sierra Pacific Power Co. and Union Carbide Corp. have shown good cause for their late filings, and their intervention at this time will not delay the disposition of these proceedings.

(2) It is desirable and in the public interest to allow Sierra Pacific Power Co. and Union Carbide Corp. to intervene in order that they may establish the facts and the law from which the nature and validity of their alleged rights and interests may be determined and show what further action may be appropriate under the circumstances in the administration of the Natural Gas Act.

(3) The applications in Dockets Nos. CP70-137, G-10426, G-8934, and G-10008 are interdependent and should be consolidated.

(4) Good cause exists for extending the times heretofore set for the filing of evidence and the hearing in Dockets Nos. G-8934 and G-10008 to coincide with those heretofore set in Dockets Nos. CP70-137 and G-10426, but further extensions are unjustified.

(5) Accordingly, evidence on the relevant issues in these consolidated proceedings should be filed by El Paso on or before March 8, 1973, and a hearing on this matter should commence on March 28, 1973.

The Commission orders:

(A) The above named petitioners are hereby permitted to intervene in these proceedings subject to the rules and regulations of the Commission; *Provided, however,* That the participation of such intervenors shall be limited to matters affecting asserted rights and interests as specifically set forth in said petition for leave to intervene; *And provided, further,* That the admission of such intervenors shall not be construed as recognition by the Commission that they might be aggrieved because of any order or orders of the Commission entered in this proceeding.

(B) Pursuant to § 2.62(c) of the Commission rules of practice and procedure, the Applicant shall serve copies of its filings upon these intervenors promptly, unless such service has already been effected pursuant to Part 157 of the regulations of the Natural Gas Act.

(C) The applications of El Paso Natural Gas Co. in Dockets Nos. CP70-137, G-10426, G-8934, and G-10008 are hereby consolidated.

(D) The dates heretofore set for the filing of evidence and the hearing in Dockets Nos. G-8934 and G-10008 are hereby extended to March 8 and March 28, respectively, to coincide with those heretofore set in Dockets Nos. CP70-137 and G-10426.

By the Commission.

[SEAL] KENNETH F. PLUMB,  
Secretary.

[Docket Nos. CP73-211, CP73-212]

TRANSWESTERN COAL GASIFICATION  
CO., ET AL.

## Notice of Applications

FEBRUARY 21, 1973.

Take notice that on February 7, 1973, Transwestern Coal Gasification Co. (Transwestern Coal), Post Office Box 2521, Houston, TX 77001, Pacific Coal

Gasification Co. (Pacific Coal), 720 West Eighth Street, Los Angeles, CA 90017, and Western Gasification Co. (Wesco), Post Office Box 2134, Farmington, NM 87401, filed a joint application in Docket No. CP73-212 pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of a coal gasification plant and the sale and delivery of substitute natural gas (SNG) to Transwestern Pipeline Co. (Transwestern Pipeline), all as more fully set forth in the application which is on file with the Commission and open to public inspection. Transwestern Pipeline filed a related application in Docket No. CP73-211 pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of approximately 67 miles of 36-inch pipeline for the transportation of SNG produced by Applicants in Docket No. CP73-212, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Pacific Coal, Transwestern Coal, and Wesco propose to construct and operate a coal gasification plant, which will gasify coal into approximately 250,000 Mcf of SNG per day, and to sell and deliver such SNG to Transwestern Pipeline.

It is stated that the proposed coal gasification plant will be located in the San Juan Basin, near Burnam, N. Mex., which is in the "Four Corners" area of New Mexico, approximately 28 miles southwest of Farmington, N. Mex., and approximately 67 miles north of Transwestern Pipeline's existing system. Applicants in Docket No. CP73-212 also state that the proposed sale of SNG to Transwestern Pipeline will be made on a cost of service basis.

It is stated that the coal to be used in the proposed plant will be obtained from Utah International Inc. (Utah) at 20.8 cents per million B.t.u., pursuant to a February 1, 1973, contract between Utah and Transwestern Coal and Pacific Coal for the sale of coal containing approximately 160 trillion B.t.u., or approximately 9.6 million tons of coal per year. It is further stated that the Utah coal reserves dedicated to this project are part of an estimated 800 million uncommitted tons of coal which Utah has leased from the Navaho Tribe and which are located on the Navaho Indian Reservation, San Juan County, N. Mex.

Applicants in Docket No. CP73-212 also state that up to 11,000 acre feet of water per year for the operation of the proposed coal gasification will be purchased from Utah by Pacific Coal and Transwestern Coal at \$7 per acre foot pursuant to the aforementioned contract of February 1, 1973, and that such water will be pumped from the San Juan River and flow south through a pipeline to the site of the proposed plant. It is stated that Utah has the rights to 44,000 acre feet per year of water from the San Juan River pursuant to contracts between Utah and the United States of America.

Applicants in Docket No. CP73-212 further state that the proposed coal gasi-

fication project will cost approximately \$405,940,000 to be financed initially by interim financing, and later permanently financed by the issuance of bonds and capital stock.

Transwestern Pipeline proposes to build approximately 67 miles of 36-inch pipeline through San Juan and McKinley Counties, N. Mex., from a point on Transwestern Pipeline's system northwest of Gallup, N. Mex., and appurtenant facilities for the purchase of SNG produced at the coal gasification plant proposed in Docket No. CP73-212 and for the transportation and resale of such SNG. It is also stated that such facilities will cost approximately \$22,399,000 to be financed initially by interim financing, with long-term financing to be determined at a future date.

Transwestern Coal and Pacific Coal are wholly owned subsidiaries of Transwestern Pipeline & Pacific Lighting Corp., respectively. Wesco is an unincorporated joint venture of Transwestern Coal and Pacific Coal. Applicants in Docket No. CP73-212 state that beginning in the latter part of 1973 the availability of gas connected sources of supply will decline from Transwestern Pipeline's presently to a point where said gas will no longer be sufficient to meet present contract demands of Transwestern Pipeline's customers and that Transwestern Pipeline has been and is likely to be unable to secure new gas supplies from traditional sources to meet its requirements. The coal gasification project is proposed to assist Transwestern Pipeline in meeting its delivery obligations.

Transwestern Pipeline requests that it be authorized to increase its rates without suspension, so as to permit the recovery of the cost of SNG supplies upon receipt of initial deliveries, and thereafter to reflect any future changes in the cost of SNG supplies in Transwestern Pipeline's purchased gas adjustment provisions of its then effective FPC gas tariff. The cost of service of Applicants in Docket No. CP73-212 in the third year of operation is estimated at \$1.308 per Mcf of gas.

Any person desiring to be heard or to make any protest with reference to said application should on or before March 12, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the

Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on these applications if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificates are required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

KENNETH F. PLUMB,  
Secretary.

[FR Doc 73-3853 Filed 2-28-73; 8:45 am]

[Docket No. RP72-103]

**UNION TEXAS PETROLEUM ET AL.**  
**Order Modifying Previous Order**

FEBRUARY 21, 1973.

On January 28, 1972, Union Texas Petroleum, a Division of Allied Chemical Corp. (Union Texas), filed a complaint against Stephens & Cass, a partnership, and El Paso Natural Gas Co. (El Paso) alleging that: Stephens & Cass had acquired an interest in oil lands in Reagan County, Tex., designated as the Boyd lease, Tracts 52 and 54 of the Spraberry Aldwell Unit; was producing casinghead gas from such properties; and was selling said casinghead gas to El Paso in dereliction of a pre-existing contract for sale of gas to Union Texas which was made between the previous interest holder in Stephens & Cass' oil leasehold, Oil and Gas, Inc., and Union Texas. Union Texas requested that Stephens & Cass be directed to discontinue its sales of natural gas from the above-described leasehold to El Paso and to resume such sale to Union Texas.

On March 8, 1972, El Paso filed an answer which admitted the right of Union Texas to receive delivery of the gas in question. On September 25, 1972, a Commission order was issued granting Union Texas' request that the gas deliveries in question be terminated to El Paso and resumed to Union Texas pending a determination by a local court of the consequences and merits of Stephens & Cass' contractual claims.

On September 28, 1972, Stephens & Cass filed a motion for rehearing of the above-mentioned order. In support of its motion, Stephens & Cass correctly asserted that the Commission inadvertently failed to recognize its answer filed on February 22, 1972, which more clearly delineated Stephens & Cass' contention that no contract existed between it and Union Texas.

On October 24, 1972, the Commission issued an Order Modifying Order on Rehearing permitting the continued delivery of the disputed gas to El Paso subject to an adverse decision on the existence of a contract with Union Texas by a local court.

On January 17, 1973, Union Texas filed a Motion of Complainant for Reconsideration of Order of October 24, 1972, requesting that the Commission reverse its decision of October 24, 1972, by directing that deliveries of the subject gas be terminated to El Paso and reinstituted to Union Texas and by establishing a formal hearing for the determination of Stephens & Cass' contractual claims.

On February 2, 1973, Stephens & Cass filed an answer to Union Texas' motion reasserting the inapplicability of the instant contract to the questioned deliveries of gas and commending the greater competence of local courts to deal with what it feels to be an issue involving a local matter.

Complainant's motion refers to and includes three attachments which are copies of lease assignments from Humble Oil & Refining Co. to Stephens & Cass. Those assignments are specifically subject to and relate to the same acreage as the gas purchase contract between Humble and Union Texas dated March 31, 1954; it thus appearing Stephens & Cass acquired those new leases in 1971, with full knowledge they were subject to the March 31, 1954, contract for the sale of gas to Union Texas.

The Stephens & Cass response indicates some issues have been resolved between the parties but that others remain and it does not respond to the new facts raised by Complainant in its motion. On February 12, 1973, El Paso amended its March 8, 1972, answer stating that on the basis of the Stephens & Cass response of February 2, 1973, Union Texas has no claim upon gas from the acreage which was the subject of the issues resolved between Stephens & Cass and Union Texas. It further appears that no interpretation of local law will be involved in resolving these issues. On the basis of Complainant's motion raising additional facts, and the Stephens & Cass response, it is our opinion that the issues in this case are amendable to resolution through the Commission's administrative hearing process and that consideration of the issues here presented can and should be resolved within our jurisdiction.

The Commission finds:

(1) It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the issues in this proceeding be scheduled for hearing in accordance with the procedures set forth below.

(2) There is no justification sufficient to warrant the ordering or deliveries of the disputed natural gas to Union Texas and the termination of such deliveries to El Paso prior to a determination on the merits by this Commission.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act, a public hearing on the issues presented in complaint will be held commencing March 27, 1973, at 10 a.m. (e.s.t.) in a hearing room of the Federal Power Commission, 441 G Street NW., Washington,

DC 20426. An Administrative Law Judge to be designated by the Chief Administrative Law Judge shall preside at, and control, this proceeding in accordance with the policies expressed in the Commission's rules of practice and procedure.

(B) On or before February 28, 1973, Union Texas shall prepare and serve its direct testimony and exhibits in support of its application.

(C) This Commission's order of October 24, 1972, in this docket remains in effect except as herein modified.

By the Commission.

[SEAL] KENNETH F. PLUMB,  
Secretary.

[FR Doc 73-3856 Filed 2-28-73; 8:45 am]

[Docket No. E-7918]

**CAROLINA POWER & LIGHT CO.**

**Order Accepting for Filing, and Suspending Proposed Rates, Granting Intervention, and Providing for Hearing Procedures**

FEBRUARY 16, 1973.

On December 18, 1972, Carolina Power & Light Co. (Carolina) tendered for filing proposed changes in its FPC rate schedules with a proposed effective date of February 16, 1973. The proposed changes would increase jurisdictional sales and service by approximately \$2,889,000 based on a volume of sales for the 12-month period ending December 31, 1971.

Carolina maintains the increase is necessary because the present rate does not provide a rate of return sufficient to attract new capital. The closing date for protests and petitions to intervene was January 30, 1973. A timely petition to intervene was filed by Electricities of North Carolina (Electricities), representing all of the jurisdictional municipal customers of Carolina in North Carolina. No other protests or petitions to intervene have been filed.

We note that on February 2, 1973, a proposed settlement agreement between Carolina and Electricities was filed in this proceeding, with a requested effective date of March 1, 1973.

On February 1, 1973, Carolina, with the concurrence of Electricities, filed a motion requesting a suspension period of 30 days in this proceeding or until March 18, 1973.

Review of Carolina's rate filing indicates that it raises certain issues which may require development in an evidentiary hearing. The proposed increases in rates and changes have not been shown to be just and reasonable and may be unjust, unreasonable, unduly discriminatory or preferential or otherwise unlawful.

The Commission finds:

(1) It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Federal Power Act that the Commission enter upon a hearing concerning the lawfulness of the rates and charges contained in Carolina's FPC rate schedules as pro-

posed to be amended in this docket, and that the tendered rate schedule be accepted for filing and be suspended as hereinafter provided.

(2) The disposition of this proceeding should be expedited in accordance with the procedure set forth below.

(3) In the event this proceeding is not concluded prior to the termination of the suspension period herein ordered, the placing of the tariff changes applied for in this proceeding into effect, subject to refund with interest while pending Commission determination as to their justness and reasonableness, is consistent with the purpose of the Economic Stabilization Act of 1970, as amended.

(4) Granting the petition to intervene of Electricities of North Carolina may be in the public interest.

The Commission orders:

(A) The petitioner for intervention is hereby permitted to intervene in this proceeding subject to the rules and regulations of the Commission: *Provided, however*, That participation of the intervenor shall be limited to the matters affecting asserted rights and interests specifically set forth in the petition to intervene: *And provided, further*, That admission of the intervenor shall not be construed as recognition by the Commission that the intervenor may be aggrieved by any order entered in this proceeding.

(B) Pursuant to the authority of the Federal Power Act, particularly section 205(e) thereof, the Commission's rules of practice and procedure, and the regulations under the Federal Power Act (18 CFR Ch. I), a public hearing shall be held, commencing with a prehearing conference on April 17, 1973, at 10 a.m. (e.s.t.), in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, DC 20426, concerning the lawfulness of the rates, charges, classifications and services contained in Carolina FPC rate schedules as proposed to be revised herein.

(C) At the prehearing conference on April 17, 1973, Carolina's prepared testimony (Statement P) together with its entire rate filing shall be admitted to the record as its complete case-in-chief subject to appropriate motions, if any, by parties to the proceeding. All parties will be expected to come to this conference prepared to effectuate the provisions of §§ 1.18 and 2.59 of the Commission's rules of practice.

(D) On or before April 3, 1973, the Commission Staff shall serve its prepared testimony and exhibits. The prepared testimony and exhibits of any or all intervenors shall be served on or before April 24, 1973. Any rebuttal evidence by Carolina shall be served on or before May 1, 1973. Cross-examination of the evidence filed will commence May 15, 1973.

(E) A Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge for that purpose (See Delegation of Authority, 18 CFR 3.5(d)), shall preside at the hearing in this proceeding, shall prescribe relevant procedural matters not herein provided, and shall control the proceeding in accordance with the policies expressed in

§ 2.59 of the Commission's rules of practice and procedure.

(F) Pending hearing and a final decision in this proceeding, Carolina's filing tendered on December 18, 1972, is accepted for filing and suspended and the use thereof deferred until March 18, 1973.

(G) The Secretary shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

By the Commission.

[SEAL] KENNETH F. PLUMB,  
Secretary.  
[FR Doc.73-3855 Filed 2-28-73; 8:45 am]

#### FEDERAL RESERVE SYSTEM FIRST INTERNATIONAL BANCSHARES, INC.

##### Acquisition of Bank

First International Bancshares, Inc., Dallas, Tex., has applied for the Board's approval under section 3(a)(3) of the Bank Holding Company Act (12 U.S.C. 1842(a)(3)) to acquire 100 percent of the voting shares (less directors' qualifying shares) of the successor by merger to American Bank & Trust Company, Dallas, Tex. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the office of the Board of Governors or at the Federal Reserve Bank of Dallas. Any person wishing to comment on the application should submit his views in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, to be received not later than March 21, 1973.

Board of Governors of the Federal Reserve System, February 22, 1973.

[SEAL] MICHAEL A. GREENSPAN,  
Assistant Secretary of the Board.  
[FR Doc.73-3798 Filed 2-28-73; 8:45 am]

#### FIRST NATIONAL COMPANY OF MISSOURI VALLEY, INC.

##### Order Approving Formation of Bank Holding Company

First National Co. of Missouri Valley, Inc., Missouri Valley, Iowa, has applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) of formation of a bank holding company through acquisition of 80 percent or more of the voting shares of The First National Bank of Missouri Valley, Missouri Valley, Iowa (Bank).

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the act. The time for filing comments and views has expired, and the Board has considered the application and all comments received in light of the factors set forth in section 3(c) of the act (12 U.S.C. 1842(c)).

Applicant is a recently formed company, with no operations or subsidiaries, organized for the purpose of acquiring Bank (\$11 million in deposits).<sup>1</sup> Bank, the larger of two banks in the city of Missouri Valley,<sup>2</sup> controls 62 percent of deposits therein and is the largest of six banks in the southwestern portion of Harrison County (the relevant banking market) controlling 30 percent of deposits in that market. Since the purpose of the proposed transaction is to effect a transfer from an individual ownership of Bank to ownership by applicant (controlled by the same individual), and from other facts of record, it appears that consummation herein would not eliminate any existing or potential competition, adversely affect any other bank, or increase the concentration of banking resources in any relevant area. Competitive considerations are consistent with approval of this application.

The principal who presently owns Bank, individually, will, upon consummation, continue ownership through his control of applicant. The financial condition, managerial resources, and future prospects of applicant will be dependent, in part, upon Bank. The record reveals that Bank has sound financial resources, adequate capitalization, satisfactory management, and a demonstrated pattern of growth. Although applicant will borrow funds to acquire shares of Bank, it appears that applicant should be able to service the debt. Considerations relating to the convenience and needs of the community to be served are consistent with approval. Applicant is expected to maintain the continuity of capable local management and the satisfactory financial position of Bank. It is the Board's judgment that the proposed transaction would be in the public interest and that the application should be approved.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be consummated: (a) Before March 22, 1973, or (b) later than May 21, 1973, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of Chicago pursuant to delegated authority.

By order of the Board of Governors,<sup>3</sup> effective February 20, 1973.

[SEAL] TYNAN SMITH,  
Secretary of the Board.  
[FR Doc.73-3797 Filed 2-28-73; 8:45 am]

<sup>1</sup> All banking data are as of June 30, 1972.  
<sup>2</sup> Missouri Valley (population 3,500), the economy of which is almost entirely agricultural, is located in west-central Iowa 8 miles from the Missouri River (forming the boundary between Iowa and Nebraska) and 24 miles north of Council Bluffs, Iowa, and Omaha, Nebr.

<sup>3</sup> Voting for this action: Vice Chairman Robertson and Governors Mitchell, Brimmer, Sheehan, and Bucher. Absent and not voting: Chairman Burns and Governor Daane.

#### FIRST NATIONAL HOLDING CORP.

##### Proposed Acquisition of Fairlane Finance Co., Inc.

First National Holding Corp., Atlanta, Ga., has applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.4(b)(2) of the Board's Regulation Y, for permission to acquire the assets of Fairlane Finance Co., Inc., Easley, S.C. Notice of the application was published in newspapers of general circulation in areas in which Fairlane Finance Co. presently operates as follows:

The Easley Progress, Easley, S.C., November 8, 1972-January 10, 1973.  
The Seneca Journal & Tugaloo Tribune, Seneca, S.C., November 6, 1972-January 10, 1973.  
The Georgetown Times, Georgetown, S.C., November 9, 1972-January 18, 1973.  
The Twin-City News, Batesburg, S.C., November 9, 1972-January 18, 1973.  
The Monitor, Liberty, S.C., November 9, 1972-January 11, 1973.  
The Greenville News, Greenville, S.C., November 4, 1972-January 10, 1973.  
The Pickens Sentinel, Pickens, S.C., November 9, 1972-January 11, 1973.  
The Statesville Record & Landmark, Statesville, S.C., November 7, 1972-January 9, 1973.  
The Lake City News & Post, Lake City, S.C., November 8, 1972-January 12, 1973.  
The Sumter Daily Item, Sumter, S.C., November 10, 1972-January 12, 1973.

Applicant states that the proposed subsidiary would engage in the activities of a finance company and act as an agent with respect to sales of credit life and disability insurance on borrowers in connection with loans and casualty insurance on property securing such loans. Such activities have been specified by the Board in § 225.4(a) of Regulation Y as permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of § 225.4(b).

Interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question should be accompanied by a statement summarizing the evidence the person requesting the hearing proposes to submit or to elicit at the hearing and a statement of the reasons why this matter should not be resolved without a hearing.

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Atlanta.

Any views or requests for hearing should be submitted in writing and received by the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than March 21, 1973.

Board of Governors of the Federal Reserve System, February 22, 1973.

[SEAL] MICHAEL A. GREENSPAN,  
Assistant Secretary of the Board.  
[FR Doc.73-3802 Filed 2-28-73; 8:45 am]

#### FIRST UNION, INC.

##### Order Approving Acquisition of Bank

First Union, Inc., St. Louis, Mo., a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)) to acquire 94.3 percent or more of the voting shares of The First National Bank of Independence, Independence, Mo. (Bank).

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired, and none has been timely received. The Board has considered the application in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant, the second largest bank holding company in Missouri, controls 13 banks with aggregate deposits of slightly more than \$1 billion, representing about 8 percent of total deposits in commercial banks in the State. All banking data are as of June 30, 1972, and reflect holding company formations and acquisitions approved by the Board to date. Consummation of the proposal would increase applicant's proportionate share of the deposits in commercial banks in the State by about one-half of 1 percent, and applicant's ranking among the State's banking organizations would remain unchanged.

Bank (\$56 million deposits), the largest of five banks in the city of Independence, ranks as the 13th largest of the 112 banking organizations competing in the Kansas City banking market (approximated by the Kansas City SMSA excluding the southern portion of Cass County), and holds less than 2 percent of the total deposits in commercial banks in that market. With two of its subsidiary banks controlling slightly more than 1 percent of the deposits, applicant is already represented in the Kansas City market. However, consummation of the proposal herein is not likely to eliminate significant competition between those subsidiaries and Bank in view of the large number of banks competing in the market and the presence of the Missouri River serving as a natural barrier between Bank and applicant's two subsidiaries. Similarly, the development of future competition between any of applicant's subsidiary banks and Bank is regarded as unlikely in view of the intervening distances between the respective banks and Missouri's restrictive branching laws. On the basis of the facts of record, the Board concludes that consummation of Applicant's proposal would

not eliminate any significant existing competition nor foreclose the development of significant potential competition.

The financial and managerial resources and future prospects of applicant and its subsidiaries are regarded as satisfactory and consistent with approval of the application. The same conclusions apply with respect to considerations relating to the banking factors as they pertain to Bank. The major banking needs of the Independence area are presently being served by the local banks and the nearby Kansas City banks. However, applicant indicates that it intends to assist Bank in improving and expanding its operations in such areas as fiduciary services, and commercial and real estate lending. Considerations relating to the convenience and needs appear to be consistent with approval of the application. It is the Board's judgment that consummation of the proposed acquisition would be in the public interest and that the application should be approved.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be consummated: (a) Before March 26, 1973, or (b) later than May 22, 1973, unless such period is extended for good cause by the Board or by the Federal Reserve Bank of St. Louis pursuant to delegated authority.

By order of the Board of Governors,<sup>1</sup> effective February 22, 1973.

[SEAL] TYNAN SMITH,  
Secretary of the Board.

#### PARK BANCSHARES, INC.

##### Formation of One-Bank Holding Company

Park Bancshares, Inc., St. Joseph, Mo., has applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) to become a bank holding company through acquisition of 80 percent or more of the voting shares of the Park Bank of St. Joseph, St. Joseph, Mo. The factors that are considered in acting on the application are set forth in section 3(c) of the act (12 U.S.C. 1842(c)).

The application may be inspected at the office of the Board of Governors or at the Federal Reserve Bank of Kansas City. Any person wishing to comment on the application should submit his views in writing to the Reserve bank to be received not later than March 12, 1973.

Board of Governors of the Federal Reserve System, February 22, 1973.

#### FEDERAL TRADE COMMISSION

##### LARGE CORPORATE MERGERS

##### Requirements for Submission of Special Reports

Notice is hereby given that the Commission wishes to implement its prior resolution issued April 17, 1972, concerning notification of, and submission of special reports relating to, large corporate mergers, as published at FEDERAL REGISTER vol. 37, pages 7951-2. Accordingly the Commission has made the following resolution.

Resolved that henceforth special reports as specified in said prior resolution are hereby ordered to be filed by both acquired and acquiring companies, as follows:

(a) All acquiring companies engaging in acquisitions of assets as to which such notification is required;

(b) All acquiring companies engaged in stock acquisitions as to which such notification is required;

(c) All acquired companies whose assets in excess of \$10 million have been, or are to be, acquired in transaction covered by subparagraph (a) above;

(d) All companies whose assets or sales exceed \$10 million and 50 percent or more of whose voting stock has been, or is to be, acquired in transaction covered by subparagraph (b) above.

For purposes of implementing this order the staff of the Commission is directed to furnish such notices to file special reports as may be necessary to achieve compliance with this program.

By order of the Commission.

[SEAL] CHARLES A. TOBIN,  
Secretary.

## NOTICES

NATIONAL ADVISORY COMMITTEE  
ON OCCUPATIONAL SAFETY AND  
HEALTHSUBCOMMITTEE ON STATE PROGRAMS  
Notice of Meeting

Notice is hereby given of a meeting to be held by the Subcommittee on State Programs of the National Advisory Committee on Occupational Safety and Health established by section 7(a) of the Occupational Safety and Health Act of 1970 (29 U.S.C. 556).

The meeting will begin at 9 a.m. on March 15, 1973, in Rooms 216A and B of the Department of Labor Building, 14th Street and Constitution Avenue NW., Washington, D.C.

During the course of the meeting the following subjects will be discussed separately:

(1) Review of criteria for determining the adequacy of State plans to assume responsibility for the development and enforcement of State occupational safety and health standards;

(2) Procedure to be established for amending approved State plans; and

(3) Evaluation of implementation of such State plans.

Members of the public are invited to attend the proceedings.

Any written data, views, or arguments received by the Committee's executive secretary concerning the subjects to be considered on or before March 12, 1973, together with 25 duplicate copies will be provided to the members and will be included in the minutes of the meeting.

Interested persons wishing to address the subcommittee at the meeting should submit a request to be heard together with 25 copies thereof to the executive secretary no later than March 8, 1973, stating the nature of their intended presentation and the amount of time they will need. At the commencement of the meeting the chairman will announce the extent to which time will permit the granting of such requests.

Communications to the executive secretary should be addressed as follows:

Mr. Roger W. Grant, Executive Secretary, National Advisory Committee on Occupational Safety and Health, Room 1120b, 1726 M Street NW., Washington, DC 20210.

Signed at Washington D.C., this 26th day of February 1973.

ROGER W. GRANT,  
Executive Secretary.

NATIONAL AERONAUTICS AND  
SPACE ADMINISTRATION

[Notice 73-17]

NASA RESEARCH AND TECHNOLOGY  
ADVISORY COUNCIL, COMMITTEE ON  
AERONAUTICAL OPERATING SYSTEMS

## Notice of Meeting

The NASA Research and Technology Advisory Council, Committee on Aeronautical Operating Systems, will meet on March 7-8, 1973, at the NASA Ames Research Center, Moffett Field, Calif. 94035.

The meeting will be held in the committee room, second floor of the Administration Building (N-200). Members of the public will be admitted on a first-come-first-served basis up to the seating capacity of the room, which is about 40 persons. All visitors must report to the NASA visitor gatehouse.

The NASA Committee on Aeronautical Operating Systems serves in an advisory capacity only. The Chairman is Mr. Franklin W. Kolk. There are 14 members. The approved agenda is outlined below. For further information, please contact Mr. Robin K. Ransone, area code 202-755-2360.

MARCH 7, 1973

Time	Topic
8:30 a.m.	Chairman's and Executive Secretary's Reports. (Purpose: To review results of the previous meeting of the Research and Technology Advisory Council, recent NASA organizational changes, and to introduce new members.)

9:10 a.m.	Reports of NASA actions taken on past Committee recommendations. (Purpose: To report to the Committee the NASA responses to their recommendations concerning Flight Management, Wake Turbulence Hazards, General Aviation Research and Technology, Emergency Breathing Oxygen Systems, Ditching, Terminal Configured Vehicle and Avionics Program, and STOLAND Program.)
-----------	--

1:00 p.m.	Committee discussion—Future Aircraft Fuels Needs and Associated Research. (Purpose: A discussion of future aircraft fuels needs to elicit advice from the Committee members as to appropriate courses of research action by NASA.)
-----------	--

3:00 p.m.	Status reports. (Purpose: To provide the Committee members with progress reports and current status of specific NASA Operating Systems Programs, including: Clear Air Turbulence Detection Research, Tire Materials Research, and Jet STOL Transport Financial Risk Analysis.)
-----------	--

MARCH 8, 1973

8:30 a.m.	Committee discussion—Land Gear Systems Technology Improvement Needs. (Purpose: To discuss problems with current aircraft landing gear systems, to discuss new landing gear concepts, and to elicit advice from the Committee members regarding appropriate NASA landing gear research and technology.)
-----------	--

10:00 a.m.	Committee discussion—Propulsive Lift Research Needs. (Purpose: To discuss NASA's research in propulsive lift systems, in light of recent cancellation of the QUESTOL program, and to elicit Committee member's advice and comments on propulsive lift research.)
------------	--

Time	Topic
1:00 p.m.	Committee discussion—NASA Aviation Safety Research Program. (Purpose: To present outline of NASA Aviation Safety Research Program and to elicit Committee advice and discussion of this program.)

2:00 p.m.	Executive session. (Purpose: To discuss programs under the cognizance of Committee members' affiliations which are of interest to the Committee, and which have bearing upon future NASA program planning. Closed to public.)
-----------	---

4:30 p.m.	Adjournment.

Proposed Issue and Sale of First and Refunding Mortgage Bonds at Competitive Bidding

FEBRUARY 23, 1973.

Notice is hereby given that the Connecticut Light & Power Co. (CL&P), Selden Street, Berlin, CT 06037, a public-utility subsidiary company of Northeast Utilities, a registered holding company, has filed an application with this Commission pursuant to the Public Utility Holding Company Act of 1935 (Act), designating section 6(b) of the Act and Rule 50 promulgated thereunder as applicable to the following proposed transaction. All interested persons are referred to the application, which is summarized below, for a complete statement of the proposed transaction.

CL&P proposes to issue and sell, subject to the competitive bidding requirements of Rule 50 under the Act, \$50 mil-

lion principal amount of ----- percent First and Refunding Mortgage Bonds, Series Z, due April 1, 2003. The interest rate (which shall be a multiple of one-eighth of 1 percent) and the price, exclusive of accrued interest, to be paid to CL&P (which shall be not less than 99 percent nor more than 102¾ percent of the principal amount thereof) will be determined by the competitive bidding. The bonds will be issued under the Indenture of Mortgage and Deed of Trust dated May 1, 1921, between CL&P and Bankers Trust Co., Trustee, as heretofore supplemented and amended and as to be further supplemented by a Supplemental Indenture to be dated as of April 1, 1973, which contains a prohibition until April 1, 1978, against refunding the issue with the proceeds of funds borrowed at a lower effective interest cost.

The net proceeds from the issue and sale of the bonds will be applied toward repayment of short-term borrowings incurred in financing CL&P's 1972-73 construction program, which borrowings are expected to aggregate \$95 million at the time of the proposed sale. It is anticipated that Northeast Utilities will make a \$20 million capital contribution in March 1973, which will be used by CL&P in further reduction of its short-term borrowings (file No. 70-5308). CL&P's construction program for 1973 is estimated at \$143 million, and it is stated that this program will require an additional \$60 million of external financing which CL&P contemplates will be obtained temporarily through short-term borrowings. CL&P anticipates a further capital contribution from Northeast Utilities, as well as additional long-term financing (first mortgage bonds or preferred stock) later this year. Such additional financing will, to the extent necessary, be the subject of future filings with the Commission.

A statement of the fees and expenses incident to the proposed transaction will be filed by amendment. The filing states that the proposed issue and sale of bonds is subject to the approval of the Connecticut Public Utilities Commission, and indicates that no other State commission and no Federal commission, other than this Commission, has jurisdiction over the proposed transaction.

Notice is further given that any interested person may, not later than March 22, 1973, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said application which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon the applicant at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request

**MORGAN STANLEY & CO. INC.****Filing of Application for an Order of Exemption**

Notice is hereby given that Morgan Stanley & Co. Inc., 140 Broadway, New York, NY 10005, a registered broker-dealer corporation with its principal office at 140 Broadway, New York, NY 10005 (Applicant), in connection with a proposed public offering of shares of Common Stock of Pacific American Income Shares, Inc. (the Company), a registered, closed-end, diversified management investment company, has filed an application pursuant to section 6(c) of the Investment Company Act of 1940 (the Act) for an order exempting Applicant and its underwriters from section 30(f) of the Act to the extent that such section adopts section 16(b) of the Securities Exchange Act of 1934 (the Exchange Act) with respect to their transactions incidental to the distribution of Company shares. All interested persons are referred to the application on file with the Commission for a statement of the representations therein, which are summarized below.

Applicant, E. F. Hutton & Co. Inc., a registered broker-dealer corporation with its principal office at One Battery Park Plaza, New York, N.Y. 10004, and Bate-man Eichler, Hill Richards, Inc., a registered broker-dealer corporation with its principal office at 460 South Spring Street, Los Angeles, CA 90013, are the prospective managers (the Managers) of a group of underwriters (the Underwriters) being formed in connection with the above public offering.

Shares of the Company are to be purchased by the Underwriters pursuant to an Underwriting Agreement (the Underwriting Agreement) to be entered into between the Underwriters, represented by the Managers, and the Company. It is also contemplated that one or more dealers will offer to sell certain of the

shares and in connection with such offer and sale, each such dealer will execute a Dealer Agreement. It is intended that the several Underwriters will make a public offering of all the Company shares which such Underwriters are to purchase under the Underwriting Agreement at the price therein specified, as soon on or after the effective date of the Company's Registration Statement on Form S-4 (the Registration Statement) as the Managers deem advisable, and such shares are initially to be offered to the public in accordance with the formulae for the determination of the per share public offering price and underwriting commissions (which vary based upon the number of shares purchased in a single transaction) to be specified in the prospectus incorporated in the Registration Statement (the Prospectus) at the time the Registration Statement becomes effective under the Securities Act of 1933, as amended. Although 6,600,000 shares have been included for registration in the Registration Statement, the actual number of shares which may be the subject of the proposed public offering may be increased or decreased by the Managers and the Company shortly before the effective date of the Registration Statement and the proposed public offering, and depending upon the exercise of an over-allotment election granted to the Underwriters.

Applicant states that it is possible that the original purchase obligation of any one or more of the Underwriters, including each of the Managers, will exceed 10 percent of the aggregate number of shares of the Company's Common Stock to be outstanding after the purchase by the several Underwriters pursuant to the Underwriting Agreement or upon the completion of the initial public offering or at some interim time. Since section 30(f) of the Act subjects every person who is directly or indirectly the beneficial owner of more than 10 percent of any class of outstanding securities of the Company to the same duties and liabilities as those imposed by section 16 of the Exchange Act with respect to the transactions in the securities of the Company, such Underwriter or Underwriters would become subject to the filing requirements of section 16(a) of the Exchange Act and, upon resale of the shares purchased by them to their customers, subject to the obligations imposed by section 16(b) of the Exchange Act.

Rule 16b-2 under the Exchange Act exempts certain transactions in connection with a distribution of securities from the operation of section 16(b) thereof. Applicant states that the purpose of the purchase of the shares by the Underwriters will be for resale in connection with the initial distribution of the shares. Applicant states that such purchases and sales, therefore, will be transactions effected in connection with a distribution of a substantial block of securities within the purpose and spirit of Rule 16b-2.

Applicant states that it is possible that one or more of the Underwriters, through their participation in the distribution of

take at the hearing, if ordered. In addition, any interested person may submit his views or any additional facts bearing on any of the said applications by means of a letter addressed to the Secretary, Securities and Exchange Commission, Washington, D.C. 20549 not later than the date specified. If no one requests a hearing with respect to any particular application, such application will be determined by order of the Commission on the basis of the facts stated therein and other information contained in the official files of the Commission pertaining thereto.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

**LOGOS DEVELOPMENT CORP.****Order Suspending Trading**

FEBRUARY 23, 1973.

It appearing to the Securities and Exchange Commission that the summary suspension of trading in the common stock, \$0.01 par value, and all other securities of Logos Development Corp., being traded otherwise than on a national securities exchange is required in the public interest and for the protection of investors;

*It is ordered*, Pursuant to section 15(c) (5) of the Securities Exchange Act of 1934, that trading in such securities otherwise than on a national securities exchange be summarily suspended, this order to be effective for the period from February 24, 1973 through March 4, 1973.

By the Commission.

[SEAL] RONALD F. HUNT,  
Secretary.

[FR Doc. 73-3782 Filed 2-28-73; 8:45 am]

the Company's shares, may not be exempted from section 16(b) of the Exchange Act by the operation of Rule 16b-2. They may fail to meet the requirement stated in Rule 16b-2(a)(3) that the aggregate participation of persons not within the purview of section 16(b) of the Exchange Act be at least equal to the participation of persons receiving the exemption under Rule 16b-2 since it is possible that one or more of the Underwriters who, pursuant to the Underwriting Agreement, will purchase more than 10 percent of the shares of the Company may be obligated to purchase more than 50 percent of the shares of the Company being offered.

In addition to purchases of shares from the Company and sales of shares to customers, there may be the usual transactions of purchase or sale incident to a distribution such as stabilizing purchases, purchases to cover overallocments or other short positions created in connection with such distribution, and sales of shares purchased in stabilization.

Applicant states that there is no inside information in existence since the Company, prior to the initial distribution of the shares, will have no assets, other than cash, or business of any sort, and all material facts with respect to the Company will be set forth in the Prospectus pursuant to which the shares will be offered and sold. No director or officer or the Applicant or E. F. Hutton & Co. Inc., or Bateman Eichler, Hill Richards, Inc., is a director or officer of either the company or Western Asset Management Co., the Company's investment adviser (the Adviser), and Applicant states that it does not anticipate that any partner, director or officer of any other Underwriter will be a director or officer of the Company or the Adviser.

Applicant submits that the requested exemption from the provisions of section 30(f) of the Act is necessary and appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act. Applicant further contends that the transactions sought to be exempted cannot lend themselves to the practices section 16(b) of the Exchange Act and section 30(f) of the Act were enacted to prevent.

Section 6(c) of the Act authorizes the Commission to exempt any person, security or transaction, or any class or classes of persons, securities, or transactions from the provisions of the Act and Rules promulgated thereunder if and to the extent that such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Notice is further given that any interested person may, not later than March 9, 1973 at 5:30 p.m., submit to the Commission in writing a request for a hearing on this matter accompanied by a statement as to the nature of his interest, the reason for such request and the issues of fact or law proposed to be controverted, or he may request that he

be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon Applicant at the address stated above. Proof of such service (by affidavit or in case of an attorney-at-law by certificate) shall be filed contemporaneously with the request. At any time after said date, as provided by Rule 0-5 of the Rules and Regulations promulgated under the act, an order disposing of the Application herein may be issued by the Commission upon the basis of the information stated in said application, unless an order for hearing upon said Application shall be issued upon request or upon the Commission's own motion. Persons who request a hearing or advice as to whether a hearing is ordered, will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management Regulation, pursuant to delegated authority.

#### FEDERAL SAFETY ADVISORY COUNCIL

##### Notice of Meeting

Notice is hereby given of a meeting to be held by the Federal Safety Advisory Council established to advise the Secretary of Labor with regard to occupational safety and health programs applicable to Federal employees (Executive Order 11612; 3 CFR, 1971 Comp., p. 195).

The meeting will begin at 9 a.m. on March 16, 1973, in Conference Room C

of the departmental auditorium between 12th and 14th Streets on Constitution Avenue NW., Washington, D.C.

During the course of the meeting the following subjects will be discussed seriatim:

- (1) Safety and health training for Federal employees;
  - (2) Proposed new regulations;
  - (3) Future national program;
  - (4) Regional conferences;
  - (5) Role of field chapters;
  - (6) Annual Federal statistics;
  - (7) Accident reporting; and
  - (8) National highway standards.
- Members of the public are invited to attend the proceedings.

Any written data, views, or arguments received by the Council concerning the subjects to be considered on or before March 12, 1973, together with 25 duplicate copies will be provided to the members and will be included in the minutes of the meeting.

Interested persons wishing to address the Council at the meeting should submit a request to be heard together with 25 copies thereof no later than March 8, 1973, stating the nature of their intended presentation and the amount of time they will need. At the commencement of the meeting, the chairman will announce the extent to which time will permit the granting of such requests.

Communications to the Council should be addressed as follows:

Mr. Eugene L. Newman, Director, Office of Federal Agency Programs, Room 409, 400 First Street NW., Washington, DC 20210.

Signed at Washington, D.C., this 26th day of February 1973.

CHAIN ROBBINS,  
Acting Assistant Secretary of Labor.  
[FR Doc. 73-3927 Filed 2-28-73; 8:45 am]

### INTERSTATE COMMERCE COMMISSION

[Notice No. 17]

#### MOTOR CARRIER, BROKER, WATER CARRIER AND FREIGHT FORWARDER APPLICATIONS

FEBRUARY 23, 1973.

The following applications (except as otherwise specifically noted, each applicant (on application filed after Mar. 27, 1972) states that there will be no significant effect on the quality of the human environment resulting from approval of its application), are governed by Special Rule 1100.247<sup>1</sup> of the Commission's general rules of practice (49 CFR, as amended), published in the Federal Register issue of April 20, 1966, effective May 20, 1966. These rules provide, among other things, that a protest to the granting of an application must be filed with the Commission within 30 days after date of notice of filing of the application is published in the Federal Register. Failure seasonably to file a protest will be construed as a waiver of opposition and participation in the proceeding. A protest under these rules should comply with section 247(d) (3) of the rules of practice which requires that

it set forth specifically the grounds upon which it is made, contain a detailed statement of protestant's interest in the proceeding (including a copy of the specific portions of its authority which protestant believes to be in conflict with that sought in the application, and describing in detail the method—whether by joinder, interline, or other means—by which protestant would use such authority to provide all or part of the service proposed), and shall specify with particularity the facts, matters, and things relied upon, but shall not include issues or allegations phrased generally. Protests not in reasonable compliance with the requirements of the rules may be rejected. The original and one (1) copy of the protest shall be filed with the Commission, and a copy shall be served concurrently upon applicant's representative, or applicant if no representative is named. If the protest includes a request for oral hearing, such requests shall meet the requirements of section 247(d) (4) of the special rules, and shall include the certification required therein.

Section 247(f) of the Commission's rules of practice further provides that each applicant shall, if protests to its application have been filed, on or before April 30, 1973, notify the Commission in writing (1) that it is ready to proceed and prosecute the application, or (2) that it wishes to withdraw the application, failure in which the application will be dismissed by the Commission.

Further processing steps (whether modified procedure, oral hearing, or other procedures) will be determined generally in accordance with the Commission's general policy statement concerning motor carrier licensing procedures, published in the Federal Register issue of May 3, 1966. This assignment will be by Commission order which will be served on each party of record. Broadening amendments will not be accepted after the date of this publication except for good cause shown, and restrictive amendments will not be entertained following publication in the Federal Register of a notice that the proceeding has been assigned for oral hearing.

No. MC 921 (Sub-No. 23), filed January 23, 1973. Applicant: DEAN TRUCK LINE, INC., Post Office Drawer 631 (Fulton Drive), Corinth, MS 38834. Applicant's representative: Warren A. Goff, 2008 Clark Tower, 5100 Poplar Avenue, Memphis, TN 38137. Authority sought to operate as a common carrier, by motor vehicle, over regular routes, transporting: General commodities (except those of unusual value, classes A and B explosives, household goods as defined in 17 M.C.C. 467, livestock, commodities in bulk and articles which because of size or weight require special equipment), serving the plantsite and storage facilities of the Pulvair Corp., at or near Millington, Tenn., serving as an off-route point in connection with carrier's regular route operations from and to Memphis, Tenn., and Corinth, Miss. Note: If a hearing is deemed necessary, applicant requests it be held at Memphis, Tenn.

<sup>1</sup> Copies of Special Rule 247 (as amended) can be obtained by writing to the Secretary, Interstate Commerce Commission, Washington, D.C. 20423.

lar route operations from and to Memphis, Tenn., and Corinth, Miss. Note: If a hearing is deemed necessary, applicant requests it be held at Memphis, Tenn.

No. MC 2202 (Sub-No. 435), filed November 28, 1972. Applicant: ROADWAY EXPRESS, INC., 1077 Gorge Boulevard, Post Office Box 471, Akron, OH 44309. Applicant's representative: James W. Conner (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over regular routes, transporting: General commodities (except those of unusual value, classes A and B explosives, livestock, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), between Saginaw and Bay City, Mich.: From Saginaw over Michigan Highway 47 to junction Michigan Highway 47 and U.S. Highway 10, thence over U.S. Highway 10 to Bay City, and return over the same route, serving all intermediate points and points in Midland County as off-route points. Note: Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Midland, Mich., or Washington, D.C.

No. MC 2900 (Sub-No. 234), filed January 24, 1973. Applicant: RYDER TRUCK LINES, INC., 2050 Kings Road, Post Office Box 2408, Jacksonville, FL 32203. Applicant's representative: John Carter (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over regular routes, transporting: Dump bodies and refuse, salvage or waste containers and materials, supplies and equipment useful in the manufacture of dump bodies and containers, except in bulk, in tank vehicles, serving Enterprise, Ala., as an off-route point in connection with carrier's otherwise authorized regular route operations. Note: Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Birmingham, Ala., or Atlanta, Ga.

No. MC 4405 (Sub-No. 501), filed January 9, 1973. Applicant: DEALERS TRANSIT, INC., 2200 East 170th Street, Post Office Box 361, Lansing, IL 60438. Applicant's representative: Robert E. Joyner, 2008 Clark Tower, 5100 Poplar Avenue, Memphis, TN 38137. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (A) Trailers, semitrailers and trailer chassis, other than those designed to be drawn by passenger automobiles, in initial truckaway and drive-away service, from Sioux City, Iowa, to points in the United States (excluding Hawaii); and (B) Tractors in secondary movements in driveaway service only when drawing trailers, semitrailers, and trailer chassis in initial movements, from Sioux City, Iowa, to points in Alaska, Arizona, Nevada, Oregon, and Vermont. Note: Common control may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Sioux City, Iowa, or Omaha, Nebr.

No. MC 14702 (Sub-No. 48), filed January 19, 1973. Applicant: OHIO FAST FREIGHT, INC., Post Office Box 808, Warren, OH 44482. Applicant's representative: Paul F. Beery, 88 East Broad Street, Columbus, OH 43215. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Electrical wiring harnesses, and equipment, materials, and supplies used in the manufacture of electrical wiring harnesses (except commodities in bulk), between the plantsites of General Motors Corp., Packard Electric Division, at Warren, Ohio, on the one hand, and, on the other, the plant site of General Motors Corp., Packard Electric Division, near Clinton, Miss. Note: Applicant states that the requested authority cannot or will not be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 19227 (Sub-No. 182), filed January 12, 1973. Applicant: LEONARD BROS. TRUCKING CO., INC., 2595 Northwest 20th Street, Miami, FL 33152. Applicant's representative: William O. Turney, 2001 Massachusetts Avenue NW., Washington, DC 20036. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Pipe, wrought iron or steel, other than oldfield, from the facilities of Proler Steel Corp. in Milwaukee, Wis., and Lemont, Ill., to points in California, Georgia, Indiana, Iowa, Kansas, Kentucky, Missouri, Montana, North Carolina, North Dakota, Nebraska, Ohio, South Carolina, South Dakota, Tennessee, Virginia, and Wyoming. Note: Common control may be involved. Applicant states that the requested authority can be tacked with its existing authority but indicates that it has no present intention to tack and therefore does not identify the points or territories which can be served through tacking. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. If a hearing is deemed necessary, applicant requests it be held at Cleveland, Ohio or Washington, D.C.

No. MC 24583 (Sub-No. 17), filed January 19, 1973. Applicant: RODNEY STEWART and TROY STEWART, a partnership, doing business as FRED STEWART COMPANY, Post Office Box 665, Magnolia, AR 71753. Applicant's representative: Louis Tarlowski, 914 Pyramid Life Building, Little Rock, Ark. 72201. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) Ceramic forms, plastic, and plastic products, from Hamilton Township, Lawrence County, Ohio, to points in Alabama,

Arkansas, Florida, Georgia, Kansas, Kentucky, Louisiana, Mississippi, Missouri, New Mexico, Oklahoma, Tennessee, and Texas; and (2) plastic and plastic products, from Pevely, Mo., to points in Alabama, Arkansas, Florida, Georgia, Kansas, Kentucky, Louisiana, Mississippi, New Mexico, Ohio, Oklahoma, Tennessee, and Texas. Note: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Little Rock, Ark.

No. MC 29910 (Sub-No. 128), filed January 18, 1973. Applicant: ARKANSAS-BEST FREIGHT SYSTEM, INC., 301 South 11th Street, Fort Smith, AR 72901. Applicant's representative: Thomas Harper and Donald A. Smith, Post Office Box 43, Kelley Building, Fort Smith, AR 72901. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Ceiling suspension systems, iron or steel slidding and parts, and plasterboard, from Westlake, Ohio, to points in Arkansas, Louisiana, Mississippi, Oklahoma, and Texas. Note: Applicant presently holds regular-route authority which duplicates, in part, the authority requested herein, however no duplicating authority is sought. Applicant states that the requested authority can be tacked with its existing authority but indicates that it has no present intention to tack and therefore does not identify the points or territories which can be served through tacking. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. If a hearing is deemed necessary, applicant requests it be held at Cleveland, Ohio or Washington, D.C.

No. MC 31389 (Sub-No. 162), filed January 10, 1973. Applicant: McLEAN TRUCKING COMPANY, a Corporation, 617 Waughtown Street, Post Office Box 213, Winston-Salem, NC 27102. Applicant's representative: Francis W. McInerney, 1000 16th Street NW., Washington, DC 20036. Authority sought to operate as a common carrier, by motor vehicle, over regular routes, transporting: General commodities (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), serving the plantsite of Kinetics International Corp., located approximately 6 miles east of Lewisville, Tex., on Texas Highway 121, as an off-route point in connection with applicant's presently authorized regular-route operations to and from Dallas, Tex. Note: Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Dallas or Austin, Tex.

No. MC 35628 (Sub-No. 343), filed January 15, 1973. Applicant: INTERSTATE MOTOR FREIGHT SYSTEM, a Corporation, 134 Grandville SW., Grand Rapids, MI 49502. Applicant's representative: Leonard D. Verdier, Jr.,

900 Old Kent Building, Grand Rapids, Mich. 49502. Authority sought to operate as a common carrier, by motor vehicle, over regular routes, transporting: General commodities (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), (1) between Kansas City, Kans.-Mo., and Oklahoma City, Okla.: From Kansas City over Interstate Highway 70 to Topeka, thence from Topeka over Kansas Turnpike to junction Interstate Highway 35, thence over Interstate Highway 35 to Oklahoma City, and return over the same route; (2) between Kansas City, Kans.-Mo., and Oklahoma City, Okla.: From Kansas City over Interstate Highway 35 to junction U.S. Highway 59, thence over U.S. Highway 59 to junction U.S. Highway 169, thence over U.S. Highway 169 to Tulsa, thence over Interstate Highway 44 to Oklahoma City, and return over the same route; (3) between Kansas City, Kans.-Mo., and Little Rock, Ark.: From Kansas City over U.S. Highway 71 to junction Interstate Highway 40, thence over Interstate Highway 40 to junction U.S. Highway 167, thence over U.S. Highway 167 to Little Rock, and return over the same route; (4) between Kansas City, Kans.-Mo., and Little Rock, Ark.: From Kansas City over U.S. Highway 71 to junction Missouri Highway 7, thence over Missouri Highway 7 to junction Missouri Highway 13, thence over Missouri Highway 13 to Springfield, thence over U.S. Highway 65 to Little Rock, and return over the same route.

(5) Between Kansas City, Kans.-Mo., and Jonesboro, Ark.: From Kansas City over U.S. Highway 71 to junction Missouri Highway 7, thence over Missouri Highway 7 to junction Missouri Highway 13, thence over Missouri Highway 13 to Springfield, thence from Springfield over U.S. Highway 60 to junction U.S. Highway 63, thence over U.S. Highway 63 to Jonesboro, and return over the same route; (6) between St. Louis, Mo., and Oklahoma City, Okla.: From St. Louis over Interstate Highway 44 to Oklahoma City, and return over the same route; (7) between St. Louis, Mo., and Little Rock, Ark.: From St. Louis over Interstate Highway 55 to junction U.S. Highway 67, thence over U.S. Highway 67 to Little Rock, and return over the same route; (8) between St. Louis, Mo., and Little Rock, Ark.: From St. Louis, over Interstate Highway 55 to junction Interstate Highway 40, thence over Interstate Highway 40 to junction U.S. Highway 67, thence over U.S. Highway 67 to Little Rock, and return over the same route; serving the following intermediate or off-route points in (1) through (8) above: Boonville, El Dorado, Fayetteville, Fort Smith, Harrison, Hot Springs, Jacksonville, Jonesboro, Osceola, Paragould, Pine Bluff, Prescott, Rogers, Russellville, Siloam Springs, Springdale, and Walnut Ridge, Ark.; Ada, Ardmore, Bartlesville, Enid, Muskogee, Sand Springs, and Tulsa, Okla. Restriction: Restricted at the named

## NOTICES

points and off-route points in (1) through (5) above to the transportation of traffic moving from, to, or through Kansas City, Kans.-Mo., and further restricted at the named points and off-route points in (6), (7), and (8) above to the transportation of traffic moving from, to, or through St. Louis, Mo. **NOTE:** Applicant states that the purpose of this request for authority is to convert certain of its irregular route operations to regular route operations. Applicant further states that it seeks no duplicating authority. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C. or Detroit, Mich.

No. MC 35890 (Sub-No. 41), filed January 12, 1973. Applicant: BLODGETT FURNITURE SERVICE, INC., 3801 36th Street SE., Grand Rapids, MI 49508. Applicant's representative: Kenneth T. Johnson and Ronald W. Mallin, Bankers Trust of Jamestown Building, Jamestown, N.Y. 14701. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *New furniture and furnishings*, (1) between points in Michigan, Illinois, Indiana, and Ohio, on the one hand, and, on the other, points in the United States (except Alaska and Hawaii); and (2) between points in Pennsylvania, Maryland, Delaware, Virginia, West Virginia, New Jersey, New York, Massachusetts, Connecticut, Rhode Island, Vermont, New Hampshire, and the District of Columbia, on the one hand, and, on the other, points in Arizona, Arkansas, California, Colorado, Idaho, Iowa, Kansas, Kentucky, Minnesota, Mississippi, Missouri, Montana, Nebraska, Nevada, New Mexico, North Dakota, Texas, Utah, Washington, Wisconsin, and Wyoming. **NOTE:** Applicant states that the requested authority cannot or will not be tacked with its existing authority. If a hearing is deemed necessary, applicant requests three sections of hearings at New York, N.Y., Chicago, Ill., and San Francisco, Calif.

No. MC 42487 (Sub-No. 801), filed January 14, 1973. Applicant: CONSOLIDATED FREIGHTWAYS CORPORATION OF DELAWARE, 175 Linfield Drive, Menlo Park, CA 94025. Applicant's representative: E. T. Liipfert, Suite 1100, 1680 L Street NW., Washington, DC 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, livestock, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment) (1) Between Columbus, Ohio, and Marion, Ohio, from Columbus, over U.S. Highway 23 to junction Ohio Highway 423, at or near Waldo, Ohio, and thence over Ohio Highway 423 to Marion, and return over the same route, serving as an alternate route in connection with carrier's presently authorized regular-route operations, serving no intermediate points; and (2) between Marion, Ohio, and Findlay, Ohio, from Marion over Ohio Highway 423 to junction U.S. Highway 23, thence

over U.S. Highway 23 to junction Ohio Highway 15, thence over Ohio Highway 15 to junction U.S. Highway 68, and thence over U.S. Highway 68 to Findlay, and return over the same route, serving as an alternate route in connection with carrier's presently authorized regular-route operations, serving no intermediate points. **NOTE:** If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 52110 (Sub-No. 133), filed January 8, 1973. Applicant: BRADY MOTORFRATE, INC., 2150 Grand Avenue, Des Moines, IA 50312. Applicant's representative: Cecil L. Goettsch, 11th Floor Des Moines Building, Des Moines, Iowa 50309. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Cast iron pipe, fittings and accessories*, from points in Florence and Burlington County, N.J., to points in the United States (except Maine, Vermont, New Hampshire, Connecticut, Rhode Island, New York, Pennsylvania, Maryland, Delaware, Massachusetts, Alaska, and Hawaii). **NOTE:** Applicant states that although the authority could be tacked with authority currently held by applicant to some degree, it has no current intention to tack. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill., or Washington, D.C.

No. MC 52657 (Sub-No. 697), filed January 12, 1973. Applicant: ARCO AUTO CARRIERS, INC., 2140 West 79th Street, Chicago, IL 60620. Applicant's representatives: S. J. Zangri (same address as applicant), and A. J. Biebertstein, 121 West Doty Street, Madison, WI 53703. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (A) *Trailers and trailer chassis* (except trailers and trailer chassis designed to be drawn by passenger automobiles), and *trailer converter dollies*, in initial movements, in truckaway service, from points in Bryan County, Okla., to points in the United States (including Alaska, but excluding Hawaii); (B) *Trailers and trailer chassis* (except trailers and trailer chassis designed to be drawn by passenger automobiles), and *trailer converter dollies*, in secondary movements, in truckaway service, and *trash carts, motor vehicle bodies, hoists* (including portable truck cranes, freight gates, lift gates, tail gates, and winches), *packers, portable loading ramps, containers, and materials, supplies* (except commodities in bulk) and *parts* used in the manufacture, assembly or servicing of the commodities described in (A) and (B), above, when moving with such commodities, between points in Bryan County, Okla., on the one hand, and, on the other, points in the United States (including Alaska, but excluding Hawaii). **NOTE:** Applicant states that the requested authority duplicates that authority it presently holds in No. MC-52657 (Sub-No. 655) from Durant, Okla., to transport bodies, hoists (including power gates and lift gates), steel containers, trailers, trailer chassis (except those designed to be drawn by passenger automobiles), in

initial movements, in truckaway service, and materials, supplies and parts used in the manufacture, assembly and servicing of the commodities described above, when moving in mixed loads with such commodities, to Gallon and Lima, Ohio, and Kansas City and St. Louis, Mo. Applicant further states that the requested authority cannot or will not be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C., or Chicago, Ill.

No. MC 63417 (Sub-No. 47), filed January 15, 1973. Applicant: BLUE RIDGE TRANSFER COMPANY, INCORPORATED, 1814 Hollins Road, NW., Post Office Box 2888, Roanoke, VA 24001. Applicant's representative: Nancy Pyeatt, 420 Executive Building, 1030 15th Street NW., Washington, DC 20005. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Plastic products* used in the manufacture of new furniture, from the plantsites of Southeastern Kuson, Inc., at or near Gaffney and Greenville, S.C., to Altavista, Galax, Kenbridge, Richmond, Roanoke, Staunton, Waynesboro, and points in Pulaski County, Va. **NOTE:** Applicant states that the requested authority can be tacked with its existing authority at MC 63417 (Sub-No. 5) which authorizes transportation of general commodities (with usual exceptions) from points in Virginia to Rockymount, Va., but applicant has no present intentions to tack. If a hearing is deemed necessary, applicant requests it be held at Sumter, S.C., or Washington, D.C.

No. MC 66129 (Sub-No. 8), filed January 19, 1973. Applicant: HUGHES BROS. TRANSPORTATION COMPANY, INC., 113 Metropolitan Avenue, Brooklyn, NY 11211. Applicant's representative: Arthur J. Piken, One Lefrak City Plaza, Flushing, NY 11368. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Printing ink*, in bulk, in tank vehicles, from Chicago, Ill., and Louisville, Ky., to Philadelphia, Pa., New York, N.Y., Glen Burnie, Md., Lodi, N.J., Providence, R.I., Hoboken N.J., and Atglen, Pa. **NOTE:** Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at New York, N.Y.

No. MC 71035 (Sub-No. 1), filed January 19, 1973. Applicant: W. T. GIBSON TRANSPORTATION, INC., 216 Southwest Boulevard, Kansas City, MO 64108. Applicant's representative: Jim E. Lee (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel articles and iron and steel products*, between ports of navigable portions of the Arkansas and Verdigris Rivers and their navigable tributaries on the one hand, and, on the other, points in Alabama, Arizona, Arkansas, California, Colorado, Florida, Georgia, Idaho, Iowa, Kansas, Louisiana,

Mississippi, Missouri, Montana, Nebraska, Nevada, New Mexico, North Dakota, Oklahoma, Oregon, South Dakota, Tennessee, Texas, Utah, Washington, and Wyoming. **NOTE:** Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Tulsa, Okla., or Kansas City, Mo.

No. MC 73165 (Sub-No. 318), filed January 22, 1973. Applicant: EAGLE MOTOR LINES, INC., 830 North 33d Street, Post Office Box 11086, Birmingham, AL 35202. Applicant's representative: Carl U. Hurst, Post Office Box E, Bowling Green, KY 42101. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Compactors, material handling equipment and parts, attachments, accessories and supplies*, between Enterprise, Ala., on the one hand, and, on the other, points in Alabama, Florida, Georgia, North Carolina, South Carolina, Mississippi, Louisiana, and Texas. **NOTE:** Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Birmingham, Ala., or Washington, D.C.

No. MC 75320 (Sub-No. 162), filed January 31, 1973. Applicant: CAMPBELL SIXTY-SIX EXPRESS, INC., Post Office Box 807, Springfield, MO 65801. Applicant's representative: John A. Crawford, 700 Petroleum Building, Post Office Box 22567, Jackson, MS 39205. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities*, except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, (1) between Fort Worth over U.S. Highway 80 and Interstate Highway 20 to Jackson, and return over the same route, serving the intermediate point of Dallas, Tex., also serving Monroe, La., for purposes of joinder only. Restriction: The authority described above is restricted against the transportation of traffic originating at, destined to, or interchanged with connecting carriers at Atlanta, Ga., Birmingham and Mobile, Ala., and points within the commercial zones of each as defined by the Commission, (2) between Monroe, La., and intersection of U.S. Highways 165 and 82, at or near Montrose, Ark., as an alternate route for operating convenience only, from Monroe over U.S. Highway 165 to its intersection with U.S. Highway 82, at or near Montrose, Ark., and return over the same route, serving no intermediate points. Restriction: The authority described above is restricted to the transportation of traffic originating at, destined to, or interchanged with connecting carriers at points in Mississippi. **NOTE:** Common control may be involved. Applicant states no duplicating authority is sought. If a hearing is deemed necessary, applicant requests it be held at Dallas, Tex., or Jackson, Miss.

## NOTICES

No. MC 83217 (Sub-No. 60), filed January 8, 1973. Applicant: DAKOTA EXPRESS, INC., 1614 North Cliff, Post Office Box 1252, Sioux Falls, SD 57101. Applicant's representative: Henry J. Schuette (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Foodstuffs*, from the distribution center site of Heinz U.S.A. Division, H. J. Heinz at Iowa City, Iowa, and the plantsite and storage facilities of Heinz U.S.A. Division at Muscatine, Iowa, to points in Minnesota, North Dakota, and South Dakota. **NOTE:** Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill., Pittsburgh, Pa., or Minneapolis, Minn.

No. MC 83539 (Sub-No. 362), filed January 29, 1973. Applicant: C & H TRANSPORTATION CO., INC., 1936-2010 West Commerce Street, Post Office Box 5976, Dallas, TX 75222. Applicant's representative: Thomas E. James (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Plastic pipe*, from Pueblo West, Colo., to points in California, Colorado, Idaho, Iowa, Kansas, Missouri, Montana, Nebraska, Nevada, New Mexico, North Dakota, Oklahoma, Oregon, South Dakota, Texas, Utah, Washington, and Wyoming. **NOTE:** Common control may be involved. Applicant states that the requested authority can be tacked with its present authority but does not indicate the points or territories which could be served through such tacking. Persons are cautioned that failure to oppose the application may result in an unrestricted grant of authority. If a hearing is deemed necessary, applicant requests it be held at Denver, Colo.

No. MC 92633 (Sub-No. 22), filed January 8, 1973. Applicant: ZIRBEL TRANSPORT, INC., 420 28th Street N., Lewiston, ID 83501. Applicant's representative: Donald A. Eriksen, 708 Old National Bank Building, Spokane, Wash. 99201. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *General commodities*, in cargo containers either unmounted or mounted on chassis, between Portland, Ore., Seattle and Tacoma, Wash., and points on the Columbia and Snake Rivers in Benton, Franklin, Walla Walla, Columbia, Garfield, Asotin, and Whitman Counties, Wash., and Nez Perce County, Idaho, on the one hand, and, on the other points in Benton, Franklin, Walla Walla, Columbia, Garfield, Asotin, Whitman, Spokane, Adams, and Grant Counties, Wash.; and Idaho, Lewis, Nez Perce, Clearwater, Latah, Benewah, and Kootenai Counties, Idaho; and (2) on return, *empty containers* either unmounted or mounted on chassis, each movement having a prior or subsequent movement by water. **NOTE:** Common control may be involved. Applicant states that the

requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at either Spokane or Seattle, Wash.; Boise, Idaho, or Portland, Ore.

No. MC 95876 (Sub-No. 132), filed January 8, 1973. Applicant: ANDERSON TRUCKING SERVICE, INC., 203 Cooper Avenue N., St. Cloud, MN 56301. Applicant's representative: Val M. Higgins, 1000 First National Bank Building, Minneapolis, Minn. 55402. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Wood pallets, wood crating and related materials* used in the manufacture and distribution of wood pallets and wood crating, from Aitkin and Staples, Minn., to points in Illinois, Iowa, and Wisconsin. **NOTE:** Common control may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Minneapolis, Minn.

No. MC 97879 (Sub-No. 2), filed February 1, 1973. Applicant: BAB TRANSFER, INC., Clinton Street Extension, Springfield, Mass. 01101. Applicant's representative: David M. Marshall, 135 State Street, Suite 200, Springfield, MA 01103. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives and household goods as defined by the Commission), between points in Massachusetts. **NOTE:** Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Hartford, Conn., Boston, Mass., or Albany, N.Y.

No. MC 104430 (Sub-No. 36), filed January 22, 1973. Applicant: CAPITAL TRANSPORT COMPANY, INC., Post Office Box 408, Highway 24 West, McComb, MS 39648. Applicant's representative: Donald B. Morrison, 717 Deposit Guaranty Bank Building, Jackson, Miss. 39205. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum and petroleum products* (except liquefied petroleum gases) in bulk, in tank vehicles, from Chalmette, La., to points in Mississippi. **NOTE:** Applicant states that minor tacking possibilities exist with its existing authority, however it has no present intention to tack and therefore does not identify the points or territories which could be served through such tacking. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. If a hearing is deemed necessary, applicant requests it be held at Jackson, Miss., or Memphis, Tenn.

No. MC 106674 (Sub-No. 105), filed January 15, 1973. Applicant: SCHILLI MOTOR LINES, INC., Post Office Box 122, Delphi, IN 46923. Applicant's representative: Edward G. Bazelon, 39 South La Salle Street, Chicago, IL

60603. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Building and roofing materials, insulating materials, fire brick and pipe and pipe fittings*, from Rockdale and Waukegan, Ill., to points in Indiana on and south of U.S. Highway 30; points in Ohio bounded by a line beginning at the Ohio-Indiana State line and extending along U.S. Highway 30 to junction U.S. 30-N, thence along U.S. Highway 30-N to junction U.S. Highway 23, thence along U.S. Highway 23 to junction U.S. Highway 50, thence along U.S. Highway 50 to the Ohio-West Virginia State line near Parkersburg, W. Va., thence along the Ohio River to the Ohio-Indiana State line to point of beginning, including points on the indicated portions of the highways specified, and points in Kentucky, Missouri, and Tennessee. **NOTE:** Applicant states that the requested authority cannot or will not be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 106674 (Sub-No. 106), filed January 22, 1973. Applicant: SCHILLI MOTOR LINES, INC., Post Office Box 122, Delphi, IN 46923. Applicant's representative: Allan C. Zuckerman, 39 South La Salle Street, Chicago, IL 60603. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Canned goods*, from Trafalgar, Ind. to points in Illinois, Ohio, West Virginia, Michigan, Kentucky, Tennessee, and Missouri. **NOTE:** Applicant states that the requested authority cannot or will not be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 106920 (Sub-No. 46), filed January 31, 1973. Applicant: RIGGS FOOD EXPRESS, INC., Post Office Box 26, West Monroe Street, New Bremen, OH 45869. Applicant's representative: Carroll V. Lewis, Post Office Box 717, Sidney, OH 45365. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Frozen foods*, from Wellston, Ohio, to points in Alabama, Florida, Georgia, North Carolina, South Carolina, Tennessee, Maine, New Hampshire, Massachusetts, Connecticut, Rhode Island, New York, New Jersey, Maryland, Delaware, Virginia, West Virginia, Vermont, Pennsylvania, Indiana, Illinois, Michigan, Missouri, Wisconsin, Minnesota, Iowa, and the District of Columbia, and points in the counties of Wyandotte, Johnson, and Leavenworth, Kans. **NOTE:** Common control may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Memphis, Tenn., or Washington, D.C.

No. MC 107002 (Sub-No. 430), filed January 12, 1973. Applicant: MILLER TRANSPORTERS, INC., Post Office Box 1123, U.S. Highway 80 West, Jackson, MS 39205. Applicant's representative:

John J. Borth, Post Office Box 8573, Jackson, MS 39204. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Petroleum and petroleum products*, except liquefied petroleum gases, in bulk, in tank vehicles, from Chalmette and Meraux, La., to points in Mississippi. **NOTE:** Applicant states that the requested authority can be tacked with its existing authority but indicates that it has no present intention to tack and therefore does not identify the points or territories which can be served through tacking. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. If a hearing is deemed necessary, applicant requests it be held at Jackson, Miss., or New Orleans, La.

No. MC 107496 (Sub-No. 872), filed December 4, 1972. Applicant: RUAN TRANSPORT CORPORATION, Third and Keosauqua Way, Des Moines, Iowa 50309. Applicant's representative: Henry L. Fabritz, Post Office Box 855, Des Moines, IA 50304. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Petroleum products*, in bulk, from the terminal facilities of Jebro, Inc., at or near Sioux City, Iowa, to points in Nebraska, South Dakota, and Minnesota. **NOTE:** Common control may be involved. Applicant states that the requested authority can be tacked with its existing authority but indicates that it has no present intention to tack and therefore does not identify the points or territories which can be served through tacking. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. If a hearing is deemed necessary, applicant requests it be held at Kansas City, Kans., or Chicago, Ill.

No. MC 107496 (Sub-No. 873), filed December 7, 1972. Applicant: RUAN TRANSPORT CORPORATION, Third and Keosauqua Way, Des Moines, Iowa 50309. Applicant's representative: Henry L. Fabritz, Post Office Box 855, Des Moines, IA 50309. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Chemicals*, in bulk, from points in the Kansas City, Kans.-Mo. commercial zone to points in Alabama, Arkansas, Colorado, Illinois, Iowa, Kansas, Louisiana, Minnesota, Missouri, Montana, Michigan, Nebraska, New Mexico, North Dakota, Oklahoma, South Dakota, Texas, Wisconsin, Wyoming, Kentucky, Ohio, and Indiana. **NOTE:** Common control may be involved. Applicant states

that the requested authority can be tacked with its existing authority but indicates that it has no present intention to tack and therefore does not identify the points or territories which can be served through tacking. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. If a hearing is deemed necessary, applicant requests it be held at Kansas City, Mo., or Chicago, Ill.

No. MC 107496 (Sub-No. 874), filed December 8, 1972. Applicant: RUAN TRANSPORT CORPORATION, Third and Keosauqua Way, Des Moines, Iowa 50309. Applicant's representative: Henry L. Fabritz, Post Office Box 855, Des Moines, IA 50304. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Petroleum products*, in bulk, from the terminal facilities of Jebro, Inc., at or near Sioux City, Iowa, to points in Nebraska, South Dakota, and Minnesota. **NOTE:** Common control may be involved. Applicant states that the requested authority can be tacked with its existing authority but indicates that it has no present intention to tack and therefore does not identify the points or territories which can be served through tacking. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. If a hearing is deemed necessary, applicant requests it be held at Kansas City, Kans., or Chicago, Ill.

No. MC 107496 (Sub-No. 876), filed December 27, 1972. Applicant: RUAN TRANSPORT CORPORATION, Third and Keosauqua Way, Des Moines, Iowa 50309. Applicant's representative: Henry L. Fabritz, Post Office Box 855, Des Moines, IA 50304. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Printing ink*, in bulk, from Kansas City, Mo., to points in Arkansas, Colorado, Iowa, Kansas, Minnesota, Missouri, Nebraska, North Dakota, Oklahoma, South Dakota, Wisconsin, and Wyoming. **NOTE:** Common control may be involved. Applicant states that the requested authority duplicates the authority it presently holds in No. MC-107496 (Sub-No. 110) to transport petroleum products to Iowa and Nebraska, and by tacking, to most of the other named destination States. Applicant further states that the requested authority can be tacked with its existing authority but indicates that it has no present intention to tack and therefore does not identify the points or territories which can be served through tacking. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. If a hearing is deemed necessary, applicant requests it be held at Kansas City, Mo., or Chicago, Ill.

No. MC 107544 (Sub-No. 110), filed January 9, 1973. Applicant: LEMMON

TRANSPORT COMPANY, INCORPORATED, Post Office Box 580, Marion, VA 24354. Applicant's representative: Harry C. Ames, Jr., 666 11th Street NW., Washington, DC 20001. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Fuel oils*, in bulk, from Baltimore, Md., to points in Spotsylvania and Warren Counties, Va. **NOTE:** Applicant holds contract carrier authority under MC 113959 and Sub 2, therefore, dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C., or Roanoke, Va.

No. MC 108393 (Sub-No. 65), filed January 12, 1973. Applicant: SIGNAL DELIVERY SERVICE, INC., 930 North York Road, Hinsdale, IL 60521. Applicant's representative: J. A. Kundtz, 1100 National City Bank Building, Cleveland, Ohio 44114. Authority sought to operate as a contract carrier, by motor vehicle, over irregular routes, transporting: *Parts of electrical and gas appliances, and equipment, materials and supplies* used in the manufacture, distribution and repair of electrical and gas appliances, between Allegan, Berrien Springs, Charlotte, Dowagiac, Grand Haven, Hartford, Muskegon, South Haven, and Sturgis, Mich., on the one hand, and, on the other, Findlay, Ohio, under a continuing contract or contracts with Whirlpool Corp. **NOTE:** Common control and dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 108393 (Sub-No. 66), filed January 12, 1973. Applicant: SIGNAL DELIVERY SERVICE, INC., 930 North York Road, Hinsdale, IL 60521. Applicant's representative: J. A. Kundtz, 1100 National City Bank Building, Cleveland, Ohio 44114. Authority sought to operate as a contract carrier, by motor vehicle, over irregular routes, transporting: *Parts of electrical and gas appliances, and equipment, materials, and supplies* used in the manufacture, distribution and repair of electrical and gas appliances, between Columbus, Ind.; North Branch, Mich.; and Conneaut, Ohio, on the one hand, and, on the other, Danville, Ky., under a continuing contract or contracts with Whirlpool Corp. **NOTE:** Common control and dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 108393 (Sub-No. 67), filed January 12, 1973. Applicant: SIGNAL DELIVERY SERVICE, INC., 930 North York Road, Hinsdale, IL 60521. Applicant's representative: J. A. Kundtz, 1100 National City Bank Building, Cleveland, Ohio 44114. Authority sought to operate as a contract carrier, by motor vehicle, over irregular routes, transporting: *Parts of electric and gas appliances, and equipment, materials and supplies* used in the manufacture, distribution, and repair of electric and gas appliances, between Holland and Midland, Mich., Peru, Ill., and Harbor Creek, Pa., on the one hand, and,

on the other, Evansville, Ind., under continuing contract or contracts with Whirlpool Corp. **NOTE:** Dual operations and common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 110525 (Sub-No. 1047), filed November 29, 1972. Applicant: CHEMICAL LEAMAN TANK LINES, INC., 520 East Lancaster Avenue, Downingtown, PA 19335. Applicant's representatives: Thomas J. O'Brien (same address as applicant), and Leonard A. Jaskiewicz, 1730 M Street, Suite 501, Washington, DC 20036. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Corn products and blends thereof*, in bulk, from Dayton, Ohio, to points in Alabama, Connecticut, Delaware, Florida, Georgia, Illinois, Indiana, Kentucky, Maine, Maryland, Massachusetts, Michigan, Mississippi, New Hampshire, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, South Carolina, Tennessee, Vermont, Virginia, West Virginia, Wisconsin, and the District of Columbia. **NOTE:** Applicant states that the requested authority can be tacked with its existing authority but indicates that it has no present intention to tack and therefore does not identify the points or territories which can be served through tacking. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. If a hearing is deemed necessary, applicant requests it be held at Columbus, Ohio, or Washington, D.C.

No. MC 111729 (Sub-No. 373), filed January 30, 1973. Applicant: PUROLATOR COURIER CORP., 2 Nevada Drive, Lake Success, NY 11040. Applicant's representatives: John M. Delany (same address as applicant) and Russell S. Bernhard, 1625 K Street NW., Washington, DC 20006. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) *Business papers, records, audit and accounting media of all kinds*, between Westwood, Mass., on the one hand, and, on the other, Derry and Nashua, N.H., and points in Connecticut, Maine, New Jersey, and New York; (2) *external and implantable cardiac pacemakers and related accessories; and business papers, records, audit and an accounting media of all kinds, and advertising material moving therewith*, between Detroit, Mich., on the one hand, and, on the other, points in Indiana and Ohio; (3) *automotive parts and supplies*, restricted against the transportation of packages weighing in the aggregate more than 100 pounds from one consignor to one consignee, on any 1 day; and *business papers, records and audit and accounting material moving therewith*, between Detroit and Plymouth, Mich., on the one hand, and, on the other, points in Indiana and Ohio; and (4) *unprocessed specimens of drugs, pharmaceuticals, blood and other items related to the drug industry and business reports and docu-*

ments, between Cincinnati, Ohio, on the one hand, and, on the other, points in Indiana. **NOTE:** Applicant presently holds a motor contract carrier permit in No. MC-112750 and subs thereunder and dual operations were approved by the Commission in 102 M.C.C. 411. Common control may be involved. Applicant states that the requested authority can be tacked with its existing authority but indicates that it has no present intention to tack and therefore does not identify the points or territories which can be served through tacking. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C., or Detroit, Mich.

No. MC 112617 (Sub-No. 305), filed January 8, 1973. Applicant: LIQUID TRANSPORTERS, INC., 1292 Fern Valley Road, Post Office Box 21395, Louisville, KY 40221. Applicant's representative: L. A. Jaskiewicz, 1730 M Street NW., Suite 501, Washington, DC 20036. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Liquefied petroleum gases*, from the plant site of Columbia Hydrocarbon Corp. at or near Siloam, Ky., to points in Virginia. **NOTE:** Common control may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Louisville, Ky., or Washington, D.C.

No. MC 113495 (Sub-No. 56), filed January 24, 1973. Applicant: GREGORY HEAVY HAULERS, INC., 51 Oldham Street, Post Office Box 60628, Nashville, TN 37206. Applicant's representative: Wilmer B. Hill, 805 McLachlen Bank Building, 666 11th Street NW., Washington, DC 20001. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) *Commodities* which because of size or weight require the use of special equipment; (2) *road construction machinery and equipment*, as described in Appendix VIII to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209; (3) *self-propelled articles* (except automobiles, trucks, and buses, as described in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209); and (4) *parts, attachments and accessories* for the commodities named in (1), (2), and (3) above, between points in Wisconsin, on the one hand, and, on the other, points in Alabama, Arkansas, Florida, Georgia, Kentucky, Louisiana, Mississippi, North Carolina, South Carolina, Tennessee, Virginia, and West Virginia. **NOTE:** Applicant states that the requested authority could be tacked with its Sub 34 in Kentucky to reach points in southern Indiana, southern Illinois, and southern Missouri, but it has no present intention to tack. If a hearing is deemed necessary, applicant requests it be held at either (1) Chicago, Ill.; (2) Milwaukee, Wis.; or (3) Washington, D.C.

No. MC 113855 (Sub-No. 269), filed December 5, 1972. Applicant: INTERNATIONAL TRANSPORT, INC., 2450 Marlboro Road SE., Rochester, MN 55901. Applicant's representative: Alan Foss, 502 First National Bank Building, Fargo, N. Dak. 58102. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) *Commodities which because of size or weight require the use of special equipment, and related machinery parts and related contractors' materials and supplies*, when their transportation is incidental to the transportation of commodities which because of size or weight require the use of special equipment, and *commodities which do not require the use of special equipment when moving on the same shipment or on the same bill of lading as commodities which because of size or weight require the use of special equipment*; and (2) *Self-propelled articles*, each weighing 15,000 pounds or more, and *related machinery, tools, parts, and supplies* moving in connection therewith, restricted to commodities which are transported on trailers, between points in Virginia, Delaware, Maryland, and North Carolina, on the one hand, and, on the other, points in Iowa, Wisconsin, and Illinois. **NOTE:** Applicant presently holds authority to transport machinery between some of the points sought herein, therefore duplicating authority may be involved. Applicant states that the requested authority can be tacked with its authority in No. MC-113855 (Sub-Nos. 84, 147, and 217) to provide service to and from various western States. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill., or Washington, D.C.

No. MC 114211 (Sub-No. 189), filed January 22, 1973. Applicant: WARREN TRANSPORT, INC., 324 Manhard Street, Post Office Box 420, Waterloo, IA 50704. Applicant's representative: Daniel Sullivan, 327 South La Salle, Chicago, IL 60604. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (A) *Agricultural implements, pumps, water systems, component parts for water systems, tanks, and towers, and parts for agricultural implements and pumps*, between Beatrice, Nebr., Springfield, Mo., Morton, Ill., and Amarillo, Tex., on the one hand, and, on the other, points in the United States (except Alaska and Hawaii); (B) *equipment, materials and supplies* used in the manufacture or distribution of the above named commodities (except commodities in bulk), from points in the United States (except Alaska and Hawaii), to Beatrice, Nebr., Springfield, Mo., Morton, Ill., and Amarillo, Tex.; and (C) *experimental and show display agricultural implements, pumps, water systems, component parts for water systems, tanks and towers, and parts for agricultural implements and pumps*, between points in the United States (except Alaska and Hawaii). **NOTE:** Applicant states that the requested authority can be tacked with its existing authority but indicates that it has no present intentions to tack and

therefore does not identify the points or territories which can be served through tacking. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. Applicant further states no duplicating authority sought. If a hearing is deemed necessary, applicant request it be held at Omaha, Nebr., or Kansas City, Mo.

No. MC 114533 (Sub-No. 272), filed January 19, 1973. Applicant: BANKERS DISPATCH CORPORATION, 4970 South Archer Avenue, Chicago, IL 60632. Applicant's representative: Arnold Burke, Suite 1133, 127 North Dearborn, Chicago, IL 60604. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Audit media and other business records*, between Indianapolis, Ind., and Paris, Ill. **NOTE:** Applicant holds contract carrier authority under MC 128616 and Subs thereto, therefore dual operations may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held in Indianapolis, Ind., or Chicago, Ill.

No. MC 114569 (Sub-No. 105), filed January 15, 1973. Applicant: SHAFFER TRUCKING, INC., Post Office Box 418, New Kingstown, PA 17072. Applicant's representative: James W. Hager, Post Office Box 1166, 100 Pine Street, Harrisburg, PA 17108. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Paper, paper products, and wood pulp*, from Calhoun, Tenn., to points in Connecticut, Delaware, Maryland, Massachusetts, New Jersey, New York, Pennsylvania, Rhode Island, Virginia, West Virginia, and the District of Columbia. **NOTE:** Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 114897 (Sub-No. 105), filed January 12, 1973. Applicant: WHITFIELD TANK LINES, INC., 300-316 North Clark, Post Office Drawer 9897, El Paso, TX 79989. Applicant's representative: J. P. Rose (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Titanium solutions*, in bulk, in tank vehicles, from Henderson, Nev., to points in Louisiana. **NOTE:** Common control may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Las Vegas, Nev., or El Paso, Tex.

No. MC 115093 (Sub-No. 10), filed January 12, 1973. Applicant: MERCURY MOTOR EXPRESS, INC., 704 West Kennedy Boulevard, Tampa, FL 33606. Applicant's representatives: Clayton R. Byrd (same address as applicant) and James E. Wharton, 17th Floor, CNA

Building, Post Office Box 231, Orlando, FL 32802. Authority sought to operate as a common carrier, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), (1) between Wilson and Fayetteville, N.C.; From Wilson over U.S. Highway 301 to junction U.S. Highway 70, thence over U.S. Highway 301 to junction U.S. Highway 13, thence over U.S. Highway 13 to Fayetteville, and return over the same route; (2) between Greensboro and Rockingham, N.C.; From Greensboro over U.S. Highway 220 to junction U.S. Highway 1 at Rockingham, and return over the same route; (3) between Petersburg, Va. and Florence, S.C.; From Petersburg over U.S. Highway 1 to junction U.S. Highway 70 at Raleigh, N.C., thence over U.S. Highway 1 to junction U.S. Highway 220 at Rockingham, N.C., thence over U.S. Highway 1 to junction South Carolina Highway 9 at Cheraw, S.C., thence over U.S. Highway 52 to junction U.S. Highway 15 at Society Hill, S.C., thence over U.S. Highway 52 to Florence, and return over the same route;

(4) Between Raleigh and Fayetteville, N.C.; From Raleigh over U.S. Highway 401 to Fayetteville, and return over the same route; (5) between Fayetteville, N.C. and Bradenton, Fla.; Serving Florence, S.C. for purposes of joinder only; and (6) between Bennettsville, S.C. and Columbus, Ga.; Serving Cheraw, S.C. for purposes of joinder only; and serving in (1), (2), (3), and (4) above no intermediate or off-route points except, as pertinent, those points in Virginia presently authorized in carriers regular-route operations. **Restriction:** Restricted to the transportation of traffic moving (a) between points in Connecticut, New Jersey, Pennsylvania, Delaware, Maryland, Virginia, the District of Columbia, and those in that part of New York on and south of New York Highway 7, on the one hand, and, on the other, points in Georgia and Florida, and (b) through Mount Olive, N.C., and points within 15 miles thereof or those in Florence County, S.C. The requests for authority above are for alternative routes or additional service points for operating convenience only in connection with applicant's presently authorized regular-route operations in No. MC-115093. **NOTE:** Applicant states the purpose of this application is to obtain an alternate gateway and certain regular routes for purposes of joinder only. If a hearing is deemed necessary, applicant requests it be held at Tampa or Jacksonville, Fla.

No. MC 115331 (Sub-No. 339), filed January 15, 1973. Applicant: TRUCK TRANSPORT, INCORPORATED, 1931 North Geyer Road, St. Louis, MO 63131. Applicant's representative: J. R. Ferris, 230 St. Clair Avenue, East St. Louis, IL 62201. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Calcium*

*chloride* (except in bulk), from Ludington and Midland, Mich., to points in Missouri, Iowa, Minnesota, Wisconsin, Illinois, Indiana, Tennessee, and Kentucky. **NOTE:** Common control may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 115840 (Sub-No. 85), filed December 15, 1972. Applicant: COLONIAL FAST FREIGHT LINES, INC., 1215 Bankhead Highway, Post Office Box 10327, Birmingham, AL 35202. Applicant's representative: C. E. Wesley (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, household goods and automobile as defined by the commodities in bulk), between points in De Kalb County, Ala., on the one hand, and, on the other, points in the United States (excluding Alaska and Hawaii). **Restriction:** Restricted to traffic originating at and destined to the points indicated. **NOTE:** Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Chattanooga, Nashville, Tenn., or Birmingham, Ala.

No. MC 115841 (Sub-No. 449), filed January 22, 1973. Applicant: COLONIAL REFRIGERATED TRANSPORTATION, INC., 1215 Bankhead Highway West, Birmingham, AL 35204. Applicant's representative: Roger M. Shaner, Post Office Box 168, Concord, TN 37720. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Meats, meat products, meat by-products, and articles distributed by meat packinghouses*, from Sioux City, Iowa and Omaha, Nebr., to points in Florida, Georgia, North Carolina, South Carolina, and Tennessee (restricted to traffic originating at plant-sites of supporting shipper—Needham Packing Co., Inc.). **NOTE:** Applicant states that the requested authority could be tacked with its present authority in its Subs 71, 74, 77, 146, 188, 195, 213, 220, 223, and 265, but does not indicate the points or territories which could be served by such tacking. Persons are cautioned that failure to oppose the application may result in an unrestricted grant of authority. If a hearing is deemed necessary, applicant requests it be held at Omaha, Nebr., Sioux City, Iowa, or Des Moines, Iowa.

No. MC 116073 (Sub-No. 249), filed January 31, 1973. Applicant: BARRETT MOBILE HOME TRANSPORT, INC., 1825 Main Avenue, Post Office Box 919, Moorhead, MN 56560. Applicant's representative: Robert G. Tassar, 1819 Fourth Avenue South, Moorhead, MN 56560. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Trailers* designed to be drawn by passenger automobiles, in initial movements, and buildings in sections mounted on wheeled undercar-

riages, from points in Robeson County, N.C., to points in South Carolina, Virginia, West Virginia, Kentucky, and Tennessee. **NOTE:** Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Raleigh, N.C.

No. MC 116763 (Sub-No. 237), filed January 10, 1973. Applicant: CARL SUBLER TRUCKING, INC., North West Street, Versailles, Ohio 45380. Applicant's representative: H. M. Richters (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Such commodities as are manufactured, processed, or dealt in by Rubber Manufacturers, from Oklahoma City, Okla., to points in Alabama, Georgia, Mississippi, North Carolina, South Carolina, and Tennessee.* **NOTE:** Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Columbus, Ohio.

No. MC 117013 (Sub-No. 2), filed January 1, 1973. Applicant: THOMAS G. BURKHOLDER, 1630 Maine Street, Altoona, PA 16602. Applicant's representative: Henry M. Wick, Jr., 2310 Grant Building, Pittsburgh, Pa. 15219. No. MC 117644 (Sub-No. 32), filed January 16, 1973. Applicant: D & T TRUCKING CO., INC., Post Office Box 2611, New Brighton, MN 55112. Applicant's representative: William J. Boyd, 29 South La Salle Street, Chicago, IL 60603. Authority sought to operate as a contract carrier, by motor vehicle, over irregular routes, transporting: *Dairy products*, from Chicago, Ill., and points in Minnesota and Wisconsin, to points in Ohio and Kentucky, under contract with Land O'Lakes, Inc. **NOTE:** If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill., or Washington, D.C.

No. MC 118831 (Sub-No. 93), filed January 9, 1973. Applicant: CENTRAL TRANSPORT, INCORPORATED, Post Office Box 5044, High Point, NC 27262. Applicant's representative: E. Stephen Heisley, 805 McLachlen Bank Building, 666 11th Street NW., Washington, DC 20001. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Commodities*, in bulk, from the sites of Bulk Distribution Centers, Inc., in Mecklenburg and Union Counties, N.C., to points in Alabama, Florida, Georgia, Kentucky, North Carolina, Ohio, South Carolina, Tennessee, Virginia, and West Virginia, restricted to shipments having a prior movement by rail. **NOTE:** Common control may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 118989 (Sub-No. 90), filed February 1, 1973. Applicant: CONTAINER TRANSIT, INC., 5223 South Ninth Street, Milwaukee, WI 53221. Applicant's representative: Albert A. Andrin, 29 South La Salle Street, Chicago, IL 60603. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *containers, metal or plastic, and parts related thereto*, from points in Milwaukee, Dane, Waukesha, Jefferson, Washington, Dodge, and Racine Counties, Wis., those in St. Louis, Warren, Franklin, Jefferson, and St. Charles Counties, Mo., and those in Cook, Lake, Du Page, Will, and Kane Counties, Ill., to points in Texas, Colorado, Indiana, Kansas, Nebraska, Michigan, Minnesota, Ohio, Tennessee, Kentucky, Pennsylvania, Illinois, Iowa, Missouri, and Wisconsin. **NOTE:** Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill., or Milwaukee, Wis.

No. MC 119302 (Sub-No. 19), filed January 23, 1973. Applicant: MILLER TRANSFER AND RIGGING CO., a corporation, 3917 State Route 183, Edinburg, OH 58227, or Post Office Box 6077, mailing address, Akron, OH 44312. Applicant's representative: A. David Millner, 744 Broad Street, Newark, NJ 07102. Authority sought to operate as a contract carrier, by motor vehicle, over irregular routes, transporting: *Electric tools, lawn*

and garden equipment, and component parts, between the Black & Decker Manufacturing Co. plants at Tarboro and Fayetteville, N.C., Hampstead, Md., and ports of entry on the international boundary line between the United States and Canada, located at or near Ogdensburg and Wellesley Islands, N.Y. Restriction: The operations under the foregoing authority are to be limited to a transportation service to be performed under a continuing contract or contracts with Black & Decker Manufacturing Co., Towson, Md. Note: Applicant holds common carrier authority under MC 87103, therefore dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 119441 (Sub-No. 32), filed January 31, 1973. Applicant: BAKER HI-WAY EXPRESS, INC., Box 484, Dover, OH 44622. Applicant's representative: Richard H. Brandon, 79 East State Street, Columbus, OH 43215. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) Clay building brick and tile, from Columbus, Ohio, to points in Pennsylvania, Delaware, Maryland, New York, New Jersey, Virginia, and the District of Columbia and (2) Materials and supplies used in the manufacture of clay building brick and tile (except bulk commodities) from the above-named destinations to Columbus, Ohio. Note: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Columbus, Ohio.

No. MC 119493 (Sub-No. 98), filed January 11, 1973. Applicant: MONKEM COMPANY, INC., West 20th Street Road, Post Office Box 1196, Joplin, MO 64801. Applicant's representative: Ray F. Kempt (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Canned goods and animal feed, from the plantsites and/or warehouses of Allen Canning Co., located at or near Van Buren and Alma, Ark., to points in Arkansas, Iowa, Illinois, Louisiana, Mississippi, Missouri, Kansas, Nebraska, Oklahoma, North Dakota, South Dakota, Tennessee, and Texas. Note: Applicant states that the requested authority cannot be tacked with its existing authority. No duplicating authority sought. If a hearing is deemed necessary, applicant requests it be held at Little Rock, Ark.

No. MC 119493 (Sub-No. 99), filed January 15, 1973. Applicant: MONKEM COMPANY, INC., West 20th Street Road, Post Office Box 1196, Joplin, MO 64801. Applicant's representative: Ray F. Kempt (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Agricultural chemicals, in containers, from Military, Kans., to points in Illinois, Indiana, Iowa, Michigan, Minnesota, Nebraska, and Wisconsin. Note: Applicant states that

the requested authority cannot be tacked with its existing authority. No duplicating authority sought. If a hearing is deemed necessary, applicant requests it be held at Houston, Tex.

No. MC 119547 (Sub-No. 34), filed January 15, 1973. Applicant: EDGAR W. LONG, INC., Route 4, Zanesville, Ohio 43215. Applicant's representative: Richard H. Brandon, 79 East State Street, Columbus, OH 43215. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Canned dog food, from Corwin, Ohio, to points in Alabama, Delaware, Georgia, Illinois, Indiana, Kentucky, Maryland, Michigan, Mississippi, New Jersey, North Carolina, Pennsylvania, South Carolina, Tennessee, Virginia, Wisconsin, and West Virginia, restricted to traffic originating at the plantsite of The Thorobred Co., Inc., Corwin, Ohio. Note: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Columbus, Ohio.

No. MC 119656 (Sub-No. 13), filed January 18, 1973. Applicant: NORTH EXPRESS, INC., 219 East Main Street, Winamac, IN 46996. Applicant's representative: Donald W. Smith, 900 Circle Tower, Indianapolis, Ind. 46204. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Iron and steel articles, and steel springs (1) from Winamac, Ind., to points in Minnesota, Kentucky, Pennsylvania, Missouri, Iowa, Tennessee, Alabama, Georgia, Oklahoma, Kansas, North Dakota, Texas, and Wisconsin; (2) from Reynolds, Ind., to points in Minnesota, Kentucky, Pennsylvania, Missouri, Iowa, Tennessee, Alabama, Georgia, Oklahoma, Kansas, North Dakota, Texas, Wisconsin, Ohio, New York, New Jersey, Illinois, and the Lower Peninsula of Michigan; and (3) Materials and supplies used in the manufacture of iron and steel articles, and springs, from points in New York to Winamac and Reynolds, Ind. Note: Common control may be involved. The requested authority duplicates, in part, that authority which applicant holds in No. MC-119656 to transport finished and semifinished motor vehicle springs and plow and cultivator parts (other than hand), from Winamac, Ind., to Horicon and La Crosse, Wis. Applicant states that the requested authority cannot or will not be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Indianapolis, Ind., or Chicago, Ill.

No. MC 119777 (Sub-No. 249), filed January 11, 1973. Applicant: LIGON SPECIALIZED HAULER, INC., Post Office Box 1, Madisonville, KY 42431. Applicant's representative: Ronald E. Butler (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Supplies and equipment used in the poultry, egg, and livestock industries, from Athens, Ga.,

to points in the United States (except Alaska and Hawaii). Note: Applicant holds contract carrier authority under MC 126970 and subs, therefore dual operations and common control may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Atlanta, Ga., or Indianapolis, Ind.

No. MC 119789 (Sub-No. 139) (Correction), filed December 29, 1972, published FR issue of February 8, 1973, and republished as corrected this issue. Applicant: CARAVAN REFRIGERATED CARGO, INC., Post Office Box 6188, 1612 East Irving Boulevard, Dallas, TX 75222. Applicant's representative: James K. Newbold, Jr., Post Office Box 6188, Dallas, TX 75222. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Canned and bottled foodstuffs, (1) from Hoopeston and Princeville, Ill., to points in Kansas and Missouri; (2) from St. Francisville, La., to points in Illinois; and (3) from St. Francisville and Belledeau, La., to points in Arkansas, Oklahoma, Missouri, Kansas, Colorado, Utah, Iowa, Nebraska, Wyoming, Minnesota, North Dakota, South Dakota, Montana, and Washington. Note: The purpose of this republication is to add the origin point of Belledeau, La., to item (3) above which was inadvertently omitted from previous publication. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Columbus, Ohio, or Dallas, Tex.

No. MC 119789 (Sub-No. 144), filed December 11, 1972. Applicant: CARAVAN REFRIGERATED CARGO, INC., Post Office Box 6188, 1612 East Irving Boulevard, Dallas, TX 75222. Applicant's representative: James K. Newbold, Jr. (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Playground apparatus, recreational equipment, and sporting goods, from Bossier City, La., to points in Arizona, California, Colorado, Idaho, Montana, Nevada, Oregon, Utah, Washington, and Wyoming. Note: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Shreveport, La., or Dallas, Tex.

No. MC 119789 (Sub-No. 145), filed December 10, 1972. Applicant: CARAVAN REFRIGERATED CARGO, INC., Post Office Box 6188, 1612 East Irving Boulevard, Dallas, TX 75222. Applicant's representative: James K. Newbold, Jr. (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) Adhesives and liquid synthetic plastics, from Columbus, Ohio, to Arkansas, California, and Texas; and (2) materials and supplies used in the manufacture of adhesives and liquid

synthetic plastics, from Arkansas, California, and Texas to Columbus, Ohio. Note: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Columbus, Ohio, or Dallas, Tex.

No. MC 119789 (Sub-No. 146), filed January 22, 1973. Applicant: CARAVAN REFRIGERATED CARGO, INC., Post Office Box 6188, 1612 East Irving Boulevard, Dallas, TX 75222. Applicant's representative: James K. Newbold, Jr. (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Foodstuffs, in containers from Wilson, N.C., to points in Alabama, Florida, Georgia, Illinois, Indiana, Kentucky, Louisiana, Michigan, Mississippi, Missouri, Ohio, and Tennessee. Note: Applicant states that the requested authority can be tacked with its present authority in its Sub 13 at Cade or Lozes, La., to provide through service to points in Arizona, California, Idaho, New Mexico, Nevada, Oregon, Texas, Utah, and Washington. If a hearing is deemed necessary, applicant requests it be held at Lafayette, La., or Dallas, Tex.

No. MC 119903 (Sub-No. 10), filed January 12, 1973. Applicant: D. J. WALRAVEN, Post Office Box 1045, Rome, GA 30161. Applicant's representative: Archie B. Culbreth, Suite 246, 1252 West Peachtree Street NW., Atlanta, GA 30309. Authority sought to operate as a contract carrier, by motor vehicle, over irregular-regular routes, transporting: Aluminum extrusions, aluminum doors and windows, scrap aluminum, paint and chemicals (except in bulk); Irregular route: (1) Between the plantsite of V. E. Anderson Manufacturing Co., at Rome, Ga., on the one hand, and, on the other, points in Alabama, Florida, Georgia, Kentucky, Louisiana, Mississippi, North Carolina, South Carolina, Tennessee, Virginia, and West Virginia; Regular route: (2) From the plantsite of V. E. Anderson Manufacturing Co., at Bradenton, Fla., to the plantsite of V. E. Anderson Manufacturing at Rome, Ga., over Interstate 75 and/or U.S. Highway 41 and 411, serving the intermediate or off-route points of Butler, Chamblee, Cordele, Macon, Moultrie, and Valdosta, Ga., (1) and OP-C-6 (2) above are under contract with V. E. Anderson Manufacturing Co. restricted to movement thereunder to be in shippers own trailers. Note: If a hearing is deemed necessary, applicant requests it be held at Atlanta, Ga.

No. MC 123407 (Sub-No. 116), filed January 18, 1973. Applicant: SAWYER TRANSPORT, INC., U.S. Highway 6, South Haven Square, Valparaiso, Ind. 46383. Applicant's representative: Robert W. Sawyer (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) Windows, screens, doors, building wood-work and materials and accessories used

in the installation thereof, from Bayport, Minn., to points in the United States and east of Montana, Wyoming, Colorado, and New Mexico and (2) materials used in the manufacture and distribution of the above described commodities (except commodities in bulk, in tank vehicles), from the above described destination territory to Bayport, Minn. Note: Common control may be involved. Applicant states that the requested authority can be tacked with its existing authority but indicates that it has no present intention to tack and therefore does not identify the points or territories which can be served through tacking. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. If a hearing is deemed necessary, applicant requests it be held at Minneapolis, Minn., or Washington, D.C.

No. MC 123407 (Sub-No. 118), filed February 2, 1973. Applicant: SAWYER TRANSPORT, INC., South Haven Square, U.S. Highway 6, Valparaiso, Ind. 46383. Applicant's representative: Robert W. Sawyer (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Building, roofing and insulation materials (except iron and steel commodities in bulk) and materials used in the manufacture, installation and distribution thereof, between the plantsites and warehouse facilities of Certain-Teed Products Corp., in Scott County, Minn., on the one hand, and, on the other hand, points in Colorado, Illinois, Indiana, Iowa, Kansas, Kentucky, Michigan, Missouri, Montana, Nebraska, North Dakota, Ohio, South Dakota, Wisconsin, and Wyoming, restricted to traffic originating at or destined to the plantsites and warehouse facilities of Certain-Teed Products Corp., in Scott County, Minn. Note: Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Minneapolis, Minn., or Washington, D.C.

No. MC 124117 (Sub-No. 6), filed January 8, 1973. Applicant: EARL FREEMAN, doing business as, MID-TENN EXPRESS, Post Office Box 101, Eagleville, TN 37060. No. MC 138891, filed November 8, 1972. Applicant: FRED A. PERELLA, 340 39th Street, Pittsburgh, PA 15201. Applicant's representative: Robert McKenzie, 11th Floor, 100 Fifth Avenue, Pittsburgh, PA 15222. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Ice cream cones and wafers, paper drinking cups,*

*straws and containers; plastic drinking cups, straws and containers* and all types of *supplies, materials, and equipment* used in the production of the forementioned products, carriage to be provided other than in bulk, and tank vehicles, between Chicago, Ill.; Baltimore, Md.; Boston, Mass.; Detroit, Mich.; Fair Lawn, N.J.; Brooklyn and Rochester, N.Y.; Charlotte, N.C.; Akron, Canton, Cincinnati, Cleveland, Warren, and Youngstown, Ohio; Pittsburgh, Pa.; Morgantown and Wheeling, W. Va., under contract with Keystone Cone Co., Inc. (Division of Maryland Cup). **NOTE:** If a hearing is deemed necessary, applicant requests it be held at Washington, D.C., or Pittsburgh, Pa.

No. MC 138394, filed January 9, 1973. Applicant: EARL L. CLYMER AND STANLEY D. BRAMMER, a partnership, doing business as B & C TRANSPORT, Route 1, Henderson, Iowa 51541. Applicant's representative: Earl L. Clymer (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Multipurpose goose neck trailers*, from the plantsite and storage facilities of Smith Trailer Co. at or near Shenandoah, Iowa, to points in Arizona, Arkansas, California, Colorado, Florida, Idaho, Illinois, Indiana, Iowa, Kansas, Michigan, Minnesota, Missouri, Montana, Nebraska, Nevada, New Mexico, North Dakota, Ohio, Oklahoma, South Dakota, Texas, Utah, Wisconsin, and Wyoming; (2) *repurchased or repossessed multipurpose goose neck trailers*, from the destination territory named in (1) above, to Shenandoah, Iowa; (3) *travel trailers*, with goose neck connectors, from the plantsite and storage facilities of Klasic Manufacturing Co., Inc., at or near Sedalia, Mo., to Arkansas, Colorado, Illinois, Indiana, Iowa, Kansas, Louisiana, Minnesota, Missouri, Nebraska, Oklahoma, Tennessee, and Texas; and (4) *repurchased or repossessed travel trailers*, with goose neck connectors from the destination States named in (3) above, to Sedalia, Mo. **NOTE:** If a hearing is deemed necessary, applicant requests it be held at Omaha, Nebr., or St. Joseph, Mo.

#### APPLICATION FOR FILING BROKERAGE LICENSE

No. MC 12572 (Sub-No. 3), filed January 22, 1973. Applicant: GEORGE ST. PIERRE, 27 Kent Street, Plainville, CT 06062. Applicant's representative: Thomas W. Murrett, 342 North Main Street, West Hartford, CT 06117. For a license (BMC-5) to engage in operations as a broker at Plainville, Conn., in arranging for the transportation, by motor vehicle, in interstate or foreign commerce, of *Passengers and their baggage*, between points in Hartford and New Haven Counties, Conn., on the one hand, and, on the other, points in Alabama, Connecticut, Delaware, Florida, Georgia, Illinois, Indiana, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Mich-

igan, Mississippi, New Hampshire, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, South Carolina, Tennessee, Vermont, Virginia, West Virginia, Wisconsin, and the District of Columbia.

#### MOTOR CARRIER OF PASSENGER

No. MC 138199 (Sub-No. 1), filed January 17, 1973. Applicant: LEONARD J. MARKOWSKI, doing business as AIR-LINK, Route 3, Box 579, Coeur d'Alene, Idaho 83814. Applicant's representative: Herbert Nagel, Post Office Box 907, Coeur d'Alene, Idaho 83814. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Passengers*, baggage, express, and newspapers, in the same vehicle. Occasional special or charter operations for clubs and groups in Idaho utilizing the Spokane International Airport are anticipated. Operations to be conducted between individual homes and business establishments in Kootenai County, Idaho, and Spokane International Airport, Spokane County, Wash., and return. **NOTE:** If a hearing is deemed necessary, applicant requests it be held at Coeur d'Alene, Idaho, or Spokane, Wash.

#### APPLICATIONS IN WHICH HANDLING WITHOUT ORAL HEARING HAS BEEN REQUESTED

No. MC 56679 (Sub-No. 73), filed December 18, 1972. Applicant: BROWN TRANSPORT CORP., 125 Milton Avenue, Atlanta, GA 30315. Applicant's representative: B. K. McClain (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, class A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment because of size or weight), serving the terminal site of Harper Motor Lines, Inc., at the junction of U.S. Highway 29 and South Carolina Highway 8, near West Pelzer, S.C., serving as an off-route point in connection with applicant's present regular route operations between Elberton, Ga. and Greenville, S.C.

No. MC 113908 (Sub-No. 247) (Correction), filed November 17, 1972, published in the FEDERAL REGISTER issue of December 21, 1972 and January 11, 1973, republished as corrected this issue. Applicant: ERICKSON TRANSPORT CORPORATION, 2105 East Dale Street, Springfield, MO 65804. Applicant's representative: B. B. Whitehead (same address as applicant). **NOTE:** The purpose of this republication is to show that this application has been assigned No. MC 113908 Sub-No. 247 as originally published on December 21, 1972. The rest of the notice remains as previously published.

By the Commission.

## DEPARTMENT OF TRANSPORTATION

## Federal Aviation Administration

[AC 00-2W—Effective December 15, 1972]

## ADVISORY CIRCULAR CHECKLIST AND STATUS OF FEDERAL AVIATION REGULATIONS

1. **Purpose.** This notice contains the revised checklist of current FAA advisory circulars and the status of Federal Aviation Regulations as of December 15, 1972.

2. **Explanation.** The FAA issues advisory circulars to inform the aviation public in a systematic way of nonregulatory material of interest. Unless incorporated into a regulation by reference, the contents of an advisory circular are not binding on the public. Advisory circulars are issued in a numbered-subject system corresponding to the subject areas in the recodified Federal Aviation Regulations (14 CFR Ch. I). This checklist is issued triannually listing all current circulars and now includes information concerning the status of the Federal Aviation Regulations.

## 3. The Circular Numbering System.

a. **General.** The advisory circular numbers relate to the subchapter titles and correspond to the Parts, and when appropriate, the specific sections of the Federal Aviation Regulations. Circulars of a general nature bear a number corresponding to the number of the general subject (subchapter) in the FAR's.

b. **Subject numbers.** The general subject matter areas and related numbers are as follows:

Subject Number and Subject Matter	
00	General.
10	Procedural.
20	Aircraft.
60	Airmen.
70	Airspace.
90	Air Traffic Control and General Operations.
120	Air Carrier and Commercial Operators and Helicopters.
140	Schools and Other Certified Agencies.
150	Airports.
170	Air Navigational Facilities.
180	Administrative.
210	Flight Information.

c. **Breakdown of subject numbers.** When the volume of circulars in a general series warrants a subsubject breakdown, the general number is followed by a slash and a subsubject number. Material in the 150, Airports, series is issued under the following subsubjects:

Number and Subject	
150/1900	Defense Readiness Program.
150/4000	Resource Management.
150/5000	Airport Planning.
150/5100	Federal-aid Airport Program.
150/5150	Surplus Airport Property Conveyance Programs.
150/5190	Airport Compliance Program.
150/5200	Airport Safety—General.
150/5210	Airport Safety Operations (Recommended Training, Standards, Manning).

## NOTICES

150/5220	Airport Safety Equipment and Facilities.
150/5230	Airport Ground Safety System.
150/5240	Civil Airports Emergency Preparedness.
150/5300	Design, Construction, and Maintenance—General.
150/5320	Airport Design.
150/5325	Influence of Aircraft Performance on Aircraft Design.
150/5335	Runway, Taxiway, and Apron Characteristics.
150/5340	Airport Visual Aids.
150/5345	Airport Lighting Equipment.
150/5360	Airport Buildings.
150/5370	Airport Construction.
150/5380	Airport Maintenance.
150/5390	Heliports.

d. **Individual circular identification numbers.** Each circular has a subject number followed by a dash and a sequential number identifying the individual circular. This sequential number is not used again in the same subject series. Revised circulars have a letter A, B, C, etc., after the sequential number to show complete revisions. Changes to circulars have CH 1, CH 2, CH 3, etc., after the identification number on pages that have been changed. The date on a revised page is changed to the effective date of the change.

## 4. The Advisory Circular Checklist.

a. **General.** Each circular issued is listed numerically within its subject-number breakdown. The identification number (AC 120-1), the change number of the latest change, if any, to the right of the identification number, the title, and the effective date for each circular are shown. A brief explanation of the contents is given for each listing.

b. **Omitted numbers.** In some series sequential numbers omitted are missing numbers, e.g., 00-8 through 00-11 have not been used although 00-7 and 00-12 have been used. These numbers are assigned to advisory circulars still in preparation which will be issued later or were assigned to advisory circulars that have been canceled.

c. **Free and sales circulars.** This checklist contains advisory circulars that are for sale as well as those distributed free of charge by the Federal Aviation Administration. Please use care when ordering circulars to ensure that they are ordered from the proper source.

d. **Internal directives for sale.** A list of certain internal directives sold by the Superintendent of Documents is shown at the end of the checklist. These documents are not identified by advisory circular numbers, but have their own directive numbers.

## 5. How to get circulars.

a. When a price is listed after the description of a circular, it means that this circular is for sale by the Superintendent of Documents. When (Sub.) is included with the price, the advisory circular is available on a subscription basis only. After your subscription has been entered by the Superintendent of Documents, supplements or changes to the basic document will be provided automatically at no additional charge until

the subscription expires. When no price is given, the circular is distributed free of charge by FAA.

b. Request free advisory circulars shown without an indicated price from: Department of Transportation, Distribution Unit, TAD 484.3, Washington, D.C. 20590.

NOTE: Persons who want to be placed on FAA's mailing list for future circulars should write to the above address. Be sure to identify the subject matter desired by the subject numbers and titles shown in paragraph 3b because separate mailing lists are maintained for each advisory circular subject series. Checklists and circulars issued in the general series will be distributed to every addressee on each of the subject series lists. Persons requesting more than one subject classification may receive more than one copy of related circulars and this checklist because they will be included on more than one mailing list. Persons already on the distribution list for AC's and changes to FAR's will automatically receive related circulars.

c. Order advisory circulars and internal directives with purchase price given from:

Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402;

or from any of the following bookstores located throughout the United States:

GPO Bookstore, Federal Building, Room 1023, 450 Golden Gate Avenue, San Francisco, CA 94102.
GPO Bookstore, Federal Office Building, Room 1463, 14th Floor, 219 South Dearborn Street, Chicago, IL 60604.
GPO Bookstore, Federal Building, 300 North Los Angeles Street, Los Angeles, CA 90012.
GPO Bookstore, Federal Building, Room 135, 601 East 12th Street, Kansas City, MO 64106.
GPO Bookstore, Room G25, John F. Kennedy Federal Building, Sudbury Street, Boston, MA 02203.
GPO Bookstore, Room 110, 26 Federal Plaza, New York, NY 10007.
GPO Bookstore, Federal Building, U.S. Courthouse, Room 1421, 1661 Stout Street, Denver, CO 80202.
GPO Bookstore, Room 1C46, Federal Building, U.S. Courthouse, 1100 Commerce Street, Dallas, TX 75202.
GPO Bookstore, Room 100, Federal Building, 275 Peachtree Street NE., Atlanta, GA 30303.
GPO Bookstore, Room 102A, 2121 Building, 2121 Eighth Avenue North, Birmingham, AL 35203.
GPO Bookstore, Federal Office Building, 201 Cleveland Avenue SW, Canton, OH 44702.
GPO Bookstore, Room 1015, Federal Office Building, 300 North Los Angeles Street, Los Angeles, CA 90012.

Send check or money order with your order to the Superintendent of Documents. Make the check or money order payable to the Superintendent of Documents in the amounts indicated in the list. Order for mailing to foreign countries should include an additional amount of 25 percent of the total price to cover postage. No c.o.d. orders are accepted.

6. **Reproduction of Advisory Circulars.** Advisory circulars may be reproduced in their entirety or in part without permission from the Federal Aviation Administration.

## NOTICES

7. **Cancellations.** The following advisory circulars are canceled:

AC 00-2V **Advisory Circular Checklist, 8-15-72.** Canceled by AC 00-2W, Advisory Circular Checklist, 12-15-72.  
AC 20-6R **U.S. Civil Aircraft Register, 1-1-72.** Canceled by AC 20-6S, U.S. Civil Aircraft Register, 7-1-72.  
AC 20-7H **General Aviation Inspection Aids, Summary, August 1971.** Canceled by AC 20-7J, General Aviation Inspection Aids, Summary, August 1972.  
AC 20-17A **Surplus Aircraft of the Armed Forces, 3-7-72.** Canceled by AC 20-17B, Surplus Aircraft of the Armed Forces, 10-11-72.

AC 20-36A **Index of Materials, Parts, and Appliances Certified Under the Technical Standard Order System—March 1, 1966.** Canceled by AC 20-36B, Index of Materials, Parts, and Appliances Certified Under the Technical Standard Order System—July 1, 1972, 10-24-72.

AC 20-47 **Airborne VHF Communication System Installations, 3-6-70.** Canceled by AC 20-47A, Airborne VHF Communication System Installations, 10-17-72.

AC 20-79 **National Seminar—Quality Assurance Systems Analysis Review (QASAR) Program, 7-19-72.** Canceled.

AC 20-80 **The Eighth Annual FAA International Aviation Maintenance Symposium, 9-7-72.** Canceled.

AC 21-303-1 **Replacement and Modification Parts, 3-2-66.** Canceled by AC 21-303-1A, Certification Procedures for Products and Parts, 8-10-72.

AC 23-1 **Type Certification Spin Test Procedures, 4-1-64.** Canceled.

AC 33-2 **Aircraft Engine Type Certification Handbook, 3-30-68.** Canceled by AC 33-2A, Aircraft Engine Type Certification Handbook, 6-5-72.

AC 39-6B **Summary of Airworthiness Directives, 5-20-70.** Canceled by AC 39-6C, Summary of Airworthiness Directives, 8-29-72.

AC 61-8B **Instrument Rating (Airplane) Written Test Guide, 4-24-69.** Canceled by AC 61-8C, Instrument Rating (Airplane) Written Test Guide, 5-31-72.

AC 61-12D **Student Pilot Guide, 7-16-70.** Canceled by AC 61-12E, Student Pilot Guide, 3-10-72.

AC 61-30 **Flight Test Guide—Gyroplane, Commercial Pilot, 2-8-68.** Canceled by AC 61-30A, Flight Test Guide—Gyroplane, Private and Commercial, 9-23-72.

AC 61-31 **Gyroplane Pilot Examination Guide, Private and Commercial, 2-9-68.** Canceled by AC 61-31A, Gyroplane Pilot Written Test Guide Private and Commercial, 6-9-72.

AC 61-32 **Private Pilot Written Examination Guide, 8-15-67.** Canceled by AC 61-32A, Private Pilot Written Test Guide, 12-1-71.

AC 61-117-1C **Flight Test Guide—Commercial Pilot, Airplane, 2-7-69.** Canceled by AC 61-117-1D, Flight Test Guide—Commercial Pilot, Airplane, 2-14-72.

AC 65-2A **Airframe and Powerplant Mechanics Certification Guide, 10-12-67.** Canceled by AC 65-2B, Airframe and Powerplant Mechanics Certification Guide, 11-4-71.

AC 65-16 **The Eighth Annual FAA International Aviation Maintenance Symposium, 3-20-72.** Canceled.

AC 70/7460-1A **Obstruction Marking and Lighting, 1-1-72.** Canceled by AC 70/7460-1B, Obstruction Marking and Lighting, 10-1-72.

AC 90-42 **Traffic Advisory Practices at Nontower Airports, 12-9-68.** Canceled by AC 90-42A, Traffic Advisory Practices at Nontower Airports, 8-16-72.

AC 90-44 **Airport Ground Operations During Low Visibility Conditions, 4-25-69.** Canceled.

AC 120-26B **Civil Aircraft Operator Designators, 5-11-71.** Canceled by AC 120-26C, Civil Aircraft Operator Designators, 9-28-72.

AC 140-2F **List of Certificated Pilot Flight and Ground Schools, 7-9-71.** Canceled by AC 140-2G, List of Certificated Pilot Flight and Ground Schools, 9-13-72.

AC 147-2J **Directory of FAA Certificated Aviation Maintenance Technician Schools, 2-4-72.** Canceled by AC 147-2K, Directory of FAA Certificated Aviation Maintenance Technician Schools, 10-14-72.

AC 150/5000-3 **Address List for Regional Airports Divisions and Airport District Offices, 2-29-72.** Canceled by AC 150/5000-3A, Address List for Regional Airports Divisions and Airport District Offices, 7-13-72.

AC 150/5190-3 **Model Airport Zoning Ordinance, 1-16-67.** Canceled by AC 150/5190-3A, Model Airport Hazard Zoning Ordinance, 9-19-72.

AC 150/5300-7A **FAA Policy on Facility Relocations Occasioned by Airport Improvements or Changes, 9-27-71.** Canceled by AC 150/5300-7B, FAA Policy on Facility Relocations Occasioned by Airport Improvements or Changes, 11-8-72.

AC 150/5325-6 **Effects of Jet Blast, 4-15-65.** Canceled by AC 150/5325-6A, Airport Design Standards—Effects and Treatment of Jet Blast, 7-13-72.

AC 150/5345-37B **FAA Specification L-850, Light Assembly Airport Runway Centerline and Touchdown Zone, 1-8-68.** Canceled by AC 150/5345-37C, FAA Specification L-850, Light Assembly Airport Runway Centerline and Touchdown Zone, 6-27-72.

8. **Additions.** The following advisory circulars are added to the list:

AC 00-2W **Advisory Circular Checklist (12-15-72).**

AC 00-35 **Emergency Locator Transmitters—Operational and Maintenance Practices (10-27-72).**

AC 20-6S **U.S. Civil Aircraft Register (7-1-72).**

AC 20-7J **General Aviation Inspection Aids, Summary (August 1972).**

AC 20-7J **Supplement 1, General Aviation Inspection Aids (September 1972).**

AC 20-7J **Supplement 2, General Aviation Inspection Aids (October 1972).**

AC 20-7J **Supplement 3, General Aviation Inspection Aids (November 1972).**

AC 20-7J **Supplement 4, General Aviation Inspection Aids (December 1972).**

AC 20-17B **Surplus Aircraft of the Armed Forces (10-11-72).**

AC 20-36B **Index of Materials, Parts, and Appliances Certified Under the Technical Standard Order System—July 1, 1972 (10-24-72).**

AC 20-59 **Ch-1 Maintenance Inspection Notes for Convair 240, 340/440, 240T, and 340T Series Aircraft (8-24-72).**

AC 20-78 **Maintenance Inspection Notes for McDonnell Douglas DC-8 Series Aircraft (7-11-72).**

AC 21-303-1A **Certification Procedures for Products and Parts (8-10-72).**

AC 33-2A **Aircraft Engine Type Certification Handbook (6-5-72).**

AC 39-6C **Summary of Airworthiness Directives (8-29-72).**

AC 43-13-2 **Ch-12 Acceptable Methods, Techniques, and Practices—Aircraft Alterations (7-26-72).**

AC 45-2 **Identification and Registration Marking (7-7-72).**

AC 61-8C **Instrument Rating (Airplane) Written Test Guide (5-31-72).**

AC 61-12E **Student Pilot Guide (3-10-72).**

AC 61-30A **Flight Test Guide—Gyroplane, Private and Commercial (3-23-72).**

AC 61-31A **Gyroplane Pilot Written Test Guide, Private and Commercial (6-9-72).**

AC 61-32A **Private Pilot Written Test Guide (12-1-71).**

AC 61-52 **1972 Flight Instructor of the Year Award Program (8-24-72).**

AC 61-53 **Crediting of second-in-command Pilot Time Toward the Flight Experience Requirements for Airline Transport Pilot Certificate (8-29-72).**

AC 61-117-1D **Flight Test Guide—Commercial Pilot, Airplane (2-14-72).**

AC 65-2B **Airframe and Powerplant Mechanics Certification Guide (11-4-72).**

AC 65-15 **Airframe and Powerplant Mechanics Airframe Handbook (8-18-72).**

AC 70/7460-1B **Obstruction Marking and Lighting (10-1-72).**

AC 90-42A **Traffic Advisory Practices at Nontower Airports (8-16-72).**

AC 90-61 **Practice Instrument Approaches (6-12-72).**

AC 91-34 **Model Aircraft Operating Standards (7-1-72).**

AC 91-36 **VFR Flight Near Noise-Sensitive Areas (8-7-72).**

AC 120-26C **Civil Aircraft Operator Designators (9-28-72).**

AC 120-29 **Ch-1 Criteria for Approving Category I and Category II Landing Minima for FAR 121 Operators (7-26-72).**

AC 140-2G **List of Certificated Pilot Flight and Ground Schools (9-13-72).**

AC 147-2K **Directory of FAA Certificated Aviation Maintenance Technician Schools (10-14-72).**

AC 150/5000-3A **Address List for Regional Airports Divisions and Airport District Offices (7-13-72).**

AC 150/5100-9 **Engineering Services Under the Airport Development Aid Program (ADAP) (7-1-72).**

AC 150/5190-2A **Ch-1 Exclusive Rights at Airports (10-2-72).**

AC 150/5190-3A **Model Airport Hazard Zoning Ordinance (9-19-72).**

AC 150/5300-7B **FAA Policy on Facility Relocations Occasioned by Airport Improvements or Changes (11-8-72).**

AC 150/5325-6A **Airport Design Standards—Effects and Treatment of Jet Blast (7-13-72).**

AC 150/5345-37C **FAA Specification L-850, Light Assembly Airport Runway Centerline and Touchdown Zone (6-27-72).**

## ADVISORY CIRCULAR CHECKLIST

## Notice

Superintendent of Documents catalogue numbers have been included to aid Superintendent of Documents personnel in processing orders. Please use them when ordering—along with the title and FAA number. To avoid unnecessary delays, do not order single-sales material and subscription-sales material on the same order form, as orders are separated for processing by different departments when they arrive at Superintendent of Documents.

## General

## SUBJECT NO. 00

00-1 **The Advisory Circular System (12-1-62).**

Describes the FAA Advisory Circular System.

00-2W **Advisory Circular Checklist (12-15-72).**

Transmits the revised checklist of current FAA advisory circulars and the status of the Federal Aviation Regulations as of 12-15-72.

## NOTICES

## 00-6 Aviation Weather (5-20-65).

Provides an up-to-date and expanded text for pilots and other flight operations personnel whose interest in meteorology is primarily in its application to flying. Reprinted 1969. (\$4 GPO.) FAA 5.8/2: W 37.

## 00-7 State and Regional Defense Airlift Planning (4-30-64).

Provides guidance for the development of plans by the FAA and other Federal and State agencies for the use of non-air-carrier aircraft during an emergency.

## 00-7 CH 1 State and Regional Defense Airlift Planning (1-5-65).

Provides an example of a State Plan for the Emergency Management of Resources in Appendix 4, and adds new Appendix 9.

## 00-7 CH 2 State and Regional Defense Airlift Planning (2-20-67).

Revises Appendix 6, SCATANA.

## 00-14 Flights by U.S. Pilots Into and Within Canada (4-16-65).

Provides information concerning flights into and within Canada.

## 00-15 Potential Hazard Associated With Passengers Carrying "Anti-Mugger" Spray Devices (8-20-65).

Advises aircraft operators, crewmembers, and others who are responsible for flight safety, of a possible hazard to flight should a passenger inadvertently or otherwise discharge a device commonly known as an "anti-mugger" spray device in the cabin of an aircraft.

## 00-17 Turbulence in Clear Air (12-16-65).

Provides information on atmospheric turbulence and wind shear, emphasizing important points pertaining to the common causes of turbulence, the hazards associated with it, and the conditions under which it is most likely to be encountered.

## 00-21 Shoulder Harness (10-5-66).

Provides information concerning the installation and use of shoulder harnesses by pilots in general aviation aircraft.

## 00-23C Near Midair Collision Reporting (1-20-72).

Advises that the FAA policy on the reporting of near midair collisions, made effective in 1968 (32 F.R. 16539) and continued in effect since that time, will terminate on December 31, 1971, and advises how the reports will be handled after December 31, 1971.

## 00-24 Thunderstorms (6-12-68).

Contains information concerning flights in or near thunderstorms.

## 00-25 Forming and Operating a Flying Club (3-24-69).

Provides preliminary information that will assist anyone or any group of people interested in forming and operating a flying club (\$0.35 GPO.) TD 4.8:F 67.

## 00-26 Definitions of "U.S. National Aviation Standards" (1-22-69).

Inform the aviation community of the approval by the FAA Administrator of a definition of U.S. National Aviation Standards, the need for such standards, and their relationship to the Federal Aviation Regulations.

## 00-27 U.S. National Standard for the IFF Mark X (SIF) Air Traffic Control Radar Beacon System Characteristics (ATCRBS) (1-24-69).

Inform the aviation community of the approval by the FAA Administrator of the U.S. National Aviation Standard for the ATCRBS.

## 00-28 Communications Interference Caused by Sticking Microphone Buttons (8-6-69).

Alerts the industry of communications interference from undesired radiofrequency transmissions.

## 00-29 Airborne Automatic Altitude Reporting Systems (12-9-69).

Provides information regarding the nature and extent of erroneous altitude reporting systems.

## 00-30 Rules of Thumb for Avoiding or Minimizing Encounters with Clear Air Turbulence (3-5-70).

Brings to the attention of pilots and other interested personnel, the "Rule of Thumb" for avoiding or minimizing encounters with clear air turbulence (CAT).

## 00-31 U.S. National Aviation Standard for the VORTAC System (6-10-70).

Inform the aviation community of the establishment and content of the U.S. National Aviation Standard for the VORTAC (VOR-TACAN-DME) System.

## 00-32 Civil Air Patrol and State and Regional Defense Airlift Relationships (7-2-70).

Advises interested persons of the Memorandum of Understanding between CAP and FAA, and provides additional guidance to further improve the use of non-air carrier aircraft in time of national emergency.

## 00-33 Nickel-Cadmium Battery Operational, Maintenance, and Overhaul Practices (8-26-71).

Provides guidelines for more reliable nickel-cadmium battery operation through sound operational and maintenance practices.

## 00-34 Aircraft Ground Handling and Servicing (4-12-72).

Contains information and guidance for the servicing and ground handling of aircraft.

## 00-35 Emergency Locator Transmitters—Operational and Maintenance Practices (10-27-72).

Provides guidelines relative to the licensing, installation, maintenance, and testing of emergency locator transmitters (ELT).

## Procedural

## SUBJECT NO. 10

## 11-1 Airspace Rule-Making Proposals and Changes to Air Traffic Control Procedures (10-28-64).

Emphasizes the need for the early submission of proposals involving airspace rule-making activity or changes to existing procedures for the control of air traffic.

## Aircraft

## SUBJECT NO. 20

## 20-3B Status and Availability of Military Handbooks and ANC Bulletins for Aircraft (5-12-69).

Announces the status and availability of Military Handbooks and ANC Bulletins prepared jointly with FAA.

## 20-5B Plane Sense (1970)

Provides general aviation information for the private aircraft owner.

## 20-6S U.S. Civil Aircraft Register (7-1-72).

Lists all active U.S. civil aircraft by registration number. (\$10 GPO.) TD 4.18/2:970.

## 20-7J General Aviation Inspection Aids, Summary (August 1972).

Provides the aviation community with a uniform means for interchanging service experience that may improve the durability and safety of aeronautical products. Of value to mechanics, operators of repair stations, and others engaged in the inspection, maintenance, and operation of aircraft in general. (\$5, \$6.25 foreign—Sub. GPO.) TD 4.409:9720.

## 20-7J Supplement 1 (September 1972).

## 20-7J Supplement 2 (October 1972).

## 20-7J Supplement 3 (November 1972).

## 20-7J Supplement 4 (December 1972).

## 20-9 Personal Aircraft Inspection Handbook (12-2-64).

Provides a general guide, in simple, nontechnical language, for the inspection of aircraft. Reprinted 1972. (\$1.50 GPO.) FAA 5.8/2:AI 7/2.

## 20-10 Approved Airplane Flight Manuals for Transport Category Airplanes (7-30-63).

Calls attention to the regulatory requirements relating to FAA Approved Airplane Flight Manuals.

## 20-13A Surface-Effect Vehicles (8-28-64).

States FAA policy on surface-effect vehicles (vehicles supported by a cushion of compressed air).

## 20-17B Surplus Aircraft of the Armed Forces (10-11-72).

Sets forth the method of obtaining copies of Federal Aviation Regulations which might be required for certification of surplus military aircraft.

## 20-18A Qualification Testing of Turbojet Engine Thrust Reversers (3-16-66).

Discusses the requirements for the qualification of thrust reversers and sets forth an acceptable means of compliance with the tests prescribed in Federal Aviation Regulations, Part 33, when run under nonstandard ambient air conditions.

## 20-20A Flammability of Jet Fuels (4-9-65).

Gives information on the possibility of combustion of fuel in aircraft fuel tanks.

## 20-23D Interchange of Service Experience—Mechanical Difficulties (2-12-71).

Provides information on the voluntary exchange service experience data used in improving durability and safety of aeronautical products.

## 20-24A Qualification of Fuels, Lubricants, and Additives (4-1-67).

Establishes procedures for the approval of the use of subject materials in certificated aircraft.

## 20-27B Certification and Operation of Amateur-Built Aircraft (4-20-72).

Provides information and guidance concerning certification and operation of amateur-built aircraft, including gliders, free balloons, helicopters, and gyroplanes, and sets forth an acceptable means, not the sole means, of compliance with FAR Part 21 and FAR Part 91.

## 20-28 Nationally Advertised Aircraft Construction Kits (8-7-64).

Explains that using certain kits could render the aircraft ineligible for the issuance of an experimental certificate as an amateur-built aircraft.

## 20-29B Use of Aircraft Fuel Anti-icing Additives (1-18-72).

Provides information on the use of anti-icing additives PFA-55MB and MIL-I-27688 as an acceptable means of compliance with the FARs that require assurance of continuous fuel flow under conditions where ice may occur in turbine aircraft fuel systems.

## 20-30A Airplane Position Lights and Supplementary Lights (4-18-68).

Provides an acceptable means for complying with the position light requirements for airplane airworthiness and acceptable criteria for the installation of supplementary lights on airplanes.

## 20-32A Carbon Monoxide (CO) Contamination in Aircraft—Detection and Prevention (9-13-68).

Inform aircraft owners, operators, maintenance personnel, and pilots of the potential dangers of carbon monoxide contamination and discusses means of detection and procedures to follow when contamination is suspected.

## 20-33 Technical Information Regarding Civil Aeronautics Manuals 1, 3, 4a, 4b, 5, 6, 7, 8, 9, 10, 13, and 14 (2-8-65).

Advises the public that policy information contained in the subject Civil

## NOTICES

Aeronautics Manuals may be used in conjunction with specific sections of the Federal Aviation Regulations.

## 20-34A Prevention of Retractable Landing Gear Failures (4-21-69).

Provides information and suggested procedures to minimize landing accidents involving aircraft having retractable landing gear.

## 20-35B Tie-Down Sense (4-19-71).

Provides information of general use on aircraft tie-down techniques and procedures.

## 20-36B Index of Materials, Parts, and Appliances Certified Under the Technical Standard Order System—July 1, 1972 (10-24-72).

Lists the materials, parts, and appliances for which the Administrator has received statements of conformance under the Technical Standard Order system as of July 1, 1972. Such products are deemed to have met the requirements for FAA approval as provided in Part 37 of the Federal Aviation Regulations.

## 20-37A Aircraft Metal Propeller Blade Failure (4-4-69).

Provides information and suggested procedures to increase service life and to minimize blade failures of metal propellers.

## 20-38A Measurement of Cabin Interior Emergency Illumination in Transport Airplanes (2-8-66).

Outlines acceptable methods, but not the only methods, for measuring the cabin interior emergency illumination on transport airplanes, and provides information as to suitable measuring instruments.

## 20-39 Installation Approval of Entertainment Type Television Equipment in Aircraft (7-15-65).

Presents an acceptable method (but not the only method) by which compliance may be shown with Federal Aviation Regulations 23.431, FAR 25.1309(b), FAR 27.1309(b), or FAR 29.1309(b), as applicable.

## 20-40 Placards for Battery-Excited Alternators Installed in Light Aircraft (8-11-65).

Sets forth an acceptable means of complying with placarding rules in Federal Aviation Regulations 23 and 27 with respect to battery-excited alternator installations.

## 20-41 Replacement TSO Radio Equipment in Transport Aircraft (8-30-65).

Sets forth an acceptable means for complying with rules governing transport category aircraft installations in cases involving the substitution of technical standard order radio equipment for functionally similar radio equipment.

## 20-42 Hand Fire Extinguishers in Transport Category Airplanes and Rotorcraft (9-1-65).

Sets forth acceptable means (but not the sole means) of compliance with cer-

tain hand fire extinguisher regulations in FAR 25 and FAR 29, and provides related general information.

## 20-43B Aircraft Fuel Control (6-8-71).

Alerts the aviation community to the potential hazards of inadvertent mixing or contamination of turbine and piston fuels, and provides recommended fuel control and servicing procedures.

## 20-44 Glass Fiber Fabric for Aircraft Covering (9-3-65).

Provides a means, but not the sole means, for acceptance of glass fiber fabric for external covering of aircraft structure.

## 20-45 Safelying of Turnbuckles on Civil Aircraft (9-17-65).

Provides information on turnbuckle safelying methods that have been found acceptable by the FAA during past aircraft type certification programs.

## 20-46 Suggested Equipment for Gliders Operating Under IFR (9-23-65).

Provides guidance to glider operators on how to equip their gliders for operation under instrument flight rules (IFR), including flight through clouds.

## 20-47 Exterior Colored Band Around Exits on Transport Airplanes (2-8-66).

Sets forth an acceptable means, but not the only means, of complying with the requirement for a 2-inch colored band outlining exits required to be operable from the outside on transport airplanes.

## 20-48 Practice Guide for Decontaminating Aircraft (5-5-66).

The title is self-explanatory.

## 20-49 Analysis of Bird Strike Reports on Transport Category Airplanes (7-27-66).

Provides the results of a statistical study on the frequency of collisions of birds with transport aircraft and the resulting damages.

## 20-51 Procedures for Obtaining FAA Approval of Major Alterations to Type Certificated Products (4-12-67).

Provides assistance to persons who desire to obtain FAA approval of major alterations to type certificated products.

## 20-52 Maintenance Inspection Notes for Douglas DC-6/7 Series Aircraft (8-24-67).

Describes maintenance inspection notes which can be used for the maintenance support of certain structural parts of DC-6/7 series aircraft.

## 20-53 Protection of Aircraft Fuel System Against Lightning (10-6-67).

Sets forth acceptable means, not the sole means, by which compliance may be shown with fuel system lightning protection airworthiness regulations.

## 20-54 Hazards of Radium-Activated Luminous Compounds Used on Aircraft Instruments (10-24-67).

Provides information concerning health hazards associated with the repair

and maintenance of instruments containing luminous markings activated with radium-226 or radium-228 (mesothorium).

**20-55 Turbine Engine Overhaul Standard Practices Manual—Maintenance of Fluorescent Penetrant Inspection Equipment (1-22-68).**

Advises operators of the necessity for periodic checking of black light lamps and filters used during fluorescent penetrant inspection of engine parts.

**20-56 Marking of TSO-C72a Individual Flotation Devices (1-19-68).**

Outlines acceptable methods for marking individual flotation devices which also serve as seat cushions.

**20-57A Automatic Landing Systems (ALS) (1-12-71).**

Sets forth an acceptable means of compliance, but not the only means, for the installation approval of automatic landing systems in transport category aircraft which may be used initially in Category II operations. Approval of these aircraft for use under such conditions will permit the accumulation of data for systems which may be approved for Category IIIa in the future.

**20-58A Acceptable Means of Testing Automatic Altitude Reporting Equipment for Compliance With FAR 91.36(b) (4-28-69).**

Title is self-explanatory.

**20-59 Maintenance Inspection Notes for Convair 240, 340/440, 240T, and 340T Series Aircraft (2-19-68).**

Describes maintenance inspection notes which can be used for the maintenance support of certain structural parts of Convair 240, 340/440, 240T, and 340T series aircraft.

**20-59 CH-1 (8-24-72).**

Provides additional material for Convair Models 240 and 600/240D; Models 340/440 and 640/340D/440D series aircraft Maintenance inspection programs.

**20-60 Accessibility to Excess Emergency Exits (7-18-68).**

Sets forth acceptable means of compliance with the "readily accessible" provisions in the Federal Aviation Regulations dealing with excess emergency exits.

**20-61 Nondestructive Testing for Aircraft (May 1969).**

Reviews the basic principles underlying nondestructive testing. (\$0.45 GPO.) TD 4.8:T28

**20-62A Eligibility, Quality, and Identification of Approved Aeronautical Replacement Parts (6-16-70).**

Provides information relative to the determination of the eligibility of aeronautical parts and materials for installation on certificated aircraft.

**20-63 Airborne Automatic Direction Finder Installations (Low and Medium Frequency) (7-7-69).**

Sets forth one means, but not the only means, of demonstrating com-

pliance with the airworthiness rules governing the functioning of airborne automatic direction finders. It does not pertain to installations previously approved.

**20-64 Maintenance Inspection Notes for Lockheed L-188 Series Aircraft (8-1-69).**

Describes maintenance inspection notes which can be used for the maintenance support of certain structural parts of Lockheed L-188 series aircraft.

**20-65 U.S. Airworthiness Certificates and Authorizations for Operation of Domestic and Foreign Aircraft (8-11-69).**

Provides general information and guidance concerning issuance of airworthiness certificates for U.S. registered aircraft, and issuance of special flight authorizations for operation in the United States of foreign aircraft not having standard airworthiness certificates issued by the country of registry.

**20-66 Vibration Evaluation of Aircraft Propellers (1-29-70).**

Outlines acceptable means, but not the sole means, for showing compliance with the requirements of the FARs concerning propeller vibration.

**20-67A Airborne VHF Communication System Installations (10-17-72).**

Sets forth one means, but not the only means, of demonstrating compliance with the airworthiness rules governing the functioning of airborne VHF communication systems.

**20-68 Recommended Radiation Safety Precautions for Airborne Weather Radar (3-11-70).**

Sets forth recommended radiation safety precautions for ground operation of airborne weather radar.

**20-69 Conspicuity of Aircraft Instrument Malfunction Indicators (5-14-70).**

Provides design guidance information on methods of improving conspicuity of malfunction indication devices.

**20-71 Dual Locking Devices on Fasteners (12-8-70).**

Provides guidance and acceptable means, not the sole means, by which compliance may be shown with the requirements for dual locking devices on removable fasteners installed in rotorcraft and transport category airplanes.

**20-72 Restricted Category Helicopter Maximum Weight Increases (3-11-71).**

Provides assistance to persons who desire to obtain FAA approval of over-maximum certificated takeoff weight condition for restricted category helicopter operations.

**20-73 Aircraft Ice Protection (4-21-71).**

Provides information relating to the substantiation of ice protection systems on aircraft.

**20-74 Aircraft Position and Anticollision Light Measurements (7-29-71).**

Contains useful information concerning measurements for intensity, covering and color of aircraft position and anticollision lights.

**20-76 Maintenance Inspection Notes for Boeing B-707/720 Series Aircraft (10-21-71).**

Provides maintenance inspection notes which can be used for the maintenance support program for certain structural parts of the B-707/720 series aircraft.

**20-77 Use of Manufacturers' Maintenance Manuals (3-22-72).**

Inform owners and operators about the usefulness of manufacturers' maintenance manuals for servicing, repairing, and maintaining aircraft, engines, and propellers.

**20-78 Maintenance Inspection Notes for McDonnell Douglas DC-8 Series Aircraft (7-11-72).**

Provides maintenance inspection notes which can be used for the maintenance support program for certain structural parts of the DC-8 series aircraft.

**21-1A Production Certificates (7-9-71).**

Provides information concerning Subpart G of Federal Aviation Regulations (FAR) Part 21, and sets forth acceptable means of compliance with its requirements.

**21-2B Export Airworthiness Approval Procedures (10-2-69).**

Announces the adoption of new regulations and provides guidance to the public regarding the issuance of export airworthiness approvals for aeronautical products to be exported from the United States.

**21-2B CH 1 (11-13-70).**

**21-2B CH 2 (2-8-71).**

**21-3 Basic Glider Criteria Handbook (1962).**

Provides individual glider designers, the glider industry, and glider operating organizations with guidance material that augments the glider airworthiness certification requirements of the Federal Aviation Regulations. Reprinted 1969. (\$1 GPO.) FAA 5.8/2:G49/962.

**21-4B Special Flight Permits for Operation of Overweight Aircraft (7-30-69).**

Furnishes guidance concerning special flight permits necessary to operate an aircraft in excess of its usual maximum certificated takeoff weight.

**21-5B Summary of Supplemental Type Certificates (Announcement of Availability) (2-10-71).**

Announces the availability to the public of a new edition of the Summary of Supplemental Type Certificates (SSTC), dated January 1971.

**21-6 Production Under Type Certificate Only (5-26-67).**

Provides information concerning Subpart F of FAR Part 21, and sets forth

examples, when necessary, of acceptable means of compliance with its requirements.

**21-7A Certification and Approval of Import Products (11-24-69).**

Provides guidance and information relative to U.S. certification and approval of import aircraft, aircraft engines and propellers that are manufactured in a foreign country with which the United States has an agreement for the acceptance of those products for export and import.

**21-8 Aircraft Airworthiness; Restricted Category; Certification of Aircraft With Uncertificated or Altered Engines or Propellers (5-21-69).**

Sets forth acceptable means of substantiating that uncertificated or altered engines and propellers have no unsafe features for type certification of aircraft in the restricted category.

**21-9 Manufacturers Reporting Failures, Malfunctions, or Defects (12-30-70).**

Provides information to assist manufacturers of aeronautical products (aircraft, aircraft engines, propellers, appliances, and parts) in notifying the Federal Aviation Administration of certain failures, malfunctions, or defects, resulting from design or quality control problems, in the products which they manufacture.

**21-10 Flight Recorder Underwater Locating Device (5-20-71).**

Provides one acceptable means (not the only means) of showing compliance with the underwater locating device requirements of FAR 25.1459 and FAR 121.343.

**21-11 Quality Assurance Systems Analysis Review (QASAR) Program Manufacturers/Suppliers (5-26-72).**

Explains the objectives and concept of the FAA's subject program.

**21-25-1 Use of Restricted Category Airplanes for Glider Towing (4-20-65).**

Announces that glider towing is now considered to be a special purpose for type and airworthiness certification in the restricted category.

**21-303-1A Certification Procedures for Products and Parts (8-10-72).**

Provides information concerning section 21.303 of Federal Aviation Regulations, Part 21, and to set forth examples, as necessary, of acceptable means of compliance with its requirements.

**23.1329-1 Automatic Pilot Systems Approval (Non-Transport) (12-23-65).**

Sets forth an acceptable means by which compliance with the automatic pilot installation requirements of FAR 23.1329 may be shown.

**25-2 Extrapolation of Takeoff and Landing Distance Data Over a Range of Altitude for Turbine-Powered Transport Aircraft (7-9-64).**

Sets forth acceptable means by which compliance may be shown with the requirements in CAR 4b and SR-422B.

**25-4 Inertial Navigation Systems (INS) (2-18-66).**

Sets forth an acceptable means for complying with rules governing the installation of inertial navigation systems in transport category aircraft.

**25-5 Installation Approval on Transport Category Airplanes of Cargo Unit Load Devices Approved as Meeting the Criteria in NAS 3610 (6-3-70).**

Sets forth an acceptable means, but not the sole means, of complying with the requirements of the Federal Aviation Regulations (FARs) applicable to the installation on transport category airplanes of cargo unit load devices approved as meeting the criteria in NAS 3610.

**25.253-1 High-Speed Characteristics (11-24-65).**

Sets forth an acceptable means by which compliance may be shown with FAR 25.253 during certification flight tests.

**25.253-1 CH 1 (1-10-66).**

Provides amended information for the basic advisory circular.

**25.981-1A Guidelines for Substantiating Compliance With the Fuel Tank Temperature Requirements (1-20-71).**

Sets forth some general guidelines for substantiating compliance with fuel tank temperature airworthiness standards, section 25.981.

**25.1329-1A Automatic Pilot System Approval (7-8-68).**

Sets forth an acceptable means by which compliance with the automatic pilot installation requirements of FAR 25.1329 may be shown.

**25.1457-1A Cockpit Voice Recorder Installations (11-3-69).**

Sets forth one acceptable means of compliance with provisions of FAR 25.1457 (b), (e), and (f) pertaining to area microphones, cockpit voice recorder location, and erasure features.

**29-1 Approval Basis for Automatic Stabilization Equipment (ASE) Installations in Rotorcraft (12-26-63).**

Gives means for compliance with flight requirements in various CAR's.

**29-1 CH 1 (3-26-64).**

Transmits revised information about the time delay of automatic stabilization equipment.

**29.773-1 Pilot Compartment View (1-19-66).**

Sets forth acceptable means, not the sole means, by which compliance with FAR 29.773(a) (1), may be shown.

**33-1B Turbine-Engine Foreign Object Ingestion and Rotor Blade Containment Type Certification Procedures (4-22-70).**

Provides guidance and acceptable means, not the sole means, by which compliance may be shown with the design and construction requirements of Part 33 of the Federal Aviation Regulations.

**33-2A Aircraft Engine Type Certification Handbook (6-5-72).**

Contains guidance relating to type certification of aircraft engines which will constitute acceptable means, although not the sole means, of compliance with the Federal Aviation Regulations.

**33-3 Turbine and Compressor Rotors Type Certification Substantiation Procedures (9-9-68).**

Sets forth guidance and acceptable means, not the sole means, by which compliance may be shown with the turbine and compressor rotor substantiation requirements in FAR Part 33.

**37-2 Test Procedures for Maximum Allowable Airspeed Indicators (12-9-68).**

Provides guidance concerning test procedures which may be used in showing compliance with the standards in FAR 37.145 (TSO-C46a).

**37-3 Radio Technical Commission for Aeronautics Document DO-138 (1-10-69).**

This circular announces RTCA Document DO-138 and discusses how it may be used in connection with technical standard order authorizations.

**39-1A Jig Fixtures; Replacement of Wing Attach Angles and Doublers on Douglas Model DC-3 Series Aircraft Airworthiness Directive 66-18-2 (3-5-70).**

Describes methods of determining that jig fixtures used in the replacement of the subject attached angles and doublers meet the requirements of Airworthiness Directive 66-18-2.

**39-6C Summary of Airworthiness Directives (8-29-72).**

Announces the availability of a new Summary of Airworthiness Directives dated January 1, 1972.

**43-1 Matching VHF Navigation Receiver Outputs With Display Indicators (8-2-65).**

Alerts industry to the possibility of mismatching outputs, both guidance and flag alarm, of certain VHF navigation receivers when used with some types of display indicators causing the receiver to fail without providing a flag alarm.

**43-2 Minimum Barometry for Calibration and Test of Atmospheric Pressure Instruments (9-10-65).**

Sets forth guidance material which may be used to determine the adequacy of barometers used in the calibration of aircraft static instruments and presents

information concerning the general operation, calibration, and maintenance of such barometers.

#### 43.9-1B Instruction for Completion of FAA Form 337 (6-27-66).

Provides instructions for completing revised FAA Form 337, Major Repair and Alteration (Airframe, Powerplant, Propeller or Appliance).

#### 43.13-1 Acceptable Methods, Techniques and Practices—Aircraft Inspection and Repair (5-16-66).

Contains methods, techniques, and practices acceptable to the Administrator for inspection and repair to civil aircraft. Published in 1965. (\$3-Sub. GPO.) FAA 5.15:965.

Subscription now includes: Ch. 1 (5-1-67); Ch. 2 (8-9-67); Ch. 3 (1-24-68); Ch. 4 (1-29-68); Ch. 5 (9-20-68); Ch. 6 (5-1-69); Ch. 7 (6-12-69); Ch. 8 (6-11-70 and 10-22-70).

#### 43.13-2 Acceptable Methods, Techniques, and Practices—Aircraft Alterations (4-19-66).

Contains methods, techniques, and practices acceptable to the Administrator in altering civil aircraft. Published in 1965. (\$2-Sub. GPO.) FAA 5.16:965.

Subscription now includes: Ch. 1 (1-12-67); Ch. 2 (5-26-67); Ch. 3 (6-26-67); Ch. 4 (9-12-67); Ch. 5 (11-9-67); Ch. 6 (4-12-68); Ch. 7 (5-12-69); Ch. 8 (10-29-69); Ch. 9 (10-19-70); Ch. 10 (1-20-71); Ch. 11 (8-11-71); Ch. 12 (7-26-72).

#### 43-202 Maintenance of Weather Radar Radomes (6-11-65).

Provides guidance material useful to repair facilities in the maintenance of weather radar radomes.

#### 43-203A Altimeter and Static System Tests and Inspections (6-6-67).

Specifies acceptable methods for testing altimeter and static system. Also, provides general information on test equipment used and precautions to be taken.

#### 45-2 Identification and Registration Marking (7-7-72).

Provides guidance and information concerning the identification and marking requirements of Federal Aviation Regulations (FAR) Parts 21 and 45, and, where considered helpful, to provide an acceptable means, but not the sole means, of compliance with the regulations.

#### 47-1 Aircraft Registration Eligibility, Identification and Activity Report (2-25-70).

Advises owners and operators of U.S. civil aircraft of recent regulatory changes that require the annual submission of current information related to aircraft registration eligibility, and requests similar submission of information related to identification and activity of aircraft; and to call attention to the availability of the reporting form to be used in complying with this regulatory change.

## NOTICES

### Airmen SUBJECT NO. 60

#### 60-1 Know Your Aircraft (6-12-63).

Describes potential hazards associated with operation of unfamiliar aircraft and recommends good operating practices.

#### 60-2J Annual Aviation Mechanic Safety Awards Program (3-20-72).

Provides the details of the annual Aviation Mechanic Safety Awards Program.

#### 60-4 Pilot's Spatial Disorientation (2-9-65).

Acquaints pilots flying under visual flight rules with the hazards of disorientation caused by the loss of reference with the natural horizon.

#### 60-6 FAA Approved: Airplane Flight Manuals, Placards, Listings, Instrument Markings—Small Airplanes (12-13-68).

Alerts pilots to the regulatory requirements relating to the subject and provides information to aid pilots to comply with the provisions of FAR section 91.31.

#### 60-7 Statement of Additional Instruction for Retest (1-27-72).

Announces a new procedure for the use of a computer printed "Statement of Additional Instruction" on each Airman Written Test Report that has an unsatisfactory grade for any section. It explains the statement and strongly recommends its use.

#### 61-1D Aircraft Type Ratings (5-15-72).

Provides designators adopted by the Federal Aviation Administration for aircraft type ratings issued with pilot certificates.

#### 61-2A Private Pilot (Airplane) Flight Training Guide (9-1-64).

Contains a complete private pilot flight training syllabus which consists of 30 lessons. Reprinted in 1972. (\$1.50 GPO.) FAA 5.8/2:P 64/4/964.

#### 61-3B Flight Test Guide—Private Pilot—Airplane—Single Engine (4-2-68).

Assists the private pilot applicant in preparing for his certification flight test. Reprinted in 1969. (\$0.25 GPO.) TD 4.408:P 64/2.

#### 61-4C Multiengine Airplane Class or Type Ratings—Flight Test Guide (2-1-71).

Assists the private pilot applicant in preparing for certification or rating flight tests. Reprinted in 1972. (\$0.40 GPO.) TD 4.408:M 91.

#### 61-5A Helicopter Pilot Written Test Guide—Private—Commercial (8-14-67).

Gives guidance to applicants preparing for the aeronautical knowledge requirements for a private or commercial pilot certificate with a helicopter rating.

#### 61-8C Instrument Rating (Airplane) Written Test Guide (5-31-72).

Reflects the current operating procedures and techniques in a background setting appropriate for applicants preparing for the subject test. (\$1.25 GPO.) TD 4.8:In 7/4.

#### 61-9 Pilot Transition Courses for Complex Single-Engine and Light Twin-Engine Airplanes (6-16-64).

Provides training syllabuses and check-out standards for pilots who seek to qualify on additional types of airplanes. Reprinted in 1972. (\$0.20 GPO.) FAA 5.8/2:P 64/7.

#### 61-10 Private and Commercial Pilots Refresher Courses (9-1-64).

Provides a syllabus of ground instruction periods and training lessons. Reprinted in 1969. (\$0.25 GPO.) FAA 5.8/2:P 64/9.

#### 61-11A Airplane Flight Instructor Written Test Guide (9-5-67).

Provides information to prospective airplane flight instructors about certification requirements, application procedures, and reference study materials; a sample examination is presented with explanations of the correct answers. Reprinted in 1969. (\$0.70 GPO.) TD 4.408:In 7.

#### 61-12E Student Pilot Guide (3-10-72).

Provides guidance for prospective student pilots and for those already engaged in their primary flight training, general procedures for obtaining student and private pilot certificates. (\$0.20 GPO.) TD 4.8:P 64/3/970.

#### 61-13 Basic Helicopter Handbook (1-20-66).

Provides detailed information to applicants preparing for private, commercial, and flight instructor pilot certificates with a helicopter rating about helicopter aerodynamics, performance, and flight maneuvers. It will also be useful to certificated helicopter flight instructors as an aid in training students. Reprinted in 1972. (\$1 GPO.) FAA 5.8/2:H 36.

#### 61-14A Flight Instructor Practical Test Guide (10-23-69).

Provides assistance to the certificated pilot in preparing for the practical demonstration required for the issuance of the flight instructor certificate. Reprinted in 1972. (\$0.25 GPO.) TD 4.408:In 7/4.

#### 61-16A Flight Instructor's Handbook (10-14-69).

Gives guidance and information to pilots preparing to apply for flight instructor certificates, and for use as a reference by flight instructors. (\$2 GPO.) Reprinted in 1972. TD 4.408:In 7/3.

#### 61-17B Flight Test Guide—Instrument Pilot Airplane (1-12-72).

Provides assistance for the instrument pilot applicant in preparing for his instrument rating flight test. (\$0.25 GPO.) TD 4.408:In 7/2.

#### 61-18C Airline Transport Pilot (Airplane) Written Test Guide (4-19-71).

Reflects current operating procedures and techniques in a background setting appropriate for applicants preparing for the Airline Transport Pilot (Airplane) Written Test. (\$0.75 GPO.) Reprinted in 1972. TD 4.408:P 64/3.

#### 61-19 Safety Hazard Associated With Simulated Instrument Flights (12-4-64).

Emphasizes the need for care in the use of any device restricting visibility while conducting simulated instrument flights that may also restrict the view of the safety pilot.

#### 61-21 Flight Training Handbook (1-11-66).

Provides information and direction in the introduction and performance of training maneuvers for student pilots, pilots requalifying or preparing for additional ratings, and flight instructors. Reprinted in 1969. (\$1.25 GPO.) FAA 1.8:P 64/4.

#### 61-23A Pilot's Handbook of Aeronautical Knowledge (7-10-70).

Contains essential, authoritative information used in training and guiding applicants for private pilot certification, flight instructors, and flying school staffs. (\$4 GPO.) TD 4.408:P 64/5.

#### 61-25 Flight Test Guide—Helicopter, Private and Commercial Pilot (12-7-65).

Assists the helicopter pilot applicant in preparing for the certification flight tests; provides information concerning applicable procedures and standards. Published in 1965. (\$0.10 GPO.) FAA 1.8:H 36/2.

#### 61-27B Instrument Flying Handbook (9-22-70).

Provides the pilot with basic information needed to acquire an FAA instrument rating. It is designed for the reader who holds at least a private pilot certificate and is knowledgeable in all areas covered in the "Pilot's Handbook of Aeronautical Knowledge." (\$2.50 GPO.) TD 4.2/8:In 7/972.

#### 61-28A Commercial Pilot Written Test Guide (4-28-70).

Reflects current operating procedures and techniques for the use of applicants in preparing for the Commercial Pilot-Airplane Written Test. (\$1.50 GPO.) TD 4.408:P 64/4.

#### 61-29A Instrument Flight Instructor Written Test Guide (10-16-70).

Reflects current operating procedures, regulations, and techniques for the use of applicants in preparing for the Flight Instructor Instrument Written Test. (\$0.50 GPO.) TD 4.8:In 7/5.

#### 61-30A Flight Test Guide—Gyroplane, Private and Commercial (3-23-72).

Assist the commercial and private pilot applicant in preparing for his gyroplane test. (\$0.30 GPO.) FAA 5.8/2:G 99/2/966.

## NOTICES

#### 61-31A Gyroplane Pilot Written Test Guide, Private and Commercial (6-9-72).

Provides guidance and assistance to applicants who are preparing for the Private or Commercial Pilot Gyroplane Written Test. Covers the basic aeronautical knowledge that the prospective gyroplane pilot must know.

#### 61-32A Private Pilot Written Test Guide (12-1-71).

Provides information, guidelines, and sample test items to assist applicants for the Private Pilot Certificate in attaining necessary aeronautical knowledge. (\$1.75 GPO.) TD 4.408:P 64.

#### 61-33 Gyroplane Flight Instructor Examination Guide (3-25-66).

Assists applicants who are preparing for the Flight Instructor Rotorcraft Gyroplane Written Examination. Revised in 1968.

#### 61-34A Federal Aviation Regulations Written Test Guide for Private, Commercial and Military Pilots (6-18-70).

Outlines the scope of the basic knowledge required of civilian or military pilots who are studying FARs as they pertain to the Regulations terminology; to the certification of private and commercial pilots; to the operation of aircraft in the national airspace; and to the requirements of the National Transportation Safety Board. For use as a guide in preparing for the FAR Written Test. (\$0.40 GPO.) TD 4.8:P 64.

#### 61-38 Rotorcraft Helicopter Written Test Guide (8-16-67).

Gives guidance to applicants preparing for the aeronautical knowledge requirement for a flight instructor certificate with a helicopter rating.

#### 61-39 Flight Test Guide, Private and Commercial Pilot—Glider (8-28-67).

Assists applicants for private and commercial pilot flight tests in gliders.

#### 61-41A Glider Flight Instructor Written Test Guide (1-12-72).

Provides information, guidelines, and sample test items, to assist applicants for the Glider Flight Instructor rating in attaining necessary aeronautical knowledge.

#### 61-42 Airline Transport Pilot (Helicopter) Written Test Guide (11-7-67).

Provides guidance to applicants preparing for the Airline Transport Pilot Rotorcraft/Helicopter (VFR and/or IFR) Written Tests. Describes the type and scope of required aeronautical knowledge covered by the written test. (\$0.35 GPO.) TD 4.408:H 36.

#### 61-43A Glider Pilot Written Test Guide—Private and Commercial (1-12-72).

Provides information, guidelines, and sample test items, to assist applicants for the Glider Pilot Certificate in attaining necessary aeronautical knowledge.

#### 61-45 Instrument Rating (Helicopter) Written Test Guide (1-24-68).

Assists applicants who are preparing for the helicopter instrument rating. Presents a study outline, study materials and a sample test with answers.

#### 61-46 Flight Instructor Procedures (6-4-69).

Informs flight instructors of the procedures involved in the renewal or reinstatement of Flight Instructor Certificates, qualification for "Gold Seal" certificates, and endorsing student pilot logbooks for various operations.

#### 61-47 Use of Approach Slope Indicators for Pilot Training (9-16-70).

Informs pilot schools, flight instructors and student pilots of the recommendation of the Federal Aviation Administration on the use of approach slope indicator systems for pilot training.

#### 61-49 Airline Transport Pilot—Airplane Practical Test Guide (8-9-71).

Describes the practical test requirements for Airline Transport Pilot Certificates (Airplane) and associated class and type ratings. (\$0.25 GPO.) TD 4.408: Ai 7 4.

#### 61-50 Aerial Applicator Aerodynamics Review of "Region of Reversed Command" (2-7-72).

Provided for the purpose of increasing pilot awareness of the aerodynamic limitations pertinent to aerial applicator operations.

#### 61-51 Reporting Flight Time on Pilot Applications, FAA Form 8420-3 (6-26-72).

Advises applicants of the importance of entering their pilot flight time on subject form. (OBM No. 04-R0064.)

#### 61-52 1972 Flight Instructor of the Year Award Program (8-24-72).

Provides the details of the 1972 Flight Instructor of the Year Award Program.

#### 61-53 Crediting of Second in Command Pilot Time Toward the Flight Experience Requirements for Airline Transport Pilot Certificate (8-29-72).

Clarifies the rules governing the crediting of second in command pilot time toward the flight experience required for the issuance of an Airline Transport Pilot Certificate.

#### 61-117-1D Flight Test Guide—Commercial Pilot, Airplane (2-14-72).

Assists the commercial applicant in preparing for his certification flight test. (\$0.20 GPO.) TD 4.8:P 64/2/969.

#### 63-1B Flight Engineer Written Test Guide (10-22-70).

Provides information to prospective flight engineers and others interested in this certification area. Contains information about certification requirements and describes the type and scope of the written test. Lists appropriate study and reference material and presents sample questions similar to those found in the official written tests. (\$0.50 GPO.) TD 4.8:En 3/971.

### 63-2A Flight Navigator Written Test Guide (4-4-69).

Defines the scope and narrows the field of study to the basic knowledge required for the Flight Navigator Certificate. Published in 1969. (\$0.40 GPO.) TD 4.8:F 64.2.

### 65-2B Airframe and Powerplant Mechanics Certification Guide (11-4-71).

Provides information to prospective airframe and powerplant mechanics and other persons interested in FAA certification of aviation mechanics. (\$0.65 GPO.) TD 4.8:A1 7/6/971.

### 65-4A Aircraft Dispatcher Written Test Guide (8-16-68).

Describes the type and scope of aeronautical knowledge covered by the aircraft dispatcher written examination, lists reference materials, and presents sample questions. Published in 1969. (\$0.50 GPO.) TD 4.8:A1 7/12.

### 65-5 Parachute Rigger Certification Guide (6-19-67).

Provides information on how to apply for a parachute rigger certificate or rating and assists the applicant in preparing for the written, oral, and practical tests. Reprint in 1970. (\$0.25 GPO.) TD 4.8:P 21.

### 65-9 Airframe and Powerplant Mechanics—General Handbook (8-26-70).

Designed as a study manual for persons preparing for a mechanic certificate with airframe or powerplant ratings. Emphasis in this volume is on theory and methods of application, and is intended to provide basic information on principles, fundamentals, and airframe and powerplant ratings. Reprinted in 1972. (\$6 GPO.) TD 4.408:A1 7/2.

### 65-11A Airframe and Powerplant Mechanics Certification Information (4-21-71).

Provides answers to questions most frequently asked about Federal Aviation Administration certification of aviation mechanics. (\$0.20 GPO.) TD 4.8:A1:7/219-71.

### 65-12 Airframe and Powerplant Mechanics Powerplant Handbook (9-25-70).

Designed to familiarize student mechanics with the construction, theory of operation, and maintenance of aircraft powerplants. (\$3.75 GPO.) TD 4.408:A1 7/3.

### 65-13 FAA Inspection Authorization Directory (12-14-70).

Provides a new directory of all FAA certificated mechanics who hold an inspection authorization as of the effective date shown above.

### 65-15 Airframe and Powerplant Mechanics Airframe Handbook (9-18-72).

Designed to familiarize student mechanics with airframe construction, repair, and the operating theory of airframe systems. (\$4 GPO.) TD 4.408:A1 7/5.

### 65.95-2B Handbook and Study Guide for Aviation Mechanics Inspection Authorization (10-9-70).

This handbook gives guidance to persons conducting annual and progressive inspections and approving major repairs or alterations of aircraft. While the handbook is primarily intended for mechanics holding or preparing for an Inspection Authorization, it may be useful to aircraft manufacturers and certificated repair stations who have these privileges.

Airspace  
SUBJECT No. 70

### 70/7460-1B Obstruction Marking and Lighting (10-1-72).

Describes FAA standards on obstruction marking and lighting and establishes the methods, procedures, and equipment types for both aviation red and high intensity white obstruction lights.

### 70/7460-2C Proposed Construction or Alteration of Objects that may Affect the Navigable Airspace (9-16-71).

Advises those persons proposing to erect or alter an object that may affect the navigable airspace of the requirement to submit a notice to the Administrator of the Federal Aviation Administration (FAA).

### 70/7460-3 Petitioning the Administrator for Discretionary Review; Section 77.37, FAR (8-8-68).

Revises and updates information concerning the submission of petitions to the Administrator for review, extension, or revision of determinations issued by regional directors or their designees.

### 73-1 Establishment of Alert Areas (3-11-68).

Announces the establishment of alert areas and sets forth the procedures which FAA will follow in establishing such areas.

Air Traffic Control and General Operations  
SUBJECT No. 90

### 90-1A Civil Use of U.S. Government Produced Instrument Approach Charts (4-10-68).

Clarifies landing minimums requirements and revises instrument approach charts.

### 90-5 Coordination of Air Traffic Control Procedures and Criteria (6-13-63).

States Air Traffic Service policy respecting coordination of air traffic procedures and criteria with outside agencies and/or organizations.

### 90-12 Severe Weather Avoidance (4-15-64).

Provides information regarding air traffic control assistance in avoiding severe weather conditions.

### 90-14A Altitude—Temperature Effect on Aircraft Performance (1-26-68).

Introduces the Denalt Performance Computer and reemphasizes the hazard-

ous effects density altitude can have on aircraft.

### 90-19 Use of Radar for the Provision of Air Traffic Control Services (10-29-64).

Advises the aviation community of FAA practice in the use of radar information to provide air traffic control services.

### 90-20 Weather Radar Radomes (11-12-64).

Highlights some important points to consider in the selection and maintenance of weather radar radomes.

### 90-22C Automatic Terminal Information Service (ATIS) (2-2-71).

Provides updated information concerning the operation of Automatic Terminal Information Service.

### 90-23C Wake Turbulence (5-16-72).

Alerts pilots to the hazards of trailing vortex wake turbulence and recommends avoidance procedures.

### 90-31 Retention of Flight Service Station (FSS) Civil Flight Plans and Related Records (7-1-67).

Establishes new retention periods for flight plans, preflight briefings logs, visual flight rule flight progress strips, and related records with FSS's.

### 90-32 Radar Capabilities and Limitations (8-15-67).

Advises the aviation community of the inherent capabilities and limitations of radar systems and the effect of these factors on the service provided by air traffic control (ATC) facilities.

### 90-34 Accidents Resulting from Wheelbarrowing in Tricycle Gear Equipped Aircraft (2-27-68).

Explains "wheelbarrowing", the circumstances under which it is likely to occur, and recommended corrective action.

### 90-36 The Use of Chaff as an In-Flight Emergency Signal (5-22-68).

Advises of the value and proper usage of chaff to alert radar controllers to the presence of an aircraft in distress which has a two-way radio failure.

### 90-38A Use of Preferred IFR Routes (12-29-69).

Outlines the background, intent, and requested actions pertaining to the use of preferred IFR routes.

### 90-41C Revised Standard Instrument Departure/Arrival Procedures (4-13-72).

Describes the revised Standard Instrument Departure (SID) and Standard Terminal Arrival Route (STAR) program which basically eliminates the ability to file STAR's in a flight plan and informs pilots that altitudes and airspeeds will no longer be embedded within the body of a STAR.

### 90-42A Traffic Advisory Practices at Nontower Airports (8-16-72).

Establishes, as good operating practices, procedures for pilots to be ap-

prised of or exchange traffic information, when approaching or departing uncontrolled airports.

### 90-43C Operations Reservations for High-Density Traffic Airports (11-14-71).

Advises the aviation community of the means for all aircraft operators, except helicopters, scheduled and supplemental air carriers and scheduled air taxis, to obtain a reservation to operate to and/or from designated high-density traffic airports.

### 90-45 Approval of Area Navigation Systems for Use in the U.S. National Airspace System (8-18-69).

Provides guidelines for implementation of area navigation (RNAV) within the National Airspace System (NAS).

### 90-45 CH-I (10-20-70).

Deletes certain items found to be in excess of minimum requirements and clarifies certain other items.

### 90-47 Abbreviated Instrument Flight Rules Departure Clearance (3-18-70).

Provides guidance to pilots and operators for participation in the Abbreviated IFR Departure Clearance Program.

### 90-48 Pilots' Role in Collision Avoidance (3-20-70).

Alerts all pilots to the midair collision and near midair collision hazard and to emphasize those basic problem areas of concern, as related to the human causal factors, where improvements in pilot education, operating practices, procedures, and techniques are needed to reduce mid-air conflicts.

### 90-50 Air Traffic Control Radio Frequency Assignment Plan for VFR and IFR Communications (9-29-70).

Describes the civil air traffic control assignment of frequencies in the very high frequency (118-136 MHz) band.

### 90-51 FAA Motion Picture—"Caution—Wake Turbulence" (11-17-70).

Announces the availability of a new wake turbulence film and encourages its viewing.

### 90-54 Cruise Clearances (5-25-71).

Provides the aviation community guidance when operating under a "cruise" clearance.

### 90-55 Identification of Air Taxi Operations for Air Traffic Counting (8-31-71).

Informs air taxi and commercial operators (ATCO), certificated under the provisions of Federal Aviation Regulations, Part 135, that they now fall under a separate category for air traffic counting purposes and outlines air traffic identification procedures to be used.

### 90-58 VOR Course Errors Resulting from 50KHz Channel Selection (2-16-72).

Provides information concerning a potentially hazardous situation when a VOR receiver is tuned 50KHz from the ground station frequency.

### 90-59 Arrival and Departure Handling of High-Performance Aircraft (2-28-72).

Describes ATC handling of high performance aircraft in terminal areas.

### 90-60 Weather Observation Reporting Obscured or Partially Obscured Sky Condition (3-31-72).

Provides pilots with information concerning weather conditions reported by weather observers as obscuration or partial obscuration.

### 90-61 Practice Instrument Approaches (6-12-72).

Advises the aviation community of measures to achieve more organized and controlled operations where practice instrument approaches are conducted.

### 91-3 Acrobatic Flight (9-30-63).

Sets safe operating practices for the conduct of acrobatic flight operations.

### 91-5B Waivers of Subpart B, Part 91 of the Federal Aviation Regulations (FARs) (1-28-72).

Provides information concerning the submission of applications for and the issuance of waivers of Subpart B, FAR Part 91.

### 91-6 Water, Slush, and Snow on the Runway (1-21-65).

Provides background and guidelines concerning the operation of turbojet aircraft with water, slush, and/or snow on the runway.

### 91-7 Hazards Associated With In-Flight Use of "Visible-Fluid" Type Cigarette Lighters (3-16-65).

Discusses the potential hazards associated with in-flight use of "visible-fluid" type cigarette lighters.

### 91-8A Use of Oxygen by General Aviation Pilots/Passenger (8-11-70).

Provides general aviation personnel with information concerning the use of oxygen.

### 91-9 Potential Hazards Associated With Turbojet Ground Operations (6-19-65).

Alerts turbojet operators and flight crews to potential hazards involving turbojet operations at airports.

### 91-10A Suggestions for Use of ILS Minima by General Aviation Operators of Turbojet Airplanes (10-8-65).

Provides general aviation operators of turbojet airplanes with information on practices and procedures to be considered before utilizing the lowest published IFR minima prescribed by FAR Part 97 and provides information on pilot-in-command experience, initial and recurrent pilot proficiency, and airborne airplane equipment.

### 91-11A Annual Inspection Reminder (12-3-69).

Provides the aviation community with a uniform visual reminder of the date an annual inspection becomes due. (Reference section 91.169(a)(1) of the FAR's.)

### 91.11-1 Guide to Drug Hazards in Aviation Medicine (7-19-63).

Lists all commonly used drugs by pharmacological effect on airmen with side effects and recommendations. Reprinted 1970. (\$0.50 GPO.) FAA 7.9:D 84.

### 91-12B Required Inspection for Aircraft Operating Under FAR Parts 121, 123, 127, or 135 and Reverting to General Operation Under FAR Part 91 (12-9-70).

Describes acceptable methods for complying with the required inspections set forth in FAR Part 91.

### 91-13A Cold Weather Operation of Aircraft (1-2-70).

Provides background and guidelines relating to operation of aircraft in the colder climates where wide temperature changes may occur.

### 91-14B Altimeter Setting Sources (10-1-71).

Provides the aviation public, industry, and FAA field personnel with guidelines for setting up reliable altimeter setting sources.

### 91-15 Terrain Flying (2-2-67).

A pocket-size booklet designed as a tool for the average private pilot. Contains a composite picture of the observations, opinions, warnings, and advice from veteran pilots who have flown this vast land of ours that can help to make flying more pleasant and safer. Tips on flying into Mexico, Canada, and Alaska. (\$0.55 GPO.) TD 4.2:T 27.

### 91-16 Category II Operations—General Aviation Airplanes (8-7-67).

Sets forth acceptable means by which Category II operations may be approved in accordance with FAR Parts 23, 25, 61, 91, 97, and 135.

### 91-17 The Use of View Limiting Devices on Aircraft (2-20-68).

Alerts pilots to the continuing need to make judicious and cautious use of all view limiting devices on aircraft.

### 91-21 Inspection Schedule—for Handley-Page Model HP-137 (4-24-69).

Provides information for use by persons planning to develop an inspection schedule for the Handley-Page Model HP-137 aircraft.

### 91-22A Altitude Alerting Devices/Systems (12-23-71).

Provides guidelines for designing, installing, and evaluating altitude alerting systems.

### 91-23 Pilot's Weight and Balance Handbook (5-6-69).

Provides an easily understood text on aircraft weight and balance for pilots who need to appreciate the importance of weight and balance control for safety of flight. Progresses from an explanation of basic fundamentals to the complete application of weight and balance principles in large aircraft operations. Reprinted in 1972 (\$1.25 GPO.) TD 4.408: P 64/3.

## NOTICES

## 91-24 Aircraft Hydroplaning or Aquaplaning on Wet Runways (9-4-69).

Provides information to the problem of aircraft tires hydroplaning on wet runways.

## 91-25A Loss of Visual Cues During Low Visibility Landings (6-22-72).

Provides information concerning the importance of maintaining adequate visual cues during the descent below MDA or DA.

## 91-26 Maintenance and Handling of Air-Driven Gyroscopic Instruments (10-29-69).

Advises operators of general aviation aircraft of the need for proper maintenance of air-driven gyroscopic instruments and associated air filters.

## 91-27A Systemworthiness Analysis Program—General Aviation (12-16-70).

Explains the purpose and applicability of the Systemworthiness Analysis Program (SWAP) to certificated air taxis, repair stations, pilot and aviation maintenance technician schools that are operated under the privileges of certificates issued by the Federal Aviation Administration.

## 91-28 Unexpected Opening of Cabin Doors (12-23-69).

Outlines the importance of assuring that cabin doors are properly closed prior to takeoff.

## 91-29 Radar Transponder Requirements (3-30-70).

Describes certain aspects of the planned operation of the Air Traffic Control Radar Beacon System (ATCRBS) which will be of interest to aircraft operators who expect to use radar transponders in their aircraft.

## 91-30 Terminal Control Areas (TCA) (6-11-70).

Explains the TCA concept and answers some of the most frequently asked questions pertaining to TCA.

## 9-31 FAR Requirement for the Filing of Flight Plans for Flights Between Mexico and the United States (2-1-71).

Informs pilots of the requirements of section 91.12(c) of Part 91 of the Federal Aviation Regulations.

## 91-32 Safety in and Around Helicopters (5-7-71).

Provides suggestions to improve helicopter safety by means of acquainting nonflight crew personnel and passengers with the precautions and procedures necessary to avoid undue hazards.

## 91-33 Use of Alternate Grades of Aviation Gasoline for Grade 80/87 (10-6-71).

Provides information relating to the use of alternate grades of aviation gasoline when grade 80/87 is not available, and the resultant effects of the use of the alternate fuels which may have higher TEL (tetraethyl lead) content.

## 91-34 Model Aircraft Operating Standards (7-1-72).

Outlines safety standards for operators of model aircraft, and encourages voluntary compliance with these standards.

## 91-35 Noise, Hearing Damage, and Fatigue in General Aviation Pilots (3-28-72).

Acquaints pilots with the hazards of regular exposure to cockpit noise. Especially pertinent are piston-engine, fixed-wing, and rotary-wing aircraft.

## 91-36 VFR Flight Near Noise-Sensitive Areas (8-7-72).

Encourages pilots making VFR flights near noise-sensitive areas to fly at altitudes higher than the minimum permitted by regulation and on flight paths which will reduce aircraft noise in such areas.

## 91.29-1 Special Structural Inspections (1-8-68).

Discusses occurrences which may cause structural damage affecting the airworthiness of aircraft.

## 91.83-1 Canceling or Closing Flight Plans (3-12-64).

Outlines the need for canceling or closing flight plans promptly to avoid costly search and rescue operations.

## 91.83-2 IFR Flight Plan Route Information (2-16-66).

Clarifies the air traffic control needs for the filing of route information in an IFR (Instrument Flight Rules) flight plan.

## 95-1 Airway and Route Obstruction Clearance (6-17-65).

Advises all interested persons of the airspace areas within which obstruction clearance is considered in the establishment of Minimum En Route Instrument Altitudes (MEA's) for publication in FAR Part 95.

## 99-1 Security Control of Air Traffic (1-12-72).

Provides civil aviation with recommended practices for operating aircraft within or penetrating an Air Defense Identification Zone (ADIZ).

## 101-1 Waivers of Part 101, Federal Aviation Regulations (1-13-64).

Provides information on submission of applications and issuances of waivers to FAR Part 101.

## 103-2 Information Guide for Air Carrier Handling of Radioactive Materials (7-23-70).

Acquaints air carrier industry and in particular, air freight handling personnel, with the essential requirements and practical application of the various regulations pertaining to the handling and transportation of radioactive materials.

## 105-2 Sport Parachute Jumping (9-6-68).

Provides suggestions to improve sport parachuting safety; information to assist parachutists in complying with FAR

Part 105; and a list of aircraft which may be operated with one cabin door removed, including the procedures for obtaining FAA authorization for door removal.

## 107-1 Aviation Security—Airports (5-19-72).

Furnishes guidance to those individuals and organizations having responsibilities under Part 107 of the Federal Aviation Regulations. It also provides recommendations for establishing and improving security for restricted or critical facilities and areas the security of which is not dealt with in Part 107.

Air Carrier and Commercial Operators and Helicopters  
SUBJECT NO. 120

## 120-1A Reporting Requirements of Air Carriers, Commercial Operators, and Travel Clubs (4-24-69).

Advises of the mechanical reliability reporting requirements contained in FAR Parts 121 and 127 and the accident and incident reporting requirements of NTSB Part 430, Rules Pertaining to Aircraft Accidents, Incidents, Overdue Aircraft, and Safety Investigations.

## 120-2A Precautionary Propeller Feathering To Prevent Runaway Propellers (8-20-63).

Emphasizes the need for prompt feathering when there is an indication of internal engine failure.

## 120-5 High Altitude Operations in Areas of Turbulence (8-26-63).

Recommends procedures for use by jet pilots when penetrating areas of severe turbulence.

## 120-7A Minimum Altitudes for Conducting Certain Emergency Flight Training Maneuvers and Procedures (7-27-70).

Issued to emphasize to all air carriers and other operators of large aircraft the necessity for establishing minimum altitudes above the terrain or water when conducting certain simulated emergency flight training maneuvers.

## 120-12 Private Carriage Versus Common Carriage by Commercial Operators Using Large Aircraft (6-24-64).

Provides guidelines for determining whether current or proposed transportation operations by air constitute private or common carriage.

## 120-13 Jet Transport Aircraft Attitude Instrument Systems (6-26-64).

Provides information about the characteristics of some attitude instrument systems presently installed in some jet transport aircraft.

## 120-16A Continuous Airworthiness Program (9-11-69).

Provide air carriers and commercial operators with guidance and information pertinent to certain provisions of Federal Aviation Regulations Parts 121 and 127.

## 120-17 Handbook for Maintenance Control by Reliability Methods (12-31-64).

Provides information and guidance material which may be used to design or develop maintenance reliability programs which include a standard for determining the time limitations.

## 120-17 CH1 (6-24-66).

## 120-17 CH2 (5-6-68).

## 120-18 Preservation of Maintenance Records (5-10-65).

Provides information and guidance relative to the microfilming of maintenance records.

## 120-21 Aircraft Maintenance Time Limitations (6-24-66).

Provides methods and procedures for the initial establishment and revision of time limitations on inspections, checks, maintenance or overhaul.

## 120-24A Establishment and Revision of Aircraft Engine Overhaul and Inspection Periods (2-25-69).

Describes methods and procedures used by the FAA in the establishment and revision of aircraft engine overhaul periods.

## 120-26C Civil Aircraft Operator Designators (Long Range) (9-28-72).

Revises the criteria and states the procedures for the assignment of a designator and a corresponding air/ground call sign to civil aircraft operators engaged in domestic services on a repetitive basis.

## 120-27 Aircraft Weight and Balance Control (10-15-68).

Provides a method and procedures for weight and balance control.

## 120-28A Criteria for Approval of Category IIIa Landing Weather Minima (12-14-71).

States an acceptable means, not the only means, for obtaining approval of Category IIIa minima and the installation approval of the associated airborne systems.

## 120-29 Criteria for Approving Category I and Category II Landing Minima for FAR 121 Operators (9-25-70).

Sets forth criteria used by FAA in approving turbojet landing minima of less than 300-3/4 or RVR 4,000 (Category I) and Category II minima for all aircraft.

## 120-29 CH1 (12-15-71).

Revises Appendix 1 and deletes statement in Appendix 2 regarding 19-foot criteria (does not apply when using an approved automatic landing system).

## 120-29 CH2 (7-26-72).

Clarifies the airborne system evaluation by stressing the necessity for meeting maintenance program requirements.

## 121-1 Standard Maintenance Specifications Handbook (12-15-62).

Consolidated reprint 3-2-72, includes Changes 1 through 28.

## NOTICES

Provides procedures acceptable to FAA which may be used by operators when establishing inspection intervals and overhaul times.

## 121-3M Maintenance Review Board Reports (9-29-71).

Revises the list of Maintenance Review Board Reports that are currently in effect (August 1971).

## 121-6 Portable Battery-Powered Megaphones (1-5-66).

Sets forth an acceptable means for complying with rules (applicable to various persons operating under Part 121 of the Federal Aviation Regulations) that prescribe the installation of approved megaphones.

## 121-7 Use of Seat Belts by Passengers and Flight Attendants To Prevent Injuries (7-14-66).

Concerned with the prevention of injury due to air turbulence.

## 121-12 Wet or Slippery Runways (8-17-67).

Provides uniform guidelines in the application of the "wet runway" rule by certificate holders operating under FAR 121.

## 121-13 Self-Contained Navigation Systems (Long Range) (10-14-69).

States an acceptable means, not the only means, of compliance with the referenced sections of the FAR as they apply to persons operating under Parts 121 or 123 who desire approval of Doppler RADAR navigation systems or Inertial Navigation Systems (INS) for use in their operations.

## 121-13 CH1 (7-31-70).

Assures standardization of the Minimum Equipment List (MEL) with respect to Inertial Navigation Systems (INS) through the appropriate Flight Operations Evaluation Board (FOEB).

## 121-13 CH2 (12-21-70).

Permits all flight training for Doppler and INS qualification, to be completed in a simulator or training device approved for conducting the required pilot training and qualifications in the use of these systems.

## 121-14 Aircraft Simulator Evaluation and Approval (12-19-69).

Sets forth one means that would be acceptable to the Administrator for approval of aircraft simulators or other training devices requiring approval under section 121.407.

## 121-16 Maintenance Certification Procedures (11-9-70).

Provides guidance for the preparation of an Operations Specification—Preface Page which will afford nominal and reasonable relief from approved service and overhaul time limits when a part is borrowed from another operator.

## 121-17 Aviation Security: Certain Air Carriers and Commercial Operators—Security Programs and Other Requirements (3-14-72).

Provides general information regarding the requirements of FAR Amdt. 121-85.

## 121.195(d)-1 Alternate Operational Landing Distances for Wet Runways; Turbojet Powered Transport Category Airplanes (11-19-65).

Sets forth an acceptable means, but not the only means, by which the alternate provision of section 121.195(d) may be met.

## 123-1 Air Travel Clubs (10-17-68).

Sets forth guidelines and procedures to assist air travel clubs using large aircraft in meeting safety requirements of FAR Part 123.

## 135.144-1 Small Propeller-Driven Air Taxi Airplanes That Meet Section 135.144 (4-13-72).

Provides a summary of and information on small propeller-driven air taxi airplanes that comply with section 135.144 and may continue operations under FAR Part 135 after May 31, 1972, with 10 or more passenger seats.

## 135.155-1 Alternate Static Source for Altimeters and Airspeed and Vertical Speed Indicators (2-16-65).

Sets forth an acceptable means of compliance with provision in FAR Part 135 and Part 23 dealing with alternate static sources.

## 135-1A Air Taxi Aircraft Weight and Balance Control (9-26-69).

Provides a method and procedures for developing a weight and balance control system for small aircraft operating in the air taxi fleet under FAR Part 135.

## 135-2 Air Taxi Operators of Large Aircraft (10-14-69).

Provides guidelines and procedures for use by air taxi operators or applicants for Air Taxi Operator certificates who desire to obtain FAA authorization to operate large aircraft (more than 12,500 pounds maximum certificated takeoff weight) in air taxi operations.

## 135-3 Air Taxi Operators of Small Aircraft (2-17-70).

Sets forth guidelines and procedures to assist persons in complying with the requirements of Federal Aviation Regulations, Part 135.

## 135.60-1 Aircraft Inspection Programs (5-1-70).

Provides information for use by air taxi operators and commercial operators of small aircraft developing an aircraft inspection program for FAA approval.

## 137-1 Agricultural Aircraft Operations (11-29-65).

Explains and clarifies the requirements of FAR Part 137 and provides additional information, not regulators in nature,

which will assist interested persons in understanding the operating privileges and limitations of this Part.

#### Schools and Other Certificated Agencies

##### SUBJECT NO. 140

140-1F Consolidated Listing of FAA Certificated Repair Stations (10-29-71).

Provides a revised directory of all FAA certificated repair stations as of July 1, 1971.

140-2G List of Certificated Pilot Flight and Ground Schools (9-13-72).

Provides a list of FAA certificated pilot flight and ground schools as of June 30, 1972.

140-3B Approval of Pilot Training Courses Under Subpart D of Part 141 of the FAR (1-8-70).

The title is self-explanatory.

140-4 Use of Audio-Visual Courses in Approved Pilot Ground Schools Certificated Under Part 141 (8-7-68).

Inform operators of certificated pilot schools on the use of audio-visual training aids for instruction in approved ground school courses conducted under the FARs.

140-5 Radio Maintenance Technician School Curriculum (8-11-71).

Provides information on curriculum subjects for persons desiring to establish radio maintenance technician training courses.

143-1B Ground Instructor Examination Guide—Basic—Advanced (4-18-67).

Designed to assist applicants preparing for the Basic or Advanced Ground Instructor Written Examination by outlining the required knowledge and by providing sample questions for practice. Revised in 1967. (\$1 GPO.) TD 4408: G 91.

143-2B Ground Instructor—Instrument—Written Test Guide (6-25-70).

Provides information to applicants for the instrument ground instructor rating about the subject areas covered in the examination and illustrated by a study outline, a list of study materials, and a sample examination with answers. (\$0.65 GPO.) TD 4.8: G 91.

145.101-1A Application for Air Agency Certificate—Manufacturer's Maintenance Facility (3-10-69).

Explains how to obtain a repair station certificate.

147-2K Directory of FAA Certificated Aviation Maintenance Technician Schools (10-14-72).

Provides a revised directory of all FAA certificated aviation maintenance technician schools as of July 31, 1972.

147-3 Phase III, A National Study of the Aviation Mechanics Occupation (3-22-71).

Announces the availability for purchase by the public of a reprint of a re-

## NOTICES

port of Phase III, A National Study of the Aviation Mechanics Occupation.

149-2F Listing of Federal Aviation Administration Certificated Parachute Lofts (10-8-71).

Provides a revised listing of all FAA certificated parachute lofts as of October 1, 1971.

### Airports

#### SUBJECT NO. 150

##### AIRPORT PLANNING

150/5000-1 Cancellation of Obsolete Publications Issued by Standards Division, Airports Service (4-17-70).

Cancels outstanding airport engineering data sheets, technical standard orders, airport engineering bulletins, and miscellaneous publications that are no longer current and to direct the reader to a new source of information, where applicable.

150/5000-2 Index of Publications, Airport Service, Standards Division (9-28-70).

Transmits the first Airports Service, Standards Division, index of advisory circulars and related publications.

150/5000-3A Address List for Regional Airports Divisions and Airport District Offices (7-13-72).

Transmits the second address list for all regional Airports Divisions and Airport District Offices.

150/5040-1A Announcement of Report—Aviation Demand and Airport Facility Requirement Forecasts for Large Air Transportation Hubs Through 1980 (3-27-69).

Announces the availability of the new report and where to obtain it.

150/5040-2 Announcement of Report—Aviation Demand and Airport Facility Requirement Forecasts for Medium Air Transportation Hubs Through 1980 (5-22-69).

Announces the availability to the public, Federal Aviation Administration personnel, airport and local government planning officials, the aviation industry, and the interested public with forecasts of aviation demand and selected airport facility requirements for medium hubs through 1980.

150/5040-3 Announcement of Report—A Suggested Action Program for the Relief of Airfield Congestion at Selected Airports (6-19-69).

Announces the availability of the report to the public which identifies and analyzes the possible improvements leading to reduced aircraft delays at 18 of the Nation's highest density airports.

150/5040-4 Announcement of Supplementary Report—A Suggested Action Program for the Relief of Airfield Congestion at Selected Airports (3-31-70).

Announces the availability of the report to the public which identifies and analyzes possible improvements needed to prevent delays at 10 additional airports where demand

compared to capacity indicates serious congestion will become a problem. This report is supplementary to the report announced by AC 150/5040-3.

150/5050-2 Compatible Land Use Planning in the Vicinity of Airports (4-13-67).

Advises Federal Aviation Administration personnel, local government officials and the public of the availability of the following two reports prepared under the auspices of the FAA by the firm of Transportation Consultants, Inc. *Compatible Land Use Planning On and Around Airports, and Aids Available for Compatible Land Use Planning Around Airports.*

150/5050-3A Planning the State Airport System (June 1972).

Provides general guidance in preparing a State airport system plan.

150/5060-1A Airport Capacity Criteria Used in Preparing the National Airport Plan (7-8-68).

Presents the method used by the Federal Aviation Administration for determining when additional runways, taxiways, and aprons should be recommended in the National Airport Plan. The material is also useful to sponsors and engineers in developing Airport Layout Plans and for determining when additional airport pavement facilities should be provided to increase aircraft accommodation capacity at airports.

150/5060-3A Airport Capacity Criteria Used in Long-Range Planning (12-24-69).

Describes the method used by the Federal Aviation Administration for determining the approximate practical hourly and practical annual capacities of various airport runway configurations and is used in long-range (10 years or more) planning for expansion of existing airports and construction of new airports to accommodate forecast demand.

150/5070-1 Rapid Transit Service for Metropolitan Airports (8-26-65).

Inform airport officials of a Federal assistance program for rapid transit.

150/5070-2 Planning the Metropolitan Airport (9-17-65). (Consolidated reprint 6-30-66 includes change 1.)

Provides guidance and methodology for planning the metropolitan airport system as a part of the comprehensive metropolitan planning program.

150/5070-3 Planning the Airport Industrial Park (9-30-65).

Provides guidance to communities, airport boards, and industrial developers for the planning and development of Airport Industrial Parks.

150/5070-4 Planning for Rapid Urbanization Around Major Metropolitan Airports (3-31-66).

Alerts planning agencies to the need for developing appropriate planning programs to guide rapid urbanization in the vicinity of major metropolitan airports and suggests procedures for such planning programs.

## NOTICES

150/5070-5 Planning the Metropolitan Airport System (5-22-70).

Gives guidance in developing airport-system plans for large metropolitan areas. It may be used by metropolitan planning agencies and their consultants in preparing such system plans and by the FAA in reviewing same. (\$1.25 GPO.) TD 4.108:M56/2.

150/5070-6 Airport Master Plans (2-5-71).

Provides guidance for the preparation of individual airport master plans as provided for under the Airport Airway Development Act of 1970. (\$1.25 GPO.) TD 4.108:P69.

150/5090-1 Regional Air Carrier Airport Planning (2-2-67).

This circular: (1) informs local and State governments, airport operators, and area planners of a Federal policy concerning the development of a single airport to serve two or more cities and their environs; and (2) provides such planners with guidance for evaluating the feasibility of establishing such regional airports.

150/5090-2 National Airport Classification System (Airport System Planning) (6-25-71).

Sets forth the new national airport classification system. The system is designed for use in the identification and classification of airports within the National System of Airports and for use as a planning tool in long-range airport system planning.

### FEDERAL-AID AIRPORT PROGRAMS

150/5100-3A Federal-aid Airport Program-Procedures Guide for Sponsors (9-20-68).

Provides guidance to public agencies that sponsor or propose to sponsor projects under the Federal-aid Airport Program (FAAP) authorized by the Federal Airport Act.

150/5100-3A CH 1 (11-28-69).

Transmits revised pages to subject advisory circular.

150/5100-5 Land Acquisition in the Federal-aid Airport Program (1-30-69).

Provides general information to sponsors of airport development projects under the Federal-aid Airport Program on the eligibility of land acquisition and extent of Federal participation in land acquisition costs.

150/5100-6 Labor Requirements in Federal-aid Airport Program Contracts (6-6-69).

Covers the basic labor requirements applicable to the Federal-aid Airport Program (FAAP). Intended primarily for the guidance of those public agencies sponsoring projects under the program and the contractors and subcontractors engaged in work under a project.

150/5100-7A Requirement for Public Hearing in the Airport Development Aid Program (2-25-72).

Provides guidance to sponsors of airport development projects under the

Airport Development Aid Program (ADAP) on the necessity for and conduct of public hearings.

150/5100-8 Request for Aid; Displaced Persons; Public Hearings; Environmental Considerations; Opposition to the Project (1-19-71).

Provides general guidance on the information and coordination required in support of a request for aid for an airport development project under the Airport and Airway Development Act of 1970.

150/5100-9 Engineering Services Under the Airport Development Aid Program (ADAP) (7-1-72).

Provides guidance for airport sponsors and Federal Aviation Administration offices in the definition, selection, review, and approval of engineering services used under subject program.

150/5100-10 Accounting Records Guide for Airport Development Aid Program Sponsors (5-15-72).

Assists sponsors of Airport Development Aid Program (ADAP) projects in maintaining accounting records that will satisfy the recordkeeping and auditing requirements which are necessary to support claims for progress and final payments under the Airport and Airway Development Act of 1970 (Public Law 91-258).

### SURPLUS AIRPORT PROPERTY CONVEYANCE PROGRAMS

150/5150-2 Federal Surplus Personal Property for Public Airport Purposes (6-27-68).

Outlines policies and procedures for State and local agencies applying for and acquiring surplus Federal personal property for public airport purposes.

150/5150-2 CH 1 (4-22-69).

Revises the flow of copies of the SF 123 to provide for more accurate review of donated property.

### AIRPORT COMPLIANCE PROGRAM

150/5190-1 Minimum Standards for Commercial Aeronautical Activities on Public Airports (8-18-66).

Gives to owners of public airports information helpful in the development and application of minimum standards for commercial aeronautical activities.

150/5190-2A Exclusive Rights at Airports (4-4-72).

Makes available to public airport owners, and to other interested persons, basic information and guidance on FAA's policy regarding exclusive rights at public airports on which Federal funds, administered by FAA, have been expended.

150/5190-2A CH 1 (10-2-72).

Deletes the reference to the sale of aeronautical charts by the National Ocean Survey (formerly the U.S. Coast Guard and Geodetic Survey) and to encourage airport owners to obtain UNICOM license in their own names and make these facilities available to all fixed base operators.

150/5190-3A Model Airport Hazard Zoning Ordinance (9-19-72).

Provides a model airport hazard zoning ordinance for airports. The model ordinance is intended merely as a guide to control manmade and natural hazards to aircraft and will require modifications and revisions to meet the varying circumstances and the state and local laws.

### AIRPORT SAFETY—GENERAL

150/5200-3A Bird Hazards to Aircraft (3-2-72).

Transmits to the aviation public the latest published information concerning the reduction of bird strike hazards to aircraft in flight and in the vicinity of airports.

150/5200-4 Foaming of Runways (12-21-66).

Discusses runway foaming and suggests procedures for providing this service.

150/5200-5 Considerations for the Improvement of Airport Safety (2-2-67).

Emphasizes that, in the interest of accident/incident prevention, airport management should conduct self-evaluations and operational safety inspections. An exchange of information and suggestions for the improvement of airport safety is also suggested.

150/5200-6A Security of Aircraft at Airports (6-28-68).

Directs attention to the problem of pilferage from aircraft on airports and suggests action to reduce pilferage and the hazards that may result therefrom.

150/5200-7 Safety on Airports During Maintenance of Runway Lighting (1-24-68).

Points the possibility of an accident occurring to airport employees caused by electrocution.

150/5200-8 Use of Chemical Controls to Repel Flocks of Birds at Airports (5-2-68).

Acquaints airport operators with new recommendations on the use of chemical methods for dispersing flocks of birds.

150/5200-9 Bird Reactions and Scaring Devices (6-26-68).

Transmits a report on bird species and their responses and reactions to scaring devices.

150/5200-11 Airport Terminals and the Physically Handicapped (11-27-68).

Discusses the problems of the physically handicapped air traveler and suggests features that can be incorporated in modification or new construction of airport terminal buildings.

150/5200-12 Fire Department Responsibility in Protecting Evidence at the Scene of an Aircraft Accident (8-7-69).

Furnishes general guidance for employees of airport management and other personnel responsible for firefighting and rescue operations, at the scene of an aircraft accident, on the proper presentation of evidence.

## NOTICES

## 150/5200-13 Removal of Disabled Aircraft (8-27-70).

Discusses the responsibility for disabled aircraft removal and emphasizes the need for prearranged agreements, plans, equipment, and improved coordination for the expeditious removal of disabled aircraft from airport operating areas. It also illustrates some of the various methods used, equipment employed, equipment available, and concepts for aircraft recovery.

## 150/5200-14 Results of 90-Day Trial Exercise on Fire Department Activity (9-8-70).

Transmits statistical data collected during a 90-day trial exercise conducted to determine the relationship between aircraft fire and rescue service activities and airport aeronautical operations.

## 150/5200-15 Availability of the International Fire Service Training Association's (IFSTA) Aircraft Fire Protection and Rescue Procedures Manual (9-11-70).

Announces the availability of the subject manual.

## 150/5200-16 Announcement of Report AS-71-1 "Minimum Needs for Airport Fire Fighting and Rescue Services" Dated January 1971 (4-13-71).

Announces the availability of the subject report and describes how to get it.

## 150/5200-17 Emergency Plan (2-5-72).

Contains guidance material for airport managements to use in developing an emergency plan at civil airports.

## 150/5200-18 Airport Safety Self-Inspection (2-5-72).

Suggests functional responsibility, procedures, a checklist, and schedule for an airport safety self-inspection.

## 150/5200-19 Availability of Report No. FAA-RD-71-20 "An Analysis of Airport Snow Removal and Ice Control" dated March 1971 (11-23-71).

Announces the availability of subject report.

## 150/5210-2 Airport Emergency Medical Facilities and Services (9-3-64).

Provides information and advice so that airports may take specific voluntary preplanning actions to assure at least minimum first-aid and medical readiness appropriate to the size of the airport in terms of permanent and transient personnel.

## 150/5210-4 FAA Aircraft Fire and Rescue Training Film, "Blanket for Survival" (10-27-65).

Provides information on the purpose, content, and availability of the subject training film.

## 150/5210-5 Painting, Marking, and Lighting of Vehicles Used on an Airport (8-31-66).

Makes recommendations concerning safety, efficiency, and uniformity in the

interest of vehicles used on the aircraft operational area of an airport.

## 150/5210-6A Aircraft Fire and Rescue Facilities and Extinguishing Agents (1-14-70).

Furnishes general guidance for estimating the aircraft fire and rescue facilities needed at civil airports.

## 150/5210-7A Aircraft Fire and Rescue Communications (3-16-72).

Provides guidance information for use by airport management in establishing communication and alarm facilities by which personnel required to respond to and function at aircraft ground emergencies may be alerted and supplied with necessary information.

## 150/5210-8 Aircraft Firefighting and Rescue Personnel and Personnel Clothing (1-13-67).

Provides guidance concerning the manning of aircraft fire and rescue trucks, the physical qualifications that personnel assigned to these trucks should meet, and the protective clothing with which they should be equipped.

## 150/5210-9 Airport Fire Department Operating Procedures During Periods of Low Visibility (10-27-67).

Suggests training criteria which airport management may use in developing minimum response times for aircraft fire and rescue trucks during periods of low visibility.

## 150/5210-10 Airport Fire and Rescue Equipment Building Guide (12-7-67).

This title is self-explanatory.

## 150/5210-11 Response to Aircraft Emergencies (4-15-69).

Informs airport operators and others of an existing need for reducing aircraft firefighting response time, and outlines a uniform response time goal of 2 minutes within aircraft operational areas on airports.

## 150/5210-12 Fire and Rescue Service for Certificated Airports (3-2-72).

Furnishes guidance and explains to Federal Aviation Administration (FAA) airport inspectors and airport management the minimum criteria to be applied when evaluating the aircraft fire and rescue service required at an airport for its compliance with the requirements of FAR Part 139.

## 150/5210-13 Water Rescue Plans, Facilities, and Equipment (5-4-72).

Suggests planning procedures, facilities, and equipment to effectively perform rescue operations when an aircraft lands in a body of water, swamp, or tidal area where normal aircraft firefighting and rescue service vehicles are unable to reach the accident scene.

## 150/5220-1 Guide Specification for a Light-Weight Airport Fire and Rescue Truck (7-24-64).

Describes a vehicle with performance capabilities considered as minimum for an acceptable light rescue truck.

## 150/5220-4 Water Supply Systems for Aircraft Fire and Rescue Protection (12-7-67).

The title is self-explanatory.

## 150/5220-6 Guide Specification for 1,000-Gallon Tank Truck (4-10-68).

Assists airport management in the development of local procurement specifications.

## 150/5220-8 Guide Specification for 2,000-Gallon Tank Truck (6-13-69).

Assists airport management in the development of local procurement specifications for 2,000-gallon tank truck.

## 150/5220-9 Aircraft Arresting System for Joint Civil/Military (4-6-70).

Updates existing policy and describes and illustrates the various types of military aircraft emergency arresting systems that are now installed at various joint civil/military airports. It also informs users of criteria concerning installations of such systems at joint civil/military airports.

## 150/5220-10 Guide Specification for Water/Foam Type Aircraft Fire and Rescue Trucks (5-26-72).

Assists airport management in the development of local procurement specifications.

## 150/5230-3 Fire Prevention During Aircraft Fueling Operations (4-8-69).

This advisory circular provides information on fire preventative measures which aircraft servicing personnel should observe during fueling operations.

## 150/5280-1 Airport Operations Manual (6-16-72).

Sets forth guidelines to assist airport operators in developing an Airport Operations Manual in compliance with the requirements of FAR Part 139.

## DESIGN, CONSTRUCTION, AND MAINTENANCE—GENERAL

## 150/5300-2B Airport Design Standards—Site Requirements for Terminal Navigational Facilities (11-22-71).

Provides information regarding the relative location and siting requirements for the terminal navigation facilities that may be established on an airport.

## 150/5300-3 Adaptation of TSO-N18 Criterion to Clearways and Stopways (10-18-64).

Sets forth standards recommended by the FAA for guidance of the public for the adaptation of TSO-N18 criterion to clearways and stopways.

## 150/5300-4A Utility Airports—Air Access to National Transportation (5-6-69).

Presents recommendations of the Federal Aviation Administration for the design of utility airports. These airports are developed for general aviation operations and this guide has been prepared to encourage and guide persons interested

## NOTICES

in their development. (\$1.75 GPO.) TD 4.8:AI 7/968.

## 150/5300-5 Airport Reference Point (9-26-68).

Defines and presents the method for calculating an airport reference point.

## 150/5300-6 Airport Design Standards, General Aviation Airports, Basic and General Transport (7-14-69).

Provides recommended design criteria for the development of larger than general utility airports.

## 150/5300-6 CH-1 (4-13-72).

## 150/5300-7B FAA Policy on Facility Relocations Occasioned by Airport Improvements or Changes (11-8-72).

Reaffirms the aviation community of the FAA policy governing responsibility for funding relocation, replacement and modification to air traffic control and air navigation facilities that are made necessary by improvements or changes to the airport.

## 150/5300-8 Planning and Design Criteria for Metropolitan STOL Ports (11-5-70).

Provides the criteria recommended for the planning and design of STOL ports in metropolitan areas.

## 150/5310-3 FAA Order 5310.2, Relocating Thresholds Due to Obstructions at Existing Runways (5-27-68).

Announces the issuance of instructions to FAA field personnel on the displacement or relocation of thresholds.

## 150/5320-5B Airport Drainage (7-1-70).

Provides guidance for engineers, airport managers, and the public in the design and maintenance of airport drainage systems. (\$1 GPO.) TD 4.8: 78/970.

## 150/5320-6A Airport Paving (5-9-67).

Provides data for the design and construction of pavements at civil airports.

## 150/5320-6A CH 1 (6-11-68).

Transmits page changes and adds new chapter 6 to basic AC.

## 150/5320-6A CH 2 (2-2-70).

Transmits new paragraphs 3, 4, and 5, and adds a new Appendix 2.

## 150/5320-6A CH 3 (4-1-70).

Transmits several page changes and new subgrade compaction criteria.

## 150/5325-2B Airport Design Standards—Air Carrier Airports—Surface Gradient and Line of Sight (2-18-70).

Establishes design standards for airports served by certificated air carriers to assist engineers in (1) designing the gradients of airport surface areas used to accommodate the landing, takeoff, and other ground movement requirements of airplanes while (2) providing adequate line of sight between airplanes operating on airports.

## 150/5325-3 Background Information on the Aircraft Performance Curves for Large Airplanes (1-26-65).

Provides airport designers with information on aircraft performance curves for design which will assist them in an objective interpretation of the data used for runway length determination.

## 150/5325-3 CH 1 (5-12-66).

Transmits a revision to the effective runway gradient standards.

## 150/5325-4 Runway Length Requirements for Airport Design (4-5-65).

Presents aircraft performance curves and sets forth standards for the determination of runway lengths to be provided at airports. The use of these standards is required for project activity under the Federal-Aid Airport Program when a specific critical aircraft is considered as the basis for the design of a runway.

## 150/5325-4 CH 1 (8-5-65).

Provides amended information for the basic advisory circular and includes aircraft performance curves for the BAC 1-11.

## 150/5325-4 CH 2 (9-21-65).

Transmits aircraft performance curves for the Boeing 707-300C and the Fairchild F-27 and F-27B.

## 150/5325-4 CH 3 (4-25-66).

Transmits aircraft performance curves for the Douglas DC-8-55, DC-8F-55, and DC-9-10 Series, the Fairchild F-27J, and the Nord 262.

## 150/5325-4 CH 4 (5-12-66).

Transmits a revision to the effective runway gradient standards.

## 150/5325-4 CH 5 (7-13-66).

Transmits aircraft performance curves for the Douglas DC-9-10 Series equipped with Pratt & Whitney JT8D-1 Engines.

## 150/5325-4 CH 6 (12-8-66).

It is recommended that turbojet powered aircraft use more runway length when landing under wet or slippery, rather than under dry conditions. This change furnishes a basis for estimating the additional recommended length.

## 150/5325-4 CH 7 (2-7-67).

Presents design curves for landing and takeoff requirements of airplanes in common use in the civil fleet. Also presented are instructions on the use of these design curves and a discussion of the factors considered in their development.

## 150/5325-4 CH 8 (11-8-67).

Transmits aircraft performance curves for the Boeing 747, Convair 640 (340D or 440D), and Douglas DC-9-30 Series.

## 150/5325-5A Aircraft Data (1-12-68).

Presents a listing of principal dimensions of aircraft affecting airport design for guidance in aircraft development.

## 150/5325-6A Airport Design Standards—Effects and Treatment of Jet Blast (7-13-72).

Presents criteria on the jet engine blast velocities associated with aircraft in common use in air carrier service, the effects of these blast velocities during ground operations, and suggested means to counteract or minimize these effects.

## 150/5325-8 Compass Calibration Pad (5-8-69).

Provides guidelines for the design, location on the airport, and construction of a compass calibration pad, and basic information concerning its use in determining the deviation error in an aircraft magnetic compass.

## 150/5330-2A Runway/Taxiway Widths and Clearances for Airline Airports (7-26-68).

Presents the Federal Aviation Administration recommendations for landing strip, runway, and taxiway widths and clearances at airports served by certificated air carriers.

## 150/5330-3 Wind Effect on Runway Orientation (5-5-66).

Provides guidance for evaluating wind conditions and determining their effect on the orientation of runways.

## 150/5335-1A Airport Design Standards—Airports Served by Air Carriers—Taxiways (5-15-70).

Provides criteria on taxiway design for airports served by certificated route air carriers with present airplanes and those anticipated in the near future.

## 150/5335-2 Airport Aprons (1-27-65).

Provides the criteria for airport aprons which are acceptable in accomplishing a project meeting the eligibility requirements of the Federal-aid Airport Program.

## 150/5335-3 Airport Design Standards—Airports Served by Air Carriers—Bridges and Tunnels on Airports (4-19-71).

Provides general guidance to those contemplating the construction of a bridge-type structure to allow aircraft to cross over an essential surface transportation mode.

## 150/5340-1C Marking of Paved Areas on Airports (11-3-70).

Describes standards for marking serviceable runways and taxiways as well as deceptive, closed, and hazardous areas on airports.

## 150/5340-4B Installation Details for Runway Centerline and Touchdown Zone Lighting Systems (5-6-69).

Describes standards for the design and installation of runway centerline and touchdown zone lighting systems.

## 150/5340-5A Segmented Circle Airport Marker System (9-10-71).

Sets forth standards for a system of airport marking consisting of certain pilot aids and traffic control devices.

## NOTICES

150/5340-8 Airport 51-foot, Tubular Beacon Tower (6-11-64).

Provides design and installation details on the subject tower.

150/5340-9 Prefabricated Metal Housing for Electrical Equipment (8-18-64).

Provides design and installation details on the subject metal housing.

150/5340-13A High Intensity Runway Lighting System (4-14-67).

Provides corrected curves for estimating loads in high intensity series circuits.

150/5340-14B Economy Approach Lighting Aids (6-19-70).

Describes standards for the design, selection, siting, and maintenance of economy approach lighting aids.

150/5340-15B Taxiway Edge Lighting System (4-4-72).

Describes the recommended standards for the design, installation, and maintenance of a taxiway edge lighting system.

150/5340-16B Medium Intensity Runway Lighting System and Visual Approach Slope Indicators for Utility Airports (10-26-70).

Describes standards for the design, installation, and maintenance of medium intensity runway lighting system (MIRL), and visual approach slope indicators for utility airports.

150/5340-17A Standby Power for Non-FAA Airport Lighting Systems (3-19-71).

Describes standards for the design, installation, and maintenance of standby power for nonagency owned airport visual aids associated with the National Airspace System (NAS).

150/5340-18 Taxiway Guidance System (9-27-68).

Describes the recommended standards for design, installation, and maintenance of a taxiway guidance sign system.

150/5340-19 Taxiway Centerline Lighting System (11-14-68).

Describes the recommended standards for design, installation, and maintenance of a taxiway centerline lighting system.

150/5340-20 Installation Details and Maintenance Standards for Reflective Markers for Airport Runway and Taxiway Centerlines (2-17-69).

Describes standards for the installation and maintenance of reflective markers for airport runway and taxiway centerlines.

150/5340-21 Airport Miscellaneous Lighting Visual Aids (3-25-71).

Describes standards for the system design, installation, inspection, testing, and maintenance of airport miscellaneous visual aids; i.e., airport beacons, beacon towers, wind cones, wind tees, and obstruction lights.

150/5340-22 Maintenance Guide for Determining Degradation and Cleaning of Centerline and Touchdown Zone Lights (4-20-71).

Contains maintenance recommendations for determining degradation and cleaning of centerline and touchdown zone lights installed in airport pavement.

150/5340-22 CH 1 (6-23-71).

Transmits a page change to subject advisory circular.

150/5340-23 Guide for Location of Supplemental Wind Cones (8-24-71).

Describes standards for the performance and location of supplemental wind cones.

150/5345-1C Approved Airport Lighting Equipment (10-26-71).

Contains lists of approved airport lighting equipment and manufacturers qualified to supply their product in accordance with the indicated specification requirements.

150/5345-2 Specification for L-810 Obstruction Light (11-4-63).

Required for FAAP project activity.

150/5345-2 CH 1 (10-28-66).

Transmits page changes to the subject advisory circular. This change provides for a new Alloy 360 in the die casting process.

150/5345-3B Specification for L-821 Airport Lighting Panel for Remote Control of Airport Lighting (4-21-72).

Describes the specification requirements for an airport lighting control panel for the remote control of airport lighting circuits and is published by the Federal Aviation Administration for the guidance of the public.

150/5345-4 Specification for L-289 Internally Lighted Airport Taxi Guidance Sign (10-15-63).

Required for FAAP project activity.

150/5345-4 CH 1 (10-28-66).

Transmits page changes to the subject advisory circular. This change provides for a new Alloy 360 in the die casting process.

150/5345-5 Specification for L-847 Circuit Selector Switch, 5,000 Volt 20 Ampere (9-3-63).

Required for FAAP project activity.

150/5345-7B Specification for L-824 Underground Electrical Cables for Airport Lighting Circuits (3-18-71).

Describes the specification requirements for underground electrical cables for airport lighting circuits. Published by the FAA for the guidance of the public.

150/5345-9C Specification for L-819 Fixed Focus Bidirectional High Intensity Runway Lights (12-23-69).

Describes the subject specifications requirements and is published by the Fed-

eral Aviation Administration for the guidance of the public.

150/5345-10C Specification for L-828 Constant Current Regulators (10-22-71).

Describes the subject specification requirements and is published by the Federal Aviation Administration for the guidance of the public.

150/5345-11 Specification for L-812 Static Indoor Type Constant Current Regulator Assembly, 4 Kw and 7½ Kw, With Brightness Control for Remote Operations (3-2-64).

Required for FAAP project activity.

150/5345-12A Specification for L-801 Beacon (5-12-67).

Describes the subject specification requirements.

150/5345-12A CH 1 (3-19-71).

Transmits paragraph changes to the subject advisory circular.

150/5345-13 Specification for L-841 Auxiliary Relay Cabinet Assembly for Pilot Control of Airport Lighting Circuits (1-6-64).

Required for FAAP project activity.

150/5345-15 Specification for L-842 Airport Centerline Light 1-6-64).

Required for FAAP project activity.

150/5345-16 Specification for L-843 Airport In-Runway Touchdown Zone Light (1-20-64).

Required for FAAP project activity.

150/5345-17 Specification for L-845 Semiflush Inset Prismatic Airport Light (3-3-64).

Describes the subject specification requirements.

150/5345-18 Specification for L-811 Static Indoor Type Constant Current Regulator Assembly, 4 Kw; With Brightness Control and Runway Selection for Direct Operation (3-3-64).

Required for FAAP project activity.

150/5345-18 CH 1 (5-28-64).

Advises that a detail requirement is not applicable to the circular.

150/5345-19 Specification for L-838 Semiflush Prismatic Airport Light (5-11-64).

Describes the subject specification requirements.

150/5345-20 Specification for L-802 Runway and Strip Light (6-24-64).

Describes the subject specification requirements.

150/5345-20 CH 1 (8-31-64).

Provides amended information for the basic advisory circular.

150/5345-20 CH 2 (1-14-66).

Provides new dimensions for the thickness of the metal stake and an organizational change.

150/5345-20 CH 3 (10-28-66).

Transmits page changes to the subject advisory circular. This change provides for a new Alloy 360 in the die casting process.

150/5345-20 CH 4 (8-5-69).

Describes the subject specification requirements for a runway and strip light.

150/5345-21 Specification for L-813 Static Indoor Type Constant Current Regulator Assembly, 4 Kw and 7½ Kw; for Remote Operation of Taxiway Lights (7-28-64).

Describes the subject specification requirements.

150/5345-22 Specification for L-834 Individual Lamp Series-to-Series Type Insulating Transformer for 5,000 Volt Series Circuit (10-8-64).

Describes the subject specification requirements.

150/5345-23 Specification for L-822 Taxiway Edge Light (10-13-64).

Describes the subject specification requirements.

150/5345-23 CH 1 (1-14-66).

Provides new dimensions for the thickness of the metal stake and an organizational change.

150/5345-23 CH 2 (10-28-66).

Transmits page changes to the subject advisory circular. This change provides for a new Alloy 360 in the die casting process.

150/5345-23 CH 3 (8-5-69).

Describes the subject specification requirements for a taxiway edge light.

150/5345-26A Specification for L-823 Plug and Receptacle, Cable Connectors (5-4-71).

Describes the subject specification requirements.

150/5345-27A Specification for L-807 Eight-foot and Twelve-foot Unlighted or Externally Lighted Wind Cone Assemblies (6-16-69).

Describes the subject specification requirements for a hinged steel pole support, an anodized tapered aluminum hinged base pole support, and an "A" frame fixed support with a pivoted center pipe support.

150/5345-28B Specification for L-851 Visual Approach Slope Indicators and Accessories (2-16-72).

Describes the specification requirements for visual approach slope indicator (VASI) and simple abbreviated visual approach slope indicator (SAVASI) equipment and accessories.

150/5345-29A FAA Specification L-852, Light Assembly, Airport Taxiway Centerline (4-28-71).

Describes FAA Specification L-852, Light Assembly, Airport Taxiway Centerline, for the guidance of the public.

## NOTICES

150/5345-30A Specification for L-846 Electrical Wire for Lighting Circuits To Be Installed in Airport Pavements (2-3-67).

Describes, for the guidance of the public, subject specification requirements for electrical wire.

150/5345-31A Specification for L-833 Individual Lamp Series-to-Series Type Insulating Transformer for 600-Volt or 5,000-Volt Series Circuits (4-24-70).

Describes the subject specification requirements and is published by the FAA for the guidance of the public.

150/5345-33 Specification for L-844 Individual Lamp Series-to-Series Type Insulating Transformer for 5,000 Volt Series Circuit 6.6/20 Amperes 200 Watt (1-13-65).

Describes the subject specification requirements.

150/5345-34 Specification for L-839 Individual Lamp Series-to-Series Type Insulating Transformer for 5,000 Volt Series Circuit 6.6/20 Amperes 300 Watt (1-13-65).

Describes the subject specification requirements.

150/5345-35 Specification for L-816 Circuit Selector Cabinet Assembly for 600 Volt Series Circuits (1-28-65).

Describes the subject specification requirements.

150/5345-36 Specification for L-808 Lighted Wind Tee (2-3-65).

Describes the subject specification requirements.

150/5345-37C FAA Specification L-850, Light Assembly Airport Runway Centerline and Touchdown Zone (6-27-72).

Describes subject light assembly for the guidance of the public.

150/5345-38 Changes to Airport Lighting Equipment (3-23-67).

The title is self-explanatory.

150/5345-39A FAA Specification L-853, Runway and Taxiway Centerline Retroreflective Markers (9-17-71).

Describes specification requirements for L-853 Runway and Taxiway Retroreflective markers, for the guidance of the public.

150/5345-41 Specification for L-855, Individual Lamp, Series-to-Series Type Insulating Transformer for 5,000-Volt Series Circuit, 6.6/6.6 Amperes, 65 Watts (4-24-70).

Describes the subject specification and is published by the FAA for the guidance of the public.

150/5345-42 FAA Specification L-857, Airport Light Bases, Transformer Housing and Junction Boxes (10-27-70).

Describes specification requirements for airport light bases, transformer housing and junction boxes for the guidance of the public.

150/5345-43A FAA/DOD Specification L-856, High Intensity Obstruction Lighting Systems (11-19-71).

Describes specification requirements for high intensity obstruction lighting systems.

150/5345-44A Specification for L-858 Retroreflective Taxiway Guidance Signs (7-20-71).

Describes the specification for retroreflective taxiway guidance signs.

150/5355-1A International Signs to Facilitate Passengers Using Airports (11-3-71).

Informs airport authorities of the desirability to provide international signs and diagrammatic maps within terminal buildings and of the need for clearly marked road signs for airports.

150/5355-2 Fallout Shelters in Terminal Buildings (4-1-69).

Furnishes guidance for the planning and design of fallout shelters in airport terminal buildings.

150/5360-1 Airport Service Equipment Buildings (4-6-64).

Provides guidance on design of buildings for housing equipment used in maintaining and repairing operational areas.

150/5360-2 Airport Cargo Facilities (4-6-64).

Provides guidance material on air cargo facilities.

150/5360-3 Federal Inspection Service Facilities at International Airports (4-1-66).

Describes and illustrates recommended facilities for inspection of passengers, baggage, and cargo entering the United States through international airport terminals. The material is for the guidance of architect-engineers and others interested in the planning and design of these airport facilities.

150/5370-1A Standard Specifications for Construction of Airports (5-28-68).

Contains specification items for construction of airports and other related information. Acceptable for FAAP project activity. Published in 1968. (\$3.50 GPO.) TD 4.24:968

150/5370-2 Safety on Airports During Construction Activity (4-22-64).

Provides guidelines concerning safety at airports during periods of construction activity.

150/5370-4 Procedures Guide for Using the Standard Specifications for Construction of Airports (5-29-69).

Provides guidance to the public in the use and application of the Standard Specifications for Construction of Airports.

150/5370-5 Offshore Airports (12-15-69).

Announces to the public the availability of a two-volume report on off-

## NOTICES

shore airport planning and construction methods.

#### 150/5370-6 Construction Progress and Inspection Report—Federal-Aid Airport Program (3-16-70).

Provides for a report on construction progress and inspection of Federal-aid Airport Program (FAAP) projects, suggests a form for the report, and recommends use of the form unless other arrangements exist to obtain the type of information provided by the form.

#### 150/5370-7 Airport Construction Controls To Prevent Air and Water Pollution (4-26-71).

Supplies guidance material on compliance with air and water standards during construction of airports developed under the Airport and Airway Development Act of 1970.

#### 150/5370-8 Grooving of Runway Pavements (3-16-71).

Provides guidance for the design, installation, and maintenance of grooves in runway pavements.

#### 150/5380-1 Airport Maintenance (4-14-63).

Provides a basic checklist and suggestions for an effective airport maintenance program.

#### 150/5380-2A Snow Removal Techniques Where In-Pavement Lighting Systems Are Installed (12-24-64).

Provides information on damage to in-pavement lighting fixtures by snow removal equipment and recommends procedures to avoid such damage.

#### 150/5380-3A Removal of Contaminants from Pavement Surfaces (10-27-70).

Provides information to the aviation industry relative to cleaning rubber deposits, oil, grease, and jet aircraft exhaust deposits from runway surfaces.

#### 150/5380-4 Ramp Operations During Periods of Snow and Ice Accumulation (9-11-68).

Directs attention to an increased accident potential when snow or ice accumulates on the surfaces of ramps and aircraft parking and holding areas and suggests some measures to reduce this potential.

#### 150/5380-5 Debris Hazards at Civil Airports (3-8-71).

Discusses problems of debris at airports, gives information on foreign objects, and tells how to eliminate such objects from operational areas.

#### 150/5390-1A Heliport Design Guide (11-5-69).

Contains design guidance material for the development of heliports, both surface and elevated. (\$0.75 GPO.) TD 4.108:H36.

#### Air Navigational Facilities SUBJECT NO. 170

##### 170-3B Distance Measuring Equipment (DME) (11-8-65).

Presents information on DME and some of its uses to pilots unfamiliar with this navigational aid.

##### 170-6A Use of Radio Navigation Test Generators (3-30-66).

Gives information received from the Federal Communications Commission as to the frequencies on which the FCC will license test generators (used to radiate a radio navigation signal) within the scope of its regulations and gives additional information to assist the user when checking aircraft navigation receivers.

##### 170/6850-1 Aeronautical Beacons and True Lights (8-28-68).

Describes FAA standards for the installation and operation of aeronautical beacons serving as true lights.

##### 170-8 Use of Common Frequencies for Instrument Landing Systems Located on Opposite Ends of the Same Runway (11-7-66).

In the future, common frequencies may be assigned to like components of two instrument landing systems serving opposite ends of the same runway. This will include the localizers, glide slopes, and associated outer and middle marker compass locators (LOM and LMM).

##### 170-9 Criteria for Acceptance of Ownership and Servicing of Civil Aviation Interest(s) Navigational and Air Traffic Control Systems and Equipment (11-26-68).

Contains a revised FAA policy under which the FAA accepts conditional ownership of equipment and systems from civil aviation interests, without the use of Federal funds, and operates, maintains, and provides the logistic support of such equipment.

##### 170-10 FAA Recommendations to FCC on Licensing of Non-Federal Radio Navigation Aids (10-17-69).

Gives background information and describes the basis for recommendations to be made by the FAA to the Federal Communications Commission (FCC) regarding licensing of radio navigation aids.

##### 170-11 Amendment of Federal Aviation Regulation Part 171 (FAR-171)—Cost of Flight and Ground Inspections (9-17-70).

Alerts the public to the amendment to FAR Part 171 pertaining to the payment of ground and flight inspection charges prior to the issuance of an approved IFR procedure.

##### 170-12 Implementation of 50 KHz/V Channels for ILS/VOR/DME (10-7-70).

Advises aircraft owners, operators and radio equipment manufacturers of plans

for future implementation of split channel assignments in the aeronautical radio navigation bands.

##### 171-1 Estimating Packing and Shipping Costs for Export Shipments for ATC and Navaid Equipments (2-18-66).

Assists personnel engaged in preparing packing and shipping estimates of air navigation and traffic control equipments for overseas shipment.

#### Administrative SUBJECT NO. 180

##### 183-30 Directory of FAA Designated Mechanic Examiners (12-14-70).

Provides a new directory of all FAA designated mechanic examiners as of the effective date shown above.

##### 183-31A FAA Designated Parachute Rigger Examiner Directory (1-17-72).

Provides a new directory of all FAA designated parachute rigger examiners as of November 30, 1971.

##### 183-29-1E Designated Engineering Representatives (1-5-70).

Lists in Appendix 1 the Designated Engineering Representatives who are available for consulting work.

#### Flight Information SUBJECT NO. 210

##### 210-1 National Notice to Airmen System (2-8-64).

Announces FAA policy for the preparation and issuance of essential flight information to pilots and other aviation interests.

##### 210-2A Established Schedule for Flight Information Effective Dates (9-19-69).

Emphasizes the importance of adherence to the established schedule of effective dates for flight information, and provides a copy of the schedule through June 1971.

##### 210-3 National Notice to Airmen System—Elimination of NOTAM Code (5-22-70).

Announces changes in criteria and procedures for the Notice to Airmen System required to accommodate the transmission of all domestic Notice to Airmen data in clear contracted language and eliminate use of the NOTAM code on the domestic service A circuits.

##### 211-2 Recommended Standards for IFR Aeronautical Charts (3-20-67).

Sets forth standards recommended by the Federal Aviation Administration for the guidance of the public in the issuance of IFR aeronautical charts for use in the National Airspace System (NAS).

#### Internal Publications

##### Contractions Handbook, 7340.1C (2-2-72).

Gives approved word and phrase contractions used by personnel connected

with air traffic control, communications, weather, charting, and associated services. (\$6.50—\$8.25 foreign Sub.—GPO.) TD 4.308:C76/969.

#### Location Identifiers, 7350.1S.

Incorporates all authorized 3-letter location identifiers for special use in United States, worldwide, and Canadian assignments. Dated 5-15-71. (\$6 Sub.—GPO.) TD 4.310.

#### En Route Air Traffic Control Handbook, 7110.9C (1-1-73).

Prescribes air traffic control procedures and phraseology for use by personnel providing en route air traffic control service. (\$14 Sub.—GPO.) TD 408:En 1/971.

#### Terminal Air Traffic Control Handbook, 7110.8C (1-1-73).

Prescribes air traffic control procedures and phraseology for use by personnel providing terminal air traffic control service. (\$24 Sub.—GPO.) TD 4.308:T27/971.

#### Flight Services, 7110.10B (1-1-73).

This handbook consists of two parts. Part I, the basic, prescribes procedures and phraseology for use by personnel providing flight assistance and communications services. Part II, the teletypewriter portion, includes Services A and B teletypewriter operating procedures, pertinent International Teletypewriter Procedures, and the continuous U.S. Service A Weather Schedules. (\$24—\$30 foreign Sub.—GPO.) TD 4.308:F 64.

#### International Flight Information Manual, Vol. 20 (April 1972).

This Manual is primarily designed as a preflight and planning guide for use by U.S. nonscheduled operators, business and private aviators contemplating flights outside of the United States.

The Manual, which is complemented by the International Notams publication, contains foreign entry requirements, a directory of aerodromes of entry including operational data, and pertinent regulations, and restrictions. It also contains passport, visa, and health requirements for each country. Published annually with quarterly amendments. \$5—\$5.75 foreign—Annual Sub. GPO.) TD 4.309:16.

#### International Notams.

Covers notices on navigational facilities and information on associated aeronautical data generally classified as "Special Notices". Acts as a notice-to-airmen service only. Published weekly. (\$11—\$13.75 foreign—Annual Sub. GPO.) D 4.11.

#### Airman's Information Manual:

##### Part 1—Basic Flight Manual and ATC Procedures.

This part is issued quarterly and contains basic fundamentals required to fly in the National Airspace System; adverse factors affecting safety of flight; health and Medical Facts of interest to pilots; ATC information affecting rules, regulations, and procedures; a Glossary of Aeronautical Terms; U.S. Entry and Departure Procedures, including Airports

## NOTICES

of Entry and Landing Rights Airports; Air Defense Identification Zones (ADIZ); Designated Mountainous Areas, Scatana, and Emergency Procedures. (Annual Sub. \$7, Foreign mailing—\$1.75 additional. GPO.) TD 4.12:pt. 1/.

#### Part 2—Airport Directory.

This part is issued semiannually and contains a Directory of all Airports, Seaplane Bases, and Heliports in the conterminous United States, Puerto Rico, and the Virgin Islands which are available for transient civil use. It includes all of their facilities and services, except communications, in codified form. Those airports with communications are also listed in Part 3 which reflects their radio facilities. A list of new and permanently closed airports which updates this part is contained in Part 3.

Included, also, is a list of selected Commercial Broadcast Stations of 100 watts or more of power and Flight Service Stations and National Weather Service telephone numbers. (Annual Sub. \$7, Foreign mailing—\$1.75 additional. GPO.) TD 4.12:pt. 2/.

#### Parts 3 and 3A—Operational Data and Notices to Airmen.

Part 3 is issued every 28 days and contains an Airport/Facility Directory containing a list of all major airports with communications; a tabulation of Air Navigation Radio Aids and their assigned frequencies; Preferred Routes; Standard Instrument Departures (SIDs); Substitute Route Structures; a Sectional Chart Bulletin, which updates Sectional charts cumulatively; Special General and Area Notices; a tabulation of New and Permanently Closed Airports, which updates Part 2; and Area Navigation Routes.

Part 3A is issued every 14 days and contains Notices to Airmen considered essential to the safety of flight as well as supplemental data to Part 3 and Part 4. (Annual Sub. \$44, Foreign mailing—\$11 additional. GPO.) TD 4.12:pt. 3/.

#### Part 4—Graphic Notices—Supplemental Data.

Part 4 is issued quarterly and contains abbreviations used in all parts of AIM; Parachute Jump Areas; VOR Receiver Check Points; Special Notice

Area Graphics; and Heavy Wagon and Oil Burner Routes.

Future editions will be expanded to include Special Terminal Area Charts and data not subject to frequent change. (Annual Sub. \$9.50, Foreign mailing—\$2.50 additional. GPO.) TD 4.12:pt. 4/.

#### Aircraft Type Certificate Data Sheets and Specifications.

Contains all current aircraft specifications and type certificate data sheets issued by the FAA. Monthly supplements provided. (\$72—Sub., Foreign mailing—\$18 additional. GPO.) TD 4.15:967.

#### Aircraft Engine and Propeller Type Certificate Data Sheets.

Contains all current aircraft engine and propeller type certificate data sheets and specifications issued by FAA. Monthly supplements provided. (\$28.50—Sub., Foreign mailing—\$7.25 additional. GPO.) TD 4.15/2:968.

#### Summary of Airworthiness Directives for Small Aircraft (1-1-72) Volume I.

Presents, in volume form, all the Airworthiness Directives for small aircraft issued through December 31, 1971. AD's for engines, propeller, and equipment are included in each volume. Each volume is arranged alphabetically by product manufacturer. (\$5.50 Sub.—GPO.) TD 4.10/2:972.

#### Summary of Airworthiness Directives for Large Aircraft (1-1-72) Volume II.

Presents, in volume form, all the Airworthiness Directives for large aircraft (over 12,500 pounds maximum certificated takeoff weight) issued through December 31, 1971. AD's for engines, propellers, and equipment are included in each volume. (\$6.25 Sub.—GPO.) TD 4.10/3:972.

#### Summary of Supplemental Type Certificates.

Contains all supplemental type certificates issued by FAA regarding design changes in aircraft, engines, or propellers. List includes description of change, the model and type certificate number, the supplemental type certificate number, and the holder of the change. Quarterly supplements provided. (\$41—Sub., Foreign mailing—\$10.25 additional. GPO.) TD 4.36:971.

**Title 47—Telecommunication**  
**CHAPTER I—FEDERAL COMMUNICATIONS COMMISSION**

[Docket No. 19547; FCC 73-189]

**PART 2—FREQUENCY ALLOCATIONS AND RADIO TREATY MATTERS; GENERAL RULES AND REGULATIONS**

**Space Telecommunication**

*Report and order.* In the matter of amendment of Part 2 of the Commission's rules to conform, to the extent practicable, with the Geneva Radio Regulations, as revised by the Space WARC, Geneva, 1971, Docket No. 19547.

1. The Commission, on July 14, 1972, adopted a notice of proposed rule making in the above captioned proceeding, which was released on July 26, 1972, and published in the *FEDERAL REGISTER* on August 4, 1972 (37 FR 15714). A correction of the *FEDERAL REGISTER* was published on November 28, 1972 (37 FR 25175). The time for filing comments and reply comments was originally established as September 29, 1972, and October 10, 1972. Pursuant to the filing of motions to extend by the Central Committee on Communications Facilities of the American Petroleum Institute and the Utilities Telecommunications Council, the time for filing comments and reply comments was extended, by Order of the Commission's General Counsel released October 2, 1972, to October 30, 1972, and November 10, 1972, respectively. Pursuant to a filing by Communications Satellite Corp., the time for filing reply comments was, by Order of the Commission's General Counsel, released on November 10, 1972, extended to November 17, 1972.

2. Comments were filed by the Association of Maximum Service Telecasters (AMST); MCI-Lockheed Satellite Corp. (MCI); Department of Health, Education, and Welfare (HEW); American Telephone & Telegraph Co. (A.T. & T.); National Association of Manufacturers (NAM); Aeronautical Radio, Inc. and the Air Transport Association of America (Arinc/ATA); Corporation for Public Broadcasting (CPB); Joint Council on Educational Telecommunications (JCET); General Electric Co. (GE) National Association of Broadcasters (NAB); Central Committee on Communication Facilities of the American Petroleum Institute (API); Communications Satellite Corp. (ComSat); Fairchild Industries (Fairchild); and Utilities Telecommunications Council (UTC). Reply comments were timely filed by the following entities: Hughes Aircraft Co. (Hughes); CPB; AMST; MCI-Lockheed; A.T. & T.; ComSat; and the ABC, CBS and NBC Television Network Affiliates Association (Affiliates).

(3) As set forth in the notice, the purpose of the instant proceeding was to align to the extent practicable Part 2 of the Commission's rules and regulations with the international radio regulations as revised by the Space World Administrative Radio Conference held in Geneva, Switzerland in June-July 1971. The majority of the proposed changes set forth

in the notice evoked no response; however, several of the proposed changes, particularly those affecting sharing of certain microwave bands and the reservation of spectrum for satellite broadcasting, generated substantial controversy. These areas will be discussed in succeeding paragraphs.

**BROADCASTING SATELLITE SERVICE**

4. In the notice, the Commission proposed to make the following bands available to the broadcasting-satellite service: 2500-2690 MHz shared; 11.7-12.2 GHz in Regions 2 and 3, shared; 41.0-43.0 GHz; and 84-86 GHz exclusive.

It was pointed out that there were no present plans to implement a broadcasting-satellite service on either a domestic or an international basis and that our intentions with respect to the service were to keep our options open for the foreseeable future during which the results of the WARC remained in force.

In carrying out these intentions, the Commission proposed to refrain from reflecting footnote 332A in the national Table of Frequency Allocations. This footnote, adopted at the Space WARC, would have permitted access to the band 620-790 MHz in developing a broadcasting-satellite service. This decision reflected a national unwillingness, at this time at least, to encourage development of the service in that band.

5. With the exception of ComSat, other respondents who commented in this matter supported the Commission's desire to refrain from reflecting footnote 332A in the 620-790 MHz band. ComSat, while concurring with the aforementioned philosophy, did not agree that inclusion of the footnote would constitute a commitment to use the band for the broadcasting-satellite service. On the contrary, ComSat believed that such an omission would indicate a lack of interest, on the part of the United States, in developing the service in that band.

6. GE, NAB, and AMST not only supported the concept of open options, but expressed the view that attempts to sub-allocate or designate the 11.7-12.2 GHz band or any portion thereof for a domestic broadcasting-satellite service were inconsistent with that concept. AMST also expressed the same view with respect to the 41-43 GHz and 84-86 GHz bands.

7. The proposed allocation of the 11.7-12.2 GHz band drew the heaviest volume of comments. Although the proposed Table of Frequency Allocations reflected the broadcasting-satellite and fixed-satellite services sharing on a coequal primary basis with the mobile service sharing on secondary basis, paragraph 11 of the notice indicated the intention to allocate the lower portion of the band to the fixed-satellite service on a primary basis with the broadcasting satellite service on a secondary basis while, in the upper portion, the allocation status would be reversed. The terrestrial mobile service would, of course, remain secondary throughout the 11.7-12.2 GHz band.

8. The majority of the comments filed with respect to the band 11.7-12.2 GHz cited the many uncertainties surround-

ing the parameters of any broadcasting satellite service. Uncertainties cited included not only the bandwidth, power flux density, channel requirements, orbit requirements and frequency sharing criteria, but questions with respect to the interface policies between the satellite and terrestrial broadcasting services were also raised. In an attempt to obviate these uncertainties in order to proceed with fixed-satellite services, whose parameters are more definable at present, several proponents (MCI, ComSat, Fairchild) suggested the reservation of orbital slots for the broadcasting-satellite service. Others, particularly CPB, HEW, AMST, GE, NAB, and NAB, recommended that any allocation be deferred until additional information concerning the system parameters becomes more defined. A.T. & T., in their reply comments, believed that such action would not be in the national interest and that an allocation consistent with the U.S. position to the WARC (i.e. as reflected in the proposed table) should be taken. ComSat, in their reply comments, believed deferral of an allocation at this time could be detrimental to our national interests if other countries' systems were developed which would conceivably dictate less than optimum channeling and/or orbital locations.

9. The proposed allocation of the 2500-2690 MHz band to the broadcasting-satellite service was generally endorsed although CPB felt that sharing part of the band with the fixed-satellite service might impair the broadcasting service. Additionally, CPB expressed concern over the possibility of a virtual guard-band established between radio astronomy and the broadcasting satellite service and believed that footnote U.S. 74 should provide adequate protection. In this connection CPB also expressed the hope that NASA proposed experiments using the ATS-F satellite would provide a better assessment of the interference potential in this regard.

10. A second proposed use of the band which elicited numerous comments dealt with the use of the 2500-2535 MHz band as a downlink and the 2655-2690 MHz band as an uplink in the fixed-satellite service. The JCET, CPB, Hughes and ComSat expressed the desire that these bands be made available for use in the contiguous United States, as well as in Alaska, Guam, and Hawaii, as proposed in footnote NG 102. Hughes also added that the band is highly desirable for uplinks because of development, power level, cost and reliability status of power transistor amplifiers. HEW cited a lack of clear guidance from the Commission as to the matching uplink for fixed-satellite frequencies to feed the broadcasting satellite. ComSat, in their reply comments, saw no justification at this time for restricting the design of satellite systems by assigning a specific up-link frequency band for operation with the 2500-2690 MHz band. Fairchild, pointing to insufficient isolation between the transmitter and receiver, objected to the Commission's proposal, while Hughes Aircraft, basing their opinion on the design

of a satellite transponder using the proposed arrangement, disagreed. Additionally, GE cited possible interference problems in Alaska, Guam, and Hawaii, and stated the need for additional restrictions on installation of transmitters in those areas to be served by community satellites in the 2500-2690 MHz band.

11. After a careful review and consideration of the comments and reply comments, the Commission believes the national interest, with respect to frequency allocations for broadcasting satellites, can best be served in the following manner. Initially, it should be reiterated that our basic policy remains as described in paragraph 9 of the notice and referenced in paragraph 4 above, i.e., keep our options open during the period the Final Acts of the Space WARC remain in force.

12. With respect to the 620-790 MHz band, the Commission is not persuaded that the provisions of footnote 332A would be useful in the United States at this time. Our present posture remains that, to the best of our knowledge, there are no plans in the United States to implement a broadcasting satellite service on either a domestic or international basis in the band 620-790 MHz. The comments of ComSat notwithstanding, we believe reflection of footnote 332A in the 620-790 MHz band would at least imply a willingness nationally to see the service develop in the band—an implication not yet clearly justified. Accordingly, we prefer to adhere to our original posture of not reflecting footnote 332A in the 620-790 MHz band at this time.

13. While the Commission's proposals concerning the 11.7-12.2 GHz and the 41-43 and 84-86 GHz bands might appear to be inconsistent with the approach taken with the 620-790 MHz band insofar as the broadcasting satellite service is concerned (as was alleged by AMST), there is an important distinction. Whereas no plans are known to be under consideration in the United States to use the 620-790 MHz band for broadcasting satellites, studies and experimentation in communication technology by both industry and the NASA are being focused on the use of the 11.7-12.2 GHz band for that purpose. Additionally, since the allocations at 41-43 and 84-86 GHz were made on a worldwide basis, present no known problems domestically, and offer some degree of guidance for future planning, there has been no valid reason demonstrated why those higher bands should not be allocated to the broadcasting service at this time.

14. Our problem with respect to the 11.7-12.2 GHz band lies not with the proposal to allocate the band for the broadcasting satellite service, per se, but how sharing with the fixed-satellite and terrestrial mobile services shall be accomplished. As indicated in paragraphs 7 and 8 supra, the sharing methodology proposed drew substantial opposition. This opposition was based primarily on the uncertainties surrounding the technical parameters and the spectrum requirements for a broadcasting satellite

service vis-a-vis the fixed satellite service.

15. After reviewing both the comments and the technological state-of-the-art and discussing the matter informally with representatives of industry and other Federal agencies, we agree the allocation proposed is premature and could influence adversely the development of either the broadcasting satellite or fixed satellite services or both. While the assignment of either orbital arc or orbital slots, as suggested by MCI, ComSat, and Fairchild might provide a better solution to the problems raised, the space conference rejected that approach. Rather, the conference adopted a philosophy of flexibility, recognizing equal rights for the radio services and for the administrations using the shared bands. Procedures were adopted in Article 9A for the accommodation of new operations in the face of operations in being to include relocation of satellites already in place, if necessary.

16. Allowing the band to lie fallow, as suggested by several respondents, would allow the time for each technology to develop more fully; however, as pointed out by A.T. & T., such action would represent ineffective and inefficient spectrum management. Moreover, we recognize the constraints such action could impose on design and use of satellite systems domestically, if other systems were developed by other countries in an incompatible manner. Consequently, we reject that posture.

17. On balance and, in an effort to retain our flexibility, we will withdraw the proposal to split the 11.7-12.2 GHz band between the broadcasting satellite and fixed satellite services and to make the former service primary in the upper half and secondary in the lower while reversing the status with the latter service. Instead, we believe a better approach is to reflect the allocation to the broadcasting satellite and fixed satellite services on a coequal primary basis with the terrestrial mobile services on a secondary basis over the entire 500 MHz between 11.7-12.2 GHz. However, a new footnote, NG 105, is being applied to the band, which will indicate our intention to make no assignments to the broadcasting or fixed satellite services in that band until the respective service and technical parameters are better defined. At such time, a notice of proposed rule making can be issued to focus attention on the respective service needs. Since system parameters and demands for either service are not yet clear, such action should not be harmful to proponents of either view. Such action is, however, a clear reflection of our ultimate general allocation intentions.

18. With respect to the 2500-2690 MHz band, the majority of the comments dealt with the restrictions imposed by proposed footnote NG 102. CPB, NAB, JCET, ComSat, and Hughes (in their reply comments) support the extension of the 2500-2535 MHz downlink and 2655-2690 MHz uplink bands in the fixed-satellite service to the contiguous United States as well as Alaska, Hawaii,

Guam, Samoa, and the Trust Territories. As pointed out in the notice (paragraph 14), it was originally planned to limit such use to Alaska, but this use was extended to the Pacific areas to meet a need for an interface between the islands and the global communication networks after it was noted there were no terrestrial assignments in either Guam or Hawaii in the two bands. It was originally believed the present high usage coupled with that anticipated by educators in the 2500-2690 MHz Instructional Television Fixed Service band would preclude satisfactory sharing of the two 35-MHz links in the contiguous United States.

19. In view of the fact that terrestrial usage of the 2500-2690 MHz band appears concentrated in urban areas and that the educational community strongly supports extension of the fixed satellite allocation to the entire United States to meet their prospective needs for two-way audio transmissions, we believe that, with careful system design, a relaxation of the proposed restriction is feasible. Consequently, we are making the 2500-2535 MHz and 2655-2690 MHz bands available to the educational community in the contiguous United States. Because we believe the thin-route fixed-satellite needs in Alaska and the Pacific region can be met by sharing those bands with educational services in those areas, we will retain footnote NG 102 as was proposed, at least until the needs of each service become more clearly defined. Due to the lower antenna elevation angles required in Alaska as opposed to those in lower latitudes, the restrictions imposed on terrestrial stations in the 2655-2690 MHz band by footnote NG 47 will still apply in order to protect satellite-borne receivers in that band.

20. Fairchild, in their comments, indicated that the limited separation between the uplink and downlink would "probably" make it difficult to provide sufficient isolation between the transmitter and receiver within the weight constraints normally associated with communication satellites. Hughes, in their reply comments, did not agree, basing their response on preliminary design work already conducted. While this question was not addressed by other respondents, we believe, based on available study results, that sufficient isolation can, in fact, be achieved.

21. HEW requested guidance with respect to a matching uplink band to feed broadcasting satellite use of the 2500-2690 MHz band. We agree with ComSat that the design of satellite systems should not be restricted at this time. Instead, it should be pointed out that the use of any fixed-satellite band would be appropriate for the purpose. Since, depending on the particular needs and system design, several bands could be required, it appears premature to make a designation at this time.

22. CPB, while pleased with the allocation of the 2500-2690 MHz band to the broadcasting satellite service, nevertheless expressed reservations about the utility of the band for that purpose in

## RULES AND REGULATIONS

view of the need for sharing the two 35-MHz bands at each end with the fixed-satellite service. Despite their reservations, they advocate use of the bands in the conterminous United States as well as Alaska and the Pacific basin proposed. They explain this inconsistency by expressing the belief that any broadcasting satellite service will likely develop at 12 GHz instead of at 2.5 GHz. Because the United States intends the band to be used for community reception of educational and public service material and for fixed satellite usage by the educational community in the United States (except as stated above), we believe the utility of the 2500-2690 MHz band has been enhanced.

23. CPB also expressed concern about possible constraints in view of a possible guardband between the radio astronomy service in the 2690-2700 MHz band and the broadcasting satellite service between 2500-2690 MHz. GE believed the problems regarding protection of radio astronomy from satellite operations in the 2500-2690 MHz band are overstated. They cited the fact that, because of the continued relative motion of the satellite, the probability of main lobe reception of out-of-band interference is low for the worst case and is zero for most.

24. We believe the incorporation of reasonable technical measures in the bands 2500-2690 and 2690-2700 MHz on behalf of each of the services involved will enhance sharing between broadcasting satellites and radio astronomy operations. The results of the forthcoming ATS-F tests should provide valuable data in this regard. Further, the provisions of existing footnote U.S. 74 are also relevant.

25. GE suggested that additional restrictions were needed on installation of transmitters in those areas of Alaska and the Pacific Basin to be served by community or thin route satellites. We agree that conditions of frequency coordination, siting, elevation angles and power flux density, etc., may need to be imposed. However, pending design of such systems, we are not prepared to delineate with greater specificity than presently imposed. We believe greater utility of the frequency band can be achieved at this time by calling attention to the interference potentials and permitting design flexibility than could be achieved by attempting to develop arbitrary standards based on hypothetical situations. In view of tests scheduled by NASA and other entities in connection with the ATS program, better information in this regard is expected to be made available in the near future.

## FIXED SATELLITE SERVICE

26. The frequency bands allocated by the Space WARC to the fixed satellite service were reflected in paragraph 19 of the notice of proposed rule making. In addition to the 2500-2690 MHz and 11.7-12.2 GHz bands which were proposed for sharing with the broadcasting satellite service and which were discussed above, the band 6625-7125 MHz and the bands 10.95-11.2, 11.45-11.7, 17.7-19.7, and 19.7-

21.2 GHz proposed for allocation to the fixed satellite service generated the most comment. The allocation of the 59-64 GHz band to Government services drew significant discussion also.

27. Apparently because the U.S. proposal to allocate the 6625-7125 MHz band to the fixed satellite service on a coequal shared basis with terrestrial fixed and mobile services in Region 2 was a last minute change to our position and had been misunderstood or at least inadequately explained, API, NAM, and the UTC directed a great deal of comment toward it. All three expressed concern for adequate spectrum in which operational fixed microwave growth could be accommodated in this region of the spectrum. As the proposal overlaps the 6525-6875 MHz band, now allocated for private microwave services, it was believed that use of the band by fixed satellites, as proposed by footnote NG 103, would compromise use of the upper 250 MHz by those services. API expressed the opinion that no public interest consideration had been shown for raising footnote 392 AA from the WARC accepted secondary status of the fixed-satellite service to a coequal shared status in the United States.

28. As pointed out in paragraph 14 of the report and order in Docket No. 18294, adopted December 18, 1970, the U.S. proposal regarding the 6625-7125 MHz band was made to the WARC to provide for this essentially one-way service in an economical manner based upon representation of the CBS Television Network Affiliates Association. Additionally, the Affiliates submitted comments and an engineering statement in Docket 16495 which showed that the 6625-7125 MHz band was more effective and efficient for satellite down link, primarily because of increased rainfall attenuation at the higher frequency bands. The Commission's decision in Docket 18294 (the domestic satellite proceeding) considered the public interest aspects of affording local television stations an opportunity to own and operate their own stations should they so desire.

29. With respect to possible interference from space stations to terrestrial stations, the power flux density limits established by footnote No. 470 NM of the Final Acts of the WARC would appear to provide more than adequate protection for terrestrial systems operating in the 6625-7125 MHz band. Further, the burden of providing the coordination contour and proof of noninterference would, as pointed out by ComSat in their reply comments, rest with a potential earth station applicant. In view of the above, we find no merit in the objections of API and UTC to the application of footnote NG 103 to the band 6625-7125 MHz as proposed.

30. UTC also took exception to the Commission's proposal to reallocate the 17.7-19.7 and 27.5-29.5 GHz bands from the fixed and mobile services generally (e.g. both private and common carrier use) to exclusively common carrier. Their objections are based upon a need to provide spectrum relief for operational

fixed services as the bands below 13 GHz become saturated. UTC suggested that sharing between terrestrial operational fixed and space systems can be accommodated just as sharing between terrestrial common carrier and space systems.

31. As A.T. & T. correctly points out in their reply comments, the private users are not being deprived of spectrum availability in that region by virtue of the proposal. Other bands, such as 21.2-22.0 GHz, 22.0-23.6 GHz, 31.0-31.2 GHz and 38.6-40.0 GHz are available although the first two bands cited are presently to be shared with Government services. UTC has not shown any particular needs for this range of the radio spectrum as yet nor can such a showing be made at this time because lower bands allocated for operational fixed use are not yet saturated. On the contrary, common carrier bands at 4, 6 and 11 GHz are rapidly becoming saturated.

32. Further, as UTC is aware, the Commission undertook in 1958 a lengthy proceeding in Docket 11866 to determine spectrum needs and allocation policies in the bands above 890 MHz. Among the resulting policies enunciated by the Commission was the need for separate bands for common carrier and private communication systems. Based principally on differing requirements, reliability and needs between the common carrier and private services, this policy has remained; indeed the policy was underscored pursuant to proceedings in Docket 14729 in 1963 and no showing has been made that a reversal of that policy is now in order.

33. Nevertheless the Commission, on November 29, 1972, adopted a further notice of proposed rule making in Docket No. 18920, in which it was pointed out in footnote 7a, that, before finalizing restriction of the 18 GHz band to common carrier use, we would consider any comments filed therein as to whether private users should also have access to the band on either a shared basis or by allocating a portion for private use.

34. Accordingly, although on the basis of the record in this proceeding, adoption of our proposal to allocate the bands 17.7-19.7 and 27.5-29.5 GHz to common carrier would be justified, we will postpone final decision with respect to the 17.7-19.7 GHz band until the comments in Docket 18920 have been considered. We will, however, allocate the band 27.5-29.5 GHz to the common carrier radio services. A new footnote NG 106, is being applied to the lower band to reflect this decision.

35. In their comments and reply comments, ComSat and A.T. & T. respectively, differ concerning the intent with respect to limiting, by footnote NG 104, the allocation of the 10.95-11.2 and 11.45-11.7 GHz bands to the international satellite service. ComSat questions whether such a general understanding existed prior to and during the WARC and cites the fact that the final Acts do not reflect such an understanding. ComSat further believes the bands should be available for domestic satellite communication as well, and offers comments

showing that the bands could be shared by terrestrial, domestic satellite and international satellite services. ComSat concedes, however, that such sharing could influence the system design of specific systems; however, they believe more efficient use of the spectrum would result.

36. A.T. & T. in response, cites correspondence between it and the Commission as well as proceedings in Docket 18294 which reflect the intent for the two bands in question. A.T. & T., in their comments, requested the insertion of the word "transoceanic" in footnote NG 104 to so limit sharing to those international applications.

37. As the Commission previously indicated in Docket 18294 (sixth notice of proposed rule making, paragraph 38, and seventh report and order, paragraph 28), the anticipated profusion of earth stations coupled with the growth of terrestrial microwave stations in the 10.7-11.7 GHz band was expected to create severe problems if the domestic satellite service were permitted co-use of the bands. While the position may be somewhat inconsistent with that taken with respect to the 4 and 6 GHz bands, as alleged by ComSat, the Commission is not persuaded that a change in the position previously stated is warranted at this time. Accordingly, ComSat's arguments are denied.

38. With respect to the request of A.T. & T. regarding modification of footnote NG 104 to include the word "transoceanic" in further restriction of international satellite operations, we do not concur. As pointed out by ComSat, such a restriction could be interpreted to preclude service to other countries of the Western Hemisphere. We believe the number of earth stations involved with such operations to be so small as to create few problems of potential interference to the terrestrial network. Therefore, footnote NG 104 will remain as proposed.

39. Several respondents, notably A.T. & T., NAM, GE, and Fairchild, recommended action be initiated to extend non-Government sharing of certain frequency bands into spectrum allocated to Government services. These bands included the 59-64 GHz, 7125-8400 MHz, and 14.5-15.35 GHz bands. Such action is outside the scope of the instant proceeding; however, should the necessity arise and adequate justification become available, such action may be initiated in the Commission's continuing review with the Federal Government of spectrum allocation matters.

40. Fairchild indicated the 6625-7125 MHz band fixed satellite downlink approved along with the 14.0-14.5 GHz uplink as a companion band could pose problems because of the possibility of second harmonic interference and urged the Commission to investigate the possibility of a more compatible uplink.

41. As pointed out in paragraph 17 of the notice, the uplink band originally proposed by the United States, 12.75-13.25 GHz, was not accepted by the WARC. As a compromise, the band 14.0-

## RULES AND REGULATIONS

14.5 GHz was allocated. Since neither the WARC final Acts nor the Commission's rules match a given uplink band with a specific downlink band, this newly allocated band might be employed by domestic systems using the 11.7-12.2 GHz downlink band (subject to footnote NG 105), and by international systems using the 10.95-11.2 and 11.45-11.7 GHz downlink bands.

## MISCELLANEOUS ISSUES

42. ARINC/ATA, in their comments, generally supported the Commission's proposal relating to the aviation needs, but raised two points. The first deals with the need to accommodate the conventional aeronautical mobile environment as well as the application of space techniques. Accordingly, they believed that terrestrial use of the 1535-1660 MHz band for the aeronautical mobile (R) services should be on an equal basis with the aeronautical mobile satellite (R) services. The second issue deals with a petition for rule making (RM 1861) which was filed with the Commission on September 30, 1971, and which requests allocations for two subbands of 4 MHz each to accommodate projected 1985 control requirements. That petition is still pending before the Commission.

43. Both of these issues were raised during the development of the U.S. position for the Space WARC in Docket 18294. We are aware the matters have not yet been formally considered and that dispositive actions have not yet been taken. While the Commission understands the concern of ARINC in these matters, we are also aware of discussions now taking place within the aviation community, both domestically and internationally, regarding aeronautical needs in the band. Additionally, the Maritime WARC scheduled for 1974 is also expected to consider use of the 1535-1660 MHz band, portions of which are shared between the Maritime Mobile Satellite and Aeronautical Mobile Satellite Services. We therefore believe consideration of the ARINC/ATA proposals in this proceeding is premature and inappropriate. Accordingly they are denied.

44. General Electric also submitted comments concerning the suitability of bands allocated for the maritime and aeronautical satellite needs. Their comments were based upon an internal study which indicates that the allocations are somewhat less than optimum. GE raised the matter not as a recommendation, but for information primarily because the study is incomplete. Accordingly, we will note the comments and suggest that further information derived be made available when the time is more appropriate and conclusions are more reliable.

45. GE also endorsed the Commission's proposals with respect to the Radio Navigation, Standard Frequency and Time Signal Satellite Services, and suggested changing the wording of certain footnotes (U.S. 201, for example) to read "outside of U.S.A. territorial limits" where flux density limitations are imposed. Such action, GE believes, would be more consistent with the wording of

(332A) where a distinction between domestic and international interference protection might be desired. In addition to the practical problem of adhering to specified limits at prescribed boundaries, it should be noted the power flux density limits were established to meet acceptable operational parameters of the earth exploration satellite service to permit sharing with existing services. Further, such an approach is preferable, since by implication, the proposed condition would permit greater power flux density limits domestically—a condition not intended. Accordingly, the suggestion is denied.

46. In view of the foregoing, the Commission believes the changes discussed are in the public interest, convenience, and necessity. Accordingly, it is ordered, In accordance with authority contained in section 4(i) and 303 of the Communications Act of 1934, as amended, the table of frequency allocations contained in Part 2 of the Commission's rules and regulations is amended as reflected in the attached appendix effective March 1, 1973. Although the Commission is making this order effective on March 1, 1973, it should be noted the Final Acts of the Space WARC entered into force internationally on January 1, 1973.

47. It is further ordered, That the proceedings in Docket 19547, are hereby terminated.

(Secs. 4, 303, 48 Stat., as amended, 1086, 1082; 47 U.S.C. 154, 303)

Adopted: February 14, 1973.

Released: February 23, 1973.

FEDERAL COMMUNICATIONS  
COMMISSION,  
[SEAL] BEN F. WAPLE,  
Secretary.

Part 2 is amended as follows:

§ 2.1 [Amended]

1. Section 2.1 is amended as follows:  
a. The definitions of the following terms are deleted:  
Communication-satellite earth station.  
Communication-satellite service.  
Communication-satellite space station.  
Meteorological-satellite earth station.  
Meteorological-satellite space station.  
Radionavigation-satellite earth station.  
Radionavigation-satellite space station.  
Space research earth station.  
Space research space station.  
Space service.  
Stationary satellite.  
Terrestrial service.

b. The following definitions are amended to read as set forth below:

*Deep space.* Space at distances from the earth approximately equal to, or greater than, the distance between the earth and the moon.

*Earth station.* A station located either on the earth's surface or within the major portion of the earth's atmosphere intended for communication:

<sup>1</sup> Commissioner Johnson concurring in the result; Commissioner Reid absent.

## RULES AND REGULATIONS

(a) With one or more space stations; or

(b) With one or more stations of the same kind by means of one or more passive satellites or other objects in space.

**Meteorological-satellite service.** A radiocommunication service for meteorological purposes.

**Radionavigation-satellite service.** A radiodetermination-satellite service used for the same purposes as the radionavigation service; in certain cases this service includes transmission or retransmission of supplementary information necessary for the operation of radionavigation systems.

**Safety service.** A radiocommunication service used permanently or temporarily for the safeguarding of human life and property on the earth's surface, in the air or in space.

**Spacecraft.** A manmade vehicle which is intended to go beyond the major portion of the earth's atmosphere.

**Space research service.** A radiocommunication service in which spacecraft or other objects in space are used for scientific or technological research purposes.

**Space station.** A station located on an object which is beyond, is intended to go beyond, or has been beyond, the major portion of the earth's atmosphere.

**Terrestrial station.** A station effecting terrestrial radiocommunication.

c. The following new definitions are added in proper alphabetical sequence:

**Aeronautical mobile-satellite service.** A mobile-satellite service in which mobile earth stations are located on board aircraft. Survival craft stations and emergency position indicating radio-beacon stations may also participate in this service.

**Aeronautical radionavigation-satellite service.** A radionavigation-satellite service in which mobile earth stations are located on board aircraft.

**Amateur-satellite service.** A radiocommunication service using space stations on earth satellites for the same purposes as those of the amateur service.

**Broadcasting-satellite service.** A radiocommunication service in which signals transmitted or retransmitted by space stations are intended for direct reception by the general public.

**Note:** In the broadcasting-satellite service, the term "direct reception" shall encompass both individual reception and community reception.

**Community reception** (in the broadcasting-satellite service). The reception of emissions from a space station in the broadcasting-satellite service by receiving equipment, which in some cases may be complex and have antennas larger than those used for individual reception, and intended for use:

(a) By a group of the general public at one location; or  
(b) Through a distribution system covering a limited area.

**Earth exploration-satellite service.** A radiocommunication service between earth stations and one or more space stations in which:

(a) Information relating to the characteristics of the earth and its natural phenomena is obtained from instruments on earth satellites;

(b) Similar information is collected from airborne or earth-based platforms;

(c) Such information may be distributed to earth stations within the system concerned;

(d) Platform interrogation may be included.

**Fixed-satellite service.** A radiocommunication service:

(a) Between earth stations at specified fixed points when one or more satellites are used; in some cases this service includes satellite to satellite links, which may also be effected in the inter-satellite service;

(b) For connection between one or more earth stations at specified fixed points and satellites used for a service other than the fixed-satellite service (for example, the mobile-satellite service, broadcasting-satellite service, etc.).

**Geostationary satellite.** A satellite, the circular orbit of which lies in the plane of the earth's equator and which turns about the polar axis of the earth in the same direction and with the same period as those of the earth's rotation. The orbit on which a satellite should be placed to be a geostationary satellite is called the "geostationary satellite orbit".

**Individual reception** (in the broadcasting-satellite service). The reception of emissions from a space station in the broadcasting-satellite service by simple domestic installations and in particular those possessing small antennas.

**Inter-satellite service.** A radiocommunication service providing links between artificial earth satellites.

**Land mobile-satellite service.** A mobile-satellite service in which mobile earth stations are located on land.

**Maritime mobile-satellite service.** A mobile-satellite service in which mobile earth stations are located on board ships. Survival craft stations and emergency position indicating radio-beacon stations may also participate in this service.

**Maritime radionavigation-satellite service.** A radionavigation-satellite service in which mobile earth stations are located on board ships.

**Mobile-satellite service.** A radiocommunication service:

(a) Between mobile earth stations and one or more space stations; or between space stations used by this service;

(b) Or between mobile earth stations by means of one or more space stations;

(c) And if the system so requires, for connection between these space stations and one or more earth stations at specified fixed points.

**Radiodetermination-satellite service.** A radiocommunication service involving the use of radiodetermination and the use of one or more space stations.

**Satellite system.** A space system using one or more artificial earth satellites.

**Space operation service.** A radiocommunication service concerned exclusively with the operation of spacecraft, in particular tracking, telemetry and telecommand. These functions will normally be provided within the service in which the space station is operating.

**Space radiocommunication.** Any radiocommunication involving the use of one or more space stations or the use of one or more passive satellites or other objects in space.

**Space system.** Any group of co-operating earth and/or space stations employing space radiocommunication for specific purposes.

**Standard frequency-satellite service.** A radiocommunication service using space stations on earth satellites for the same purposes as those of the standard frequency service.

**Terrestrial radiocommunication.** Any radiocommunication other than space radiocommunication or radio astronomy.

2. Section 2.100 is amended to read as follows:

§ 2.100 International regulations in force.

The Radio Regulations (Geneva, 1959), which became effective internationally on May 1, 1961, were incorporated to the extent practicable in Subparts A and B of this part and became effective nationally on December 1, 1961. The Radio Regulations were subsequently revised, in part, by the Extraordinary Administrative Radio Conference (EARC) (Geneva, 1963), again by the EARC (Geneva, 1966), and again by the World Administrative Radio Conference (WARC) (Geneva, 1967). Subparts A and B were amended, as appropriate, to reflect those partial revisions. The Radio Regulations were again revised, in part, by the WARC (Geneva, 1971), which specified January 1, 1973, as the effective date of the revision. This last partial revision has also been incorporated, to the extent practicable, in Subparts A and B of this part and is applicable nationally, effective January 1, 1973.

§ 2.106 [Amended]

3. Section 2.106 is amended as follows:  
a. The table is amended, in part, to read as follows:

Worldwide	Region 2				United States				Federal Communications Commission			
	Band (kHz)	Service	Band (kHz)	Service	Band (kHz)	Allocation	Band (kHz)	Service	Class of Station	Frequency (kHz)	Nature of stations	Standard frequency.

FEDERAL REGISTER, VOL. 38, NO. 40—THURSDAY, MARCH 1, 1973

b. In the list of footnotes immediately following the table in § 2.106, the following Geneva footnotes are deleted: (204), (215), (215A), (221), (221A), (276), (281B), (281F), (284A), (317), (355A), (356B), (365), (374A), (392A), (392C), (392F), (394C), (409A), (409D), and (410).

c. The following Geneva footnotes to the table in § 2.106 are amended to read:

(235) The band 39.988-40.020 MHz is also allocated on a secondary basis to the space research service.

(281E) In Malaysia, Pakistan, and the Philippines, the band 137-138 MHz is also allocated to the fixed and mobile services.

(285A) The band 148-149.9 MHz may be authorized for space telecommand, subject to agreement between the administrations concerned and those having services operating in accordance with the table, which may be affected. The bandwidth of an individual transmission shall not exceed  $\pm 15$  kHz.

(285B) In Austria, Bulgaria, Cuba, Hungary, Iran, Kuwait, Pakistan, Poland, the United Arab Republic, Roumania, and Yugoslavia, the band 149.90-150.05 MHz is also allocated to the fixed and mobile services (see Recommendation No. Spa 8).

(310) Radio astronomy observations in the band 322-328.6 MHz are carried out in a number of countries under national arrangements. Administrations should bear in mind the needs of the radio astronomy service in using this band.

(311A) In Bulgaria, Cuba, Greece, Hungary, Indonesia, Iran, Kuwait, Lebanon, the United Arab Republic, Syria, and Yugoslavia, the band 399.9-400.05 MHz is also allocated to the fixed and mobile services (see Recommendation No. Spa 8).

(318) Radio altimeters may also be used until 31 December 1974 in the band 420-460 MHz. However, after this date, they may be authorized to continue to operate on a secondary basis except in the U.S.S.R. where they will continue to operate on a primary basis.

(319A) The band 449.75-450.25 MHz may be used for space telecommand and space research (earth-to-space), subject to agreement between the administrations concerned and those having services operating in accordance with the table, which may be affected.

(340) In Region 2, the frequency 915 MHz is designated for industrial, scientific and medical purposes. Emissions must be confined within the limits of  $\pm 13$  MHz of that frequency. Radiocommunication services operating within these limits must accept any harmful interference that may be experienced from the operation of industrial, scientific and medical equipment.

## RULES AND REGULATIONS

(350A) Space stations employing frequencies in the band 1525-1535 MHz for telemetering purposes may also transmit tracking signals in this band.

(352A) The bands 1558.5-1636.5 MHz, 4200-4400 MHz, 5000-5250 MHz, and 15.4-15.7 GHz are reserved on a worldwide basis for the use and development of airborne electronic aids to air navigation and any directly associated ground-based or satellite-borne facilities.

(352B) The bands 1558.5-1636.5 MHz, 5000-5250 MHz, and 15.4-15.7 GHz are also allocated to the aeronautical mobile (R) service for the use and development of systems using space radiocommunication techniques. Such use and development is subject to agreement and coordination between the administrations concerned and those having services operating in accordance with the table, which may be affected.

(353A) In view of the successful detection of two hydroxyl spectral lines in the regions of 1665 MHz and 1667 MHz by astronomers, administrations are urged to give all practicable protection in the band 1660-1670 MHz for future research in radio astronomy particularly by eliminating air-to-ground transmissions in the meteorological aids service in the band 1664.4-1668.4 MHz as soon as practicable.

(354A) In Bulgaria, Cuba, Ethiopia, Hungary, Israel, Jordan, Kenya, Kuwait, Lebanon, Uganda, Pakistan, Poland, the United Arab Republic, Roumania, Syria, Tanzania, Czechoslovakia, the U.S.S.R., and Yugoslavia, the bands 1660-1670 MHz and 1690-1700 MHz are also allocated to the fixed service and the mobile, except aeronautical mobile, service.

(356A) In Region 2, in Australia and Japan the band 1750-1850 MHz may also be used for earth-to-space transmissions, and in Regions 2 and 3 the band 2200-2290 MHz may also be used for space-to-earth transmissions, in the space research service subject to agreement between the administrations concerned and those having services operating in accordance with the table, which may be affected.

(364A) In Bulgaria, Cuba, Hungary, India, Israel, Kuwait, Lebanon, Morocco, Pakistan, the Philippines, Poland, the United Arab Republic, Yugoslavia, Roumania, Czechoslovakia and the U.S.S.R., the band 2690-2700 MHz is also allocated to the fixed and mobile services.

(383A) In Cuba, the band 4990-5000 MHz is also allocated to the fixed and mobile services, and the provisions of No. 233B apply.

(392B) The band 7145-7235 MHz may be used for earth-to-space transmissions in the space research service, subject to agreement between the administrations concerned and those having services operating in accordance with the table, which may be affected.

(392D) As an exception, passive fixed-satellite systems also may be accommodated in the band 7250-7750 MHz subject to:

(a) Agreement between the administrations concerned and those whose services, operating in accordance with the table, may be affected;

(b) The coordination procedure laid down in Articles 9 and 9A.

Such systems shall not cause any more interference at active earth station receivers than would be caused by fixed or mobile services. Power flux density limitations at the earth's surface after reflection from the passive fixed-satellites shall not exceed those prescribed in these regulations for active fixed-satellite systems.

d. The following new Geneva footnotes are added in proper numerical sequence:

(201A) The frequencies 2182 kHz, 3023.5 kHz, 5680 kHz, 8364 kHz, 121.5 MHz, 156.8 MHz, and 243 MHz may also be used, in accordance with the procedures in force for terrestrial radiocommunication services, for search and rescue operations concerning manned space vehicles.

The same applies to the frequencies 10003 kHz, 14993 kHz, and 19993 kHz, but in these cases emissions must be confined in a band of  $\pm 3$  kHz about the frequency.

(203A) The bands 2501-2502 kHz, 5003-5005 kHz, 10003-10005 kHz, 15005-15010 kHz, 19990-19995 kHz, 20005-20010 kHz, and 25005-25010 kHz are also allocated, on a secondary basis, to the space research service.

(221B) In Bulgaria, Hungary, Poland, Roumania, Czechoslovakia and the U.S.S.R. the band 21850-21870 kHz is also allocated to the aeronautical fixed and the aeronautical mobile (R) services. The administrations concerned will take all practicable steps to protect radio astronomy observations from harmful interference.

(222A) In Argentina and Uruguay the band 24528-24538 kHz may be used by the space research service, subject to agreement between the administrations concerned and those having services operating in accordance with the table, which may be affected.

(233A) In Argentina and Uruguay, the bands 36.65-36.85 MHz, 41.15-41.35 MHz, and 45.65-45.85 MHz, and in Argentina, Brazil, and Uruguay the band 170.55-170.95 MHz, are allocated to the radio astronomy service and no assignments shall be made to the fixed and mobile services in these bands.

(233B) In making assignments to stations of other services to which the bands 37.75-38.25 MHz, 150.05-153 MHz, 406.1-410 MHz, 2690-2700 MHz, and 4700-5000 MHz are allocated, administrations are urged to take all practicable steps to protect radio astronomy observations from harmful interference.

(236A) The band 40.980-41.015 MHz is also allocated on a secondary basis to the space research service, in particular for measurements of the differential Faraday effect.

(274A) In Regions 2 and 3, stations of the fixed and mobile services may continue

FEDERAL REGISTER, VOL. 38, NO. 40—THURSDAY, MARCH 1, 1973

to use the band 132-136 MHz until 1 January 1976. Until that date, frequency assignments to the aeronautical mobile (R) service shall be co-ordinated between the administrations concerned and shall be protected from harmful interference.

(274B) In Cuba and Mexico, the band 132-136 MHz is also allocated to the fixed and mobile services.

(281AA) In Bulgaria, China, Cyprus, Korea, Spain, Ethiopia, Ghana, Hungary, India, Indonesia, Iran, Iraq, Kenya, Kuwait, Malaysia, Uganda, Pakistan, Philippines, Poland, Portugal, the United Arab Republic, Rumania, Senegal, Syria, Tanzania, Czechoslovakia, and the U.S.S.R., the band 136-137 MHz is also allocated to the fixed and mobile services.

(283A) In Argentina, the frequency 138.540 MHz  $\pm$  7.5 kHz and the band 143.6-143.65 MHz may be used by the space research service (telecommand), subject to agreement between the administrations concerned and those having services operating in accordance with the table, which may be affected.

(285C) Emissions of the radionavigation-satellite service in the bands 149.90-150.05 MHz and 399.90-400.05 MHz may also be used by receiving earth stations of the space research service.

(287A) In the frequency bands designated for the maritime mobile service in accordance with Appendix 18 of the radio regulations, the use of satellite systems for safety and distress may be authorized on certain channels on an exclusive basis in the band 157.3125-157.4125 MHz for transmissions from ships to satellites and in the band 161.9125-162.0125 MHz for transmissions from satellites to ships. The satellite systems shall not be brought into use before January 1, 1976 (see Resolution No. Spa 2-5).

(305A) In New Zealand the band 235-239.5 MHz is also allocated to the aeronautical radionavigation service.

(308A) The bands 240-328.6 MHz and 335.4-399.9 MHz may also be used by the mobile-satellite service. The use and development of this service shall be subject to agreement between the administrations concerned and those having services operating in accordance with the table, which may be affected.

(310A) In India, the band 322-328.6 MHz is also allocated to the radio astronomy service.

(312B) In this band the standard frequency is 400.1 MHz. Emissions shall be confined in a band of  $\pm 25$  kHz about this frequency.

(315C) In the band 401-403 MHz, earth exploration-satellite applications, other than the meteorological-satellite service, may also be used for earth-to-space transmissions on condition that no harmful interference is caused to stations operating in accordance with the table.

(317A) The band 406-406.1 MHz is reserved solely for the use and development of low-power (not to exceed 5W) emergency position-indicating radiobeacon (EPIRB) systems using space techniques.

(317B) In Austria, Bulgaria, Chile, Cuba, Ethiopia, Hungary, India, Iran, Kenya, Kuwait, Liechtenstein, Malaysia, Uganda, Poland, the United Arab Republic, Rwanda, Sweden, Switzerland, Syria, Tanzania, Czechoslovakia and in the U.S.S.R., the band 406-406.1 MHz is also allocated to the fixed service and the mobile, except aeronautical mobile service.

(319B) In France and the French Department of Guyana (Region 2) the frequency 434 MHz  $\pm$  0.25 MHz may be used for space operation (earth-to-space) subject to agreement between the administrations concerned and those having services operating in accordance with the table, which may be affected.

cordance with the table, which may be affected.

(320A) In the band 435-438 MHz, the amateur-satellite service may be authorized, on condition that harmful interference shall not be caused to other services operating in accordance with the table. Administrations authorizing such use shall ensure that any harmful interference caused by emissions from an amateur satellite is immediately eliminated in accordance with the provisions of No. 1597A.

(324B) Earth exploration-satellite service applications, other than the meteorological-satellite service, may also be used in the bands 460-470 MHz and 1690-1700 MHz for space-to-earth transmissions on condition that no harmful interference is caused to stations operating in accordance with the table.

(329A) In Argentina and Uruguay, the band 602-608 MHz is allocated to the radio astronomy service.

(332A) Within the frequency band 620-780 MHz, assignments may be made to television stations using frequency modulation in the broadcasting-satellite service, subject to agreement between the administrations concerned and those having services, operating in accordance with the table, which may be affected (see Resolutions Nos. Spa 2-2 and Spa 2-3). Such stations shall not produce a power flux density in excess of the value -129 dBW/m<sup>2</sup> for angles of arrival less than 20° (see Recommendation No. Spa 2-10) within the territories of other countries without the consent of those countries.

(349A) Radio astronomic observations on the Hydrogen line displaced towards lower frequencies are carried out in a number of countries under national arrangements. Administrations should bear in mind the needs of the radio astronomy service in their future planning of the band 1350-1400 MHz.

(352E) The use of the band 1535-1542.5 MHz is limited to transmissions from space to earth stations in the maritime mobile-satellite service for communication and/or radiodetermination purposes. Transmissions from coast stations directly to ship stations, or between ship stations, are also authorized when such transmissions are used to extend or supplement the satellite-to-ships links.

(352F) The use of the band 1542.5-1543.5 MHz is limited to transmissions from space-to-earth stations in the aeronautical mobile-satellite (R) and maritime mobile-satellite services for communication and/or radiodetermination purposes. Transmissions from land stations directly to mobile stations, or between mobile stations, of the aeronautical mobile (R) and maritime mobile services, are also authorized. The utilization of this band is subject to prior operational coordination between the two services.

(352G) The use of the band 1543.5-1558.5 MHz is limited to transmissions from space-to-earth stations in the aeronautical mobile-satellite (R) service for communication and/or radiodetermination purposes. Transmissions from terrestrial aeronautical stations directly to aircraft stations, or between aircraft stations, in the aeronautical mobile (R) service are also authorized when such transmissions are used to extend or supplement the satellite-to-aircraft links.

(352H) The use of the band 1635.5-1644 MHz is limited to transmissions from earth-to-space stations in the maritime mobile-satellite service for communication and/or radiodetermination purposes. Transmissions from ship stations directly to coast stations, or between ship stations, are also authorized when such transmissions are used to extend or supplement the ship-to-satellite links.

(352I) The use of the band 1644-1645 MHz is limited to transmissions from earth-to-

space stations in the aeronautical mobile-satellite (R) and maritime mobile-satellite services for communication and/or radiodetermination purposes. Transmissions from mobile stations directly to land stations, or between mobile stations, of the aeronautical mobile (R) and maritime mobile services, are also authorized. The utilization of this band is subject to prior operational coordination between the two services.

(352J) The use of the band 1645-1660 MHz is limited to transmissions from earth-to-space stations in the aeronautical mobile-satellite (R) service for communication and/or radiodetermination purposes. Transmissions from aircraft stations in the aeronautical mobile (R) service directly to terrestrial aeronautical stations, or between aircraft stations, are also authorized when such transmissions are used to extend or supplement the aircraft-to-satellite links.

(352K) Radio astronomy observations on important spectral lines due to the hydroxyl radical OH at frequencies 1612.231 MHz and 1720.530 MHz are carried out in a number of countries under national arrangements; the bands observed being 1611.5-1612.5 MHz and 1720-1721 MHz, respectively. Administrations should bear in mind the needs of the radio astronomy service in their future planning of the bands 1658.5-1658.5 MHz and 1710-1710 MHz.

(354D) The band 1700-1700.2 MHz may be used, on a secondary basis, for the transmission from space stations on board satellites of frequencies harmonically related to those emitted in the bands 149.9-150.05 MHz and 399.9-400.0 MHz for the requirements of ionospheric investigation and geodesy.

(356AB) In Regions 2 and 3 and in Spain, in the band 2025-2120 MHz earth-to-space transmissions in the earth exploration-satellite service may be authorized with equality of right to operate with stations of other space radiocommunication services in the band and subject to agreement between the administrations concerned and those having services operating in accordance with the table, which may be affected.

(356ABA) In Region 2, Australia and Spain in the band 2025-2120 MHz and in Regions 1 and 3 in the band 2110-2120 MHz earth-to-space transmissions in the space research service may be authorized with equality of right to operate with other space radiocommunication services in these bands, subject to agreement between the administrations concerned and those having services operating in accordance with the table, which may be affected.

(361A) In France the band 2500-2550 MHz is also allocated on a primary basis to the radiolocation service and, on a secondary basis, to the fixed and mobile services. In Canada, the band 2500-2550 MHz is also allocated on a primary basis to the radiolocation service.

(361B) The use of the band 2500-2690 MHz by the broadcasting-satellite service is limited to domestic and regional systems for community reception and such use is subject to agreement between the administrations concerned and those having services operating in accordance with the table, which may be affected (see Resolutions Nos. Spa 2-2 and Spa 2-3). The power flux density at the earth's surface shall not exceed the values given in Nos. 470NH-470NK.

(364C) When planning new tropospheric scatter radio-relay links in the band 2500-2690 MHz, all possible measures shall be taken to avoid directing the antennae of these links towards the geostationary satellite orbit.

(364D) Administrations shall make all practicable effort to avoid developing new tropospheric scatter systems in the band 2655-2690 MHz.

(364E) The use of the bands 2500-2535 MHz and 2655-2690 MHz by the fixed-satellite service is limited to domestic and regional systems and such use is subject to agreement between the administrations concerned and those having services operating in accordance with the Table, which may be affected (see Article 9A). In the direction space-to-earth, the power flux density at the surface of the earth shall not exceed the values given in No. 470NE.

(364G) Radio astronomy observations are being carried out in the band 2670-2690 MHz in a number of countries under national arrangements. Administrations should bear in mind the needs of the radio astronomy service in their future planning of this band.

(364H) In the design of systems in the broadcasting-satellite service, administrations are urged to take all necessary steps to protect the radio astronomy service in the band 2690-2700 MHz.

(379A) The standard frequency-satellite service and the time signal-satellite service may be authorized to use the frequency 4202 MHz for space-to-earth transmissions and the frequency 6427 MHz for earth-to-space transmissions. Such transmissions shall be confined within the limits of  $\pm 2$  MHz of these frequencies and shall be subject to agreement between the administrations concerned and those having services operating in accordance with the table, which may be affected.

(382A) Radio astronomy observations on the formaldehyde line (rest frequency 4829.649 MHz) are being carried out in a number of countries under national arrangements. Administrations should bear in mind the needs of the radio astronomy service in their future planning of the band 4825-4835 MHz.

(382B) Radio astronomy observations (in the band 4950-4990 MHz) are being carried out in a number of countries under national arrangements. Administrations should bear in mind the needs of the radio astronomy service in their future planning of this band.

(383B) The band 5000-5250 MHz is also allocated to the fixed-satellite service for connection between one or more earth stations at specified fixed points on the earth and satellites used by the aeronautical mobile (R) service and/or the radio determination service. Such use and development shall be subject to agreement and coordination between the administrations concerned and those having services operating in accordance with the table, which may be affected.

(391A) Radio astronomy observations are being carried out in the bands 5750-5770 MHz and 58.458-58.488 GHz in a number of countries under national arrangements. Administrations are urged to take all practicable steps to protect radio astronomy observations in these bands from harmful interference.

(392AA) In Brazil, Canada, and the United States of America, the band 6625-7125 MHz is also allocated on a secondary basis to the fixed-satellite service for space-to-earth transmissions. In Region 2, the power flux density produced by space stations in this band shall be in accordance with the provisions of No. 470NM. In Regions 1 and 3, it shall be at least 6 db lower. Receiving earth stations in this band may not impose restrictions on the locations or technical parameters of existing or future terrestrial stations of other countries.

(405BB) Terrestrial radiocommunication services in the band 11.7-12.2 GHz in Region 2 shall be introduced only after the elaboration and approval of plans for the space radiocommunication services, so as to insure

compatibility between the uses that each country decides for this band.

(405BC) The use of the band 11.7-12.2 GHz by the broadcasting-satellite and fixed-satellite services is limited to domestic systems and is subject to previous agreement between the administrations concerned and those having services operating in accordance with the table, which may be affected (see Article 9a and Resolution No. Spa 2-3).

(407A) The band 13.25-14.2 GHz may also be used on a secondary basis for earth-to-space transmissions in the space research service, subject to agreement between the administrations concerned and those having services operating in accordance with the table, which may be affected.

(408A) The use of the bands 14-14.3 GHz and 14.3-14.4 GHz by the radionavigation service and radionavigation-satellite service respectively, shall be such as to provide sufficient protection to space stations of the fixed-satellite service (see Recommendation No. Spa 2-15, Para. 2.14).

(403B) The band 14.4-15.35 GHz may also be used on a secondary basis for space-to-earth transmissions in the space research service, subject to agreement between the administrations concerned and those having services operating in accordance with the table, which may be affected.

(408C) Radio astronomy observations on the formaldehyde line (rest frequency 14.489 GHz) are being carried out in a number of countries under national arrangements. In making assignments to stations in the fixed and mobile services, administrations are urged to take all practicable steps to protect radio astronomy observations from harmful interference in the band 14.485-14.515 GHz.

(409E) In Japan, the bands 19.7-21.2 GHz and 29.5-31 GHz are also allocated to the fixed and mobile services. This additional use shall not impose any limitation to the power flux density of space stations in the fixed-satellite service.

(410A) The band 22.21-22.26 GHz is also allocated to the radio astronomy service for observations of a spectral line due to water vapor (rest frequency 22.235 GHz). Administrations are urged to give all practicable protection in this band for future research in radio astronomy.

(410C) The frequency 24.125 GHz is designated for industrial, scientific and medical purposes. Emissions must be confined within the limits of  $\pm 125$  MHz of that frequency. Radiocommunication services operating within those limits must accept any harmful interference that may be experienced from the operation of industrial, scientific and medical equipment.

(412I) Radio astronomy observations in the band 31.2-31.3 GHz are carried out in a number of countries under national arrangements. Administrations are urged to take all practicable steps to protect radio astronomy observations from harmful interference.

(412J) All emissions in the bands 52-54.25 GHz, 58.2-59 GHz, 64-65 GHz, 86-92 GHz, 101-102 GHz, 130-140 GHz, 182-185 GHz, and 230-240 GHz are prohibited. The use of passive sensors by other services is also authorized.

(412K) Radio astronomy observations on the carbon monoxide line at 115.271 GHz are carried out in a number of countries under national arrangements. In making assignments to other services in the Table, administrations should bear in mind the need to protect radio astronomy observations from harmful interference in the band 115.16-115.38 GHz.

e. Footnote NG46 is deleted from the NG footnotes following the Table of Frequency Allocations in § 2.106.

f. Footnotes NG47, NG51, and NG59 are amended to read as follows:

NG47 In the band 2500-2690 MHz, the television channels 2650-2656 MHz, 2662-2668 MHz, and 2674-2680 MHz and the corresponding response frequencies 2686.9375 MHz, 2687.9375 MHz and 2688.9375 MHz may be assigned to operational fixed stations in the public safety services (Part 89 of this chapter) on a primary basis and to operational fixed stations in other services on a secondary basis. Such assignments are subject to the condition that all operational fixed stations must comply with the technical standards applicable to stations in the instructional television fixed service contained in Subpart I of Part 74 of this chapter. All other frequencies in this band for terrestrial operations are available for assignment only to stations in the instructional television fixed service. Stations authorized in this band as of July 16, 1971, which do not comply with the above provisions may continue to operate on their presently assigned frequencies on a co-equal basis with other stations operating in accordance with the table of frequency allocations. Requests for subsequent license renewals or modifications of existing licenses will be considered; however, expansion of systems comprised of such stations will not be permitted. In Alaska, however, frequencies within the band 2655-2690 MHz are not available for assignment to terrestrial stations.

NG51 In Puerto Rico and the Virgin Islands only, the bands 150.8-150.98 MHz and 150.98-151.49 MHz are allocated exclusively to the business radio service.

NG59 The frequencies 37.60 and 37.84 MHz may be authorized only for use by base, mobile, and operational fixed stations participating in an interconnected or coordinated power service utility system.

g. The following new NG footnotes are added in proper numerical sequence:

NG101 The use of the band 2500-2690 MHz by the broadcasting-satellite service is limited to domestic and regional systems for community reception of educational television programming and public service information. Such use is subject to agreement among administrations concerned and those having services operating in accordance with the table, which may be affected. Unless such agreement includes the use of higher values, the power flux density at the earth's surface produced by emissions from a space station in this service shall not exceed those values set forth in Part 73 of the rules for this frequency band.

NG102 The frequency bands 2500-2535 MHz (space-to-earth) and 2655-2690 MHz (earth-to-space) are allocated for use in the fixed-satellite service as follows:

(a) For common carrier use in Alaska, for intra-Alaska service only, and, in the mid and western Pacific area including American Samoa, the Trust Territory of the Pacific Islands, Guam and Hawaii;

(b) For educational use in the contiguous United States, Alaska, and the mid and western Pacific area including American Samoa, the Trust Territory of the Pacific Islands, Guam and Hawaii.

Such use is subject to agreement with administrations having services operating in accordance with the table, which may be affected. In the band 2500-2535 MHz, unless such agreement includes the use of higher values, the power flux density at the earth's surface produced by emissions from a space station in this service shall not exceed the values set forth in Part 25 of the rules for this frequency band.

NG103 In the band 6625-7125 MHz, the fixed-satellite service (space-to-earth) has

## RULES AND REGULATIONS

equal rights with the fixed and mobile services within the United States. Internationally, however, it is secondary with respect to the services of other countries operating in accordance with the table and receiving earth stations in this band may not impose restrictions on the locations or technical parameters of existing or future terrestrial stations of other countries.

NG104 The use of the bands 10.95-11.2 and 11.45-11.7 GHz in the fixed-satellite service is limited to international systems, i.e., other than domestic systems.

NG105 In the band 11.7-12.2 GHz, assignments in the Broadcasting Satellite and Fixed Satellite Services will not be made pending further order of the Commission.

NG106 Final allocation of the band 17.7-19.7 GHz will be based upon determinations made in Docket 18920.

h. Footnotes US3, US6, US37, US38, US40, US52, US55, US56, US61, US62, US68, US83, US84, US86, US89, US91, US92, and US101 are deleted from the U.S. footnotes following the Table of Frequency Allocations in § 2.106.

i. The following U.S. footnotes are amended to read as indicated.

US1 In the bands 26.96-27.23, 28-29.7, 50-54, and 144-148 MHz pulsed emissions are prohibited.

US13 For the specific purpose of transmitting hydrological and meteorological data in cooperation with agencies of the Federal Government, the following frequencies may be authorized to non-Government fixed stations on the condition that harmful interference will not be caused to Government stations.

MHz	MHz	MHz
169.425	171.025	406.125
169.450	171.050	406.175
169.475	171.075	409.675
169.500	171.100	409.725
169.525	171.125	412.625
170.225	171.825	412.675
170.250	171.850	412.725
170.275	171.875	412.775
170.300	171.900	
170.325	171.925	

Licensees holding a valid authorization on June 11, 1962, to operate on the frequencies 169.575, 170.375, or 171.975 MHz may continue to be authorized for such operation on the condition that harmful interference will not be caused to Government stations.

Licensees holding a valid authorization on January 1, 1973, to operate on the frequencies 406.025, 406.050, or 406.075 MHz may continue to be authorized for such operations until the expiration of their present license on the condition that harmful interference will not be caused to stations operating in accordance with the table.

US14 The frequency band 510-535 kHz is not available to non-Government stations except that the frequency 512 kHz is available for use by non-Government ship telegraph stations, as a working frequency. When 500 kHz is being used for distress purposes, ship and coast stations may use 512 kHz for calling.

US21 Existing Government operations and non-Government stations authorized in the band 73-74.6 MHz as of December 1, 1961, may continue and shall not be required to afford protection to radio astronomy observatories within the United States and possessions. However, by international agreement, such stations must afford protection to the observatories of other countries.

US32 The Government use of the band 123.125-123.575 MHz is for FAA communications incident to flight test activities pertinent to aircraft and facility certification.

US33 The band 123.125-123.575 MHz is for use by flight test and aviation instruction stations.

US34 The only non-Government service permitted in the bands 220-225 MHz, 1215-1300 MHz, 2300-2450 MHz, and 5650-5925 MHz is the amateur service. The amateur service shall not cause harmful interference to the radiolocation service.

US35 Except as provided by footnotes 320A and US87, the only non-Government service permitted in the band 420-450 MHz is the amateur service. The amateur service shall not cause harmful interference to the radiolocation service.

US48 The non-Government radiolocation service may be authorized in the bands 5350-5460 MHz and 9000-9200 MHz on the condition that it does not cause harmful interference to the aeronautical radionavigation service or to the Government radiolocation service.

US51 In the bands 5600-5650 MHz and 9300-9500 MHz the non-Government radiolocation service shall not cause harmful interference to the Government radiolocation service.

US53 In view of the fact that the band 13.25-13.4 GHz is allocated to Doppler navigation aids, Government and non-Government airborne Doppler radars in the aeronautical radionavigation service are permitted in the band 8750-8850 MHz only on the condition that they must accept any interference which may be experienced from stations in the radiolocation service in the band 8500-10,000 MHz.

US70 The meteorological aids service allocation in the band 400 15-406 MHz does not preclude the operation therein of associated ground transmitters.

US74 In the bands 21.85-21.87, 73-74.6, 406.1-410, 1400-1427, 1680-1670, 2890-2700, and 4990-5000 MHz and in the bands 10.68-10.7, 15.35-15.4, 23.6-24, 31.2-31.5, 86-92, 130-140, and 230-240 GHz, the radio astronomy service shall be protected from extra-band radiation only to the extent that such radiation exceeds the level which would be present if the offending station were operating in compliance with the technical standards or criteria applicable to the service in which it operates.

US78 In the band 1435-1535 MHz, the frequencies between 1435 and 1485 MHz will be assigned primarily for the flight testing of manned aircraft, or major components thereof; the frequencies between 1485 and 1535 MHz will be assigned primarily for the flight testing of unmanned aircraft and missiles or major components thereof. Included as permissible usage for aeronautical telemetering stations in the band 1435-1535 MHz is telemetry associated with launching and reentry into earth's atmosphere, as well as any incidental orbiting prior to reentry, of manned or unmanned objects undergoing flight tests.

US81 The band 38-38.25 MHz may be used by both Government and non-Government radio astronomy observatories. No new assignments are to be made and Government stations in the band 38-38.25 MHz will be moved to other bands on a case-by-case basis, as required, to protect radio astronomy observations from harmful interference. As an exception, however, low powered military transportable and mobile stations used for tactical and training purposes will continue to use the band. To the extent practicable, the latter operations will be adjusted to relieve such interference as may be caused by radio astronomy observations. In the event of harmful interference from such local operations, radio astronomy observatories may contact local military commands directly, with the view of effecting relief. A list of military commands, areas of coordination, and points of contact for purposes of relief-

ing interference may be obtained upon request from the Office of the Chief Engineer, Federal Communications Commission, Washington, D.C. 20554.

US82 The assignable frequencies in the bands 4139.5-4142.5 kHz, 6210.4-6216.5 kHz, 8281.2-8288 kHz, 12421-12431.5 kHz, 16565-16576 kHz, and 22094.5-22112 kHz may be authorized on a shared nonpriority basis to Government and non-Government ship and coast stations (SSB telephony, with peak envelope power not to exceed 1 kw.).

US90 In the band 2025-2120 MHz earth-to-space transmissions in the space research and earth exploration-satellite services by Government and non-Government stations at specific locations may be authorized subject to such conditions as may be applied on a case-by-case basis.

US94 The bands 30.005-30.015 MHz, 39.988-40.02 MHz, and 40.980-41.015 MHz are also allocated, on a secondary basis, to the Government and non-Government space research service for space-to-earth transmission only.

US99 In the band 1680-1670 MHz the meteorological aids service (radiosonde) will avoid operations to the maximum extent practicable. Whenever it is necessary to operate radiosondes in the band 1680-1670 MHz within the United States, the radio astronomers will be notified in a timely manner.

US104 In the band 90-110 kHz, the LORAN radionavigation system has priority in the United States and possessions.

US110 In the frequency bands 3100-3300 MHz, 3500-3700 MHz, 5250-5350 MHz, 8500-9000 MHz, 9200-9300 MHz, 9500-10000 MHz, 13.4-14.0 GHz, 15.7-17.7 GHz, 24.05-24.25 GHz, and 33.4-36 GHz, the non-Government radiolocation service shall be secondary to the Government radiolocation service and to airborne doppler radars at 8800 MHz.

US111 In the band 1990-2110 MHz, Government space research earth stations may be authorized to use the frequencies 2062.05, 2062.85, 2063.85, 2069.2, 2070, 2071, 2075.8, 2076.6, 2077.6, 2101.8, 2106.4 MHz, and the band 2110-2120 MHz for earth-to-space transmissions for tracking, ranging and telecommand purposes at only the sites listed below. Such transmissions shall not cause harmful interference to non-Government operations.

Corpus Christi, Tex., 27°39' N., 097°23' W.  
Fairbanks, Alaska, 64°59' N., 147°53' W.  
Goldstone, Calif., 35°18' N., 116°54' W.  
Greenbelt, Md., 39°00' N., 076°50' W.  
Guam, Mariana Islands, 13°19' N., 144°44' E.

Kaui, Hawaii, 22°08' N., 159°40' W.  
Merritt Island, Fla., 28°29' N., 080°35' W.  
Rosman, N.C., 35°12' N., 082°52' W.  
Wallops Island, Va., 37°57' N., 075°28' W.

US117 In the band 406.1-410 MHz, all new authorizations will be limited to a maximum of 7 watts per kHz of necessary bandwidth; existing authorizations as of November 30, 1970 exceeding this power are permitted to continue in use.

New authorizations in this band for stations, other than mobile stations, within the following areas are subject to prior coordination by the applicant with the Secretary of the Committee on Radio Frequencies of the National Academy of Sciences.

Arecibo Observatory: Rectangle between latitudes 17°30' N. and 19°00' N. and between longitudes 65°10' W. and 68°00' W.

Five College Radio Astronomy Observatory: Rectangle between latitude 41°40' N. and 42°50' N. and between longitudes 71°20' W. and 73°20' W.

Owens Valley Radio Observatory: Two contiguous rectangles, one between latitudes 36° N. and 37° N. and longitudes 117°40' W.

Sagamore Hill Radio Observatory: Rectangle between latitudes 42°10' N. and 43°00' N. and longitudes 70°31' W. and 71°31' W.

Vermilion River Observatory: Rectangle between latitudes 38°35' N. and 41°31' N. and longitudes 86°15' W. and 89°30' W.

The non-Government use of this band is limited to the radio astronomy service and as provided by footnote US13.

j. The following new US footnotes are added in proper numerical sequence:

US200 In the bands 157.3125-157.4125 MHz and 161.9125-162.0125 MHz, the use of satellite systems for safety and distress may be authorized on an exclusive basis on frequencies designated for such use by the WARC-MM, 1974. Such systems shall not be brought into use prior to January 1, 1976. (see Resolution Spa 2-5, WASC-ST 1971).

US201 In the band 460-470 MHz, space stations in the earth exploration-satellite service may be authorized for space-to-earth transmissions on a secondary basis with respect to the fixed and mobile services. When operating in the meteorological-satellite service, such stations shall be protected from harmful interference from other applications of the earth exploration-satellite service. The power flux density produced at the earth's surface by any space station in this band shall not exceed -152 dBW/m<sup>2</sup>/4 kHz.

US202 The frequency 24.125 GHz is designated for industrial, scientific and medical purposes. Emissions must be confined within the limits of ±125 MHz of that frequency.

## RULES AND REGULATIONS

With the single exception of ASDE's operating in accordance with US 72, radiocommunication services operating within those limits must accept any harmful interference that may be experienced from the operation of ISM equipment.

US203 Government and non-Government radio astronomy observations of the formaldehyde line frequencies 4825-4835 MHz and 14.485-14.515 GHz may be made at certain radio astronomy observatories as indicated below:

Bands to be observed	Observatory	
4 GHz 14 GHz		
X	X	National Radio Astronomy Observatory, Greenbank, W. Va.
X	X	Tucson (Kitt Peak), Ariz.
X	X	Naval Research Laboratory, Maryland Point, Md.
X	X	Hat Creek Observatory (University of California), Hat Creek, Calif.
X	X	Haystack Facility (MIT-Lincoln Lab), Tyngsboro, Mass.
X	X	Agassiz Station (Harvard College), Harvard, Mass.
X	X	Owens Valley Radio Observatory (Cal. Tech.), Owens Valley, Calif.
X	X	University of Michigan, Dexter, Mich.
X	X	Harvard Observatory, Fort Davis, Tex.
X	X	University of Texas, Fort Davis, Tex.
X	X	Aerospace Corp., El Segundo, Calif. (to be moved to Owens Valley).

Every practicable effort will be made to avoid the assignment of frequencies to stations in the fixed or mobile service in these bands. Should such assignments result in harmful interference to these observations, the situation will be remedied to the extent practicable.

US204 Frequencies 10,003 kHz, 14,993 kHz, and 19,993 kHz with emissions confined within ±3 kHz bandwidth, may be used for search and rescue communications concerning manned space vehicles.

US205 Tropospheric scatter systems are prohibited in the band 2500-2690 MHz.

US206 The use of the band 14.3-14.4 GHz by the radionavigation-satellite service shall be such as to provide adequate protection to space stations of the fixed-satellite service.

US207 In the band 14.0-14.5 GHz, only non-Government operations will be authorized in the fixed-satellite service.

US208 Planning and use of the band 1598.5-1636.5 MHz necessitate the development of technical and/or operational sharing criteria to ensure the maximum degree of electromagnetic compatibility with existing and planned systems within the band.

# An Invaluable Reference Tool

1972/73 Edition

This guidebook provides information about significant programs and functions of the U.S. Government agencies, and identifies key officials in each agency.

Included with most agency statements are "Sources of Information" sections which give helpful information on:

- Employment
- Contracting with the Federal Government
- Environmental programs
- Small business opportunities
- Federal publications
- Speakers and films available to civic and educational groups

This handbook is a "must" for teachers, students, librarians, researchers, businessmen, and lawyers who need current official information about the U.S. Government.

No. 41—Pt. I—1

FRIDAY, MARCH 2, 1973

WASHINGTON, D.C.

Volume 38 ■ Number 41

Pages 5611-5829

## PART I

(Part II begins on page 5745)

(Part III begins on page 5751)

### HIGHLIGHTS OF THIS ISSUE

This listing does not affect the legal status of any document published in this issue. Detailed table of contents appears inside.

NATIONAL POISON PREVENTION WEEK, 1973—Presidential proclamation.....	5617
TELEPHONE RATES—FCC will investigate AT&T petition concerning private line service.....	5676
IMPORTATION OF BIRDS—USDA proposes further standards for quarantine and handling; comments by 4-2-73..	5641
NONFAT DRY MILK—USDA reduces direct microscopic bacterial count level for grading; effective 4-1-73.....	5622
EMPLOYMENT DISCRIMINATION—EEOC announces 3-21-73 hearing on proposed recordkeeping requirements for State and local governments; comments by 3-26-73....	5659
ENVIRONMENT—Council on Environmental Quality listing of impact statements.....	5674
EMERGENCY SCHOOL AID—HEW proposals; comments by 3-22-73.....	5644
LIBRARY TRAINING GRANTS—HEW establishes 3-23-73 closing date for applications.....	5670
SOCIAL SECURITY—HEW proposal on excess earnings and benefit eligibility; comments by 4-2-73.....	5656
RADIO BROADCASTING—FCC proposes standards for design and installation of sampling systems for antenna monitors; comments by 5-7-73.....	5666

REMINDERS

(The items in this list were editorially compiled as an aid to FEDERAL REGISTER users. Inclusion or exclusion from this list has no legal significance. Since this list is intended as a reminder, it does not include effective dates that occur within 14 days of publication.)

Rules Going Into Effect Today	Page No. and Date
AEC—Financial protection requirements and indemnity agreements; geographical boundaries of indemnity locations.	2983; 1-31-73
FAA—Airspace regulations	1118, 1-9-73; 4241, 2-12-73
FCC—Cable television service; inquiry into development of communications technology and services for formulating regulations	2970; 1-31-73

federal register

Area Code 202 Phone 962-8626

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C. Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by the Executive Branch of the Federal Government. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for \$2.50 per month or \$25 per year, payable in advance. The charge for individual copies is 20 cents for each issue, or 20 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

FEDERAL REGISTER, VOL. 38, NO. 41—FRIDAY, MARCH 2, 1973

HIGHLIGHTS—Continued

OFF-ROAD VEHICLES—USDA proposes regulations for use on Nat'l. Forest System lands; comments by 4-2-73	5643
SELECTIVE SERVICE—Proposal for disqualification of board members in cases of conflict of interest; comments by 4-2-73	5667
TOWING VESSELS—Coast Guard requires licensing for uninspected vessels; effective 9-1-73	5745
AGRICULTURAL RESEARCH CONTRACTS—USDA clarifies procurement policy; effective 3-2-73	5637
MECHANICAL POWER PRESSES—Labor Dept. extends comment time to 4-24-73 on safety requirements proposal	5644
RAILROAD RETIREMENT BOARD—Ruling concerning deterrence from filing application for annuity	5631
MEETINGS—	
EPA: Advisory Committee on the Revision and Application of Drinking Water Standards, 3-26 to 3-28-73	5676
Cost of Living Council, Food Advisory Committee, 3-6 and 3-19-73	5674
FPC: Tech. Advisory Committee on R & D, 3-8-73	5695
Tech. Advisory Comm. on R & D Task Forces:

## List of CFR Parts Affected

The following numerical guide is a list of the parts of each title of the Code of Federal Regulations affected by documents published in today's issue. A cumulative list of parts affected, covering the current month to date, appears following the Notices section of each issue beginning with the second issue of the month. In the last issue of the month the cumulative list will appear at the end of the issue.

A cumulative guide is published separately at the end of each month. The guide lists the parts and sections affected by documents published since January 1, 1973, and specifies how they are affected.

## Title 3—The President

## PROCLAMATION 4190

National Poison Prevention Week,  
1973

*By the President of the United States of America*

## A Proclamation

In recent years, there has been a significant reduction among our Nation's children in the number of deaths due to poisoning.

All Americans can be grateful to the many private and public groups who have worked so hard to prevent accidental poisonings through programs of education, product labeling, dosage limitations, and special packaging. We can be grateful, too, that thanks to the Poison Prevention Packaging Act of 1970, many products previously responsible for accidental poisonings among children are now being sold in special "child-proof" packaging.

But much still remains to be done. The accidental poisonings that continue to occur must still be a matter of grave concern. The natural curiosity of our children, their limitless ingenuity, their inclination to imitate adults, and their desire to taste whatever can be reached sometimes may lead them into dangers that are difficult to control by safety measures of any sort. All of us, therefore, must be constantly alert to the potential hazards of medicines and household products and must exercise every precaution in using and storing such substances.

To encourage such preventive measures, the Congress, in a joint resolution approved September 26, 1961 (75 Stat. 681), requested the President to issue annually a proclamation designating the third week in March as National Poison Prevention Week.

NOW, THEREFORE, I, RICHARD NIXON, President of the United States of America, do hereby designate the week beginning March 18, 1973, as National Poison Prevention Week.

I direct all appropriate agencies of the Federal Government to participate actively in programs designed to promote maximum protection of our people against accidental poisonings, particularly among children. Further, I invite all State and local governments and private organizations and individuals to share in this national effort.

IN WITNESS WHEREOF, I have hereunto set my hand this 28th day of February, in the year of our Lord nineteen hundred seventy-three, and of the Independence of the United States of America the one hundred ninety-seventh.

*Richard Nixon*

[FR Doc. 73-4151 Filed 2-28-73; 5:03 pm]

THE PRESIDENT

5619

EXECUTIVE ORDER 11704

Further Exempting A. Everett MacIntyre From Compulsory Retirement for Age

On February 1, 1972, I issued Executive Order No. 11642, exempting A. Everett MacIntyre, a member of the Federal Trade Commission, from compulsory retirement for age, under the provisions of section 8335 of title 5, United States Code, until February 28, 1973.

In my judgment, the public interest requires that Mr. MacIntyre be further exempted from such compulsory retirement:

NOW, THEREFORE, by virtue of the authority vested in me by subsection (c) of section 8335 of title 5, United States Code, I hereby exempt A. Everett MacIntyre from compulsory retirement for age until February 28, 1974.

THE WHITE HOUSE,  
February 28, 1973.

# Rules and Regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510. The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

## Title 4—Accounts CHAPTER III—COST ACCOUNTING STANDARDS BOARD SUBCHAPTER A—ADMINISTRATION PART 304—DELEGATIONS OF AUTHORITY

### Waivers and Exemptions

In promulgating an amendment to its contract coverage which provides authority for the waiver of all or any part of the requirements of the Cost Accounting Standards clause (4 CFR 331.3(c)), the Board commented on the suggestions it had received that prompt action on requests for exemptions or waivers might be essential. The Board said that it was prepared to act promptly in response to requests for waivers (38 FR 4237).

Anticipating the possibility that prompt action on a request for a waiver under § 331.3(c) might be necessary before the required number of opinions of Board members could be obtained, the Board delegated its authority to act in those circumstances to the Executive Secretary of the Board, acting in consultation with the Chairman of the Board.

That delegation of authority is published today, as follows:  
Section 304.3 *Waivers and exemptions* is added to the Board's regulations in Part 304, Delegations of Authority, as follows:

### § 304.3 Waivers and exemptions.

(a) The Cost Accounting Standards Board hereby delegates to the Executive Secretary of the Board, acting in consultation with the Chairman of the Board, authority to exercise the Board's authority under § 331.3(c) of the Board's Contract Coverage (4 CFR 331.3(c)) of its rules and regulations, providing the Executive Secretary concludes that a request for an exemption or waiver submitted pursuant to that § 331.3(c) must be acted on before he can obtain the required number of opinions of the members of the Cost Accounting Standards Board on that request.

(b) This authority may not be re-delegated.

(c) This delegation is effective February 26, 1973, and until revoked.

(84 Stat. 796, sec. 103, 50 U.S.C. App. 2168)

ARTHUR SCHOENHAUT,  
Executive Secretary.

[FR Doc.73-4005 Filed 3-1-73; 8:45 am]

## Title 5—Administrative Personnel CHAPTER I—CIVIL SERVICE COMMISSION PART 213—EXCEPTED SERVICE Department of Defense

Section 213.3306 is amended to show that one position of Personal and Confidential Assistant to the Secretary of Defense is excepted under Schedule C.

Effective March 2, 1973, § 213.3306(a) (47) is added as set out below.

### § 213.3306 Department of Defense.

(a) *Office of the Secretary.*

(47) One Personal and Confidential Assistant to the Secretary of Defense.  
(5 U.S.C. secs. 3301, 3302, E.O. 10577; 3 CFR 1954-58 Comp. p. 218)

UNITED STATES CIVIL SERVICE COMMISSION,  
[SEAL] JAMES C. SPRY,  
Executive Assistant  
to the Commissioners.

[FR Doc.73-4062 Filed 3-1-73; 8:45 am]

### PART 213—EXCEPTED SERVICE Department of Justice

Section 213.3310 is amended to show that the following two positions in the Office of Legislative Affairs are excepted under Schedule C: One Secretary to the Assistant Attorney General and one Secretary to the Deputy Assistant Attorney General.

Effective March 2, 1973, § 213.3310(v) is added as set out below.

### § 213.3310 Department of Justice.

(v) *Office of Legislative Affairs.*

(1) One Secretary to the Assistant Attorney General.

(2) One Secretary to the Deputy Assistant Attorney General.

(5 U.S.C. secs. 3301, 3302, E.O. 10577; 3 CFR 1954-58 Comp. p. 218)

UNITED STATES CIVIL SERVICE COMMISSION,  
[SEAL] JAMES C. SPRY,  
Executive Assistant  
to the Commissioners.

[FR Doc.73-4061 Filed 3-1-73; 8:45 am]

### PART 213—EXCEPTED SERVICE Department of the Interior

Section 213.3312 is amended to show that one new position of Executive Assistant to the Director, National Park Service, is excepted under Schedule C.

Effective March 2, 1973, § 213.3312(h) (4) is added as set out below.

### § 213.3312 Department of the Interior.

(h) *National Park Service.*

(4) One Executive Assistant to the Director.

(5 U.S.C. secs. 3301, 3302, E.O. 10577; 3 CFR 1954-58 Comp. p. 218)

UNITED STATES CIVIL SERVICE COMMISSION,  
[SEAL] JAMES C. SPRY,  
Executive Assistant  
to the Commissioners.

[FR Doc.73-4060 Filed 3-1-73; 8:45 am]

### PART 213—EXCEPTED SERVICE Department of Agriculture

Section 213.3313 is amended to show that one position of Private Secretary to the Assistant Secretary for Conservation, Research, and Education is excepted under Schedule C.

Effective March 2, 1973, § 213.3313(a) (10) is amended as set out below.

### § 213.3313 Department of Agriculture.

(a) *Office of the Secretary.* . . .  
(10) One Private Secretary to each of the four Assistant Secretaries other than the Administrative Assistant Secretary.

(5 U.S.C. secs. 3301, 3302, E.O. 10577; 3 CFR 1954-58 Comp. p. 218)

UNITED STATES CIVIL SERVICE COMMISSION,  
[SEAL] JAMES C. SPRY,  
Executive Assistant  
to the Commissioners.

[FR Doc.73-4030 Filed 3-1-73; 8:45 am]

### PART 213—EXCEPTED SERVICE Department of Health, Education, and Welfare

Section 213.3316 is amended to show that one position of Confidential Assistant to the Executive Director, President's Council on Physical Fitness and Sports, is excepted under Schedule C.

Effective March 2, 1973, § 213.3316(a) (28) is added as set out below.

### § 213.3316 Department of Health, Education, and Welfare.

(a) *Office of the Secretary.* . . .  
(28) One Confidential Assistant to the Executive Director, President's Council on Physical Fitness and Sports.

(5 U.S.C. secs. 3301, 3302, E.O. 10577; 3 CFR 1954-58 Comp., p. 218)

UNITED STATES CIVIL SERVICE COMMISSION,  
[SEAL] JAMES C. SPRY,  
Executive Assistant  
to the Commissioners.

[FR Doc.73-4032 Filed 3-1-73; 8:45 am]

### PART 213—EXCEPTED SERVICE General Services Administration

Section 213.3337 is amended to show that nine additional positions of Confidential Assistant to the Administrator are excepted under Schedule C.

Effective March 2, 1973, § 213.3337(a) (6) is amended as set out below.

### § 213.3337 General Services Administration.

(a) *Office of the Administrator.* . . .

(6) Eleven Confidential Assistants to the Administrator.

(5 U.S.C. secs. 3301, 3302, E.O. 10577; 3 CFR 1954-58 Comp. p. 218)

UNITED STATES CIVIL SERVICE COMMISSION,  
[SEAL] JAMES C. SPRAY,  
Executive Assistant  
to the Commissioners.

#### Title 7—Agriculture

#### CHAPTER I—AGRICULTURAL MARKETING SERVICE (STANDARDS, INSPECTION, MARKETING PRACTICES), DEPARTMENT OF AGRICULTURE

#### PART 51—FRESH FRUITS, VEGETABLES AND OTHER PRODUCTS (INSPECTION, CERTIFICATION, AND STANDARDS)

##### Subpart—U.S. Standards for Grades of Sweet Anise<sup>1</sup>

The U.S. Department of Agriculture hereby recodifies the U.S. Standards for Grades of Sweet Anise (7 CFR 51.3325-51.3333) without substantive change. These grade standards are issued under authority of the Agricultural Marketing Act of 1946 (60 Stat. 1087, as amended; 7 U.S.C. 1621-1627), which provides for the issuance of official U.S. grades to designate different levels of quality for the voluntary use of producers, buyers, and consumers. Official grading services are also provided under this act upon request of any financially interested party and upon payment of a fee to cover the cost of such services.

*Statement of considerations leading to recodification of these standards.* These grade standards were issued on December 3, 1930, and were codified on June 22, 1967. The revision and expansion of other grade standards requires vacating the section numbers for these standards (§§ 51.3325-51.3333) and recodifying the standards as §§ 51.2900-51.2908. No change is made in the text of the standards.

The standards, as recodified, are set forth below:

	GRADE
Sec.	
51.2900	U.S. No. 1.
	UNCLASSIFIED
51.2901	Unclassified.
	DEFINITIONS
51.2902	Stalks.
51.2903	Firm.
51.2904	Tender.
51.2905	Well trimmed.
51.2906	Fairly well blanched.
51.2907	Damage.
51.2908	Diameter.

<sup>1</sup> AUTHORITY: Secs. 203, 205, 60 Stat. 1087, as amended, 1090 as amended; 7 U.S.C. 1622, 1624.

<sup>1</sup> Packing of the product in conformity with the requirements of these standards shall not excuse failure to comply with the provisions of the Federal Food, Drug, and Cosmetic Act or with applicable State laws and regulations.

#### GRADE

##### § 51.2900 U.S. No. 1.

"U.S. No. 1" consists of stalks of sweet anise which are firm, tender, well trimmed, and fairly well blanched; which are free from decay and from damage caused by growth cracks, pithy branches, wilting, freezing, seedstems, dirt, discoloration, disease, insects, or mechanical or other means. Unless otherwise specified, the minimum diameter of each bulb shall be not less than 2 inches.

(a) *Tolerances.* In order to allow for variations incident to proper grading and handling, the following tolerances, by count, are provided as specified:

(1) *For defects.* Ten percent for stalks in any lot which fail to meet the requirements of this grade, including therein not more than 1 percent for stalks affected by decay.

(2) *For size.* Ten percent for stalks in any lot which fail to meet the specified minimum diameter requirement.

#### UNCLASSIFIED

##### § 51.2901 Unclassified.

"Unclassified" consists of stalks of sweet anise which have not been classified in accordance with the foregoing grade. The term "unclassified" is not a grade within the meaning of these standards but is provided as a designation to show that no grade has been applied to the lot.

#### DEFINITIONS

##### § 51.2902 Stalk.

"Stalk" means an individual plant.

##### § 51.2903 Firm.

"Firm" means that the bulbs are not soft or wilted.

##### § 51.2904 Tender.

"Tender" means that the bulbs are crisp and succulent.

##### § 51.2905 Well trimmed.

"Well trimmed" means that not more than one coarse outer branch is left on each side of the bulb to protect the tender inside portion, and the portion of the root remaining is not more than one-half inch in length. Tops may be either full length or cut back to not less than 10 inches except that not more than five of the outer branches may be cut back to less than 10 inches if necessary to facilitate proper packing, but not more than three of these may be on the same side of the bulb.

##### § 51.2906 Fairly well blanched.

"Fairly well blanched" means that the bulbs are of a light greenish to white color.

##### § 51.2907 Damage.

"Damage" means any specific defect described in this section; or an equally objectionable variation of any one of these defects, any other defect, or any combination of defects, which materially detracts from the appearance, or the edible or marketing quality of the stalk.

The following specific defects shall be considered as damage:

(a) Growth cracks, when more than three branches show one or more growth cracks.

(b) Pithy branches, when more than three branches show distinctly open texture with air spaces in the central portion of that part which goes to make up the base or bulbous portion of the stalk.

(c) Wilting, when the stalk is limp and flabby.

(d) Freezing, when the epidermis of the branches is badly blistered, or when the tops are brown or yellow to such an extent as to materially damage the appearance of the stalk, or when a combination of these causes material damage to the appearance and shipping quality of the stalk.

(e) Seedstems, which have reached the stage where the flower buds are plainly visible. Stalks from which the seedstems have been removed shall be considered as damaged.

(f) Dirt, when caked on the bulbous portion of the stalk, or when present to such an extent on the tops and branches as to cause material damage to the appearance of the stalk.

(g) Discoloration, when the bulbous portion shows extensive brown to dark brown areas characteristic of injury caused by rough handling, or when the tops are yellow or brown to such an extent as to cause material damage to the appearance of the stalk.

##### § 51.2908 Diameter.

"Diameter" means the smallest diameter measured through the center of the bulb at right angles to the longitudinal axis of the stalk.

It is hereby found that it is impracticable, unnecessary, and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this recodification 30 days beyond the date of publication hereof in the FEDERAL REGISTER (5 U.S.C. 553). In that recodification is merely a formal renumbering in order to accommodate expansion of other standards.

Accordingly, this recodification of the standards shall become effective March 15, 1973.

Dated: February 27, 1973.

E. L. PETERSON,  
Administrator,  
Agricultural Marketing Service.

[FR Doc. 73-4023 Filed 3-1-73; 8:45 am]

#### PART 58—GRADING AND INSPECTION, GENERAL SPECIFICATIONS FOR APPROVED PLANTS AND STANDARDS FOR GRADES OF DAIRY PRODUCTS

##### U.S. Standards for Grades of Nonfat Dry Milk

A notice of proposed rule making covering the issuance of an amendment

of U.S. Standards for Grades of Nonfat Dry Milk (Spray and Roller) (7 CFR Part 58, Subparts L and M) was published in the FEDERAL REGISTER of November 29, 1972 (37 FR 25238). The proposal provided for a reduction in the direct microscopic bacterial count level of nonfat dry milk from 150 to 100 million per gram on which a U.S. grade will be assigned.

It afforded interested persons the opportunity to submit within 60 days to the Hearing Clerk written data, views, or arguments in connection with the proposal. Seven comments were received.

*Statement of consideration.* The direct microscopic clump count (DMCC) of bacteria in nonfat dry milk (NDM) has been used by the Department since 1958 as an index of raw milk quality, handling procedures, and sanitary practices during manufacture. In 1969 an amendment was issued to the U.S. Standards for Grades of Nonfat Dry Milk (Spray and Roller Process) lowering the maximum level for which a U.S. grade would be assigned from 200 million to 150 million. Due to continued improvements in the quality of manufacturing grade milk at the farm, and in handling procedures and sanitary practices during manufacturing, most of the NDM produced today does not exceed a DMCC count of 100 million. For instance, in the period from October 1969 to September 1972, USDA officially graded approximately 53 percent of the U.S. production and found 97.4 percent of the NDM graded to be below 100 million. And for the period of January 1972 to September 1972 99.3 percent of the NDM officially graded was below 100 million.

During the time set for receiving written data, views, or arguments in connection with this proposed amendment seven comments were received. Two comments were from consumers who were in favor of this proposed amendment.

One comment received from a member of the dry milk industry stated the proposed DMCC reduction was too drastic at this time. The Department does not accept this as being valid for it feels that where the industry fulfills its responsibility of providing field service to assist producers on quality improvements, and promptly moves the milk to the processing plant there is no difficulty in producing NDM with DMCC counts well below 100 million.

Another comment received from a member of the dry milk industry stated that the Department had not held hearings nor consulted the industry about this proposal. Under the Agricultural Marketing Act of 1946 there are no provisions nor requirements upon the Department to hold hearings for the establishment or amending U.S. grade standards. The Department does have the right and obligation to set the grading requirements which are used to place a U.S. grade upon a product. Since this grading is on a voluntary basis it does not deny a product the right to the marketplace. The writer also questions the validity of the statement of consideration as published in the FEDERAL REGISTER of Decem-

ber 9, 1972. The Department disagrees with this part of the writer's comment for it stated then that its facts were based on gradings representing 53 percent of the U.S. production. The Department also feels that its official gradings are representative of the total industry's production capability.

Two letters were received from members of the dry milk industry and one from a trade association which questioned the precision and accuracy of the technique for determining the DMCC for NDM. They also questioned the public health significance or useful purpose of such a requirement. These were the same arguments originally presented when the DMCC requirement was initiated in 1958. It is USDA's position that the DMCC has been a stimulus for improving NDM quality, and continues to serve this useful purpose in providing a quality product for the market. The literature cited by these writers is recognized by the Department as being valid. However, they overlook several points held important by the Department. Recognized studies conducted and published by the Department have shown that the precision and coefficient of variation for inter- and intra-laboratory testing are within limits considered acceptable for other microbiological techniques. This proficiency is achieved through adequately trained and experienced technicians, proper equipment, and supervision. These principles have been the basis of the USDA program in applying the DMCC technique. Its success is evidenced by the consistency of results on the finished product with the quality of raw milk from which produced. Furthermore, the USDA surveillance program of its own testing laboratories shows that consistency of results can be obtained using this technique. Also, this technique is accepted in the 13th edition of "Standard Methods for the Examination of Dairy Products" published by the American Public Health Association.

The DMCC level as proposed is based in part upon the level of bacterial count which can be expected to be present when the milk used for producing the NDM and production practices meets the requirements of the "General Specifications for Dairy Plants Approved for USDA Inspection and Grading Service." Also it is consistent with USDA's "Milk for Manufacturing Purposes and Its Production and Processing, Requirements Recommended for Adoption by State Regulatory Agencies."

Upon consideration of industry capability and the general quality level of NDM produced in the United States, the Department amends the U.S. Standards for Grades of Nonfat Dry Milk (Spray and Roller Process) to become effective April 1, 1973.

The amendments are as follows:

##### Subpart L—Spray Process

1. Change Subpart L, § 58.2529, U.S. grade not assignable, to read as follows: § 58.2529 U.S. grade not assignable.

Nonfat dry milk which fails to meet the requirements for U.S. Standard

Grade and/or shows a direct microscopic clump count exceeding 100 million per gram shall not be assigned a U.S. grade.

##### Subpart M—Roller Process

2. Change Subpart M, § 58.2554, U.S. grade not assignable, to read as follows: § 58.2554 U.S. grade not assignable.

Nonfat dry milk which fails to meet the requirements for U.S. Standard Grade and/or shows a direct microscopic clump count exceeding 100 million per gram shall not be assigned a U.S. grade.

*Effective date.* These amendments shall become effective April 1, 1973.

Done at Washington, D.C., this 26th day of February.

E. L. PETERSON,  
Administrator,  
Agricultural Marketing Service.

[FR Doc. 73-3966 Filed 3-1-73; 8:45 am]

#### CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

[Lemon Reg. 575]

##### PART 910—LEMONS GROWN IN CALIFORNIA AND ARIZONA

##### Limitation of Handling

This regulation fixes the quantity of California-Arizona lemons that may be shipped to fresh market during the weekly regulation period March 4-10, 1973. It is issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, and Marketing Order No. 910. The quantity of lemons so fixed was arrived at after consideration of the total available supply of lemons, the quantity of lemons currently available for market, the fresh market demand for lemons, lemon prices, and the relationship of season average returns to the parity price for lemons.

##### § 910.875 Lemon Regulation 575.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 910, as amended (7 CFR Part 910), regulating the handling of lemons grown in California and Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and upon the basis of the recommendations and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such lemons, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The need for this section to limit the quantity of lemons that may be marketed during the ensuing week stems from the production and marketing situation confronting the lemon industry.

(i) The committee has submitted its recommendation with respect to the quantity of lemons it deems advisable

to be handled during the ensuing week. Such recommendation resulted from consideration of the factors enumerated in the order. The committee further reports the demand for lemons is good on sizes 165 and larger, steady on 200's and slow on sizes 235. Average f.o.b. price was \$5.44 per carton the week ended February 24, compared to \$5.29 per carton the previous week. Track and rolling supplies at 90 cars were down 15 cars from last week.

(b) Having considered the recommendation and information submitted by the committee, and other available information, the Secretary finds that the quantity of lemons which may be handled should be fixed as hereinafter set forth.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for lemons and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this regulation effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on February 27, 1973.

(b) Order. (1) The quantity of lemons grown in California and Arizona which may be handled during the period March 4, through March 10, 1973, is hereby fixed at 250,000 cartons.

(2) As used in this section, "handled," and "carton(s)" have the same meaning as when used in the said amended marketing agreement and order.

## RULES AND REGULATIONS

(Secs. 1-19, 48 Stat. 31, as amended; 7 U.S.C. 601-674)

Dated: March 1, 1973.

PAUL A. NICHOLSON,  
Acting Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.73-4207 Filed 3-1-73; 12:07 pm]

### Title 9—Animals and Animal Products

#### CHAPTER I—ANIMAL AND PLANT HEALTH INSPECTION SERVICE, DEPARTMENT OF AGRICULTURE

##### SUBCHAPTER C—INTERSTATE TRANSPORTATION OF ANIMALS (INCLUDING POULTRY) AND ANIMAL PRODUCTS; EXTRAORDINARY EMERGENCY REGULATION OF INTRASTATE ACTIVITIES

#### PART 73—SCABIES IN CATTLE Areas Quarantined

The purpose of this amendment is to quarantine Quay County in New Mexico because of the existence of cattle scabies. The restrictions pertaining to the interstate movement of cattle from quarantined in 9 CFR Part 73, as amended, will apply to the areas quarantined.

Therefore, pursuant to provisions of the Act of May 29, 1884, as amended, the Act of February 2, 1903, as amended, the Act of March 3, 1905, as amended, and the Act of July 2, 1962 (21 U.S.C. 111-113, 115, 117, 120, 121, 123-126, 134b, 134f), Part 73, Title 9, Code of Federal Regulations, restricting the interstate movement of cattle because of scabies, is hereby amended in the following respect:

In § 73.1a, paragraph (c) relating to the State of New Mexico is revised to read:

§ 73.1a Notice of quarantine.

(c) Notice is hereby given that cattle in certain portions of the State of New Mexico are affected with scabies, a contagious, infectious, and communicable disease; and, therefore, the following areas in such State are hereby quarantined because of said disease:

- New Mexico.
- (1) Curry County.
  - (2) De Baca County.
  - (3) Guadalupe County.
  - (4) Harding County.
  - (5) Lincoln County.
  - (6) Roosevelt County.
  - (7) Torrance County.
  - (8) Quay County.

(Secs. 4-7, 23 Stat. 32, as amended; secs. 1 and 2, 32 Stat. 791-792, as amended; secs. 1-4, 33 Stat. 1264, 1265, as amended; secs. 3 and 11, 76 Stat. 130, 132; 21 U.S.C. 111-113, 115, 117, 120, 121, 123-126, 134b, 134f; 37 FR 29464, 29477)

Effective date. The foregoing amendment shall become effective February 26, 1973.

The amendment imposes certain further restrictions necessary to prevent the interstate spread of cattle scabies and must be made effective immediately

to accomplish its purpose in the public interest. It does not appear that public participation in this rule making proceeding would make additional relevant information available to the Department.

Accordingly, under the administrative procedure provisions in 5 U.S.C. 553, it is found upon good cause that notice and other public procedure with respect to the amendment are impracticable, unnecessary, and contrary to the public interest, and good cause is found for making it effective less than 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 26th day of February 1973.

G. H. WISE,  
Acting Administrator, Animal and Plant Health Inspection Service.

[FR Doc.73-3965 Filed 3-1-73; 8:45 am]

### Title 10—Atomic Energy

#### CHAPTER I—ATOMIC ENERGY COMMISSION

##### PART 2—RULES OF PRACTICE

#### Appellate Consideration of Exceptions to Initial Decisions

Section 2.762 of the Atomic Energy Commission's rules of practice, 10 CFR Part 2, sets forth procedures for the filing by parties of exceptions to initial decisions, and supporting briefs, in adjudicatory proceedings, including licensing proceedings. Because of the growing number and complexity of these proceedings, the Commission has adopted certain amendments to § 2.762, as well as to Appendix A of Part 2, designed to improve these appellate procedures. The revisions provide for the separate filing of exceptions and briefs and establish additional standards respecting the form and content of these documents. It is the Commission's expectation that these changes will be utilized to improve the product which is filed with the Commission, and thereby to expedite the resolution of issues on appeal. The Commission will continue to evaluate the effectiveness of its appellate procedures in achieving these results, and will consider such further modifications as may be desirable in this regard.

Because the amendments relate to matters of procedure and practice, notice of proposed rulemaking and public procedure thereon are not required by section 553 of title 5 of the United States Code.

Pursuant to the Atomic Energy Act of 1954, as amended, and sections 552 and 553 of title 5 of the United States Code, the following amendments to Title 10, Chapter I, Code of Federal Regulations, Part 2, are published as a document subject to codification. The amendments shall be effective on March 2, 1973, and shall be applicable to initial decisions rendered on or after that date.

Section 2.762 is amended to read as follows:

#### § 2.762 Appeals to the Commission from initial decisions.

(a) Within 7 days after service of an initial decision, any party may take an appeal to the Commission by the filing of exceptions to that decision or designated portions thereof. Each exception shall be separately numbered and shall (1) state concisely, without supporting argumentation, the single error of fact or law which is being asserted in that exception; and (2) identify with particularity the portion of the decision (or earlier order or ruling) to which the exception is addressed. A brief in support of the exceptions shall be filed within 15 days thereafter (20 days in the case of the regulatory staff). The brief shall be confined to a consideration of the exceptions previously filed by the party and, with respect to each exception, shall specify, *inter alia*, the precise portion of the record relied upon in support of the assertion of error.

(b) Within 15 days of the filing and service of the brief of the appellant (20 days in the case of the regulatory staff), any other party may file a brief in support of, or in opposition to, the exceptions. Each factual assertion made in such supporting or opposing brief shall be supported by a reference to the precise portion of the record upon which it is based.

(c) A brief in excess of 10 pages shall contain a table of contents, with page references, and a table of cases (alphabetically arranged), statutes, regulations, and other authorities cited, with references to the pages of the brief where they are cited.

(d) All documents filed under this section shall be accompanied by a certificate reflecting service upon all other parties to the proceeding.

(e) Any exception or brief which in form or content is not in substantial compliance with the provisions of this section may be stricken, either on motion of a party or by the Commission on its own initiative.

Appendix A to Part 2 is amended by adding new paragraphs (d) and (e) to Part IX, to read as follows:

#### IX. LICENSING PROCEEDINGS SUBJECT TO APPELLATE JURISDICTION OF ATOMIC SAFETY AND LICENSING APPEAL BOARD

(d) (1) Appeals to the Appeal Board from initial decisions, or designated portions thereof, are initiated by the filing of exceptions. Such exceptions must be filed within 7 days of the issuance and service of the initial decision. A brief in support of the exceptions shall be filed by the appellant within 15 days thereafter (20 days in the case of the regulatory staff). A responsive brief may be filed by any other party within 15 days (20 days in the case of the regulatory staff) of the filing and service of the appellant's brief. The prescribed time limits are subject to being lengthened or shortened in a particular case, either on motion of a party or by the Appeal Board on its own initiative (10 CFR 2.711). The time limits are also subject to the provisions of 10 CFR 2.710 relating to service by mail.

(2) Exceptions must be separately numbered, must be concisely stated, and must specify with particularity the portion or portions of the initial decision (or earlier order or ruling) as to which error is asserted. Care should be taken to avoid the assertion of essentially the same error in more than one exception. Since their purpose is simply to identify the alleged errors which the appellant wishes the Appeal Board to consider, the exceptions themselves shall not contain any supporting argumentation. Rather, such argumentation shall be reserved for the brief, which must be confined to the exceptions previously filed and must contain specific references to the portions of the record or other authority relied upon for each assertion of error. The contentions advanced in all other briefs similarly must be supported by such references. Although a limitation on the length of briefs is not now imposed, in most cases the issues raised by the exceptions should be susceptible of full treatment in a brief which does not exceed 70 pages. In this connection, inasmuch as the Appeal Board has available to it the entire record of the proceeding, extended quotations in a brief from the record are neither required nor desirable. A summary is preferable, accompanied by explicit references to the record sources. Every brief in excess of 10 pages shall contain a table of contents, with page references, and a table of cases (alphabetically arranged), statutes, regulations, and other authorities cited, with references to the pages of the brief where they are cited.

(3) There must be strict compliance with the time limits prescribed for the filing of exceptions or briefs by the rules of practice or by an order of the Appeal Board which extends or shortens those limits in the particular case. Absent a showing of extraordinary and unanticipated circumstances, motions for extensions of time must be received by the Appeal Board at least 1 day prior to the date upon which the document in question is then due for filing. In no circumstances will a document be accepted by the Appeal Board on an untimely basis unless it is accompanied by a motion for leave to file it out of time, which similarly must be founded upon extraordinary and unanticipated circumstances. Exceptions and briefs which in form or content are not in substantial compliance with the requirements imposed by the rules of practice are subject to being stricken.

(e) The holding of oral argument, whether or not specifically requested by a party, is within the Appeal Board's discretion (10 CFR 2.763). Where exceptions have been filed, the Appeal Board routinely will consider whether the case should be calendared for oral argument. This consideration normally will take place following the receipt of all briefs. Oral argument will be directed if at least one member of the Appeal Board votes in favor of it. If oral argument is to be held, an order will be issued by the Appeal Board which will set the specific date and location, as well as the time allotted to each of the parties. In some instances, the order may also restrict the scope of the oral argument to one or more specified issues. It is anticipated that oral arguments will be conducted in either Washington, D.C., or Bethesda, Md.

(Sec. 161, 68 Stat. 948, 42 U.S.C. 2201)

Dated at Germantown, Md., this 22d day of February 1973.

For the Atomic Energy Commission.

PAUL C. BENDER,  
Secretary of the Commission.

[FR Doc.73-4020 Filed 3-1-73; 8:45 am]

## RULES AND REGULATIONS

### Title 12—Banks and Banking CHAPTER VII—NATIONAL CREDIT UNION ADMINISTRATION

#### PART 746—REBATE PROCEDURES FOR FEDERALLY INSURED CREDIT UNIONS

##### Rebate Procedures

On page 28080 of the December 20, 1972, edition of the FEDERAL REGISTER (37 FR 28080), there was published a notice of proposed rule making relative to rebate procedures by the Administrator, National Credit Union Administration. The proposed regulation sets forth procedures regarding the rebate of premiums to a federally insured credit union including criteria used to determine entitlement to and the amount of a rebate, the date used in determining a rebate, the time for repayment, and the circumstances under which the Administrator may recover the amount of a rebate.

After considering all comments submitted by interested parties, the regulation, as proposed, is hereby adopted subject to the revision set forth below. This revision is technical in nature and involves no substantive change in the regulation as originally proposed.

1. In § 746.1, paragraph (c)(1), the second subdivision numbered "(i)" should be changed to "(ii)".

Effective date. This regulation is effective April 2, 1973.

HERMAN NICKERSON, Jr.,  
Administrator.

FEBRUARY 23, 1973.

#### PART 746—REBATE PROCEDURES FOR FEDERALLY INSURED CREDIT UNIONS

Sec.  
746.1 Entitlement.  
746.2 Effective date for determining rebate.  
746.3 Payment of rebate.  
746.4 Recovery of rebate.

AUTHORITY: The provisions of this Part 746 issued pursuant to section 209, 85 Stat. 1015, 12 U.S.C. 1789.

##### § 746.1 Entitlement.

(a) Any federally insured credit union closed for liquidation, whether voluntarily or involuntarily or solvent or insolvent, is entitled to a rebate of premiums paid to the National Credit Union Share Insurance Fund.

(b) Rebates shall be in accordance with these regulations but no payment shall be made during any period in which:

(1) A loan to the Fund from the Federal Government is outstanding; or  
(2) The Administrator determines that the payment would unduly jeopardize the financial condition of the Fund.

A credit union otherwise entitled to a rebate of premiums shall not lose its entitlement because payment thereof cannot, at any given time, be made under the limitations prescribed in subparagraph (1) or (2) of this paragraph.

(c) The amount of rebate of premiums to which a credit union is entitled under paragraph (a) of this section shall be computed as follows:

(1) From the total amount of premiums paid by the credit union, plus interest on such payments at the average

rate of interest earned by the Fund on its assets during each of the years in which payments were made through the end of the calendar month in which the Board voted to present the question of voluntary liquidation to its members or was placed in involuntary liquidation by the Administrator; subtract the sum of:

(i) The credit union's pro rata share of the Fund's administrative expenses during the period in which the credit union had an insured status through the end of the calendar month in which the Board voted to present the question of voluntary liquidation to its members or was placed in involuntary liquidation by the Administrator;

(ii) The credit union's pro rata share of the net insurance payments (other than those referred to in subdivision (iii) of this subparagraph) chargeable to the Fund for claims arising during such period; and

(iii) The net insurance payments chargeable to the Fund for claims arising in connection with the liquidation of the credit union.

(d) A credit union's pro rata share of the Fund's administrative expenses or net insurance payments for any year (or part thereof) shall be determined by dividing the total amount credited to members' and nonmembers' accounts in the credit union at the end of such year (or part thereof), by the total amount credited to all such accounts in all credit unions having an insured status at the end of such year (or part thereof).

#### § 746.2. Effective date for determining rebate.

For purposes of determining the amount of the rebate, a credit union whose Board of Directors votes to present the question of liquidation to its membership, or is placed in involuntary liquidation by the Administrator on any day of the month, other than that month's end, shall be considered to have entered liquidation at the end of the month in which it took such action.

#### § 746.3. Payment of rebate.

Rebates shall be paid to a liquidating credit union as soon as possible and in any event prior to final distribution of the credit union's assets to its members.

#### § 746.4. Recovery of rebate.

In the event the credit union resumes operations, the entire amount of the rebate shall be repaid to the National Credit Union Administration within 10 days after resuming operations. However, a credit union shall not be required to pay a premium for the insurance of its members' accounts while it is in liquidation.

[FR Doc 73-3975 Filed 3-1-73; 8:45 am]

#### Title 14—Aeronautics and Space CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Docket No. 73-GL-3, Amdt. 39-1599]

#### PART 39—AIRWORTHINESS DIRECTIVES Bellanca 17 Series Aircraft

There have been failures of the rudder pedal shaft assemblies where the vertical

tube is welded to the horizontal tube on those assemblies equipped with brake pedals on Bellanca 17-30A, 17-31A, and 17-31ATC airplanes that could result in loss of rudder control, braking, or steering control. Since this condition is likely to exist or develop in other airplanes of the same type design, an airworthiness directive is being issued to require inspection and replacement of the rudder pedal shaft assemblies on Bellanca Model 17-30A, 17-31A, and 17-31ATC airplanes.

Since a situation exists that requires immediate adoption of this regulation, it is found that notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than 30 days.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (14 CFR 11.89), § 39.13 of Part 39 of the Federal Aviation Regulations is amended by adding the following new airworthiness directive:

**BELLANCA.** Applies to Model 17-30A, Serials Nos. 30346 through 73-30496; Model 17-31A, Serials Nos. 32-37 through 73-32-97; and Model 17-31ATC, Serials Nos. 31015 through 73-31045, certificated in all categories.

Compliance required as indicated, unless already accomplished.

To prevent possible failure of the rudder control system, accomplish the following:

(A) Within the next 10 hours' time in service after the effective date of this airworthiness directive, unless already accomplished, and thereafter at intervals not to exceed 25 hours' time in service from the last inspection, inspect the rudder pedal shaft assemblies, Parts Nos. 195266, 195268, 195270, and 195272, equipped with brakes where the vertical tube is welded to the horizontal tube for evidence of cracks or other failures in accordance with Bellanca Service Letter No. 77 dated February 10, 1973, or later approved revisions, or an equivalent approved by the Chief, Engineering and Manufacturing Branch, Great Lakes Region. All shaft assemblies found cracked must be replaced prior to further flight with a new part of the same number utilizing a horizontal tube having a .058" wall thickness.

(B) Within the next 100 hours' time in service after the effective date of this airworthiness directive, unless already accomplished, replace all rudder shaft assemblies, Parts Nos. 195266, 195268, 195270, and 195272, on which rudder/brake pedals are installed having .049" thick horizontal tube walls with a new assembly of the same part number utilizing a horizontal tube having a .058" wall thickness in accordance with Bellanca Service Letter No. 77 dated February 10, 1973, or later FAA approved revisions, or an equivalent approved by the Chief, Engineering and Manufacturing Branch, Great Lakes Region. Rudder pedal shaft assemblies not having the brake pedal installed are not affected by this airworthiness directive.

(C) The repetitive inspections of paragraph (A) of this airworthiness directive are no longer required when compliance with paragraph (B) of this airworthiness directive is accomplished.

(D) Aircraft Serials Nos. 73-30497 through 73-30509, 73-32-98 through 73-32-100 were produced with .049" wall tubes but with a reinforcement gusset added and are exempt from this airworthiness directive unless the rudder pedals have been replaced during the service life of these aircraft.

This amendment becomes effective March 7, 1973.

(Secs. 313(a), 601, 603, Federal Aviation Act of 1958, 49 U.S.C. 1354(a), 1421, 1423; sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Des Plaines, Ill., on February 21, 1973.

HAROLD W. FOGGEMEYER,  
Acting Director,  
Great Lakes Region.

[FR Doc 73-3956 Filed 3-1-73; 8:45 am]

[Docket No. 73-EA-9, Amdt. 39-1600]

#### PART 39—AIRWORTHINESS DIRECTIVES de Havilland Aircraft

The Federal Aviation Administration is amending § 39.13 of Part 39 of the Federal Aviation Regulations so as to revise and renumber AD 72-25-5 applicable to de Havilland DHC-6 type airplanes.

Experience developed since the promulgation of AD 72-25-5 indicates a need to amend the airworthiness directive to establish a maximum length of a crack in the spar cap fitting; distinguish between chord- and span-type cracks and resultant restrictions; and include an inspection of the spar cap under the splice plates. There are other further minor amendments.

In view of the air safety aspects of the deficiency as set forth in AD 72-25-5 which also apply to this amendment, the public interest requires expeditious adoption of the amendment, making notice and public procedure hereon impractical and establishing good cause for making the amendment effective in less than 30 days.

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator, 14 CFR 11.89 (31 FR 13697), § 39.13 of Part 39 of the Federal Aviation Regulations is amended by revising AD 72-25-5 as follows:

**DE HAVILLAND.** Applies to DHC-6 airplanes Serials Nos. 1 through 330, certificated in all categories, not altered in accordance with de Havilland Modification No. 6-101 or approved equivalent alteration.

To prevent hazards in flight associated with inter-rivet cracking of the top flange of the wing rear spar attachment caps P/N C6WM1032-27 and P/N C6WM1032-28 accomplish the following:

(1) Within the next 100 hours in service or 2 weeks, whichever occurs first, after the effective date of this AD, unless accomplished within the last 1,100 hours or 24 weeks, and at intervals thereafter not to exceed 1,200 hours in service or 26 weeks, whichever occurs first,

(a) Inspect the wing rear spar attachment caps P/N C6WM1032 for cracks in accordance with paragraph A of Accomplishment Instructions of de Havilland Service Bulletin No. 6-295, Revision B dated November 16, 1972, or an FAA approved equivalent inspection; and

(b) Inspect the splice plates of the vertical and horizontal legs of the rear spar fitting at WS 87 to 91 for cracks or elongated rivet holes, using visual or X-ray procedure. Replace cracked parts and parts with elongated rivet holes prior to further flight with a part that has been similarly inspected.

(2) If a spar cap spanwise crack is found inboard of the third rivet, or if a spar cap chordwise crack is found, or if the total length of spanwise cracks exceed 50 inches, the part must be replaced prior to further

flight with a part inspected in accordance with paragraph 1a, including repetitive inspections.

(3) If spanwise cracks are found outboard of the 10th rivet, accomplish the following:

(a) For cracks within the limits of paragraph (b) of compliance instructions of the service bulletin, repeat the inspection noted in (1) above at intervals not to exceed 600 hours in service or 13 weeks, whichever occurs first.

(b) For cracks within the limits of paragraph (c) of the service bulletin, repeat the inspection noted in (1) above at intervals not to exceed 100 hours in service or 2 weeks, whichever occurs first.

(c) For cracks in excess of the limits of paragraph (b) and (c) of the service bulletin, prior to next flight, alter the attachment cap in accordance with paragraph B of accomplishment instructions of the service bulletin and Figures II and III of revision B of the bulletin dated November 16, 1972, except that the dye penetrant inspection must be performed with a 10-power glass, or in accordance with an FAA approved equivalent alteration.

Thereafter, inspect altered attachment caps at intervals not to exceed 1,200 hours in service or 26 weeks, whichever occurs first.

(4) If spanwise cracks are found between the third and 10th rivet, prior to next flight, alter the attachment cap as noted in 3(c). Thereafter, inspect inboard of the 10th rivet of the altered attachment caps at intervals not to exceed 100 hours in service or 2 weeks, whichever occurs first, and replace within the next 1,200 hours in service or 26 weeks, whichever occurs first, with a part inspected in accordance with paragraph 1 including repetitive inspections.

(5) If total length of spanwise cracks in any one attachment cap exceeds 30 inches, part must be altered prior to next flight and replaced within the next 1,200 hours in service or 26 weeks, whichever occurs first, with a part inspected in accordance with paragraph 1 including repetitive inspections.

(6) If cracks are found in accordance with 3(a), 3(b), 3(c), or 4, report the results of such inspection and any repetitive inspection to the Chief, Engineering and Manufacturing Branch, FAA, Eastern Region (reporting approved by the Bureau of the Budget under BOB No. C4-RO174).

(7) Where the AD requires replacements or repairs before further flight, the airplane may be flown in accordance with FAR 21.197 to a base where the repair can be performed.

(8) The compliance times may be increased by the Chief, Engineering and Manufacturing Branch, FAA, Eastern Region, upon receipt of substantiating data.

(9) Equivalent inspections, parts, and alterations must be approved by the Chief, Engineering and Manufacturing Branch, FAA, Eastern Region.

This supersedes AD 72-25-5.  
This amendment is effective March 8, 1973.

(Secs. 313(a), 601, 603, Federal Aviation Act of 1958, 49 U.S.C. 1354(a), 1421, 1423; sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Jamaica, N.Y., on February 21, 1973.

ROBERT H. STANTON,  
Acting Director, Eastern Region.  
[FR Doc 73-3955 Filed 3-1-73; 8:45 am]

[Docket No. 67-SO-17, Amdt. 39-1601]

#### PART 39—AIRWORTHINESS DIRECTIVES Lockheed Models 382 and 382B Series Airplanes

Amendment 39-423 32 FR 7704, AD 67-18-3 requires inspection of engine mount truss assemblies for cracks and replacement as necessary on Lockheed Models 382 and 382B airplanes. After issuing Amendment 39-423, the Administration determined that the inspection interval may be increased. Therefore, the AD is being amended to provide an increase in the inspection interval from 600 hours to 800 hours.

Since this amendment relieves a restriction and imposes no additional burden on any person, notice and public procedure hereon are unnecessary and the amendment may be made effective in less than 30 days.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator, § 39.13 of the Federal Aviation Regulations, Amendment 39-423, 32 FR 7704, AD 67-18-3, is amended as follows:

**LOCKHEED.** Applies to Models 382 and 382B series airplanes, Serials Nos. 3946 and 4101 through 4196.

Compliance as indicated.

1. Revise paragraphs (a), (b), and (c) to read:

(a) For airplanes with 2,350 or more hours' total time in service on the effective date of this AD comply with paragraph (c) within the next 50 hours' time in service, and thereafter at intervals not to exceed 800 hours' time in service from the last inspection.

(b) For airplanes with less than 2,350 hours' total time in service on the effective date of the AD comply with paragraph (c) before the accumulation of 2,400 hours' total time in service, and thereafter at intervals not to exceed 800 hours' time in service from the last inspection.

(c) Cracked parts shall be replaced with new parts having the same part number, or with the applicable updated part specified in section 2g of Lockheed-Georgia Service Bulletin 82-153 dated December 1, 1966, or later FAA approved revision. Replacement truss assemblies shall be installed according to the replacement instructions given in section 2h through 2aa in the above service bulletin, or in a manner approved by the Chief, Engineering and Manufacturing Branch, FAA, Southern Region.

This amendment becomes effective March 12, 1973.

(Secs. 313(a), 601, 603, Federal Aviation Act of 1958, 49 U.S.C. 1354(a), 1451, 1423; sec. 6(c), DOT Act, 49 U.S.C. 1655(c))

Issued in East Point, Ga., on February 22, 1973.

P. M. SWATEK,  
Director, Southern Region.  
[FR Doc 73-3954 Filed 3-1-73; 8:45 am]

[Airspace Docket No. 73-AL-3]

#### PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

##### Alteration of Control Zone

The purpose of this amendment to Part 71 of the Federal Aviation Regulations is to alter the effective hours of the Talkeetna, Alaska, control zone.

The Talkeetna, Alaska, control zone is presently effective from 0545 to 2145 hours, local time, daily. Hourly and special weather observations needed for the designation of the control zone are available now from 0800 to 2400 hours, local time, daily. Therefore, the control zone hours of designation are redescribed to coincide with the weather reporting service and will be effective during the specific dates and times established in advance by notice to airmen. The effective date and time will thereafter be continuously published in the Flight Information Publication Supplement Alaska.

Since this amendment imposes no additional burden on any person, notice and public procedure requirements of the administrative procedure act are unnecessary and the amendment may be effective on less than 30 days' notice. However since it is necessary that sufficient time be allowed to permit appropriate changes to be made on aeronautical charts, this amendment will become effective more than 30 days after publication.

In consideration of the foregoing Part 71 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., March 29, 1973, as hereinafter set forth.

In § 71.171 (38 FR 351), the Talkeetna, Alaska, control zone is amended to read as follows:

##### TALKEETNA, ALASKA

Within a 5-mile radius of Talkeetna Airport (latitude 62°19'20" N, longitude 150°-05'20" W). This control zone is effective from 0800 to 2400 hours local time daily, or during the specific dates and times established in advance by notice to airmen. The effective date and time will thereafter be continuously published in the Flight Information Publication Supplement Alaska.

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348(a); sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Anchorage, Alaska, on February 21, 1973.

QUENTIN S. TAYLOR,  
Acting Director, Alaskan Region.  
[FR Doc 73-3957 Filed 3-1-73; 8:45 am]

[Airspace Docket No. 72-GL-71]

#### PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

##### Alteration of Federal Airway Segment

The purpose of this amendment to Part 71 of the Federal Aviation Regulations is to alter a segment of VOR Federal airway No. 11E between Indianapolis, Ind., and Marion, Ind.

Victor airway 11E rejoins V-11 at the Fairmont intersection, which is located 1½ miles southwest of the Marion TVOR. Action has been taken by the Great Lakes Region to change the status of the Marion TVOR to an LVOR. A portion of V-11E between the Fendleton intersection and Fairmont intersection will be altered 1° to the east so as to rejoin V-11 at Marion VOR.

Since this amendment is minor in nature and no substantive change in the regulation or its effect upon the operation of aircraft is effected, further notice and public procedure thereon are unnecessary. However, since it is necessary that sufficient time be allowed to permit appropriate changes be made on aeronautical charts, this amendment will become effective April 26, 1973.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., April 26, 1973, as hereinafter set forth.

Section 71.123 (38 FR 307) is amended as follows:

In V-11 "Fort Wayne, including an E alternate via INT Indianapolis 060° and Shelbyville, Ind., 006° radials, and INT Shelbyville 006° and Fort Wayne 218° radials;" is deleted and "Marion, Ind., including an E alternate via INT of Indianapolis 060° and Marion 189° radials; Fort Wayne, Ind." is substituted therefor.

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348(a); sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Washington, D.C., on February 23, 1973.

CHARLES H. NEWPOL,  
Acting Chief, Airspace and  
Air Traffic Rules Division.

[FR Doc.73-3958 Filed 3-1-73; 8:45 am]

[Airspace Docket No. 73-WE-6]

#### PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

##### PART 73—SPECIAL USE AIRSPACE Alteration of Restricted Area and Continental Control Area

The purpose of these amendments to Parts 71 and 73 of the Federal Aviation Regulations is to subdivide Restricted Area R-2501, Bullion Mountains, Calif., into three areas and to alter the description of the continental control area to delete one subarea.

Restricted Area R-2501 is presently subdivided into four subareas: R-2501N, R-2501S, R-2501C, and R-2501E. In order to provide more flexible management and increase the release of the airspace when it is not in use by the using agency, it has been determined that R-2501 should be divided into three subareas and that one presently designated subarea should be deleted from the continental control area. The lateral and vertical dimensions and the time of designation of R-2501 will remain as presently designated.

Since these amendments are minor in nature and no substantive change in the regulations is effected, notice and public procedure thereon are unnecessary. However, since it is necessary that sufficient time be allowed to permit appropriate changes to be made on aeronautical charts, these amendments will become effective more than 30 days after publication.

In consideration of the foregoing, Parts 71 and 73 of the Federal Aviation Regulations are amended, effective 0901 G.m.t., April 26, 1973, as hereinafter set forth.

1. In § 71.151 (38 FR 341), Restricted Area R-2501C, Bullion Mountains, Calif., is revoked.

2. In § 73.25 (38 FR 634), Restricted Areas R-2501N, R-2501C, R-2501S, and R-2501E, Bulletin Mountains, Calif., are revoked and the following is substituted therefor.

R-2501N, BULLION MOUNTAINS NORTH, CALIF.

##### BOUNDARIES

Beginning at lat. 34°43'00" N., long. 116°26'20" W.; to lat. 34°43'00" N., long. 116°17'00" W.; to lat. 34°41'15" N., long. 116°04'30" W.; to lat. 34°33'12" N., long. 116°15'30" W.; to lat. 34°34'37" N., long. 116°20'43" W.; to lat. 34°35'40" N., long. 116°22'52" W.; to lat. 34°35'40" N., long. 116°28'15" W.; to lat. 34°40'30" N., long. 116°29'40" W.; to point of beginning.

#### SUBCHAPTER F—AIR TRAFFIC AND GENERAL OPERATING RULES

[Reg. Docket No. 12572; Amdt. 95-230]

##### PART 95—IFR ALTITUDES

###### Miscellaneous Changes

The purpose of this amendment to Part 95 of the Federal Aviation Regulations is to make changes in the IFR altitudes at which all aircraft shall be flown over a specified route or portion thereof. These altitudes, when used in conjunction with the current changeover points for the routes or portions thereof, also assure navigational coverage that is adequate and free of frequency interference for that route or portion thereof.

As a situation exists which demands immediate action in the interest of safety, I find that compliance with the notice and procedure provisions of the Administrative Procedure Act is impracticable and that good cause exists for making this amendment effective within less than 30 days from publication.

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator (24 FR 5662), Part 95 of the Federal Aviation Regulations is amended, effective March 29, 1973, as follows:

1. By amending Subpart C as follows:  
Section 95.1001 *Direct routes—U.S.* is amended by adding:

*From, to, and MEA*

Bakersfield, Calif., VOR, via BFL 296 M rad; Pelican INT, Calif.; 3,000. \*2,500—MOCA. Pelican INT, Calif., via BFL 296 M rad; LSN 115 M rad; Los Banos, Calif., VOR, COP 40 NM LSN; 5,600.

Section 95.1001 *Direct routes—U.S.* is amended to delete:

Bakersfield, Calif., VOR, via BFL 296 M rad; Russell Ranch INT, Calif.; 3,000. \*2,500—MOCA.

Russell Ranch INT, Calif., via BFL 296 M rad; LSN 115 M rad; Los Banos, Calif., VOR, COP 70 NM BFL/40 NM LSN; 5,500.

Glenwood Springs INT, Colo.; \*Basalt INT, Colo.; 13,600. MAA—25,000. \*14,500—MCA Basalt INT, eastbound.

\*Basalt INT, Colo.; Holy Cross INT, Colo.; \*15,500. MAA—25,000. \*14,500—MCA Basalt INT, eastbound. \*14,100—MOCA.

Holy Cross INT, Colo.; Dillon INT, Colo.; \*18,000. \*16,300—MOCA. #MEA is established with a gap in navigation signal coverage.

Dillon INT, Colo.; Webster INT, Colo.; \*17,000. \*16,300—MOCA.

Webster INT, Colo.; Conifer INT, Colo.; \*16,000. MAA—37,000. \*14,500—MOCA.

Dillon INT, Colo.; \*Camp INT, Colo.; \*18,000. \*14,700—MCA Camp INT, Westbound. \*16,300—MOCA.

Dillon DME Fix, Colo.; Conifer INT, Colo.; \*17,000. MAA—37,000. \*16,300—MOCA.

##### Bahama Routes

54V is amended to read in part:  
Palm Beach, Fla., VOR; \*Basket INT, Fla.; \*2,000. \*2,500—MRA. \*1,300—MOCA.

10 Lima is amended to read in part:  
Portland, Fla., NDB; Grand Bahama, BH NDB; \*2,000. \*1,600—MOCA.

Albany, Ga., VOR; Omaha INT, Ga.; 2,500. Cairns, Ala., VOR; Dozier INT, Ala.; \*2,000. \*1,700—MOCA.

Dinsmore, Fla., RBN; Carp INT, Fla. (via Control 1153); \*2,500. \*1,300—MOCA.

Marathon, Fla., RBN; Tadpole LP INT, Fla. (via Control 1233); \*2,500. \*1,300—MOCA.

Section 95.5000 *High altitude RNAV routes.*

*From/to; total distance; changeover point distance from geographic location; track angle; MEA; and MAA*

J843R is amended to read in part:  
Westminster, Md., W/P, Rensford, W. Va., W/P; 216.7; 146.2, Westminster; 250°/079° to COP, 254°/074° to Rensford; 18,000; 45,000.

Rensford, W. Va., W/P, Shutout, Ky., W/P; 201.1; 100.6, Rensford; 254°/074° to COP, 251°/071° to Shutout; 18,000; 45,000.

Section 95.5500 *High altitude RNAV routes.*

J952R is amended to read in part:  
Mount Mitchell, N.C., W/P, Trion, Ga., W/P; 156.1; 78.0, Mount Mitchell; 240°/060° to COP, 238°/056° to Trion; 18,000; 45,000.

Trion, Ga., W/P, Iron Mountain, Ala., W/P; 120.2; 60.1, Trion; 236°/056° to COP, 233°/053° to Iron Mountain; 18,000; 45,000.

Section 95.6003 *VOR Federal airway 3* is amended to read in part:

Sombrero INT, Fla.; Rancho INT, Fla.; \*6,000. \*1,800—MOCA.

Biscayne Bay, Fla., VOR, via E alter; INT 021M rad Biscayne Bay VOR and 166M rad Palm Beach VOR via E alter; 1,600.

Daytona Beach, Fla., VOR; \*Bunnell INT, Fla.; \*2,000. \*3,000—MRA. \*1,400—MOCA.

Section 95.6005 *VOR Federal airway 5* is amended to read in part:

Jacksonville, Fla., VOR; Pafford INT, Ga.; \*2,000. \*1,300—MOCA.

Section 95.6007 *VOR Federal airway 7* is amended to read in part:

Miami, Fla., VOR, via E alter; Royal Palm INT, Fla., via E alter; \*2,000. \*1,200—MOCA.

Section 95.6035 *VOR Federal airway 35* is amended to read in part:

Sombrero INT, Fla.; \*Double INT, Fla.; \*6,500. \*6,500—MRA. \*1,200—MOCA.

Cutler INT, Fla.; Miami, Fla., VOR; \*2,000. \*1,400—MOCA.

Fort Myers, Fla., VOR, via Walter; St. Petersburg, Fla., VOR, via W alter; \*1,800. \*1,600—MOCA.

Eilers INT, Fla.; Eddy INT, Fla.; \*3,000. \*1,200—MOCA.

Eddy INT, Fla.; Cross City, Fla., VOR; \*2,000. \*1,200—MOCA.

St. Petersburg, Fla., VOR, via E alter; Bayport INT, Fla., via E alter; \*2,000. \*1,400—MOCA.

Section 95.6039 *VOR Federal airway 39* is amended to read in part:

Myrtle Beach, S.C., VOR; Fayetteville, N.C., VOR; \*3,000. MAA—8,000. \*1,600—MOCA.

Section 95.6043 *VOR Federal airway 43* is amended to read:

Appleton, Ohio, VOR; Tiverton, Ohio, VOR; 3,000.

Tiverton, Ohio, VOR; Briggs, Ohio, VOR; 3,000.

Briggs, Ohio, VOR; Youngstown, Ohio, VOR; 3,000.

Tiverton, Ohio, VOR, via W alter; Akron, Ohio, VOR, via W alter; 3,000.

Akron, Ohio, VOR, via W alter; Youngstown, Ohio, VOR, via W alter; 3,000.

Dixie INT, Ga.; \*Baxley INT, Ga.; \*6,000. \*3,000—MRA. \*6,000—MCA Baxley INT, southbound. \*1,700—MOCA.

Section 95.6295 *VOR Federal airway 295* is amended to read in part:

Biscayne Bay, Fla., VOR; INT 021M rad Biscayne Bay VOR and 166M rad Palm Beach VOR; 1,600.

Vero Beach, Fla., VOR; Bailey INT, Fla.; \*2,000. \*1,400—MOCA.

Section 95.6437 *VOR Federal airway 437* is amended to delete:

Charleston, S.C., VOR, via E alter; Florence, S.C., VOR, via E alter; \*2,400. \*1,500—MOCA.

Section 95.6437 *VOR Federal airway 437* is amended to read in part:

Daytona Beach, Fla., VOR; \*Crocker INT, Fla.; \*1,500. \*3,500—MRA. \*1,400—MOCA.

Section 95.6441 *VOR Federal airway 441* is amended to read in part:

St. Petersburg, Fla., VOR; Bayport INT, Fla.; \*2,000. \*1,400—MOCA.

Section 95.6452 *VOR Federal airway 452* is amended to read in part:

Cottage Grove INT, Oreg.; Modoc INT, Oreg.; \*10,500. \*9,700—MOCA.

Modoc INT, Oreg.; Klamath Falls, Oreg., VOR; southeastbound 9,000. Northwestbound 10,000.

2. By amending Subpart D as follows:  
Section 95.8003 *VOR Federal Airway Changeover Points.*

*From; to; and changeover point distance from*

V-134 is amended by adding:

Grand Junction, Colo., VOR; Denver, Colo., VOR; 110, Grand Junction.

(Secs. 307 and 1110, Federal Aviation Act of 1958, 49 U.S.C. 1348, 1510)

Issued in Washington, D.C., on February 22, 1973.

C. R. MELUGIN, Jr.,  
Acting Director,  
Flight Standards Service.

# CHAPTER II—CIVIL AERONAUTICS BOARD

## SUBCHAPTER B—PROCEDURAL REGULATIONS

[Reg. PR-135; Amdt. 302-17]

### PART 302—RULES OF PRACTICE IN ECONOMIC PROCEEDINGS

#### Service of Complaints Against Tariffs

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 26th day of February 1973.

Subpart E of Part 302 of the Board's procedural regulations (14 CFR 302.500, et seq.) sets forth the rules applicable to proceedings with respect to rates, fares, and charges. These proceedings may be instituted "by the filing of a petition or complaint by any person, or by the issuance of an order by the Board." (Rule 501.) However, Subpart E includes no particular provisions governing service of such petitions or complaints, or of answers thereto, and, in the absence of such particular provisions in Subpart E, the general provisions of Subpart A apply. (Rules 1(b) and 500.) The general provisions in Subpart A governing service of filed documents provide that "any . . . document filed by any party or other person with the Board or an administrative law judge shall be served upon all parties to the proceeding in which it is filed; . . ." (Rule 8(a)(2).) Thus, although complaints with respect to rates, fares, and charges are not among the types of documents expressly enumerated in that rule, it is clear that such complaints which are tendered for filing are subject to said service provision of Rule 8(a)(2) and will not be served by the Board under Rule 8(a)(1). Nonetheless, we think it advisable to amend the rules in order to eliminate any ambiguity on this narrow procedural question.

Accordingly, we are amending both the general provisions of Subpart A and the special provisions of Subpart E of the rules of practice so as to indicate clearly that persons filing petitions or complaints against tariffs are responsible for serving the petition or complaint upon the carrier against whose tariff it is filed.<sup>1</sup> Since these amendments are editorial in nature and relate wholly to a matter of Board procedure, the Board finds that notice and public procedure hereon are unnecessary and the amendments may become effective immediately.

In consideration of the foregoing, the Civil Aeronautics Board hereby amends Part 302 of its procedural regulations (14 CFR Part 302), effective February 26, 1973, as follows:

1. Amend the table of contents by modifying § 302.502 to read as follows:

Sec. 302.502 Contents and service of petition or complaint.

2. Amend § 302.8(a)(2) to read as follows:

#### § 302.8 Service of documents.

- (a) Who makes service— . . .
- (2) The parties. Complaints, answers, petitions, briefs, exceptions, notices, pro-

<sup>1</sup> We are also making a related editorial modification to § 302.505(e).

tests, or memoranda, or any other documents filed by any party or other person with the Board or an administrative law judge shall be served by such party or other person upon all parties to the proceeding in which it is filed: *Provided*, That motions to expedite filed in any proceeding conducted pursuant to sections 401 and 402 of the Act, shall, in addition, be served on all persons who have petitioned for intervention in, or consolidation of applications with, such proceeding. Proof of service shall accompany all documents when they are tendered for filing.

3. Amend § 302.502 by modifying its title, numbering the existing section as paragraph (a) and adding a new paragraph (b), the section as amended to read as follows:

#### § 302.502 Contents and service of petition or complaint.

(b) A petition or complaint shall be served by the petitioner or complainant upon the carrier against whose tariff provision the petition or complaint is filed.

4. Amend § 302.505(e) to read as follows:

#### § 302.505 Complaints requesting suspension of tariffs—answers to such complaints.

(e) In an emergency satisfactorily shown by complainant, and within the time limits herein provided, a telegraphic complaint may be sent to the Board and to the carrier against whose tariff provision the complaint is made. Such a telegraphic complaint shall state the grounds relied upon, and must immediately be confirmed by complaint filed and served in accordance with this part.

(Sec. 204(a) of the Federal Aviation Act of 1958, as amended, 72 Stat. 743, 49 U.S.C. 1324)

By the Civil Aeronautics Board.

[SEAL] PHYLLIS T. KAYLOR,  
Acting Secretary.

### Title 19—Customs Duties

#### CHAPTER I—BUREAU OF CUSTOMS, DEPARTMENT OF THE TREASURY

[T.D. 73-62]

### PART 8—LIABILITY FOR DUTIES; ENTRY OF IMPORTED MERCHANDISE

#### PART 19—CUSTOMS WAREHOUSES, CONTAINER STATIONS, AND CONTROL OF MERCHANDISE THEREIN

##### Entry Into and Withdrawal From Warehouses of Certain Distilled Spirits

Notice of proposed rule making to amend §§ 8.30 and 19.15 of the Customs regulations to provide for the entry into and the withdrawal from Customs bonded warehouses of distilled spirits in accordance with section 3 of Public Law 91-659 (26 U.S.C. 5066), enacted on January 8, 1971, was published in the *FEDERAL REGISTER* (37 FR 23188), on October 31, 1972. No comments were received in response to this notice.

Section 5066 of the Internal Revenue Code (26 U.S.C. 5066), provides in subsection (a) for the entry into Customs bonded warehouse of distilled spirits bottled in bond for export under section 5233 of the Internal Revenue Code (26 U.S.C. 5233), and of distilled spirits stamped or restamped, and marked, especially for export under the provisions of section 5062(b) of the Internal Revenue Code (26 U.S.C. 5062(b)). Subsection (b) of section 5066 provides that distilled spirits entered into Customs bonded warehouses under subsection (a) of the same section, and domestic distilled spirits transferred to such warehouses from Customs bonded manufacturing warehouses, Class 6, may be withdrawn for consumption in the United States by and for the official or family use of such foreign governments, organizations, and individuals who are entitled to withdraw imported distilled spirits from such warehouses free of tax. Subsection (c) permits distilled spirits entered into Customs bonded warehouses in accordance with subsection (a), to be withdrawn for domestic consumption. If so withdrawn, they shall be subject to duty and treated as American goods exported and returned under Item 804.20, Tariff Schedules of the United States (19 U.S.C. 1202). However, domestic distilled spirits which have been transferred from a Customs bonded manufacturing warehouse to a Customs bonded warehouse cannot be withdrawn for domestic consumption.

Accordingly, the proposed amendments to §§ 8.30 and 19.15 of the Customs regulations are adopted as set forth below.

**Effective date.** These amendments shall become effective on April 2, 1973.

[SEAL] VERNON D. ACRE,  
Commissioner of Customs.

Approved: February 20, 1973.

EDWARD L. MORGAN,  
Assistant Secretary  
of the Treasury.

Section 8.30 is amended by adding new paragraphs (g) and (h) to read as follows:

#### § 8.30 Form and contents; articles entitled to entry.

(g) Except as otherwise provided herein, distilled spirits entered into Customs bonded warehouse in accordance with section 5066(a), Internal Revenue Code, as amended (26 U.S.C. 5066(a)), shall be treated in the same manner as any other merchandise entered for warehouse. Distilled spirits so entered may be withdrawn from warehouse for domestic consumption under section 5066(c) of the Internal Revenue Code, as amended, in which event they will be subject to duty as American goods exported and returned under item 804.20, Tariff Schedules of the United States (19 U.S.C. 1202). The recital clause of the warehouse entry bond, Customs Form 7555, shall be modified to show

that the distilled spirits were entered in accordance with section 5066(a), Internal Revenue Code, as amended. The following new condition shall be added to the bond, or to the general term bond, Customs Form 7595, prior to its approval: "And if said articles shall be withdrawn in accordance with the provisions of section 5066(b) or (c) of the Internal Revenue Code, as amended, or in default thereof, if the obligors shall pay to the district director as liquidated damages an amount equal to the aggregate sum of double the duties assessable on such part of the shipment as shall not have been so withdrawn, plus the amount of any internal revenue tax assessable thereon."

(h) Domestic distilled spirits which have been transferred from a Customs bonded manufacturing warehouse, Class 6, to a Customs bonded storage warehouse, may not be withdrawn under section 5066(c) of the Internal Revenue Code, as amended (26 U.S.C. 5066(c)), for domestic consumption. For procedure concerning the transfer of such distilled spirits from Customs bonded manufacturing warehouse, Class 6, to Customs bonded storage warehouse, see § 19.15(g)(2) of this chapter.

(R.S. 251, as amended, secs. 557, 624, 46 Stat. 744, as amended, 759; 19 U.S.C. 66, 1557, 1624)

#### § 19.15 Withdrawal for exportation of articles manufactured in bond; waste or by-products of consumption.

(g)(1) Articles may be withdrawn for transportation and delivery to a bonded storage warehouse at an exterior port under the provisions of section 311, Tariff Act of 1930, as amended (19 U.S.C. 1311), for the sole purpose of immediate export or may be withdrawn pursuant to section 309(a) of the Tariff Act of 1930, as amended (19 U.S.C. 1309(a)). Such withdrawal shall be effected on Customs Form 7512, as provided for in § 18.16 of this chapter. A rewarehouse entry shall be made at the exterior port in accordance with § 8.33 of this chapter, supported by a bond on Customs Form 7555 in an amount equal to the aggregate sum of double the estimated amount of ordinary Customs duties on the merchandise (including any taxes imposed thereon which are required by law to be treated as duty imposed by the Tariff Act of 1930), plus the estimated amount of any other tax or taxes on the merchandise collectible by the district director of Customs. The recital clause of such bond shall be modified to show that the merchandise is the product of a bonded manufacturing warehouse, Class 6, and that it has been rewarehoused at the exterior port for the sole purpose of immediate export or withdrawal pursuant to section 309(a) of the Tariff Act of 1930, as amended. The following new condition shall be added to the warehouse entry bond on Customs Form 7555, or to the general term bond, Customs Form 7595, prior to its approval: "And if said articles shall be exported or withdrawn in accordance with the provisions of section 311 or 309(a), Tariff Act of 1930, as amended,

in the manner prescribed by the regulations; or, in default thereof, if the obligors shall pay to the district director as liquidated damages an amount equal to the aggregate sum of double the duties assessable on such part of the shipment as shall not have been so exported or withdrawn, plus the amount of any internal revenue tax assessable thereon."

(2) Domestic distilled spirits transferred from a Customs bonded manufacturing warehouse, Class 6, to a Customs bonded storage warehouse, Class 2 or 3, in accordance with section 5521 of the Internal Revenue Code, as amended (26 U.S.C. 5521), and section 311, Tariff Act of 1930, as amended (19 U.S.C. 1311), shall be rewarehoused in accordance with the procedure for withdrawal and rewarehousing set forth in subparagraph (1) of this section. The recital clause of the warehouse entry bond, Customs Form 7555, shall be amended to show the circumstances of such entry. The following condition shall be added to the warehouse entry bond, Customs Form 7555, or to the general term bond, Customs Form 7595, prior to its approval: "And if said articles shall be withdrawn in accordance with section 5066(b), Internal Revenue Code, as amended (26 U.S.C. 5066(b)); or, in default thereof, if the obligors shall pay to the district director as liquidated damages an amount equal to the aggregate sum of double the duties assessable on such part of the shipment as shall not have been withdrawn plus the amount of any internal revenue tax assessable thereon." For regulations concerning the limitation on the withdrawal of such merchandise from a Customs bonded storage warehouse for consumption, see § 8.30(h) of this chapter.

(R.S. 251, as amended, secs. 311, 624, 46 Stat. 691, as amended, 759; 19 U.S.C. 66, 1311, 1624)

[FR Doc. 73-3968 Filed 3-1-73; 8:45 am]

### Title 20—Employees' Benefits

#### CHAPTER II—RAILROAD RETIREMENT BOARD

#### PART 210—EXECUTION AND FILING OF AN APPLICATION FOR AN ANNUITY Application To Be Filed

This document provides a revision of the Board's regulations, adding another situation in which it is considered that action of the Board or of its employees has deterred an individual from filing an application on the prescribed form.

Pursuant to the general authority contained in section 10 of the act of June 24, 1937 (50 Stat. 314, as amended; 45 U.S.C. 228j), § 210.2(b)(1) of Part 210 (20 CFR 210.2(b)(1)) of the regulations under such act is amended by Board Order 73-8, dated February 12, 1973, to read as follows:

#### § 210.2 Application to be filed.

- (b) . . .
- (1) . . .

- (i) Failure to advise the individual properly as to the necessity for filing an application on such prescribed form; or
- (ii) Failure to advise the individual that his written statement containing all the pertinent information called for by an application, though on a form prescribed by the Board, is insufficient to serve as an application; or
- (iii) Failure to furnish the individual with the appropriate application form; or
- (iv) Furnishing of correct information that under an existing ruling (which was subsequently reversed during the individual's lifetime) entitlement was precluded: *And further provided*, That:

Dated: February 23, 1973.  
By authority of the Board.

R. F. BUTLER,  
Secretary of the Board.  
[FR Doc. 73-3950 Filed 3-1-73; 8:45 am]

### Title 29—Labor

#### SUBTITLE A—OFFICE OF THE SECRETARY OF LABOR

#### PART 2—GENERAL REGULATIONS

##### Audiovisual Coverage of Administrative Hearings

On pages 26430 and 26431 of the *FEDERAL REGISTER* of December 12, 1972, there was published a notice in which it was proposed to issue rules stating the Department's policy concerning audiovisual coverage of administrative hearings under various laws administered by this Department. The proposal also designated the present Part 2 as Subpart A, and added a new Subpart B stating the audiovisual coverage policy of this Department.

After consideration of all such relevant matter as was presented by interested persons, the amendment as so proposed is hereby adopted, subject to the following changes:

1. Section 2.13 is revised to read as set forth below.
2. A new § 2.16 is added, reading as set forth below.

These revisions are effective on March 2, 1973, inasmuch as they relieve restrictions on the audiovisual coverage of administrative hearings.

Signed at Washington, D.C., this 26th day of February 1973.

PETER J. BRENNAN,  
Secretary of Labor.

Part 2 is revised as follows:

1. The present Part 2 is designated "Subpart A—General."
2. The new Subpart B of Part 2 of Title 29, Code of Federal Regulations, reads as follows:

#### Subpart B—Audiovisual Coverage of Administrative Hearings

- Sec. 2.10 Scope and purpose.
- 2.11 General principles.
- 2.12 Audiovisual coverage permitted.
- 2.13 Audiovisual coverage prohibited.

- Sec.  
2.14 Proceedings in which the Department balances conflicting values.  
2.15 Protection of witnesses.  
2.16 Conduct of hearings.

AUTHORITY: 5 U.S.C. 301 and 5 U.S.C. 552-556.

#### Subpart B—Audiovisual Coverage of Administrative Hearings

##### § 2.10 Scope and purpose.

This subpart defines the scope of audiovisual coverage of departmental administrative hearings. It describes the types of proceedings where such coverage is encouraged, defines areas where such coverage is prohibited (as in certain enforcement proceedings or where witnesses object) and areas where a decision concerning coverage is made after weighing the values involved in permitting coverage against the reasons for not permitting it.

##### § 2.11 General principles.

The following general principles will be observed in granting or denying requests for permission to cover hearings audiovisually:

- (a) Notice and comment and on-the-record rule making proceedings may involve administrative hearings. If such administrative hearings are held, we encourage their audiovisual coverage.
- (b) Audiovisual coverage shall be excluded in adjudicatory proceedings involving the rights or status of individuals (including those of small corporations likely to be indistinguishable in the public mind from one or a few individuals) in which an individual's past culpable conduct or other aspect of personal life is a primary subject of adjudication, and where the person in question objects to coverage.
- (c) Certain proceedings involve balancing of conflicting values in order to determine whether audiovisual coverage should be allowed. Where audiovisual coverage is restricted, the reasons for the restriction shall be stated in the record.

§ 2.12 Audiovisual coverage permitted.

The following are the types of hearings where the Department encourages audiovisual coverage:

- (a) All hearings involving notice and comment and on-the-record rule making proceedings. The Administrative Procedure Act provides for notice of proposed rule making with provision for participation by interested parties through submission of written data, views, or arguments, with or without opportunity for oral presentation (5 U.S.C. 553). (In many cases the Department follows the above procedure in matters exempted from these requirements of 5 U.S.C. 553.) On-the-record rule making proceedings under 5 U.S.C. 556 and 557 are also hearings where audiovisual coverage of hearings is encouraged. Examples of hearings encompassed by this paragraph are:

- (1) Hearings to establish or amend safety or health standards under the Occupational Safety and Health Act of 1970, 29 U.S.C. 651.

- (2) Hearings to determine the adequacy of State laws under the Occupational Safety and Health Act of 1970.

- (b) Hearings to collect or review wage data upon which to base minimum wage rates determined under various laws, such as the Davis-Bacon Act (40 U.S.C. 276a) and related statutes and the Service Contract Act of 1965 (41 U.S.C. 353, as amended by Public Law 92-473 approved October 9, 1972).

- (c) Hearings under section 4(c) of the Service Contract Act of 1965 (41 U.S.C. 353, subsection (c) added by Public Law 92-473 approved October 9, 1972) to determine if negotiated rates are substantially at variance with those which prevail in the locality for services of a character similar.

- (d) Hearings before the Wage Appeals Board (Parts 1, 3, 5, and 7 of this chapter).

- (e) Hearings held at the request of a Federal agency to resolve disputes under the Davis-Bacon and related Acts, involving prevailing wage rates or proper classification which involve significant sums of money, large groups of employees or novel or unusual situations.

- (f) Hearings of special industry committees held pursuant to the Fair Labor Standards Act, as amended (29 U.S.C. 201 et seq.) for the purpose of recommending minimum wage rates to be paid in Puerto Rico, the Virgin Islands, and American Samoa.

- (g) Hearings pursuant to section 13 (a) of the Welfare and Pension Plans Disclosure Act (29 U.S.C. 308d) to determine whether a bond in excess of \$500,000 may be prescribed.

- (h) Hearings where the Department is requesting information needed for its administrative use in determining what our position should be (e.g., our hearings on the 4-day, 40-hour workweek).

##### § 2.13 Audiovisual coverage prohibited.

The Department shall not permit audiovisual coverage of the following types of hearings if any party objects:

- (a) Hearings to determine whether applications for individual variances should be issued under the Occupational Safety and Health Act of 1970.
- (b) Hearings (both formal and informal) involving alleged violations of various laws such as the Davis-Bacon Act (40 U.S.C. 276a et seq.) and related Acts, the Contract Work Hours and Safety Standards Act (40 U.S.C. 327 et seq.), the Service Contract Act (41 U.S.C. 351 et seq.), the Walsh Healey Act (41 U.S.C. 35 et seq.), under section 41 of the Longshoremen's and Harbor Workers' Compensation Act (33 U.S.C. 941 et seq.), the Fair Labor Standards Act of 1938, as amended (29 U.S.C. 201 et seq.), and any informal hearings or conferences under the Occupational Safety and Health Act of 1970 (29 U.S.C. 651 et seq.) which are not within the jurisdiction of the Occupational Safety and Health Commission.

- (c) Adversary hearings under the Longshoremen's and Harbor Workers' Compensation Act (33 U.S.C. 901 et seq.) and related Acts, which determine an employee's right to compensation.

- (d) Hearings which determine an employee's right to compensation under the Federal Employees' Compensation Act (5 U.S.C. 8101 et seq.).

##### § 2.14 Proceedings in which the Department balances conflicting values.

In proceedings not covered by §§ 2.12 and 2.13, the Department should determine whether the public's right to know outbalances the individual's right to privacy. When audiovisual coverage is restricted or excluded, the record shall state fully the reasons for such restriction or exclusion. For example, there would be included in this category hearings before the Board of Contract Appeals involving appeals from contracting officer decisions involving claims for extra costs for extra work, extra costs for delay in completion caused by the Government or for changes in the work, conformity hearings arising under State unemployment insurance laws, etc.

##### § 2.15 Protection of witnesses.

A witness has the right, prior to or during his testimony, to exclude audiovisual coverage of his testimony in any hearing being covered audiovisually.

##### § 2.16 Conduct of hearings.

The presiding officer at each hearing which is audiovisually covered is authorized to take any steps he deems necessary to preserve the dignity of the hearing or prevent its disruption by persons setting up or using equipment needed for its audiovisual coverage.

[FR Doc 73-3929 Filed 3-1-73; 8:45 am]

#### Title 32—National Defense CHAPTER VII—DEPARTMENT OF THE AIR FORCE SUBCHAPTER C—PUBLIC RELATIONS PART 823—INDIVIDUALS AND ORGANIZATIONS

##### Authorized Commissary Store Privileges

Part 823, Subchapter C of Chapter VII of Title 32 of the Code of Federal Regulations is revised to read as follows:

- Sec.  
823.1 Purpose.  
823.2 Definitions.  
823.3 List of patrons.  
823.4 Identification of patrons.

AUTHORITY: 10 U.S.C. 8012.

##### § 823.1 Purpose.

This part lists the individuals, organizations and activities entitled to commissary store privileges, except in foreign countries where prohibited by treaty or other international agreements, and sets forth instructions regarding the identification of authorized patrons.

##### § 823.2 Definitions.

As used throughout this part, the following terms shall have the meanings set forth in paragraphs (a) through (c) of this section.

- (a) *Military department.* The Department of the Army, the Department of the Navy, the Department of the Air Force, and the Marine Corps.

- (b) *Armed Services.* The terms "Armed Services" and "Services" means the Army, Navy, Air Force, Marine Corps, and Coast Guard.

- (c) *Uniformed Services.* The term "Uniformed Services", unless otherwise qualified, means the Army, Navy, Air Force, Marine Corps, Coast Guard, Commissioned Officers of the National Oceanic and Atmospheric Administration and Public Health Service.

- (d) *United States.* The fifty (50) States and the District of Columbia.

- (e) *Continental United States.* The term "Continental United States (CONUS)" means the forty-eight (48) States and the District of Columbia.

- (f) *Commissary store.* Army Commissary Store, Navy Commissary Store, and Marine Corps Commissary Store.

- (g) *Uniformed personnel.* Members of the Army, Navy, Air Force, Marine Corps, Coast Guard; Cadets and Midshipmen of the U.S. Army, Navy, Air Force, and Coast Guard Academies, commissioned officers of the National Oceanic and Atmospheric Administration; commissioned officers of the Public Health Service, and members of the Reserve components as defined in paragraph (h) of this section, on extended active duty or undertaking active duty for training in excess of 72 hours.

- (h) *Reserve components.* The Army National Guard and Air National Guard of the United States; the Army Reserve, the Naval Reserve, the Air Force Reserve, the Marine Corps Reserve, the Coast Guard Reserve, and Reserve Officers of the Public Health Service.

- (i) *Dependents.* (1) A lawful wife.  
(2) A lawful husband who resides in the same household as the sponsor.

- (3) Children who are under 21 years of age and unmarried and who are either legitimate, adopted children, stepchildren, or wards and who are in fact dependent for over half of their support from the sponsor and who reside full time in the same household as the sponsor.

- (4) Children who are 21 years of age or over and unmarried and who are in fact dependent for over half their support from the sponsor and who reside full time in the same household as the sponsor and who are either legitimate or are adopted children, stepchildren or wards and who are (i) incapable of self-support because of a mental or physical handicap or (ii) have not passed their 23d birthday and are enrolled in a full time course of study at an approved institute of higher learning.

- (5) Parents, including father, mother, father-in-law, mother-in-law, stepparent and parent by adoption who are in fact dependent for over half of their support from the sponsor and who reside full time in the same household as the sponsor.

- (j) *Surviving spouse.* Widow or widower who have not remarried (or if remarried have reverted through divorce or the demise of the spouse to an unmarried status), of the following:

- (1) Member of the Regular Army, Navy, Air Force, Marine Corps, and Coast Guard.

- (2) Retired personnel of the Army, Navy, Air Force, Marine Corps, and Coast Guard as defined in paragraph (k) of this section.

- (3) Nonregular personnel of the Army, Navy, Air Force, and Marine Corps entitled to disability benefits pursuant to 10 U.S.C. 3687, 6148, and 8687.

- (4) Members of the Army of the United States, Air Force of the United States, inductees of the U.S. Navy, and inductees of the U.S. Marine Corps who died in line of duty while on active duty.

- (5) Members of the Reserve components who died in line of duty while on active duty, including active duty for training and inactive duty training, such as drills.

- (6) Personnel of all Reserve components retired with pay pursuant to 10 U.S.C. Chapters 67, 367, 571, and 867.

- (7) Members of the Fleet Reserve and Fleet Marine Corps Reserve.

- (8) Personnel of the emergency officers' retired lists of the Army, Navy, Air Force, and Marine Corps who have been retired pursuant to section II, Act of September 2, 1958, Public Law 85-857.

- (9) Active duty and retired officers and crews of vessels, light keepers, and depot keepers of the former lighthouse service.

- (10) One hundred percent service-connected disabled veterans.

- (11) Active duty and retired commissioned officers of the Public Health Service.

- (12) Retired commissioned officers, ship officers, and members of the crews of vessels of the Coast and Geodetic Survey (33 U.S.C. 868a).

- (13) Retired commissioned officers of the Environmental Science Services Administration.

- (14) Active duty and retired commissioned officers of the National Oceanic and Atmospheric Administration.

- (k) *Retired personnel.* (1) All personnel carried on the official retired lists of the uniformed services as defined in paragraph (c) of this section, who are retired with pay or granted retirement pay for physical disability.

- (2) All members of the Reserve components as defined in paragraph (h) of this section, retired with pay or granted retirement pay for physical disability pursuant to 10 U.S.C. Chapter 61 and 10 U.S.C. 3687, 6148, and 8687.

- (3) Personnel of the Reserve components retired with pay or granted retirement pay pursuant to 10 U.S.C. 1331, 3911, 6323, and 8911.

- (4) Personnel of the emergency officers' retired list of the Army, Navy, Air Force, and Marine Corps who were retired pursuant to section II, Act of September 2, 1958, Public Law 85-857.

- (5) Retired officers and crews of vessels, light keepers, and depot keepers of the former lighthouse service (33 U.S.C. 754a).

- (6) Retired commissioned officers, ship officers, and members of the crews

of vessels of the Coast and Geodetic Survey.

- (7) Retired commissioned officers of the Environmental Science Services Administration.

- (l) *Civilian employees of the Coast Guard.* Former officers or employees of the lighthouse service, who as such on June 30, 1939 were serving as officers or crew on lighthouse service vessels, light keepers, or depot keepers in the lighthouse service, and are now civilian employees of the Coast Guard serving as lighthouse keepers or on board lightships or other Coast Guard vessels (33 U.S.C. 754a).

- (m) *Agents.* In the case of individual patrons, an "agent" is defined as a member of a household maintained by or for an authorized commissary store patron who has designated such individuals to act in his/her behalf. In addition, an agent must qualify as a dependent, as defined in paragraph (i) of this section. In extreme hardship cases and when no adult dependent member is capable of shopping, due to sponsor being stationed away from his/her household or due to a physical disability or when the spouse is unable to shop due to sickness, temporary designation as agent of persons not meeting the dependent criteria may be made at the discretion of the Commanding Officer at the command level designated by the respective Military Department for periods not to exceed 1 year. Authorization may be extended in instances where hardship continues to exist. In the case of organization or activities, an agent is defined as a representative designated by the person responsible therefor.

- (n) *Extended active duty.* Full time duty in the active military service of the United States, entered into with the original expectation of serving for an indefinite or stated period of time, other than active duty for training.

- (o) *Active duty for training.* Full-time duty in the active military service of the United States for training purposes. The full-time training or other full-time duty performed by members of the Army National Guard and the Air National Guard of the United States while in their status as members of the Army National Guard or Air National Guard of the several States, territories, or the District of Columbia, pursuant to law, for which they are entitled to receive pay from the United States, shall be considered active duty for training in the service of the United States as members of the Reserve components of the Armed Forces. Commissary privileges are authorized such members when on active duty for training, providing such period of active duty for training is in excess of seventy-two (72) hours.

##### § 823.3 List of patrons.

Commissary store privileges are authorized for the classes of individuals, organizations, and activities set forth below.

- (a) *Uniformed personnel.* All uniformed personnel, as defined in § 823.2(g).

(b) *Retired personnel.* All retired personnel, as defined in § 823.2(k).

(c) *Fleet Reserve personnel.* Enlisted personnel transferred to the Fleet Reserve of the Navy and the Fleet Marine Corps Reserve, after sixteen (16) or more years of active service. (These personnel are equivalent to Army and Air Force retired enlisted personnel.)

(d) *Surviving spouse.* Surviving spouse as defined in § 823.2(j).

(e) *Armed Services personnel of foreign nations.* Officers and enlisted personnel of the Armed Services of foreign nations as follows:

(1) When on duty with U.S. Armed Services under competent orders issued by the U.S. Army, Navy, Air Force, or Marine Corps.

(2) Officers and crews of naval vessels of friendly nations visiting U.S. ports where commissary stores are located (quantities shall be limited to the immediate needs of the purchaser).

(3) In overseas areas when determined by the major overseas commander or commandant that the granting of such privileges is in the best interests of the United States and such persons are connected with, or their activities related to the performance of functions of the U.S. military establishment.

(4) Excluded are officers and enlisted personnel of foreign nations, retired or on leave in the United States or when attending U.S. schools, but not under orders issued by the U.S. Army, Navy, Air Force, or Marine Corps.

(f) *Official organizations and activities of the Armed Forces.* Official organizations and other resale activities of the U.S. Armed Services, except concessionaires, which are operated for uniformed personnel on active duty.

(g) *Government departments or agencies outside the Department of Defense.* Government departments or agencies outside the Department of Defense when supplies can be furnished without unduly impairing the service to commissary store patrons and when the local commanding officer determines that the desired supplies cannot be conveniently obtained from civilian agencies.

(h) *Hospitalized veterans.* Honorably discharged veterans of the Uniformed Services of the United States, including Coast Guard when hospitalized where commissary store facilities are available. (Does not include honorably discharged veterans receiving out-patient treatment.) (10 U.S.C. 4621e, 7603, and 9621e.)

(i) *Totally disabled veterans.* Honorably discharged veterans of the Uniformed Services of the United States with a one hundred percent (100 percent) service-connected physical disability. Each disabled veteran authorized these privileges shall be permitted to designate one agent for the purpose of making purchases in his/her behalf.

(j) *Civilian officers and employees of the U.S. Government stationed outside of the United States.* Under the direction of the overseas commander or the commandant, privileges may be extended to civilian officers and employees of the U.S. Government and to such other per-

sons as may be specifically authorized by the Secretary of the Military Department concerned.

(k) *Civilian officers and employees of the Armed Services within the United States.* Privileges may be extended to civilian officers, including contract surgeons and employees of the Armed Services and to other persons when specifically authorized by the Secretary of the Department concerned and when it is impracticable for the said civilian officers and employees and other persons to procure such commissary store supplies from civilian agencies without impairing the efficient operations of the installation. Privileges will not be extended to civilian officers and employees of the Armed Services and other persons who do not reside within the military installation. The term "military installation" is defined as the installation at which the civilian officers, employees or other persons reside. Privileges will not include the purchase of tobacco products in these States, including the District of Columbia, which impose a tax on such products.

(l) *American National Red Cross personnel stationed outside the United States.* Privileges may be extended to all uniformed and nonuniformed, full time, paid professional and headquarters staff personnel and uniformed, full time, paid secretarial and clerical workers of the Red Cross, who are assigned to duty with the Armed Services by the Red Cross. Extension of such privileges will be determined by the major overseas commander or commandant upon the capability and without detriment to his ability to fulfill his military mission.

(m) *American National Red Cross personnel stationed within the United States.* Privileges may be extended to all uniformed and nonuniformed, full time, paid professional and headquarters staff personnel of the Red Cross who are assigned to duty with the armed services by the Red Cross and who reside within the military installation as defined in paragraph (k) of this section.

(n) *Retired personnel of the former Lighthouse Service.* Retired officers and crews of vessels of the former Lighthouse Service and retired light keepers and depot keepers of the former Lighthouse Service.

(o) *Civilian employees of the Coast Guard.* Civilian employees of the Coast Guard as defined in § 823.2(1).

(p) *Retired civilian employees of the Coast Guard.* Retired civilian employees of the Coast Guard who on June 30, 1939, were serving as officers or crew on Lighthouse Service vessels, light keepers or depot keepers of the former Lighthouse Service and who after June 30, 1939, and at the time of retirement were civilian employees of the Coast Guard serving as lighthousekeepers or on board lightships or other Coast Guard vessels.

(q) *United Service Organization including Young Men's Christian Association.* At installations where Young Men's Christian Association buildings have been constructed pursuant to 10 U.S.C.

4778, the duly appointed secretaries of the Young Men's Christian Association, when serving at the installation, will be permitted to purchase subsistence supplies as are necessary for use in connection with official activities. Where it is within the capability as determined by the major overseas commander or commandant and without detriment to his ability to fulfill his military mission, commissary store privileges may be extended to United Service Organization and its member agencies clubs to purchase subsistence supplies for use in such club snackbars. For the purpose of this paragraph "overseas area" is defined as concerning all areas other than the United States, Puerto Rico, and Guam.

(r) *United States nongovernmental, nonmilitary agencies, and individuals in overseas commands.* Commissary store support may be authorized in overseas commands by the Secretary of the Military Department concerned, on a reimbursable basis, when such agencies and individuals are serving the U.S. Forces exclusively and when it has been determined that the granting of the privilege would be in the best interest of the United States and failure to grant such privileges would impair the efficient operation of the U.S. military establishment.

(s) *Agents.* Under regulations prescribed by the Military Department each authorized patron shall be permitted to designate his/her spouse and other dependent member(s) as defined in § 823.2(1) who are entitled to DD Form 1173 (Uniformed Services Identification and Privilege Card) as his/her agent(s) for the purpose of making purchases on his/her behalf. If the designated agent(s) of the authorized member is incapable of shopping at the commissary store, temporary designation of an additional agent of persons not authorized above, may be made at the discretion of the local commanding officer. Authorization format will be such as to permit positive identification and will be effective for a period as determined by the Military Departments but not to exceed 1 year in duration. Authorization periods may be extended in instances where hardship continues to exist as determined by the local commanding officer. Individuals currently authorized to make purchases in their own right, or their authorized agent(s), may under circumstances as outlined above, also purchase subsistence supplies for authorized commissary patrons.

(t) *Recipients of the Medal of Honor.*

§ 823.4 Identification of patrons.

(a) *Positive identification required.* Any individual who seeks to make a purchase from a commissary store shall be positively identified as an authorized patron prior to entering or prior to consummation of sale. U.S. Armed Services personnel, on active duty, for periods in excess of seventy-two (72) hours, who present themselves in the prescribed military uniform may be identified thereby when in the judgment of the Military Commander concerned, such

procedure is justified. The prescribed identification of nonuniformed patrons shall be carefully checked to insure that each individual is entitled to the privileges which he/she seeks.

(b) *Types of identification required.* Subject to the instructions contained in paragraph (c) of this section, authorized patrons of commissary stores shall be identified by the complete regulation uniform, by an official Armed Services identification card, by an official Uniformed Services Identification and Privilege card, by an official identification card issued by the service of which the patron is a member or as prescribed in § 823.3(s) or paragraph (d) of this section. All identification media shall bear the signature of the person to whom issued.

(c) *Identification procedures.* Except for personnel in complete regulation uniform, commissary stores will accept the identification cards as referred to in paragraph (b) of this section, as proper identification for the following: Uniformed personnel as defined in § 823.2(g); dependents as defined in § 823.2(i); surviving spouse as defined in § 823.2(j); retired personnel as defined in § 823.2(k); civilian employees of the Coast Guard as defined in § 823.2(1); and agents as defined in § 823.2(m). In addition to the identification cards referred to in paragraph (b) of this section, members of the Reserve components will be identified subject to instructions contained in paragraph (d) of this section.

(d) *Reserve components identification procedures.* Members of the Reserve components, as defined in § 823.2(h), who are ordered to active duty, as defined in § 823.2(o), for periods in excess of seventy-two (72) hours will be required to produce competent orders indicating their training status to include length of such training. In lieu of identification cards eligible dependents of Reserve component members will be identified as follows: By a letter of authorization or endorsement on individual orders authenticated by the Reserve unit commander or receiving unit commander and containing name, rank, social security number or service number of sponsor, beginning and ending dates of sponsor's tour of duty, name of individual dependent(s) and relationship to sponsor, designation of commissary store agent privileges, and signature of dependent.

By order of the Secretary of the Air Force.

JOHN W. FAHRNEY,  
Colonel, USAF, Chief, Legislative Division, Office of The Judge Advocate General.

# Title 43—Public Lands: Interior

## SUBTITLE A—OFFICE OF THE SECRETARY PART 17—NONDISCRIMINATION IN FEDERALLY ASSISTED PROGRAMS OF THE DEPARTMENT OF THE INTERIOR—EXECUTION OF TITLE VI OF THE CIVIL RIGHTS ACT OF 1964

### Miscellaneous Amendments

Pursuant to the authority of the Secretary of the Interior contained in 5 U.S.C. 301 and 42 U.S.C. 2000d-1, Part 17, Title 43 of the Code of Federal Regulations is amended as follows:

Wherever the term "on the grounds of race, color, or national origin" appears in this part, it is changed to read "on the grounds of race, color, sex, or national origin."

It is the policy of the Department of the Interior to allow time for interested parties to take part in the rulemaking process. However, this amendment broadens the field where specific discriminatory actions are prohibited, it is considered in the best interests of the public to make this amendment effective immediately. Therefore, the public rule-making process is waived and this amendment will become effective March 2, 1973.

CHARLES G. EMLEY,  
Deputy Assistant Secretary  
of the Interior.

FEBRUARY 22, 1973.

# Title 47—Telecommunication

## CHAPTER I—FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 19629; FCC 73-211]

### PART 73—RADIO BROADCAST SERVICES

#### Table of Assignments; Stone Harbor-Avalon-Cape May Court House, N.J.

*Report and order.* In the matter of amendment of § 73.202(b), *table of assignments*, FM Broadcast Stations. (Stone Harbor-Avalon-Cape May Court House, N.J.), Docket No. 19629, RM-1903.

1. The Commission here considers the notice of proposed rule making in this docket, adopted November 8, 1972 (37 FR 24368) proposing amendment of the FM Table of Assignments (§ 73.202(b) of the Commission's rules) on the basis of the petition of Ronald L. Oberholtzer (Oberholtzer) who proposed assignment of Channel 232A to Stone Harbor-Avalon-Cape May Court House, N.J.

2. The issues more or less are those set forth in the notice. We had raised the question whether a hyphenated assignment should be made to the three communities as proposed with a total population of 5,435, all located in Cape May County, population 59,554, espe-

cially when the assignment of an FM channel to one of the communities would permit anybody to apply for use at either of the other two communities under the "10-mile" provision in § 73.203(b) of the Commission's rules. The petitioner pertinently noted that this proposal was a "drop-in" assignment in a seashore area in the southern part of the State of New Jersey. He relied on the fact that none of the communities had any means of local expression either in terms of a daily or weekly newspaper or broadcast facility and that the 1970 Census population did not properly reflect the population during the summer tourist season. The petition was opposed by Salt-Tee Radio, Inc. (Salt-Tee), the licensee of Station WSLT-FM, Channel 292A, Ocean City, N.J. Salt-Tee's opposition was based on economic injury grounds, which the petitioner took issue with in reply comments on the ground that such arguments were nominal and speculative. We noted that the petitioner's view more or less accorded with our view as to the meaning of FCC v. Sanders Bros. Radio Station, 309 U.S. 470 (1940), as concerns FM channel rule making. Filing comments and/or reply comments were the petitioner; Salt-Tee; Cape Christian Broadcasters, Inc., licensee of Station WRIO-FM, Channel 272A, Cape May, N.J. (Cape Christian); and Jersey Cape Broadcasting Corp., licensee of Station WCMC-FM, Channel 264, Wildwood, N.J. (Jersey Cape). The latter three opposed the proposal.

3. Oberholtzer primarily relies on the contentions set forth in the petition for rule making which he incorporates by reference. As to the question of hyphenated assignment, however, Oberholtzer states that, while he intends to render primary service to all three communities, he now requests assignment of Channel 232A to Avalon, N.J., population 1,283.

4. Salt-Tee in its comments incorporates by reference its previous opposition to the petition. It makes an additional argument about a hyphenated assignment, but this has become moot. Salt-Tee also says that, if the Commission analyzes each community independently, it would determine that an assignment is not warranted.

5. The objections of Cape Christian are based on the proximity of Station WRIO-FM to the communities which Oberholtzer intends to serve, and its dependence on audience and revenues from those communities. Cape Christian also argues about the moot hyphenated assignment. Moreover, Cape Christian states that a prerequisite for assignment

<sup>1</sup> All population figures are from the 1970 Census.

of a channel is a showing of a real need for service which is lacking here, since, in addition to Station WRIO-FM at Cape May, there are stations licensed or proposed for Ocean City-Somers Point, N.J. (WSLT-AM/FM), and Wildwood, N.J. (Stations WCMC AM/FM/TV), serving the area and, despite Oberholtzer's claim, there are newspapers serving the area. According to Cape Christian, these include the Herald, a weekly with offices in Cape May Court House; the Seven-Mile Beach Reporter (covering Stone Harbor, Cape May Court House, Avalon and Sea Isle City) with offices at Sea Isle City and North Wildwood; and two Philadelphia newspapers—the Philadelphia Inquirer and Evening Bulletin—have special sections for Cape May County. Cape Christian points out that Stations WSLT, WCMC, and WRIO-FM, especially the latter, serve the entire area. Strong reliance is placed on the Commission's decision adding Channel 260 to Ocean City, Md., in Docket No. 19316, 35 FCC 2d 473, 474-5 (1972). Cape Christian also agrees with Salt-Tee's contention in opposition to the petition that there is no reason on the basis of the Commission's consideration of the adequacy of service of the area in the second report and order in Docket No. 17495, as concerns the assignment of an FM channel to Canton, N.J., 11 R.R. 2d 1676 (1967), to assign another channel. In this respect, Cape Christian says that population and other factors have not changed in the interim.

6. Jersey Cape, in its comments opposing the proposal, urges that its Station WCMC-FM at Wildwood is approximately 10 miles south of the area petitioner wishes to serve and another station would have a severe impact on other radio broadcast stations in the area because of the sparse population except during tourist season. Jersey Cape maintains that a station in the Stone Harbor-Avalon-Cape May Courthouse area would deprive it of advertising revenue by drawing on that from Wildwood, the city of its assignment. It also states that the area is well served by existing stations and that another FM station in this sparsely populated area would have severe economic impact on all radio broadcast stations, the fact which Station WCMC-FM has called to the Commission's attention in connection with license renewal in 1969 and 1972.

7. Oberholtzer filed reply comments and a supplement thereto. As concerns Salt-Tee's opposition, he indicates compliance with the Commission's Policy to Govern Requests for Additional FM Assignments, 9 R.R. 2d 1245 (1967), in making an appropriate preclusion study and showing that there is a demand for a station at Avalon. As to Cape Christian's opposition, the petitioner contends that service to the Stone Harbor-Avalon-Cape May Courthouse area from WCMC-AM and FM, and WRIO-FM is "marginal." Oberholtzer also disputes that these communities are adequately served by the four newspapers referred

to by Cape Christian. With regard to the economic injury argument, specifically that portion of Cape Christian's contention that an additional FM station in the area would "fractionalize the base available to support those stations currently licensed to the area," Oberholtzer relies on that portion of the report and order in Docket No. 19491, adopted December 20, 1972 (FCC 72-1174); — FCC 2d —, dealing with Morro Bay, Calif., to the effect that the Commission has a long-established policy of considering questions of possible undesirable economic competition only in connection with objections raised when a specific application has been filed. Oberholtzer points to the Ocean City case, 35 FCC 2d 473, 474-5, as authority for the proposition that allocation of additional FM assignments might be made to a community not entitled to it under population criteria but because of needs during summer tourist season. Oberholtzer takes issue with Cape Christian's reliance on the Canton, N.J., case for the proposition that the Commission concluded that the area in question was adequately served; Oberholtzer states that not only is the case 5 years old but the Commission neither referred to the area in question specifically nor did the Commission conclude that the area was adequately served.

8. The Morro Bay case merely is a reiteration of our views expressed in the notice for which we had cited the Sanders case. We also agree with petitioner's reading of the Ocean City, Md., and Canton, N.J., cases.

9. In view of the foregoing, we believe that the public interest, convenience, and necessity would be served by assigning Channel 232A to Avalon. In this respect, we reiterate the view expressed in Docket No. 19413 that FM channel assignments should not be denied if not able to be assigned elsewhere, 37 FCC 2d 54, 55 (1972). Our decision is based on the facts and policies discussed, and the mandate of section 307(b) of the Communications Act of 1934, as amended. Authority for the action taken herein is contained in sections 4 (i) and (j), 303 (g) and (r), and 307(b) of the Communications Act of 1934, as amended. Accordingly, the FM Table of Assignments (§ 73.202(b) of the Rules), is amended, effective April 6, 1973, by adding the following:

City	Channel No.
Avalon, N.J.	232A

10. It is further ordered, That this proceeding is terminated.

(Secs. 4, 303, 307, 48 Stat., as amended, 1066, 1082, 1083; 47 U.S.C. 154, 303, 307)

Adopted: February 21, 1973.

Released: February 26, 1973.

FEDERAL COMMUNICATIONS COMMISSION,  
[SEAL] BEN F. WAPLE,  
Secretary.

#### Title 49—Transportation CHAPTER V—NATIONAL HIGHWAY TRAFFIC SAFETY ADMINISTRATION, DEPARTMENT OF TRANSPORTATION PART 571—FEDERAL MOTOR VEHICLE SAFETY STANDARDS

##### Definition of "Occupant"; Deletion

This notice deletes the definition of "Occupant" from the general definitions applicable to the Federal motor vehicle standards.

At present, "Occupant" is defined in § 571.3 Definitions (applicable to all standards), as "a person or manikin seated in the vehicle, and, unless otherwise specified in an individual standard, having the dimensions and weight of the 95th percentile adult male." However, where the word "Occupant" is used in this chapter, the weight has generally been specified if it is a necessary part of the requirement. Thus, the definition is superfluous. Moreover, in instances where the use of a weight other than that of a 95th percentile male is assumed, the definition could be misleading.

Since this amendment is clarifying and interpretative in nature, and does not affect any requirements, notice and public procedure thereon are found to be unnecessary.

Accordingly, 49 CFR 571.3(b) is hereby amended by deleting the definition of "Occupant."

Effective date: April 1, 1973.

(Secs. 109, 119, Public Law 89-563, 80 Stat. 718, 15 U.S.C. 1392, 1407; delegation of authority at 49 CFR 1.61)

Issued on February 23, 1973.

DOUGLAS W. TOMS,  
Administrator.

#### CHAPTER X—INTERSTATE COMMERCE COMMISSION SUBCHAPTER A—GENERAL RULES AND REGULATIONS

[Rev. S. O. 1110; Amdt. 5]

##### PART 1033—CAR SERVICE

Penn Central Transportation Co.

At a session of the Interstate Commerce Commission, Railroad Service Board, held in Washington, D.C., on the 21st day of February 1973.

Upon further consideration of Revised Service Order No. 1110 (37 FR 19616, 22871, 23236; 38 FR 878 and 3333), and good cause appearing therefor:

It is ordered, That:  
§ 1033.1110 Revised Service Order No. 1110 (Penn Central Transportation Co., George P. Baker, Richard C. Bond, and Jervis Langdon, Jr., Trustees, required to restore service at the Buttonwood (Wilkes-Barre), Pa., Gateway and to reroute traffic originally routed via that gateway) be, and it is hereby, amended by substituting the following paragraphs (a) and (e) for paragraphs (a) and (e) thereof:  
(a) The Penn Central Transportation Co., George P. Baker, Richard C.

Bond, and Jervis Langdon, Jr., Trustees (Penn Central) be, and it is hereby, ordered to restore service via its Buttonwood (Wilkes-Barre), Pa., gateway on or before March 31, 1973.

(e) It is further ordered, That this order shall become effective at 11:59 p.m., September 15, 1972, and, as to paragraph (b) of this section, shall expire at 11:59 p.m., March 31, 1973, unless sooner vacated by order of this Commission upon restoration of service through the Buttonwood (Wilkes-Barre) Gateway.

(Secs. 1, 12, 15, and 17(2), 24 Stat. 379, 383, 384, as amended; 49 U.S.C. 1, 12, 15, and 17(2). Interprets or applies Secs. 1(10-17), 15(4), and 17(2), 40 Stat. 101, as amended, 54 Stat. 911; 49 U.S.C. 1(10-17), 15(4), and 17(2))

It is further ordered, That copies of this order shall be served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association; and that notice of this order shall be given to the general public by depositing a copy in the Office of the Secretary of the Commission at Washington, D.C., and by filing it with the Director, Office of the Federal Register.

By the Commission, Railroad Service Board.

[SEAL] ROBERT L. OSWALD,  
Secretary.

[FR Doc. 73-3721 Filed 3-1-73; 8:45 am]

[S.O. 1111; Amdt. 5]

##### PART 1033—CAR SERVICE

Delaware and Hudson Railway Co.

At a session of the Interstate Commerce Commission, Railroad Service Board, held in Washington, D.C., on the 21st day of February 1973.

Upon further consideration of Service Order No. 1111 (37 FR 19617, 22872, 23237; 38 FR 878 and 3333), and good cause appearing therefor:

It is ordered, That:  
Section 1033.1111 Service Order No. 1111 (Delaware and Hudson Railway Co. authorized to operate over tracks of Erie Lackawanna Railway Co. Thomas F. Patton and Ralph S. Tyler, Jr., Trustees) be, and it is hereby, amended by substituting the following paragraph (e) for paragraph (e) thereof:

(e) Expiration date. The provisions of this order shall expire at 11:59 p.m., March 31, 1973, unless otherwise modified, changed, or suspended by order of this Commission.

Effective date. This amendment shall become effective at 11:59 p.m., February 28, 1973.

(Secs. 1, 12, 15, and 17(2), 24 Stat. 379, 383, 384, as amended; 49 U.S.C. 1, 12, 15, and 17(2). Interprets or applies sec. 1(10-17), 15(4), and 17(2), 40 Stat. 101, as amended, 54 Stat. 911; 49 U.S.C. 1(10-17), 15(4), and 17(2))

It is further ordered, That a copy of this amendment shall be served upon

the Association of American Railroads, Car Service Division, as agent of all railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association; and that notice of this amendment be given to the general public by depositing a copy in the Office of the Secretary of the Commission at Washington, D.C., and by filing it with the Director, Office of the Federal Register.

By the Commission, Railroad Service Board.

[SEAL] ROBERT L. OSWALD,  
Secretary.  
[FR Doc. 73-3920 Filed 3-1-73; 8:45 am]

#### Title 50—Wildlife and Fisheries CHAPTER 1—BUREAU OF SPORT FISHERIES AND WILDLIFE, FISH AND WILDLIFE SERVICE, DEPARTMENT OF THE INTERIOR

##### PART 33—SPORT FISHING

Red Rock Lakes National Wildlife Refuge, Mont.

The following special regulation is issued and is effective March 2, 1973.

§ 33.5 Special regulations: sport fishing: For individual wildlife refuge areas. MONTANA

RED ROCK LAKES NATIONAL WILDLIFE REFUGE

Sport fishing is permitted as posted from June 16 through November 30, 1973. All areas open to fishing are delineated on a map available at refuge headquarters, and from the Regional Director, Bureau of Sport Fisheries and Wildlife, 10597 West Sixth Avenue, Denver, CO 80215. Areas closed the entire year include Upper and Lower Red Rock Lakes, Rivermarsh and Shambow Pond.

Sport fishing shall be in accordance with all applicable State regulations subject to the following special conditions:

(1) Boats with motors are prohibited. The provisions of this special regulation supplement the regulations which govern fishing on wildlife refuge areas generally, which are set forth in Title 50, Code of Federal Regulations, Part 33, and are effective through December 31, 1973.

E. D. STROOPS,  
Refuge Manager, Red Rock  
Lakes National Wildlife Refuge,  
Lima, Mont.

JANUARY 31, 1973.  
[FR Doc. 73-3947 Filed 3-1-73; 8:45 am]

#### Title 41—Public Contracts and Property Management

##### CHAPTER 1—FEDERAL PROCUREMENT REGULATIONS

(Temporary Reg. 27, supplement 3)

##### PART 1-3—PROCUREMENT BY NEGOTIATION

Cost Accounting Standards; Extension of Time

Revision of regulations pursuant to Public Law 91-379 as implemented by the Cost Accounting Standards Board.

1. Purpose. This regulation modifies the termination date of an exemption prescribed by Supplement 2 to FPR Temporary Regulation 27 dated October 31, 1972 (37 FR 23544, Nov. 4, 1972), with respect to negotiated nondefense contracts.

2. Effective date. This regulation is effective on March 1, 1973.

3. Expiration date. This regulation expires at the end of the day on March 30, 1973.

4. Background. FPR Temporary Regulation 27 implements the rules and regulations of the Cost Accounting Standards Board (CASB) with respect to negotiated defense contracts. It also extends the application of the Board's rules to negotiated nondefense contracts. Supplement 2 to that regulation, which was dated October 31, 1972, prescribed several exemptions applicable to defense and nondefense contracts.

5. Change of effective date. The exemption prescribed in paragraph 5(2)(g) of Supplement 2 to FPR Temporary Regulation 27 is extended an additional 30 days through March 30, 1973.

ARTHUR F. SAMPSON,  
Acting Administrator  
of General Services.

FEBRUARY 28, 1973.

#### CHAPTER 4—DEPARTMENT OF AGRICULTURE PROCUREMENT

Research Agreements With Educational Institutions

This amendment involves matters relating to agency management and contracting and while not subject by law to the notice and public procedure requirements for rule making under 5 U.S.C. 553 is subject to the Secretary's statement of policy (36 FR 13804). The amendment corrects or clarifies existing policy and embodies already existing Government-wide policy established by the Office of Management and Budget. No useful purpose would be served by public participation, and it is found upon good cause, in accordance with the Secretary's policy statement, that notice and other public procedures with respect to the amendment are impracticable and unnecessary.

(5 U.S.C. 301)

##### PART 4-3—PROCUREMENT BY NEGOTIATION

1. The table of contents for Part 4-3 is amended by adding the following:

§ 4-3.5104-1 Allowable costs.  
§ 4-3.5104-2 Cost sharing.  
§ 4-3.5104-3 Advance payments.  
§ 4-3.5111 Protection of human subjects of research.

2. Section 4-3.5101 is revised as follows:

§ 4-3.5101 Definitions.

As used throughout this subpart, the following terms shall have the meanings set forth below:

## RULES AND REGULATIONS

(a) *Agency.* Any of the several agencies of the Department of Agriculture.

(b) *Authorized departmental officer.* Any person authorized to sign research agreements with educational institutions on behalf of his agency, or his properly designated representative.

(c) *Cost sharing.* Participation by the educational institution in the cost of conducting the program.

(d) *Department.* The U.S. Department of Agriculture.

(e) *General purpose equipment.* Non-expendable property which is usable for activities other than activities directly related to the research, such as office equipment and furnishings, air conditioning, reproduction or printing equipment, motor vehicles, etc.

(f) *Educational institution.* The educational institution with which the research agreement is made. An educational institution (1) has a faculty, (2) offers courses of instruction, (3) is authorized to award a degree or certificate upon completion of a specific course of study.

(g) *Nonexpendable property.* Property which (1) costs \$200 or more, (2) is complete in itself, (3) does not lose its identity or become a component part of another when put into use, and (4) is of a durable nature with an expected service life of over 1 year.

(h) *Research agreement.* A written agreement and amendments thereto between an agency and an educational institution to perform basic or applied research. Research agreements will be documented on the following types of instruments, as appropriate: (Form AD-451 shall be used as a cover sheet; Form AD-452, General Provisions, is incorporated in Form AD-451 by reference.)

(1) *Contract.* Agreement for work to be performed by one party for the other for consideration. When a contract is the award instrument used, the following factors will generally be present:

(i) Initiative should be with the agency that wishes a specific task to be performed.

(ii) The task should be capable of being specified in detail.

(iii) The purpose is to purchase a specific service or end product.

(iv) The contract may specify the manner of performance or timing of the work.

(2) *Grant.* Agreement which provides for an agency to furnish money, property, or materials to an institution to be used in connection with research programs. When a grant is the award instrument used, the following factors will generally be present:

(i) Initiative generally comes from the grantee.

(ii) The grantee should have substantial freedom to pursue its stated purpose.

(iii) The agency purpose should be to aid or support.

(iv) The agency does not, generally, need to specify the manner of performance or timing of the work.

(3) *Cooperative arrangement.* An agreement which provides for mutual undertaking by the agency and the institution to perform research. When a cooperative arrangement (agreement) is the award instrument used, the following factors will generally be present:

(i) The agency and the institution cooperate in the project and are mutually interested in the objective.

(ii) There should be mutual and shared responsibility in planning and conducting the project.

(iii) There should be contributions by all parties.

3. Section 4-3.5102, is amended by adding the following text after the heading, Authorities:

#### § 4-3.5102 Authorities.

The authorities to provide financial assistance to educational institutions utilizing contracts, grants, or cooperative arrangements as the award instrument are as follows.

4. Section 4-3.5103, is amended by adding the following text after the heading, Policy:

#### § 4-3.5103 Policy.

Unless otherwise specified by law, the definitions of contract, grant, and cooperative agreement (see § 4-3.5101(h) (1), (2), and (3)) shall be used to select the appropriate instrument. In addition, the following policies apply:

5. Section 4-3.5104 is revised as follows:

#### § 4-3.5104 Cost reimbursement policy.

##### § 4-3.5104-1 Allowable costs.

The cost principles of OMB Circular A-21 (revised) shall be used to determine allowability of costs. In addition, when cooperative arrangements are used as the award instrument, the research agreement shall provide for reimbursement of the agreed-upon portion of the allowable costs incurred. It shall be specific as to the contribution by either party of funds, personnel, supplies, equipment, space, or other things of value to the undertaking. Reimbursement may be provided for through either an advance of funds which will be liquidated by the allowable costs incurred, or by reimbursement after the costs are incurred.

##### § 4-3.5104-2 Cost sharing.

When cost sharing is required, the cost sharing guidelines of OMB Circular A-100 shall be used.

##### § 4-3.5104-3 Advance payments.

In view of the nonprofit position of educational institutions, and the stated Government objective of strengthening the research capabilities of those institutions, advance payments shall be made in reasonable amounts on research agreements, whether under contract, grant, or cooperative arrangement authorities, whenever practical and authorized by law. Advance shall be made in accordance with the Treasury Fiscal Require-

ments Manual, Part VI, Chapter 1000. Advance should be limited to the minimum necessary to meet the institution's cash needs. Ordinarily advances by Treasury check will be made monthly but may be made less frequently whenever the cash need is small.

6. Section 4-3.5105(d) is revised as follows:

#### § 4-3.5105 Negotiation procedures.

(d) *Indirect cost rates.* In accordance with OMB Circular A-88, the negotiation of indirect costs of an educational institution and the auditing thereof, shall be assigned to one Federal agency (normally the Department of Health, Education, and Welfare) by an inter-agency coordinating committee. The negotiated indirect cost rates established by the assigned Federal agency shall be accepted by agencies of the Department and applied to contracts, grants, and cooperative agreements. Any agency which has reason to believe that special operating factors affecting its contracts, grants, or cooperative arrangements necessitate separate rates will, prior to the time the agreement is negotiated, notify the cognizant audit agency, the educational institution, and the cognizant negotiation agency so that appropriate attention may be devoted to them. In which case separate indirect cost rates may be established. The Department of Health, Education, and Welfare brochure entitled, "A Guide for Colleges and Universities—Cost Principles and Procedures for Establishing Indirect Cost Rates for Grants and Contracts with the Department of Health, Education, and Welfare," OASC-1, shall be used as a guide by institutions preparing indirect cost proposals for research agreements with this Department. This brochure is available from the Superintendent of Documents, Government Printing Office, Washington, D.C. 20402.

7. The first sentence of § 4-3.5110 is amended as follows:

#### § 4-3.5110 Changes in methodology, objectives or phenomena.

(a) In accordance with OMB Circular A-101, the principal investigator shall be permitted to change the methods and procedures employed in performing the research without approval of the authorized departmental officer unless the methods and procedures employed are stated as specific objectives of the research work, in which case, paragraph (b) of this section applies.

8. Subpart 4-3.51 is amended by adding a new section as follows:

#### § 4-3.5111 Protection of human subjects of research.

(a) *Policy.* Safeguarding the rights and welfare of people used as subjects in research projects conducted by the Department or supported by the Department is a responsibility of the Department agency conducting the research and the institution responsible for projects conducted with funds made available through the Department. Such research must protect the rights and

welfare of the subjects, must assure that risks do not outweigh either potential benefits to the subjects or the expected value of the knowledge sought, and must assure each person the right of adequate and appropriate informed consent. In all research projects covered by this policy, selection of persons or groups for study shall be made without regard to sex, race, color, religion, or national origin unless these characteristics are factors to be studied. Any investigator planning a project that includes these characteristics as factors for classification must outline his plans and the justification for them clearly in his project statement and must obtain written approval of such plans from the authorized departmental officer of the responsible agency before initiating research. Appropriate documentation should be kept when research includes members of minority groups selected as subjects of study because of their minority status.

(b) *Applicability.* The applicability of this policy is more obvious in medical and biological science research involving procedures that may be potentially harmful to persons used as subjects of study. It applies also to economic, social, and behavioral research that may involve varying degrees of discomfort, irritation, or harassment of persons or groups and to research in which rights of privacy of persons must be safeguarded by confidentiality of information obtained and by proper use of findings.

(c) *Review and approval.* To protect the safety and welfare of people who are subjects of research and to protect the researcher and his institution against liability when human subjects are involved in a study, each proposed project supported by USDA funds must be approved by the authorized departmental officer having responsibility for the research. The approval of the authorized departmental officer shall be based upon recommendations of a committee named by him. The committee may include scientists other than the principal investigator, lay consultants, and legal advisors as deemed appropriate by the authorized departmental officer. Documentation of the project must include the results of such review and recommendations of the reviewing committee.

(d) *Consistency with other policies.* This policy is consistent with recommendations of the Agricultural Research Policy Advisory Committee. Also, it is deemed to be consistent with existing policy of the U.S. Department of Health, Education, and Welfare, Public Health Service, as expressed in DHEW Grants Administration Manual, Chapter 1-40, "Protection of Human Subjects." Institutions that are in compliance with HEW rules will be in conformance with the USDA policy. If an institution receiving research funds from the USDA has applied to the Department of Health, Education, and Welfare for a research grant or contract involving human subjects and is in compliance with the rules set out in the Department of Health, Education, and Welfare Grants Administration

## RULES AND REGULATIONS

Manual, Chapter 1-40, then that institution will be deemed to have met USDA requirements. In cases where no HEW funds are involved, the appropriate USDA agency will require institutions to meet the requirements set out in the DHEW Grants Administration Manual.

(e) *Responsibility for assuring compliance with this policy.* It is the responsibility of the Cooperative State Research Service (CSRS) to ascertain such compliance with respect to institutions receiving funds through that agency and the responsibility of other Department agencies making grants for research to institutions not receiving funds through CSRS to ascertain such compliance on the part of these institutions.

## PART 4-7—CLAUSES

9. The table of contents of Part 4-7 is amended as follows:

§ 4-7.5101-22 Changes.  
§ 4-7.5101-23 Protection of human subjects of research.

10. Section 4-7.5101 is revised as follows:

#### § 4-7.5101 Clauses.

The clauses set forth in this § 4-7.5101 shall be incorporated in all research agreements. These clauses are included in Form AD-452, General Provisions, which is incorporated by reference in Research Agreement Form AD-451. See § 4-3.5106.

11. Section 4-7.5101-1 is revised as follows:

#### § 4-7.5101-1 Definitions.

The following terms shall have the meanings set forth below:

(a) *Agency.* Any of the several agencies of the Department of Agriculture.

(b) *Authorized departmental officer.* Any person authorized to sign research agreements with educational institutions on behalf of his agency, or his properly designated representative.

(c) *Cost sharing.* Participation by the educational institution in the cost of conducting the program.

(d) *Department.* The U.S. Department of Agriculture.

(e) *General purpose equipment.* Non-expendable property which is usable for activities other than activities directly related to the research, such as office equipment and furnishings, air conditioning, reproduction or printing equipment, motor vehicles, etc.

(f) *Educational institution.* The educational institution with which the research agreement is made. An educational institution (1) has a faculty, (2) offers courses of instruction, (3) is authorized to award a degree or certificate upon completion of a specific course of study.

(g) *Nonexpendable property.* Property which (1) costs \$200 or more, (2) is complete in itself, (3) does not lose its identity or become a component part of another when put into use, and (4) is of durable nature with an expected service life of over 1 year.

(h) *Research agreement.* A written agreement and amendments thereto between an agency and an educational institution to perform basic or applied research. Research agreements will be documented on the following types of instruments, as appropriate: (Form AD-451 shall be used as a cover sheet; Form AD-452, General Provisions, is incorporated in Form AD-451 by reference.)

(1) *Contract.* Agreement for work to be performed by one party for the other for consideration. When a contract is the award instrument used, the following factors will generally be present:

(i) Initiative should be with the agency that wishes a specific task to be performed.

(ii) The task should be capable of being specified in detail.

(iii) The purpose is to purchase a specific service or end product.

(iv) The contract may specify the manner of performance or timing of the work.

(2) *Grant.* Agreement which provides for an agency to furnish money, property, or materials to an institution to be used in connection with research programs. When a grant is the award instrument used, the following factors will generally be present:

(i) Initiative generally comes from the grantee.

(ii) The grantee should have substantial freedom to pursue its stated purpose.

(iii) The agency purpose should be to aid or support.

(iv) The agency does not, generally, need to specify the manner of performance or timing of the work.

(3) *Cooperative arrangement.* An agreement which provides for mutual undertaking by the agency and the institution to perform research. When a cooperative arrangement (agreement) is the award instrument used, the following factors will generally be present:

(i) The agency and the institution cooperate in the project and are mutually interested in the objective.

(ii) There should be mutual and shared responsibility in planning and conducting the project.

(iii) There should be contributions by all parties.

12. Section 4-7.5101-6 is revised as follows:

#### § 4-7.5101-6 Travel.

Surface travel or less than first-class air accommodations shall be used where and when available for travel charged to this research agreement.

13. Section 4-7.5101-11 is amended by revising paragraph (a) as follows:

#### § 4-7.5101-11 Estimated costs.

(a) Except as may be otherwise specifically provided in this agreement, the determination of allowable costs shall be in accordance with OMB Circular A-21 (revised).

14. Section 4-7.5101-18 is amended by revising paragraph (d) as follows:

#### § 4-7.5101-18 Termination for convenience of the Government.

(d) Any determination of costs under paragraph (c) shall be governed by the cost principles set forth in OMB Circular A-21 (revised).

15. Section 4-7.5101-21 is revised as follows:

#### § 4-7.5101-21 Disputes.

(a) Except as otherwise provided in this research agreement any dispute concerning a question of fact arising under this research agreement, not disposed of by agreement, shall be decided by the authorized departmental officer, who shall reduce his decision to writing and furnish a signed copy to the institution. Such decision shall be final and conclusive unless, within 30 days from the date or receipt thereof the institution mails or otherwise furnishes to the authorized departmental officer a written appeal, addressed to the Secretary of Agriculture. The institution shall be afforded an opportunity to be heard and to offer evidence. The decision of the Secretary or his duly authorized representative for the determination of such appeals, shall be final and conclusive unless fraudulent, or capricious, or arbitrary, or so grossly erroneous as necessarily to imply bad faith, or not supported by substantial evidence. Pending final decision of a dispute hereunder, the institution shall proceed diligently with the performance of the research agreement and in accordance with the authorized departmental officer's decision.

(b) This "Disputes" clause does not preclude consideration of law questions in connection with decisions provided for in paragraph (a) of this section: *Provided*, That nothing in this agreement shall be construed as making final the decision of any administrative official, representative, or board on a question of law.

16. Subpart 4-7.51 is amended by adding a new section as follows:

#### § 4-7.5101-22 Changes.

The authorized departmental officer may at any time, by a written order, make changes in the specifications within the general scope of this research agreement. If any such change causes an increase or decrease in the cost of, or the time required for, the performance of any part of the work under this research agreement, an equitable adjustment shall be made in the price or time of performance, or both, and the research agreement shall be modified accordingly. Any claim by the educational institution for adjustment under this clause must be asserted within 30 days from the date of receipt by the educational institution of the notification of change. Failure to agree to any adjustment shall be a dispute concerning a question of fact within the meaning of the clause of this research agreement entitled "Disputes." However, nothing in this clause shall excuse the educational institution from proceeding with the research agreement as changed.

17. Subpart 4-7.51 is amended by adding a new section as follows:

#### § 4-7.5101-23 Protection of human subjects of research.

(a) Protection of human subjects of research: Safeguarding the rights and welfare of people used as subjects in research projects conducted by the Department or supported by the Department is a responsibility of the USDA agency conducting the research and the institution responsible for projects conducted with funds made available through the Department. Such research must protect the rights and welfare of the subjects, must assure that risks do not outweigh either potential benefits to the subjects or the expected value of the knowledge sought, and must assure each person the right of adequate and appropriate informed consent.

(b) In all research projects covered by this policy, selection of persons or groups for study shall be made without regard to sex, race, color, religion, or national origin unless these characteristics are factors to be studied. Any investigator planning a project that includes these characteristics as factors for classification must outline his plans and the justification for them clearly in his project statement and must obtain written approval of such plans from the authorized departmental officer of the responsible agency before initiating research. Appropriate documentation should be kept when research includes members of minority groups selected as subjects of study because of their minority status.

#### PART 4-15—CONTRACT COST PRINCIPLES AND PROCEDURES

18. The title of Subpart 4-15.3 is amended by substituting the term "Agreements" for the term "Contracts."

19. The table of contents of Subpart 4-15.3 is revised as follows:

§ 4-15.301 Policy.

20. Subpart 4-15.3 is revised as follows:

§ 4-15.301 Policy.

The cost principles of OMB Circular A-21 (revised) shall be used to determine allowability of costs. In addition, agencies shall comply with the cost reimbursement policy of § 4-3.5104 whenever applicable.

*Effective date. March 2, 1973.*

Done at Washington, D.C., this 23d day of February 1973.

T. M. BALDAUF,  
Director of Plant and Operations.  
[FR Doc. 73-3926 Filed 3-1-73; 8:45 am]

## Proposed Rule Making

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

### DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[ 7 CFR Part 1103 ]

#### MILK IN THE MISSISSIPPI MARKETING AREA

##### Notice of Proposed Termination of the Order

Notice is hereby given that, pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), the termination of the order regulating the handling of milk in the Mississippi marketing area is being considered to become effective May 1, 1973.

A public hearing on proposed amendments to the Mississippi milk order was held at Jackson, Miss., on December 11, 1972, pursuant to notice thereof issued on November 15, 1972 (37 FR 24760). On February 16, 1973 (38 FR 4773), the Deputy Assistant Secretary issued a final decision on the issues considered at the hearing. The decision concluded that the provisions of the proposed amended order would tend to effectuate the declared policy of the Act.

The February 16, 1973, decision issued by the Deputy Assistant Secretary included a determination that December 1972 would be the representative period for the ascertainment of producer approval or disapproval of the amended order. More than one-third of the producers have indicated that they disapprove the issuance of the amended order. It is hereby found and determined that less than two-thirds of the producers of milk in the representative period favor issuance of the amended order. Therefore, notice is hereby given of the proposed termination of Order No. 103, regulating the handling of milk in the Mississippi marketing area.

All persons who desire to submit written data, views, or arguments in connection with the proposed termination should file the same with the Hearing Clerk, Room 112-A, Administration Building, U.S. Department of Agriculture, Washington, D.C. 20250, not later than March 12, 1973. All documents filed should be in quadruplicate. All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

Signed at Washington, D.C., on February 27, 1973.

JOHN C. BLUM,  
Deputy Administrator,  
Regulatory Programs.  
[FR Doc. 73-4024 Filed 3-1-73; 8:45 am]

### Animal and Plant Health Inspection Service

[ 9 CFR Part 92 ]

#### IMPORTATION OF COMMERCIAL BIRDS

##### Quarantine Facilities and Handling Procedures; Extension of Comment Period

On January 26, 1973, there were published in the FEDERAL REGISTER (38 FR 2463-2464) proposed amendments of the regulations in 9 CFR Part 92 which would allow the importation of commercial birds under specified conditions, including a requirement of quarantine in facilities approved by an inspector of Veterinary Services and a requirement that the birds be handled during quarantine in accordance with procedures prescribed by the Deputy Administrator, Veterinary Services. A period of 30 days was allowed by the notice for submission of comments by interested persons concerning such amendments. This period is hereby extended to include April 2, 1973, pursuant to section 2 of the Act of February 2, 1903, as amended, and sections 2, 3, 4, and 11 of the Act of July 2, 1962 (21 U.S.C. 111, 134a, 134b, 134c, and 134f). Further notice is hereby given in accordance with the administrative procedure provisions in 5 U.S.C. 553, that pursuant to said authorities, the Department of Agriculture is considering issuing the following regulations to prescribe facilities, standards, and handling procedures to implement such proposed amendments.

Accordingly, it is proposed to amend § 92.11 of the regulations (9 CFR 92.11) by adding a new paragraph (f) to read:

#### § 92.11 Quarantine requirements.

(f) *Standards for approved quarantine facilities and handling procedures for importation of birds.* To qualify for designation as an approved quarantine facility and to retain such approval, the facility and its maintenance and operation must meet the minimum requirements of paragraph (f) (1) through (6) of this section. The cost of the facility and all costs associated with the maintenance and operation of such facility shall be borne by the importer.

(1) *Supervision of the facility.* The facility shall be maintained under the supervision of the Department port veterinarian at one of the ports listed in § 92.8(b) of this chapter.

(2) *Physical plant requirements.* The facility shall comply with the following requirements:

\*Information as to the identity of such facilities may be obtained from the Deputy Administrator, Veterinary Services, Animal and Plant Health Inspection Service, U.S. Department of Agriculture, Washington, D.C. 20250.

(i) *Location.* The quarantine facility shall be located:

(a) Within the immediate area of the port of entry to curtail to a minimum the possibility of introduction and dissemination of poultry diseases by the imported birds, while in transit from the point of entry to the quarantine facility;

(b) At least one-half mile from any concentration of avian species, such as, but not limited to, poultry processing plants, poultry or bird farms, pigeon lofts, or other approved quarantine facilities. Factors such as prevailing winds, possible exposure to poultry or birds moving in local traffic, etc., shall be taken into consideration. If the quarantine facility consists of multiple units for handling separate lots of birds, the individual units shall be located at least one-half mile from each other with separate personnel working as handlers in each unit.

(ii) *Construction.* The unit or units making up the quarantine facility shall each consist of a building or buildings which shall:

(a) Be constructed only with materials that can withstand continued cleaning and disinfection. (All solid walls, floors, and ceilings shall be constructed of impervious material; all screening shall be metal; all openings to the outside shall be double screened.)

(b) Have a bird holding area of sufficient size to prevent overcrowding of the birds in quarantine. (All access into this holding area shall be from within the building and each entryway into such area shall be equipped with self-closing, double doors: *Provided*, That emergency exits to the outside may exist in the bird holding area if required by local fire ordinances. Such emergency exits shall be constructed so as to permit their opening from the inside of the facility only.)

(c) Have a ventilation capacity sufficient to control moisture and odor at levels that are not injurious to the health of the birds in quarantine;

(d) Have a vermin-proof feed storage area;

(e) Have office space for recordkeeping;

(f) Have a separate necropsy room which shall have refrigerated storage space for carcasses retained for laboratory examination and facilities adequate for specimen preparation and carcass disposal;

(g) Have a separate area for washing facility equipment;

(h) Have a shower at the entrance into the area comprised of the bird holding and necropsy rooms and a clothes storage and change area at each end of the shower area;

(i) Have a storage area for equipment necessary for quarantine operations;

(f) Have equipment necessary to maintain the facility in a clean and sanitary condition, including insect and pest control equipment;

(k) Have a receptacle for soiled and contaminated clothing in the clothes change area located nearest the entrance to the bird holding area.

(iii) *Sanitation and security.* Arrangements shall exist for:

(a) A supply of water adequate to meet all watering and cleaning needs.

(b) Disposal of wastes by incineration or a public sewer system which meets all applicable environmental quality control standards;

(c) Control of surface drainage onto or from the facility to prevent any disease agent from entering or escaping;

(d) Protective clothing and footwear adequate to insure that workers at the facility have clean clothing and footwear at the start of each workday and at any time such articles become soiled or contaminated;

(e) Power cleaning and disinfecting equipment with adequate capacity to disinfect the facility and equipment;

(f) Sufficient stocks of a disinfectant listed in § 71.10(a)(5) of this chapter;

(g) A security system which prevents contact of birds in quarantine with persons not authorized entry to the facility and with other birds and animals. Such a system shall include a daily log to record the entry and exit of all persons entering the facility and controls at all doorways and other openings to the facility to prevent escape or accidental entry of birds.

(3) *Operational procedures.* To retain designation as an approved quarantine facility, the following procedures shall be observed at the facility at all times.

(i) *Personnel.* Access to the facility shall be granted only to persons working at the facility or to persons specifically granted such access by the Department port veterinarian.

(a) All personnel granted access to the bird holding area shall:

(1) Wear clean protective clothing and footwear upon entering the bird holding area;

(2) Change protective clothing and footwear when they become soiled or contaminated;

(3) Shower when entering or leaving the bird holding and necropsy areas.

(b) The operator of the facility shall handle soiled clothing worn within the quarantine unit in a manner which precludes transmission of a poultry disease agent from the facility.

(ii) *Handling of the birds in quarantine.* The birds shall be kept in the quarantine facility for a minimum of 30 days and while in quarantine shall be handled in compliance with the following requirements:

(a) Each lot of birds to be quarantined shall be placed in the facility on an "all-in, all-out" basis. No birds shall be taken out of the lot while it is in quarantine except for diagnostic purposes and if additional birds are added to a lot, the total quarantine period for that lot shall be extended so that all

birds will have completed at least 30 consecutive days of quarantine before release for entry into the commerce of the United States. The quarantine period may be extended as provided in paragraph (e) of this section;

(b) The birds shall not be vaccinated prior to release from the quarantine;

(c) Birds of the psittacine family shall receive treatment as a precautionary measure against ornithosis (psittacosis), in accordance with the guidelines of U.S. Public Health Service;

(d) The facility operator shall immediately collect all birds which die in quarantine and hold them under refrigeration, within the facility, shall account for all birds in the shipment, and shall not dispose of any carcass or parts thereof unless authorized to do so by a Veterinary Medical Officer of Veterinary Services of the Department. Birds that die en route to the United States or while in quarantine shall be made available at the port of entry for necropsy by a Department poultry diagnostician who shall submit specimens from such birds for laboratory examination.

(e) During the period of quarantine, the birds may be subjected to such tests and procedures as are required in specific cases by the Deputy Administrator, Veterinary Services, to determine whether the birds are free from communicable diseases of poultry. Such procedures may include requiring that sentinel birds be placed in the facility to detect the presence of exotic Newcastle disease. Such sentinel birds shall be provided by the importer from a source approved by the Deputy Administrator as adequate to supply birds meeting the requirements of Part 90 of this chapter. If frank or clinical Newcastle disease occurs among any commercial or sentinel birds in quarantine, all birds in the facility shall be destroyed and the entire facility shall be thoroughly cleaned and then disinfected as directed under the supervision of a Veterinary Services inspector.

(f) The quarantine facility from which a lot of birds has been released shall be thoroughly cleaned and disinfected with a disinfectant listed in § 71.10(a)(5) of this chapter, under supervision of a Veterinary Services inspector before a new lot is placed in the facility.

(iii) *Records.* It shall be the responsibility of the operator of the facility to maintain a current daily log for each lot of birds, recording such information as the general condition of the birds each day, source of origin of the birds in the lot, total number of birds in the lot when imported, number of dead birds when lot arrived, date lot was placed into the facility, number of deaths each day in the lot during the quarantine period, necropsy results, and laboratory findings on birds that died during the quarantine.

\* Such guidelines may be obtained from the Director, Center for Disease Control, U.S. Public Health Service, Atlanta, Ga. 30333 or the Deputy Administrator, Veterinary Services, Animal and Plant Health Inspection Service, U.S. Department of Agriculture, Washington, D.C. 20250.

date of prescribed tests and results, Department import permit numbers for each lot, date lot was removed from the facility, and any other observations pertinent to the general health of the birds in the lot. The daily log shall be made available to Veterinary Services personnel upon request.

(4) Additional requirements as to location, security, physical plant and facilities, sanitation, and other items may be imposed by the Deputy Administrator, Veterinary Services, in each specific case in order to assure that the quarantine of the birds in such facility will be adequate to enable determination of their health status, prevent spread of disease among birds in quarantine, and prevent escape of poultry disease agents from the facility.

(5) Plans for proposed facilities shall be submitted to the Deputy Administrator, Veterinary Services, Animal and Plant Health Inspection Service, U.S. Department of Agriculture, Federal Center Building, Hyattsville, Md. 20782.

(6) Before a decision is made with respect to the eligibility of any facility for initial approval, a personal inspection of the facility shall be made by a Veterinary Medical Officer of Veterinary Services, to determine whether it complies with the standards outlined in this section. Approval of any facility may be refused and approval of any approved quarantine facility may be withdrawn at any time by the Deputy Administrator, Veterinary Services, upon his determination that any requirement of this section is not being met. Before such action is taken, the operator of the facility will be informed of the reasons for the proposed action and afforded opportunity to present his views thereon.

(7) Requirements of other Federal laws and regulations, such as the Department's Animal Welfare Regulations in Subchapter A of this chapter may also apply to the quarantine facilities.

Any person who wishes to submit written data, views, or arguments concerning the proposed amendments set forth above or in the January 26, 1973, notice may do so by filing them with the Deputy Administrator, Veterinary Services, Animal and Plant Health Inspection Service, U.S. Department of Agriculture, Hyattsville, Md. 20782, not later than April 2, 1973.

Any person who wishes to submit views orally on such amendments should immediately communicate with said Deputy Administrator if he has not already requested an opportunity to present his views orally, so that arrangements may be made for such presentation prior to said date. A summary will be made of views orally presented and will be furnished to the person presenting such views for his approval or correction.

All written submissions and a summary of oral views approved by each person making an oral submission, pursuant to this notice will be made available for public inspection at the Federal Center Building, 6505 Belcrest Road, Room 370, Hyattsville, MD 20782, during

regular business hours in a manner convenient to the public business (7 CFR 1.27(b)).

Done at Washington, D.C., this 27th day of February 1973.

G. H. Wise,  
Acting Administrator, Animal  
and Plant Health Inspection  
Service.

#### Forest Service [ 36 CFR Part 295 ] USE OF OFF-ROAD VEHICLES Regulations for National Forest System Lands

Notice is hereby given that it is proposed to issue a new Part 295 to Chapter II of Title 36, Code of Federal Regulations, as set forth herein. This Part 295 deals with the designation of specific areas and trails of National Forest System lands on which the use of off-road vehicles shall be allowed, restricted, or prohibited. Regulations for administration, control, and restrictions of other uses of roads and trails are in Part 212 of this title. Recreation regulations now appearing in Part 251 are being redesignated as Parts 290 through 295 by a document (73-3703) that will appear in the March 5, 1973 edition of the FEDERAL REGISTER.

- Sec.  
295.1 Applicability.  
295.2 Definitions.  
295.3 Planning designation of areas and trails.  
295.4 Public participation.  
295.5 Public information.  
295.6 Operating conditions. [Reserved]  
295.7 Restricted and prohibited use.  
295.8 Off-road vehicle permit.  
295.9 Monitoring effects of off-road vehicle use.

AUTHORITY: 30 Stat. 35, as amended; 16 U.S.C. 551; 50 Stat. 525, as amended; 7 U.S.C. 1011; 83 Stat. 852; E.O. 11644.

§ 295.1 Applicability.

The regulations in this part pertain to administrative designation of the specific areas and trails of National Forest System lands on which the use of off-road vehicles shall be allowed, restricted, or prohibited and establishing controls governing the use of off-road vehicles on such areas. The use of off-road vehicles in National Forest Wilderness and Primitive Areas is governed by §§ 293.1 through 293.17 of this title.

§ 295.2 Definitions.

(a) "Off-road vehicles" means any motorized vehicles designed for or capable of travel on or immediately over land, water, sand, snow, ice, marsh, swamp-land, or other terrain; except that such term excludes (1) any registered motorboat, (2) any military, fire, or law enforcement vehicle when used for emergency purposes, and (3) any vehicle whose use is expressly authorized by the Chief, Forest Service, under a permit, lease, license, or contract.

(b) "National Forest System lands" means National Forests, National Grasslands, and other lands and interests in lands administered by the Forest Service.

(c) "Official use" means an employee, agent, or designated representative of the Forest Service or one of its contractors in the course of his employment, agency, or representation.

§ 295.3 Planning designation of areas and trails.

On National Forest System lands the continuing resource planning process will provide for designation of specific areas and trails for off-road vehicle use, use restrictions, and closures to any or all types of such use. The planning process will analyze and evaluate alternatives to enable decisions which best balance protection of the resources, promotion of safety for all users, minimization of use conflicts, and accomplishment of all of the other resource objectives for National Forest System lands. Analysis and evaluation of off-road vehicle uses will take into consideration factors such as noise, safety, quality of the various recreational experiences provided, potential impacts on soil, watersheds, vegetation, fish, wildlife, fish, and wildlife habitat, and existing or proposed recreational uses of the same or neighboring lands.

§ 295.4 Public participation.

The public shall be provided an opportunity to participate in the designation of areas and trails relating to off-road vehicle use. Advance notice will be given to allow review by the public of proposed designations or revisions of designations of any areas or trails for off-road vehicle use, for restrictions, or for closures to such use. Time will be allowed for public response prior to any designations or revisions.

§ 295.5 Public information.

Areas and trails where off-road vehicle use is restricted or prohibited shall be marked with appropriate signs. Notices of restrictions or notices of the closure shall be posted so as to reasonably bring them to the attention of the public, and a copy of the restriction order or closure order shall be kept available to the public in the Offices of the District Rangers and Forest Supervisors. Information and maps will be published and distributed describing the conditions of use and the time periods when areas and trails are: (a) Open to off-road vehicle use, (b) restricted to certain types of off-road vehicle uses, (c) closed to off-road vehicle uses.

§ 295.6 Operating conditions. [Reserved]

§ 295.7 Restricted and prohibited use.

Except as provided in § 295.8 of this part, and except for use in connection with mining activities under the provisions of the General Mining Act of 1872, the use of off-road vehicles is prohibited in areas and trails on National Forest System lands during any period when such areas and trails have been closed

to vehicles or certain types of vehicles pursuant to these regulations.

§ 295.8 Off-Road vehicle permit.

Use of off-road vehicles on National Forest System lands where the use of off-road vehicles is prohibited may be allowed for official use or with prior authorization by means of an Off-Road Vehicle permit. Off-Road Vehicle permits may be issued by the Chief, Forest Service, and such permits will be for a specific area, conditions-of-use, and a definite period of time. Off-Road Vehicle permits shall be revocable for violation of the rules and regulations governing the National Forests.

§ 295.9 Monitoring effects of off-road vehicle use.

The effects of off-road vehicle use will be monitored. Designations, use restrictions and operating conditions will be revised as needed to meet changing conditions and needs.

All persons who wish to submit written data, views, or objections pertaining to the proposed amendment may do so by submitting them to the Department of Agriculture, Forest Service, Division of Recreation, South Agriculture Building, Washington, D.C. 20250, on or before April 2, 1973.

All written submissions made pursuant to this notice will be available for public inspection in the Division of Recreation during regular business hours. (7 CFR 1.27(b))

T. K. Cowden,  
Assistant Secretary of Agriculture.

FEBRUARY 28, 1973.

#### Rural Electrification Administration [ 7 CFR Part 1701 ]

#### RURAL TELEPHONE FACILITIES Specifications for Two-Wire Voice Frequency Repeater Equipment

Notice is hereby given that, pursuant to the Rural Electrification Act, as amended (7 U.S.C. 901 et seq.), REA proposes to issue REA Bulletin 345-69 to announce a new REA Specification PE-29 for two-wire voice frequency repeater equipment. On issuance of REA Bulletin 345-69, Appendix A to Part 1701 will be modified accordingly.

Persons interested in the new specification may submit written data, views, or comments to the Director, Telephone Operations and Standards Division, Rural Electrification Administration, Room 1355, South Building, U.S. Department of Agriculture, Washington, D.C. 20250, on or before April 2, 1973. All written submissions made pursuant to this notice will be made available for public inspection at the Office of the Director, Telephone Operations and Standards Division, during regular business hours.

A copy of the new REA Specification PE-29 may be secured in person or by

written request from the Director, Telephone Operations and Standards Division.

The text of REA Bulletin 345-69 announcing the issuance of the new specification is as follows:

**REA BULLETIN 345-69**

**SUBJECT: REA SPECIFICATION FOR TWO-WIRE VOICE FREQUENCY REPEATER EQUIPMENT**

**I. Purpose.** To announce a new REA Specification PE-29 for two-wire voice frequency repeater equipment.

**II. General.** This specification covers requirements for voice frequency repeaters used for the amplification of speech and other voice frequency signals transmitted over two-conductor physical circuits in telephone systems.

This specification becomes effective immediately upon issuance of this bulletin. Manufacturers of equipment now accepted in the REA program shall have a period of 6 months to comply in all respects with the new REA Specification PE-29.

**III. Availability of specification.** Copies of the new PE-29 will be furnished by REA upon request. Questions concerning the new specification may be referred to the Chief, Transmission Branch, Telephone Operations and Standards Division, Rural Electrification Administration, U.S. Department of Agriculture, Washington, D.C. 20250, telephone number 202-447-3917.

Dated: February 26, 1973.

**E. F. RENSHAW,**  
Assistant Administrator—Telephone.

**DEPARTMENT OF LABOR**  
**Occupational Safety and Health Administration**

[29 CFR Part 1910]

**OCCUPATIONAL SAFETY AND HEALTH STANDARDS**

**Petitions To Revoke Standard Concerning the Design, Construction, Setting, and Feeding of Dies; Extension of Time for Comments**

On January 26, 1973, a notice was published in the FEDERAL REGISTER (38 FR 2465) requesting information concerning two petitions for the revocation of paragraph (d) (1) and (2) of 29 CFR 1910.217. The standard concerns the design, construction, setting, and feeding of dies in such a way as to eliminate the need for the operator to place his hands within the point of operation. Interested persons were given until February 24, 1973, to submit written data, views, and arguments concerning the petitions.

On February 1, 1973, one of the petitioners requested an extension of the time allowed for submitting written comments. The petitioner bases its request on the fact that various employers and associations of employers have indicated that they will not be able to submit adequate responses within the time allowed. The petitioner states that an extensive examination on an individual corporate basis will have to be made with respect to each of the six particulars specified in the notice. Therefore, the petitioner requests that the time allowed for sub-

**PROPOSED RULE MAKING**

mitting written comments be extended to April 24, 1973, inclusive.

It appears from the petitioner's request that additional time is necessary for the submission of the information requested. Therefore, the time for the submission of written data, views, and arguments concerning the petitions to revoke paragraph (d) (1) and (2) of 29 CFR 1910.217 is hereby extended until April 24, 1973, inclusive.

Signed at Washington, D.C., this 23d day of February 1973.

**CHAIN ROBBINS,**  
Acting Assistant  
Secretary of Labor.

**DEPARTMENT OF HEALTH,  
EDUCATION, AND WELFARE**

Office of the Secretary

[45 CFR Part 185]

**EMERGENCY SCHOOL AID**  
**Notice of Proposed Rule Making**

Pursuant to the authority contained in the Emergency School Aid Act (Title VII of the Education Amendments of 1972, 86 Stat. 354, 20 U.S.C. 1601), the Assistant Secretary for Education, with the approval of the Secretary of Health, Education, and Welfare, hereby proposes to amend Part 185 of Title 45 of the Code of Federal Regulations by adding new subparts D, F, H, I, and J as set forth below.

The new subparts govern the award of grants to or contracts with local educational agencies and other public and private applicants under sections 706(a) (2), 709, 708(c), 711, 713, and 708(a) of the Emergency School Aid Act for programs, projects, and activities for which funds are not allotted among the States. The regulation governing State allotment programs under the Act was published in the FEDERAL REGISTER on February 6, 1973, as 45 CFR Part 185 (38 FR 3450).

The new subpart D sets forth proposed rules governing awards to local educational agencies for metropolitan area projects under sections 706(a) (2) and 709, including interdistrict transfers, areawide plans for elimination or reduction of minority group isolation, and planning and construction of integrated education parks.

The new subpart F would apply to awards under section 708(c) of the Act to local educational agencies and non-profit private applicants for assistance in developing or implementing bilingual/bicultural educational programs designed to meet the special needs of children from environments where a dominant language is other than English.

Subpart H sets forth proposed rules for the awards under section 711 of the Act to public or nonprofit private applicants for integrated children's television programming which teaches concrete academic skills and encourages interracial and intercultural understanding.

The new subpart I covers contracts under section 713 of the Act to State ed-

ucational agencies, institutions of higher education, or private applicants for evaluation of other programs, projects, or activities assisted under the Act.

Subpart J sets forth proposed rules for assistance under section 708(a) of the Act to State or local educational agencies or other public applicants for special projects which would assist in achieving the purposes of the Act, including special reading projects designed to improve the reading achievement of children in schools affected by a plan for desegregation or for the elimination, reduction, or prevention of minority group isolation.

The Assistant Secretary will make awards of assistance under subparts D, F, H, I, and J, on the basis of criteria set forth in this notice, to support activities by local educational agencies and other public and private applicants which conform to the requirements of part 185, as such part is proposed to be amended, and which promise to make substantial progress in achieving the purposes of the Act.

Federal financial assistance provided pursuant to the Emergency School Aid Act is subject to the regulation in 45 CFR part 80, issued by the Secretary of Health, Education, and Welfare and approved by the President, to effectuate the provisions of section 601 of the Civil Rights Act of 1964 (42 U.S.C. 2000d). Such assistance is also subject to the requirements of Title IX of the Education Amendments of 1972 (20 U.S.C. 1681).

Interested persons are invited to submit written comments, suggestions, or objections regarding the proposed regulation to Dr. Herman R. Goldberg, Associate Commissioner, Bureau of Equal Educational Opportunity, Room 2029, 400 Maryland Avenue SW., Washington, DC 20202, on or before March 22, 1973. Comments received in response to this notice will be available for public inspection at Room 2029, 400 Maryland Avenue SW., Washington, DC between 8 a.m. and 4:30 p.m., Monday through Friday.

Dated: February 8, 1973.

**PETER P. MUIRHEAD,**  
Acting Assistant Secretary  
for Education.

Approved: February 27, 1973.

**CASPAR W. WEINBERGER,**  
Secretary of Health, Education,  
and Welfare.

**AUTHORITY:** Except as specifically noted below, the provisions of these subparts of Part 185 are issued under title VII of Public Law 92-318, 86 Stat. 354-371 (20 U.S.C. 1601-1619).

**Subpart D—Metropolitan Area Projects**  
**§ 185.31 Eligibility for assistance.**

(a) **Interdistrict transfers.** (1) A local educational agency (l) which is located within a Standard Metropolitan Statistical Area, or which serves a school district adjacent to a school district which is located wholly within such an area, and (ii) whose total student enrollment includes a percentage of minority group members which is smaller than the percentage of minority group members enrolled as students in all schools of the local educational agencies within such an area, may apply for assistance, by grant or contract, from funds reserved pursuant to § 185.95(a), for the purpose of a joint arrangement with a cooperating local educational agency located within the same Standard Metropolitan Statistical Area (whose student enrollment includes a percentage of minority group members which is greater than the percentage of minority group members enrolled as students in all schools of the local educational agencies within such area) for the establishment or maintenance of one or more integrated schools.

(2) For purposes of this paragraph, an integrated school must have an enrollment in which (i) at least 40 percent of the children are from families whose income is higher than the median family income for the school district served by the applicant, the appropriate Standard Metropolitan Statistical Area (or the appropriate governmental unit for which such information is available), or the Nation, whichever is lowest, or (ii) at least 50 percent of the children currently score at or above the 60th percentile on a recognized standard reading

achievement test, when compared either with students of a comparable age or grade level in the schools of the applicant or the appropriate Standard Metropolitan Statistical Area or with national norms, whichever is lowest, and (iii) the proportion of minority group children is at least 50 percent of the proportion of minority group children enrolled in all schools of the local educational agencies within the Standard Metropolitan Statistical Area. In no event should the minority group enrollment in any such school exceed 50 percent. For purposes of this paragraph, a school must have a faculty in which the percentage of minority group teachers, supervisors, and administrators, taken together, is equal to or greater than the percentage of minority group members in the student body of such school.

(3) A joint arrangement assisted under this subpart shall consist of the enrollment in schools of the applicant of students residing in the district served by, or attending the schools of, the cooperating local educational agency. No such arrangement shall result in an increase in the degree of minority group isolation in any school operated by any local educational agency. Students so enrolled by the applicant shall be selected from those who, in the absence of such enrollment, would be enrolled in, or assigned to, a minority group isolated school, and shall be representative of the larger group from which they are selected.

(20 U.S.C. 1605(a) (2), 1608(a) (1), 1619(6); Senate Rept. No. 92-61, p. 16)

(b) **Area-wide plans.** (1) Two or more local educational agencies located within a Standard Metropolitan Statistical Area may apply for a grant from funds reserved pursuant to § 185.95(a) for the joint development of a plan to reduce and eliminate minority group isolation, to the maximum extent possible, in the public elementary and secondary schools in such area. Such a plan shall, at a minimum, provide that by a certain date (no later than July 1, 1983), the percentage of minority group children enrolled in each public elementary and secondary school in such area shall be at least 50 percent of the percentage of such children enrolled in all such schools in such area, and shall specify in detail the means by which such objective is to be achieved.

(2) No grant shall be made under this paragraph unless (i) two-thirds or more of the local educational agencies in a Standard Metropolitan Statistical Area have approved the application; (ii) the number of students in the schools of such agencies which have approved such application constitutes two-thirds or more of the students in all schools of the local educational agencies in such area; and (iii) at least one of the schools operated by a local educational agency in such area is a minority group isolated school.

(20 U.S.C. 1608(a) (2))

(c) **Education parks.** (1) One or more local educational agencies located within a Standard Metropolitan Statistical

Area may apply for a grant from funds reserved pursuant to § 185.95(a) to pay all or part of the cost of planning an integrated education park.

(2) For purposes of this paragraph, an integrated education park is a school, or cluster of schools located on a common site, (i) within a Standard Metropolitan Statistical Area; (ii) in which at least 5,000 students are regularly enrolled; (iii) providing secondary education as defined by the applicable State law; and (iv) with a student enrollment and faculty which conform to the requirements of paragraph (a) (2) of this section (except that in the case of an application pursuant to this paragraph by a single local educational agency, the proportion of minority group children enrolled in such an integrated education park shall be substantially the same as the proportion of minority group children enrolled in all schools of such agency).

(20 U.S.C. 1608(a) (3))

(d) **Agreements and approvals.** Applicants for assistance under this subpart shall provide assurances and information satisfactory to the Assistant Secretary establishing that a joint arrangement described in paragraph (a) of this section, the joint development of a plan described in paragraph (b) of this section, the required approvals of an application submitted pursuant to paragraph (b) of this section, or any other arrangement, agreement, or approval required pursuant to this subpart has been negotiated by or obtained from the appropriate local educational agency or agencies. Such required assurances or information may include:

(1) Signatures on applications for assistance under this subpart by authorized officials of such applicants or agencies;

(2) Copies of school board resolutions or other evidence of final official action approving and agreeing to carry out an arrangement or agreement or indicating an approval required pursuant to this subpart;

(3) In the case of interdistrict transfers to be undertaken upon the award of assistance pursuant to paragraph (a) of this section, evidence that notice of the intent to engage in such a transfer program upon the award of such assistance has been published in a newspaper of general circulation serving all affected school districts no later than 20 days prior to submission of an application for such assistance.

(20 U.S.C. 1608)

**§ 185.32 Authorized activities.**

(a) **Interdistrict transfers.** Assistance made available pursuant to § 185.31(a) is authorized to be used for any of the authorized activities described in § 185.12 (a) (1) through (11) when such activities would not otherwise be funded and are designed to carry out the purposes described in § 185.01. Such activities shall be directly related to, and necessary to, the establishment or maintenance of

## PROPOSED RULE MAKING

one or more integrated schools as described in § 185.31(a). Assistance made available pursuant to § 185.31(a) is also authorized to be used to pay the net cost, if any, to the applicant of the enrollment and education in such schools of students who, prior to the award of assistance pursuant to § 185.31(a), were not residents of the school district served by the applicant and did not attend a school operated by the applicant.

(20 U.S.C. 1608(a)(1))

(b) *Area-wide plans.* Assistance made available pursuant to § 185.31(b) is authorized to be used for any activities reasonably necessary to the joint development of a plan described in § 185.31(b), when such activities would not otherwise be funded and are designed to carry out the purposes described in § 185.01. No funds made available pursuant to § 185.31(b) shall be used for any costs related to construction or to any repair or remodeling.

(20 U.S.C. 1608(a)(2))

(c) *Education parks.* Assistance made available pursuant to § 185.31(c) is authorized to be used for activities reasonably necessary to the planning of an education park as described in § 185.31(c), when such activities would not otherwise be funded and are designed to carry out the purposes described in § 185.01. Such activities may include demographic surveys, selection of construction sites, studies of academic achievement, development of educational specifications, and community and parental involvement. Funds awarded pursuant to § 185.31(c) shall not be used to pay any costs related to architectural services, construction, preparation of construction sites, or purchase of land.

(20 U.S.C. 1608(a)(3))

## § 185.33 Applications.

An applicant desiring to receive assistance under this subpart for any fiscal year shall submit to the Assistant Secretary an application therefor for that fiscal year, which application shall set forth a program, project, or activity under which, and such policies and procedures as will assure that, the applicant will use the funds received under this subpart only for the activities set forth in § 185.32. Such application, together with all correspondence and other written materials relating thereto, shall be made readily available to the public by the applicant and the Assistant Secretary. Such application shall comply with the requirements of § 185.13 (a) through (n), except that in the case of applications for assistance under § 185.31 (b) and (c), such applications need not comply with § 185.13 (h) (with respect to the statement of procedures described therein) or § 185.13 (n).

(20 U.S.C. 1608(a)(2) and (3))

## § 185.34 Criteria for assistance (inter-district transfers).

(a) *Statistical criteria.* In approving applications for assistance pursuant to § 185.31(a), the Assistant Secretary shall

apply the following statistical criteria (75 points):

(1) The need for such assistance, as indicated by the number and percentage of minority group children enrolled in the schools of the local educational agency cooperating with the applicant for the fiscal year or years for which assistance is sought (30 points); and

(2) The net reduction in minority group isolation, in terms of the number of children affected, accomplished or to be accomplished by the interdistrict transfers to be assisted pursuant to § 185.31(a) (45 points). The "net reduction in minority group isolation," for purposes of this subparagraph, means the number of minority group children, weighted by their relative degree of isolation prior to such transfers, removed from minority group isolated schools as a result of such transfers.

(20 U.S.C. 1609(c)(1), (2), and (3))

(b) *Educational and programmatic criteria.* The Assistant Secretary shall determine the educational and programmatic merits of applications for assistance pursuant to § 185.31(a) on the basis of the following criteria (30 points):

(1) *Statement of objectives (6 points).*

(i) The degree to which the applicant sets out specific measurable objectives for its program, project, or activity, in relation to students normally enrolled in the schools of the applicant and those enrolled or to be enrolled as a result of the proposed transfers; and (ii) the degree to which (a) the program, project, or activity to be assisted promises realistically to achieve the objectives identified in the application, and (b) such program, project, or activity involves to the fullest extent practicable the total educational resources, both public and private, of the community to be served.

(2) *Activities (17 points).*—(i) *Project design (5 points).* The extent to which

(a) the proposed program, project, or activity emphasizes individualized instruction and services; (b) students to be served are afforded an opportunity to contribute to, and suggest changes in, the proposed program, project, or activity; (c) the proposed program, project, or activity promotes interracial and intercultural understanding; and (d) the proposed program, project, or activity involves both students regularly enrolled in the affected school and those affected by the proposed interdistrict transfers;

(ii) *Staffing (3 points).* The extent to which the application (a) sets out an adequate staffing plan which includes provisions for making maximum use of present staff capabilities, and (b) provides for continuing training of staff in order to increase the effectiveness of the proposed program, project, or activity;

(iii) *Delivery of services (5 points).* The extent to which the application contains evidence that (a) arrangements have been made for participation of students affected by the proposed transfers in extracurricular and afterhours activities at the school to which they are

transferred; (b) arrangements have been made for the participation of parents of such students in school-related activities; and (c) school-related activities affecting such students will be carried out in their home communities; and

(iv) *Parent and community involvement (4 points).* The extent to which the application (a) delineates specific opportunities for community and advisory committee participation in the development and implementation of the proposed program, project, or activity in addition to those required by § 185.37, and (b) includes evidence that such participation has been encouraged and has in fact occurred.

(3) *Resource management (3 points).* The extent to which the application contains evidence that (i) the amount of funds requested is of sufficient magnitude in relation to the number of participants to be served to give substantial promise of achieving the stated objectives; (ii) the costs of project components are reasonable in relation to the expected benefits; and (iii) the proposed project will be coordinated with existing efforts.

(4) *Evaluation (4 points).* The extent to which the application sets out a format for objective, quantifiable measurement of the success of the proposed program, project, or activity in achieving the stated objectives, including (i) a timetable for compilation of data for evaluation and a method of reviewing the program, project, or activity in the light of such data; (ii) a description of instruments to be used for evaluation of the proposed program, project, or activity (and of the method for validating such instruments where necessary); or a description of the procedure to be employed in selecting such instruments; and (iii) provisions for comparison of evaluation results with norms, control group performance, results of other programs, or other external standards.

(5) In making the determinations required under this paragraph, the Assistant Secretary is authorized to purchase or utilize the services, recommendations, and advice of experts in the area of education and human relations from the Department, other Federal agencies, State or local governmental units, or the private sector.

(20 U.S.C. 1601(b), 1609(a)(11), 1609(c)(1), (2), (4), and (6))

(c) *Funding criteria.* In determining amounts to be awarded to applicants for assistance pursuant to § 185.31(a), the Assistant Secretary shall consider the additional cost to such applicant (as such cost is defined in § 185.13(a)) of effectively carrying out its proposed program, project, or activity, in relation to the amount of funds available for assistance under this subpart and the other applications pending before him. The Assistant Secretary shall not be required to approve any application which does not meet the requirements of the Act or this subpart, or which sets forth a program, project, or activity, of such insufficient promise for achieving the purposes of

the Act that its approval is not warranted. In applying the criterion set out in this paragraph, the Assistant Secretary shall award funds to applicants (whose applications meet such requirements and are of sufficient promise to warrant approval) in the order of their ranking on the basis of the criteria set out in this section, and shall take steps to insure a distribution of awards among the several types of programs, projects, or activities authorized by this subpart. No more than 30 percent of the funds made available pursuant to § 185.31(a) (or § 185.31 (b) or (c)) shall be awarded to applicants in any one State, unless the Assistant Secretary determines that the applications for such awards in excess of such amount are of exceptional merit or promise.

## § 185.35 Criteria for assistance (area-wide plans).

(a) *Statistical criteria.* In approving applications for assistance pursuant to § 185.31(b), the Assistant Secretary shall apply the following statistical criteria (60 points):

(1) The need for such assistance, as indicated by the number and percentage of minority group children enrolled in all schools of the local educational agencies in the affected standard metropolitan statistical area for the fiscal year or years for which assistance is sought (30 points); and

(2) The net reduction in minority group isolation, in terms of the number of children affected, to be accomplished by the area-wide plan to be developed pursuant to § 185.31(b). The "net reduction in minority group isolation," for purposes of this subparagraph, means the weighted number of minority group children currently enrolled in minority group isolated schools in the standard metropolitan statistical area whose degree of isolation will be eliminated or reduced as a result of the plan to be developed.

(20 U.S.C. 1609(c)(1))

(b) *Educational and programmatic criteria.* The Assistant Secretary shall determine the educational and programmatic merits of applications for assistance pursuant to § 185.31(b) on the basis of the following criteria (30 points):

(1) *Statement of objectives (6 points).* (i) The degree to which the applicant sets out specific measurable objectives for its program, project, or activity, in relation to the needs identified; and (ii) the degree to which (a) the program, project, or activity to be assisted promises realistically to result in the development and implementation of a plan as described in § 185.31(b), and (b) such program, project, or activity involves to the fullest extent practicable the total educational resources, both public and private, of the community to be served.

(2) *Activities (19 points).*—(i) *Project design (10 points).* The extent to which the application includes (a) plans for a comprehensive demographic study of the affected Standard Metropolitan Statistical

## PROPOSED RULE MAKING

Area, including projections of housing patterns; (b) provisions for participation of the appropriate housing authorities, zoning boards, regional planning organizations, and other such governmental and quasi-governmental agencies; (c) opportunities for students in the affected area to contribute to the development of the proposed plan; (d) provisions for improvement of educational services offered by local educational agencies affected by the proposed plan; and (e) a specific timetable for completion of various elements of the plan to be developed;

(ii) *Staffing (2 points).* The extent to which the application (a) sets out an adequate staffing plan which includes provisions for making maximum use of present staff capabilities, and (b) provides for participation by both minority and nonminority group staff members; and

(iii) *Parent and community involvement (7 points).* The extent to which the application (a) delineates specific opportunities for community and advisory committee participation in the development and implementation of the proposed program, project, or activity in addition to those required by § 185.37 and (b) includes evidence that such participation has been encouraged and has in fact occurred.

(3) *Resource management (2 points).* The extent to which the application contains evidence that (i) the amount of funds requested is of sufficient magnitude to give substantial promise of achieving the stated objectives; (ii) the proposed program, project, or activity will be coordinated with existing efforts; and (iii) existing facilities will be utilized after implementation of the plan to be developed.

(4) *Evaluation (3 points).* The extent to which the application sets out a format for measurement of success in attaining specific objectives and subobjectives.

(5) In making the determinations required under this paragraph, the Assistant Secretary is authorized to purchase or utilize the services, recommendations, and advice of experts in the areas of education and human relations from the Department, other Federal agencies, State or local governmental units, or the private sector.

(20 U.S.C. 1601(b), 1609(a)(11), 1609(c)(1), (4), and (6))

(c) *Funding criteria.* In determining amounts to be awarded for assistance pursuant to § 185.31(b), the Assistant Secretary shall apply the criteria set forth in § 185.34(c).

(20 U.S.C. 1609(c)(1)(C), 1609(c)(5))

## § 185.36 Criteria for assistance (education parks).

(a) *Statistical criteria.* In approving applications for assistance pursuant to § 185.31(c), the Assistant Secretary shall apply the following statistical criteria (65 points):

(1) The need for such assistance, as indicated by the number and percentage

of minority group secondary students enrolled in the schools of the applicant(s) for the fiscal year or years for which assistance is sought (30 points); and

(2) The estimated number and percentage of minority group secondary students currently enrolled in minority group isolated secondary schools of the applicant(s) which will be incorporated into the proposed education park (35 points).

(20 U.S.C. 1609(c)(1))

(b) *Educational and programmatic criteria.* The Assistant Secretary shall determine the educational and programmatic merits of applications for assistance pursuant to § 185.31(c) on the basis of the following criteria (35 points):

(1) *Needs assessment (6 points).* The extent to which the application (i) provides for participation of parents, secondary students, and other members of the affected community in the identification of needs related to secondary education and the elimination, reduction, or prevention of minority group isolation; (ii) describes a variety of methods and instruments to be used for collection and evaluation or relevant and substantive data regarding such needs; and (iii) contains evidence that the assessment of needs to be carried out in connection with the proposed program, project, or activity will be coordinated with other planning activities conducted by the applicant(s).

(2) *Statement of objectives (5 points).*

(i) The degree to which the application sets out specific measurable objectives for the proposed program, project, or activity, in relation to the needs identified; and

(ii) The degree to which (a) the program, project, or activity to be assisted promises realistically to address the needs identified in the application, and (b) such program, project, or activity involves to the fullest extent practicable the total educational resources, both public and private, of the community to be served.

(3) *Activities (17 points).* (i) *Project design (6 points).* The extent to which the application (a) describes a logical sequence of steps to be completed at specified intervals; (b) contains convincing evidence that the proposed education park will increase the educational options available to secondary school students; (c) provides for the participation of secondary students and teachers in designing the physical and educational aspects of the proposed education park; (d) proposes a logical combination of small educational units and centralized administration within the proposed education park; and (e) contains convincing evidence that the proposed education park will be constructed in an area which is equally accessible and convenient to minority and nonminority group secondary students;

(ii) *Staffing (5 points).* The extent to which the application (a) sets out an adequate staffing plan which includes provisions for making maximum use of

present staff capabilities, and (b) provides for participation by both minority and nonminority group staff members; and

(iii) *Parent and community involvement* (7 points). The extent to which the application (a) delineates specific opportunities for community and advisory committee participation in the development and implementation of the proposed program, project, or activity in addition to those required by § 185.37, and (b) includes evidence that such participation has been encouraged and has in fact occurred.

(4) *Resource management* (2 points). The extent to which the application contains (i) evidence that the amount of funds requested is of sufficient magnitude to give substantial promise of achieving the stated objectives; (ii) evidence that the proposed program, project, or activity will be coordinated with existing efforts; and (iii) a description of how existing secondary school facilities will be utilized after establishment of the proposed education park.

(5) *Evaluation* (5 points). The extent to which the application sets out a format for measurement of success in attaining specific objectives and subobjectives.

(6) In making the determinations required under this paragraph, the Assistant Secretary is authorized to purchase or utilize the services, recommendations, and advice of experts in the areas of education and human relations from the Department, other Federal agencies, State or local governmental units, or the private sector.

(20 U.S.C. 1601(b), 1609(a)(ii), 1609(c)(1), (4), and (6))

(c) *Funding criteria*. In determining amounts to be awarded to applicants for assistance pursuant to § 185.31(c), the Assistant Secretary shall apply the criteria set forth in § 185.34(c). No more than one award shall be made pursuant to § 185.31(c) to local educational agencies making individual applications until at least one such award has been made to local educational agencies applying jointly, and the number of such awards to such agencies making individual applications shall not exceed the number of such awards to such agencies applying jointly, unless the joint applications pending before the Assistant Secretary do not meet the requirements of the Act or this subpart, or set forth programs, projects, or activities of such insufficient promise for achieving the purposes of the Act that their approval is not warranted.

(20 U.S.C. 1609(c)(1)(C), 1609(c)(5); Senate Rpt. No. 92-61, p. 17)

#### § 185.37 Advisory committees.

(a) *Interdistrict transfers*. (1) Applicants for assistance under § 185.31(a) shall comply with the requirements of § 185.41 as to advisory committee participation and public hearings. For purposes of this paragraph, references in § 185.41 to "the community" or "communities to

be served" shall be understood to refer to the areas in both the school district served by the applicant and that served by the cooperating local educational agency.

(2) For purposes of this paragraph, the reference in § 185.41(h) to a "school which will be affected by any program, project, or activity assisted under the Act" shall be understood to refer to the integrated schools established pursuant to § 185.31(a).

(3) Student advisory committees established pursuant to this paragraph, in addition to meeting the requirements of § 185.41(h), shall consist of equal numbers of students regularly enrolled in such schools and of students enrolled in such schools by virtue of the interdistrict transfers assisted under § 185.31(a).

(20 U.S.C. 1609(a)(2) and (3), 1609(b))

(b) *Areawide plans and education parks*. (1) Applications for assistance under § 185.31(b) and (c) shall comply with the requirements of §§ 185.41(a) through (g) as to advisory committee participation and public hearings. For purposes of this paragraph, the references in § 185.41 to "the community" or "communities to be served" shall be understood to refer to the entire area to be affected by the plan to be developed under § 185.31(b) or the education park proposed pursuant to § 185.31(c).

(2) Only one advisory committee shall be established pursuant to this paragraph, regardless of the number of local educational agencies joining in the application for assistance.

(3) Each applicant agency shall designate teachers to serve as members of such committee in accordance with § 185.41(c)(2).

(4) Student members of such committee selected in accordance with § 185.41(c)(4) shall include at least one student enrolled in the schools of each applicant agency (and, in the case of an application for assistance under § 185.31(b), of each local educational agency approving such application), except that committees established pursuant to this paragraph shall not be required to include more than six student members.

(20 U.S.C. 1609(a)(2) and (3), 1609(b))

#### §§ 185.38-185.40 [Reserved]

#### Subpart F—Bilingual Projects

##### § 185.51 Eligibility for assistance.

(a) Any local educational agency which is implementing a plan described in § 185.11(a) or (b) may apply for assistance, by grant or contract, from funds reserved pursuant to § 185.95(b)(2), (1) to develop educational programs designed (i) to meet the special educational needs of minority group children who are from environments in which a dominant language is other than English for the development of reading, writing, and speaking skills in the English language and their primary language, and (ii) to meet the educational needs of such children and their classmates to understand the history and cultural background of

the minority groups of which such children are members; or (2) to carry out activities authorized by § 185.12 to implement the educational programs described in this paragraph (whether or not developed with assistance made available under this subpart).

(20 U.S.C. 1607(c)(1)(B) and (C))

(b) Any nonprofit private agency, institution, or organization may apply for assistance, by grant or contract, under this subpart to develop the educational programs described in paragraph (a) of this section: *Provided however*, That such development is requested by one or more local educational agencies which are implementing a plan described in § 185.11(a) or (b).

(20 U.S.C. 1607(c)(1)(A))

(c) For purposes of determining eligibility for assistance under this subpart, the Assistant Secretary may determine that members of a specific ethnic group (in addition to Negroes, American Indians, Spanish-surnamed Americans, Portuguese, Orientals, Alaskan natives, or Hawaiian natives) constitute a "minority group," as that term is used in this subpart and in § 185.11, upon a finding that such group has been denied equal educational opportunity because of language barriers and cultural differences. Applications for assistance under this subpart relating to local educational agencies which are implementing plans described in § 185.11(a) or (b) with respect to Negroes, American Indians, Spanish-surnamed Americans, Portuguese, Orientals, Alaskan natives, or Hawaiian natives shall be considered only on the basis of such plans. No plan affecting a minority group other than those named in the preceding sentence shall be deemed to qualify an applicant for assistance under this subpart if it results in any increase in minority group isolation for any member of any minority group named in the preceding sentence.

(20 U.S.C. 1619(9)(A))

##### § 185.52 Authorized activities.

(a) Funds made available under this subpart shall be used for the activities described in § 185.51, where such activities would not otherwise be funded and are designed to carry out the purposes described in § 185.01.

(20 U.S.C. 1607(c)(1))

(b) All applications for assistance under this subpart shall contain a plan for implementation of any educational program developed or proposed to be developed, whether or not assistance is sought for such implementation. No more than 25 percent of the funds made available under this subpart shall be awarded for development activities.

(20 U.S.C. 1607(c)(1))

(c) All applications for assistance under this subpart shall contain a plan for in-service training of teachers and other ancillary educational personnel in skills related to implementation of the educational programs described in § 185.51(a),

including cultural awareness, oral or written language skills in a language other than English, and diagnostic evaluation and prescriptive teaching techniques.

(20 U.S.C. 1607(c)(1); Senate Rpt. No. 92-61, p. 23)

(d) All programs, projects, or activities assisted under this subpart shall be specifically designed to complement any programs, projects, or activities assisted under Subparts B and C of this part, or under title I or title VII of the Elementary and Secondary Education Act of 1965 or other programs of Federal financial assistance related to the purposes of this subpart.

(20 U.S.C. 1607(c)(3))

(e) Educational programs to be developed and implemented pursuant to § 185.51(a)(1)(i) shall provide for the participation of nonminority group children as well as those from minority groups, unless the applicant conclusively demonstrates that such participation will not contribute to the success of the proposed program, project, or activity. Educational programs to be developed and implemented pursuant to § 185.51(a)(1)(ii) shall provide for such participation. All applications for assistance under this subpart shall include activities with respect to the educational programs described in both § 185.51(a)(1)(i) and (ii).

(20 U.S.C. 1607(c)(1))

(f) The limitations on authorized activities set forth in § 185.12(b), (c), and (d) shall apply to activities assisted under this subpart.

(20 U.S.C. 1601(b), 1606(a), 1607(c)(1))

#### § 185.53 Applications.

(a) Application by local educational agencies for assistance under this subpart shall comply with the requirements of § 185.13(a) through (n). Such applications, together with all correspondence and other written materials relating thereto, shall be made readily available to the public by the applicant and the Assistant Secretary.

(20 U.S.C. 1607(c)(1), 1609(a))

(b) Applications by nonprofit private agencies, institutions, or organizations shall comply with the requirements of § 185.63(a), (b)(2), (b)(4), (b)(5), (b)(6), and (b)(7).

(20 U.S.C. 1607(c)(1))

(c) In addition to the assurances and information required by paragraph (a) or paragraph (b) of this section, applications for assistance under this subpart shall contain the following information:

(1) A description of the proposed program, project, or activity, and of such policies and procedures as will assure that the applicant will use funds received under the Act only for the activities described in § 185.52;

(2) In the case of nonprofit private applicants, evidence that the proposed activity has been requested by one or more local educational agencies which

are implementing a plan described in § 185.11(a) or § 185.11(b). Such evidence may include (i) a copy of a school board resolution or other final official action requesting the assistance of the applicant, or (ii) a letter from the school board chairman or superintendent of a local educational agency requesting such assistance. No application by a nonprofit private applicant shall be approved less than 10 days after a copy of said application has been submitted by the Assistant Secretary to the appropriate State educational agency for comment, unless the Assistant Secretary has received comments from such agency upon such application prior to expiration of the 10-day period.

(3) Information as to (i) the number and percentage of minority group children in the affected school district from environments in which a dominant language is other than English who receive instruction of any kind (prior to the application for assistance under this subpart) in such language, the average number of hours per day such instruction is provided, and the educational goals of such instruction; (ii) the extent to which minority group children are separated from nonminority group children by or within classes for any part of the day (a) for the provision of instructional or other services to such minority group children or (b) for purposes of ability grouping or homogeneous instruction, and the educational justification for such separation (including the information required by § 185.43(c)(1) through (4)); (iii) the extent to which materials utilized for reading instruction are varied (by primary language, subject matter, or intended level of instruction) as between the various schools in the affected school district, or between the various classrooms within such schools; (iv) the amount of Federal funds, if any, applied for and received by the affected local educational agency for the current academic year under titles I, II, III, and VII of the Elementary and Secondary Education Act of 1965 and the Education Professions Development Act. The application shall specify the minority group of which such children are members.

(20 U.S.C. 1607(c)(1) and (3))

#### § 185.54 Criteria for assistance.

(a) *Objective criteria*. In approving applications for assistance under this subpart, the Assistant Secretary shall apply the following objective criteria (60 points):

(1) The need for such assistance, as indicated by the number and percentage of minority group children enrolled in the schools of such agency for the fiscal year or years for which assistance is sought who are from environments in which a dominant language is other than English (30 points); and

(2) The effective net reduction in minority group isolation, as defined in § 185.14(a)(2), in terms of the number and percentage of children affected, in all the schools operated by such agency accomplished or to be accomplished by

the implementation of a plan described in § 185.11(a) or § 185.11(b) (30 points).

(20 U.S.C. 1607(c)(1))

(b) *Educational and programmatic criteria*. The Assistant Secretary shall determine the educational and programmatic merits of applications for assistance under this subpart on the basis of the following criteria (55 points):

(1) Needs assessment (10 points): (i) The severity of needs assessed by the applicant in relation to the inequality of educational opportunity available to minority group children who are from environments in which a dominant language is other than English, and (ii) the degree to which the applicant has demonstrated, by standardized achievement test data and other objective evidence, the existence of such needs.

(2) Statement of objectives (6 points): (i) The degree to which the applicant sets out specific measurable objectives for its program, project, or activity, in relation to the needs identified; and (ii) the degree to which (a) the program, project, or activity to be assisted promises realistically to address the needs identified in the application, and (b) such program, project, or activity involves to the fullest extent practicable the total educational resources, both public and private, of the community to be served.

(3) Activities (28 points):

(i) *Project design* (12 points). The extent to which (a) the proposed program, project, or activity provides for development and implementation of the educational programs described in § 185.51(a)(1)(ii) in an imaginative and sensitive manner; (b) the proposed services are concentrated upon a group of participants which is sufficiently limited and specific to give promise of measurable growth for each participant; (c) such services are sufficiently intensive to give promise of such growth; (d) the proposed program, project, or activity emphasizes individualized instruction and services; (e) the application includes innovative plans to meet the goals of the Act which extend instruction in language skills to other areas of the curriculum in an integrated setting, and which include nonminority group children in activities other than those relating to the curricula described in § 185.51(a)(1)(ii); (f) the applicant proposes to extend bilingual/bicultural instructional techniques to academic areas other than those with respect to which assistance is made available; (g) students to be served are afforded an opportunity to contribute to, and suggest changes in, the proposed program, project, or activity; and (h) the proposed program, project, or activity makes use of existing bilingual/bicultural research and instructional materials;

(ii) *Staffing* (10 points). The extent to which the application (a) sets out an adequate staffing plan which includes provisions for making maximum use of present staff capabilities; (b) provides for continuing training of staff in order

to increase the effectiveness of the proposed program, project, or activity; and (c) proposes to utilize credentialed bilingual teachers and to provide career development opportunities for paraprofessional staff members with bilingual capabilities;

(iii) *Delivery of services* (2 points). The extent to which the proposed program or project sets out a plan for meeting the logistical requirements of the proposed activities, including a description of adequate and conveniently available facilities and equipment; and

(iv) *Parent and community involvement* (4 points). The extent to which the application (a) delineates specific opportunities for community and program or project committee participation in the development and implementation of the proposed program, project, or activity in addition to those required by § 185.55, and (b) includes evidence that such participation has been encouraged and has in fact occurred.

(4) *Resource management* (5 points). The extent to which the application contains evidence that (i) the amount of funds requested is of sufficient magnitude in relation to the number of participants to be served to give substantial promise of achieving the stated objectives; (ii) the costs of project components are reasonable in relation to the expected benefits; (iii) all possible efforts have been made to minimize the amount of funds requested for purchase of equipment necessary for implementation of the proposed program, project, or activity; and (iv) the proposed program, project, or activity has been coordinated with existing programs and resources.

(5) *Evaluation* (5 points). The extent to which the application sets out a format of objective, quantifiable measurement of the success of the proposed program, project, or activity in achieving the stated objectives, including (i) a timetable for compilation of data for evaluation and a method of reviewing the program, project, or activity in the light of such data; (ii) a description of instruments to be used for evaluation of the proposed program, project, or activity (and of the method for validating such instruments where necessary), or a description of the procedure to be employed in selecting such instruments; (iii) an assessment of the validity of such instruments when used to evaluate the language skills, academic aptitude, or general intelligence of children whose primary language is other than English; and (iv) provisions for comparison of evaluation results with norms, control group performance, results of other programs, or other external standards.

(6) In making the determinations required under this paragraph, the Assistant Secretary is authorized to purchase or utilize the services, recommendations, and advice of experts in the areas of education and human relations from the Department, other Federal agencies, State or local governmental units, or the private sector.

(20 U.S.C. 1601(b), 1607 (c)(1), (c)(2)(A) (ii)(II), (c)(3) 1609(a)(11))

(c) *Funding levels*. (1) In determining amounts to be awarded to applicants for assistance under this subpart, the Assistant Secretary shall consider the additional cost to such applicant (as such cost is defined in § 185.13(a)) of effectively carrying out its proposed program, project, or activity, in relation to the amount of funds available for assistance under this subpart and the other applications for such assistance pending before him. The Assistant Secretary shall not be required to approve any application which does not meet the requirements of the Act or this part, or which sets forth a program, project, or activity of such insufficient promise for achieving the purposes of the Act that its approval is not warranted. In applying the criterion set out in this paragraph, the Assistant Secretary shall award funds to applicants (whose applications meet such requirements and are of sufficient promise to warrant approval) in the order of their ranking on the basis of the criteria set out in this section until the sums available for the purposes of this subpart have been exhausted.

(2) No more than 30 percent of the funds available for grants or contracts pursuant to this subpart shall be awarded to applicants proposing to carry out programs, projects, or activities with respect to local educational agencies in any one State, unless the Assistant Secretary determines that the applications pending before him for funds in excess of such amount for such programs, projects, or activities are of exceptional merit or promise.

(20 U.S.C. 1607(c)(1))

#### § 185.55 Program or project committees.

(a) *Local educational agencies*—(1) *Consultation; public hearing; publication*. Local educational agencies applying for assistance under this subpart shall comply with the requirements as to advisory committee participation and public hearings set forth in § 185.41 (a), (b), (e), and (f). For purposes of this subpart, references in such paragraphs to a "district-wide advisory committee" shall be understood to refer to the program or project committee required by this paragraph.

(2) *Composition of committee*. (i) In order to establish a program or project committee as required by this paragraph, a local educational agency shall designate at least five civic or community organizations, each of which shall select a member of the committee. The civic or community organizations which participate in the selection process shall, when taken together rather than considered individually, be broadly representative of the minority and nonminority communities to be served by the proposed program, project, or activity.

(ii) Such agency shall, after consultation with the appropriate teachers' organization(s), either (a) designate two classroom teachers, one of whom is a member of the minority group whose educational needs the proposed program, project, or activity is designed to meet, to serve as members of the committee

required by this paragraph, or (b) delegate the responsibility for such selections to the appropriate teachers' organization(s).

(iii) Such agency shall designate two administrators or school board members, one of whom is a member of a minority group as described in subdivision (ii) of this subparagraph, to serve as members of the committee required by this paragraph.

(iv) At least 50 percent of the members of a committee formed under this subparagraph must be members of a minority group as described in subdivision (ii) of this subparagraph. At least 50 percent of the members of the committee shall be parents of children directly affected by a plan described in § 185.11 (a) or (b), or a program, project, or activity assisted under this subpart. In addition to members appointed pursuant to paragraph (a)(2) (i), (ii), and (iii) of this section, and taking into account the students to be appointed pursuant to paragraph (a)(2)(v) of this section, such agency shall select the minimum number of additional persons as may be necessary to meet the requirements of this subdivision.

(v) Committee members appointed pursuant to paragraph (a)(2) (i), (ii), (iii), and (iv) of this section shall select at least two secondary students, half of whom are members of a minority group as described in paragraph (a)(2)(ii) of this section, to serve as members of the committee required by this paragraph. Such students shall be regularly enrolled in a secondary school or schools operated by the local educational agency.

(3) *Approval by committee*. No application by a local educational agency for assistance under this subpart shall be approved which is not accompanied by the written comments of a committee formed in accordance with paragraph (a)(2) of this section, indicating that a majority of the members of such committee have approved the program, project, or activity set forth in such application.

(4) *Comments and suggestions by committee*. No amendment to the program, project, or activity of a local educational agency assisted under this subpart shall be approved, and no additional funds made available under this subpart, unless the members of a committee formed in accordance with paragraph (a)(2) of this section have been involved in the development of, and a majority of such members has approved, such amendment or of addition to the program, project, or activity. Comments indicating such approval shall be included with any application submitted by such agency for such amendments or additions. Amendments or additions suggested by the committee required by this paragraph shall be forwarded by the local educational agency, with or without comment by such agency, to the Assistant Secretary for his consideration.

(5) *Student advisory committees*. The local educational agency shall comply with the requirements of § 185.41(h) as to student advisory committees, except

that at least 50 percent of the members of each such committee shall be members of a minority group as described in subparagraph (2)(ii) of this paragraph: *Provided, however*, That if such agency is receiving assistance under subpart B, C, or D as of the date specified in § 185.41(h)(1), and if members of such a minority group have been selected as members of such committees at the appropriate secondary schools, such committees shall be deemed to comply with the requirements of this subparagraph. (20 U.S.C. 1607 (c)(2) (A)(i), (c)(2)(B))

(b) *Nonprofit private applicants*—(1) *Consultation; publication*. Nonprofit private agencies, institutions, or organizations applying for assistance under this subpart shall comply with the requirements of §§ 185.65 (a), (d), and (e). For purposes of this subparagraph, references in such paragraphs to a "district-wide advisory committee" shall be understood to refer to the program or project board required by this paragraph. Applications submitted by nonprofit private applicants shall describe in detail how such program or project boards will exercise policymaking authority with respect to the proposed program, project, or activity.

(2) *Composition of board*. (i) In order to establish a program or project board as required by this paragraph, the applicant shall designate at least 5 civic or community organizations, each of which shall select a member of the board. The civic or community organizations which participate in the selection process shall, when taken together rather than considered individually, be broadly representative of the minority and nonminority communities to be served.

(ii) The applicant shall invite the appropriate local educational agency to designate as members of the board described in this subparagraph a classroom teacher and an administrator or school board member, one of whom is a member of a minority group as described in paragraph (a)(2)(ii) of this section.

(iii) At least 50 percent of the members of a board formed under this subparagraph must be members of a minority group as described in paragraph (a)(2)(ii) of this section. Such board shall have at least 10 members. At least 50 percent of the members of such board shall be parents of children directly affected by a plan described in § 185.11 (a) or (b), or a program, project, or activity assisted under this subpart. In addition to members appointed pursuant to paragraph (b)(2) (i) and (ii) of this section, and taking into account the students to be appointed pursuant to paragraph (b)(2)(iv) of this section, the applicant shall select the minimum number of additional persons as may be necessary to meet the requirements of this subdivision.

(iv) Board members appointed pursuant to paragraph (b)(2) (i), (ii), and (iii) of this section shall select at least two secondary school students, half of whom are members of a minority group as described in paragraph (a)(2)(ii) of

this section, to serve as members of the board required by this paragraph. Such students shall be regularly enrolled in a secondary school or schools operated by the appropriate local educational agency.

(3) *Approval by board*. No application for assistance under this subpart shall be approved which is not accompanied by the written comments of a board formed in accordance with paragraph (b)(2) of this section, indicating that a majority of the members of such board have approved the program, project, or activity set forth in such application.

(4) *Comments and suggestions by board*. No amendment to a program, project, or activity assisted under this subpart shall be approved, and no additional funds made available under this subpart, unless the members of such board have been involved in the development of, and a majority of such members has approved, such amendment or of addition to such program, project, or activity. Comments indicating such approval shall be included with any application submitted by such applicant for such amendments or additions. Amendments or additions suggested by the board required by this paragraph shall be forwarded by the applicant, with or without comment, to the Assistant Secretary for his consideration.

(20 U.S.C. 1607(c)(2) (A)(ii)(I), (B))

#### § 185.56 Limitations on eligibility; nonpublic participation.

The limitations on eligibility set forth in § 185.43 shall apply to educational agencies applying for assistance under this subpart. The provisions of § 185.44 as to waiver of ineligibility shall apply to local educational agencies applying for assistance under this subpart. The provisions of § 185.45 as to termination of assistance shall apply to all recipients of assistance under this subpart. The provisions of § 185.42 as to participation of children or staff enrolled in or employed by nonpublic schools shall apply to local educational agencies applying for assistance under this subpart.

(20 U.S.C. 1605(d), 1607(c)(1), 1609 (a) and (b), and 1611(c))

#### §§ 185.57-185.60 [Reserved]

#### Subpart H—Educational Television

##### § 185.71 Eligibility for assistance.

(a) Any public or nonprofit private agency, institution, or organization with the capability of providing expertise in the development of television programming may apply for assistance, by grant, from funds reserved pursuant to § 185.95 (b)(3) to pay the cost of development and production of integrated children's television programs of cognitive and affective educational value. For purposes of this subpart, "programs of cognitive and affective educational value" are those which teach concrete academic skills and encourage interracial and interethnic understanding.

(20 U.S.C. 1610 (a), (b)(1); Senate Rept. No. 92-61, p. 24)

(b) No more than four grants shall be awarded pursuant to this subpart during the fiscal year ending June 30, 1973.

(20 U.S.C. 1610(b)(1))

#### § 185.72 Authorized activities.

(a) Funds made available under this subpart shall be used to pay the normal and necessary expenses of researching, planning, writing, editing, staging, directing, performing, producing, reproducing, and distributing integrated children's television programs, where such activities would not otherwise be funded and are designed to carry out the purposes described in § 185.01. Such programs shall be either a standard-length series addressing an area of concern described in paragraph (a)(1), (2), or (3) of this section, or 1-minute "spots" addressing any of the following areas of concern:

(1) Bilingual/bicultural approaches to assisting minority group children from environments in which a dominant language is other than English in the development of reading, writing, and speaking skills (in both the English language and the language of their parents or grandparents), and to instilling in both minority and nonminority group children an understanding and appreciation of each other's history and cultural background;

(2) Supplemental or introductory instruction in basic reading and mathematics skills and concepts, art and music, and basic science concepts;

(3) Instruction in family life-related academic skills directed particularly at secondary school age children;

(4) Dropout counseling and other approaches to the problems of dropouts;

(5) Encouraging and enriching the understanding and appreciation of school age children for the art, music, literature, and other cultural attainments of their own and other racial or ethnic groups;

(6) Reduction of interracial or interethnic tension and conflict.

(20 U.S.C. 1610(b)(1))

(b)(1) No more than one grant for a standard-length series shall be awarded for any one of the areas of concern described in paragraph (a)(1), (2), and (3) of this section, unless the Assistant Secretary determines that the applications pending before him for additional grants in the same area of concern are of exceptional merit or promise.

(2) No more than one grant shall be awarded for television programming directed to a particular racial or ethnic group in a particular geographical area, unless the Assistant Secretary determines that the applications pending before him for additional grants for programming directed to the same group in the same area are of exceptional merit or promise.

(20 U.S.C. 1610(b)(1))

(c) Television programs developed in whole or in part with assistance made available under this subpart shall be

## PROPOSED RULE MAKING

made reasonably available for transmission, free of charge, and shall not be transmitted under commercial sponsorship. An application for assistance under this subpart shall include an assurance that the procedures to be followed, and the standards or criteria to be applied, in making such programs freely available for transmission will be developed in conjunction with the Assistant Secretary upon completion of production of a designated portion of the proposed television programming. For purposes of this paragraph, where the costs of transmission are met by a commercial firm, a brief statement to that effect at the beginning or end of such transmission shall not be considered commercial sponsorship. No television program developed in whole or in part with assistance made available under this subpart shall be used or transmitted in such a manner as to result in a financial benefit to any person or organization.

(20 U.S.C. 1610(b)(2); Senate Rept. No. 92-61, pp. 24-25)

(d) Funds made available under this subpart shall not be used for construction, repair, or remodeling of any building or facility, or for the purchase of any equipment which has an extended useful life and is not consumed in use.

(20 U.S.C. 1610(b)(1))

## § 185.73 Applications.

(a) *General.* An applicant for assistance under this subpart for any fiscal year shall submit to the Assistant Secretary an application therefor for that fiscal year, which application shall contain such information and set forth such policies and procedures as will assure that the applicant will use funds received under this subpart only for the activities described in § 185.72.

(20 U.S.C. 1610(b)(1))

(b) *Basic assurances.* Applications for assistance under this subpart shall comply with the requirements of § 185.13 (a), (b), (c), (d), (f), (h), (k) (1) (i) and (ii), (k) (2), and (m).

(20 U.S.C. 1609(a), 1610(b)(1))

(c) *Assurances by local educational agencies.* Applications by local educational agencies for assistance under this subpart shall comply with the requirements of § 185.13 (g), (i), (j), (k) (1) (iii), (k) (3), and (l), in addition to the requirements specified in paragraph (b) and (e) of this section. Such application, together with all correspondence and other written materials relating thereto, shall be made readily available to the public by the applicant and the Assistant Secretary.

(20 U.S.C. 1609(a), 1610(b)(1))

(d) *Assurances by other applicants.* Applications by public or nonprofit private agencies, institutions, or organizations (other than local educational agencies) under this subpart shall comply with the requirements of § 185.63(b) (2), (5), and, where appropriate, § 185.63(b) (3), in addition to the re-

quirements specified in paragraphs (b) and (e) of this section.

(20 U.S.C. 1610(b)(1))

(e) *Additional information and assurances.* Applications for assistance under this subpart shall contain the following information, in addition to the assurances and information required by the applicable paragraphs of this section:

(1) A detailed description of the integrated children's television programs to be developed and produced with assistance made available under this subpart, together with an identification of the audience to be reached by such programs and a statement of the educational and other gains to be achieved;

(2) A statement of the name, address, position, duties, prior experience in educational television and school and community affairs, and race of all persons permanently employed (or to be employed) in positions of responsibility by the applicant on its development, production, and administrative staffs;

(3) A detailed description of the formative evaluation procedures to be employed by the applicant in measuring and evaluating the educational and other change to be achieved by children viewing the television programs for which assistance is sought;

(4) A statement of past activities engaged in by the applicant or its officers or employees indicating the relative capability of the applicant to provide expertise in the development of integrated children's television programming, and to develop and produce the proposed television programs; and

(5) Information as to the research and development techniques to be employed (or which have previously been employed), production standards to be observed, nonbroadcast materials to be utilized in support of the proposed television programming, and field activities and other measures to be undertaken in order to insure target audience participation in ongoing program development.

(20 U.S.C. 1610(b)(1), (3))

(f) *Application procedure.* The Assistant Secretary may require the information described in this section to be submitted either in a single application or sequentially, and may require additional information and assurances of selected applicants.

(20 U.S.C. 1610(b)(1))

## § 185.74 Criteria for assistance.

In approving applications for assistance under this subpart, the Assistant Secretary shall apply the following criteria:

(a) *Needs assessment (10 points).* (1) The extent to which the applicant has undertaken a comprehensive assessment, on the basis of test data, audience surveys, and other objective evidence, of the educational and other needs of the target population, and the magnitude of the needs so assessed; (2) the extent to which the applicant has undertaken a reasonable numerical estimate of the

expected or potential target audience; and (3) the size of the potential audience so estimated.

(20 U.S.C. 1610(b)(1))

(b) *Statement of objectives (13 points).* (1) The degree to which the application (1) sets forth specific, measurable objectives in relation to the needs identified, and (2) specifically describes, on the basis of modern research and development techniques, the issues and subject matter related to such needs which will be addressed by the proposed television programming.

(20 U.S.C. 1610(b)(1), (3)(B))

(c) *Activities (32 points)—(1) Program content and design (10 points).* The extent to which the proposed television programming promises to reach the expected or potential target audience and to encourage and sustain the participation, interest, and educational and other growth of such audience, by use of minority and nonminority group performers or characters and by other means;

(2) *Staffing (12 points).* (i) The extent to which the application (a) sets out an adequate staffing plan which includes provisions for making maximum use of present staff capabilities, and (b) provides for continuing training of staff in order to increase the effectiveness of the proposed television programming; and (ii) the extent to which minority group personnel are employed (or will be employed) in responsible positions on the development, production, and administrative staffs of the applicant;

(3) *Facilities capability (10 points).* The extent to which the application describes a level of production facilities capability sufficient to meet the requirements of the proposed television programming, including a description of adequate and conveniently available production facilities and equipment;

(4) *Supplementary materials (2 points).* In the case of applications for standard-length series, the extent to which such application sets forth a plan of activities, such as the creation, production, and dissemination of nonbroadcast materials, designed to intensify and amplify the effects of the proposed programming; and

(5) *Parent and community involvement (3 points).* The extent to which the application (i) delineates specific opportunities for continuing community and advisory committee participation in the development and evaluation of the proposed television programming in addition to those required by § 185.75, and (ii) includes evidence that such participation has been encouraged and has in fact occurred.

(20 U.S.C. 1610 (e) (1), (b) (3) (A))

(d) *Resource management (6 points).* The extent to which the application contains evidence that (1) the amount of funds requested is of sufficient magnitude to give substantial promise of achieving the stated objectives; (2) the costs of project components are reasonable in relation to the expected benefits;

and (3) needed resources will be purchased or otherwise obtained in such a manner as to insure that project deadlines will be met.

(20 U.S.C. 1610(b)(1))

(e) *Evaluation (5 points).* The extent to which the application sets out a detailed format, including specific study designs, for applying formative evaluation techniques prior to and during the initial phases of production of the proposed television programming, in order to determine the production and presentation techniques which offer the greatest promise of achieving the stated objectives.

(20 U.S.C. 1610 (b) (1), (b) (3) (C))

(f) *Funding levels.* In determining amounts to be awarded to applicants for assistance under this subpart, the Assistant Secretary shall consider the additional cost to such applicant (as such cost is defined in § 185.13(a)) of effectively developing and producing its proposed television programming, in relation to the amount of funds available for assistance under this subpart and the other applications for such assistance pending before him. The Assistant Secretary shall not be required to approve any application which does not meet the requirements of the Act or this part, or which sets forth proposed television programming of such insufficient promise for achieving the purposes of the Act that its approval is not warranted. In applying the criterion set out in this paragraph, the Assistant Secretary shall award funds to applicants (whose applications meet such requirements and are of sufficient promise to warrant approval) in the order of their ranking on the basis of the criteria set out in this section until the sums available for the purposes of this subpart have been exhausted.

(20 U.S.C. 1610(b)(1))

(g) In making the determinations required under this section, the Assistant Secretary is authorized to purchase or utilize the services, recommendations, and advice of experts in the areas of education, educational television, and human relations from the Department, other Federal agencies, State or local governmental units, or the private sector.

(20 U.S.C. 1610(b)(1))

(h) *Advisory committees.* (a) Public or nonprofit private agencies, institutions, or organizations (other than local educational agencies) applying for assistance under this subpart shall comply with the requirements as to advisory committee participation set forth in § 185.65, except for the second sentence of § 185.65(b)(2). For purposes of this paragraph, references in said section to a "plan or project described in § 185.11" or "program, project, or activity" shall be understood to refer to the proposed television programming for which assistance is sought.

(b) Local educational agencies applying for assistance under this subpart shall comply with the requirements as to advisory committee participation set forth in § 185.65, except for the second sentence of § 185.65(b)(2). For purposes of this paragraph, references in said section to a "plan or project described in § 185.11" or "program, project, or activity" shall be understood to refer to the proposed television programming for which assistance is sought.

(b) Local educational agencies applying for assistance under this subpart

## PROPOSED RULE MAKING

shall comply with the requirements as to advisory committee participation and public hearings set forth in § 185.41 (a) through (g). For purposes of this paragraph, references in said paragraphs to a "plan or project described in § 185.11" or "program, project, or activity" shall be understood to refer to the proposed television programming for which assistance is sought.

(20 U.S.C. 1609(a) (2) and (3), 1609(b))

(c) Where the primary area to be served by the proposed television programming for which assistance is sought under this subpart is larger than the school district of a single local educational agency, members of the advisory committees required by this section shall be selected so as to represent the larger area to be served.

(20 U.S.C. 1610(b)(1))

## § 185.76 Limitations on eligibility.

The limitations on eligibility set forth in § 185.43 shall apply to educational agencies applying for assistance under this part. The provisions of § 185.44 as to waiver of ineligibility shall apply to local educational agencies applying for assistance under this subpart. The provisions of § 185.45 as to termination of assistance shall apply to all recipients of assistance under this subpart.

(20 U.S.C. 1605(d), 1609 (a) and (b), 1610(b)(1))

## §§ 185.77-185.80 [Reserved]

## Subpart I—Evaluation

## § 185.81 Eligibility for awards.

Any State educational agency, institution of higher education, or private agency, organization, or institution (including an advisory committee established by a local educational agency pursuant to § 185.37, § 185.41, § 185.55(a), § 185.75(b), or § 185.94) may submit a proposal for a contract, from funds reserved pursuant to § 185.95(b)(4), for the purpose of evaluating specific programs, projects, or activities assisted under this part.

(20 U.S.C. 1612)

## § 185.82 Authorized activities.

Funds awarded pursuant to this subpart shall be used to pay the normal and necessary expenses of planning, instrument development and administration, data collection and analysis, and reporting incident to evaluation of programs, projects, or activities assisted under this part, where such expenses would not otherwise be funded.

(20 U.S.C. 1612)

## § 185.83 Applications.

(a) *Assurances and information.* Proposals submitted pursuant to this subpart shall comply with the requirements of § 185.13 (a), (b), (c), (f), and (m) and § 185.63(b)(2). Such proposals shall contain such information, and set forth such policies and procedures, as will assure that the offeror will use funds received under this subpart only for the activities described in § 185.82. In addition,

such proposals shall contain the following information:

(1) A detailed description of the technical approach, management plan, and techniques of data collection, analysis, and synthesis to be utilized or employed in the proposed evaluation;

(2) A detailed description of the objectives of the proposed evaluation, as they relate to the purposes set forth in § 185.01;

(3) A statement of the name, position, and prior relevant experience of all persons permanently employed (or to be employed) in positions of responsibility by the offeror in connection with the proposed evaluation; and

(4) A statement of past activities engaged in by the offeror or its officers or employees indicating the relative capability of the offeror to conduct the proposed evaluation.

(20 U.S.C. 1612)

(b) *Procedures.* (1) Proposals under this subpart shall be submitted in response to requests for proposals. The Assistant Secretary may require the information described in this section to be submitted either in a single document or sequentially, and may require additional information and assurances of selected offerors.

(2) Contracts under this subpart shall be subject to the requirements of the Federal Procurement Regulations (41 CFR Ch. 1 and 3), to the extent that such regulations are not inconsistent with the provisions of this subpart.

(20 U.S.C. 1612)

## § 185.84 Criteria for awards.

(a) The Assistant Secretary shall determine the merits of proposals submitted under this subpart on the basis of the following criteria:

(1) *Statement of objectives.* The degree to which the offeror sets out specific objectives for the proposed evaluation, in relation to the purposes described in § 185.01, as demonstrated by background discussion and objective analysis included in its proposal;

(2) *Technical approach.* The extent to which the proposal sets out a technical approach which promises to achieve the stated objectives;

(3) *Management plan.* The extent to which the proposal sets out a plan for effective management of the proposed evaluation, including a specific timetable for completion of project components and specific staff assignments;

(4) *Data techniques.* The extent to which the proposal sets out effective techniques for collection, analysis, and synthesis of data in connection with the proposed evaluation;

(5) *Staff capabilities.* The extent to which the proposal demonstrates (i) the presence or availability of staff members with relevant technical and management experience, and (ii) past experience on the part of the offeror or its officers or employees in conducting evaluations similar to that for which funds are requested;

(6) *Resource management.* The extent to which the proposal contains evidence that (i) the amount of funds requested

is of sufficient magnitude to give substantial promise of achieving the stated objectives; (ii) the costs of project components are reasonable in relation to the expected benefits; and (iii) provisions have been made for maximum utilization of existing facilities and resources; and

(7) *Scope.* The extent to which the offeror proposes an evaluation of sufficient comprehensiveness to insure results of general applicability and reliability.

(8) In making the determinations required under this paragraph, the Assistant Secretary is authorized to purchase or utilize the services, recommendations, and advice of experts in the areas of education and human relations from the Department, other Federal agencies, State or local governmental units, or the private sector.

(20 U.S.C. 1612)

(b) *Funding levels.* In determining amounts to be awarded under this subpart, the Assistant Secretary shall consider the additional cost to an offeror (as such cost is defined in § 185.13(a)) of effectively carrying out its proposed evaluation, in relation to the amount of funds available for contracts under this subpart and the other applications pending before him. The Assistant Secretary shall not be required to approve any proposal which does not meet the requirements of the Act or this part, or which sets forth a proposed evaluation of such insufficient promise for achieving the purposes of the Act that its approval is not warranted. In applying the criterion set out in this paragraph, the Assistant Secretary shall award funds to offerors (whose proposals meet such requirements and are of sufficient promise to warrant approval) in the order of their ranking on the basis of the criteria set out in this section with respect to each type of evaluation for which proposals are requested.

(20 U.S.C. 1612)

#### § 185.85 Limitations on eligibility.

The limitations on eligibility set forth in § 185.43 shall apply to educational agencies submitting proposals under this subpart.

(20 U.S.C. 1605(d))

#### §§ 185.86-185.90 [Reserved]

#### Subpart J—Special Projects

##### § 185.91 Eligibility for assistance.

(a) *Special reading projects.* (1) Any local educational agency which is implementing a plan described in § 185.11(a) or § 185.11(b) may apply for assistance, by grant or contract, from funds reserved pursuant to § 185.95(b)(1), for special reading projects to improve the reading performance of minority and nonminority group children in a school affected by such a plan in which the proportion of minority group children enrolled is greater than 20 percent and no more than 50 percent.

(2) No more than \$2,500,000 from funds reserved pursuant to § 185.95(b)(1) shall be awarded for grants or contracts pursuant to this paragraph during the fiscal year ending June 30, 1973.

(20 U.S.C. 1607(a))

(b) *Other projects.* The Assistant Secretary may assist, by grant or contract, any State or local educational agency or other public agency or organization (or a combination of such agencies and organizations), from funds reserved pursuant to § 185.95(b)(1) and not awarded or to be awarded pursuant to paragraph (a) of this section, for the purpose of conducting special programs or projects which the Assistant Secretary determines will make substantial progress toward achieving the purposes of the Act.

(20 U.S.C. 1607(a))

(c) *Definitions.* For purposes of this subpart, State or local educational agencies in Puerto Rico, Guam, American Samoa, the Virgin Islands, and the Trust Territory of the Pacific Islands shall be deemed to be State or local educational agencies within the meaning of § 185.02 (e) and (j).

(20 U.S.C. 1607(a), 1619 (8), (14), and (15))

(d) *Authorized activities.* (1) Assistance made available pursuant to paragraph (a) of this section shall be used for activities described in § 185.12 which would not otherwise be funded and are designed to carry out the purposes described in § 185.02 and to achieve the results described in paragraph (a) of this section.

(2) Assistance made available pursuant to paragraph (b) of this section shall be used for activities described in or authorized by §§ 185.12, 185.22, 185.32, 185.52, 185.62, and 185.72 which would not otherwise be funded and which are designed to carry out the purposes described in § 185.01.

(3) The provisions of § 185.12 (b), (c), and (d) shall apply to assistance made available under this subpart.

(4) No activity assisted pursuant to paragraph (a) of this section shall be carried out with respect to a class which does not include both minority and nonminority group children. Students shall not be removed from their regularly assigned classrooms on a regular basis in order to participate in a program, project, or activity assisted pursuant to paragraph (a), but may be so removed on an occasional basis for special treatment or services.

(20 U.S.C. 1606, 1607(a))

(e) *Limitations on eligibility; non-public participation.* The limitations on eligibility set forth in § 185.43 shall apply to educational agencies applying for assistance under this subpart. The provisions of § 185.44 as to waiver of ineligibility shall apply to local educational agencies applying for assistance under this subpart. The provisions of § 185.45 as to termination of assistance shall apply to all recipients of assistance under this subpart. The provisions of § 185.42 as to participation of children or staff enrolled in or employed by non-public schools shall apply to local educational agencies applying for assistance under this subpart.

(20 U.S.C. 1605(d), 1607(a), 1609 (a) and (b), 1611(c))

##### § 185.92 Applications.

(a) Applications by local educational agencies for assistance under this subpart shall comply with the requirements of § 185.13 (a) through (n), and (together with all correspondence and other written materials relating thereto) shall be made readily available to the public by the applicant and the Assistant Secretary. Applications by other public agencies or organizations shall be in such form, and contain such information and assurances, as may be required by the Assistant Secretary.

(20 U.S.C. 1607(a), 1609 (a))

(b) In addition to the information and assurances required by paragraph (a) of this section, applications by local educational agencies pursuant to § 185.91(a) shall contain the following additional information:

(1) A description of the proposed program, project, or activity, and of such policies and procedures as will insure that the applicant will use funds received under the Act only for the activities described in § 185.91(d);

(2) A complete special reading needs assessment with regard to the affected school, in a form to be prescribed by the Assistant Secretary;

(3) The signature of the principal of the school to be served by the proposed program, project, or activity, indicating concurrence in the submission of such agency's application.

(20 U.S.C. 1607(a))

##### § 185.93 Criteria for assistance.

(a) *Objective criteria.* In approving applications for assistance by local educational agencies pursuant to § 185.91(a), the Assistant Secretary shall apply the following objective criteria (20 points):

(1) The need for such assistance, as indicated by the number and percentage of minority group children enrolled in the schools of such agency for the fiscal year or years for which assistance is sought (10 points); and

(2) The effective net reduction in minority group isolation, as defined in § 185.14(a)(2), in terms of the number and percentage of children affected, in all the schools operated by such agency accomplished or to be accomplished by the implementation of a plan or project described in § 185.11(a) or § 185.11(b) (10 points).

(20 U.S.C. 1609(c) (1), (2), and (3))

(b) *Educational and programmatic criteria.* The Assistant Secretary shall determine the educational and programmatic merits of applications for assistance by local educational agencies pursuant to § 185.91(a) on the basis of the following criteria (105 points):

(1) Needs assessment (20 points): (i) The magnitude of needs assessed by the applicant in relation to reading achievement of students in the affected school, and (ii) the degree to which the applicant has demonstrated, by standardized

achievement test data and other objective evidence, the existence of such needs in a form to be prescribed by the Assistant Secretary.

(2) Statement of objectives (20 points): (i) The degree to which the applicant sets out specific measurable objectives for its program, project, or activity, in relation to the needs identified; and, (ii) the degree to which (a) the program, project, or activity to be assisted promises realistically to address the needs identified in the application, and (b) such program, project, or activity involves to the fullest extent practicable the total educational resources, both public and private, of the community to be served. At a minimum, the stated objectives shall include progress during the period of the proposed program, project, or activity toward the goal of a normal range and distribution of reading achievement in the affected school, such goal to be attained within a 3-year period.

(3) Activities (40 points):

(i) *Curriculum development* (10 points). The extent to which the application sets out specific procedures for the evaluation, development, and revision of the curriculum in the affected school, in relation to the needs identified;

(ii) *Staffing* (20 points). The extent to which the application (a) sets out an adequate staffing plan which includes provisions for making maximum use of present staff capabilities; (b) provides for continuing training of staff in order to increase the effectiveness of the proposed program, project, or activity; and (c) includes evidence that the project staff reflects the racial and ethnic makeup of the student body at the affected school.

(iii) *Parent and community involvement* (10 points). The extent to which the application (a) delineates specific opportunities for community and parental participation in the development and implementation of the proposed program, project, or activity in addition to those required by § 185.94 and (b) includes evidence that such participation has been encouraged and has in fact occurred.

(4) Resource Management (5 points): The extent to which the application contains evidence that (i) the amount of funds requested is of sufficient magnitude in relation to the number of participants to be served to give substantial promise of achieving the stated objectives; (ii) the costs of project components are reasonable in relation to the expected benefits; (iii) all possible efforts have been made to minimize the amount of funds requested for purchase of equipment necessary for implementation of the proposed program, project, or activity; and (iv) the proposed program, project, or activity has been coordinated with existing programs and resources.

(5) Evaluation (20 points): The extent to which the application sets out a format for objective, quantifiable measurement of the success of the proposed

program, project, or activity in achieving the stated objectives, including (i) a timetable for compilation of data for evaluation and a method of reviewing the program, project, or activity in the light of such data; (ii) a description of instruments to be used for evaluation of the proposed program, project, or activity (and of the method for validating such instruments where necessary), or a description of the procedure to be employed in selecting such instruments; and (iii) provisions for comparison of evaluation results with norms, control group performance, results of other programs, or other external standards.

(6) In making the determinations required under this paragraph, the Assistant Secretary is authorized to purchase or utilize the services, recommendations, and advice of experts in the areas of education, evaluation, and human relations from the Department, or other Federal agencies, State or local governmental units, or the private sector.

(20 U.S.C. 1601(b), 1609(a)(11), 710(c) (1), (2), (4), and (6))

(c) *Funding criteria.* In determining amounts to be awarded to applicants for assistance pursuant to § 185.91(a), the Assistant Secretary shall consider the additional cost to such applicant (as such cost is defined in § 185.13(a)) of effectively carrying out its proposed program, project, or activity, in relation to the amount of funds available for assistance pursuant to § 185.91(a) and the other applications for such assistance pending before him. The Assistant Secretary shall not be required to approve any application which does not meet the requirements of the Act or this part, or which sets forth a program, project, or activity of such insufficient promise for achieving the purposes of the Act that its approval is not warranted. In applying the criterion set out in this paragraph, the Assistant Secretary shall award funds to applicants (whose applications meet such requirements and are of sufficient promise to warrant approval) in the order of their ranking on the basis of the criteria set out in this section until the sums allotted for such assistance have been exhausted. No more than 20 percent of the funds made available pursuant to § 185.91(a) shall be awarded to applicants in any one State, unless the Assistant Secretary determines that applications for such awards in excess of such amount are of exceptional merit or promise.

(20 U.S.C. 1609(c) (1) (C), (c) (5) (5))

(d) *Other applications.* The merits of applications for assistance pursuant to § 185.91(b) shall be determined on the basis of the criteria set forth in § 185.14, to the extent that such criteria are applicable to the proposed program, project, or activity.

(20 U.S.C. 1607(a), 1609(c))

##### § 185.94 Community involvement.

(a) *Unit task force.* Applications by local educational agencies for assistance pursuant to § 185.91(a) shall be developed by a unit task force headed by the principal of the school to be served by the proposed program, project, or activity and formed in accordance with paragraph (b) of this section.

(b) *Composition.* (1) In order to establish a unit task force as required by this section, a local educational agency shall designate two civic or community organizations broadly representative of the minority and nonminority communities to be served, each of which shall select a resident of the attendance area of the school to be served to serve as a member of the unit task force.

(20 U.S.C. 1609 (a) (2) (B), (b))

(2) Such agency, after consultation with the appropriate teachers' organization(s), shall either (i) designate two teachers from the school to be served who will participate in the proposed program, project, or activity to serve as members of the unit task force, or (ii) delegate the responsibility for such selections to the appropriate teachers' organization(s).

(3) Such agency shall designate one member of its administrative staff, at the assistant superintendent level or higher, to serve as a member of the unit task force.

(4) Where the proposed program, project, or activity will affect a secondary school, the unit task force required by this section shall include at least two secondary students regularly enrolled at such school who have been selected by the student body or student government of such school.

(5) The local educational agency shall select the minimum number of additional members of such unit task force necessary to insure that (i) it will be composed of equal numbers of nonminority group members and of members from each minority group substantially represented in the school to be served, and (ii) at least half the members of such unit task force will be parents of students to be served by the proposed program, project, or activity.

(20 U.S.C. 1609(a) (2) (B))

(c) *Consultation; public hearing; publication.* Local educational agencies applying for assistance pursuant to § 185.91(a) shall comply with the requirements as to public hearings, publications, and post-award consultation set forth in § 185.41 (a), (b), (c), and (f). For purposes of this paragraph, references in such paragraphs to a "district-wide advisory committee" shall be understood to refer to the unit task force required by this section.

(20 U.S.C. 1609(a) (2) (3))

(d) *Comments and suggestions by unit task force.* No amendment to the program, project, or activity of a local educational agency shall be approved, and no additional funds made available pursuant to § 185.91(a), unless the unit task force required by this section has been involved in the development of, and a majority of its members has approved, such amendment of or addition to the program, project, or activity. Comments

indicating such approval shall be included with any application submitted by such agency for such amendments or additions. Amendments or additions suggested by the unit task force shall be forwarded by the local educational agency, with or without comment by such agency, to the Assistant Secretary for his consideration.

(20 U.S.C. 1609(a)(3))

(e) *Other applicants.* Applicants for assistance pursuant to § 185.91(b) shall comply with the requirements of § 185.41, to the extent that such requirements are applicable to the proposed program, project, or activity.

(20 U.S.C. 1609(a)(2) and (3), 1609(b))

[FR Doc. 73-4039 Filed 3-1-73; 8:45 am]

#### Social Security Administration

##### [20 CFR Part 404]

[Regs. No. 4]

#### FEDERAL OLD-AGE, SURVIVORS, AND DISABILITY INSURANCE

##### Deductions; Reductions; Nonpayments; Increases Excess Earnings for Retirement Test

Notice is hereby given, pursuant to the Administrative Procedure Act (5 U.S.C. 552 et seq.) that the amendments to the regulations set forth in tentative form are proposed by the Commissioner of Social Security, with the approval of the Secretary of Health, Education, and Welfare. The proposed amendments show the amount of earnings a person may have in a taxable year ending after 1972 and still receive all his social security benefits and the rules for figuring the amount of benefits that will be withheld if he has earnings in excess of that amount. In a 12-month taxable year, the allowable amount of earnings is increased from \$1,680 to \$2,100. For the taxable year in which a beneficiary reaches age 72 only his earnings up to the month in which he reaches that age are counted in figuring the amount to be withheld. If the beneficiary is self-employed, the pro rata share of the net earnings or net loss for the taxable year for the period prior to the month of attainment of age 72 is used to figure the amount to be withheld.

Prior to final adoption of the proposed amendments to the regulations, consideration will be given to any data, views, or arguments pertaining thereto which are submitted in writing in triplicate to the Commissioner of Social Security, Department of Health, Education, and Welfare Building, Fourth and Independence Avenue SW., Washington, D.C. 20201, on or before April 2, 1973.

Copies of all comments received in response to this notice will be available for public inspection during regular business hours at the Washington Inquiries Section, Office of Public Affairs, Social Security Administration, Department of Health, Education, and Welfare, North Building, Room 4146, 330 Independence Avenue SW., Washington, DC 20201.

The proposed amendments are to be issued under the authority contained in

#### PROPOSED RULE MAKING

sections 203, 205, and 1102, 53 Stat. 1367, as amended, 53 Stat. 1368, as amended, 49 Stat. 647, as amended; 42 U.S.C. 403, 405, and 1302.

Dated: January 22, 1973.

ROBERT M. BALL,  
Commissioner of Social Security.

Approved: February 23, 1973.

CASPAR W. WEINBERGER,  
Secretary of Health, Education,  
and Welfare.

Regulations No. 4 of the Social Security Administration (20 CFR Part 404) are further amended as follows:

1. Paragraph (a) of § 404.428 is revised to read as follows:

§ 404.428 Earnings in a taxable year.

(a) *General.* In applying the annual earnings test (see § 404.415(a)) under the provisions of this subpart, all of a beneficiary's earnings (as defined in § 404.429) for all months of his taxable year are included even though the individual is not entitled to benefits during all months of his taxable year. (See, however, § 404.430 for rule for figuring excess earnings where beneficiary attains age 72 in a taxable year ending after December 1972.) The taxable year of an employee is presumed to be a calendar year until it is shown to the satisfaction of the Administration that he has a different taxable year. A self-employed individual's taxable year is a calendar year unless he has a different taxable year for the purposes of subtitle A of the Internal Revenue Code of 1954. In either case, the number of months in a taxable year is not affected by (1) filing a claim for social security benefits, (2) attainment of age 18, 22, 65, 72, or any other age, (3) marriage, (4) termination of marriage, or (5) adoption. A taxable year ends with the death of the beneficiary. In such a case, the month of death is included as a month of the deceased beneficiary's taxable year in determining whether the beneficiary had excess earnings as defined in § 404.430, § 404.431, § 404.432, or § 404.433.

2. After § 404.429, new § 404.430 is added to read as follows:

§ 404.430 Excess earnings; defined for taxable years ending after December 1972.

For taxable years ending after December 1972, an individual's excess earnings for a taxable year are 50 percent of his earnings (as described in § 404.429) for such year in excess of the product of \$175 multiplied by the number of months in such year. However, earnings in and after the month an individual attains age 72 will not be used to figure excess earnings for retirement test purposes. For the employed individual his wages for months prior to the month of attainment of age 72 are used to figure his excess earnings for retirement test purposes.

For the self-employed individual the pro rata share of the net earnings or net loss for the taxable year for the period prior to the

month of attainment of age 72 is used to figure his excess earnings. If the beneficiary was not engaged in self-employment prior to the month of attainment of age 72 any subsequent earnings or losses from self-employment in the taxable year will not be used to figure his excess earnings. Where the excess amount figured in accordance with the provisions of this section is not a multiple of \$1, it is reduced to the next lower dollar.

*Example 1.* The self-employed beneficiary attained age 72 in July 1973. His net earnings for 1973, his taxable year, were \$6,000. The pro rata share of such net earnings for the period prior to July is \$3,000. His excess earnings for 1973 for retirement test purposes are \$450. This is arrived at by subtracting \$2,100 (\$175 × 12) from \$3,000 and dividing the result by 2.

*Example 2.* The beneficiary attained age 72 in July 1973. His wages for the period prior to July were \$3,000. From August through December 1973 he engaged in self-employment and derived net earnings in the amount of \$2,000. His net earnings from self-employment are not used to figure his excess earnings. Only his wages for the period prior to July 1973, \$3,000, are used to figure his excess earnings. As in Example 1 his excess earnings are \$450.

*Example 3.* The facts are the same as in Example 2 except that the beneficiary had a net loss in the amount of \$500 from self-employment activity in which he engaged throughout 1973. The net loss is used in figuring his excess earnings. The pro rata share of such net loss for the period prior to July is \$250. His excess earnings are \$2,750. This is arrived at by subtracting the \$250 loss from the \$3,000 in wages. The excess earnings are \$325 (\$2,750 - \$2,100 ÷ 2).

3. After § 404.430, new § 404.431 is added to read as follows:

§ 404.431 Excess earnings; defined for taxable years ending after December 1967 and prior to January 1973.

For taxable years ending after December 1967 and prior to January 1973, an individual's excess earnings are the amount of his earnings (as described in § 404.429) that exceed \$140 times the number of months in his taxable year, except that his excess earnings do not include an amount equal to one-half of the first \$1,200 of such excess amount (or equal to one-half of the entire excess amount if such excess amount is less than \$1,200). Where the excess amount so figured is not a multiple of \$1, it is reduced to the next lower dollar. Thus, in the usual 12-month-taxable-year case, an individual's excess earnings are computed as follows:

(a) \$1 for each \$2 of earnings over \$1,680, up to and including \$2,880; and  
(b) \$1 for each \$1 of earnings over \$2,880.

4. Section 404.432 is revised to read as follows:

§ 404.432 Excess earnings; defined for taxable years ending after December 1965 and prior to January 1968.

For taxable years ending after December 1965 and prior to January 1968, an individual's excess earnings are the amount of his earnings (as described in

#### PROPOSED RULE MAKING

§ 404.429) that exceed \$125 times the number of months in his taxable year, except that his excess earnings do not include an amount equal to one-half of the first \$1,200 of such excess amount (or equal to one-half of the entire excess amount if the excess is less than \$1,200). Where the excess amount so figured is not a multiple of \$1, it is reduced to the next lower dollar. Thus, in the usual 12-month-taxable-year case, an individual's excess earnings are computed as follows:

(a) \$1 for each \$2 of earnings over \$1,500, up to and including \$2,700; and  
(b) \$1 for each \$1 over \$2,700.

5. Section 404.434 is amended by revising paragraphs (a) and (b) (3) to read as follows:

§ 404.434 Excess earnings; method of charging.

(a) *Months charged.* For purposes of imposing deductions for taxable years after 1960, the excess earnings (as described in §§ 404.430, 404.431, 404.432, and 404.433) of an individual are charged to each month beginning with the first month the individual is entitled in the taxable year in question and continuing, if necessary, to each succeeding month in such taxable year until all of the individual's excess earnings have been charged. Excess earnings, however, are not charged to any month described in §§ 404.435 and 404.436.

(b) *Amount of excess earnings charged.* . . .

(3) *Insured individual and person entitled (or deemed entitled) on his earnings record both have excess earnings.* If both the insured individual and a person entitled (or deemed entitled) on his earnings record have excess earnings (as described in §§ 404.430, 404.431, 404.432, and 404.433), the insured individual's excess earnings are charged first against the total family benefits payable (or deemed payable) on his earnings record, as described in subparagraph (1) of this paragraph. Next, the excess earnings of a person entitled on the insured individual's earnings record are charged (as described in paragraph (c) (2) of this section) against his own benefits, but only to the extent that his benefits have not already been charged with the excess earnings of the insured individual. See § 404.441 for an example of this process and the manner in which partial monthly benefits are apportioned.

#### DEPARTMENT OF TRANSPORTATION

##### Coast Guard

##### [33 CFR Part 117]

[CGD 72-155P]

#### DRAWBRIDGE OPERATION REGULATIONS; AIWW, VERO BEACH, FLA.

##### Notice of Proposed Rule Making

At the request of the Chairman of the Indian River County Commission, the Coast Guard is considering amending the regulations for the Merrill P. Barber (State Road 60) drawbridge across the

Atlantic Intracoastal Waterway at Vero Beach to permit closed periods from 7:45 a.m. to 9 a.m., 12 noon to 1:15 p.m. and 4 p.m. to 5:15 p.m., Monday through Friday, with the proviso that the draw shall open at 8:30 a.m., 12:30 p.m., and 4:30 p.m., if any vessels are waiting to pass the closed draw. The draw is presently required to open on signal at any time. This is a modification of the original request from the Indian River County Commission which asked for closed periods from 8 a.m. to 6 p.m. and would require openings of the draw only on the hour and half hour during this period. The original proposal was circulated as a public notice dated 21 August 1972 by the Commander, Seventh Coast Guard District and was published in the FEDERAL REGISTER as a notice of proposed rule making (CGD 72-155) on 16 August 1972 (37 FR 16552). Nine letters of protest and no letters of support were received regarding the proposal. The Coast Guard informed the applicant that due to the validity of several of the objections, the original request would not provide for the reasonable need of navigation. The added storm signal provision is already contained in several drawbridge regulations governing other bridges in Florida and should be included in this section.

Interested persons may participate in this proposed rule making by submitting written data, views, or arguments to the Commander (oan), Seventh Coast Guard District, Room 1018, Federal Building, 51 Southwest First Avenue, Miami, FL 33130. Each person submitting comments should include his name and address, identify the bridge, and give reasons for any recommended change in the proposal. Copies of all written communications received will be available for examination by interested persons at the office of the Commander, Seventh Coast Guard District.

The Commander, Seventh Coast Guard District, will forward any comments received before April 3, 1973, with his recommendations to the Chief, Office of Marine Environment and Systems, who will evaluate all communications received and take final action on this proposal. The proposed regulations may be changed in the light of comments received.

In consideration of the foregoing, it is proposed that Part 117 of Title 33 of the Code of Federal Regulations, be amended by adding § 117.438a immediately after § 117.438 to read as follows:

§ 117.438a State Road 60 Bridge, AIWW, Vero Beach, Fla.

(a) Except as provided in paragraph (b) of this section, the draw shall be opened on signal for the passage of vessels.

(b) From 7:45 a.m. to 9 a.m., 12 noon to 1:15 p.m., and 4 p.m. to 5:15 p.m. Monday through Friday, except national holidays, the draw need not open for the passage of vessels. However, the draw shall open at 8:30 a.m., 12:30 p.m., and 4:30 p.m. if any vessels are waiting to pass.

(c) The draw shall open at any time for the passage of public vessels of the United States, State, or local government vessels used for public service, tugs with tows, and vessels in distress. The opening signal from these vessels is four blasts of a whistle or horn or by shouting.

(d) The owner of or agency controlling the bridge shall conspicuously post notice containing the substance of these regulations, both upstream and downstream, on the bridge or elsewhere, in such a manner that they can easily be read at all times from an approaching vessel.

(e) During periods when storm signals are displayed in the Vero Beach area, the draw shall open on signal. Storm signals are displayed upon notification by the National Weather Service that winds of up to 33 knots or more and/or sea conditions considered dangerous to small craft are expected. The opening signal is three blasts of a whistle, horn, or other sound-producing device, or by shouting.

(Sec. 5, 28 Stat. 362, as amended, sec. 6(g) (2), 80 Stat. 937; 33 U.S.C. 499, 49 U.S.C. 1655(g) (2); 49 CFR 1.46(c) (5), 33 CFR 1.05-1(c) (4))

Dated: February 28, 1973.

J. D. McCANN,  
Captain, U.S. Coast Guard, Acting  
Chief, Office of Marine  
Environment and Systems.

#### Federal Aviation Administration

##### [14 CFR Part 71]

[Airspace Docket No. 72-AL-4]

#### CONTROL ZONE AND TRANSITION AREA Proposed Alteration

The Federal Aviation Administration is considering amendments to Part 71 of the Federal Aviation Regulations which would alter the Iliamna, Alaska, control zone and transition area.

Interested persons may participate in the proposed rule making by submitting such written data, views, or arguments as they may desire. Communications should identify the docket number and be submitted in triplicate to the Chief, Air Traffic Division, Alaskan Region, Federal Aviation Administration, 632 Sixth Avenue, Anchorage, AK 99501. All communications received on or before April 2, 1973, will be considered before action is taken on the proposed amendments. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Chief, Air Traffic Division. Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested persons at

#### PROPOSED RULE MAKING

#### ATOMIC ENERGY COMMISSION

##### and § 1602.2, Equal Employment Oppor-

#### Subpart I—State and Local Governments

## PROPOSED RULE MAKING

the office of the Regional Counsel, Federal Aviation Administration, 632 Sixth Avenue, Anchorage, AK.

Application of the U.S. Standard for Terminal Instrument Procedures (TERPS) and revised criteria for establishment of terminal controlled airspace require amendments to the Iliamna, Alaska, control zone and transition area. Additionally, refined coordinates of the Airport Reference Point (ARP) are contained in this docket.

In consideration of the foregoing, the Federal Aviation Administration proposes to amend Part 71 of the Federal Aviation Regulations as hereinafter set forth:

1. In § 1.171 (38 FR 451) the Iliamna, Alaska, control zone is amended to read:

## ILIAMNA, ALASKA

Within a 5-mile radius of the Iliamna Airport (latitude 59°54'54" W); and within 2.5 miles each side of a bearing 209° from the Iliamna RBN; extending from the 5-mile radius zone to 9.5 miles southwest of the RBN. This control zone is effective during the specific dates and times established in advance by a Notice to Airmen. The effective date and time will thereafter be continuously published in the U.S. Government Flight Information Publication, Supplement Alaska.

2. In § 1.171 (38 FR 506) the Iliamna transition area is amended to read:

## ILIAMNA, ALASKA

That airspace extending upward from 700 feet above the surface within a 5-mile radius of the Iliamna Airport (latitude 59°54'54" W); and within 2.5 miles each side of a bearing 209° from the Iliamna RBN; extending from the RBN to 9.5 miles southwest of the RBN; and that airspace extending upward from 1,200 feet above the surface within 5.5 miles northwest and 9.5 miles southeast of a bearing 029° and 209° of the Iliamna RBN; extending from 7 miles northeast to 18.5 miles southwest of the RBN.

The action proposed herein would alter the Iliamna, Alaska, control zone to comply with new criteria. The proposed 700-foot transition area would provide protected airspace for aircraft conducting instrument operations during those dates and times when the control zone is not effective. The 1,200-foot portion of the transition area would be altered to provide protected airspace under revised criteria for aircraft conducting instrument operations.

These amendments are proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Anchorage, Alaska, on February 21, 1973.

QUENTIN S. TAYLOR,  
Acting Director, Alaskan Region.  
[FR Doc.73-3962 Filed 3-1-73; 8:45 am]

## [ 14 CFR Part 71 ]

[Airspace Docket No. 72-AL-29]

CONTROL ZONE AND TRANSITION AREA  
Proposed Designation

The Federal Aviation Administration is considering amendments to Part 71

of the Federal Aviation Regulations which would establish a control zone and transition area at Ketchikan, Alaska.

Interested persons may participate in the proposed rule making by submitting such written data, views, or arguments as they may desire. Communications should identify the airspace docket number and be submitted in triplicate to the Chief, Air Traffic Division, Alaskan Region, Federal Aviation Administration, 632 Sixth Avenue, Anchorage, AK 99501. All communications received on or before April 2, 1973, will be considered before action is taken on the proposed amendments. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Chief, Air Traffic Division. Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested persons at the office of the Regional Counsel, Federal Aviation Administration, 632 Sixth Avenue, Anchorage, AK.

The proposed Ketchikan control zone would be designated to provide controlled airspace protection for Instrument Flight Rule (IFR) traffic using the new Ketchikan Airport to be commissioned on or about June 1, 1973. The control zone would be designated part-time during specific hours based upon the time the Ketchikan Flight Service Station is in operation. This time would also coincide with scheduled IFR operations. The control zone and transition area configuration conforms to the minimum requirement for controlled airspace protection for standard instrument procedures as specified in the U.S. Standard for Terminal Instrument Procedures (TERPS) which criteria are premised on safety.

The proposed terminal airspace required for the Ketchikan Airport would overlie in part, the airspace designated for the area approach based on the Guard Island RBN. For simplification purposes it is proposed to incorporate the Guard Island transition area into the Ketchikan transition area description. Therefore, the current designation of the Guard Island transition area in FAR § 1.181 (38 FR 435) is to be canceled on the date the Ketchikan transition area becomes effective.

In consideration of the foregoing, it is proposed to amend Part 71 of the Federal Aviation Regulations as hereinafter set forth:

1. In § 1.171 (38 FR 351) the Ketchikan, Alaska, control zone is designated to read:

## KETCHIKAN, ALASKA

Within a 5-mile radius of the Ketchikan Airport (latitude 55°21'09" N., longitude 131°42'22" W.); and within 2 miles each side of the Ketchikan localizer 316° course, extending from the 5-mile radius zones to 10

miles northwest of the Ketchikan localizer (latitude 55°20'52" N., longitude 131°41'53" W.). This control zone is effective from 0800 to 1700 local time daily or during the specific dates and times established in advance by Notice to Airmen. The effective date and time will thereafter be continuously published in the Flight Information Publication, Supplement Alaska.

2. In § 1.181 (38 FR 435) the Ketchikan, Alaska, transition area is designated to read:

## KETCHIKAN, ALASKA

That airspace extending upward from 700 feet above the surface within 4.5 miles northeast and 9.5 miles southwest of the Ketchikan ILS localizer southeast and northwest course, extending from 8.5 miles southeast to 26 miles northwest of the Ketchikan localizer (latitude 55°20'52" N., longitude 131°41'53" W.); and that airspace extending upward from 1,200 feet above the surface within 13 miles northwest and 8.5 miles southeast of the 247° and the 067° bearings from the Guard Island RBN, extending from 11 miles northeast to 24 miles southwest of the RBN; within 7 miles northeast and 17 miles southwest of the 150° and 330° bearing from the Guard Island RBN, extending from 12 miles southeast to 26.5 miles northwest of the RBN, excluding the portion within the Annette Island 700-foot and 1,200-foot floor transition area.

3. In § 1.181 (38 FR 435) the Guard Island, Alaska, transition area is deleted.

These amendments are proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Anchorage, Alaska, on February 21, 1973.

QUENTIN S. TAYLOR,  
Acting Director, Alaskan Region.

## [ 14 CFR Part 71 ]

[Airspace Docket No. 72-NW-28]

## TRANSITION AREA

## Withdrawal of Proposed Alteration

On January 19, 1973 a notice of proposed rule making was published in the FEDERAL REGISTER (38 FR 1938) stating that the Federal Aviation Administration was considering an amendment to Part 71 of the Federal Aviation Regulations that would alter the description of the Twin Falls, Idaho transition area. A subsequent review of the airspace requirements at Twin Falls, Idaho disclosed that further revision to the transition area is required. Accordingly, Airspace Docket No. 71-NW-14 is hereby cancelled. The revised proposal for Twin Falls, Idaho transition area will be re-submitted in the near future under another docket number.

Issued in Seattle, Wash., on February 21, 1973.

J. H. TANNER,  
Acting Director,  
Northwest Region.

## PROPOSED RULE MAKING

## ATOMIC ENERGY COMMISSION

[ 10 CFR Parts 50, 70, 73 ]

## LICENSING OF PRODUCTION AND UTILIZATION FACILITIES; SPECIAL NUCLEAR MATERIAL; PHYSICAL PROTECTION OF SPECIAL NUCLEAR MATERIAL

## Requirements for Physical Security; Extension of Comment Period

On February 1, 1973, the Atomic Energy Commission published in the FEDERAL REGISTER (38 FR 3073, 3075, 3080, and 3082) proposed amendments to 10 CFR Parts 50, 70, and 73 which would strengthen the Commission's requirements for physical protection of special nuclear materials in nuclear facilities and in transportation and would require measures for the protection of certain nuclear facilities against industrial sabotage. The period for public comment on these approved amendments was specified as ending on March 3, 1973. Requests have been received for extension of the comment period. Considering the complexity of the proposed regulations, the Commission has extended the comment period on the proposed amendments to April 3, 1973. Copies of comments received may be examined in the Commission's Public Document Room, 1717 H Street NW., Washington, DC.

(Sec. 161, 68 Stat. 948; 42 U.S.C. 2201)

Dated this 28th day of February 1973.  
For the Atomic Energy Commission.

GORDON M. GRANT,  
Acting Secretary  
of the Commission.

EQUAL EMPLOYMENT  
OPPORTUNITY COMMISSION

[ 29 CFR Part 1602 ]

## PROPOSED REPORTING AND RECORD-KEEPING REGULATIONS FOR STATE AND LOCAL GOVERNMENTS

## Notice of Public Hearing on Proposed Regulations

Notice is hereby given pursuant to 44 U.S.C. 1508 and § 1602.3, *Equal Employment Opportunity Commission Procedural Regulations*, 29 CFR 1602.3, that the Equal Employment Opportunity Commission has authorized a public hearing to be held at 10 a.m., March 21, 1973, in the hearing room of the Equal Employment Opportunity Commission, 1800 G Street NW., Washington, DC, Room 1129, for the purpose of considering views regarding proposed reporting and recordkeeping requirements for State and local governments embodied in §§ 1602.30-1602.37 and Report Form EEO-4. The public hearing is held as required by section 709(c), 42 U.S.C. 2000e-8(c), of title VII of the Civil Rights Act of 1964, as amended by the Equal Employment Opportunity Act of 1972,

The proposed Rept. EEO-4 with instructions are set forth in Appendix I immediately following the proposed regulations.

and § 1602.2, *Equal Employment Opportunity Commission Procedural Regulations*, 29 CFR 1602.2.

The Equal Employment Opportunity Act of 1972 extended the Commission's jurisdiction to include the employment practices of State and local governments and political subdivisions thereof with 25 or more employees (as of Mar. 24, 1973, 15 or more employees). The Act prohibits employment discrimination on the basis of race, color, religion, sex, or national origin. Section 709(c) of the Act authorizes the Commission to require employers, employment agencies, and labor organizations to preserve such records and reports as are necessary and appropriate for the enforcement of the Act.

Accordingly, the Commission proposes to amend Title 29, Chapter XIV, Part 1602, of the Code of Federal Regulations to establish report and recordkeeping regulations for State and local governments as set forth below.

All persons who are interested are invited to participate in the public hearing. The procedure governing the hearing is set forth in §§ 1602.4-1602.6, *Equal Employment Opportunity Commission Procedural Regulations*, 29 CFR 1602.4-1602.6. Each person who wishes to participate should notify, in writing, the Director of Research, Equal Employment Opportunity Commission, Public Hearing—Personal, 1800 G Street NW., Washington, DC 20506, by March 16, 1973. Such notification should include the name, address, and telephone number of the person, agency, or organization wishing to participate, a brief general description of the evidence or argument to be presented, and an estimation of the time which will be required for such purpose. The Commission will notify the person, agency, or organization of the approximate time it will have for presentation and the approximate time during the public hearing at which such presentation may be given. A transcript will be made of the hearing and may be purchased by the public.

Persons planning to participate in this hearing and persons who are unable to attend the hearing or who wish to supplement in any way the presentation given at the hearing may submit pertinent written data, views, and argument to the Director of Research, Equal Employment Opportunity Commission, Proposed Regulation—Personnel, 1800 G Street NW., Washington, DC 20506, no later than March 26, 1973. Each written submission should give the name and address of the person, agency, or organization responsible for it. Copies of all written submissions will be available for examination by interested persons at the Equal Employment Opportunity Commission Library, 1800 G Street NW., Washington, DC, Room 1145, between the hours of 9:30 a.m. to 5 p.m.

It is proposed to amend Part 1602 by adding new Subparts I, J, and K, and by adding new §§ 1602.30, 1602.31, 1602.32, 1602.33, 1602.34, 1602.35, 1602.36, and 1602.37 thereto to read as follows:

Subpart I—State and Local Governments  
Recordkeeping

Sec.  
1602.30 Records to be made or kept.  
1602.31 Preservation of records made or kept.

Subpart J—State and Local Government  
Information Report

1602.32 Requirement for filing and preserving copy of report.  
1602.33 Penalty for making of willfully false statements on report.  
1602.34 Commission's remedy for political jurisdiction's failure to file report.  
1602.35 Political jurisdiction's exemption from reporting requirements.  
1602.36 Additional reporting requirements.

Subpart K—Records and Inquiries as to Race,  
Color, National Origin, or Sex

1602.37 Applicability of State or local law.  
Appendix I

AUTHORITY: Section 709(c), 78 Stat. 265, 42 U.S.C. 2000e-8(c); 29 CFR 1602.3.

Subpart I—State and Local Governments  
Recordkeeping

§ 1602.30 Records to be made or kept.

On or before July 30, 1973, and annually thereafter, every political jurisdiction with 15 or more employees is required to make or keep information therefrom which are or would be necessary for the completion of Report EEO-4 under the circumstances set forth in the instructions thereto (set out below), whether or not the political jurisdiction is required to file such report under § 1602.32 of the regulations in this part. The instructions are specifically incorporated herein by reference and have the same force and effect as other sections of this part. Such records and the information therefrom shall be retained at all times for a period of 3 years at the central office of the political jurisdiction and shall be made available if requested by an officer, agent, or employee of the Commission under section 710 of title VII, as amended. It is the responsibility of every political jurisdiction to obtain from the Commission or its delegate necessary instructions in order to comply with this section's requirements.

§ 1602.31 Preservation of records made or kept.

(a) Any personnel or employment record made or kept by a political jurisdiction (including but not necessarily limited to application forms submitted by applicants and other records having to do with hiring, promotion, demotion, transfer, layoff or termination, rates of pay or other terms of compensation, and selection for training or apprenticeship) shall be preserved by the political jurisdiction for a period of 2 years from the date of the making of the record or the personnel action involved, whichever occurs later. In the case of involuntary termination of an employee, the personnel records of the individual terminated shall be kept for a period of 2 years from the date of termination. Where a charge of discrimination has been filed, or an action brought by the Attorney General, against a political jurisdiction under title VII, the respondent political jurisdiction shall preserve all personnel records relevant to the charge or action until

## PROPOSED RULE MAKING

final disposition of the charge or the action. The term "personnel record relevant to the charge," for example, would include personnel or employment records relating to the person claiming to be aggrieved and to all other employees holding positions similar to that held or sought by the person claiming to be aggrieved; and application forms or test papers completed by an unsuccessful applicant and by all other candidates for the same position as that for which the person claiming to be aggrieved applied and was rejected. The date of "final disposition of the charge or the action" means the date of expiration of the statutory period within which a person claiming to be aggrieved may bring an action in a U.S. district court or, where an action is brought against a political jurisdiction either by a person claiming to be aggrieved or by the Attorney General, the date on which such litigation is terminated.

(b) The requirements of this section shall not apply to application forms and other preemployment records of applicants for positions known to applicants to be of a temporary or seasonal nature.

NOTE: The reporting and/or recordkeeping requirements contained herein have been approved by the Office of Management and Budget in accordance with the Federal Reports Act of 1942.

#### Subpart J—State and Local Government Information Report

##### § 1602.32 Requirement for filing and preserving copy of report.

On or before July 30, 1973, and annually thereafter, certain political jurisdictions subject to title VII of the Civil Rights Act of 1964, as amended, shall file with the Commission or its delegate executed copies of State and Local Government Information Report EEO-4 in conformity with the directions set forth in the form and accompanying instructions. The political jurisdictions covered by this regulation are (a) those which have 100 or more employees, and (b) those other political jurisdictions which have 15 or more employees from whom the Commission requests the filing of reports. Every such political jurisdiction shall retain at all times a copy of the most recently filed EEO-4 at the central office of the political jurisdiction for a period of 3 years and shall make the same available if requested by an officer, agent, or employee of the Commission under the authority of section 710 of title VII, as amended. It is the responsibility of the political jurisdictions above described in this section to obtain from the Commission or its delegate necessary supplies of the form.

##### § 1602.33 Penalty for making of willfully false statements on report.

The making of willfully false statements on Report EEO-4 is a violation of the United States Code, title 18, section 1001, and is punishable by fine or imprisonment as set forth therein.

##### § 1602.34 Commission's remedy for political jurisdiction's failure to file report.

Any political jurisdiction failing or refusing to file Report EEO-4 when required to do so may be compelled to file by order of a U.S. district court, upon application of the Attorney General.

##### § 1602.35 Political jurisdiction's exemption from reporting requirements.

If it is claimed the preparation or filing of the report would create undue hardship, the political jurisdiction may apply to the Commission for an exemption from the requirements set forth in this part by submitting to the Commission or its delegate a specific proposal for an alternative reporting system prior to the date on which the report is due.

##### § 1602.36 Additional reporting requirements.

The Commission reserves the right to require reports, other than that designated as the State and Local Government Information Report EEO-4, about the employment practices of individual political jurisdictions or groups of political jurisdictions whenever, in its judgment, special or supplemental reports are necessary to accomplish the purposes of title VII. Any system for the requirement of such reports will be established in accordance with the procedures referred to in section 709(c) of title VII and as otherwise prescribed by law.

#### Subpart K—Records and Inquiries as to Race, Color, National Origin, or Sex

##### § 1602.37 Applicability of State or local law.

The requirements imposed by the Equal Employment Opportunity Commission in these regulations, Subparts I and J, supersede any provisions of State or local law which may conflict with them.

#### APPENDIX I

##### EQUAL EMPLOYMENT OPPORTUNITY COMMISSION

##### STATE AND LOCAL GOVERNMENT INFORMATION REPORT EEO-4

Federal law requires that the Equal Employment Opportunity Commission prescribe such records and reports as are necessary or appropriate for the enforcement of title VII of the Civil Rights Act of 1964 as amended by the Equal Employment Opportunity Act of 1972.

Accordingly, this compliance reporting system is being implemented for State and local governments. The applicable law, section 709(c), title VII, and regulations issued by the Equal Employment Opportunity Commission under that law are reprinted in the Appendix (4).

1. *How to file.* States should file a maximum of 15 separate forms (one for each function) for each SMSA and a maximum of 15 forms for the combined Non-SMSA. Where SMSA's cross State lines, the State is responsible only for the State employment in that SMSA.

Recipients below the State level (county, city, township, special district) should file one form for each function listed on page 1 of

the form (if that function is performed), for a maximum of 15 forms.

Where interstate, intercounty, etc., boards, agencies, commissions, or other type special district governments exist, the forms should be submitted by the headquarters of the special district.

Blank forms will be sent to a central office for the political jurisdiction. In those jurisdictions where all data are available at a single location, forms may be completed by the central office. Where data are not available centrally, figures should be obtained by the central office from all agencies and aggregated into the proper forms by function. Where this is not possible, a list of agencies and addresses not covered should accompany the forms. In all cases, completed forms for the jurisdiction must be returned in one package.

2. *When to file.* This annual report must be filed with the Equal Employment Opportunity Commission no later than July 30. Employment figures should cover the payroll period which includes June 30. New hire figures will not be reported until 1974 (see instructions).

3. *Where to file.* The completed reports should be forwarded in triplicate to the post office box indicated on the form. All requests for additional report forms should also be directed to this address.

4. *Requests for information and special procedures.* An employer who claims that preparation or the filing of Report EEO-4 would create undue hardships may apply to the Commission for a special reporting procedure. In such cases, the employer should submit in writing an alternative proposal for compiling and reporting information to the Equal Employment Opportunity Commission, 1800 G Street NW., Washington, DC 20506.

Only those special procedures approved in writing by the Commission are authorized. Such authorization remains in effect until notification of cancellation is given.

All requests for information should be sent to the same address.

5. *Recordkeeping requirements.* Although the EEO-4 report requires the combining of agency data to complete the form, separate agency data should be maintained on file in such form and combining such information as is required in the EEO-4 report form, and should be available upon request to representatives of Federal agencies. Copies of submitted EEO-4 forms should be retained for a period of 3 years.

#### INSTRUCTIONS

HOW TO PREPARE INFORMATION REPORTS—DEFINITIONS OF TERMS AND CATEGORIES ARE LOCATED IN THE APPENDIX

SECTION I—*Identification.* Indicate the name and central mailing address of governmental jurisdiction if different from address label in top margin.

SEC. II—*Function.* A separate form should be submitted for each function. The data should be aggregated to represent the employment for all agencies performing the particular function. If the data for any agency cannot be supplied, attach a list showing name and address of agencies not included.

SEC. III—*Employment data as of June 30—Sec. A—Full-time employees.* (For detailed explanation of job categories and race/ethnic group identification, see appendix.)

Employment data should include total full-time employment except for elected and

appointed officials and/or advisers. This exemption does not apply to employees subject to the civil service laws of a State government, governmental agency, or political jurisdiction.

1. *Race/sex data.* Columns A through L should reflect employment by sex for the categories indicated. Every employee must be accounted for in one and only one of the categories. Definitions are included in the appendix (2).

2. *Occupational data.* Employment data should be reported by annual salary within job category. Report each employee in only one job/salary category. In order to simplify and standardize the method of reporting, all jobs are considered as belonging in one of the broad occupations shown in the table. To assist you in determining how to place your jobs within the occupational groups, a description of job categories with examples follows in the appendix (3). The list of examples is in no way exhaustive.

*Total line.*—Report total employment for this matrix; and column totals.

SEC. B—*Other than full-time employees.* Employment data should cover all employees not included in the full time matrix except for elected and appointed officials and/or advisers. This exemption does not apply to employees subject to the civil service laws of a State government, governmental agency, or political jurisdiction.

Columns A through L should reflect employment by sex for the occupational group indicated. See appendix (2) for examples.

*Total line.*—Report total employment for this matrix and column totals.

SEC. C—*New hires during fiscal year.* NOTE: These data will not be required until the 1974 survey. Records should be kept beginning June 30, 1973. New hire data should reflect all permanent full-time employees hired from July 1, 1973, to June 30, 1974. Data will be reported as above.

*Total line.*—Report total employment for this matrix and column totals.

1. *Definitions applicable to all employers.* a. "Commission" refers to the Equal Employment Opportunity Commission established under title VII of the Civil Rights Act of 1964.

b. "Employee" means an individual employed by a political jurisdiction, except that the term "employee" shall not include any person elected to public office in any State or political subdivision of any State by the qualified voters thereof, or any person chosen by such officer to be on such officer's personal staff, or an appointee on the policymaking level or an immediate adviser with respect to the exercise of the constitutional or legal powers of the office. The exemption set forth in the preceding sentence shall not include employees subject to the civil service laws of a State government, governmental agency, or political subdivision.

c. "Full-Time Employees"—Persons employed during this pay period to work the number of hours per week that represent regular full-time employment (excluding temporaries and intermittents).

d. "Other than Full-Time Employees"—Persons employed during this pay period on a part-time basis. Include those daily or hourly employees usually engaged for less than the regular full-time workweek temporaries working on a seasonal basis (whether part time or full time) or hired for the duration of a particular job or operation, and intermittents.

## PROPOSED RULE MAKING

e. "New Hires During Fiscal Year"—Persons both with and without previous experience and transfers who were hired for the first time in this jurisdiction or rehired after a break in service for permanent full-time employment.

2. *Race/Ethnic identification.* An employer may acquire the race/ethnic information necessary for this section either by visual surveys of the work force, or from postemployment records as to the identity of employees. An employee may be included in the minority group to which he or she appears to belong, or is regarded in the community as belonging.

Since visual surveys are permitted, the fact that race/ethnic identifications are not present or agency records is not an excuse for failure to provide the data called for.

Moreover, the fact that employees may be located at different addresses does not provide an acceptable reason for failure to comply with the reporting requirements. In such cases, it is recommended that visual surveys be conducted for the employer by persons such as supervisors who are responsible for the work of the employees or to whom the employees report for instructions or otherwise.

Please note that conducting a visual survey and keeping postemployment records of the race or ethnic origin of employees is legal in all jurisdictions and under all Federal and State laws. State laws prohibiting inquiries and recordkeeping as to race, etc., relate only to applicants for jobs, not to employees.

The concept of race as used by the Equal Employment Opportunity Commission does not denote clearcut scientific definitions of anthropological origins. For the purposes of this report, an employee may be included in the group to which he or she appears to belong, identifies with, or is regarded in the community as belonging. However, no person should be counted in more than one race/ethnic category. NOTE: The category "Spanish Surnamed," while not a race identification, is included as a separate ethnic category because of the employment discrimination often encountered by this group; for this reason do not include Spanish Surnamed under either "white" or "black".

The category "White" should include persons of Indo-European descent, including Pakistani and East Indian.

The category "Black" should include persons of African descent as well as those identified as Jamaican, Trinidadian, and West Indian.

The category "Spanish Surnamed" should include all persons of Mexican, Puerto Rican, Cuban, Latin American or Spanish descent. The category "American Indian" should include persons who identify themselves or are known as such by virtue of tribal association.

The category "Asian American" should include persons of Japanese, Chinese, Korean, or Filipino descent.

The category "Other" should include Aleuts, Eskimos, Malaysians, Thais, and others not covered by the specific categories on the form.

3. *Description of job categories—A. Officials and administrators.* Occupations in which employees set broad policies, exercise overall responsibility for execution of these policies, or direct individual departments or special phases of the agency's operations, or provide specialized consultation on a regional, district, or area basis. Includes: department

heads, bureau chiefs, division chiefs, directors, deputy directors, controllers, assessors, inspectors, examiners, wardens, superintendents, unit supervisors, and kindred workers.

b. *Professionals.* Occupations which require specialized and theoretical knowledge which is usually acquired through college training or through work experience and other training which provides comparable knowledge. Includes: Personnel and labor relations workers, social workers, doctors, psychologists, registered nurses, economists, dietitians, lawyers, system analysts, accountants, engineers, employment and vocational rehabilitation counselors, teachers, or instructors, and kindred workers.

c. *Technicians.* Occupations which require a combination of basic scientific or technical knowledge and manual skill which can be obtained through specialized postsecondary school education or through equivalent on-the-job training. Includes: Computer programmers and operators, draftsmen, surveyors, licensed practical nurses, photographers, radio operators, technical illustrators, highway technicians, technicians (medical, dental, electronic, physical sciences) and kindred workers.

d. *Protective service workers.* Occupations in which workers are entrusted with public safety, security, and protection from destructive forces. Includes: Police officers, firefighters, guards, sheriffs, bailiffs, correctional officers, detectives, marshals, harbor patrol officers, and kindred workers.

e. *Paraprofessionals.* Occupations in which workers perform some of the duties of a professional or technician in a supportive role, which usually require less formal training and/or experience normally required for professional or technical status. Such positions may fall within an identified pattern of staff development and promotion under a "New Careers" concept. Includes: Library assistants, research assistants, medical aides, child support workers, police auxiliary, welfare service aides, recreation assistants, homemaker aides, home health aides, and kindred workers.

f. *Office and clerical.* Occupations in which workers are responsible for internal and external communications, recording and retrieval of data and/or information and other paperwork required in an office. Includes: Bookkeepers, messengers, office machine operators, clerk-typists, stenographers, court transcribers, hearings reporters, statistical clerks, dispatchers, license distributors, payroll clerks, and kindred workers.

g. *Skilled craft workers.* Occupations in which workers perform jobs which require special manual skill and a thorough and comprehensive knowledge of the processes involved in the work which is acquired through on-the-job training and experience or through apprenticeship or other formal training programs. Includes: mechanics and repairmen, electricians, heavy equipment operators, stationary engineers, skilled machining occupations, carpenters, compositors and typesetters, and kindred workers.

h. *Service/maintenance.* Occupations in which workers perform duties which result in or contribute to the comfort, convenience, hygiene, or safety of the general public or which contribute to the upkeep and care of buildings, facilities, or grounds of public property. Workers in this group may operate machinery. Includes: Chauffeurs, laundry and dry cleaning operatives, truck drivers, bus drivers, garage laborers, custodial personnel, gardeners and groundskeepers, refuse collectors, construction laborers, and kindred workers.

# FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 73]

[Docket No. 19692; FCC 73-210]

## ANTENNA MONITORS IN STANDARD BROADCAST STATIONS WITH DIRECTIONAL ANTENNAS

### Standards for Design and Installation of Sampling Systems; Inquiry

In the matter of amendment of Part 73 of the Commission's rules and regulations to establish standards for the design and installation of sampling systems for antenna monitors in standard broadcast stations with directional antennas, Docket No. 19692.

1. The antenna monitor is an instrument utilized to provide indications for the radio operator of the relative phases and amplitudes of the currents in the elements of a directional array of a standard broadcast station. Such a monitor can furnish much of the information necessary to insure the proper maintenance of the station's radiation pattern, which is essential if interference to other stations is to be minimized.

2. On January 10, 1973, the Commission adopted a Report and Order in Docket 18471, which amended our rules and regulations to establish a procedure for the type approval of antenna monitors, and a schedule for their installation by all standard broadcast stations utilizing directional antennas. The implementation of these rules will result in the eventual substitution of accurate, stable, and easily manipulated monitors, for present equipment, much of which is obsolete, comparatively complicated to operate (a problem which assumes greater proportions, now that we permit lesser grade duty operators at stations with directional antennas), and of doubtful accuracy and stability. Furthermore, the type approved monitors will be adaptable for remote indication and control, and thus can be utilized to provide phase indications at a remote control point. If a monitor is used in this manner, rule amendments adopted pursuant to Docket 18455 will permit a substantial lessening of transmitter inspection requirements for remotely controlled stations with directional antennas.

3. While we have thus provided for improved instrumentation in the station, a further step would appear to be necessary if the potentialities of modern antenna monitors are fully to be realized. The signals which activate the monitor are samples of the currents flowing in the array towers. These samples are obtained with coupling elements, usually mounted on the individual towers, and delivered from each tower to the monitor, which is located in the transmitter house, by transmission lines (usually coaxial cable). Each line may be several hun-

## PROPOSED RULE MAKING

dred feet in length. If the monitor is to be relied on to provide accurate and stable indications of relative phase and amplitude, it is essential that the sampling system be so designed that errors in indication which can easily result from inadequacies in the system will be minimized.

4. Many of those who filed comments in Docket 18471, particularly consulting engineers and the technical personnel of broadcast stations, emphasized this last point, and contended, furthermore, that the sampling systems presently employed in many stations are clearly of poor design, or have deteriorated through lack of adequate maintenance. Such systems may be expected to introduce large and variable errors in monitor indications with changes in temperature, wind velocity, humidity, and other factors. A number of the parties urged that the Commission establish at least minimum standards for the installation and maintenance of sampling systems, and provided useful information upon which such standards might be based.

5. We believe that the problem raised is one which should be explored in considerable depth. We propose to do this in the instant proceeding. As a point of departure, in the appendix to this document we have set forth for comment proposed standards for sampling system design and installation. In formulating this proposal, we have drawn extensively on the information and suggestions submitted in Docket 18471, selecting those specifications which appeared to be of basic importance. We emphasize that our aim is to establish only minimum and essential requirements for a properly designed sampling system, and to avoid the imposition of unnecessary restriction on the prerogatives of the engineer who designs the system, or undue burdens on the station licensee.

6. We invite the fullest discussion of all aspects of this matter. A number of questions immediately present themselves—for instance, if temperature stabilized cable is specified to what extent, if any, may the requirement for lines of equal length be modified? Have we specified the physical design and the placement of the coupling loops so rigidly as to preclude orientation to minimize the effects of adjacent tower fields, or so that adjustments of the relative degree of coupling of each loop to its tower, to present a signal to the monitor within the range of amplitudes necessary for proper performance of the monitor, is unduly restricted? Should we preclude the use of rotatable and/or shielded loops in all instances? Should tower-mounted loops be required, even for towers which are less than a quarter wavelength in height? Would the performance of the system be improved should we require an impedance match at the input end of each transmission line? Undoubtedly, engineers and technicians who have had extensive experience with the installation, maintenance and use of such sampling systems will have informed opinions on these points, and on other pertinent and important factors.

Where test data is available to support

a particular point of view, its submission would be welcomed.

7. In addition to information as to the basic design of such systems we desire suggestions as to a comparatively simple and practical test procedure which might be employed periodically, perhaps at the time of the equipment performance measurements pursuant to § 73.47, to ascertain that no deterioration has occurred in the sampling system.

8. Should we adopt appropriate rules in this matter, it obviously would be desirable that they become applicable on the same schedule we have specified in § 73.67 for the installation of type approved antenna monitors, if this can reasonably be accomplished. Whether this would be possible depends upon the time frame within which this proceeding may be concluded. In any case, we foresee instances where a waiver or partial waiver of any requirements we set up may appear appropriate—as, for instance, with respect to recently installed or renovated sampling systems which are generally adequate in design, but may not meet all of the requirements which are established.

9. If it appears from the study of all comments, reply comments and information submitted in response to this notice that rules should be established in this matter, and there is a reasonable consensus as to the content of such rules, we may adopt an appropriate Report and Order without other proceedings. Otherwise, a further notice will be issued before final action is taken.

10. The effort initiated in this proceeding to formulate sampling system standards may be viewed as an action at variance with the Commission's avowed purpose, as expressed in its public notice of April 6, 1972, of simplifying, and, where possible relaxing the regulations governing the broadcasting services. In the long run, we believe, we are here aiming toward that end. For instance the general use by stations with directional antennas of stable and accurate antenna monitoring systems should substantially reduce the incidence of out-of-adjustment antennas, whose re-adjustment is a source of considerable trouble and expense to many licensees, and may make feasible the relaxation of certain existing operating requirements. Thus, monitoring point measurements may be required at less frequent intervals, and it may be possible to rely completely on antenna monitor indications for the maintenance of proper antenna current ratios, with the consequent elimination of the requirement for frequent base current observations.

11. We invite comments and reply comments on the standards set forth below and on other matters discussed herein.

12. Authority for the adoption of amendments of the rules of the nature proposed is contained in sections 4 (1) and (j) and 303 of the Communications Act of 1934, as amended.

13. Pursuant to applicable procedures set forth in § 1.415 of the Commission's rules, interested persons may file comments on or before May 7, 1973, and reply

comments on or before May 21, 1973. All relevant and timely comments and reply comments will be considered by the Commission before final action is taken in this proceeding. In reaching its decision in this proceeding, the Commission may also take into account other relevant information before it, in addition to the specific comments invited by this notice.

14. In accordance with the provisions of § 1.419 of the rules, an original and 14 copies of all comments, reply comments, pleadings, briefs and other documents shall be furnished the Commission. Copies of all pleadings filed in this proceeding are available for public inspection in the Public Reference Room at the Commission's headquarters in Washington, D.C. (1919 M St., NW.).

Adopted: February 21, 1973.

Released: February 26, 1973.

FEDERAL COMMUNICATIONS COMMISSION,

[SEAL] BEN F. WAPLE,  
Secretary.

### 1. Sampling lines:

a. All sampling lines shall be of equal total lengths with equal portions of the lines subject to the same environmental conditions.

b. All sampling lines shall have solid outer conductors with air/polyethylene dielectric so proportioned as to produce a minimum phase temperature coefficient.

c. All sampling lines shall have identical electrical characteristics.

d. Those portions of sampling lines between the towers and the transmitter house preferably should be buried. If run above ground, the lines shall be rigidly supported and positioned. Outer conductors shall be grounded at points necessary to insure that fields from the array will not induce error currents in the lines.

### 2. Sampling elements:

a. Sampling elements shall be single turn, untuned, unshielded loops of rigid construction, with ample gaps at the terminals, solidly supported by nonhygroscopic insulators.

b. Each sampling loop shall be oriented with the plane of the loop including the vertical centerline of the tower, and shall be rigidly mounted on the tower in this orientation. The center conductor of the transmission line shall be connected to the side of the loop nearest the tower.

c. All loops shall be of the same size and shape and of identical construction, and shall be located at the same height on each tower (if the towers are of equal height) at a point close to the current maximum in the tower, but in no case less than 10 feet above ground level.

## PROPOSED RULE MAKING

d. For a tower of less than one-fourth wavelength in height, current samples may be obtained from the transmission line, as close to the base of the tower as possible, by a current transformer or other coupling element.

[FR Doc.73-4008 Filed 3-1-73;8:45 am]

## SELECTIVE SERVICE SYSTEM

[32 CFR Parts 1604, 1613]

### REGISTRATION PROCEDURES

#### Disqualification and Jurisdiction

Pursuant to the Military Selective Service Act, as amended (50 U.S. Code App., sections 451 et seq.) and § 1604.1 of Selective Service Regulations (32 CFR 1604.1), the Director of Selective Service hereby gives public notice that consideration is being given to the following proposed amendments to the Selective Service Regulations constituting a portion of Chapter XVI of the Code of Federal Regulations. These Regulations implement the Military Selective Service Act, as amended (50 U.S. Code App., sections 451 et seq.).

All persons who desire to submit views to the Director on the proposals should prepare them in writing and forward them to the General Counsel, National Headquarters, Selective Service System, 1724 F Street NW., Washington, DC, 20435. Comments received on or before April 2, 1973, will be considered.

The proposed amendments follow:

#### PART 1604—SELECTIVE SERVICE OFFICERS

Section 1604.25 is amended to read as follows:

##### § 1604.25 Disqualification.

(a) No appeal board shall act on the case of a registrant who is a member or the first cousin or closer relation, either by blood, marriage, or adoption, or who is an employer, employee, or fellow employee, or stands in the relationship of superior or subordinate in connection with any employment, or is a partner or close business associate of a member or employee of the appeal board.

(b) A member of a local board may disqualify himself in any matter in which he would be restricted in making an impartial decision by his family, business, or social relationship with the registrant or any member of the registrant's family.

(c) Whenever because of the provisions of paragraph (a) of this section or action taken pursuant to paragraph (b) of this section, an appeal board cannot act on the case of a registrant, and there is no panel of the appeal board to which the case may be transferred, the appeal board shall transmit such case to the State Director of Selective Service for transfer to another appeal board.

Section 1604.55 is amended to read as follows:

##### § 1604.55 Disqualification.

(a) No local board shall act on the case of a registrant who is a member or the first cousin or closer relation, either by blood, marriage, or adoption, or who is a fellow employee or employer, or stands in the relation of superior or subordinate in connection with any employment, or is a partner or close business associate of a member or employee of the board.

(b) A member of a local board may disqualify himself in any matter in which he would be restricted in making an impartial decision by his family, business or social relationship with the registrant or any member of the registrant's family.

(c) Whenever because of the provisions of paragraph (a) of this section or action taken pursuant to paragraph (b) of this section, a local board cannot act on the case of a registrant, the local board shall request the State Director of Selective Service to designate another local board to which the registrant shall be transferred for action on his case.

#### PART 1613—REGISTRATION PROCEDURES

Section 1613.2 *Local board of jurisdiction*, is amended to read as follows:

##### § 1613.2 Local board of jurisdiction.

The local board having jurisdiction over the place of residence of the registrant entered on the Registration Card (SSS Form 1) at the time of initial registration shall always have jurisdiction over the registrant, unless otherwise directed by the Director of Selective Service.

BYRON V. PEPITONE,  
Acting Director.

FEBRUARY 26, 1973.

[FR Doc.73-3969 Filed 3-1-73;8:45 am]

## Notices

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

### DEPARTMENT OF THE INTERIOR Bureau of Land Management LAKE STATES PROJECT OFFICE Notice of Change of Address

The Lake States Project Office, Bureau of Land Management, 405 East Superior Street, Duluth, MN 55802, will move to the Federal Building, 515 West First Street. The Project Office will be open for business on February 21, 1973, in its new headquarters. The mailing address will be 125 Federal Building, Duluth, MN 55802.

Approved: EDWIN ZAIDLICZ,  
State Director.

### SIMULTANEOUS OIL AND GAS LEASE FILINGS Revised Drawing Entry Card Required

FR Doc. 73-1116 published at 38 FR 1750 provided for the use of a revised drawing entry card (Form 3112-1) for simultaneous oil and gas lease filings beginning March 19, 1973. In view of the printing and distribution problems which have developed participants may use either the new revised entry card or the old blue card (Form 3120-20) for the March filings. The Blue card may not be used after the March 19, 1973, filings.

GEORGE L. TURCOTT,  
Associate Director.

MARCH 1, 1973.  
[FR Doc.73-4154 Filed 3-1-73; 9:20 am]

### DEPARTMENT OF AGRICULTURE Soil Conservation Service BAKER LAKE WATERSHED PROJECT, MONT. Availability of Draft Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Soil Conservation Service, U.S. Department of Agriculture, has prepared a draft environmental statement for the Baker Lake Watershed Project, Fallon County, Mont., USDA-SCS-ES-WS-ADM-73-30(D).

The environmental statement concerns a plan for watershed protection and flood prevention. The planned works of improvement include conservation land treatment and a floodwater retarding structure.

This draft environmental statement was transmitted to CEQ on February 23, 1973.

Copies are available during regular working hours at the following locations:

Soil Conservation Service, USDA, South Agriculture Building, Room 5227, 14th and Independence Avenue SW., Washington, D.C. 20250.  
Soil Conservation Service, USDA, Room 474, Federal Building, Bozeman, Mont. 59715.

Copies are also available from the National Technical Information Service, U.S. Department of Commerce, Springfield, Va. 22151. Please use name and number of statement above when ordering. The estimated cost is \$3.50.

Copies of the draft environmental statement have been sent for comment to various Federal, State, and local agencies as outlined in the Council on Environmental Quality Guidelines. Comments are also invited from others having knowledge of or special expertise on environmental impacts.

Comments concerning the proposed action or requests for additional information should be addressed to A. B. Linford, State Conservationist, Soil Conservation Service, Post Office Box 970, Bozeman, MT 59715.

Comments must be received within 60 days of the date the statement was transmitted to CEQ in order to be considered in the preparation of the final environmental statement.

Dated: February 26, 1973.

WILLIAM B. DAVEY,  
Deputy Administrator for  
Watersheds, Soil Conservation Service.

[FR Doc.73-4025 Filed 3-1-73; 8:45 am]

### DEPARTMENT OF COMMERCE Maritime Administration [Docket No. S-330] RYE MARINE CORP. Notice of Application

Notice is hereby given that application has been filed under the Merchant Marine Act, 1936, as amended, for operating-differential subsidy with respect to bulk cargo carrying service in the U.S. foreign trade, principally between the United States and the Union of Soviet Socialist Republics, to expire on June 30, 1973 (unless extended only for subsidized voyages in progress on that date). Inasmuch as the below-listed applicant, and/or related persons or firms, employ ships in the domestic intercoastal or coastwise service, written permission of the Maritime Administration under section 805(a) of the Merchant Marine Act, 1936, as amended, will be required for each such applicant if its application for operating-differential subsidy is granted.

The following applicant has requested permission involving the domestic intercoastal or coastwise services described below:

Name of applicant: Rye Marine Corp.  
Description of domestic service and vessels. The applicant, Rye Marine Corp., owns the tanker *Thetis*, and has requested written permission for Rye Marine Corp. and affiliated companies to engage in the domestic service as well as the right to move any vessel from one domestic trade to another, and/or from a foreign trade(s) to a domestic trade(s).

Written permission is now required by Rye Marine Corp., notwithstanding that a voyage in the proposed service for which subsidy is sought would not be eligible for subsidy if the vessel carried domestic commerce of the United States on that voyage.

Interested parties may inspect this application in the Office of the Secretary, Maritime Administration, Department of Commerce Building, 14th and E Streets NW., Washington, D.C. 20235.

Any person, firm, or corporation having any interest (within the meaning of section 805(a)) in any application and desiring to be heard on issues pertinent to section 805(a) or desiring to submit comments or views concerning the application must, by close of business on March 13, 1973, file same with the Maritime Administration, in writing, in triplicate, together with petition for leave to intervene which shall state clearly and concisely the grounds of interest, and the alleged facts relied on for relief.

If no petitions for leave to intervene are received within the specified time or if it is determined that petitions filed do not demonstrate sufficient interest to warrant a hearing, the Maritime Administration will take such action as may be deemed appropriate.

In the event petitions regarding the relevant section 805(a) issues are received from parties with standing to be heard, a hearing has been tentatively scheduled for March 19, 1973, in Room 4898, Department of Commerce Building, 14th and E Streets NW., Washington, D.C. 20235. The purpose of the hearing will be to receive evidence under section 805(a) relative to whether the proposed operation (a) could result in unfair competition to any person, firm, or corporation operating exclusively in the coastwise or intercoastal services, or (b) would be prejudicial to the objects and policy of the Act.

By order of the Maritime Administration.

Dated: February 27, 1973.

AARON SILVERMAN,  
Assistant Secretary.  
[FR Doc.73-4035 Filed 3-1-73; 8:45 am]

[Docket No. S-331]

### RYE MARINE CORP. Notice of Application

Notice is hereby given that Rye Marine Corp. has filed an application for an operating-differential subsidy contract to carry bulk cargoes to expire on June 30, 1973 (unless extended only for a subsidized voyage in progress on that date). The bulk cargo carrying vessel proposed to be subsidized, and the trade in which it proposes to engage is presented below:

Applicant's name and address	Type of ship	Name of ship
Rye Marine Corp., One World Trade Center, Suite 2023, New York, N.Y. 10048.	Tanker....	S/T Thetis.

The application may be inspected in the Office of the Secretary, Maritime Subsidy Board, Maritime Administration, U.S. Department of Commerce, Washington, D.C., during regular working hours.

The vessel is to engage in the carriage of export bulk raw and processed agricultural commodities in the foreign commerce of the United States (U.S.) from ports in the United States to ports in the Union of Soviet Socialist Republics (U.S.S.R.), or other permissible ports of discharge. Liquid and dry bulk cargoes may be carried from U.S.S.R. and other foreign ports inbound to U.S. ports during voyages subsidized for carriage of export bulk raw and processed agricultural commodities to the U.S.S.R.

Full details concerning the U.S.-U.S.S.R. export bulk raw and processed agricultural commodities subsidy program, including terms, conditions, and restrictions upon both the subsidized operators and vessels, appear in the regulations published in the FEDERAL REGISTER on November 16, 1972 (37 FR 24349).

For purposes of section 605(c), Merchant Marine Act, 1936, as amended (Act), it should be assumed that the *ST Thetis* will engage in the trades described on a full-time basis through June 30, 1973 (with extension to termination of any approved subsidized voyage in progress on that date). Each voyage must be approved for subsidy before commencement of the voyage. The Maritime Subsidy Board (Board) will act on each request for a subsidized voyage as an administrative matter under the terms of the operating-differential subsidy contract for which there is no requirement for further notices under section 605(c) of the Act.

Any person having an interest in the granting of such application and who would contest a finding of the Board that the service now provided by vessels of U.S. registry for the carriage of cargoes as previously specified is inadequate, must, on or before March 13, 1973, notify the Board's Secretary, in writing, of his interest and of his position, and file a petition for leave to intervene in accordance with the Board's rules of practice and procedure (46 CFR Part 201). Each such statement of interest

## NOTICES

and petition to intervene shall state whether a hearing is requested under section 605(c) of the Act and with as much specificity as possible the facts that the intervenor would undertake to prove at such hearing.

In the event a hearing under section 605(c) of the Act is ordered to be held with respect to the application, the purpose of such hearing will be to receive evidence relevant to (1) whether the application hereinabove described is one with respect to the vessel to be operated in an essential service, served by citizens of the U.S. which would be in addition to the existing service, or services, and if so, whether the service already provided by vessels of U.S. registry is inadequate and (2) whether in the accomplishment of the purposes and policy of the Act an additional vessel should be operated thereon.

If no request for hearing and petition for leave to intervene is received within the specified time, or if the Board determines that petitions for leave to intervene filed within the specified time do not demonstrate sufficient interest to warrant a hearing, the Board will take such action as may be deemed appropriate.

Dated: February 27, 1973.

By order of the Maritime Subsidy Board.

AARON SILVERMAN,  
Assistant Secretary.  
[FR Doc.73-4036 Filed 3-1-73; 8:45 am]

[Supplement 2]

### U.S.S.R.-FLAG VESSELS ARRIVING AT CUBAN AND NORTH VIETNAM PORTS Supplement to List

The Maritime Administration is making available Supplement No. 2 to the "List of U.S.S.R.-Flag Vessels Arriving at Cuban and North Vietnam Ports," as published in the FEDERAL REGISTER (38 FR 3417) to all interested parties, in keeping with the provisions of a memorandum on U.S. port procedures and other matters (referred to in a letter dated October 14, 1972, from the Secretary of Commerce to the Minister of Merchant Marine of the Union of Soviet Socialist Republics, in connection with the agreement signed that same date between the Government of the United States and the Government of the Union of Soviet Socialist Republics concerning certain maritime matters). This supplement includes new vessels arriving in Cuban ports through December 1972, certain additional vessels not previously included and some new name translations of vessels previously included.

Supplement No. 2 to the "List of U.S.S.R.-Flag Vessels Arriving at Cuban and North Vietnam Ports" during the periods specified by types of vessels: (1) Freighters, (2) tankers, (3) refrigerated, (4) bulk carrier, (5) combination passenger and cargo, (6) ore carrier, (7) LPG tankers, (8) colliers, and (9) timber carriers.

### National Oceanic and Atmospheric Administration [Docket No. B-555]

### CHARLES W. CARPENTER Notice of Loan Application FEBRUARY 26, 1973.

Charles W. Carpenter, 9 Earles Court Road, Narragansett, R.I. 02882, has applied for a loan from the Fisheries Loan Fund to aid in financing the purchase of a used wood vessel, about 49.6 feet in length, to engage in fishery for lobsters.

Notice is hereby given, pursuant to the provisions of 16 U.S.C. 742c, Fisheries Loan Fund Procedures (50 CFR Part 250, as revised), and Reorganization Plan No. 4 of 1970, that the above-entitled application is being considered by the National Marine Fisheries Service, National Oceanic and Atmospheric Administration, Department of Commerce, Washington, D.C. 20235. Any person desiring to submit evidence that the contemplated operation of such vessel will cause economic hardship or injury to efficient vessel operators already operating in that fishery must submit such evidence in writing to the Director, National Marine Fisheries Service, on or before April 2, 1973. If such evidence is received it will be evaluated along with such other evidence as may be available before making a determination that the contemplated operation of the vessel will or will not cause such economic hardship or injury.

ROBERT W. SCHONING,  
Acting Director.

[Docket No. S-602]

**GEORGE F. WOOD****Notice of Loan Application**

FEBRUARY 26, 1973.

George F. Wood, 2730 34th Avenue South, Seattle, WA 98144, has applied for a loan from the Fisheries Loan Fund to aid in financing purchase of a used wood vessel, about 29 feet in length, to engage in the fishery for salmon and halibut in southeastern Alaska.

Notice is hereby given, pursuant to the provisions of 16 U.S.C. 742c, Fisheries Loan Fund Procedures (50 CFR Part 250, as revised), and Reorganization Plan No. 4 of 1970, that the above-entitled application is being considered by the National Marine Fisheries Service, National Oceanic and Atmospheric Administration, Department of Commerce, Washington, D.C. 20235. Any person desiring to submit evidence that the contemplated operation of such vessel will cause economic hardship or injury to efficient vessel operators already operating in that fishery must submit such evidence in writing to the Director, National Marine Fisheries Service, on or before April 2, 1973. If such evidence is received it will be evaluated along with such other evidence as may be available before making a determination that the contemplated operation of the vessel will or will not cause such economic hardship or injury.

ROBERT W. SCHONING,  
Acting Director.

**Office of Import Programs****U.S. PRODUCTION OF SOLUBLE COFFEE  
Solicitation of Certified Information**

In accordance with paragraph (d) of the Agreement Concerning Brazilian Exports of Soluble Coffee to the United States dated April 2, 1971 (TIAS 7118, 22 UST 654), the U.S. Government is soliciting information from U.S. manufacturers of soluble coffee about their domestic production of soluble coffee during calendar years 1971 and 1972. Under the agreement, the Brazilian Coffee Institute will allocate among U.S. manufacturers of soluble coffee the right to purchase specified quantities of green coffee free of the Brazilian export tax, on the basis of their average share of soluble coffee production in the United States for the 2 most recent years. U.S. manufacturers of soluble coffee wishing to share in the special allocation are requested to supply the following information for the calendar years 1971 and 1972, separately:

1. Pounds of green coffee roasted by the respondent for the production of soluble coffee in the United States.
2. Location of plant or plants at which the above coffee was roasted.

The accuracy of such information must be certified by an authorized officer of the respondent subject to the penalties provided in 18 U.S.C. 1001 for making any false statements or entries in any matter within the jurisdiction of any de-

**NOTICES**

partment or agency of the United States. Information so provided will be made available to the public for inspection and transmitted to the Government of Brazil as a basis for its allocations. In order that the information can be forwarded to the Government of Brazil as soon as possible, it must be received by certified mail no later than 15 working days from the date of publication of this notice in the FEDERAL REGISTER. Responses should be addressed to:

OIP 326, U.S. Department of Commerce,  
Washington, D.C. 20230, Attention: Coffee.

Dated: February 23, 1973.

B. BLANKENHEIMER,  
Acting Deputy Assistant Secretary,  
and Director, Bureau of  
Resources and Trade Assistance,  
Department of Commerce.

**DEPARTMENT OF HEALTH,  
EDUCATION, AND WELFARE****National Institutes of Health  
NATIONAL CANCER ADVISORY BOARD  
AD HOC ADVISORY COMMITTEE****Notice of Meeting**

Pursuant to Public Law 92-463, notice is hereby given of the meeting of the National Cancer Advisory Board ad hoc Advisory Committee for the Frederick Cancer Research Center (FCRC), March 2, 1973, at 9 a.m., Frederick Cancer Research Center, Fort Detrick, Frederick, Md., Conference Room, Building 426. This meeting will be open to the public from 9 a.m., March 2, 1973, to discuss certain programs at Frederick Cancer Research Center and closed to the public from 1 p.m., March 2, 1973, in accordance with the provisions set forth in section 10(d) of Public Law 92-463. Attendance by the public will be limited to space available.

Mr. Frank Karel, Associate Director for Public Affairs, NCI, Building 31, Room 10A31, National Institutes of Health, Bethesda, Md. 20014 (301-496-1911) will furnish summaries of the open/closed meeting and roster of committee members.

William W. Payne, Executive Secretary, Building 560, Room 11-82, Frederick Cancer Research Center, Fort Detrick, Frederick, Md. 21701 (301-663-7305) will provide substantive program information.

Dated: February 26, 1973.

JOHN F. SHERMAN,  
Acting Director,  
National Institutes of Health.

**Office of Education****LIBRARY TRAINING PROGRAM****Notice of Establishment of Closing Date for  
Receipt of Applications and/or Proposals for Grants**

Title II-B of the Higher Education Act of 1965 (Public Law 89-329, as amended)

and as further amended by the Education Amendments of 1972 (Public Law 92-318) authorizes the U.S. Commissioner of Education to make grants to institutions of higher education and library organizations or agencies to assist them in training persons in librarianship. Such grants may be used to assist in covering the costs of providing fellowships, institutes, and traineeships.

Notice is hereby given that March 23, 1973, is established as the closing date upon which applications and/or proposals for training in librarianship under title II-B for the academic year 1973-74 may be filed with and received by the U.S. Commissioner of Education.

Application forms, instructions, and other pertinent information will be sent to institutions which have previously participated in the program. Other institutions of higher education and library organizations or agencies desiring to participate in the program may obtain such application forms, instruction, and other information from the Bureau of Libraries and Learning Resources, U.S. Office of Education, Washington, D.C. 20202. Attention: Frank A. Stevens, Program Manager, Library Training and Resources Program.

Dated: February 26, 1973.

JOHN OTTINA,  
Acting U.S. Commissioner  
of Education.

**Office of the Secretary****FOOD AND DRUG ADMINISTRATION  
Statement of Organization, Functions, and  
Delegations of Authority; Amendment**

Part 6, (Food and Drug Administration) of the statement of organization, functions, and delegations of authority of the Department of Health, Education, and Welfare (35 FR 3685-92 dated February 25, 1970 as amended) is amended to reflect reorganization of the Bureau of Veterinary Medicine.

Section 6B is amended as follows:

**Sec. 6B Organization.**

(m) **Bureau of Veterinary Medicine.** Develops and recommends the veterinary medical policy of the Food and Drug Administration with respect to the safety and efficacy of veterinary preparations and devices. Evaluates proposed use of veterinary preparations for animal safety and efficacy.

Coordinates the veterinary medical aspects of the FDA inspection and investigational programs and provides veterinary medical opinion in drug hearings and court cases.

Plans, directs, and evaluates FDA's surveillance and compliance programs relating to veterinary drugs and other veterinary medical matters.

(m-1) **Immediate Office of the Director.** Directs overall Bureau activities and coordinates policy establishment in the areas of research, management, compliance, and surveillance.

Provides leadership and executive direction for all Bureau activities.

(m-2) **Office of the Assistant Director for Management.** Plans, evaluates, and provides systems for planning, programming, and budgeting, as well as general administrative support for the Bureau, including financial, personnel, facilities, and equipment management services. Identifies Bureau operational goals and develops program management and control systems for monitoring and evaluating program achievements. Provides systems analysis support for the maintenance and refinement of Bureau information and retrieval systems.

Plans and directs special Bureau projects and programs and coordinates the various Divisions' activities in support of special projects and programs.

(m-3) **Division of Veterinary Research.** Conducts studies to evaluate the validity of data supporting the safety and efficacy of veterinary drugs intended for the prevention or treatment of animal diseases. Conducts acute and chronic toxicity studies in large domestic animals following reports of animal feeds contamination, such as heavy metals, weed seeds, pesticides, etc.

Studies the therapeutic properties of specific products and substances and the experimental reproduction of various disease conditions. Cooperates with other components of FDA in the development of actual evidence based on animal experimentation to support legal action under the Federal Food, Drug, and Cosmetic Act.

Directs research to develop methods for studying the effects of therapeutic agents and various disease conditions.

Conducts experiments to develop information regarding food additive problems arising from the use of drugs in veterinary medicine. Maintains colonies of laboratory animals for experimental tests and studies.

(m-4) **Division of New Animal Drugs.** Evaluates for animal safety and efficacy proposed new therapeutic, reproductive, and prophylactic veterinary preparations. Reviews the use of such preparations in veterinary medical practice to determine the effects on animals (If the preparation is administered to food-producing animals, the use of the product is evaluated as it relates to safety in humans.)

Evaluates proposed labels to assure that they clearly indicate the use and limitations of the product.

Evaluates manufacturing facilities and procedures as described in the application to assure that such controls are adequate.

Recommends action to be taken on proposed new therapeutic, reproductive, and prophylactic veterinary preparations submitted for FDA review.

Determines data required to establish safety and efficacy and provides such information to investigators and manufacturers.

Recommends research projects to be conducted by the Division of Veterinary Research to gain further information on new drugs.

**NOTICES**

(m-5) **Division of Veterinary Medical Review.** Conducts continuing surveillance and evaluation of veterinary preparations and devices for safety, efficacy, and reliability and recommends action to correct significant hazards or potential dangers.

Evaluates drug experience reports, establishment inspection information, advertising, and other clinical or research data bearing on marketed veterinary preparations.

Evaluates and recommends action on medicated feed applications for those preparations that have been approved for marketing.

Recommends or supports regulatory and research activity.

Prepares veterinary medical reports for the U.S. Postal Service in support of postal laws and regulations.

Develops and carries out programs designed to encourage compliance by industry on a voluntary basis.

(m-6) **Division of Compliance.** Advises the Bureau Director and other FDA officials on problems concerning FDA's regulatory responsibilities for new animal drugs.

Directs, designs, and monitors studies necessary to determine medical policy and to support regulatory action on violative animal drugs.

Develops compliance and surveillance programs covering regulated industries in animal drugs and related areas.

Develops or coordinates the development of regulations and other standards for animal drug industry practices and fosters development of good manufacturing practices.

Provides support and guidance upon request to the Field/District Offices in the handling of legal actions and provides headquarters case development, coordination, and contested case assistance.

Develops and coordinates studies to measure degree of compliance by regulated industries with statutes and regulations enforced by the Bureau. Monitors and evaluates professional journal advertising, and promotional and related labeling to determine veracity of claims.

(m-7) **Division of Nutritional Sciences.** Evaluates for animal safety and efficacy proposed new nutritional drug substances, and other nondrug substances relating to feed efficiency and growth promotion. Reviews the use of such preparations in animal production and veterinary medical practice to determine the effect on animals. (If the preparation is administered to food-producing animals, the use of the product is also evaluated as it relates to safety in humans.)

Evaluates proposed labels to assure that they clearly indicate the use and limitations of the product.

Evaluates manufacturing facilities and procedures as described in the application to assure that such controls are adequate.

Recommends action to be taken on proposed new nutritional drug substances and other nondrug nutrient substances relating to feed efficiency and growth promotion submitted for FDA review.

Determines data required to establish safety and efficacy and provides such information to investigators and manufacturers.

Provides statistical evaluation of proposed scientific studies and of data collected by scientific studies.

Recommends research projects to gain further information on new nutritional drugs.

Dated: February 26, 1973.

WAYNE M. WILSON,  
Acting Deputy Assistant Secretary  
for Management.

[FR Doc. 73-4006 Filed 3-1-73; 8:45 am]

**Social Security Administration  
ADVISORY COMMITTEE ON MEDICARE  
ADMINISTRATION, CONTRACTING, AND  
SUBCONTRACTING****Notice of Public Meeting**

Notice is hereby given, pursuant to Public Law 92-463, that the Advisory Committee on Medicare Administration, Contracting, and Subcontracting, established pursuant to section 1114(f) of the Social Security Act, as amended, which advises the Secretary of Health, Education, and Welfare on Medicare matters, will meet on Friday, March 9, 1973, at 9 a.m., in Room 3131 of the Department of Health, Education, and Welfare, North Building, Third and C Streets, Washington, D.C. The meeting is open to the public. The Committee will consider matters relating to administration, contracting, and subcontracting.

Further information on the Committee may be obtained from Mr. Max Perlman, Executive Secretary of the Committee, Room 585, East Building, Social Security Administration, 6401 Security Boulevard, Baltimore, MD 21235, telephone 301-594-9134. Members of the public planning to attend should send written notice of intent to the Executive Secretary.

Dated: February 27, 1973.

MAX PERLMAN,  
Executive Secretary, Advisory  
Committee on Medicare Administration,  
Contracting, and Subcontracting.

[FR Doc. 73-4037 Filed 3-1-73; 8:45 am]

**ATOMIC ENERGY COMMISSION**

[Docket No. 50-312]

**SACRAMENTO MUNICIPAL UTILITY  
DISTRICT****Notice of Hearing on a Facility Operating License**

Pursuant to the Atomic Energy Act of 1954, as amended (the Act), and the regulations in Title 10, Code of Federal Regulations, Part 50, Licensing of Production and Utilization Facilities, and Part 2, Rules of Practice, notice is hereby given that a hearing will be held at a time and place to be set in the future by an Atomic Safety and Licensing Board, to begin in or in the vicinity of

Sacramento, Calif., to consider the application filed under section 104(b) of the Act by the Sacramento Municipal Utility District (Applicant) for a facility operating license which would authorize the operation of a pressurized water nuclear reactor (the Facility), identified as the Rancho Seco Nuclear Generating Station, Unit 1, at steady state power levels not to exceed 2,772 megawatts thermal, at the Applicant's site in Sacramento County, Calif. The hearing will be conducted by an Atomic Safety and Licensing Board (Board) designated by the Chairman of the Atomic Safety and Licensing Board Panel, consisting of John B. Farmakides, Esq., Chairman, Dr. Clark Goodman, member, and Dr. J. V. Leeds, member. Dr. Paul W. Purdom has been designated a technically qualified alternate, and Hugh K. Clark, Esq., has been designated as an alternate qualified in the conduct of administrative proceedings.

Construction of the facility was authorized by Construction Permit No. CPPR-56 issued by the Atomic Energy Commission (Commission) on October 11, 1968.

On October 18, 1972, a notice of consideration of issuance of facility operating license and notice of opportunity for hearing in the above matter appeared in the FEDERAL REGISTER (37 FR 22012). The notice advised that, within 30 days from the date of publication, "any person whose interest may be affected by this proceeding may file a petition for leave to intervene with respect to the issuance of the facility operating license."

As set forth in a memorandum and order on this matter dated February 23, 1973, the Atomic Safety and Licensing Board designated to rule on petitions has determined that the petition filed by Dick Gregory, et al., satisfies the requirements of the Commission's regulations and that a hearing will be held.

A prehearing conference, or conferences, will be held by the Licensing Board, at date(s) and place(s) to be set by it, to consider pertinent matters, including specification of the issues to be considered at the evidentiary hearing, in accordance with the Commission's rules of practice 10 CFR Part 2. Notices as to the dates and places of the prehearing conference(s) and the evidentiary hearing will be published in the FEDERAL REGISTER.

The instant facility is subject to the provisions of section C.3. of Appendix D to 10 CFR Part 50, which sets forth procedures applicable to review of environmental considerations for production and utilization facilities for which construction permits were issued prior to January 1, 1970.

Depending on the resolution of the issues specified by the Licensing Board, authorization for issuance of the operating license may be granted or denied, or the license may be authorized as appropriately conditioned. An operating license would be issued only after appropriate findings are made by the Director of Regulation on the matters set forth below which are not embraced by the Board's decision (and upon compli-

ance with the applicable provisions of Appendix D to 10 CFR Part 50 dealt with above):

1. Whether construction of the facility has been substantially completed in conformity with the construction permit and the application, as amended, the provisions of the Act, and the rules and regulations of the Commission.

2. Whether the facility will operate in conformity with the application, as amended, the provisions of the Act, and the rules and regulations of the Commission.

3. Whether there is reasonable assurance (i) that the activities authorized by the operating license can be conducted without endangering the health and safety of the public, and (ii) that such activities will be conducted in compliance with the regulations of the Commission.

4. Whether the applicant is technically and financially qualified to engage in the activities authorized by the operating license in accordance with the regulations of the Commission.

5. Whether the applicable provisions of 10 CFR Part 150, Financial Protection Requirements and Indemnity Agreements, of the Commission's regulations have been satisfied.

6. Whether the issuance of the license will be inimical to the common defense and security or to the health and safety of the public.

Any person who wishes to make an oral or written statement in this proceeding but who has not filed a petition for leave to intervene as noted above, may request permission to make a limited appearance pursuant to the provisions of 10 CFR 2.715 of the Commission's rules of practice. Limited appearances will be permitted at the time of the hearing in the discretion of the Licensing Board, within such limits and on such conditions as may be fixed by it.

Persons desiring to make a limited appearance are requested to inform the Secretary of the Commission, U.S. Atomic Energy Commission, Washington, D.C. 20545, on or before April 2, 1973. A person permitted to make a limited appearance does not become a party, but may state his position and raise questions which he would like to have answered to the extent that the questions are within the scope of the hearing. A member of the public does not have the right to participate unless he has been granted the right to intervene as a party or the right of limited appearance.

An answer to this notice, pursuant to the provisions of 10 CFR 2.705 of the Commission's rules of practice, must be filed by the parties to this proceeding (other than the regulatory staff) on or before March 21, 1973.

Papers required to be filed in this proceeding may be filed by mail or telegram addressed to the Secretary of the Commission, U.S. Atomic Energy Commission, Washington, D.C. 20545. Attention: Chief, Public Proceedings Staff, or may be filed by delivery to the Commission's Public Document Room, 1717 H Street NW., Washington, DC.

For further details pertinent to the matters under consideration, see the application for the facility operating license dated April 4, 1971, as amended, the Applicant's Environmental Report dated May 18, 1971, and supplements thereto, and the Commission's draft detailed statement on environmental considerations pursuant to 10 CFR Part 50 dated October 1972, which are available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, DC and at the Sacramento City County Library, 828 I Street, Sacramento, CA 95814. As they become available, the following documents also will be available at the above locations:

(1) The safety evaluation prepared by the Directorate of Licensing; (2) the Commission's final detailed statement on environmental considerations; (3) the report of the Advisory Committee on Reactor Safeguards on the application for facility operating licenses; (4) the proposed facility operating licenses; and (5) the proposed technical specifications, which will be attached to the proposed facility operating licenses. To the extent of supply, copies of items (1), (2), (3), and (4) will be furnished upon request to Deputy Director for Reactor Projects, Directorate of Licensing, U.S. Atomic Energy Commission, Washington, D.C. 20545.

Pending further order of the Licensing Board, parties are required to file pursuant to the provisions of 10 CFR 2.708 of the Commission's rules of practice, an original and 20 conformed copies of each such paper with the Commission. It is so ordered.

Issued at Washington, D.C., this 23d day of February 1973.

THE ATOMIC SAFETY AND LICENSING BOARD,  
ELIZABETH S. BOWERS,  
Chairman.

#### ALLEGHENY AIRLINES, INC.

Poughkeepsie Deletion Application;  
Postponement of Prehearing Conference  
Counsel for the Bureau of Operating Rights has requested a 1-week postpone-

ment of the prehearing conference and the dates now set for submission of pre-conference materials in the above-captioned proceeding because of a conflict in procedural dates. Bureau Counsel advises that Allegheny Airlines, the Dutchess County Department of Aviation (Poughkeepsie), and the New York State Department of Transportation have been contacted and do not object to the proposed extension of dates.

Accordingly, notice is hereby given that the prehearing conference now scheduled for March 20, 1973 (38 FR 4685, February 20, 1973), is hereby postponed to March 27, 1973, at 10 a.m. (local time), in Room 911, Universal Building, 1825 Connecticut Avenue NW., Washington, D.C., before the undersigned Administrative Law Judge. The Bureau of Operating Rights will circulate its preconference material on, or before, March 13, 1973, and the other parties on, or before, March 20, 1973.

Dated at Washington, D.C., February 26, 1973.

[SEAL] ALEXANDER N. ARGERAKIS,  
Administrative Law Judge.

#### AIR TRAFFIC CONFERENCE OF AMERICA

##### Notice of Proposed Approval

Notice is hereby given that the undersigned intends to issue the attached order under delegated authority pursuant to section 412(a) of the Federal Aviation Act of 1958, as amended. Interested persons are hereby afforded a period of 15 days from the date of this notice within which to file comments with respect to the action contemplated in the proposed order.

Dated at Washington, D.C., February 27, 1973.

A. M. ANDREWS,  
Director,  
Bureau of Operating Rights.

##### ORDER APPROVING AGREEMENT

The Air Traffic Conference of America (ATC), on behalf of its air carrier members, has filed with the Board under sec-

tion 412 of the Federal Aviation Act of 1958, as amended (the Act), an agreement (Agreement CAB 5044-A146) proposing changes in the Air Traffic Conference Agency Resolution and the Air Traffic Conference Sales Agency Agreement.

The Agreement deals, in part, with the expansion of the definition of the term "authorized agency location" as set forth in section I of the ATC Agency Resolution, and such part of the Agreement is intended to become effective after approval by the Civil Aeronautics Board.

At the present time, the term "authorized agency location" is defined as: "A place of business operated by an agent, which place of business is included on the ATC Agency List." While the foregoing language is retained in the revised definition of authorized agency location,<sup>2</sup> such definition is expanded to indicate that such agency location will be the home office if it owns and operates "additional authorized agency locations" as branches of that entity. In turn, the term "additional authorized agency location" is described, in part, as a branch office location included on the Agency List, wholly owned and operated as an integral part of the home office, and performing much of the same promotion and sales functions as the home office—including, for example, the making of reservations and the issuance of tickets. The Agreement indicates that the corporate structure or ownership of the home and branch offices must be absolute and all inclusive as a single entity, and the former must have legal and financial responsibility for, inter alia, the administration and the liability of the latter.

No comments concerning the above-described portion of the agreement have been received.

The proposed amendment to the definition of the term "authorized agency location" appears to provide added meaning and continuity to such term as it appears from time to time throughout the Agency Resolution and the Sales Agency Agreement. Furthermore, the inclusion of a definition of the term "additional authorized agency location" not only gives specific meaning to that term as it is used in the Agency Resolution but also eliminates any previous ambiguity as to what might have constituted such a location.<sup>3</sup> Thus, the air carrier members of ATC have indicated that additional authorized agency locations must be closely related to the home office with regard to both structure and responsibility. This action appears in accord with several provisions in the

<sup>1</sup> Other provisions of the Agreement dealing with various agency matters are being separately considered.

<sup>2</sup> The revised version is set forth in the appendix hereto.

<sup>3</sup> It is noted that the ATC Agency List currently specifies whether a particular location is a home or branch office. Thus, the Agreement also gives added meaning to these designations as used in the Agency List.

Agency Resolution concerning additional locations.

In light of the foregoing, it is concluded that it would be in the public interest to approve that portion of the Agreement discussed herein, subject to the proviso hereinafter stated.

Pursuant to authority duly delegated by the Board in the Board's regulations, 14 CFR 385.13, it is not found that the particular provision of the Agreement discussed herein is adverse to the public interest or in violation of the Act.

Accordingly, it is ordered that:

The portion of Agreement CAB 5044-A146 amending section I of ATC Resolution 80.10 (Air Traffic Conference Agency Resolution) be and it hereby is approved.

Persons entitled to petition the Board for review of this order pursuant to the Board's regulations, 14 CFR 385.50, may file such petitions within 10 days from the date of this order.

This order shall be effective and become the action of the Civil Aeronautics Board upon expiration of the above period unless within such period a petition for review thereof is filed, or the Board gives notice that it will review this order on its own motion.

[SEAL] PHYLLIS T. KAYLOR,  
Acting Secretary.

#### APPENDIX

AMENDMENT TO AGREEMENT CAB 5044,  
AIR TRAFFIC

#### CONFERENCE AGENCY RESOLUTION

I. Section I.E., Resolution 80.10, is amended to read:

The term "authorized agency location" means a place of business operated by an agent, which place of business is included on the ATC Agency List. Such location will be the home office if it owns and operates "additional authorized agency locations" as branches of that entity. The term "additional authorized agency location" means a "branch office" location included on the ATC Agency List which is wholly owned and operated as an integral part of the home office and which performs substantially the same promotion and sales functions as the home office, which shall include, but not be limited to the following:

"There is currently before the Board, Docket 24896, an agreement (Agreement CAB 5044-A154) which, inter alia, proposes to amend the definition of the term Agent for the purposes of section VII (Defaults, Late Remittances, and Financial Irregularities by Agents) of the ATC Agency Resolution. According to ATC, under the proposal a late remittance charged to any specific agency location in the corporate family would become a late remittance charge against all agency locations in the corporate family—with the possible suspension of all such locations in the event of four late remittances; also, in the event of a financial irregularity by an agency location, ticket stock would be withdrawn not only from the particular agency location but from all other agency locations in the corporate family.

It is not apparent that Agreement CAB 5044-A154 and the instant agreement (CAB 5044-A146) are interrelated. However, to the extent that there is a relationship between the two agreements, it is to be noted that our action herein is not dispositive of any of the issues raised by CAB 5044-A154.

- (1) Quoting fares, rates, and/or schedules.
- (2) Making reservations.
- (3) Accepting payment for travel.
- (4) Arranging for delivery of tickets or other transportation documents.
- (5) Assisting clients with other travel arrangements.
- (6) Arranging for the issuance of ticket or other travel documents.
- (7) Issuing tickets or other travel documents.

The corporate structure or ownership of the home office and branch(es) must be absolute and all inclusive as a single entity and the home office shall have full legal and financial responsibility for the administration, staff, liability, maintenance, and operational expense of the branch office location.

#### COST OF LIVING COUNCIL FOOD ADVISORY COMMITTEE Notice of Meetings

Pursuant to the provisions of the Federal Advisory Committee Act (Public Law 92-463, 86 Stat. 770) notice is hereby given that the Food Advisory Committee created by section 7(b) Executive Order 11695 will meet—

- (1) At 9:30 a.m., Tuesday, March 6, 1973, in the main Conference Room of the Cost of Living Council, 7th Floor, 2000 M Street NW., Washington, DC; and
- (2) At 9:30 a.m., Monday, March 19, 1973, at 5725 East River Road, Chicago, IL.

The purpose of the meetings is to provide advice to the Cost of Living Council on the operation of the Economic Stabilization Program in the food industry and other matters related to food costs and prices.

The Director of the Cost of Living Council has determined that the meetings will consist of exchanges of opinions, that the discussions, if written, would fall within exemption (5) of 5 U.S.C. 552(b) and that it is essential to close the meetings to protect the free exchange of internal views and to avoid interference with the operation of the Committee.

Issued in Washington, D.C., on February 26, 1973.

JAMES W. McLANE,  
Deputy Director,  
Cost of Living Council.

[FR Doc.73-3974 Filed 3-1-73; 8:45 am]

#### CIVIL SERVICE COMMISSION NATIONAL ADVISORY BOARD OF THE FEDERAL EXECUTIVE INSTITUTE Notice of Open Meeting

Pursuant to the provisions of section 10 of Public Law 92-463, effective January 5, 1973, notice is hereby given that the National Advisory Board of the Federal Executive Institute will hold an open meeting on March 16, 1973. The meeting will be in Reception Room 5H09, Conference Room 5A06A, U.S. Civil Service Commission Building, 1900 E Street NW., Washington, DC, beginning at 9:30 a.m. and ending at approximately 4 p.m.

The following agenda items are scheduled for discussion:

1. Report on Activities of the Institute;
2. Curriculum of the Institute;
3. Leadership Succession at the Institute;
4. Report on Financing.

Further information may be obtained by writing Dr. Patrick J. Conklin, Associate Director, Federal Executive Institute, Route 29 North, Charlottesville, VA 22903, or by calling 703-296-1295.

[SEAL]

JAMES C. SPRY,  
Executive Assistant  
to the Commissioners.

[FR Doc.73-4033 Filed 3-1-73; 8:45 am]

#### COUNCIL ON ENVIRONMENTAL QUALITY ENVIRONMENTAL IMPACT STATEMENTS Notice of Public Availability

Environmental impact statements received by the Council from February 20 through February 23, 1973.

Note: At the head of the listing of statements received from each agency is the name of an individual who can answer questions regarding those statements.

##### DEPARTMENT OF AGRICULTURE

Contact: Dr. T. C. Byerly, Office of the Secretary, Washington, D.C. 20250, 202-447-7803.

##### FOREST SERVICE

Draft, February 8

Burning of Big Sagebrush, Mont. County: Several. The statement refers to the proposed prescribed burning of 1,800 acres of sagebrush-covered land annually, during fiscal years 1973-75, in order to improve the range resource on national forest lands. National forests included are Beaverhead, Gallatin, and Deerlodge. Counties affected are Beaverhead, Jefferson, Madison, Silver Bow, and Gallatin. Existing plant communities will be altered from a grassland dominated by sagebrush to a grassland interspersed with sagebrush. Short-term erosion, water alteration, and air pollution will occur. (77 pages) (ELR Order No. 00219) (NTIS Order No. EIS 73 0219-D)

##### ATOMIC ENERGY COMMISSION

Contact: For Nonregulatory matters: Mr. Robert J. Catlin, Director, Division of Environmental Affairs, Washington, D.C. 20545, 202-973-5391.

For regulatory matters: Mr. A. Giambusso, Deputy Director for Reactor Projects, Directorate of Licensing, Washington, D.C. 20545, 202-973-7373.

Final, February 20

Forked River Nuclear Station, New Jersey, County: Ocean. The statement refers to the proposed issuance of a construction permit to the Jersey Central Power & Light Co. for a 3,410 MWT, 1,093 MWe, pressurized water reactor near Forked River. Cooling water would be obtained from Barnegate Bay through a canal, and circulated through a counterflow natural draft cooling tower. Aquatic organisms will be adversely affected by thermal, chemical, and mechanical shock. (The interaction of the Forked River Station with the nearby Oyster Creek Station was considered in the statement's evaluation of environmental impact.) (258 pages) Comments made by: USDA, COE,

DOC, HEW, HUD, DOI, DOT, EPA, FPC, and State and local agencies. (ELR Order No. 00292) (NTIS Order No. EIS 73 0292-F)

##### DEPARTMENT OF COMMERCE

Contact: Dr. Sidney R. Gailer, Deputy Assistant Secretary for Environmental Affairs, Department of Commerce, Washington, D.C. 20230, 202-967-4335.

Draft, February 8

Airport/Riverfront Industrial Park, County: Douglas. The statement refers to the proposed construction of a 264-acre industrial park adjacent to the city of Omaha and Eppley Airfield. The project, a segment of the planned 58.47-mile development along the Missouri River which is known as the Riverfront Development Project, will include dredging, filling, and grading of the area and construction of a sewage system, a riverbank stabilization system, railroad lead tracks and roads, and related utility systems. The area will be sold in industrial/commercial blocks of from 3 to 20 acres. As a result of the project, open space of potential recreational use will be eliminated; dredging activities will cause turbidity. (102 pages) (ELR Order No. 00217) (NTIS Order No. EIS 73 0217-D)

##### DEPARTMENT OF DEFENSE

##### AIR FORCE

Contact: Colonel Cliff M. Whitehead, Room 5E 425, The Pentagon, Washington, D.C. 20330, 202-405-2889.

Draft, February 14

Pacific Cratering Experiments (PACE). The statement, a revised draft, refers to the proposed detonation of a series of high explosive chemical charges at the interface of selected islands of Eniwetok Atoll, Marshall Islands. The purpose of the testing is the approximation of the effects of nuclear bursts on hardened strategic systems. Craters will be caused by the blasts; chemical and/or radiochemical contaminants may enter the water. Those craters which are formed will be filled. (360 pages) (ELR Order No. 00263) (NTIS Order No. EIS 73 0263-D)

##### ARMY CORPS

Contact: Mr. Francis X. Kelly, Director, Office of Public Affairs, Attention: DAEN-PAP, Office of the Chief of Engineers, U.S. Army Corps of Engineers, 1000 Independence Avenue SW., Washington, DC 20314, 202-693-7168.

Draft, February 12

St. Francis Basin Project, Missouri-Arkansas. The statement refers to the completion of a flood control and drainage improvement project which is presently 41 percent complete. Features of the project include a reservoir in southeast Missouri and channel works, levees, control structures, and pumping stations. That portion of the project remaining includes 475 miles of channel works and the acquisition of 34,000 acres (including 11,000 acres of woodland). There will be adverse impact to wildlife communities and possible damage to historic and archeological resources. (41 pages) (ELR Order No. 00242) (NTIS Order No. EIS 73 0242-D)

Draft, February 13

Thimble Shoal Channel, Virginia. The statement refers to the proposed maintenance dredging of the Thimble Shoal Channel which is located in the lower portion of the Chesapeake Bay Mouth between Hampton Roads and the Atlantic Ocean. The existing project provides for a channel 60,000 feet long, 1,000 feet wide, and 45 feet deep at mean low water, with auxiliary channels 450 feet wide and 32 feet deep at mean low water adjoining each side of the 1,000-foot channel. Spoil will be deposited in the Dam Neck disposal area. Adverse effects include the loss of benthic organisms and temporary turbidity and siltation. (12 pages) (ELR Order No. 00254) (NTIS Order No. EIS 73 0254-D)

Draft, February 6

Vancouver Lake, Wash., County: Clark. The statement refers to the proposed construction of 21 miles of levee and pumping plants, in order to provide flood protection to 5,700 acres lying between Vancouver Lake and the Columbia River. Protection of the land will stimulate changes from agricultural to industrial uses. (49 pages) (ELR Order No. 00185) (NTIS Order No. EIS 73 0185-D)

Draft, February 20

Little Goose Lock and Dam, Wash., Counties: Whitman, Columbia, and Garfield. The statement refers to the proposed addition of three hydroelectric power generating units (totaling 405,000 kw.), at the existing project on mile 70.3 of the Snake River. The units would be used primarily for power peaking during periods of high power demand. The addition would increase the potential frequency of upstream and downstream fluctuations, with concurrent impact upon aquatic life. Of particular concern is the possible impact on anadromous fisheries. (75 pages) (ELR Order No. 00289) (NTIS Order No. EIS 73 0289-D)

##### ENVIRONMENTAL PROTECTION AGENCY

Contact: Mr. Sheldon Meyers, Director, Office of Federal Activities, Room 3630, Waterside Mall, Washington, D.C. 20460, 202-755-0940.

Final, February 20

Detroit Lakes, Minn., County: Becker. The statement considers the construction of sewage treatment works which will remove nutrient from wastes contributed to an existing secondary treatment plant by the population of Detroit Lakes and a Swift and Co. food processing plant. The action will prevent the eutrophication of Lake Sault. Lake St. Clair will be used as an effluent retention basin. (77 pages) Comments made by: USDA, COE, DOI, DOT, and State agencies. (ELR Order No. 00284) (NTIS Order No. EIS 73 0284-F)

##### FEDERAL POWER COMMISSION

Contact: Dr. Richard F. Hill, Acting Adviser on Environmental Quality, 441 G Street NW., Washington, DC 20426, 202-386-6084.

Draft, February 13

Cornell Hydro Project 2639, Wisconsin, County: Chippewa. The statement refers to an application filed by the Northern States Power Co. for the proposed redevelopment of the existing Cornell Hydro Project located on the Chippewa River. The applicant proposes to raise and

rebuild the existing concrete intake and powerhouse structure; remove the existing powerhouse and replace it with a new powerhouse containing three generating units with a total installed capacity of 30,000 kw.; construct a new gated spillway; and construct a single circuit, overhead, 115 kv. transmission line (12,000 feet). (2 vols., 368 pages) (ELR Order No. 00245) (NTIS Order No. EIS 73 0245-D)

##### DEPARTMENT OF HUD

Contact: Mr. Richard H. Brown, Director, Environmental and Land Use Planning Division, Washington, D.C. 20410, 202-755-6186.

Draft, February 12

Alamo Plaza Urban Renewal Project, Colorado. The statement refers to a conventional urban renewal effort in Colorado Springs to remove substandard structures and dwelling units from a four-block area in order to make the land available for development. Blighted and substandard structures will be replaced with a public parking garage, 350,000 feet of commercial space, housing of a type to be determined by market studies, a motor hotel, housing for the elderly, and open space. Approximately 123 businesses, 28 families and 17 individuals will be relocated from 84 structures. (63 pages) (ELR Order No. 00241) (NTIS Order No. EIS 73 0241-D)

Draft, February 20

Olympia Subdivision, Unit 1, Texas, County: Bexar. The statement refers to the proposed development of an 850-acre site, located approximately 2 miles northwest of Randolph Air Force Base, for residential purposes. The site will be developed in increments of 20 acres which will be subdivided into 80 single family residential lots. Houses on developed lots would sell for between \$24,000 and \$40,000. Possible adverse effects include noise pollution, flooding of natural creeks, and transformation of a wooded area into a residential-commercial development. (13 pages) (ELR Order No. 00290) (NTIS Order No. EIS 73 0290-D)

##### DEPARTMENT OF THE INTERIOR

Contact: Mr. Bruce Blanchard, Director, Environmental Project Review, Room 7260, Department of the Interior, Washington, D.C. 20240, 202-343-3891.

##### NATIONAL PARK SERVICE

Draft, February 20

Point Reyes National Seashore, Calif. The statement, a revised draft, proposes the legislative designation of 10,600 acres of the Point Reyes National Seashore as wilderness within the National Wilderness Preservation System. Various land and marine life systems will thereby be protected; there will be restrictions on certain consumptive types of visitor use. (47 pages) (ELR Order No. 00276) (NTIS Order No. EIS 73 0276-D)

Draft, February 13

Bandelier National Monument, New Mexico, Counties: Los Alamos and Sandoval. The statement refers to the proposed legislative designation of 21,110 acres of the monument as wilderness within the National Wilderness Preservation System. Management options for the monument will thereby be reduced. (83 pages) (ELR Order No. 00250) (NTIS Order No. EIS 73 0250-D)

The following statement was inadvertently left out of the FEDERAL REGISTER:

Draft, January 26

Nambe Falls Dam, N. Mex., County: Santa Fe. The statement refers to the construction of a concrete arch and earthen dam on the Rio Nambe. The resulting reservoir, which will be utilized for irrigation, will inundate 56 acres. The project is located on the Nambe Indian Reservation. (83 pages) Comments made by: USDA, EPA, FPC, HEW, DOI, HUD, OEO, DOT, DOD, State, local and regional agencies, and concerned citizens. (ELR Order No. 00137) (NTIS Order No. EIS 73 0137-D)

##### DEPARTMENT OF TRANSPORTATION

Contact: Mr. Martin Convisser, Director, Office of Environmental Quality, 400 Seventh Street SW., Washington, DC 20590, 202-466-4357.

##### FEDERAL AVIATION ADMINISTRATION

Draft, February 12

Pocahontas Municipal Airport, Arkansas. The statement refers to a project to construct, mark, and light a 60' x 356' N/S runway extension; construct and mark two turnaround taxiways; construct a portion of perimeter fence; install a rotating beacon; and construct and entrance road and service drive. Increases in noise and air pollution will occur. (31 pages) (ELR Order No. 00234) (NTIS Order No. EIS 73 0234-D)

Los Angeles International Airport, California. The proposed project is to provide an approach area including a clear zone for the north runway complex at Los Angeles International Airport. One hundred and fifty-six acres will be acquired for the approach area and clear zone. The project will displace 831 families, one commercial property, and an elementary school. (73 pages) (ELR Order No. 00237) (NTIS Order No. EIS 73 0237-D)

Draft, February 14

Lawrence Municipal Airport, Kansas, County: Douglas. The purpose of the Airport Site Selection Study contained in this statement is to inventory the present airport conditions, to explore the probable airport usage by 1990, to develop the general requirements to satisfy the estimated 1990 use demands, and to determine a feasible site on which to construct these facilities. Six potential sites, including the present site, are inspected and evaluated in the study. Adverse impacts include possible exposure of new areas to aircraft sound and emissions. (79 pages) (ELR Order No. 00261) (NTIS Order No. EIS 73 0261-D)

Draft, February 12

Greater Portsmouth Regional Airport, Ohio, County: Scioto. The proposed project is designed to extend existing N/S Runway 800' x 100' to the north, install runway end identifier lights, expand apron (approximately 4,096 square yards), construct taxiways and new T-hangars, install medium intensity taxiway lights on existing taxiway B, and install a visual approach slope indicator system. Adverse impacts will be increased air and noise pollution and loss of wildlife habitat. (44 pages) (ELR Order No. 00230) (NTIS Order No. EIS 73 0230-D)

**Final, February 20**  
**Las Animas County Airport, Colorado.**  
 County: Las Animas. The statement refers to the proposed construction of a runway extension (of 2500 feet) and the installation of VASI, fencing, seeding, power lines, and related facilities. Approximately 213.7 acres will be committed to the action. An increase in noise levels from jet aircraft will result. (36 pages) Comments made by: USDA, COE, EPA, HUD, and DOT. (ELR Order No. 00291) (NTIS Order No. EIS 73 0291-F)

FEDERAL HIGHWAY ADMINISTRATION

**Draft, February 14**  
**St. Joe Road, Indiana, County: Allen.** The proposed project involves the redesign of St. Joe Road, for a distance of 1.95 miles. One family will be displaced. A section 4(f) statement will be filed to obtain land from the Shoaff Park. Increases in noise and air pollution will occur. (28 pages) (ELR Order No. 00262) (NTIS Order No. EIS 73 0262-D)

**Draft, February 15**  
**U.S. 281 (Burlington Avenue) Nebraska.**  
 County: Adams. The statement refers to the proposed repaving and widening of a 0.85-mile section of Burlington Avenue (U.S. 281) beginning at Sixth Street and ending at 15th Street in Hastings. Included in the improvement are the reconstruction of Seventh Street and 12th Street for approximately two blocks east and west of Burlington Avenue. Adverse effects include adjustments to utilities and removal of 176 trees. (28 pages) (ELR Order No. 00269) (NTIS Order No. EIS 73 0269-D)

**Draft, February 20**  
**U.S. 17, 74, 76—Reconstruction North Carolina.**  
 County: Brunswick. The statement refers to the proposed construction of a four-lane, divided highway 1.76 miles long; a two-lane connector 1.03 miles long; a diamond interchange; and two bridges across the Brunswick River. The reconstruction project will extend from Alligator Creek to Belville. Adverse impacts include alteration of 48 acres of marsh and swamp forest that is optimum habitat for American Alligators (an endangered species) and other wildlife species; increased automotive emissions; deepening of the upper Brunswick River channel by dredging; displacement of 22 families and 13 businesses; and loss of juvenile marine species and benthic organisms through the dredge. (185 pages) (ELR Order No. 00287) (NTIS Order No. EIS 73 0287-D)

**Final, February 8**  
**FA Route 12 and 174, Illinois, County: Effingham.** The proposed project provides for the improvement of FA Routes 12 and 174 (U.S. Route 4 and Illinois Routes 32 and 33) from the Penn-Central Railroad to the north side of the I-57 and 70 interchange, a total length of 1.75 miles. Five acres will be committed to right-of-way. Adverse effects include increased noise and air pollution and disruption during construction. (35 pages) Comments made by: EPA, HEW, HUD, DOI, and DOT State and local agencies (ELR Order No. 00197) (NTIS Order No. EIS 73 0197-F)

U.S. COAST GUARD

**Draft, February 12**  
**Dredging Project, Santa Rosa Station, Florida.** The statement refers to the proposed dredging of the channel at the U.S. Coast Guard Station, Santa Rosa, located on the Pensacola Bay side of Santa Rosa Island. Dredged spoil will be

## NOTICES

deposited within retaining levees constructed along the eroded shoreline to restore the shoreline to its original condition. (3 pages) (ELR Order No. 00239) (NTIS Order No. EIS 73 0239-D)

TIMOTHY ATKESON,  
 General Counsel.

[FR Doc.73-3915 Filed 3-1-73;8:45 am]

## ENVIRONMENTAL PROTECTION AGENCY

### ADVISORY COMMITTEE ON THE REVISION AND APPLICATION OF DRINKING WATER STANDARDS

#### Notice of Meeting

Pursuant to Public Law 92-463, notice is hereby given that a meeting of the Advisory Committee on the Revision and Application of Drinking Water Standards will be held at 8:30 a.m., March 26, 27, 28, 1973, in Meeting Room No. 10, The Jung Hotel, 1500 Canal Street, New Orleans, LA.

This is the sixth meeting of this Committee. The agenda includes the approval of the minutes of the fifth meeting and review of the appendix to the draft of the 1973 Drinking Water Standards. The meeting will be open to the public. Any member of the public wishing to attend or participate in the meeting should contact Mr. William N. Long, Executive Secretary, Advisory Committee on the Revision and Application of Drinking Water Standards, 703-557-7390.

ROBERT W. FRI,  
 Acting Administrator.

FEBRUARY 26, 1973.

[FR Doc.73-3937 Filed 3-1-73;8:45 am]

## FEDERAL COMMUNICATIONS COMMISSION

### AMERICAN TELEPHONE & TELEGRAPH CO.

[Docket No. 19691; FCC 73-186]

#### Memorandum Opinion and Order Instituting Investigation

1. On November 13, 1972, revised tariff schedules were filed by A.T. & T. under Transmittal Letter No. 11610, dated November 13, 1972, to become effective February 15, 1973. These revised schedules apply to voice grade private line services which are not connected to the switched telephone networks, i.e. voice grade private line services not connected to local or toll central office lines or Wide Area Telephone Service (WATS) access lines (hereafter referred to as "unmixed" private line service).

2. More specifically, the revisions would permit the carrier to engage in certain new practices not now followed with respect to those cases where customers desire to provide their own customer-provided terminal equipment or communications systems and to connect such facilities by direct electrical connection to the voice grade private line facilities of the carrier. The new proposed practices are: Where such direct connections are made by the customers, the telephone company (a) will make

the necessary arrangements on the customer's premises to protect against "hazardous voltages" and the "harmful effects of longitudinal imbalance" and (b) will make the necessary arrangements either at its central offices or on the customer's premises to protect against "signal power overload."

3. At the present time, and for many years past, the practices of the A.T. & T. have been to permit such direct connections to unmixed private line services without any specific arrangements being made by the carrier to protect against hazardous voltages, longitudinal imbalance or signal power overload. The practices have been different, however, with respect to "mixed" voice grade private line services (i.e. private line services that are connected to the switched toll and exchange network). In mixed private line services the practices are the same as in all switched services, including interstate message toll and WATS services, that is, all customer-provided facilities are required to be connected through one or more carrier-provided protective couplers for which extra installation and monthly charges are imposed on the customer by the carrier. In these revised tariffs for unmixed private line services A.T. & T. proposes to make no extra charge to customers for the protective "arrangements."

4. A.T. & T.'s basic justification for the revised tariffs is that all of its services, whether private line or switched, share in the use of common facilities in varying degrees such as local distribution cable, carrier systems, main frames in the central offices, and switching equipment and that, accordingly, all of its services, whether switched or private line and whether mixed or unmixed, have the same need for protection from the types of harm referred to above, that is, from hazardous voltages, line imbalance, and signal overload.

5. These revised tariff schedules are significant modifications of tariff proposals that were originally filed by A.T. & T. in March 1969 which never became effective and which were withdrawn in November 1972 in favor of the instant proposal. As first filed, A.T. & T. proposed to require separate "couplers" or "interfaces" in all cases of direct connection of customer facilities to unmixed private lines and to charge the customer for such couplers which could be supplied only by the telephone company. Late, in June 1971, A.T. & T. modified its original proposal and filed tariffs proposing that protective arrangements would be built into the "service terminal" of its unmixed private line facilities and that no extra charges would be imposed by A.T. & T. "at that time" for such protective facilities. Many protests were lodged against this latter proposal and informal meetings were conducted by the Commission with interested parties to determine whether differences among the parties could be resolved. The principal objections were that (a) there was no need for such protective arrangements in the light of the historic omission

thereof in the past and the alleged failure of the carriers to demonstrate any serious likelihood of harm from such direct connection; (b) building such arrangements into the "service terminal" facilities would seriously degrade and limit the customer's use of the service; (c) such degradation limitations would be anticompetitive in that, among other things, it would mean that no such degradation and limitation would be imposed upon customers who obtain their terminal devices or systems from the carrier and the effect would be to promote the sale of A.T. & T. facilities; (d) requiring such protective facilities in all cases was an unwarranted and unlawful a priori assumption of harm from each and every item of customer-provided equipment; (e) no provision was made for such protective arrangements to be supplied by any source other than the carrier, and (f) customers ultimately would be required to pay extra charges for these protective arrangements and that the imposition of such charges for an entrenched program would further aggravate the anticompetitive features of the proposal. A.T. & T. deferred the effective date of this particular proposal at our request until November 1972 when, as heretofore stated, A.T. & T. filed the tariff revisions before us.

6. Three of the eight parties that filed objections to the June 1971 proposal of A.T. & T. have filed statements with us concerning the revision. The Computer Time Sharing Service Section (CTSS) of the Association of Data Processing Service Organizations (ADAPSO) and the Independent Data Communications Manufacturers Association, Inc. (IDCMA) have filed letters indicating in substance that the new revision reduces the burden on the customer who does not necessarily want or need to purchase equipment from A.T. & T. and that they will not oppose the revised tariff at this time. Both of these parties continue to express reservations about the need for the proposed protective arrangements and both state that the revised tariff is not a final solution to the alleged discrimination against users of nontelephone company equipment. Each indicates that the better solution is for technical criteria to be prescribed for such protective arrangements so that persons other than the telephone company may supply them, or that the carrier provide such protective arrangements in all of their private line services, irrespective of whether connected with telephone company or nontelephone company equipment, so that all customers would then be furnished the same circuit facilities by the carrier.

7. However, on February 1, 1973, MCI filed a Petition for Rejection or Suspension of the new revised tariff and this petition is now before us for action. MCI requests that we either reject or suspend the tariff filing, or failing either of these actions, to rule that:

(a) The new filing does not apply to the interconnection of the systems of specialized carriers with the private lines of A.T. & T.; and

(b) Nothing in the Commission's action is intended to immunize A.T. & T. from possible liability under the antitrust laws.

8. MCI makes these principal allegations against the new filing: (a) A.T. & T. has still not demonstrated any need for the proposed protective arrangements; (b) A.T. & T. has still not disclosed full information as to the nature of the devices so that others can manufacture them or obviate the claimed need for them; (c) A.T. & T. still would impair fair competition; (d) A.T. & T. has not adequately explained the costs of its devices nor has it justified its failure to charge for them or its proposal to spread all costs thereof among all users; (e) A.T. & T. still refuses to take the proper course—that of specifying reasonable criteria to be met by those wishing to interconnect with the telephone system; and (f) the tariff does not clearly state that the new practices do not apply to interconnection with facilities of other carriers.

9. On February 9, 1973, A.T. & T. submitted its reply to MCI's petition and objects to the petition on both procedural and substantive grounds. A.T. & T. is correct in contending that MCI's petition violates § 1.44(a) of our rules by combining into a single pleading requests for action delegated to the Chief, Common Carrier Bureau (rejection) with action reserved to the Commission suspension). 47 CFR 1.44(a). We would be warranted, therefore, in refusing to consider MCI's petition because of the violation of our rules. However, we believe that certain questions discussed in MCI's petition and A.T. & T.'s reply are of sufficient importance to be considered by us on our motion in the exercise of our discretion under the suspension powers given to us by section 204 of the Act. 47 U.S.C. 204.

10. We agree with MCI that A.T. & T. has not made a persuasive showing that there is a need for A.T. & T. to install protective equipment in all cases where customer equipment is connected directly to unmixed voice grade private line facilities. In its reply, A.T. & T. continues to assert that there is a need for protective equipment on private line services because all services share common facilities, such as local distribution cables, carrier systems, and main frames and all are subject to harmful voltages, line imbalance, and excessive signal levels; and that the National Academy of Sciences concluded that "uncontrolled interconnection" could cause these types of harm to private line as well as other services. However, as MCI points out, A.T. & T. proposes under its tariffs to install such protective equipment only with respect to services installed on and after February 15, 1973, and then only with respect to services for those customers who use nontelephone equipment. Thus, on and after February 15, 1973, A.T. & T. does not

We note that A.T. & T.'s reply, although not in violation of our rules, was not actually filed "within 3 days" after service of MCI's petition on A.T. & T. as contemplated by 47 CFR 1.773.

propose to install such protective facilities for customers who use telephone company equipment even though such terminal equipment may be similar to the equipment that the customer provides and equally likely to cause the same kinds of alleged harm to the carrier facilities. Moreover, A.T. & T. does not propose to install such protective equipment for any services provided to any customers that are in service on February 14, 1973, even though those services presumably could be subject to the same types of harm. It would appear that, if there is real danger of such harm, all services should be protected.

11. With respect to MCI's assertion that A.T. & T. has not deemed it necessary to install such protective equipment in the past for any customers connecting directly to unmixed voice grade private line facilities, A.T. & T.'s reply is that, although there has been "past interference" it cannot "be readily quantified or specifically identified and recorded," and that "past experience in this instance is not a reliable basis upon which to predicate the need for protection in the future." However, A.T. & T. makes no persuasive factual or other showing that experience is not a reliable basis for this purpose. In view of the foregoing, we believe that substantial questions are raised as to the reasonableness of A.T. & T.'s proposal to install protective equipment only with respect to some customers and not others as the new filing proposes to do.

12. As to MCI's claim that A.T. & T. should not be given a monopoly in the provision of the proposed "protective equipment," A.T. & T.'s reply is that these particular facilities are part of A.T. & T.'s basic service offerings and are not in the category of "terminal devices" open to competition. However, this assertion by A.T. & T. appears to be inconsistent with its proposal to install protective equipment only with respect to facilities provided to certain customers to the exclusion of many, if not most, other customers using unmixed voice grade facilities. We question, therefore, whether it is reasonable to consider such equipment as part of A.T. & T.'s "basic service offerings." Thus, a valid question is raised as to whether, in lieu of giving A.T. & T. a monopoly in this area, there should not be a standards program by which the customer or persons other than A.T. & T. could provide such protective arrangements to the extent that such equipment is needed to prevent harm.

13. As heretofore stated, MCI challenges the ratemaking decision of A.T. & T. (a) to provide these protective arrangements without extra or separate charges to the customers and (b) to spread the costs thereof among all users, including message toll users. This challenge is answered by A.T. & T. primarily on the grounds that the costs are likely to be de minimus but that, if it should develop that costs are substantial, A.T. & T. would probably file tariffs setting up separate charges therefor which A.T. & T. would appropriately

justify at that time. We believe that, at least in principle, MCI raises a valid question as to the propriety of A.T. & T.'s ratemaking principles applied in this case. As to MCI's request that it be made clear that the new tariff revision does not apply to MCI's own carrier-to-carrier interconnections with A.T. & T.'s loops, the reply of A.T. & T. contends that it is already clear that the new revision does not so apply and we agree.

14. In view of the foregoing discussion, we believe that substantial questions are raised as to the lawfulness of A.T. & T.'s tariff revisions that warrant our acting on our own motion and designating such revisions for hearing and suspending the effectiveness thereof for the maximum 3-month period provided for in section 204 of the Act.

15. Accordingly, in view of the foregoing considerations, *It is ordered*, That, pursuant to the provisions of sections 4(i), 4(j), 201, 202, 203, 204, 205, and 403 of the Communications Act of 1934, as amended, an investigation is instituted into the lawfulness of revisions in A.T. & T.'s Tariff FCC No. 260 submitted with Transmittal No. 11610 including cancellations, amendments, or reissues thereof.

16. *It is further ordered*, That, pursuant to the provisions of section 204 of the Communications Act, such revisions are hereby suspended until May 15, 1973, and A.T. & T. shall make no changes in said schedules of charges during the pendency of this proceeding without prior approval of the Commission.

17. *It is further ordered*, That, without in any way limiting the scope of the investigation, it shall include consideration of the following:

- (1) Whether the classifications, practices, and regulations published in the aforesaid tariff revisions are or will be unjust and unreasonable within the meaning of section 201(b) of the Act;
- (2) Whether such classifications, practices, and regulations will, or could be applied to, subject any person or class of persons to unjust or unreasonable discrimination or give any undue or unreasonable preference or prejudice to any person, class of persons, or locality, within the meaning of section 202(a) of the Act;
- (3) If any of such classifications, practices, and regulations are found to be unlawful, whether the Commission should prescribe classifications, practices, and regulations for the service governed by the tariffs, and if so, what should be prescribed.

18. *It is further ordered*, That, a hearing be held in this proceeding at the Commission's offices in Washington, D.C., at a time to be specified; and that the Administrative Law Judge to be designated to preside at the hearing shall certify the record, without preparation of an initial or recommended decision, and the Chief of the Common Carrier Bureau shall thereafter issue a recommended decision which shall be subject to the submittal of exceptions and re-

quests for oral argument as provided in 47 CFR 1.276 and 1.277, after which the Commission shall issue its decision as provided in 47 CFR 1.282; and

19. *It is further ordered*, That, A.T. & T. and the associated Bell System operating companies are made parties respondents and MCI is granted leave to intervene upon filing a notice of intention to appear and participate within 20 days of the release date of this order.

20. *It is further ordered*, That MCI's petition is dismissed.

Adopted: February 14, 1973.

Released: February 22, 1973.

#### LAND MOBILE APPLICATIONS FILED IN CHICAGO

##### Notice of Availability

FEBRUARY 22, 1973.

Effective February 12, 1973, the FCC's Chicago Regional Spectrum Management Center will make available in its Public Reference Room a listing of the land mobile radio applications which have been accepted for filing in the Chicago Region. This list will not be distributed but it will be available for public inspection every working day between the hours of 8 a.m. and 4:30 p.m. at the Commission's office at 1550 Northwest Highway, Park Ridge, IL. A duplicate listing of the applications received in Chicago will also be made available for inspection at the offices of the Industrial and Public Safety Facilities Division of the Safety and Special Radio Services Bureau in Washington, D.C.

The list is comprised of the following information for each application:

- (1) Applicant's name.
- (2) Application number.
- (3) Purpose of application.
- (4) Filing date.
- (5) Call sign (for existing stations).
- (6) Transmitter location or mobile operating area.
- (7) Frequency or frequencies.
- (8) Manufacturer of base and/or mobile transmitters.

This list is being provided in lieu of a procedure whereby every application is automatically diverted to the Public Reference Room for a fixed period of time. The latter procedure can cause a needless delay in the processing of an application and the use of a list will be more efficient. Whenever a member of the public wishes to examine a particular application, the staff in Chicago will make it available upon request. Ordinarily, however, the information provided on the list will serve the same function as public display but without

<sup>2</sup> Commissioners Robert E. Lee, Johnson, and Wiley concurring in the result, Commissioner Reid absent.

any delay in the processing of the application.

[Docket No. 19684; FCC 73-144]

#### ITT WORLD COMMUNICATIONS INC.

##### Memorandum Opinion and Order Instituting Investigation Regarding Telex and Telegraph Services With Guam

1. The Commission has before it: a. A petition filed by ITT World Communications Inc. (ITTWC) on March 29, 1972, requesting that the Commission, pursuant to Section 201(a) of the Communications Act of 1934, direct RCA Global Communications, Inc. (RCAGC) to cooperate with ITTWC in (i) establishing an electrical interconnection between RCAGC's telex and telegraph message and telex systems on Guam and ITTWC's telex and telegraph message and telex systems, (ii) establishing through routes and charges applicable thereto and the division of such charges, and (iii) establishing and providing facilities and regulations for operating such through routes;

b. A petition, filed by RCAGC on May 10, 1972, to discuss or deny the petition for interconnection; and

c. A reply, filed by ITTWC on May 31, 1972, to the petition to dismiss or deny.

2. Presently, RCAGC has exclusive authority to provide telex and telegraph message services at Guam. Prior to October 1964, RCAGC was the only carrier equipped and authorized to provide any communications services between Guam and overseas points. By Memorandum Opinion, Order and Certificate adopted October 21, 1964, FCC 64-943 (File No. T-C-1791), the Commission authorized ITTWC to provide at Guam leased circuits for alternate and simultaneous voice and nonvoice use by defense agencies of the U.S. Government and leased circuits for alternate voice-record use by other customers. We were unable, however, to find then that the public interest would be served by permitting an additional record carrier to compete with RCAGC at Guam in providing telegraph message, telex, and leased channel telegraph services.

3. In July 1967, ITTWC again applied for authority to provide all types of record telegraph services at Guam. By Memorandum Opinion and Order adopted February 25, 1970, 21 FCC 2d 589 (File No. T-C-1791-7), we found that, in view of then current conditions, the public interest would be served by amending former limitations on ITTWC (as well as on Western Union International, another international record carrier) to permit competition in leased

<sup>1</sup> In 1965, the Telegraph Committee had denied a request of ITTWC to provide leased channel telegraph service at Guam, FCC 65 M-1484 (File No. T-C-1791, 1965).

telegraph channel services on Guam, but we were unable to make such a finding with respect to message telegraph and telex.

4. In its present petition, ITTWC alleges that, in view of RCAGC's refusal to a midpoint interconnection with ITTWC's telex services offered in the Continental United States, Hawaii, Puerto Rico, and the Virgin Islands, its own telex subscribers are unable to directly communicate with those of RCAGC at Guam. ITTWC recognizes that its subscribers could communicate with Guam were they to subscribe to the RCAGC telex system or, with respect to the mainland, the Western Union Telegraph Co.'s (WUT) Telex or TWX systems through which a connection with the RCAGC telex system could be made.

5. However, ITTWC asserts, it has about 2,000 telex subscribers in New York City who do not also subscribe to the RCAGC system. Moreover, if they were to subscribe to WUT's domestic system they would be dependent on a less efficient routing than if they were able to reach Guam directly via ITTWC. ITTWC states that the situation is particularly acute at Hawaii where it has 213 exclusive telex subscribers who have no telex access to Guam. This is considered by ITTWC to be significant in view of Guam's growth and the expansion of Honolulu firms to Guam.

6. According to ITTWC, the inability of its customers to reach Guam has inhibited it in competing for new subscribers, is causing losses in existing subscribers, and may affect its ability to attract users of leased channel services with Guam. In addition, ITTWC points out, it is unable to compete for the transit handling of telex traffic between Guam and points other than the mainland and Hawaii. Insofar as telegraph message traffic is concerned, ITTWC believes that the lack of interconnection with RCAGC at Guam has relegated it to the role of a domestic carrier, since it must exchange such messages with RCAGC for overseas transmission. ITTWC proposes that interconnection initially involve three 50-band circuits, one for message use and two for telex use.

7. ITTWC stresses that it does not seek to disturb the status quo or to establish new facilities and offer additional services on Guam. It is endeavoring to extend communications services that it offers in Hawaii, San Francisco, New York, Washington, D.C., Puerto Rico, and the Virgin Islands to include telegraph message and telex to and from Guam and thus achieve an equal footing with RCAGC in competing to meet the communications needs on Guam. A normal partnership arrangement (similar to the many both ITTWC and RCAGC have with foreign entities), where operations are on a direct circuit basis and where each entity provides channel facilities to the theoretical midpoint, would satisfy that objective.

8. In its opposition to the ITTWC petition, RCAGC argues that ITTWC has failed to demonstrate that there has been any significant change in circum-

stances since our former decisions in the matter. According to RCAGC, ITTWC has not shown that its proposal is economically feasible or that RCAGC's current telex and telegraph message operations at Guam are inadequate.

9. Regarding the inability of some ITTWC subscribers to reach Guam, RCAGC asserts that this fact was well known to the Commission at the time of its earlier decisions and presumably was taken into consideration. In addition, RCAGC argues that the loss of customers due to the limitation placed on ITTWC's operations is unlikely since only about 10 percent of telex customers do not also subscribe to the telex service of another carrier.

10. RCAGC concludes that the real objective of ITTWC in the instant petition is to divide the telex business at Guam. Such a division, according to RCAGC, would render its Guam telex and telegraph message services, now operating at a loss, more unprofitable and ultimately degraded. While RCAGC agrees that there is evidence of an increase in telex traffic at Guam, it claims that its investments and costs in providing telex and telegraph message services have also risen.

#### DISCUSSION

11. We think that the points raised by ITTWC have sufficient merit to warrant an investigation and shall therefore, pursuant to section 201(a) of the Communications Act of 1934, order a hearing into the matter. While it is true that heretofore we have not been able to make a public interest finding enabling ITTWC to operate its telex and message services at Guam, the issue now before us is whether RCAGC, as the sole carrier authorized to provide such services at Guam, should interconnect with ITTWC telex and message services offered at other points rather than connecting only with its own telex and message services at such points and so maintain a virtual monopoly position with respect to transmission of telex traffic and message traffic between Guam and other United States points. There is nothing in our previous orders on the matter that furnishes a basis for concluding that we have already determined this latter point in RCAGC's favor. Our previous remarks with respect to feasibility of competition at Guam were directed to operations only at Guam, not to total operations between Guam and other points in RCAGC's system.

12. Accordingly, it is ordered, Pursuant to sections 4(i), 201(a), and 403 of the Communications Act of 1934, that an investigation is hereby instituted into establishing an interconnection between RCAGC's telegraph message and telex system on Guam and ITTWC's telegraph message and telex system.

13. *It is further ordered*, That without in any way limiting the scope of the proceeding, it shall include inquiry into the following matters:

- (1) Whether it is necessary or desirable in the public interest to require RCAGC to interconnect its telegraph message and telex facilities with facil-

ties of ITTWC for the provision of service to and from Guam:

(a) The effect, financial and other, on ITTWC and RCAGC telex and message services, and the public, were no interconnection to be established; and

(b) The manner in which ITTWC customers are able to send or receive messages to and from Guam in the absence of interconnection.

(2) The point at which interconnection, if any, should be established, and the financial and other effects on the ITTWC and RCAGC telex and message services and the public:

(a) The through routes and charges to be established;

(b) The facilities and regulations appropriate to the operation of such routes;

(c) The charges and the classifications, regulations, and practices affecting such charges; and

(d) The appropriate division of such charges.

14. *It is further ordered*, That a hearing shall be held in the proceeding at the Commission's offices at Washington, D.C. at a time to be specified in a subsequent order and that the Administrative Law Judge designated to preside at the hearing shall certify the record to the Commission without preparing either a recommended or initial decision and that the Chief, Common Carrier Bureau shall prepare and issue a recommended decision which shall be subject to the submittal of exceptions and request for oral argument as provided in 47 CFR 1.276 and 1.277, after which the Commission shall issue its decision as provided in 47 CFR 1.282.

15. *It is further ordered*, That ITTWC and RCAGC are hereby made parties respondent to the proceeding.

Adopted: February 7, 1973.

Released: February 20, 1973.

#### QUINNIPIAC VALLEY SERVICE, INC., AND RADIO RIDGEFIELD, INC.

##### Memorandum Opinion and Order Designating Applications for Consolidated Hearing on Stated Issues

In re applications of Quinipiac Valley Service, Inc., Wallingford, Conn., Docket No. 19686, File No. BP-14832, Requests: 860 kHz, 500 w., DA, Day; Radio Ridgefield, Inc., Ridgefield, Conn., Docket No. 19687, File No. BP-18494, Requests: 850 kHz, 1 kw., DA, Day, for construction permits.

1. The Commission has before it for consideration (1) the above-captioned applications which are mutually exclusive in that operation by both applicants would entail contour overlap prohibited

<sup>2</sup> Commissioner Johnson concurring in the result; Commissioner H. Rex Lee absent.

by § 73.37 of the Commission's rules; (ii) a Quinnpac Valley Service, Inc. (Quinnpiac), petition for reconsideration of its dismissal by the Commission filed February 12, 1971; (iii) an opposition filed by Meriden-Wallingford Radio, Inc. (Meriden-Wallingford), then licensee of WMMW, Meriden, Conn.;<sup>1</sup> (iv) the applicant's reply: (v) a supplement to the petition filed December 14, 1972; (vi) a petition to deny filed against Quinnpiac by WSBS—The Berkshires, Inc., licensee of WSBS, Great Barrington, Mass., on March 4, 1964; (vii) a petition to deny filed by Columbia Broadcasting System, Inc. (CBS), licensee of WCBS, New York, N.Y., on March 16, 1964; (viii) a petition to deny by Meriden-Wallingford filed February 27, 1969; and (ix) pleadings in response filed by Quinnpiac and replies submitted by CBS and Meriden-Wallingford. Also before us are requests for waivers of various rules by both applicants.

2. In an Order adopted January 13, 1971, the Commission denied Quinnpiac Valley Service, Inc., a waiver of the multiple-ownership rule (§ 73.35) and dismissed its application for noncompliance with the duopoly portion of the rule. 27 FCC 2d 66, 20 RR 2d 1081.<sup>2</sup> John T. Parsons, president and 50 percent owner of the applicant, was also president and 45 percent owner of station WOWW, Naugatuck, Conn., about 12 miles away. Grant of the application would have resulted in overlap of the respective 1 mv./m. contours. Quinnpiac filed a petition for reconsideration, eliciting opposition from Meriden-Wallingford. When Parsons recently severed his connection with WOWW (effective October 1, 1972), he cured the cause for dismissal and mooted the pleadings directed toward the above issue. Accordingly, the petition for reconsideration will be dismissed and the application reinstated on our own motion.

3. Reinstatement of Quinnpiac's proposal, however, necessarily revives previous objections directed against the application which had been mooted by the Commission's aforementioned dismissal. Allegations included charges of objectionable interference and prohibited overlap filed by the Columbia Broadcasting System, licensee of WCBS, New York, N.Y., ascertainment, financial and interference allegations made by Meriden-Wallingford, and an interference claim by WSBS—The Berkshires, Inc., licensee of WSBS, Great Barrington, Mass.

<sup>1</sup> Subsequent to the filing of the petition, the license for WMMW was assigned to WMMW, Inc. The new licensee recently informed the Commission that it wished to adopt Meriden-Wallingford's pleadings. The ordering clause in paragraph 26, *infra* (designating parties to the proceeding ordered herein), makes provision for the assignment.

<sup>2</sup> Prior Commission actions affecting the Quinnpiac application include Orders released July 9, 1964 (FCC 64-631) (holding a drop-out agreement with Radio Wallingford, Inc., a former competing applicant, in abeyance); and October 16, 1964 (FCC 64-937) (giving formal approval to the drop-out agreement).

<sup>3</sup> Radio Ridgefield's proposal conflicted with an application by the General Broadcasting Corp. for Yorktown Heights, N.Y. (BP-18219), which was mutually exclusive with an application by Peter L. Pratt for Honesdale, Pa. (BP-18233), which was, in turn, mutually exclusive with the Wayne County Broadcasting Corp. application for Honesdale (BP-18018).

<sup>4</sup> Moreover, we note that the chain connecting Radio Ridgefield to Wayne County's application was broken by dismissal of the General Broadcasting Corp. application on Oct. 7, 1970.

<sup>5</sup> Section 73.37(a) of the Commission's rules.

4. The competing application filed by Radio Ridgefield proposes a standard broadcast facility in Ridgefield, Conn. Radio Ridgefield tendered its application for filing on February 27, 1969, the cutoff date assigned the Quinnpiac application. However, the Ridgefield application also indirectly conflicted with an application filed by Wayne County Broadcasting Corp. for Honesdale, Pa., which had a cutoff date of June 18, 1968.<sup>3</sup> Thus, Radio Ridgefield was considered to have filed too late, and its application was not accepted. The applicant petitioned for acceptance arguing that the mutual exclusivity between the Wayne County proposal and one of the connecting applications (that of Peter L. Pratt for Honesdale) did not exist, and hence, it was not tied to the 1968 cutoff date. At the same time, it petitioned alternatively for a waiver of the cutoff rules based on charges that it has been unfairly tied to the earlier cutoff date by the filing of applications in abuse of the Commission's processes. Since it appears that the filing of the Pratt and General Broadcasting proposals did involve abuse of our processes (Wayne County Broadcasting Corp., 26 FCC 2d 52 (1970)), we believe that under the unique circumstances presented, a waiver of the cutoff rules is warranted.<sup>4</sup>

5. The Quinnpiac and Ridgefield proposals involve prohibited overlap of contours with a frequency separation of 10 kHz.<sup>5</sup> Since they are, then, mutually exclusive, they will be designated for hearing in a consolidated proceeding on the issues specified below. Although § 1.580 (b) of the Commission's rules provides that no application will be acted upon less than 30 days following issuance of public notice of the acceptance of the application, the Commission will, on its own motion, waive § 1.580(b) with respect to Radio Ridgefield so that the applications herein may proceed to hearing without further delay.

6. CBS alleges that the Quinnpiac operation would cause objectionable interference within the WCBS 0.5 mv./m. contour in contravention of § 73.182(w) of the rules, and that there would be prohibited overlap of the 2 mv./m. and 25 mv./m. contours of stations 20 kHz removed in violation of § 73.37. Section 73.182(w) was amended July 1, 1964 (Docket No. 15084, 2 RR 2d 1658), to eliminate the provision concerning interference based on a 1:30 ratio, and hence, poses no bar to the applicant. But,

according to Quinnpiac's own studies, the proposed operation would involve 2 mv./m. and 25 mv./m. overlap with WCBS. The applicant contends the overlap should not be considered objectionable because (i) it is due to a long salt-water path, and (ii) its application was filed prior to adoption of the prohibited overlap provisions of § 73.37. With regard to the first contention, we note that our rules do not sanction such overlap merely because it may be due to a high conductivity path. And concerning the latter, at the date of filing (May 3, 1961), § 73.37<sup>5</sup> was in effect and clearly prohibited overlap of the 25 mv./m. and 2 mv./m. groundwave contours for stations operating on frequencies 20 kHz removed. Moreover, in this instance, the question of whether a waiver should be granted is more fit for resolution in an evidentiary hearing, and not by summary decision based on pleadings alone.<sup>6</sup>

7. The Commission also finds that the 2 mv./m. contour of WRYM, New Britain, Connecticut (another station 20 kHz removed), would be separated from Quinnpiac's proposed 25 mv./m. contour by only about 0.6 mile based on Figure M-3 conductivities. Since no measurement data are available to establish the extent of the WRYM 2 mv./m. contour and since Figure M-3 is not intended to accurately depict conductivity over such short paths (approximately 15 miles), we conclude that a substantial question exists as to whether prohibited overlap of the 2 mv./m. and 25 mv./m. contours would result with WRYM. Appropriate issues will be specified with respect to the overlap with WCBS, and the possible overlap with WRYM, Columbia Broadcasting System, Inc., and Hartford County Broadcasting Corp., licensees of the respective stations, will be made parties to the proceeding.

8. WSBS—The Berkshires, Inc., licensee of WSBS, Great Barrington, Mass., filed a petition to deny alleging the proposed operation would cause interference to WSBS. Quinnpiac subsequently amended its application (October 20, 1969) and the Commission now finds that objectionable interference would not be caused WSBS. Accordingly, the WSBS petition to deny will be dismissed.

9. Meriden-Wallingford claimed standing as a party in interest based on the allegation that Quinnpiac's operation

<sup>5</sup> § 73.37 Minimum separation between stations. A license will not be granted for a station on a frequency of  $\pm 30$  kc. from that of another station if the area enclosed by the 25 mv./m. groundwave contours of the two stations overlap, nor will a license be granted for the operation of a station on a frequency  $\pm 20$  kc. or  $\pm 10$  kc. from the frequency of another station if the area enclosed by the 25 mv./m. groundwave contour of either one overlaps the area enclosed by the 2 mv./m. groundwave contour of the other.

<sup>6</sup> Since the application was filed prior to adoption of section 73.37 (the "go-no-go" rules) (July 1, 1964) it can be accepted for filing. Compare § 73.37, with § 73.37(a).

would be within its service area and compete with it for advertising revenue. The Commission finds that Meriden-Wallingford had the requisite standing as a party in interest within the purview of section 309(d) (1) of the Communications Act of 1934, as amended, and § 1.580(i) of the Commission's rules. FCC v. Sanders Bros. Radio Station, 309 U.S. 470, 9 RR 2008 (1940).

10. Meriden-Wallingford charged in its initial pleading that 11.3 percent of the population within Quinnpiac's normally protected contour would receive interference from WSBS, WRYM, and WTEL, Philadelphia, Pa. While this exceeded the "10-percent rule" allowed for applications filed before July 13, 1964, Quinnpiac's engineering amendment of October 20, 1969, reduced proposed power to 500 w. and the segment of the population that would receive interference to 3.74 percent. There appears, then, to be no violation of § 73.28 (d) (3).<sup>7</sup>

11. Meriden-Wallingford also faults the application for lack of a community survey and for an inadequate financial showing. Although the applicant has since supplied an ascertainment of community needs, its survey is defective. Quinnpiac indicates that 19 persons of below-average income were contacted either in person or by telephone, and that the remaining 32 people interviewed were all in the community leader category. Yet, there is no showing that any of these leaders was representative of the below-average income group. (See questions 13(a) and 16 of the Primer on Ascertainment of Community Problems by Broadcast Applicants, 36 FR 4092, 4105 (March 3, 1971).) Furthermore, Quinnpiac's public service proposals are too indefinite for us to conclude that they will be responsive to Wallingford's problems. For example, drug abuse is cited as a problem, but the applicant makes no programming response; a daily student show is mentioned, but no specifics offered; tape-recorded playback of town council meetings is proposed, but no time slot or duration suggested; and, if Quinnpiac fails to locate the announcer-host for its telephone talk show (as it suggests might happen), then this applicant will utterly lack any regularly scheduled programming for the discussion of community problems. See question 29 of the Primer, *supra*. Thus, substantial questions exist as to the adequacy of the applicant's ascertainment of its community's needs and its response to those needs. Therefore, a Suburban<sup>8</sup> issue will be specified.

12. The applicant has updated its financial data several times since the initial filing, but it appears inadequate. First, its most recent financial data is

<sup>7</sup> Meriden-Wallingford also contends that the Quinnpiac proposal involves prohibited overlap with WCBS and WRYM. As explained in paragraphs 6 and 7, *supra*, issues are being specified in this regard.

<sup>8</sup> Suburban Broadcasters, 20 RR 951 (1961).

now 2 years old. Second, even using the applicant's 1970 figures, costs of construction and operating expenses for the first year exceed available assets. According to its estimates, costs total \$125,000, broken down as follows: Down payment on equipment, \$11,920; first-year's payments on equipment with interest, \$11,580; building, \$3,000; land, \$1,000; miscellaneous, \$7,500; and 1-year's working capital, \$90,000. Assets included existing capital, \$1,000; new capital, \$9,000; stockholder loan obligations, \$31,000; and a bank loan commitment of \$30,000, for a total of \$71,000. The stockholder loan agreement fails to specify the terms upon which the principals will loan the \$31,000 to the applicant corporation and, apart from the current obsolescence of both principals' financial statements, that of John T. Parsons was inadequate when submitted. Thus, anticipated expenditures exceeded available assets by at least \$54,000. Issues will be specified in order to permit a determination of the current financial status of Quinnpiac's principals and whether sufficient funds are available to meet the cost of construction and 1 year's operation.

13. Finally, Meriden-Wallingford claims that the "drop-out" agreement between Quinnpiac and Radio Wallingford, Inc. (a former competing applicant for a Wallingford license) (hereafter Radio Wallingford), is contrary to the public interest. The petition to deny is, in this respect, a petition for reconsideration of our previous order approving the agreement,<sup>9</sup> and is in obvious noncompliance with section 405 of the Communications Act of 1934, as amended, and § 1.106 (f) of our rules. Its petition was filed over 4 years after approval by the Commission, whereas the act requires such filings within 30 days. But, inasmuch as the pleading was timely filed as a petition to deny,<sup>10</sup> we will address ourselves to petitioner's contentions.

14. In return for Radio Wallingford's agreement to suffer dismissal, Quinnpiac has extended the former applicant the option of reimbursement in cash of \$3,500, or assignment of 50 percent of Quinnpiac's stock, contingent upon a grant of the latter's application. Meriden-Wallingford asserts that by the terms of the option, Quinnpiac is committed to transferring 50 percent of its stock to a company which, several years after the agreement's approval, may be unqualified, and that the agreement fails to extract any continuing financial support from Radio Wallingford in return for receipt of Quinnpiac stock.

15. The petitioner's concern is groundless. First of all, the Commission has already approved this agreement once. Second, even if circumstances have since

<sup>9</sup> Tentative approval was given July 8, 1964 (FCC 64-631, 2 RR 2d 1005) and, after compliance with the publication requirements of § 1.525(b) of the rules, final approval on Oct. 14, 1964 (FCC 64-937).

<sup>10</sup> The petition to deny was filed on Feb. 27, 1969, the cutoff date for Quinnpiac, in accordance with sec. 309(d) (1) of the act.

changed, Quinnpiac is not committed to conveying its stock to a perhaps now-unqualified Radio Wallingford since our approval must also be secured prior to consummation to effect a lawful transfer of control. And that sanction is based on a reappraisal of the prospective part-owner's qualifications, as well as the terms of the agreement. The petitioner's vague, unsupported conclusions fail to raise substantial and material questions of fact warranting designation of an issue.

16. Radio Ridgefield is in violation of § 1.569(b) (2) (i) of the rules in that the proposed transmitter site lies beyond a 500-mile extension of the 0.5 mv./m. 50 percent nighttime skywave contour of class I-A station WBAP, Fort Worth, Tex., on 820 kHz (a "frozen" channel 30 kHz removed from the proposed frequency). The applicant requests a waiver of this section and the Commission grants it since this is in keeping with past policy holding that proposals 30 kHz removed from class I-A channels do not materially prejudice future consideration of those channels. See, e.g., Peter L. Pratt, 16 FCC 2d 967, 15 R.R. 2d 933 (1969).

17. Radio Ridgefield will be given the opportunity to correct deficiencies in its financial showing at hearing. First, the applicant's cost figures are now nearly 3 years old and must be updated. Second, the applicant relies almost exclusively on a \$100,000 loan from its president, Bartholomew T. Salerno, to demonstrate its financial qualifications. But Mr. Salerno's financial statement fails to establish that the real estate values cited were based on appraisal by an independent real estate agent. Also, the letter evidencing willingness to make the loan fails to state whether any security is required, as prescribed by paragraph 4(a), section III, FCC Form 301.<sup>11</sup> The appropriate issues are designated.

18. Radio Ridgefield has been faulted for failure to provide a 5-mv./m. signal over the entire political subdivision known as Ridgefield Township (see § 73.188(b) (2)). On February 9, 1971, Radio Ridgefield amended its application and now proposes to serve primarily the unincorporated population center of the township.<sup>12</sup> This amendment shows that the proposed 25-mv./m. contour encompasses all of the business area, and the 5-mv./m. contour more than covers all of the population center of Ridgefield, both in conformity with § 73.188(b) of the rules. Accordingly, the applicant's proposal will be construed as specifying

<sup>11</sup> Mr. Salerno is not the sole stockholder of the applicant corporation. Mr. Paul A. Christo, vice-president of the applicant, owns 10 percent of the stock.

<sup>12</sup> Sec. 73.30(a) sanctions the grant of licenses to stations assigned to unincorporated communities. North Atlanta Broadcasting Co., 1 R.R. 2d 275 (Review Board 1963).

Ridgefield center as the community of license.<sup>12</sup>

19. However, the Ridgefield proposal also clearly projects the 5-mv./m. contour as penetrating the Danbury corporate limits, to which the 1970 census assigns a population of 50,781,<sup>13</sup> a figure more than twice the population of Ridgefield center.<sup>14</sup> These facts raise a presumption that Radio Ridgefield's operation is intended to serve the community of Danbury, rather than the community of Ridgefield center.<sup>15</sup> An appropriate section 307(b) suburban community issue will be designated to give the applicant an opportunity to rebut this presumption.

20. From the information before the Commission it appears that, except as indicated by the issues specified below, the applicants are qualified to construct and operate as proposed. However, for the reasons indicated above, they must be designated for hearing in a consolidated proceeding on the issues set forth below.

21. Accordingly, it is ordered, That the application of Quinipiac Valley Service, Inc., is reinstated on our own motion; that the application of Radio Ridgefield, Inc., is hereby accepted for filing; that, on the Commission's own motion, § 1.580(b) of the Commission's rules is waived; and that, pursuant to section 309(e) of the Communications Act of 1934, as amended, the applications are designated for hearing in a consolidated proceeding, at a time and place to be specified in a subsequent Order, upon the following issues:

(1) To determine the areas and populations which would receive primary service from the proposed operations and the availability of other primary aural (1 mv./m. or greater in the case of FM) service to such areas and populations.

(2) To determine whether overlap of the 2 and 25 mv./m. contours would occur between the Quinipiac proposal and WCBS, New York, N.Y., in contravention of § 73.37 of the Commission's rules, and, if so, whether circumstances exist which would warrant a waiver of said section.

(3) To determine whether overlap of the 2 and 25 mv./m. contours would

<sup>12</sup> Were this applicant to designate the whole of Ridgefield Township as the community of license, serious § 73.37(b) problems would be raised since prohibited overlap would exist with cochannel stations WHDH, Boston, Mass., and WEEU, Reading, Pa., and since the 1970 U.S. census shows a northern portion of the township as embraced in the Danbury urbanized area with the township population remaining below 25,000.

<sup>13</sup> Danbury city has been treated as co-extensive with the town of Danbury since 1960, for Bureau of Census purposes, and the same population reported for both.

<sup>14</sup> The Bureau of the Census reports the 1970 population of Ridgefield center as 5,878 and that of Ridgefield Township as 18,188.

<sup>15</sup> Policy statement on sec. 307(b) considerations for standard broadcast facilities involving suburban communities, 2 FCC 2d 190, 6 R.R. 2d 1901 (1965).

## NOTICES

occur between the Quinipiac proposal and WRYM, New Britain, Conn., in contravention of section 73.37 of the Commission's rules, and, if so, whether circumstances exist which would warrant a waiver of said section.

(4) To determine the efforts made by Quinipiac Valley Service, Inc., to ascertain the community problems of the area to be served and the means by which the applicant proposes to meet those problems.

(5) To determine, with respect to the application of Quinipiac Valley Service, Inc.:

(a) Whether John T. Parsons and James W. Miller have sufficient net liquid and current assets to meet their respective loan commitments;

(b) Whether sufficient additional funds are available to meet construction costs and operating expenses for the first year;

(c) The current basis for the applicant's estimated construction costs and operating expenses for the first year; and

(d) In light of the evidence adduced pursuant to (a), (b), and (c), above, whether the applicant is financially qualified.

(6) To determine whether the proposal of Radio Ridgefield, Inc., will realistically provide a local transmission facility for its specified station location, or for another larger community, in light of all the relevant evidence, including, but not necessarily limited to the showing with respect to:

(a) The extent to which the specified station location has been ascertained by the applicant to have separate and distinct programming needs;

(b) The extent to which the needs of the specified station location are being met by existing aural broadcast stations;

(c) The extent to which the applicant's program proposal will meet the specific unsatisfied programming needs of its specified station location; and

(d) The extent to which the projected sources of the applicant's advertising revenues within its specified station location are adequate to support its proposal, as compared with its projected sources from all other areas.

(7) To determine, in the event that it is concluded pursuant to the foregoing issue that the proposal will not realistically provide a local transmission service for its specified station location, whether such proposal meets all of the technical provisions of the rules for standard broadcast stations assigned to the most populous community for which it is determined that the proposal will realistically provide a local transmission service; namely, Danbury, Conn.

(8) To determine, with respect to the application of Radio Ridgefield, Inc.:

(a) Whether Bartholomew T. Salerno has sufficient net current and liquid assets to lend \$100,000 to the applicant, and what, if any, security will be required;

(b) The current basis of the applicant's estimated construction costs and operating expenses for the first year; and

(c) In light of the evidence adduced pursuant to (a) and (b), above, whether the applicant is financially qualified.

(9) To determine, in light of section 307(b) of the Communications Act of 1934, as amended, which of the proposals would better provide a fair, efficient and equitable distribution of radio service.

(10) To determine, in light of the evidence adduced pursuant to the foregoing issues, which, if either, of the applications should be granted.

22. It is further ordered, That, the memorandum opinion and order of January 13, 1971, 27 FCC 2d 86, dismissing the application of Quinipiac Valley Service, Inc., is set aside and that the petition for reconsideration, and supplement, filed by Quinipiac Valley Service, Inc., are dismissed as moot.

23. It is further ordered, That, the request of Radio Ridgefield, Inc., for waiver of § 1.569(b)(2)(i) of the rules is granted; that, the request for waiver of §§ 1.571(c) and 1.227(b)(1), (4) is granted.

24. It is further ordered, That the petition to deny the application of Quinipiac Valley Service, Inc., filed by WSBS—The Berkshires, Inc., is hereby dismissed.

25. It is further ordered, That the petitions of the Columbia Broadcasting System, Inc., and of Meriden-Wallingford Radio, Inc., directed against the application of Quinipiac Valley Service, Inc., are granted to the extent indicated above and are denied in all other respects.

26. It is further ordered, That the Columbia Broadcasting System, Inc., Hartford County Broadcasting Corp., and WMMW, Inc., are made parties to the proceeding.

27. It is further ordered, That, to avail themselves of the opportunity to be heard, the applicants and parties respondent herein, pursuant to § 1.221(c) of the Commission's rules, in person or by attorney, shall, within 20 days of the mailing of this order, file with the Commission in triplicate, a written appearance stating an intention to appear on the date fixed for the hearing and present evidence on the issues specified in this order.

28. It is further ordered, That the applicants herein shall, pursuant to section 311(a)(2) of the Communications Act of 1934, as amended, and § 1.594 of the Commission's rules, give notice of the hearing, either individually or, if feasible and consistent with the rules, jointly, within the time and in the manner prescribed in such rule, and shall advise the Commission of the publication of such notice as required by § 1.594(g) of the rules.

Adopted: February 14, 1973.

Released: February 23, 1973.

<sup>17</sup> Commissioner Reid absent.

## NOTICES

[Docket Nos. 19468, etc.; FCC 73R-79]

WIOO, INC., ET AL.

Memorandum Opinion and Order Enlarging Issues

In re applications of WIOO, Inc., Carlisle, Pa., Docket No. 19468, File No. BPH-6572; Howard J. Hilton, John E. McGowan, and John E. Hilton, doing business as Hilton, McGowan & Hilton, Carlisle, Pa., Docket No. 19469, File No. BPH-6631; Alexander Contract and Sylvia Contract, doing business as Cumberland Broadcasting Co., Carlisle, Pa., Docket No. 19471, File No. BPH-7404; for construction permits.

1. Before the Review Board is a petition to enlarge issues, filed October 6, 1972, by WIOO, Inc. (WIOO), requesting the addition of the following three issues against Cumberland Broadcasting Co. (Cumberland): (a) to determine the basis of Cumberland's representations that land would be available to it on the basis of an annual lease of \$500; (b) to determine whether Cumberland had been guilty of misrepresentation and concealment in connection with the costs involved in its use of the land proposed for its transmitter site; (c) to determine whether Cumberland has correctly represented all of the facts and circumstances surrounding the proposed loan from Donald C. Hartman in its application as originally filed, and in its pleadings submitted in response to petitions to enlarge issues filed by WIOO.<sup>1</sup>

2. In support of requested issues (a) and (b), WIOO alleges that Cumberland is guilty of misrepresentation and concealment in connection with the cost of the land necessary for its proposed transmitter site. WIOO points out that the Cumberland application as originally filed represented that the land necessary for the transmitter site was available to it on the basis of an annual lease of \$500 and this representation was repeated in a subsequent amendment. However, petitioner asserts that the only arrangement for use of the land was a cash purchase in the amount of \$9,000

for a 5-acre plot.<sup>2</sup> Petitioner claims that if the actual cost of the land had been disclosed in the original application, a serious question would have arisen concerning Cumberland's financial qualifications.<sup>3</sup> Next, in support of its requested issue (c), WIOO alleges that Cumberland misrepresented its relationship with Hartman in the original filing. Petitioner contends that Alexander Contract had promised Hartman an ownership interest in Cumberland and the position of manager of the proposed station in return for Hartman's promise to lend Cumberland \$20,000 and that Cumberland's application should have disclosed this interest. In support, WIOO submits an affidavit from Hartman indicating that it was in late 1970 when he was offered the position of manager and the ownership interest in consideration of his loan commitment. Petitioner also submits a telegram dated October 6, 1972, in which Hartman states that he made the loan agreement solely because of this offer of ownership and employment.<sup>4</sup> Petitioner further requests the Review Board to review its previous ruling and enlarge the issues to permit a full inquiry with respect to all of Cumberland's past and present proposals to finance its construction and operation.<sup>5</sup> The Broadcast Bureau supports addition of the requested issues.

3. In opposition, Cumberland claims that the mistake in regard to the transmitter site was an honest human error

<sup>1</sup> Submitted in support of its allegation is an affidavit from Harold Swidler which states that Thomas Boylan indicated to Swidler that in March of 1971, he and his wife entered into an agreement with Alexander and Sylvia Contract pertaining to the said property. In addition, petitioner submitted a copy of the option agreement between the Contracts and Mr. Boylan.

<sup>2</sup> WIOO asserts that Cumberland relied in its original filing on total available resources in the amount of \$128,445 and its total first year's cash requirements were \$127,315, leaving a cushion of slightly more than \$1,000; therefore, an expenditure of \$9,000 for 5 acres of land would have resulted in a deficit of approximately \$7,870.

<sup>3</sup> On October 13, 1972, WIOO filed a supplement to its petition to enlarge issues containing an affidavit of Hartman substantiating the facts set forth in his telegram. The Board agrees with the Bureau that the supplement does not violate the Board's notice of October 11, 1972, regarding "the filing of successive supplements long after the initial interlocutory pleading was filed", and therefore will accept the supplement.

<sup>4</sup> WIOO has previously requested issues inquiring into the three loan commitments originally relied upon by Cumberland but the Review Board in a Memorandum Opinion and Order, FCC 72R-255, 37 FCC 2d 342, released September 20, 1972, denied the requested issues. One of the requested issues concerned the circumstances surrounding the proposed loan from Donald C. Hartman. The Board has recently, however, specified an issue to determine whether Cumberland misrepresented the terms and conditions of a loan commitment from James Line (FCC 73R-69, FCC 2d —, released February 9, 1973).

and disclaims any intent to mislead the Commission. In an affidavit attached to the opposition, Contract posits as a possible explanation for the mistake the fact that he had discussed with his attorneys a proposed leasing arrangement for another site, which never came to pass.<sup>7</sup> With respect to the Hartman loan, Cumberland maintains that the possible ownership interest of Hartman was a thing of the past at the time the Cumberland application was filed and denies any hidden ownership or other misrepresentation on the part of Cumberland. Submitted in support of its contention is a telegram from Hartman, dated October 18, 1972, to the effect that he had no ownership interest or promise of ownership interest in Cumberland after the application was filed.<sup>8</sup> As to the requested issues concerning Cumberland's proposals for financing its construction and operation, the applicant maintains that the Review Board has already ruled on these issues and is precluded from reconsidering its interlocutory rulings by §§ 1.102 (b)(2) and 1.106(a).

4. The Review Board will add requested issues (a) and (b). We believe that a substantial question has been raised with respect to whether Cumberland has misrepresented and concealed facts in connection with the costs involved in its use of the land proposed for its transmitter site. In our view, Cumberland has not successfully negated the allegation of willful misrepresentation, especially in view of the fact that a substantial question as to Cumberland's financial qualifications would have been raised if the actual cost of the land had been disclosed in the original application. Furthermore, the alleged misrepresentation was repeated in an amended financial statement submitted on June 13, 1972. Therefore, the Board will add an appropriate issue to permit a full inquiry of this matter at the hearing. The Board is of the opinion, however, that addition of requested issue (c) relating to the Hartman loan is not warranted. We have no reason to doubt the statement of Hartman, affirming the affidavit of Contract, that he had no ownership interest or promise of ownership interest in Cumberland after the application was filed. Therefore, Cumberland has, to our satisfaction, adequately answered the petitioner's allegation that Cumberland misrepresented its relationship with

<sup>7</sup> Cumberland's petition for leave to file a supplement to its opposition will be denied. The Board stated in its Public Notice No. 90836, released October 11, 1972, (Filing of Supplemental Pleading Before the Review Board), that it would closely scrutinize all alleged justifications for the filing of supplemental pleadings. Cumberland's request to supplement its opposition comes more than a month after the filing of its initial opposition and Cumberland has not satisfactorily explained the delay nor why it did not include this material in its initial opposition.

<sup>8</sup> Hartman's telegram corroborates the affidavit of Contract attached to the opposition.

## NOTICES

Hartman in the original filing. Furthermore, we do not believe that the statements contained in the affidavits and telegrams from Hartman are conflicting. Hartman originally stated that in late 1970 he made the loan agreement solely because of the offer of ownership and employment but circumstances changed and by March 1971, when the application was filed, Hartman no longer had any interest in participating in the business in any capacity. Petitioner's belief that the loan is "simply incredible" is conjecture and not supported by sufficient allegations of fact to permit a full inquiry concerning the circumstances surrounding the proposed loan from Hartman. The requested issue concerning the Hartman loan will therefore be denied.

5. Accordingly it is ordered, That the motion to file supplement to petition to enlarge issues, filed October 13, 1972, by WIOO, Inc., is granted, and the supplement is accepted; and

6. It is further ordered, That the petition for leave to file, filed November 28, 1972, by Cumberland, is denied; and

7. It is further ordered, That the petition to enlarge issues, filed October 6, 1972, by WIOO, Inc., is granted to the extent herein indicated, and is denied in all other respects; and

8. It is further ordered, That the issues in this proceeding are enlarged by the addition of the following issues:

(a) To determine the basis of Cumberland's representations in its application and amendments thereto that land would be available to it on the basis of an annual lease of \$500.

(b) To determine whether Cumberland had misrepresented or concealed facts in connection with the costs involved in its use of the land proposed for its transmitter site.

9. It is further ordered, That the burden of proceeding with the introduction of evidence under the issues added herein shall be on WIOO, Inc., and the burden of proof thereunder shall be on Cumberland Broadcasting Company.

Adopted: February 14, 1973.

Released: February 22, 1973.

FEDERAL COMMUNICATIONS COMMISSION,  
[SEAL] BEN F. WAPLE,  
Secretary.

[FR Doc.73-4012 Filed 3-1-73; 8:45 am]

\*Moreover, the Review Board has already considered and denied such a requested issue. See Memorandum Opinion and Order, FCC 72R-255, supra. The Board will also deny the requested issues inquiring into Cumberland's past and present proposals to finance its construction and operation, since no allegations sufficient to warrant such an issue have been presented. However, see note 6, supra.  
\* Board Member Berkemeyer absent.

# FEDERAL MARITIME COMMISSION COASTAL BARGE LINES, INC. AND PACIFIC WESTERN LINES Notice of Agreement Filed

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1405 I Street NW., Room 1015, or may inspect the agreement at the field offices located at New York, N.Y., New Orleans, La., and San Francisco, Calif. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, on or before March 22, 1973. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

Notice of agreement filed by:  
Mr. Leonard H. Gross, Coastal Barge Lines, Inc., 840 West Nickerson No. 2, Seattle, WA 98119.

DC-58 is an agreement filed for approval under section 15 of the Shipping Act, 1916, between Coastal Barge Lines, Inc., and Alaska Aggregate Corp., doing business as Pacific Western Lines. Under the agreement, each carrier may forward cargo booked by it on vessels of the other so as to minimize the operational costs of each and to insure for the benefit of the general public, a continuous scheduled service, maintain its own tariff, rate all cargoes solicited on its own bill of lading and be liable to the public in accordance with existing laws.

Charges between carriers are to be determined in accordance with the service performed on each shipment or commodity as scheduled. The agreement also contains provisions relating to loss or damage to shipments, actual or hidden, and to termination of the arrangement.

By order of the Federal Maritime Commission.  
Dated: February 23, 1973.  
FRANCIS C. HURNEY,  
Secretary.

Managing Director.  
[FR Doc. 73-3944 Filed 3-1-73; 8:45 am]

# PORT OF PORTLAND AND PACIFIC MOLASSES CO. Notice of Agreement Filed

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1405 I Street NW., Room 1015, or may inspect the agreement at the field offices located at New York, N.Y., New Orleans, La., and San Francisco, Calif. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, on or before March 22, 1973. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

Notice of agreement filed by:  
Brian J. Freeman, Esq., Port of Portland, Box 3529, Portland, OR 97208.

Agreement No. T-2744, between the Port of Portland (Port) and Pacific Molasses Co. (PM), provides for the lease to PM of the entire bulk liquid and storage plant and land situated at the Port's Municipal Terminal No. 4. The "public facilities" portion of the premises are to be used primarily for public purposes in the movement of tallow, vegetable oils, and other products; the "industrial lands" portion of the premises are to be utilized for industrial purposes by PM and include an office, warehouse, molasses pump, molasses lines, truck scales, and all appurtenances thereof. The term of the lease of the "public facilities" portion extends to June 30, 1983 (with a 10-year renewal option), and the term for the "industrial lands" extends to June 30, 1993. Compensation to the Port will be as set forth in the agreement. In shipping its own tallow and other products through the facility, only wharfage will be applied against PM under certain cases. Otherwise, all Port tariff charges will be assessed against PM and other users of the facility.

By order of the Federal Maritime Commission.  
Dated: February 22, 1973.  
FRANCIS C. HURNEY,  
Secretary.

[FR Doc.73-3946 Filed 3-1-73; 8:45 am]

## NOTICES

# FEDERAL POWER COMMISSION [Projects 821, 1577—Alaska] ALASKA POWER SURVEY Order Vacating Land Withdrawals

FEBRUARY 23, 1973.

The Alaska Power Administration, Department of the Interior, has requested that the land withdrawals for Project Nos. 821 and 1577 be vacated in their entirety. The withdrawn lands are described below.

Project No. 821, comprising approximately 81 acres on Cascade and Rosa Creeks, Gravina Island, Alaska, contemplated the storage of 100 acre-feet of water at Upper and Lower Lakes on Rosa Creek and the diversion of flows from Rosa Creek to Cascade Creek and from Cascade Creek to a 60-horsepower water wheel connected to a generator in a fish cannery on the shore of Tongass Narrows. The license for Project No. 821 was issued September 18, 1928, and was terminated June 8, 1932, because the licensee failed to begin construction. This site has no significant power potential since its drainage area is less than 2 square miles.

Project No. 1577, comprising approximately 36.5 acres on Kodiak Island, Alaska, was to consist of a small reservoir on Chip Creek and a diversion to a powerhouse with an installed capacity of 100 horsepower. The license for project No. 1577 was issued October 1, 1940, and surrendered effective December 31, 1945. The site for project No. 1577 is now occupied by a reservoir and pipeline under authority of a Bureau of Land Management right-of-way issued to CWC Fisheries, Inc. In its application for the right-of-way CWC Fisheries advised the Bureau of Land Management that the reservoir and pipeline would not be used for hydroelectric development. This site has no significant power potential since its drainage area is only about three square miles.

The Commission finds:  
The land withdrawals for projects Nos. 821 and 1577 no longer serve a useful purpose and should be vacated in their entirety.

The Commission orders:  
The land withdrawals for projects Nos. 821 and 1577 are hereby vacated in their entirety.

By the Commission.  
[SEAL] KENNETH F. PLUMB,  
Secretary.

1. Project No. 821  
CASCADE AND ROSA CREEKS, GRAVINA ISLAND, ALASKA

All lands within the project boundaries described in revised "Exhibit C" of the project application entitled "Field Notes and Description of the Final Location of the Project Boundary," and as shown on a map of two sheets, designated "Exhibit F" and "Exhibit FI" respectively, and entitled "Map Showing Project Boundary Accompanying Application for License (Minor Project) of Libby, McNeill, & Libby, Situated on Cascade and Rosa Creeks, northeast shore of Gravina Island, 6 nautical miles northwest of Ketchikan, Alaska," and filed in the office

of the Federal Power Commission on June 9, 1928. (Approximately 81 acres.)  
2. Project No. 1577

KODIAK ISLAND, ALASKA

All lands of the United States situated near the west shore of Chip Cove, Moser Bay, an arm of Alitak Bay, within the portion of the project boundaries included in a strip of land 200 feet in width embracing the proposed ditch, flume, pipeline, powerhouse, and transmission line locations, between the outlet of Lake Suryan and the boundary of U.S. Survey No. 2371; also all lands lying within the project boundary surrounding the shore line of Lake Suryan; all as shown on a map designated "Exhibit F" and entitled "Map Accompanying Application of the Far North Packing & Shipping Co., Inc., for license for water power project on Chip Creek and Lake Suryan on Moser Bay, Kodiak Island—Territory of Alaska," and filed in the office of the Federal Power Commission on April 7, 1939; also all U.S. lands lying within the project boundary shown on said map as revised January 3, 1940. (Approximately 36.5 acres.)

[Docket No. E-7775]

APPALACHIAN POWER CO.  
Further Extension of Procedural Dates

FEBRUARY 23, 1973.

On February 15, 1973, the Commission Staff filed a motion for an extension of the service dates in the above matter as established by the order issued October 20, 1972, and modified by a notice issued on January 16, 1973. The motion states that all parties concur in the request.

Upon consideration, notice is hereby given that the procedural dates in the above matter are further modified as follows:

Staff's evidence service date, March 27, 1973.  
Interveners' service date, April 17, 1973.  
Prehearing Conference, April 24, 1973.  
Company rebuttal service date, May 1, 1973.  
Hearing, May 15, 1973.

KENNETH F. PLUMB,  
Secretary.  
[FR Doc.73-3902 Filed 3-1-73; 8:45 am]

[Docket No. G-5236]

CABOT CORP.  
Petition To Amend

FEBRUARY 22, 1973.

Take notice that on February 10, 1973, Cabot Corp. (Petitioner), Post Office Box 1473, Charleston, W. Va. 25325, filed in Docket No. G-5236 a petition to amend the order issuing a certificate of public convenience and necessity pursuant to section 7(c) of the Natural Gas Act by authorizing the establishment of an additional point for delivery of natural gas to Consolidated Gas Supply Corp. (Consolidated) and the delivery of natural gas to Consolidated at that point for transportation and exchange, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Petitioner presently exchanges natural gas with Consolidated under the terms of Petitioner's FPC Gas Rate

Any person desiring to be heard or to make any protest with reference to said filing should do so before March 12, 1973, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed by the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The applications are on file with the Commission and available for public inspection.

Docket No.	Date filed	Name of applicant	Action
E-7829.....	11-13-72	Minnesota Power & Light Co.	Filing of municipal interchange agreement dated Aug. 16, 1972, between the city of Tow Haddon and Minnesota Power & Light Co. This agreement supersedes Federal Power Commission Rate Schedule No. 87. It is requested that this agreement become effective as soon as possible.
E-7981.....	6-17-71	New Bedford Gas & Edison Light Co.	Filing of transmission agreement dated Mar. 29, 1966, by and among Boston Edison Co., Mountaun Electric Co., New England Power Co., New Bedford Gas & Edison Light Co. The company states that it reserves the right to contest the jurisdictional status as a public utility and the filing of this transmission agreement is reserved to the question of jurisdiction.
E-7974.....	1-10-73	Monterey Utilities Corp.	The company filed an executed amendment dated Nov. 4, 1972, to the purchase agreement dated Feb. 15, 1972, between Monterey Utilities Corp. and Bath-Allegany Rockbridge County's Cooperative, which amendment substitutes for the clause conforming to the fuel clause contained in Monterey Utility Corp.'s wholesale purchase agreement with Monongahela Power Co. (Monongahela Power Co., Supplement No. 2 to Rate Schedule FPC No. 3). The company states that the charged has been modified by adding the fuel cost differential between \$0.18 per million B.t.u. and \$0.26 per million B.t.u. to the energy charge contained in the rate schedule originally submitted. This change was to equalize cost of service as of Apr. 1, 1972, the proposed effective date of the amended fuel cost adjustment clause.
E-7988.....	1-19-73	Philadelphia Electric Co.	Philadelphia Electric Co. filed cancellation of rate schedule FPC No. 24 to become effective Mar. 30, 1973.
E-7991.....	1-22-73	Kansas City Power & Light Co.	Filing of initial rate schedule designated as municipal wholesale power contract dated Jan. 3, 1973, between Kansas City Power & Light Co. (company) and city of Pomona, Kansas (City). The rate schedule is a company standard schedule of rates and charges for municipal wholesale power service (schedule NWP #1) currently in effect and on file with the Commission. The proposed effective date of Feb. 15, 1973, is requested. Waiver of the 30-day filing requirement is requested so that the filing may become effective Feb. 15, 1973.
E-7995.....	1-22-73	Saint Joseph Light & Power Co.	Filing of notice of cancellation of rate schedule FPC No. 3. The company states that the town of Easton discontinued electric service purchases on Nov. 29, 1968.
E-8004.....	1-29-73	Arizona Public Service Co.	Filing of billing for the months of October, November, and December under FPC Rate Schedule No. 3.
E-8006.....	1-29-73	Northern States Power Co.	Filing of firm power service resale agreement, dated Aug. 1, 1972, between Northern States Power Co. and the village of Kasson. The agreement to precede the date of filing is dated Jan. 1, 1962, and the letter agreement dated June 22, 1966, designated as Northern States Power Co. (Minnesota) Rate Schedule FPC No. 180 and Supplement No. 2 to Rate Schedule FPC No. 180.
E-8007.....	1-29-73	Northern States Power Co.	Filing of firm power service resale agreement, Nov. 20, 1972, between Northern States Power Co., and the city of Arlington. The agreement supersedes the previous agreement dated Jan. 1, 1963, and the letter agreement, dated June 22, 1966, designated as Northern States Power Co. (Minnesota) Rate Schedule FPC No. 173 and Supplement No. 2 to Rate Schedule FPC No. 173.
E-7992.....	1-22-73	Public Service Co. of Oklahoma.	Filing of information concerning the company's request for a change in rates of the Markham ferry coordinating agreement, Rate Schedule FPC No. 162 for the calendar year 1973. The company states that the request for change is based upon the terms and conditions of the Aug. 1957 Markham ferry coordinating agreement between Grand River Dam Authority and Public Service Co. of Oklahoma, provides for changes in rates when certain specific costs are above or below the cost of the base year. The company proposes the following rate schedules be applicable for sales upon acceptance of the above identified request for the Commission. Capacity sold under the rate will be purchased under the J rate will be 3.10 mills per kilowatt hour rate change from rate 1972 of 2.83 mills per kilowatt hour. Capacity sold under the H rate will be 4.77 mills per kilowatt hour which is a change from 4.35 mills per kilowatt hour in 1972. Capacity sold under the K rate will be at a rate of 3.10 mills per kilowatt hour in 1973 which is a change from 2.83 mills per kilowatt hour in 1972. Electric power delivered to the Eastern State Hospital and the General Headquarters Building in Veneta, Okla., will remain the same as in 1972, \$0.004 per kilowatt hour per month. For emergency power in excess of the proposed rates do not change the date of demand changed for kilowatt hour for \$0.0462 cents nor does it change the rate for emergency service for more than 24 hours. The existing maximum of \$1.20 per kilowatt hour during any calendar month. Purchasing parties shall pay 3.72 mills per kilowatt hour for emergency energy which is change from the 1972 price of 3.42 mills per kilowatt hour. Company requests waiver of the Commission's notice requirements so that the proposed rates may become effective Jan. 1, 1973.
E-8002.....	12-11-72	Duke Power Co.	Filing of a supplement to the company's electric power contract with the city of Greer. This contract is on file with the Commission as been designated Duke Power Co. Rate Schedule FPC No. 226. The company states that the customer has requested increase capacity at two delivery points of 8,000 kilowatts at 4,160.2, 400 volts and 12,000 kilowatts at 12,470, 7,200 volts. The submission filed above reflects the actual facilities cost and charge to provide for the increased power requirements amounts to \$462.23 per month.

## 5687

E-5032... 4-12-72 American Electric  
Power Service Corp.

[illegible]

## NOTICES

Packet No.	Date filed	Name of applicant	Action
E 8028	2-9-73	Puget Sound Power & Light Co.	Company filed an agreement dated Sept. 1, 1972, between Montana Power Co., The Washington Water Power Co., and Puget Sound Power & Light Co. The company states that agreement provides for the exchange of capacity energy between the parties. The payment specified in the agreement is a negotiated figure based on economic factors presently existing in the Northwest region. The company requests waiver of the Commission's notice requirements so that the agreement may be made effective Sept. 1, 1972.
E 8029	2-9-73	Duke Power Co.	Company filed a supplement to the company's Electric Power Contract with the city of Rock Hill. The underlying contract is on file with the Commission and has been designated Duke Power Co. Rate Schedule FPC No. 228. The company requests an effective date of Mar. 21, 1973.
E 8030	2-12-73	Wisconsin Electric	Company filed a copy of a letter agreement dated Jan. 29, 1973, between Wisconsin Electric Power Co., and Wisconsin Power & Light Co. This agreement is in respect to power and light purchasing 30 megawatts of power from Wisconsin Electric for a period of 2 weeks beginning Jan. 29, 1973, and ending Feb. 11, 1973. Company requests waiver of the Commission's 30-day notice requirement in order that the agreement may become effective Jan. 29, 1973.
E 8031	2-12-73	Alabama Power Co.	Company filed an agreement dated Oct. 18, 1972, with the Black Warrior Electric Membership Corp., Demopolis, Ala., pursuant to the company's filed tariff rate schedule REA-1 filed with the Commission Nov. 1, 1971. Company states that all parties are in agreement with the rate schedule as filed.
E 8035	2-14-73	Interstate Power Co.	Company filed an electric service agreement and a transmission services agreement between Interstate Power Co. and the city of Worthington, Minn., both dated Jan. 10, 1973. The company states that the electric service agreement supercedes and cancels the previous electric service agreement dated Apr. 2, 1962, which has been designated as Interstate Power Co. Rate Schedule FPC No. 30. The company requests waiver of the Commission's regulations so that an effective date of Feb. 20, 1973, may be designated.
E 8036	2-14-73	Wisconsin Electric Power Co.	Company filed a letter agreement dated Jan. 29, 1973, between Wisconsin Electric Power Co. and Northern States Power Co. This agreement is in respect to Northern States purchasing 50 megawatts of power from Wisconsin Electric for a period of 1 week beginning Jan. 22, 1973, ending Jan. 28, 1973. The company states that due to Northern States need for capacity energy for a shortage of fuel and maintenance of generating facilities and the short notice of available capacity from an other system the transaction was finalized without benefit of prior approval of the Commission. Accordingly, the company requests waiver of the Commission's 30-day notice requirement to allow the agreement to become effective Jan. 22, 1973.

KENNETH F. PLUMB,  
Secretary.

[Docket No. RP71-106]

## CITIES SERVICE GAS CO.

## Order Suspending Proposed Increased Rates, Providing for Hearing and Permitting Interventions

FEBRUARY 22, 1973.

On January 2, 1973, Cities Service Gas Co. (Cities Service) filed Fourth Revised Sheet No. PGA-1 to its FPC Gas Tariff, Second Revised Volume No. 1,<sup>1</sup> proposing a jurisdictional rate increase of \$0.0059 per Mcf, or \$2,089,098 annually based on sales for the 12 months ended November 22, 1972, to become effective on February 23, 1973, and to remain in effect for a period of 3 years. The filing is made pursuant to section 3 of Article X of the Stipulation and Agreement approved by Commission order issued March 1, 1972, in this proceeding, and is designed for the limited purpose of recovering a total

<sup>1</sup> The company tendered two Fourth Revised Sheets No. PGA-1, both reflecting the \$0.0059 per Mcf increase. The sheet contained in Appendix A of the filing reflects the \$0.0148 per Mcf adjustment also tendered on Jan. 2. The alternate sheet contained in appendix C reflects the \$0.0129 adjustment tendered as an alternate to the \$0.0148 adjustment and

amount of \$5,620,092, the jurisdictional portion of a payment, together with accrued interest, made by Cities Service to Western Natural Gas Co. (Western) in satisfaction of a final and nonappealable judgment in Western's action against Cities Service in the Oklahoma County District Court, Okla., Case No. 175,435.<sup>2</sup> Section 3 of Article X of the agreement permits Cities Service to file for an increase in jurisdictional rates to reflect payments it makes to Western as result of that action. Upon recoupment of said amount plus simple interest at 7 percent, Cities Service proposes to eliminate the \$0.0059 per Mcf from its then effective jurisdictional rates.

Cities Service proposes to maintain a special memorandum account showing the principal amount of \$5,620,092 to be recovered and credits against such ac-

accepted by the Commission.

<sup>2</sup> The judgment, which amounts to \$6,843,097 in total, arose out of action on a contract dated Sept. 29, 1949, covering the sale of gas from the Kansas-Hugoton Field for a period of 10 years from the date of initial delivery, Apr. 1, 1950.

count equal to revenues received periodically as a result of the increase less accumulated interest at 7 percent on the unamortized balance. Cities Service also proposes to file semiannual reports with the Commission with respect to said memorandum account and serve copies thereof upon its jurisdictional customers, affected State Commission, and parties to this proceeding.

Protests to the filing and petitions to intervene were filed jointly by Midwest Industrial and Commercial Gas Users Association and Armo Steel Corp., the City Group Defense Association and the State Corporation Commission of the State of Kansas. A protest and petition for declaratory order was filed by the Kansas Municipal Intervenor Group (MIG). A petition to Intervene was filed by the Gas Service Co.

MIG requests that the Commission issue a declaratory order finding that the payment of money damages by Cities Service to Western in the circumstances of this proceeding is not a legitimate cost of service item and rejecting the company's proposed tariff sheet. MIG contends that the Oklahoma court found that Cities Service had made bad faith representation to this Commission which obstructed Western's abandonment application and that Cities Service was thus liable for breach of contract. MIG urges that Cities Service's proposed rate increase is an unlawful attempt to require its customers to absorb a cost resulting from Cities Service's own wrongdoing and that this is a risk to be borne by the company's shareholders.

The matters set forth in the filing and MIG's pleading raise issues which require development in an evidentiary proceeding. Accordingly we shall provide for hearing herein and shall suspend the proposed increased rates for 1 day. The proposed increased rates and charges have not been shown to be justified and may be unjust, unreasonable, unduly discriminatory or preferential or otherwise unlawful.

The Commission finds:

(1) It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the rates and charges contained in Cities Service's FPC Gas Tariff, as proposed to be amended herein, and that the proposed increased rates tendered on January 2, 1973, be suspended and the use thereof be deferred as herein provided.

(2) The participation of the aforesaid Petitioners may be in the public interest. The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure and the regulations under the Natural Gas Act (18 CFR Chapter I) a public hearing be held commencing with a prehearing conference on April 10, 1973, at 10 a.m., e.s.t.,

in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, DC 20426, concerning the lawfulness of the rates, charges, classifications and services contained in Cities Service's FPC Gas Tariff, as proposed to be amended herein.

(B) Pending such hearing and decision thereon, Cities Service's Fourth Revised Tariff Sheet No. PGA-1 in appendix C of the filing is hereby suspended and the use thereof deferred until February 24, 1973, and shall become effective on that date, subject to refund in accordance with the provisions of the Natural Gas Act and the regulations thereunder, and subject to the following conditions:

(1) Cities Service shall maintain a special memorandum account showing the principal amount to be recovered and shall credit such account with amounts equal to revenues received from time to time under the rate increase herein permitted to become effective less accumulated interest at 7 percent annually on the unamortized balance of the principal amount to be recovered; and shall semi-annually report to the Commission the entries made to such account and shall serve copies thereof on each of its jurisdictional customers, each affected State commission and each party to this proceeding.

(2) Upon recovery of the total principal to be recovered from jurisdictional customers, Cities Service shall file revised tariff sheets reducing its rates by \$0.0059 per Mcf from the rate levels then in force and effect, including such rates, if any, which Cities Service at that time may have under suspension.

(C) At the hearing on April 10, 1973, Cities Service's prepared testimony and exhibits shall be admitted to the record.

(D) Following admission of the evidence of Cities Service the parties shall proceed to effectuate the intent and purpose of § 2.59 of the Commission's rules of practice and procedure.

(E) On or before March 30, 1973, Cities Service shall serve its prepared testimony and exhibits. The Commission staff shall serve its prepared testimony and exhibits on or before April 20, 1973. The prepared testimony and exhibits of any and all interveners shall be served on or before May 4, 1973. Any rebuttal evidence by Cities Service shall be served on or before May 18, 1973. Cross-examination of the evidence shall commence on May 30, 1973.

(F) A Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge for that purpose (see Delegation of Authority, 18 CFR 3.5 (d)) shall preside at and control this proceeding in accordance with the policies expressed in the Commission's rules of practice and procedure and the purposes expressed in this order.

(G) The aforesaid petitioners are hereby permitted to intervene in this proceeding subject to the rules and regulations of the Commission: *Provided however*, That the participation of such interveners shall be limited to matters affecting rights and interests specifically set forth in their petitions to intervene;

## NOTICES

and *Provided further*, That the admission of such interveners shall not be construed as recognition by the Commission that they, or any of them, might be aggrieved because of any order or orders which may be issued by the Commission in this proceeding.

(H) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

[SEAL] KENNETH F. PLUMB,  
Secretary.

[FR Doc.73-3901 Filed 3-1-73; 8:45 am]

[Docket No. E-8029]

## DUKE POWER CO.

## Proposed Changes in Rates and Charges

FEBRUARY 22, 1973.

Take notice that Duke Power Co. (Duke) on February 9, 1973, tendered for filing a proposed supplement to its electric power contract with the city of Rock Hill. The proposed changes would decrease energy deliveries at Delivery Point No. 3 from 45,000 kw. to 35,000 kw. It would also create a new Delivery Point No. 3. Duke proposes an effective date of March 21, 1973, for the proposed changes.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 441 G Street NW., Washington, DC 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before March 8, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,  
Secretary.

[FR Doc.73-3896 Filed 3-1-73; 8:45 am]

[Docket No. RP73-17]

## GRANITE STATE GAS TRANSMISSION, INC.

## Proposed Rate Changes

FEBRUARY 22, 1973.

Take notice that Granite State Gas Transmission, Inc. on February 9, 1973, tendered for filing changes in its FPC Gas Tariff, Original Volume No. 1 to be effective March 1, 1973. The proposed changes would decrease revenues from jurisdictional sales by approximately \$225,365 annually, based on deliveries for the 12 months ended December 31, 1972. The instant filing is made pursuant to a purchased gas adjustment provision, previously approved by the Commission, on December 14, 1972, in Docket No. RP73-17.

Copies of the filing were served upon the Company's jurisdictional customers and affected State regulatory commissions.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 441 G Street NW., Washington, DC 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before March 5, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,  
Secretary.

[Docket No. E-7791]

## JAMES E. SMITH AND SOUTH CAROLINA ELECTRIC &amp; GAS CO.

## Filing of Complaint Against Licensee

FEBRUARY 23, 1973.

Public notice is hereby given pursuant to § 2.1 of Part 2, Statements of General Policy and Interpretations, Subchapter A, Chapter I of Title 18 of the Code of Federal Regulations, that a complaint was filed on October 9, 1972 (amended December 4, 1972) by James E. Smith alleging that South Carolina Electric & Gas Co., licensee for Saluda Project No. 516, located on the Saluda River in the Counties of Lexington, Newberry, Richland, and Saluda, S.C., has allowed and plans to allow in the future certain individuals to pollute the waters of Lake Murray, the reservoir formed by the project.

Complainant states that it is impossible to name all of the sources of pollution; that "every farm, residence, industry, place of recreation, or any other establishment or place used by human beings is suspect and must by necessity, be named as a class, as being among those who are polluting the waters of Lake Murray."

Complainant states that section 10a of the Federal Power Act (16 U.S.C. 803a) which establishes the standards

<sup>1</sup> Sec. 10. All licenses issued under this part shall be on the following conditions:

(a) That the project adopted, including the maps, plans, and specifications, shall be such as in the judgment of the Commission will be best adopted to a comprehensive plan for improving or developing a waterway or waterways for the use or benefit of interstate or foreign commerce, for the improvement and utilization of waterpower development, and for other beneficial public uses, including recreational purposes; and if necessary in order to secure such plan the Commission shall have authority to require the modification of any project and of the plans and specifications of the project works before approval.

## NOTICES

under which a license is granted requires a licensee to insure that the lake remain suitable for recreational purposes. Complainant further states that "It seems incumbent upon the Federal Power Commission and upon the South Carolina Electric & Gas Co. to do everything possible to explore with us . . . this complaint and formulate plans whereby a close control can be effected in order that Lake Murray will not be threatened by pollution."

Any person desiring to be heard or to make protest with reference to said complaint should on or before April 5, 1973, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to a proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and is available for public inspection.

KENNETH F. PLUMB,  
Secretary.

[FR Doc 73-3903 Filed 3-1-73; 8:45 am]

[Docket No. E-7812]

**MAINE PUBLIC SERVICE CO.**  
Filing of Initial Rate Schedule

FEBRUARY 22, 1973.

Take notice that on November 3, 1972, Maine Public Service Co. (Main Public) filed an initial rate schedule described as a power purchase agreement between Maine Public Service Co. and Consolidated Edison Company of New York (Con Edison) dated March 1, 1972. Maine Public states that it is one of the 11 initial purchasers of Maine Yankee. By its power purchase agreement with Con Edison, Maine Public states that it agrees to sell, and Con Edison agrees to purchase, Maine Public's entitlements in the power output of the Maine Yankee plant for a period commencing with the commercial operation date of Maine Yankee and ending on October 31, 1976. Maine Public requests that since the commercial operation date is indeterminable the filing be accepted for filing by the Commission at this time and that it become effective as a rate schedule on December 15, 1972, or such earlier date at which the commercial operation date at a Maine Yankee plant is obtained. Maine Public states that the conditions of the power purchase agreement have been obtained or are reasonably expected to be obtained prior to the requested effective date.

The service to be furnished under the rates schedule is the sale of 5 percent of the capacity and output of the Maine

Yankee unit delivered at 345 kv. from the Maine Yankee station transformer. It is estimated that during the first year of operation the quantity of electricity to be sold under this rate schedule will be 198,450 MWH and that the associated cost will be \$2,000,385.

Maine Public states that it will make no sale of capacity or energy other than those under the rates being filed.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 441 G Street NW, Washington, DC 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before March 5, 1973. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,  
Secretary.

[FR Doc 73-3898 Filed 3-1-73; 8:45 am]

[Docket No. E-7723]

**POTOMAC EDISON CO.**

**Motion for Approval of Settlement Offer**

FEBRUARY 23, 1973.

Take notice that the Potomac Edison Co. (PE) tendered for filing on February 1, 1973, as supplemented on February 20, 1973, a motion for approval of an attached settlement offer which is intended to resolve all issues in the above captioned proceeding. PE also requests the Commission amend its order of December 6, 1972, to postpone all procedural dates until 60 days after the Commission has acted upon the proposed settlement offer. PE proposes an effective date of December 11, 1972, the date in which the rates proposed in this docket become effective subject to refund.

PE states that the proposed rates would produce rates of return varying from a low of 5.49 percent to a high of 7.08 percent, and would place into effect a fuel cost adjustment clause which recognizes the fuel cost of energy generated by PE and in energy purchased by PE from other companies in the Allegheny Power System, but does not recognize increases or decreases in fuel cost of energy purchased from others than those which are members of the Allegheny Power System. PE states further that the proposed rates are not objected to by its customers to be served thereunder.

Copies of this filing are on file with the Commission and are available for public inspection. Any person desiring to comment upon the offer of settlement should file such comments with the Federal Power Commission, 441 G Street NW,

Washington, DC 20426, on or before March 9, 1973.

KENNETH F. PLUMB,  
Secretary.

[Docket No. E-7723]

**POTOMAC EDISON CO.**

**Further Extension of Procedural Dates**

FEBRUARY 23, 1973.

On February 1, 1973, The Potomac Edison Co., filed a motion for approval of settlement offer and to extend time to file updated cost evidence and exhibits as required by the order issued July 11, 1972, and amended by notices issued November 8 and December 6, 1972.

Upon consideration, notice is hereby given that the procedural dates are further modified as follows:

Company's case in chief . . .	March 15, 1973.
Testimony and exhibits of staff . . .	June 15, 1973.
Prehearing conference . . .	June 28, 1973 (10 a.m., e.d.t.).
Rebuttal evidence, if any, The Potomac Edison Co. . .	July 19, 1973.
Cross-examination . . .	August 9, 1973 (10 a.m., e.d.t.).

KENNETH F. PLUMB,  
Secretary.

[FR Doc 73-3905 Filed 3-1-73; 8:45 am]

[Docket No. CI72-680]

**TEXAS GAS EXPLORATION CORP.**

**Order Modifying Temporary Certificate on Rehearing**

FEBRUARY 23, 1973.

The Commission by letter order issued December 7, 1972, granted temporary certificate authorization in the above-captioned proceeding to Texas Gas Exploration Corp. (Texas Gas) to sell natural gas to Columbia Gas Transmission Corp. (Columbia) from the Garden City Field, St. Mary Parish, La., under its FPC Gas Rate Schedule No. 32 at a rate of \$0.21375 per Mcf. An application for rehearing and reconsideration of said letter order was filed by Texas Gas on December 18, 1972.

Texas Gas in its application for rehearing avers that two specific issues were prejudged by the aforesaid letter order: (1) Whether Texas Gas' gas was dedicated prior to its March 2, 1972, contract, with Columbia, and (2) whether the subject gas is entitled to the area rate for new gas.<sup>1</sup>

Pending resolution of the issues in this proceeding, we believe it appropriate to modify the subject temporary certificate, as follows:

(1) The second paragraph of page 1 of the letter order relating to dedication should be deleted.

<sup>1</sup> An order granting rehearing was issued on Jan. 17, 1973, for the purpose of further consideration of the issues raised by Texas Gas.

## NOTICES

(2) Condition (1) on page 2 of the letter order should be deleted and replaced by the following condition:

(1) The total price for the proposed service shall be \$0.26 per Mcf at \$0.15025 p.s.i.a. subject to the quality adjustment prescribed in Opinion No. 598 and seven-eighths of the additional Louisiana State severance tax subject, however, to your refunding to the buyer with interest at 7 percent per annum, any amounts collected in excess of the rate finally determined to be required by the public convenience and necessity in the subject docket.

In all other respect, the terms and conditions previously set forth in the temporary certificate issued in Docket No. CI72-680 shall remain in full force and effect.

The interest of Texas Gas in gas produced from the acreage dedicated under its March 2, 1972, contract with Columbia was previously sold under the provisions of a June 28, 1963, contract between Isaac Arnold et al. and Columbia (to which Texas Gas was not a signatory party) pursuant to an operating agreement between Texas Gas and the operator of the properties. The basic question involved here is whether in these circumstances Texas Gas is entitled to the new gas or flowing gas ceiling under Opinion No. 598. In order to resolve the issues in this proceeding and to expedite the formal hearing provided herein, we shall also provide for a prehearing conference.

The Commission orders:

(A) The application for rehearing filed by Texas Gas in Docket No. CI72-680 is granted, the second paragraph on page 1 of the December 7, 1972, letter order is deleted and the following condition is substituted for condition (1) on page 2 of the December 7, 1972, letter order:

(1) The total price for the proposed service shall be \$0.26 per Mcf at \$0.15025 p.s.i.a. subject to the quality adjustment prescribed in Opinion No. 598 and seven-eighths of the additional Louisiana State severance tax subject, however, to your refunding to the buyer with interest at 7 percent per annum, any amounts collected in excess of the rate finally determined to be required by the public convenience and necessity in the subject docket.

(B) Pursuant to the authority of the Natural Gas Act, particularly sections 4, 5, 7, and 16 thereof, the Commission's rules of practice and procedure and the regulations under the Natural Gas Act, a public hearing shall be held concerning the issues in Docket No. CI72-680, pursuant to the procedures prescribed herein.

(C) In order to resolve the issues in this proceeding and to expedite the hearing provided for in ordering paragraph (B), supra, a prehearing conference shall be held in accordance with § 1.18(c) of the rules of practice and procedure, in a hearing room of the Federal Power Commission, 441 G Street NW, Washington, DC 20426, on March 27, 1973, at 10 a.m., e.d.t., concerning such issues.

(D) A Presiding Administrative Law Judge, to be designated by the Chief Administrative Law Judge for that purpose (see Delegation of Authority, 18 CFR

3.5(d)), shall convene the prehearing conference in this proceeding.

(E) After convening the prehearing conference provided for herein, the Administrative Law Judge may recess the same to provide the parties an opportunity for the submission and consideration of facts, arguments, offers of settlement, or proposals of adjustment for settlement of the issues in this proceeding.

(F) The Administrative Law Judge may in his discretion grant recesses from time to time if he deems settlement or submission of the issues upon stipulated facts to be possible. If no settlement or stipulation can be reached by the parties hereto after reasonable time and provision has been made for the same, the procedural dates for service of prepared testimony and exhibits, and for hearings on the issues herein shall be fixed by the Administrative Law Judge.

(G) Notices of intervention or petitions seeking leave to intervene in this proceeding shall be filed with the Federal Power Commission, Washington, D.C. 20426 in accordance with the rules of practice and procedure, 18 CFR 1.8 and 1.37(f), on or before March 16, 1973.

By the Commission.

[SEAL] KENNETH F. PLUMB,  
Secretary.

[FR Doc 73-3899 Filed 3-1-73; 8:45 am]

[Dockets Nos. CP71-68, CP71-289]

**COLUMBIA LNG CORP. AND CONSOLIDATED SYSTEM LNG CO.**

**Order on Petition To Amend Project and Motion for Summary Order and Public Conference**

FEBRUARY 23, 1973.

On June 28, 1972, the Commission issued Opinion No. 622, which inter alia issued certificates of public convenience and necessity, subject to certain conditions, under section 7(c) of the Natural Gas Act, to Columbia LNG Corp. (Columbia) and Consolidated System LNG Co. (Consolidated) for the construction and operation of facilities at Cove Point, Md., to receive, regasify, and transport liquefied natural gas (LNG). In our rehearing order, Opinion No. 622-A, issued October 5, 1972, we modified certain conditions of those certificates, none of which conditions affect the scope of this order. Petitions for review of Opinions Nos. 622 and 622-A were thereafter filed by El Paso Algeria Corp. (El Paso), Sierra Club et al., Southern Natural Gas Co., Columbia, Potomac Basin Federation, and Consolidated, which petitions for review were consolidated in the U.S. Court of Appeals for the Fifth Circuit. El Paso Algeria Corp. v. FPC, No. 72-3122, et al.

On December 8, 1972, Columbia and Consolidated filed a petition to amend Opinions Nos. 622 and 622-A, so as to eliminate a trestle and substitute a tunnel to connect the proposed docking facilities with the land-based facilities at

Cove Point and certain related changes in the unloading facilities. In that petition, it is stated that "Intervenor (Sierra Club and Maryland Conservation Council) have agreed to withdraw their appeal upon approval by the Commission of the amendments herein proposed." (P. 2.)

On January 2, 1973, the U.S. Court of Appeals for the Fifth Circuit granted a motion of El Paso, Columbia, and Consolidated, and issued an order for the limited purposes of (1) granting Columbia and Consolidated leave to file the petition to amend, (2) authorizing the Commission to act upon said petition to amend, and (3) remanding the record and granting leave to proceed before the Commission on the petition to amend.

On February 16, 1973, Columbia, Consolidated, and El Paso filed a motion requesting (1) a summary order that the petition to amend does not involve a major Federal action significantly affecting the quality of the human environment, and (2) a public conference of Commissioners, Commission staff, executives of Columbia, Consolidated, and El Paso, and all other parties.

By letters of December 14, 1972, and February 2, 1973, our staff requested information from Columbia and Consolidated concerning the substitution of a tunnel for the trestle at Cove Point to "assist Staff in evaluating the environmental impact" of the petition to amend. Columbia indicated that preparation of the answers to the February 2, 1973, letter would require until March 31, 1973, (motion, Appendix A, p. 7). We will defer action on the petition to amend and motion for summary order pending Columbia's response to the February 2 letter, with the exception of Question No. 43, to which no response is required at this time. Such response will enable the Commission to determine if the petition to amend constitutes a major Federal action significantly affecting the quality of the human environment so as to require preparation and circulation of an environmental statement under section 102(2)(C) of the National Environmental Policy Act and the Commission's rules, § 2.80, et seq. We would urge Columbia to complete its response earlier than March 31, 1973, so as to expedite ultimate resolution by the Commission of the issues in the remanded proceeding. In addition to the questions in the February 2, 1973, letter, Columbia should also answer the following:

44. Discuss in detail the technical feasibility of the proposed tunnel at Cove Point and technical alternatives to the proposed tunnel at Cove Point.

We deny the motion for a public conference inasmuch as if the evidence required by the Commission to meet its responsibilities to serve the public interest is furnished as requested herein, no useful purpose would be served by such a public conference.

The Commission orders that:

(A) Commission action on the petition to amend filed December 8, 1972, and

## NOTICES

that portion of the February 16, 1973, motion for summary order determining the amendment involves no major Federal action significantly affecting the quality of the human environment is deferred.

(B) The February 16, 1973, motion for a public conference of Commissioners, Commission staff, and parties is denied.

(C) Columbia shall respond to staff's letter of February 2, 1973 (except Question No. 43) and Question No. 44, as indicated in the above order, and is encouraged to make a complete response before March 31, 1973.

By the Commission.

[SEAL] KENNETH F. PLUMB,  
Secretary.

[FR Doc 73-3994 Filed 3-1-73; 8:45 am]

[Docket No. RP73-72]

**CONSOLIDATED GAS SUPPLY CORP.**  
**Order Instituting Proceeding and Granting Intervention**

FEBRUARY 21, 1973.

On January 5, 1973, Consolidated Gas Supply Corp. (Consolidated) tendered for filing proposed changes in its FPC Gas Tariff, First Revised Volume No. 1, in purported compliance with section 4 of the Natural Gas Act. The filing, consisting of Original Sheet No. 52-E, Second Revised Sheet No. 53, and First Revised Sheet No. 53-A, proposes a transportation adjustment clause which would permit Consolidated to adjust its rates without having to make a general rate increase filing, to reflect increases in its costs of transportation service by others. The rate adjusting authority requested is limited to transportation service authorized by the Commission in Dockets Nos. CP72-183 et al., on August 23, 1972.

Consolidated states that in order to replace curtailed volumes and to maintain its gas supply situation, it has expanded its production activities in the Louisiana Gulf Coast Area and in other gas-producing Southern States. However, Consolidated has no transportation facilities from these southern fields and thus must contract for transportation by other pipelines to its system. The cost of such additional gas supplies are reflected in Consolidated's rate pursuant to the provision of its Purchase Gas Adjustment (PGA) clause. Consolidated contends that such costs, excluding transportation costs, will always be less than the average cost of its traditional gas supply. As a result, under its PGA clause, Consolidated states that it will be forced to reflect decreases in the average cost of purchased gas, to the extent that it acquires new gas supplies in the Gulf Coast, despite the fact that at the same time it will be experiencing an overall increase in its gas supply costs due to the excluded transportation costs. Thus, without the proposed clause, Consolidated states that it may be required to make repetitive rate filings each time the level of transported volumes change

or each time the transportation service rates change. Consolidated requests that if the Commission suspends the proposed tariff changes, the suspension period be for 1 day and that the matter be set promptly for hearing.

The filing was noticed on January 18, 1973, with the period for protests or petitions to intervene ending on January 25, 1973. Rochester Gas and Electric Corp. timely filed a petition to intervene. Letters in support of Consolidated's proposed clause were received from three of its customers: Corning Natural Gas Corp., New York State Electric and Gas Corp., and the Pavilion Natural Gas Co. Section 154.38(d) (3) of the regulations under the Natural Gas Act specifically prohibits automatic rate adjustments through the use of clauses similar to the one contained in this filing. Moreover, there may be other costs which decrease or perhaps offset the effect of the increased costs in transportation. Such costs have traditionally been considered only in the context of a general rate increase filing. Accordingly, Consolidated's proposed inclusion of a transportation charge adjustment clause in its FPC Gas Tariff is improperly filed pursuant to Section 4 of the Act and our regulations thereunder.

However, assuming arguendo that Consolidated's statement of facts is correct, policy questions of first impression as well as questions of fact are raised which may require development in an evidentiary hearing. We have from time to time encouraged pipelines to take all reasonable steps to augment their supply of gas from conventional sources for the interstate market. We have also taken the initiative to resolve difficulties facing all companies under our jurisdiction consistent with our responsibility to the public interest. For example, in Orders Nos. 452 and 452-A we revised our Regulations to permit PGA clauses which were necessitated by the impact of rapidly rising costs in order to meet our responsibility of assuring an adequate and dependable supply of natural gas. There, the problem was not unique to any particular pipeline but rather was one facing the pipeline industry as a whole and therefore required revisions in our regulations. In the instant filing, Consolidated faces a set of alleged circumstances unique unto itself. Accordingly, consideration of Consolidated's problem will not be made in the context of an exception or revision in our existing regulations. Our practice has been to limit relief sought by individual companies that can demonstrate recurring cost increases which would require repetitive general rate increase filing. In those cases we have permitted limited term tracking of the cost but have not allowed, consistent with § 154.38(d) (3) of the regulations, an automatic adjustment clause in the Company's FPC Gas Tariff. Accordingly, we will upon our own motion set the issues raised by Consolidated's statement of facts for hearing. Further, if relief is justified it shall be limited to tracking authority for a specified period and shall only apply to the transporta-

tion service authorized by the Commission in Docket Nos. CP72-183, et al.

The Commission finds:

(1) Consolidated's proposed transportation charge adjustment clause is improperly filed under section 4 of the Natural Gas Act and the regulations thereunder.

(2) The issues raised in Consolidated's filing warrant, however, the institution of an investigation and hearing under section 5 of the Natural Gas Act.

(3) Participation in this proceeding of the above-named petitioners to intervene may be in the public interest.

(4) The disposition of this proceeding shall be expedited in accordance with the procedure set forth below.

The Commission orders:

(A) Consolidated's filing, containing original sheet No. 52-E, second revised sheet No. 53, and first revised sheet No. 53-A, is rejected.

(B) By our own motion we hereby order an investigation and hearing under section 5 of the Natural Gas Act to determine the propriety of granting Consolidated limited term tracking authority of transportation costs associated with the transportation service authorized in Docket Nos. CP72-183 et al.

(C) Pursuant to the authority of the Natural Gas Act, particularly section 5 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR Chapter 1), a public hearing shall be held, commencing with a prehearing conference on May 9, 1973, at 10 a.m., e.d.t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, DC 20426, concerning the propriety of granting Consolidated limited term tracking authority of transportation costs associated with the transportation service authorized in Docket Nos. CP72-183 et al.

(D) At the prehearing conference on May 9, 1973, Consolidated's prepared testimony together with its entire filing shall be admitted to the record as its complete case-in-chief subject to appropriate motions, if any, by parties to the proceeding. All parties will be expected to come to this conference prepared to effectuate the provisions of §§ 1.18 and 2.59 of the Commission's rules of practice.

(E) On or before April 6, 1973, the Commission Staff shall serve its prepared testimony and exhibits. The prepared testimony and exhibits of any or all intervenors shall be served on or before April 20, 1973. Any rebuttal evidence by Consolidated shall be served on or before May 4, 1973. Cross-examination of the evidence filed will commence on May 15, 1973.

(F) A Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge for that purpose (See Delegation of Authority, 18 CFR 3.5(d)), shall preside at the hearing in this proceeding, shall prescribe relevant procedural matters not herein provided, and shall control the proceeding in accordance with the policies expressed in

§ 2.59 of the Commission's rules of practice and procedure.

(G) Rochester Gas and Electric is hereby permitted to intervene in this proceeding subject to the rules and regulations of the Commission: *Provided, however, That the participation of such intervenor shall be limited to matters affecting rights and interests specifically set forth in its petition to intervene; and Provided, further, That the admission of such intervenor shall not be construed as recognition by the Commission that the petitioners might be aggrieved because of any order or orders issued by the Commission in this proceeding.*

By the Commission.

[SEAL] KENNETH F. PLUMB,  
Secretary.

[Docket No. CI73-543]

**DUER WAGNER & CO. ET AL.**  
**Notice of Application**

FEBRUARY 26, 1973.

Take notice that on February 16, 1973, Duerr Wagner & Co. (Operator), et al. (Applicants), 909 Fort Worth National Bank Building, Fort Worth, Tex. 76102, filed in Docket No. CI73-543 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to United Gas Pipe Line Co. from the Addie Bell Reed Lease, South Cabeza Creek Field, Goliad County, Tex., all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicants state that they commenced the sale of natural gas on February 2, 1973, within the contemplation of § 157.29 of the regulations under the Natural Gas Act (18 CFR 157.29) and that they propose to continue said sale for 1 year from the end of the 60-day emergency period within the contemplation of § 2.70 of the Commission's General Policy and Interpretations (18 CFR 2.70). Applicants propose to sell approximately 18,000 Mcf of gas per month at \$0.35 per Mcf at 14.65 p.s.i.a., including all adjustments and tax reimbursement.

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before March 12, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceed-

## NOTICES

ing or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

KENNETH F. PLUMB,  
Secretary.  
[FR Doc 73-3993 Filed 3-1-73; 8:45 am]

[Docket No. CP73-220]

**EL PASO NATURAL GAS CO.**  
**Notice of Application**

FEBRUARY 26, 1973.

Take notice that on February 16, 1973, El Paso Natural Gas Co. filed in Docket No. CP73-220 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of certain pipeline facilities and the delivery of natural gas to Northern Natural Gas Co. (Northern) for exchange, all as more fully set forth in the application on file with the Commission and open to public inspection.

Applicant states that it is currently authorized to exchange gas with Northern pursuant to an exchange agreement dated August 17, 1962, as amended, and that such agreement provides for the daily delivery of up to 575,000 Mcf of gas by Northern to Applicant at Applicant's Plains Compressor Station, Yoakum County, Tex., in exchange for a concurrent delivery of an equivalent amount of gas by Applicant to Northern at delivery points in the vicinity of Applicant's Dumas Compressor Station, Moore County, Tex., and various points of interconnection between Applicant's and Northern's gathering systems in Beaver County, Okla., and Ochiltree County, Tex. Applicant also states that it recently completed the successful drilling of 15 wells on its leasehold acreage in the Northwest Quinlan Field, Woodward County, Okla., and tests indicate the total proven recoverable reserves underlying that portion of Applicant's leasehold acreage are estimated to be 26.4 million Mcf, with an estimated maximum day deliverability of 8,470 Mcf of natural gas.

Applicant proposes to deliver on an exchange basis to Northern quantities of natural gas produced from its new supplies of gas in the Northwest Quinlan Field pursuant to the heretofore mentioned exchange agreement between Applicant and Northern under Applicant's currently effective Z-1 Rate Schedule. It is stated that Applicant and Northern have amended their August 17, 1962, exchange agreement, as amended, providing, inter alia, for an additional delivery point at the point of interconnection of Applicant's proposed 6 $\frac{1}{2}$ -inch O. D. pipeline and Northern's existing pipeline in Woodward County, Okla. Deliveries made to Northern at said facilities will not be subject to the 2 cents per Mcf facility rental charge collected by Applicant under Rate Schedule Z-1 for the delivery of certain volumes of gas and such delivery may, upon further agreement by the parties, be used for delivery of gas by Northern to Applicant. It is stated also that pursuant to said amendment, a portion of the authorized exchange quantities of gas, not to exceed 10,000 Mcf per day, will be delivered to Northern at the proposed facilities in Woodward County, Okla.

It is also stated that Applicant proposes to construct approximately 29.2 miles of 6 $\frac{1}{2}$ -inch O. D. pipeline from the proposed Quinlan Dehydration Plant to Northern's existing 16-inch O. D. pipeline, a river crossing of the proposed 6 $\frac{1}{2}$ -inch pipeline, crossing the North Canadian River, in Woodward County, Okla., and metering facilities at the point of interconnection between Northern's 16-inch O. D. pipeline and Applicant's proposed 6 $\frac{1}{2}$ -inch pipeline, all in Woodward County, Okla.

Applicant estimates that the total cost of the project will be \$1,840,064, to be financed initially by working funds, and supplemented, as necessary, by short-term borrowings.

Any person desiring to be heard or to make any protest with reference to said application should on or before March 19, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission

## NOTICES

on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,  
Secretary.

[FR Doc. 73-3996 Filed 3-1-73; 8:45 am]

[Docket No. CI73-539]

**GETTY OIL CO.**  
Notice of Application

FEBRUARY 26, 1973.

Take notice that on February 15, 1973, Getty Oil Co. (Applicant), Post Office Box 1404, Houston, TX 77001, filed in Docket No. CI73-539 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to Texas Eastern Transmission Corp. from the Houston central plant, Colorado County, Tex., all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to sell approximately 55,800 Mcf of gas per month for 1 year at \$0.45 per Mcf at 14.65 p.s.i.a., subject to upward and downward B.t.u. adjustment, within the contemplation of § 2.70 of the Commission's general policy and interpretations (18 CFR 2.70).

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before March 12, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without

further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Secretary.

[FR Doc. 73-3985 Filed 3-1-73; 8:45 am]

[Docket No. CI73-549]

**JAMES M. FORGOTSON, SR.**  
Notice of Application

FEBRUARY 26, 1973.

Take notice that on February 20, 1973, James M. Forgotson, Sr. (Applicant), 409 Beck Building, Shreveport, LA 71101, filed in Docket No. CI73-549 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to United Gas Pipe Line Co. from the Anse La Butte Field, St. Martin Parish, La., all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to sell up to 10,000 Mcf of gas per day for 1 year at \$0.40 per Mcf at 15.025 p.s.i.a., subject to upward and downward B.t.u. adjustment, plus reimbursement for all taxes, within the contemplation of § 2.70 of the Commission's General Policy and Interpretations (18 CFR 2.70).

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before March 12, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the

Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,  
Secretary.

[FR Doc. 73-3984 Filed 3-1-73; 8:45 am]

[Docket No. CI73-548]

**KERR-McGEE CORP.**  
Notice of Application

FEBRUARY 26, 1973.

Take notice that on February 20, 1973, Kerr-McGee Corp. (Applicant), Kerr-McGee Building, Oklahoma City, OK 73102, filed in Docket No. CI73-548 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to El Paso Natural Gas Company from the Hemphill Granite Wash (South) Field, Hemphill County, Tex., all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to sell approximately 30,000 Mcf of gas per month for the period commencing on the date of initial delivery under the requested authorization and ending July 1, 1974, at \$0.40 per Mcf at 14.65 p.s.i.a., subject to upward and downward B.t.u. adjustment, within the contemplation of § 2.70 of the Commission's General Policy and Interpretations (18 CFR 2.70).

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before March 12, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

## NOTICES

**NATIONAL POWER SURVEY TECHNICAL ADVISORY COMMITTEE ON RESEARCH AND DEVELOPMENT**

**Agenda of Fifth Meeting**

Meeting to be held at the Federal Power Commission Offices, 441 G Street NW., Washington, DC, at 8:30 a.m. on March 8, 1973, Room 2043.

1. Meeting called to order by FPC Coordinating Representative.

2. Objectives and purposes of meeting: A. Approval of minutes of February 9 meeting.

B. Reports of task force meetings.

C. Report on near term R. & D. to meet the fossil fuel resource crisis.

D. Further discussion/identification of key electric power research issues on which the Committee might offer recommendations.

E. Further discussion of possible Committee study of industry manpower requirements.

F. OST Energy R. & D. recommendations.

G. Other business.

H. Dates of future meetings.

3. Adjournment.

This meeting is open to the public. Any interested person may attend, appear before, or file statements with the committee—written statements, if in written form, may be filed before or after the meeting, or, if oral, at the time and in the manner permitted by the committee.

KENNETH F. PLUMB,  
Secretary.

# NEPOOL POWER POOL AGREEMENT

## Further Extension of Procedural Dates

FEBRUARY 23, 1973.

On February 20, 1973, the New England Power Pool Executive Committee filed a motion for a further extension of the procedural dates established by the order issued September 21, 1972, as amended by notices issued October 27 and December 13, 1972, in the above matter. The motion states the intervenors have no objection to the requested extension. On February 23, 1973, Commission Staff Counsel filed a response to the above motion.

Upon consideration, notice is hereby given that the procedural dates are modified as follows:

Prepared testimony and exhibits by Applicant—March 29, 1973.  
Testimony by Staff—April 19, 1973.  
Rebuttal testimony—May 11, 1973.  
Prehearing conference—May 22, 1973 (10 a.m. (e.d.t.)).  
Cross-examination on all evidence—May 31, 1973 (10 a.m. (e.d.t.)).

[Project 2149]

# PUBLIC UTILITY DISTRICT NO. 1, DOUGLAS COUNTY, WASH.

## Availability of Staff Draft Environmental Impact Statement

FEBRUARY 27, 1973.

Notice is hereby given in the captioned project, that on March 2, 1973, as required by § 2.81(b) of Commission Order No. 415-C, a draft environmental statement prepared by the Staff of the Federal Power Commission was made available for comments. This statement deals with the environmental impact in the proceeding presently before the Commission, involving the Public Utility District No. 1 of Douglas County (Licensee) and the Washington State Department of Game, regarding a determination of the extent of wildlife losses directly attributable to the Wells Hydroelectric Project No. 2149, and mitigation measures as re-

quired in accordance with Articles 41 and 43 of the license issued pursuant to the Federal Power Act. This statement has been circulated for comments to Federal, State, and local agencies, has been placed in the public files of the Commission, and is available for public inspection in both the Commission's Office of Public Information, Room 2523, General Accounting Office Building, 441 G Street NW., Washington, DC, and at its San Francisco Regional Office, 555 Battery Street, San Francisco, CA 94111.

The Wells Project is situated on the Columbia River in the State of Washington and the reservoir waters affect parts of Chelan, Douglas, and Okanogan Counties. Wildlife mitigation measures have been proposed by all parties in the proceedings and would affect project lands.

Any person who wishes to do so may file comments on the Staff Draft Statement for the Commission's consideration. All comments must be filed on or before April 23, 1973.

Any person who wishes to present evidence regarding environmental matters in this proceeding must file with the Federal Power Commission a petition to intervene pursuant to § 1.8 of the Commission's rules of practice and procedure. Petitioners must also file timely comments on the draft statement in accordance with § 2.81(c) of Order No. 415-C. All petitions to intervene must be filed on or before April 23, 1973.

KENNETH F. PLUMBS,  
Secretary.

[FR Doc.73-3982 Filed 3-1-73; 8:45 am]

[Docket No. CI73-545]

# TEXACO INC.

## Notice of Application

FEBRUARY 26, 1973.

Take notice that on February 16, 1973, Texaco Inc. (Applicant), Post Office Box 430, Bellare, TX 77401, filed in docket No. CI73-538 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to United Gas Pipe Line Co. from the Conroe Field, Montgomery County, Tex., all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that it commenced the sale of natural gas on February 9, 1973, within the contemplation of § 157.29 of the regulations under the Natural Gas Act (18 CFR 157.29) and that it proposes to continue said sale for 2 years from the end of the 60-day emergency period within the contemplation of § 2.70 of the Commission's General Policy and Interpretations (18 CFR 2.70). Applicant proposes to sell approximately 30,000 Mcf of gas per month at \$0.45 per Mcf at 14.65 p.s.i.a., including all adjustments and tax reimbursement.

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before March 12, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMBS,  
Secretary.

[FR Doc.73-3987 Filed 3-1-73; 8:45 am]

[Docket No. CI73-338]

# TRANSWESTERN GAS SUPPLY CO.

## Further Notice of Application

FEBRUARY 27, 1973.

Take notice that on November 8, 1972, Transwestern Gas Supply Company (Applicant), 921 Main Street, Houston, TX 77002, filed in Docket No. CI73-338 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to Transwestern Pipeline Co. (Transwestern) from the South Vici Field, Dewey County, Okla., all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes pursuant to paragraph 12 of the Commission's notice issued July 17, 1970, in Docket No. R-389A to sell natural gas to Transwestern, an affiliated company, at the initial rate of \$0.38 per Mcf at 14.65 p.s.i.a. subject to

upward and downward Btu adjustment. In that notice the Commission said that it would consider applications by producers for sales of natural gas notwithstanding that the proposed price may be in excess of the area ceiling or guideline rates.

Applicant alleges that the instant price is justified by the high cost trends in the costs of finding, developing and producing natural gas and in the cost of capital. Applicant also asserts that the decrease in value of the dollar plus the increasing costs, including potentially higher royalty costs, requires it to collect the instant contract rates in order to obtain its revenue requirements and in order to provide the incentive to explore for and develop new gas.

Inasmuch as the subject application has already been noticed in the FEDERAL REGISTER on December 27, 1972 (37 FR 28555), it appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before March 9, 1973, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules. Persons who have heretofore filed petitions to intervene need not file again.

KENNETH F. PLUMBS,  
Secretary.

# FIRST ALABAMA BANCSHARES, INC.

## Acquisition of Bank

First Alabama Bancshares, Inc., Birmingham, Ala., has applied for the Board's approval under section 3(a) (3) of the Bank Holding Company Act (12 U.S.C. 1842(a) (3)) to acquire 80 percent of the voting shares of First National Bank of Bay Minette, Bay Minette, Ala. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the office of the Board of Governors or at the Federal Reserve Bank of Atlanta. Any person wishing to comment on the application should submit his views in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, to be received not later than March 22, 1973.

Board of Governors of the Federal Reserve System, February 23, 1973.

[SEAL] MICHAEL A. GREENSPAN,  
Assistant Secretary of the Board.  
[FR Doc.73-3977 Filed 3-1-73; 8:45 am]

# FIRST WISCONSIN BANKSHARES CORP.

## Order Approving Acquisition of Bank

First Wisconsin Bankshares Corp., Milwaukee, Wis., a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 3(a) (3) of the Act (12 U.S.C. 1842(a) (3)) to acquire 80 percent or more of the voting shares of First Wisconsin Bank of Waukesha, Waukesha, Wis., a proposed new bank (Bank).

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired, and the Board has considered the application and all comments received in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842 (c)).

Applicant controls 17 banks with aggregate deposits of \$1.7 billion, representing 16 percent of the total deposits held by commercial banks in Wisconsin, and is the largest banking organization in the State. (All banking data are as of December 31, 1971, and reflect acquisitions and formations approved by the Board through July 25, 1972.) Bank is a proposed new bank and its acquisition by applicant would not increase the concentration of banking resources nor have any significant adverse effect on any competing bank in the relevant areas.

The proposed bank is to be located in the city of Waukesha in the Milwaukee banking market wherein applicant holds

32.4 percent of total deposits as the largest of 43 banking organizations represented in this market. However, applicant is not presently represented in the city of Waukesha which has a population of approximately 40,000, and under the State's branching laws its subsidiaries are not permitted to branch into the area of the proposed bank's location.

The 1970 census indicates that Waukesha is the third fastest growing city in Wisconsin with over 40,000 population. Its 1960-70 increase in population of 34.2 percent represented a growth in population almost three times that of the State as a whole. Waukesha County had a population growth during this same period of 46.2 percent. The population to banking offices within the Waukesha area is 8,000 as compared with 5,000 for the State. In view of the rapidly increasing population, and economic expansion taking place within the Waukesha area, it appears that the area can support other financial institutions.

Applicant's nearest subsidiary banking offices are located 9 miles northeast and 10 miles southeast of Bank. Since Bank is a proposed new bank, no present competition would be eliminated by consummation of this proposal, nor does it appear likely that competition would develop in the future. Competitive considerations are consistent with approval of the application.

The financial condition of applicant and its subsidiary banks are considered to be generally satisfactory especially in view of applicant's plan for the capital augmentation of its subsidiary banks. The managerial resources of applicant and its group of banks are also considered to be generally satisfactory and prospects for the group appear favorable. Bank, as a proposed new bank, has no operating history but projected earnings and growth for the new bank under applicant's control appear favorable. Banking factors are consistent with approval of the application.

The primary banking needs of the Waukesha area appear to be satisfactorily served at the present time. However, applicant proposes to enable the new bank to offer a number of more sophisticated services to include investment counseling and portfolio analysis, international banking, municipal finance, lease financing, and data processing. Applicant also points to the need for convenient banking services in the southern sector of the city since all present banking offices are located in the downtown and extreme northeast sections of Waukesha. Considerations relating to the convenience and needs of the communities to be served are consistent with and lend some support toward approval of the application.

Objections to the proposed acquisition of Bank have been raised by financial institutions in the area. They argue there is no present requirement for the establishment of a bank in the area to serve public conveniences, and further that applicant's dominant position and large resources enable it to operate Bank at a loss for a longer period of time in order

to preempt a position in the market. It is the opinion of the Board, however, that the Waukesha area is capable of supporting the proposed new bank and that the consummation of this proposal should not be regarded as the preemption of a bank site by applicant in the Waukesha area. Additionally, the record indicates that there are no other proposals pending at the present time to establish a bank in the area. It is the Board's judgment that the proposed acquisition would be in the public interest and that the application should be approved.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be consummated (a) before the 30th calendar day following the effective date of this order, or (b) later than 3 months after that date, and (c) First Wisconsin Bank of Waukesha, Waukesha, Wis., shall be opened for business not later than 6 months after the effective date of this order. Each of the periods described in (b) and (c) may be extended for good cause by the Board, or by the Federal Reserve Bank of Chicago, pursuant to delegated authority.

By order of the Board of Governors,  
effective February 22, 1973.

[SEAL] TYNAN SMITH,  
Secretary of the Board.  
[FR Doc. 73-3978 Filed 3-1-73; 8:45 am]

#### FOURTH FINANCIAL CORP.

##### Order Approving Retention of Fourth Financial Insurance Company

Fourth Financial Corp., Wichita, Kans., a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval, under section 4(c)(8) of the Act and § 255.4(b)(2) of the Board's Regulation Y, to retain the voting shares of Fourth Financial Insurance Company, Phoenix, Ariz. (Company), a company that engages in the underwriting, as reinsurer, of credit life and disability insurance in connection with extensions of credit by applicant's subsidiary bank.

Notice of the application, affording opportunity for interested persons to submit comments and views, was duly published (37 FR 2542). The time for filing comments and views has expired and all received have been considered, including those presented orally and in writing in connection with a Board hearing on March 24, 1972, pertaining to the underwriting of credit life and accident and health insurance in general, and this application in particular.

Effective December 11, 1972, the Board amended § 225.4 of Regulation Y to add the activity of "acting as underwriter for credit life insurance and credit accident

<sup>1</sup> Voting for this action: Chairman Burns and Governors Mitchell, Daane, Brimmer, Sheehan, and Bucher. Voting against this action: Governor Robertson. Dissenting statement by Governor Robertson filed as part of the original document.

and health insurance which is directly related to extensions of credit by the bank holding company system" to the list of activities the Board has determined to be closely related to banking.

Applicant owns 100 percent (less directors' qualifying shares) of Fourth National Bank & Trust Co., Wichita, Kans. (Bank), the largest bank in the Wichita market with total deposits of \$279.3 million representing 31.6 percent of market deposits. Bank also ranks as the largest bank in Kansas with 4.9 percent of the State's commercial bank deposits. (All banking data are as of June 30, 1972, unless otherwise noted.)

Company, an Arizona corporation, is a limited capital stock life insurance company which first began business in September 1970. Company acts as reinsurer of credit life and disability insurance policies made available by Bank in connection with its extensions of credit. Credit life and disability insurance is generally made available by banks and other lenders and such insurance is designed to assure repayment of a loan in the event of death or disability of the borrower.

Prior to Company's organization, Bank sold credit life and disability insurance policies in connection with its extensions of credit and received a commission from the insurer on the sale of each policy. After Company was organized, Bank continued to sell such policies, but no longer received commission income. Rather, the insurer "ceded" or "assigned" such policies to Company with certain larger policies "retroceded" or "reassigned" in part back to the insurer so as to avoid Company being exposed to liabilities in excess of those permitted by Arizona law.<sup>1</sup> As of December 31, 1971, Company had total assets of \$143,000 and for the year ending that same date, Company received gross premiums of \$130,000. During 1971, the total amount of insurance risk retroceded was approximately \$4,000.

Because of Company's growth, applicant now proposes that it become a fully qualified underwriter authorized to write insurance in Kansas. Approval of applicant's proposed retention does not appear to eliminate any competition in the underwriting of credit life and disability insurance.

In connection with its addition of credit life underwriting to the list of permissible activities for bank holding companies, the Board stated that:

To assure that engaging in the underwriting of credit life and credit accident and health insurance can reasonably be expected to be in the public interest, the Board will only approve applications in which an applicant demonstrates that approval will benefit the consumer or result in other public benefits. Normally such a showing would be made by a projected reduction in rates or increase in policy benefits due to bank holding company performance of this service.

<sup>1</sup> The maximum amounts which may be insured by a limited capital stock life insurance company under Arizona law are \$3,000 on any one life and \$5,000 on any total disability claim.

In the subject application, applicant has stated that Company and the direct insurer which issues the credit life and disability policies made available by Bank will reduce the rates charged for credit life and disability insurance by 15 percent. Such rate reduction is expected to go into effect within 30 days of the approval of the application and applicant states that such rates would be 15 percent below the prevailing rates in the Wichita area. In addition, applicant claims other less demonstrable benefits, such as improved claims handling, will result from approval of its application.

The Board believes that the reduced cost of such insurance coverage is procompetitive and in the public interest. The Board concludes that such benefits outweigh any possible adverse effects of approval of the application.

Based upon the foregoing and other considerations reflected in the record, the Board has determined that the balance of the public interest factors the Board is required to consider under section 4(c)(8) is favorable. Accordingly, the application is hereby approved. This determination is subject to the conditions set forth in § 225.4(c) of Regulation Y and to the Board's authority to require such modification or termination of the activities of a holding company or any of its subsidiaries as the Board finds necessary to assure compliance with the provisions and purposes of the Act and the Board's regulations and orders issued thereunder, or to prevent evasion thereof.

By order of the Board of Governors,  
effective February 22, 1973.

#### KEYSTONE CONSOLIDATED INDUSTRIES, INC.

##### Determination Regarding "Grandfather" Privileges Under Bank Holding Company Act

Section 4 of the Bank Holding Company Act (12 U.S.C. 1843) provides certain privileges ("grandfather" privileges) with respect to nonbanking activities of a company that, by virtue of the 1970 Amendments to the Bank Holding Company Act, became subject to the Bank Holding Company Act. Pursuant to section 4(a)(2) of the Act, a "company covered in 1970" may continue to engage, either directly or through a subsidiary, in nonbanking activities that such a company was lawfully engaged in on June 30, 1968 (or on a date subsequent to June 30, 1968, in the case of activities carried on as a result of the acquisition by such company or subsidiary, pursuant to a binding written contract entered into on or before June 30, 1968, of another company engaged in such activities

<sup>1</sup> Voting for this action: Vice Chairman Robertson and Governors Mitchell, Brimmer, Sheehan, and Bucher. Absent and not voting: Chairman Burns and Governor Daane.

at the time of the acquisition), and has been continuously engaged in since June 30, 1968 (or such subsequent date).

Section 4(a)(2) of the Act provides, inter alia, that the Board of Governors of the Federal Reserve System may terminate such grandfather privileges if, having due regard to the purposes of the Act, the Board determines that such action is necessary to prevent undue concentration of resources, decreased or unfair competition, conflicts of interest, or unsound banking practices. With respect to a company that controls a bank with assets in excess of \$60 million on or after December 31, 1970, the Board is required to make such a determination within a 2 year period.

Notice of the Board's proposed review of the grandfather privileges of the Keystone Consolidated Industries, Inc., Peoria, Ill., and an opportunity for interested persons to submit comments and views or request a hearing, has been given (37 FR 22414). The time for filing comments, views, and requests has expired, and all those received have been considered by the Board in light of the factors set forth in section 4(a)(2) of the Act.

On the evidence before it, the Board makes the following findings. Keystone Consolidated Industries, Inc., Peoria, Ill. (Registrant), became a bank holding company on December 31, 1970, as a result of the 1970 Amendments to the Act, by virtue of Registrant's ownership of 50 percent of the voting shares of Jefferson Trust and Savings Bank of Peoria (Bank) (assets of approximately \$90 million, as of December 31, 1970). Bank, control of which was acquired by Registrant in December 1947, had total deposits of approximately \$85 million, as of December 31, 1971, ranks second among 43 banks located in the Peoria, Ill., SMSA, and controls 11 percent of the total deposits in commercial banks in the area. The larger bank in the area is almost two and one-half times as large as Bank. Bank's management, financial condition and prospects are regarded as generally satisfactory and the Board has found no evidence of unsound banking practices.

Registrant (assets of \$191 million, as of June 30, 1972) is an integrated steel company engaged in operations in the United States, Canada, Mexico, and the United Kingdom. Registrant engages directly in the production of low and high carbon steel and the conversion of it into billets, bars, rods, and wire products, the manufacture of cabinet hardware, automotive and appliance hardware, locks, locksets, casters, and household and office furniture, and the production of fasteners such as screws, bolts, nuts, and cold headed parts. It appears that all of these direct nonbanking activities were commenced by Registrant before

<sup>1</sup> Registrant states it was incorporated in Delaware in 1958 to effect a re-incorporation of Keystone Steel and Wire Co., an Illinois corporation whose earlier predecessor was established in 1889; and that Registrant's charter was amended in 1968 changing the company's name to Keystone Consolidated Industries, Inc.

June 30, 1968, and have been engaged in continuously thereafter. In addition, Registrant has acquired several non-banking subsidiaries (going concerns) engaged in the same activities, namely, Waterloo Metal Stampings, Ltd., Kitchener, Ontario, Canada (Waterloo), Hillcrest Engineering Ltd., Birmingham, England (Hillcrest), Tornillos Especiales de Mexico, Naucalpan de Juarez, Mexico (Tornillos), and Keystone International Ltd., Toronto, Ontario, Canada (Keystone). Broderick & Bascom Rope Co., Overland, Mo. (Broderick), another subsidiary of Registrant, manufactures steel and wire rope. Broderick (acquired in July 1968), Waterloo (acquired in March 1969), and Hillcrest (acquired in March 1969), are not entitled to grandfather benefits. Keystone, acquired June 2, 1964, is inactive and therefore has no grandfather benefits. Tornillos, which was acquired in April 1965, manufactures screws, nuts, and bolts for Mexican markets and qualifies under the grandfather provision in section 4(a)(2) of the Act.

Registrant's 1969 purchase of the Chicago Heights plant of the Inland Steel Co. apparently constituted a product extension; on this basis, no grandfather privileges accrue under the proviso in section 4(a)(2) of the Act.<sup>1</sup> Registrant's 20 percent interest in Weld-Loc (a company apparently engaged in a product line in which Registrant did not engage on June 30, 1968), an interest that was acquired after June 30, 1968, is not entitled to grandfather privileges.<sup>2</sup>

Registrant conducts business throughout the United States (26 plants located variously in 13 States) and is a company listed on the New York Stock Exchange. However, Registrant is not regarded as a dominant force in its product market, where it competes with a large number of companies of various sizes, including a number of companies larger than Registrant. Registrant (with about 2 percent of the aggregate work force in the Peoria area) is not the dominant employer in the Peoria area nor does Registrant derive a significant portion of its business from that area (less than 1 percent of Registrant's total sales). It appears that the combination of Registrant's banking and nonbanking activities has not served to eliminate any significant actual or

<sup>2</sup> Carridine & Miles Ltd., Birmingham, England (50 percent of the shares are owned by Registrant), serves only as a holding company for Hillcrest.

<sup>3</sup> On this basis, Registrant would be required to divest itself of its interests (over 5 percent) in these companies by Jan. 1, 1981, or cease to be a bank holding company.

<sup>4</sup> On these facts and under § 4(a)(2) of the Act, Registrant is required to divest such product extension activity by Jan. 1, 1981, or cease to be a bank holding company.

<sup>5</sup> On these facts and under § 4(a)(2) of the Act, Registrant is required to divest its interest (over 5 percent) in Weld-Loc by Jan. 1, 1981, or cease to be a bank holding company.

potential competition; nor is there evidence of a current undue concentration of resources, decreased or unfair competition or conflicts of interest.

On the basis of the foregoing and all the facts before the Board, it appears that the volume, scope, and nature of the activities of Registrant and its subsidiaries do not demonstrate an undue concentration of resources, decreased or unfair competition, conflicts of interest nor unsound banking practices.

There appears to be no reason to require Registrant to terminate its grandfathered interests. It is the Board's judgment that, at this time, termination of the grandfather privileges of Registrant is not necessary in order to prevent an undue concentration of resources, decreased or unfair competition, conflicts of interest, or unsound banking practices. However, this determination is not authority to enter into any activity or product extension that was not engaged in on June 30, 1968, and continuously thereafter, or any activity that is not the subject of this determination.

Although the Board regards the resources now subject to Registrant's control as not constituting an undue concentration of resources such as requires a termination of grandfathered activities, the Board is concerned with the size and scope of Registrant's nonbanking activities. A significant alteration in the nature or extension of Registrant's activities or a change in location thereof (significantly different from any described in this determination) will be cause for a reevaluation by the Board of Registrant's activities under the provisions of section 4(a)(2) of the Act, that is, whenever the alteration or change is such that the Board finds that a termination of the grandfather privileges is necessary to prevent an undue concentration of resources or any of the other evils at which the Act is directed. No merger, consolidation, acquisition of assets other than in the ordinary course of business, nor acquisition of any interest in a going concern, to which the Registrant or any nonbank subsidiary thereof is a party, may be consummated without prior approval of the Board. Further, the provision of any credit, property, or service by the Registrant or any subsidiary thereof shall not be subject to any condition which, if imposed by a bank, would constitute an unlawful tie-in arrangement under section 106 of the Bank Holding Company Act Amendments of 1970.

The determination herein does not preclude a later review, by the Board, of Registrant's nonbank activities and a future determination by the Board in favor of termination of grandfather benefits of Registrant. The determination herein is subject to the Board's authority to require modification or termination of the activities of Registrant or any of its nonbanking subsidiaries as the Board finds necessary to assure compliance with the provisions and purposes of the Act and the Board's regulations and orders issued thereunder, or to prevent evasion thereof.

## U.N. BANCSHARES, INC.

## Order Approving Entry De Novo in Mortgage Banking

U.N. Bancshares, Inc., Springfield, Mo. (Bancshares), a bank holding company within the meaning of the Bank Holding Company Act of 1956, has proposed under section 4(c)(8) of the Act and § 225.4(b)(1) of the Board's Regulation Y to engage de novo in the activity of mortgage banking through a newly formed subsidiary, Missouri Mortgage & Investment Co., Springfield, Mo. Notice of the proposal, affording opportunity for interested persons to express comments and views, was duly published in newspapers of general circulation in Springfield, Mo., in accordance with the regulatory provision. The only opposition to the proposal was received from Central Mortgage Co., Inc., Springfield, Mo. (Central), which itself is a registered bank holding company.<sup>1</sup>

The Federal Reserve Bank of St. Louis determined that Central's comments were not of such nature as to warrant advising Bancshares not to consummate the proposal. Central was advised, however, that it could seek Board review of this decision in accordance with the provisions of § 265.3 of the Board's rules regarding delegation of authority (12 CFR 265.3). Thereafter, Central petitioned the Board for such a review. In accordance with the procedures set forth in § 265.3, review by the Board was authorized and Bancshares was notified not to consummate its proposal. The proposal has now been reviewed by the Board and its findings and decision are set forth hereinafter.

Bancshares controls three banks, including The Union National Bank of Springfield (Union Bank), and Springfield National Bank (Springfield Bank), both located in Springfield, Mo.<sup>2</sup> Union Bank and Springfield Bank hold combined deposits of approximately \$120 million,<sup>3</sup> representing 36 percent of the total commercial deposits of the eight banks located in Springfield.

Central's opposition to Bancshares' proposal is based principally on allegations of unfair competition and on undue concentration of resources. In support of its charge of unfair competition, Central claims that Bancshares, through

\*Voting for this action: Chairman Burns and Governors Robertson, Mitchell, Daane, Brimmer, Sheehan, and Bucher.

<sup>1</sup>Central controls the Citizens Bank of Warrensburg, Warrensburg, Mo., which has deposits of \$14.6 million.

<sup>2</sup>Applicant's third bank, Pulaski County Bank, Richland, Mo. (deposits of \$7.4 million), is located 80 miles distant and in a separate banking market.

<sup>3</sup>Deposit data are as of June 30, 1972.

its subsidiary, Union Bank, hired Central's key employee in each of its major areas of operation—real estate and commercial loans—and was now offering other officers of Central positions with the new mortgage company. In addition, it is claimed that Bancshares acquired confidential information pertaining to Central through its banking subsidiary's computer services operation, including, among other things: The names of those investors interested in investing money in the Springfield area; the aggregate dollar amount of each investor's loans as well as the number of loans that Central services for each of such investors; the service fee rate paid to Central on such loans and the type of loans which are most profitable. In essence, Central claims that Bancshares, by obtaining this information through the banking operations of a subsidiary and by hiring key personnel of Central, is guilty of unfair competition which, if permitted, may eventually eliminate Central as a competitive mortgage banker. Finally, Central's protest is founded on a claim that there is no need for another mortgage company in Springfield, and to allow Bancshares to consummate its proposal will result in an undue concentration of financial resources in the Springfield area.

The question as to whether Bancshares has, indeed, engaged in unfair competition turns on whether Bancshares conspired with and induced Central's employees to terminate their employment in order to join its own organization. The mere fact that an employee took employment with an actual or potential competitor is not sufficient to justify a finding of unfair competition. As noted by the Missouri Supreme Court in "National Rejectors, Inc., v. Trieman," 409 S.W. 2d 1 (1966), two conflicting public policies must be considered in each case: One policy seeks to protect the public from unfair competition—the other favors free competition in the economic sphere. As the court explained:

It is necessary that there be a balancing of the equities between these two rights, for if the former is carried to its extreme it will deprive a man of his right to earn a living; while conversely, the latter right if unchecked, would probably make a mockery of the fiduciary concept, with its concomitants of loyalty and fair play. Id. at 39.

Further, a per se violation of section 1 of the Sherman Act has been found where key employees were induced to leave their employment to join a new corporation that was established to compete with their former employer. "Atlantic Heel Co. v. Allied Heel Co.," 284 F. 2d 879 (1960). Nonetheless, in "Metal Lubricants Co. v. Engineered Lubricant Co.," 411 F. 2d 426 (1969), the court stated:

The mere fact that the defendants decided to leave their employment and enter into competition with their employer is not sufficient evidence to establish unfair and inequitable dealings so as to sustain a claim of unfair competition under the Sherman Act.

In the situation before the Board, it is evident that, while two employees have

moved from Central to Bancshares' subsidiary, Union Bank, Central has lost employees to other institutions as well. Furthermore, it appears that Central's executive vice president was unhappy with his employer and that he would have left his employment whether or not he joined Bancshares.<sup>4</sup> Central contends that Bancshares induced its employee to leave its employment, but Bancshares' management contends that the employee sought employment with them of his own volition. In any event, the Board does not view the employment practices involved herein as rising to the level of a contract, combination, or conspiracy in restraint of trade. Nevertheless, the Board believes it appropriate and in the public interest to condition its approval of Bancshares' proposal on the requirement that Bancshares not conspire with and induce any employee of a competing organization to leave the employee's present employment to join Bancshares' mortgage banking subsidiary.

A second method by which Central claims Bancshares would unfairly compete is through its access to confidential data of Central which Union Bank obtained in the ordinary course of supplying data processing services. At the time Central contracted for these data processing services, Union Bank itself made mortgage loans in the Springfield area and thus was in competition with Central. Central's business data pertaining to its mortgage servicing operations is confidential and was accepted by Union Bank on this basis. Approval of the present proposal would not remove that confidentiality. Notwithstanding, the Board is deeply concerned with any case in which the operation of one or more nonbanking subsidiaries by a bank holding company may give rise to a possible unfair method of competition. Therefore, in view of the potential conflicts-of-interests situation that might arise, the Board believes it appropriate and in the public interest to condition its approval of Bancshares' proposal on the requirement that any data pertaining to Central's mortgage loans, now in the custody of Union Bank, not be made available, either directly or indirectly, to any person who could, in any manner, use such information to compete with Central.

Finally, Central opposes Bancshares' entry into mortgage banking on the ground that it will result in an undue concentration of financial resources in the Springfield area. As stated above, Bancshares' two subsidiary banks in Springfield hold 36 percent of the total deposits of the eight Springfield banks. Two of these banking competitors, Commerce Bank of Springfield (deposits \$98.3 million) and Southern Missouri Trust Bank (deposits \$38.7 million),

<sup>4</sup>In this connection, it is noted that the employee made known his desire to terminate his employment through an undated letter of resignation, giving Central time to find a replacement.

have at their disposal not only the far greater lending capacity of their parent organizations but also the availability of subsidiary mortgage companies. Other competitors offering real estate financing in Springfield include eight mortgage companies and seven savings and loan associations. As of June 30, 1972, the savings and loan associations in Springfield had total resources of \$271 million. The Board concludes that Bancshares' share of commercial bank deposits in the Springfield area does not represent an undue concentration of financial resources and that its entry into mortgage banking is not likely to result in such a concentration.

Congress authorized the Board in section 4(c)(8) of the Bank Holding Company Act to differentiate between those nonbanking activities commenced de novo and activities commenced by the acquisition of a going concern. In the instant proposal, Bancshares seeks to expand internally through a newly formed mortgage banking subsidiary and thus add a new decisionmaker in the Springfield mortgage loan market. Such entry, in the Board's view, is pro-competitive as it brings an added element of competition into the Springfield market which would not otherwise exist. Moreover, Bancshares' entry into mortgage banking may provide an increased quantity of mortgage funds for this area. On balance, the Board concludes that these public benefits outweigh any possible adverse effect on competition.

Based upon the foregoing and other considerations reflected in the record, the Board has determined that the balance of the public interest factors the Board is required to consider under section 4(c)(8) is favorable. Accordingly, the proposal of Bancshares to engage in mortgage banking through a new subsidiary, Missouri Mortgage & Investment Co., is hereby approved on the condition that (1) Bancshares not conspire with and induce any employee of a competing organization to terminate his present employment to join Missouri Mortgage & Investment Co., and (2) that confidential data pertaining to Central's mortgage loans, now in the custody of Union Bank, not be made available, directly or indirectly, to any person who could, in any manner, use such information to compete with Central. This determination is subject to the Board's authority to require reports by, and make examinations of, holding companies and their subsidiaries and to require such modification or termination of the activities of a holding company or any of its subsidiaries as the Board finds necessary to assure compliance with the provisions and purposes of the Act and the Board's regulations and orders issued thereunder, or to prevent evasion thereof.

<sup>5</sup>Commerce Bank of Springfield is controlled by Commerce Bancshares, Inc., Kansas City, Mo., while Southern Missouri Trust Bank is controlled by Mercantile Bancorporation, Inc., St. Louis, Mo.

## TARIFF COMMISSION

[TEA-W-187]

## GENESCO CORP.

Workers' Petition for a Determination;  
Notice of Investigation

On the basis of a petition filed under section 301(a)(2) of the Trade Expansion Act of 1962, on behalf of the workers and former workers of the Troy District Shirt Co., Cohoes, N.Y., a subsidiary of the Genesco Corp., New York, N.Y., the U.S. Tariff Commission, on February 23, 1973, instituted an investigation under section 301(c)(2) of the Act to determine whether, as a result in major part of concessions granted under trade agreements, articles like or directly competitive with men's and boys' shirts of cotton or man-made fibers (of the types provided for in item 380.27 and 380.84 of the Tariff Schedules of the United States) produced by said firm are being imported into the United States in such increased quantities as to cause, or threaten to

\*Voting for this action: Vice Chairman Robertson and Governors Mitchell, Brimmer, Sheehan, and Bucher. Absent and not voting: Chairman Burns and Governor Daane.

cause, the unemployment or underemployment of a significant number or proportion of the workers of such firm or an appropriate subdivision thereof.

The optional public hearing afforded by law has not been requested by the petitioners. Any other party showing a proper interest in the subject matter of the investigation may request a hearing, provided such request is filed on or before March 12, 1973.

The petition filed in this case is available for inspection at the Office of the Secretary, U.S. Tariff Commission, 8th and E Streets NW., Washington, DC, and at the New York City office of the Tariff Commission located in Room 437 of the Customhouse.

Issued: February 26, 1973.

By order of the Commission.

[SEAL] KENNETH R. MASON,  
Secretary.

## DEPARTMENT OF LABOR

### Occupational Safety and Health Administration

#### DISTRICT OF COLUMBIA DEVELOPMENTAL PLAN

##### Submission of Plan and Availability for Public Comment

1. *Submission and description of plan.* Pursuant to section 18 of the Occupational Safety and Health Act of 1970 (29 U.S.C. section 667) and § 1902.11 of Title 29, Code of Federal Regulations, notice is hereby given that an Occupational Safety and Health Plan for the District of Columbia has been submitted to the Assistant Secretary of Labor for Occupational Safety and Health. The Assistant Secretary hereby gives notice that the question of approval of the Plan is in issue before him.

The Plan designates the Minimum Wage and Industrial Safety Board, Industrial Safety Division (hereinafter referred to as the Designee) as the agency responsible for administering the Plan throughout the State. It proposes to define issues covered by it as defined by the Secretary of Labor in 29 CFR 1902.2(c)(1) excluding the following parts: § 1910.13 *Ship repairing*, § 1910.14 *Shipbuilding*, § 1910.15 *Shipbreaking*, § 1910.16 *Longshoring*, § 1910.19 *Asbestos dust*, § 1910.214 *Cooperage machinery*, § 1910.216 *Mills and calendars in the rubber and plastics industries*, § 1910.218 *Forging machines*, § 1910.261 *Pulp, paper and paperboard mills*, § 1910.262 *Textiles*, § 1910.265 *Sawmills*, § 1910.266 *Pulpwood logging*, and § 1910.267 *Agricultural operations*. In addition, the State will have certain other standards applicable to certain vertical issues such as: operation and maintenance of wood-working machinery, explosive actuated projectile tools and equipment, laundry, dry cleaning and dyeing, window cleaning operations and equipment, work in tunnels, railroad clearances and diving operations. The Plan provides for the development and promulgation of occu-

pational safety and health standards which are at least as effective as the Federal standards or changes thereto.

Included in the Plan is proposed draft legislation to be introduced during the 1973 session of the U.S. Congress. Under the proposed legislation, the Designee will have full authority to enforce and administer laws respecting safety and health of employees. The draft legislation provides for the coverage of all employees within the State including employees of the State, with the exception of domestic employees, U.S. Government Employees, and embassies and foreign government instrumentalities. There are provisions which grant the Designee the authority to issue citations for violations and there is also included a prohibition against advance notice of any such inspection. In addition, under the proposed legislation, the Designee will initiate provisions for administrative adjudication for all parties of interest in its administration of such law. There is also proposed a judicial review system to carry out prosecutions for violations of the industrial safety law. Provision for prompt restraint of imminent danger situations and a system of criminal penalties for violations of any rules or regulations promulgated under law are also included in the draft legislation. Contained in the Plan is a statement of the Mayor-Commissioner's support for the proposed legislation and a statement of legal opinion that it will meet the requirements of the Occupational Safety and Health Act of 1970 in a manner consistent with the laws of the State.

Set forth in the proposed Plan is a timetable for providing for the future drafting of various rules, regulations, and procedures. All personnel under the Plan are covered by an existing merit system. Also included are assurances for the protection of trade secrets and a provision to protect employees against discharge and discrimination in terms and conditions of employment.

2. *Location of plan for inspection and copying.* A copy of the Plan may be inspected and copied during normal business hours at the following locations: Office of Federal and State Operations, Occupational Safety and Health Administration, Room 305, Railway Labor Building, 400 First Street NW., Washington, DC 20210; Regional Administrator, Occupational Safety and Health Administration, U.S. Department of Labor, Suite 410, Penn Square Building, 1317 Filbert Street, Philadelphia, PA 19107; Minimum Wage and Industrial Safety Board, Industrial Safety Division, 615 Eye Street NW., Washington, DC 20001.

3. *Public participation.* Interested persons are hereby given until April 1, 1973, in which to submit to the Assistant Secretary written data, views, and arguments concerning the Plan. The submissions are to be addressed to the Director, Office of Federal and State Operations, Room 305, Railway Labor Building, 400 First Street NW., Washington, DC 20210. The written comments will be available for public inspection and copying at the above address.

Any interested person(s) may request an informal hearing concerning the proposed Plan, or any part thereof, whenever particularized written objections thereto are filed by April 1, 1973. If the Assistant Secretary finds that substantial objections are filed, he shall hold a formal or informal hearing on the subjects and issues involved.

The Assistant Secretary of Labor for Occupational Safety and Health shall thereafter consider all relevant comments and arguments presented and issue his decision as to approval or disapproval of the Plan.

Signed at Washington, D.C., this 26th day of February 1973.

CHAIN ROBBINS,  
Acting Assistant Secretary of Labor.  
[FR Doc.73-4028 Filed 3-1-73; 8:45 am]

#### TENNESSEE DEVELOPMENT PLAN Submission of Plan and Availability for Public Comment

1. *Submission and description of plan.* Pursuant to section 18 of the Occupational Safety and Health Act of 1970 (29 U.S.C. 667) and 29 CFR 1902.11 setting forth the method whereby States may assume responsibility for the development and enforcement therein of occupational safety and health standards, notice is hereby given that a developmental occupational safety and health plan has been submitted by the State of Tennessee and that on the basis of a preliminary review of the plan the issue of its approval is now under consideration.

The plan identifies the Department of Labor and the Department of Public Health as the State agencies designated by the Governor of the State to administer the plan throughout the State. It defines the covered occupational safety and health issues as defined by the Secretary of Labor in 29 CFR 1902.2(c)(1).

The plan includes legislation passed by the Tennessee Legislature during its 1972 session which became effective July 1, 1972. Under the law the Department of Labor and the Department of Public Health will have full authority to enforce and administer laws respecting safety and health of employees in all workplaces of the State with the exception of employees of the United States or employees protected under other Federal Occupational Safety and Health Laws such as the Atomic Energy Act of 1959 (42 U.S.C. 2011 et seq.), the Federal Metal and Nonmetallic Mine Safety Act (30 U.S.C. 271 et seq.), the Federal Safety Appliances Act (45 U.S.C. 1 et seq.), or the Federal Railroad Safety Act (45 U.S.C. 421 et seq.), the Longshoremen's and Harbor Worker's Compensation Act, as amended (33 U.S.C. 901 et seq.), domestic workers, any employee engaged in agriculture who is employed on a farm each of the employees of which is related to the other employee as spouse, child, parent, grandparent or grandchild, or employees covered by Title 58 of the Tennessee Code Annotated.

## MAINE

### Determinations of "Temporary on" Indicator and Beginning of Temporary Benefit Period

Pursuant to the provisions of section 202 of the Emergency Unemployment Compensation Act of 1971 (Public Law 92-224, Title II, as amended by Public Law 92-329), hereinafter referred to as the Act, and 20 CFR 617.13(a), I hereby give notice of my determinations as follows:

1. There is a "temporary on" indicator for the week ending January 13, 1973, for the State of Maine.

This determination is based on my findings that the rate of unemployment as defined in the Act for the 13-week period ending January 13, 1973, equaled or exceeded 6.5 per centum in the State of Maine.

2. A temporary benefit period, as provided in section 202(c)(3)(A)(iii) of the Act and 20 CFR 617.5, begins on January 28, 1973, the first day of the third calendar week after the week for which there is a "temporary on" indicator, in the State of Maine which has previously entered into an agreement with the Secretary of Labor as provided in section 202 of the Act.

Temporary compensation, as defined in 20 CFR 617.2(d), shall be payable to eligible individuals, who have received temporary compensation for a week or weeks beginning before January 1, 1973, and who file claims for such compensation for weeks of unemployment which begin in the temporary benefit period with respect to the State of Maine. However, no temporary compensation under the Act is payable for any week of unemployment which ends after March 31, 1973, even though such week is in a temporary benefit period.

Signed at Washington, D.C., this 23d day of February 1973.

PETER J. BRENNAN,  
Secretary of Labor.

[FR Doc.73 3941 Filed 3-1-73; 8:45 am]

## NEW JERSEY

### Determinations of "Temporary on" Indicator and Beginning of Temporary Benefit Period

Pursuant to the provisions of section 202 of the Emergency Unemployment Compensation Act of 1971 (Public Law 92-224, Title II, as amended by Public Law 92-329), hereinafter referred to as the Act, and 20 CFR 617.13(a), I hereby give notice of my determinations as follows:

1. There is a "temporary on" indicator for the week ending January 13, 1973, for the State of New Jersey.

This determination is based on my findings that the rate of unemployment as defined in the Act for the 13-week period ending January 13, 1973, equaled or exceeded 6.5 percent in the State of New Jersey.

2. A temporary benefit period, as provided in section 202(c)(3)(A)(iii) of the

The Act further proposes to bring the plan into conformity with the requirements of 29 CFR Part 1902 in areas such as procedures for variances and the protection of employees from hazards, procedures for the development and promulgation of standards, including standards for protection of employees against new and unforeseen hazards; procedures for prompt restraint or elimination of imminent danger situations.

The Act also insures inspections in response to complaints; employer and employee representatives an opportunity to accompany inspectors in order to aid inspections; notification of employees or their representative when no compliance action is taken as a result of alleged violations, including informal review; notification of employees of their protections and obligations; protection of employees against discharge or discrimination in terms and conditions of employment; adequate safeguards to protect trade secrets; provisions for prompt notice of employers and employees of alleged violations of standards and abatement requirements; a system of sanctions against employers for violations of standards; employer right of review with employee participation in review proceedings, and coverage of employees of political subdivisions.

Included in the plan is a statement of the Governor's support for the proposed plan and a statement of legal opinion that it will meet the requirements of the Occupational Safety and Health Act of 1970, and is consistent with the Constitution and laws of Tennessee. The plan sets out goals and provides a timetable for bringing it into full conformity with Part 1902. The plan also includes assurances of sufficient resources and qualified personnel hired under a merit system.

2. *Location of plan for inspection and copying.* A copy of the plan may be inspected and copied during normal business hours at the following locations: Office of Federal and State Operations, OSHA, Room 305, 400 First Street NW., Washington, DC 20210; Regional Office, OSHA, Room 587, 1875 Peachtree Street NE., Atlanta, GA 30309; Commissioner of Labor Office, Room C-1-100, Cordell Hull Building, 5th Avenue North, Nashville, TN 37219.

3. *Public participation.* Interested persons are hereby given until April 1, 1973, in which to submit written data, views, and arguments concerning the plan. Such request or submissions are to be addressed to the Director of Federal and State Operations, OSHA, Room 408, 400 First Street, NW., Washington, DC 20210. The written comments will be available for public inspection and copying at this address.

Copies of the plan or of written comments received with respect thereto will be provided in accordance with the general Department of Labor fee schedule (29 CFR 70.62(a)).

Any interested person may request a hearing concerning the proposed plan, or any part thereof, whenever particularized written objections thereof, are filed within the time allowed for comments specified above. If it is found that sub-

stantial objections are filed, a formal or informal hearing on the subjects and issues involved shall be held.

After consideration has been given to all material submitted, a final decision as to the approval or disapproval of the plan will be issued.

Signed at Washington, D.C., this 26th day of February, 1973.

CHAIN ROBBINS,  
Acting Assistant Secretary of Labor.

#### Office of the Secretary BERNIE SHOE CO.

##### Eligibility of Workers To Apply for Adjustment Assistance

After reviewing the Tariff Commission's report on its investigation of the petition for adjustment assistance filed on behalf of the workers of the Bernie Shoe Co., Haverhill, Mass. (Report No. TEA-W-162) under section 301(c)(2) of the Trade Expansion Act of 1962, and in which report the Commission being equally divided, made no finding with respect to women's footwear, the President decided, under the authority of section 330(d)(1) of the Tariff Act of 1930 as amended, to consider the findings of those Commissioners who found in the affirmative as the finding of the Commission. Accordingly, he has advised the Secretary of Labor that he may certify the group of workers involved as eligible to apply for adjustment assistance.

In view of the Tariff Commission's report, the President's authorization, and the responsibilities delegated to the Secretary of Labor under section 8 of the Executive Order 11075 (28 FR 473), the Director, Office of Foreign Economic Policy, Bureau of International Labor Affairs, has instituted an investigation, as provided in 29 CFR 90.5 and this notice. The investigation relates to the determination of whether any of the group of workers covered by the Tariff Commission report should be certified as eligible to apply for adjustment assistance, provided for under Title III, Chapter 3, of the Trade Expansion Act of 1962, including the determination of related subsidiary subjects and matters, such as the date unemployment or underemployment began or threatened to begin and the subdivision of the firm involved to be specified in any certification to be made, as more specifically provided in Subpart B of CFR Part 90.

Interested persons should submit written data, views, or arguments relating to the subjects of investigation to the Director, Office of Foreign Economic Policy, U.S. Department of Labor, Washington, D.C. 20210 on or before March 14, 1973.

Signed at Washington, D.C. this 22d day of February 1973.

GLORIA G. VERNON,  
Director, Office of  
Foreign Economic Policy.

[FR Doc.73 3939 Filed 3-1-73; 8:45 am]

Act and 20 CFR 617.5, begins on January 28, 1973, the first day of the third calendar week after the week for which there is a "temporary on" indicator, in the State of New Jersey which has previously entered into an agreement with the Secretary of Labor as provided in section 202 of the Act.

Temporary compensation, as defined in 20 CFR 617.2(d), shall be payable to eligible individuals, who have received temporary compensation for a week or weeks beginning before January 1, 1973, and who file claims for such compensation for weeks of unemployment which begin in the temporary benefit period with respect to the State of New Jersey. However, no temporary compensation under the Act is payable for any week of unemployment which ends after March 31, 1973, even though such week is in a temporary benefit period.

Signed at Washington, D.C., this 23d day of February 1973.

PETER J. BRENNAN,  
Secretary of Labor.

[Notice 218]

#### MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

Synopses of orders entered by the Motor Carrier Board of the Commission pursuant to sections 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 1132), appear below:

Each application (except as otherwise specifically noted) filed after March 27, 1972, contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application. As provided in the Commission's special rules of practice any interested person may file a petition seeking reconsideration of the following numbered proceedings on or before March 21, 1973. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC-74164. By order of February 6, 1973, the Motor Carrier Board approved the transfer to John J. Boyce Transportation, Inc., Atlantic City, N.J., of certificate No. MC-116811 (Sub-No. 1) issued November 17, 1971, to James A. Ruberton, Elm, N.J., authorizing the transportation of such general merchandise as is dealt in by wholesale and retail grocery and food business houses, when moving to or from the stores, warehouses, or other facilities of wholesale or retail food business houses, from Philadelphia, Pa., to Atlantic City, N.J. Alan Kahn, 1920 Two Penn Center Plaza, Philadelphia, PA 19102, applicants' attorney.

No. MC-FC-74193. By order of February 1, 1973, the Motor Carrier Board approved the transfer to K & K Wholesale Co., a corporation, Lowell, Oreg., of the operating rights in certificates Nos. MC-133816 (Sub-No. 1) and MC-133816 (Sub-No. 3) issued June 5, 1970, and October 18, 1972, respectively, to Kenneth L. Parks and Keith O. Parks, a partnership, doing business as K & K Wholesale Co., Lowell, Oreg., authorizing the transportation of lime, from points in Clark County, Nev., to points in Oregon and Washington, magnesite, from points in Nye County, Nev., to points in Oregon, and lumber, hardboard, and particleboard, from

points in Oregon to points in Nye and Clark Counties, Nev. Howard E. Speer, 835 East Park Street, Eugene, OR 97401.

No. MC-FC-74204. By order of February 7, 1973, the Motor Carrier Board approved the transfer to Thomas Mongeluzzi, West Babylon, Long Island, N.Y., of the operating rights in certificate No. MC-117650 issued October 1, 1965, to Michael J. Russo, Brooklyn, N.Y., authorizing the transportation of homing pigeons, in crates, and in connection therewith, supplies and equipment used in the care of such pigeons, in seasonal operations between March 1 and September 30, both inclusive, of each year, from points in Queens County, N.Y., to points in New Jersey and Wilmington, Del. William D. Traub, 10 East 40th Street, New York, NY 10016, registered practitioner for applicants.

[SEAL] ROBERT L. OSWALD,  
Secretary.

[Notice 23]

#### MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

FEBRUARY 22, 1973.

The following are notices of filing of applications for temporary authority under section 210(a) of the Interstate Commerce Act provided for under the new rules of Ex Parte No. FC-67 (49 CFR Part 1131) published in the FEDERAL REGISTER, issue of April 27, 1965, effective July 1, 1965. These rules provide that protests to the granting of an application must be filed with the field office named in the FEDERAL REGISTER publication, on or before March 16, 1973. One copy of such protests must be served on the applicant, or its authorized representative, if any, and the protests must certify that such service has been made. The protests must be specific as to the service which such protestant can and will offer, and must consist of a signed original and six copies.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in field office to which protests are to be transmitted.

#### MOTOR CARRIERS OF PROPERTY

No. MC 35628 (Sub-No. 344 TA), filed February 8, 1973. Applicant: INTERSTATE MOTOR FREIGHT SYSTEM, 134 Grandville Avenue SW., Grand Rapids, MI 49502. Applicant's representative: Leonard D. Verdier, Jr., 1 Vandenberg Center, Grand Rapids, Mich. 49502. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Frozen foodstuffs, from the plantsite and warehouses of Campbell Soup Co. at or near Omaha,

<sup>1</sup> Except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

Nebr., to Dale, Ind., for 180 days. Supporting shipper: R. J. Lloyd, Manager Transportation, Campbell Soup Co., Omaha, Nebr. Send protests to: C. R. Flemming, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 225 Federal Building, Lansing, Mich. 48933.

No. MC 59150 (Sub-No. 77 TA), filed February 14, 1973. Applicant: PLOOF TRANSFER COMPANY, INC., Post Office Box 38047, 1901 Hill Street, Jacksonville, FL 32202. Applicant's representative: Martin Sack, Jr., 1754 Gulf Life Tower, Jacksonville, Fla. 32207. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Pipe and pipe fittings, couplings, connections, and accessories (except iron or steel and commodities because of size or weight require the use of special equipment), from the plant or warehouse sites of Armco Steel Corp., Metal Products Division, in Montgomery County, Ala., to points in Arkansas, Georgia, Florida, Kentucky, Louisiana, Mississippi, North Carolina, South Carolina, Tennessee, Virginia, and West Virginia, and restricted to traffic originating at the above plant or warehouse sites and destined to points shown above and further restricted against the transportation of oil field commodities as defined in *Mercer-Extension-Oilfield Commodity*, 74 M.C.C. 459, for 180 days. Supporting shipper: Armco Steel Corp., 703 Curtis Street, Middletown, OH 45042. Send protests to: District Supervisor, Bureau of Operations, Interstate Commerce Commission, Box 35008, 400 West Bay Street, Jacksonville, FL 32202.

No. MC 94201 (Sub-No. 110 TA) (Correction), filed December 11, 1972, published in the FEDERAL REGISTER January 10, 1973, corrected and republished in part as corrected this issue. Applicant: BOWMAN TRANSPORTATION, INC., Post Office Box 17744, 1500 Cedar Grove Road, Atlanta, GA 30316. Applicant's representative: E. A. Wickman (same address as above). Note: The purpose of this partial republication is to show the correct authority sought as over irregular routes, in lieu of over regular routes, shown in error in previous publication. The rest of the application remains the same.

No. MC 102982 (Sub-No. 30 TA), filed February 12, 1973. Applicant: GEORGE W. KUGLER, INC., Post Office Box 6064, Ellet. Stat., 2800 East Waterloo Road, Akron, OH 44312. Authority sought to operate as a contract carrier, by motor vehicle, over irregular routes, transporting: Pipe (except iron and steel pipe), from the facilities of the Flintkote Co. at Ravenna, Ohio, to points in Delaware, Illinois, Indiana, Kentucky, Maryland, Michigan, New Jersey, New York, Pennsylvania, Virginia, West Virginia, Wisconsin, and the District of Columbia, under a continuing contract or contracts with the Flintkote Co. of Ravenna, Ohio, for 180 days. Supporting shipper: Flintkote Pipe Products Group, Ravenna, Ohio 44266. Send protests to: Franklin D. Ball, District Supervisor, Bureau of

Operations, Interstate Commerce Commission, 181 Federal Office Building, 1240 East Ninth Street, Cleveland, OH 44199.

No. MC 103051 (Sub-No. 269 TA), filed February 12, 1973. Applicant: FLEET TRANSPORT COMPANY, 934 44th Avenue North, Post Office Box 90408, Nashville, TN 37209. Applicant's representative: William G. North (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Liquid feed supplements, in bulk, in tank vehicles, from Nashville, Tenn., to points in Alabama, Arkansas, Georgia, Kentucky, and Mississippi, for 180 days. Supporting shipper: National Molasses Co., 220 Davidson Street, Nashville, Tenn. Send protests to: Joe J. Tate, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 803 1808 West End Building, Nashville, Tenn. 37203.

No. MC 103993 (Sub-No. 757 TA), filed February 12, 1973. Applicant: MORGAN DRIVE-AWAY, INC., 2800 West Lexington Avenue, Elkhart, IN 46514. Applicant's representative: Paul D. Borgheant (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Trailers, designed to be drawn by passenger automobiles, in initial movements, from Darlington County, S.C., to points in the United States, east of the Mississippi River, Louisiana, and Minnesota, for 180 days. Supporting shipper: Bowen Mobile Homes, Inc., Lamar, S.C. 29069. Send protests to: District Supervisor J. H. Gray, Bureau of Operations, Interstate Commerce Commission, 345 West Wayne Street, Room 204, Fort Wayne, IN 46802.

No. MC 107496 (Sub-No. 878 TA), filed February 12, 1973. Applicant: RUAN TRANSPORT CORPORATION, Third and Keosauqua Way, Post Office Box 855, Box ZIP 50304, Des Moines, IA 50309. Applicant's representative: E. Check (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Gasoline, in bulk, in tank vehicles, from Madison, Wis., to Dubuque, Iowa, for 150 days. Supporting shipper: Red X Corp., 725 Kelly Lane, Dubuque, IA 52001. Send protests to: Herbert W. Allen, Transportation Specialist, Interstate Commerce Commission, Bureau of Operations, 875 Federal Building, Des Moines, IA 50309.

No. MC 110988 (Sub-No. 295 TA), filed February 12, 1973. Applicant: SCHNEIDER TANK LINES, INC., 200 West Cecil Street, Neenah, WI 54956. Applicant's representative: David A. Petersen (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Liquid feed supplements, and molasses, in bulk, in tank vehicles, from Oswego, Ill., to points in Wisconsin, for 180 days. Supporting shipper: Feed Associates Inc., Box 325, Hartland, WI 53029 (Charles R. Nelson, president). Send protests to: District Super-

visor John E. Ryden, Interstate Commerce Commission, Bureau of Operations, 135 West Wells Street, Room 807, Milwaukee, WI 53203.

No. MC 112963 (Sub-No. 34 TA), filed February 13, 1973. Applicant: ROY BROS., INC., 764 Boston Road, Pinehurst, MA 01866. Applicant's representative: Leonard E. Murphy (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Chemicals, in bulk, in tank vehicles, from the Penn-Central R.R. terminal in Boston, Mass., to points in Maine, Vermont, New York, and Connecticut, for 180 days. Supporting shipper: Allied Chemical Corp., Post Office Box 1139R, Morristown, NJ 07960. Send protests to: Darrell W. Hammons, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 150 Causeway Street, Fifth Floor, Boston, MA 02114.

No. MC 118159 (Sub-No. 131 TA), filed February 12, 1973. Applicant: NATIONAL REFRIGERATED TRANSPORT, INC., 1925 National Plaza, Tulsa, OK 74151. Applicant's representative: Jack R. Anderson (same address as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: Meats, meat products, and meat byproducts, and articles distributed by meat packinghouses, as described in sections A and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766, from Emporia, Kans., to points in Alabama, Florida, Georgia, North Carolina, South Carolina, and Tennessee, for 180 days. Supporting shipper: Iowa Beef Processors, Inc., Joseph A. Eschenbacher, Jr., Dakota City, Nebr. 68731. Send protests to: C. L. Phillips, District Supervisor, Bureau of Operations, Interstate Commerce Commission, Room 240, Old Post Office Building, 215 Northwest Third, Oklahoma City, OK 73102.

No. MC 134855 (Sub-No. 3 TA), filed February 13, 1973. Applicant: GEORGE A. LA BAGH, INC., 713 North Street, Middletown, NJ 10940. Applicant's representative: Arthur J. Piken, 1 Lefrak City Plaza, Flushing, NY 11368. Authority sought to operate as a contract carrier, by motor vehicle, over irregular routes, transporting: Trailers, other than those designed to be drawn by passenger automobiles, containers, truck chassis, trailer chassis, trailer parts, and materials and supplies used in the manufacture of all of the above, in straight and mixed loads, between Berwick, Lehigh-ton, Hughesville, and Fairless Hills, Pa., and North Bergen, N.J., on the one hand, and, on the other, points in Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, New York, New Jersey, Pennsylvania, Delaware, Maryland, Virginia, North Carolina, South Carolina, Georgia, Florida, Alabama, Mississippi, Louisiana, Tennessee, Kentucky, West Virginia, Ohio, Indiana, Illinois, Michigan, Wisconsin, Minnesota, Texas, Kansas, Missouri, and the District

of Columbia, for 180 days. Restriction: The operations proposed herein are limited to a transportation service to be performed under a continuing contract or contracts with Strick Corporation, Fairless Hills, Pa. Supporting shipper: Strick Corporation, Fairless Hills, Pa. 19030. Send protests to: Joseph M. Barnini, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 518 New Federal Building, Albany, NY 12207.

No. MC 138138 (Sub-No. 1 TA) (Correction), filed November 6, 1972, published in the FEDERAL REGISTER issue of December 15, 1972, and republished as corrected this issue. Applicant: NATHAN INMAN, doing business as NATES TRUCKING, 1800 Brier Road, Turlock, CA 95380. Applicant's representative: J. Wilmar Jensen, Post Office Box 1726, Modesto, CA 95354. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Prefabricated disassembled homes*, from Manteca, Calif., to points in Nevada, for 180 days. Supporting shipper: Lear Siegler, Inc./Cuckler Division, Life-style Homes, 211 Oak Street, Manteca, CA. Send protests to: District Supervisor Claude W. Reeves, Bureau of Operations, Interstate Commerce Commission, 450 Golden Gate Avenue, Box 36004, San Francisco, CA 94102. NOTE: The purpose of this republication is to show that applicant proposes to transport: *Prefabricated disassembled home* in lieu of empty containers, container ends, which appeared in publication in error.

No. MC 138405 TA, filed February 12, 1973. Applicant: JOHN P. FLAHERTY, doing business as FLAHERTY TRANSPORT COMPANY, 705 Eighth Avenue North, Great Falls, MT 59401. Applicant's representative: John P. Flaherty (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities*, (1) between Great Falls, Mont., and Augusta, Mont., serving all intermediate points; from Great Falls, Mont., via I-15 to junction Highway 89; and Montana Highway 200; thence to junction Montana Highway 21; thence to Augusta and return; (2) between Great Falls, Mont., and Dupuyer, Mont., serving all intermediate points; from Great Falls, Mont., via I-15 to junction U.S. Highway 89; and Montana Highway 200; thence via U.S. Highway 89 to Dupuyer, and return; (3) between Augusta, Mont., and Choteau, Mont., serving all intermediate points via U.S. Highway 287; and (4) between Fairfield, Mont., via Montana Highway 408 to junction U.S. Highway 289, serving all intermediate points, for 180 days. NOTE: Applicant states it intends to interline at Great Falls, Mont., with other carrier. Supporting shippers: H & H Implement, Choteau, Mont. 59422; K's Auto Parts, Choteau, Mont. 59422; Sun River Electric Co-op, Fairfield, Mont. 59436; Three Rivers Telephone Co-op, Fairfield, Mont. 59436; Dirkes, Choteau, Mont. 59422; Trading Post, Augusta,

Mont. 59410; Elseman Seed Co., Fairfield, Mont. 59436. Send protests to: Paul J. Labane, District Supervisor, Bureau of Operations, Interstate Commerce Commission, Room 222, U.S. Post Office Building, Billings, MT 59101.

#### MOTOR CARRIERS OF PASSENGERS

No. MC 107583 (Sub-No. 53 TA), filed February 12, 1973. Applicant: SALEM TRANSPORTATION CO., INC., 133-03 35th Avenue, Flushing, NY 11354. Applicant's representative: George H. Rosen, 265 Broadway, Monticello, NY 12701. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Passengers and their baggage* in the same vehicle with passengers, from Philadelphia Naval Base, Philadelphia, Pa., to McGuire Air Force Base and Fort Dix, N.J. In special operations limited to the transportation of not more than 11 passengers in any one vehicle, not including the driver thereof, and not including children under 10 years of age who do not occupy a seat or seats, for 180 days. Supporting shipper: Department of the Navy, Office of the Commandant, Fourth Naval District, Philadelphia, Pa. 19112. Attention: Mabel R. Brantner, Passenger Transportation Administrator. Send protests to: Paul W. Assenza, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 26 Federal Plaza, Room 1807, New York, NY 10007.

By The Commission.

[FR Doc. 73-4014 Filed 3-1-73; 8:45 am]

#### FOURTH SECTION APPLICATIONS FOR RELIEF

FEBRUARY 27, 1973.

An application, as summarized below, has been filed requesting relief from the requirements of section 4 of the Interstate Commerce Act to permit common carriers named or described in the application to maintain higher rates and charges at intermediate points than those sought to be established at more distant points.

Protests to the granting of an application must be prepared in accordance with Rule 1100.40 of the general rules of practice (49 CFR 1100.40) and filed on or before March 19, 1973.

FSA No. 42634—*Joint water-rail container rates—Zim Israel Navigation Co., Ltd.* Filed by Zim Israel Navigation Co., Ltd. (No. 2), for itself and interested rail carriers. Rates on general commodities, from rail stations on the west coast of the United States, to ports in the United Kingdom, Ireland, Scandinavia, continental Europe, and Mediterranean Sea. Grounds for relief—Water competition.

Tariff—Zim Israel Navigation Co., Ltd., ICC No. 2, FMC No. 22. Rates are published to become effective on March 27, 1973.

FSA No. 42635—*Corn and grain sorghums to points in Texas.* Filed by Southwestern Freight Bureau, agent (No. B-387), for interested rail carriers. Rates on corn and grain sorghums, in carloads, as described in the application, from points in Nebraska on the MP, RI and UP, to points in Texas on the TEXCO.

Grounds for relief—Rate relationship. Tariff—Supplement 98 to Southwestern Freight Bureau, agent, tariff ICC 4967. Rates are published to become effective on April 3, 1973.

FSA No. 42636—*Iron or steel pipe and related articles from points in Colorado.* Filed by Southwestern Freight Bureau, agent (No. B-389), for interested rail carriers. Rates on iron or steel pipe and related articles, in carloads, as described in the application, from Fort Collins and

Minnequa, Colo., to points in Oklahoma and Texas.

Grounds for relief—Market competition and rate relationship.

Tariff—Supplement 254 to Southwestern Freight Bureau, agent, tariff ICC 4620. Rates are published to become effective on April 5, 1973.

By the Commission.

[SEAL] ROBERT L. OSWALD, Secretary.

[Notice 221]

#### MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

Synopses of orders entered by the Motor Carrier Board of the Commission pursuant to sections 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 1132), appear below:

Each application (except as otherwise specifically noted) filed after March 27, 1972, contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application. As provided in the Commission's special rules of practice, any interested person may file a petition seeking reconsideration of the following numbered proceedings on or before March 22, 1973. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC-74097. By order of February 7, 1973, the Motor Carrier Board approved the transfer to Space World U. S. A. Tours, Inc., Chicago, Ill., of the operating rights in Certificate No. MC-111662 issued September 28, 1950 to Joliet-Aurora Transit Lines, Inc., Aurora, Ill., authorizing the transportation of passengers and their baggage, in round-trip charter service beginning and ending at Plainfield, Ill., and extending to points in Indiana, Iowa, Kentucky, Michigan, Missouri, Ohio, and Wisconsin. Phillip A. Lee, 33 North Dearborn Street, Chicago, IL 60602, attorney for applicants.

No. MC-FC-74177. By order of February 7, 1973, the Motor Carrier Board approved the transfer to Whitle's Transportation, Inc., Siren, Wis., of Certificate No. MC-125570 (Sub-No. 1), issued April 28, 1966, to Maynard C. Johnson, doing business as Whitle's Transportation Service, Siren, Wis., authorizing the transportation of passengers and their baggage, in round-trip charter operations, beginning and ending at points in Burnett and Polk Counties, Wis., and extending to points in Illinois, Iowa, Michigan, and Minnesota. S. J. Auringer, attorney at law, Siren, Wis. 54872, applicant's attorney.

No. MC-FC-74192. By order of February 7, 1973, the Motor Carrier Board approved the transfer to O'Neal's Bus Service, Inc., Wilmington, Del., of Certificate No. MC-41770 issued October 29, 1959, to Owen E. O'Neal, E. Margaret O'Neal, Administratrix, doing business as O'Neal's Bus Service, Wilmington, Del., authorizing the transportation of passengers and their baggage, restricted to traffic originating in the territory indicated, in charter operations, from Booth's Corner, Pa., to points in Cecil County, Md., and return, and from points in a described area of New Castle County, Del., to points in Maryland; those in a described area of Pennsylvania; and those in New Jersey south of U.S. Highway 30, and return; passengers and their baggage in round-trip charter operations beginning and ending at the points indicated, from points in a described area of Delaware, to Washington, D.C., and points within 20 miles of Washington, D.C., and return, and from points in the described area of Delaware to points in a described area of Pennsylvania; Mt. Arlington, N.J., and points in a described area of New Jersey, and return. Harry J. Jordan, Macdonald & McInerney, 1000 16th Street NW., Washington, DC 20036, applicants' attorney.

No. MC-FC-74196. By order of February 7, 1973, the Motor Carrier Board approved the transfer to Stacey-Adam Warehouse, Inc., Newark, N.J., of Certificate No. MC-64075, issued December 17, 1951, to Walnut Transfer, Inc., Newark, N.J., authorizing the transportation of general commodities, with exceptions, between Newark, N.J., and New York, N.Y. Herman B. J. Weckstein, 60 Park Place, Newark, NJ 07102, attorney for transferor and Robert B. Pepper, 168 Woodbridge Avenue, Highland Park, NJ 08904, transferee's representative.

No. MC-FC-74205. By order of February 12, 1973, the Motor Carrier Board approved the transfer to Swanson Boat Transport Corp., New Rochelle, N.Y., of that portion of the operating rights in Certificate No. MC-117802 (Sub-No. 1), issued July 15, 1960, to D'Andrade Marine Transport, Inc., Huntington Station, N.Y., authorizing the transportation of boats, not exceeding 33 feet in length, from points in Nassau and Suffolk Counties, N.Y. (other than those in the New York, N.Y., commercial zone as defined by the Commission), to points in Florida, and returned or refused shipments of boats, not exceeding 33 feet in length, from points in Florida to points in Nassau and Suffolk Counties, N.Y. (other than those in the New York, N.Y., commercial zone as defined by the Commission). Arthur J. Piken, One Lefrak City Plaza, Flushing, NY 11368, attorney for transferor, and William D. Traub, 10 East 40th Street, New York, NY 10016; registered practitioner for transferee.

No. MC-FC-74208. By order entered February 8, 1973, the Motor Carrier Board approved the transfer to B & T Truck Line, Inc., Brigham City, Utah,

of the operating rights set forth in Certificate No. MC-117934 (Sub-No. 3), issued March 15, 1966, and Certificate of Registration No. MC-117934 (Sub-No. 5), issued April 7, 1965, to Howard L. Jorgensen, doing business as B & T Truck Line, Brigham City, Utah, authorizing the transportation of general commodities, except household goods and commodities in bulk, between specified points in Utah, as to the certificate, and evidencing a right to engage in operations in interstate or foreign commerce as a common carrier by motor vehicle in the transportation of commodities generally over regular routes from Brigham to Thiolok plant site (Utah), as to the certificate of registration. Irene Warr, 430 Judge Building, Salt Lake City, Utah 84111, attorney for applicants.

No. MC-FC-74215. By order of February 9, 1973, the Motor Carrier Board approved the transfer to Dale Edward Thomas & Ray Franklin Linquist, a partnership, doing business as T and L Trucking, Coin, Iowa, of the operating rights in Certificate No. MC-77796 issued March 24, 1954, to Dale Earwood, Coin, Iowa, authorizing the transportation of various commodities from and to a described area in Iowa and Omaha, Nebr., and St. Joseph, Mo.

[Notice 24]

#### MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

FEBRUARY 23, 1973.

The following are notices of filing of applications for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the new rules of Ex Parte No. MC-67 (49 CFR Part 1131), published in the FEDERAL REGISTER, issue of April 27, 1965, effective July 1, 1965. These rules provide that protests to the granting of an application must be filed with the field official named in the FEDERAL REGISTER publication, on or before March 19, 1973. One copy of such protests must be served on the applicant, or its authorized representative, if any, and the protests must certify that such service has been made. The protests must be specific as to the service which such protestant can and will offer, and must consist of a signed original and six copies.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in field office to which protests are to be transmitted.

#### MOTOR CARRIERS OF PROPERTY

No. MC 35295 (Sub-No. 10 TA), filed February 16, 1973. Applicant: AMERI-

<sup>1</sup>Except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

CAN TRANSFER CO., Post Office Box 1226, 2810 Jensen Avenue, Fresno, CA 93715. Applicant's representative: William D. Taylor, 405 Montgomery Street, Suite 1400, San Francisco, CA 94104. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Dry sulphur* in bulk, from Fresno, Calif., to the sites of the Anaconda Copper Mines at or near Weed Heights and Yerington, Nev., for 180 days. Supporting shipper: Wingsate Co., 4791 East Date, Post Office Box 2651, Fresno, CA 93745. Send protests to: District Supervisor Claud W. Reeves, Bureau of Operations, Interstate Commerce Commission, 450 Golden Gate Avenue, Box 36004, San Francisco, CA 94102.

No. MC 66129 (Sub-No. 7 TA) (Correction), filed January 24, 1973, published in the FEDERAL REGISTER issue of February 12, 1973, and republished as corrected this issue. Applicant: HUGHES BROS. TRANSPORTATION COMPANY, 113 Metropolitan Avenue, Brooklyn, NY 11211. Applicant's representative: Arthur J. Piken, Suite 515, One Lefrak City Plaza, Flushing, NY 11368. Note: The purpose of this partial republication is to show the correct territorial description as Lodi, N.J., in lieu of Lodi, N.Y., which was published in error. The rest of the application remains the same.

No. MC 78118 (Sub-No. 21 TA), filed February 15, 1973. Applicant: W. H. JOHNS, INC., 35 Witmer Road, Lancaster, PA 17602. Applicant's representative: Christian V. Graf, 407 North Front Street, Harrisburg, PA 17101. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Prepared food products*, from the H. J. Heinz Co. warehouse at Woodstown, N.J., to the H. J. Heinz Co. distribution center, Mechanicsburg, Pa., for 180 days. Restricted to transportation originating at the indicated origin point and destined to the indicated destination. Supporting shipper: Heinz U.S.A. Division, H. J. Heinz Co., Post Office Box 57, Pittsburgh, PA 15230. Send protests to: Robert W. Ritenour, District Supervisor, Bureau of Operations, Interstate Commerce Commission, Post Office Box 869, Harrisburg, PA 17108.

No. MC 108380 (Sub-No. 85 TA), filed February 12, 1973. Applicant: JOHNSTON'S FUEL LINERS, INC., Post Office Box 100, 808 Birch Street, Newcastle, WY 82701. Applicant's representative: John H. Lewis, The 1650 Grant Street Building, Denver, Colo. 80203. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Coal tar products* in bulk, in tank vehicles, from Ironton, Utah to Whitewood, S. Dak., for 150 days. Supporting shipper: Wheeler Division, St. Regis Paper Co., Post Office Box 160, West Des Moines, Iowa 50265. Send protests to: District Supervisor Paul A. Naughton, Bureau of Operations, Interstate Commerce Commission, 100 East B Street, Casper, WY 82601.

No. MC 108937 (Sub-No. 36 TA), filed February 8, 1973. Applicant: MURPHY

MOTOR FREIGHT LINES, INC., 2323 Terminal Road, St. Paul, MN 55113. Applicant's representative: R. L. Stevens (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, livestock, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading), from Milwaukee, Wis., to Rhinelander, Wis., serving the intermediate point of Antigo, Wis., and the intermediate or off-route points within the Milwaukee commercial zone, over regular routes, as follows: From Milwaukee over Wisconsin Highway 145 to junction U.S. Highway 45, thence over U.S. Highway 45 to Fond du Lac, Wis., thence over Wisconsin Highway 175 to junction U.S. Highway 41, thence over U.S. Highway 41 to Oshkosh, Wis., thence over U.S. Highway 45 to junction U.S. Highway 8 thence over U.S. Highway 8 to Rhinelander, for 180 days. Note: Applicant intends to tack at Rhinelander with other authority held in MC-108937, Sub 33, and intends to interline with other carriers at points in the Milwaukee commercial zone. Supporting shippers: There are approximately 29 statements of support attached to the application, which may be examined here at the Interstate Commerce Commission in Washington, D.C., or copies thereof which may be examined at the field office named below. Send protests to: District Supervisor Raymond T. Jones, Bureau of Operations, Interstate Commerce Commission, 448 Federal Building and U.S. Courthouse, 110 South Fourth Street, Minneapolis, MN 55401.

No. MC 112854 (Sub-No. 32 TA), filed February 14, 1973. Applicant: HOLLEBRAND TRUCKING, INC., Post Office Box 164, Macedon Center Road, Ontario Center, NY 14520. Applicant's representative: S. Michael Richards, Post Office Box 225, Webster, NY 14580. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Coal*, from the facilities of Kettle Creek Mine located at or near Westport, Pa., to points in New York (except Johnson City, Bainbridge, Dresden, Ludlowville, and Palmyra, N.Y.), for 180 days. Supporting shipper: Ringgold Coal Mining Co., Kittanning, Pa. 16201. Send protests to: Morris H. Gross, District Supervisor, Bureau of Operations, Interstate Commerce Commission, Room 104, 301 Erie Boulevard West, Syracuse, NY 13202.

No. MC 116763 (Sub-No. 238 TA), filed February 12, 1973. Applicant: CARL SUBLER TRUCKING, INC., North West Street, Versailles, OH 45380. Applicant's representative: H. M. Richters (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Prepared animal food*, except in bulk, from the plant site and warehouse facilities of Lipton Pet Foods, Inc., at or near Woburn, Mass., to Los Angeles, Richmond, and Santa Cruz,

Calif. and Denver, Colo., for 180 days. Supporting shipper: Lipton Pet Foods, Inc., Box 89-209, New Boston Street, Woburn, MA 01801. Send protests to: Paul J. Lowry, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 5514-B Federal Building, 550 Main Street, Cincinnati, OH 45202.

No. MC 117613 (Sub-No. 15 TA), filed February 20, 1973. Applicant: DONALD M. BOWMAN, JR., Route 3, Box 26, Hagerstown, MD 21740. Applicant's representative: Charles E. Creager, Suite 523, 816 Easley Street, Silver Spring, MD 20910. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Concrete masonry products*, on vehicles equipped with mechanical boom unloaders, from Chambersburg, Pa., to points in New York, New Jersey, Delaware, Maryland, Ohio, Virginia, West Virginia, and the District of Columbia, for 180 days. Supporting shipper: Kitterhouse Concrete Products, Inc., Box N, Chambersburg, PA 17201. Send protests to: Robert D. Caldwell, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 12th Street and Constitution Avenue NW., Washington, D.C. 20423.

No. MC 123314 (Sub-No. 16 TA), filed February 15, 1973. Applicant: JOHN F. WALTER, INC., Post Office Box 175, Newville, PA 17241. Applicant's representative: Christian V. Graf, 407 North Front Street, Harrisburg, PA 17101. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Prepared food products*, from the H. J. Heinz Co. warehouse at Woodstown, N.J., to the H. J. Heinz Co. distribution center at Mechanicsburg, Pa., for 180 days. Restricted to the transportation of traffic originating at the indicated origin point and destined to the indicated destination point. Supporting shipper: Heinz U.S.A. Division, H. J. Heinz Co., Post Office Box 57, Pittsburgh, PA 15230. Send protests to: Robert W. Ritenour, District Supervisor, Bureau of Operations, Interstate Commerce Commission, Post Office Box 869, Harrisburg, PA 17108.

No. MC 125985 (Sub-No. 14 TA), filed February 14, 1973. Applicant: AUTO DRIVEAWAY COMPANY, 343 South Dearborn Street, Chicago, IL 60604. Applicant's representative: Mr. David Steinhagen (same address as applicant). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Motor homes*, between Macomb, Ill., on the one hand, and, on the other, points in the United States, for 180 days. Supporting shipper: Dennis Austin, Jamboree, Inc., Macomb, Ill. Send protests to: William J. Gray, Jr., Area Supervisor, Interstate Commerce Commission, Bureau of Operations, Everett McKinley Dirksen Building, 219 South Dearborn Street, Room 1086, Chicago, IL 60604.

No. MC 127238 (Sub-No. 7 TA) (Correction), filed January 22, 1973, published in the FEDERAL REGISTER issue of

February 12, 1973, and republished as corrected this issue. Applicant: DOROTHY R. ZUMMO, doing business as AIR DELIVERY SERVICE, Post Office Box 1102, Remington Avenue and Locust Street, Scranton, PA 18505. Applicant's representative: S. J. Zummo (same address as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *General commodities*, with the usual exceptions, between points in Allentown-Bethlehem-Easton Airport, Hanover Township (Lehigh County), Pa.; and Philadelphia International Airport, Philadelphia, Pa., on the one hand, and, on the other, points in Warren and Hunterdon Counties, except Flemington, Frenchtown, and Lambertville, N.J., for 180 days. Restriction: Restricted to shipments having a prior or subsequent movement by air. Supporting shippers: The Asbury Graphite Mills, Inc., Asbury, Warren County, N.J. 08802; J. T. Baker Chemical Co., 222 Red School Lane, Phillipsburg, NJ 08865; Custom Alloy Corp., Route 513, Califon, N.J. 07830; Kuhl Egg Equipment Corp., Kuhl Road, Post Office Box 26, Flemington, NJ 08822. Send protests to: Paul J. Kenworthy, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 309 U.S. Post Office Building, Scranton, PA 18503. Note: The purpose of this republication is to reflect the change in the territorial scope to "points in Allentown-Bethlehem-Easton Airport, Hanover Township (Lehigh County), Pa." in lieu of "points in Allentown-Bethlehem-Easton Airport, Hanover Township and Lehigh County, Pa." that was published in error.

No. MC 134551 (Sub-No. 2 TA), filed February 15, 1973. Applicant: LANTER REFRIGERATED DISTRIBUTING CO., 3 Caine Drive, Madison, IL 62606. Applicant's representative: Ernest A. Brooks II, 1301-02 Ambassador Building St. Louis, Mo. 63101. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Meats, meat products, and meat by-products, and articles distributed by meat packinghouses* as described in Appendix I to report in Descriptions in Motor Carrier Certificates, 61 MCC 209 and 766, from National City and Madison, Ill., to points in Carlisle, Hickman, Fulton, Calhoun, Marshall, McCracken, Ballard, and Graves Counties, Ky., for 180 days. Supporting shipper: G. Dwight Weed, Manager, Motor Carrier Division, Transportation Department, Swift Fresh Meats Co., 115 West Jackson Boulevard, Chicago, IL 60604. Send protests to: Harold C. Jolliff, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 518 Leland Office Building, 527 East Capitol Avenue, Springfield, IL 62701.

#### MOTOR CARRIERS OF PASSENGERS

No. MC 138389 (Sub-No. 1 TA), filed February 16, 1973. Applicant: HUDSON VALLEY BUS CO., INC., Englewood Terrace, Mahopac, N.Y. 10541. Applicant's representative: Sidney J. Leshin, 501 Madison Avenue, New York, NY 10022.

Authority sought to operate as a contract carrier, by motor vehicle, over irregular routes, transporting: *Passengers*, between the villages of Pleasantville, Tarrytown, Elmsford, and Katonah and city of Yonkers, N.Y., and Wayne, Little Falls, and Fairfield, N.J., for 180 days. Supporting shipper: Jack Pike, Chairman, Employees' Transportation Committee of The Singer Company, Kearfott Division, 63 Bedford Road, Pleasantville, NY 10570. Send protests to: Joseph M. Barnini, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 518 New Federal Building, Albany, N.Y. 12207.

By the Commission.

CHAPTER I—COAST GUARD,  
DEPARTMENT OF TRANSPORTATION  
SUBCHAPTER B—MERCHANT MARINE  
OFFICERS AND SEAMEN  
[CGD 72-132R]  
LICENSES FOR OPERATION OF  
UNINSPECTED TOWING VESSELS

The purpose of the amendments in this document is to add to Chapter I of Title 46, Code of Federal Regulations, rules governing the issuance of licenses for the operation of uninspected towing vessels that implement the Towing Vessel Operator Licensing Act (Public Law 92-339, R.S. 4427, as amended, 46 U.S.C. 405(b) (July 7, 1972)).

In the August 11, 1972, issue of the FEDERAL REGISTER (37 FR 16374), the Coast Guard proposed regulations governing the issuance of licenses for the operation of uninspected towing vessels to implement the Towing Vessel Operator Licensing Act. The Coast Guard held public hearings on September 13, 1972, in Seattle, Wash.; on September 20, 1972, in New York, N.Y.; on September 26, 1972, in New Orleans, La.; and on September 27, 1972, in St. Louis, Mo. In addition, the date for submission of written comments was extended three times at the request of interested persons who required more time to fully document their views. There was, therefore, a total of 153 days in which interested persons could submit written comments on the proposal.

The Towing Vessel Operator Licensing Act requires uninspected towing vessels to be under the direction and control of a person licensed by the Coast Guard, while underway. Also, it defines "towing vessel" as a commercial vessel which is 26 feet or more in length engaged in or intended to engage in the service of towing. The Act does not apply to towing vessels of less than 200 gross tons engaged in or preparing or intended to immediately engage in a service to the offshore oil and mineral exploitation industry, including construction for such industry where the vessels involved would have as their ultimate destination or last point of departure offshore oil and mineral exploitation sites or equipment.

The regulations proposed by the Coast Guard to implement the Act, as applied to those persons presently operating towboats, would require that—

- The individual had already been satisfactorily employed on towing vessels;
- An applicant meet physical standards similar to those required for presently licensed personnel;
- An applicant be subject to the suspension or revocation of his license on the same grounds of incompetence, negligence, misconduct, or physical incapacity applied to all other licensed personnel; and
- An applicant pass an examination on the applicable rules of the road, thereby demonstrating knowledge of the following:

## RULES AND REGULATIONS

- Steering and sailing rules;
- Identification lights for all vessels;
- Day marks and signals for special operations;
- Whistle passing and warning signals;
- Safe operations in limited visibility;
- Aids to navigation for pipelines and floating plants;
- Warning signals for transferring dangerous cargoes; and
- Laws and regulations pertaining to all of the foregoing.

The Coast Guard believes that the introduction of qualifications and standards into an operation where nothing is presently required will significantly reduce casualties attributable to personnel error.

It is also the intention of the Coast Guard to introduce a safeguard which will quickly illuminate any inadequacy of the final regulations. A program will be written to provide an input to the computerized casualty information and analysis files that will accumulate, identify, and store any reference to a towboat casualty involving personnel error. In particular, the system will focus attention on any incidents accountable to the operator's unfamiliarity with a specific locale or area. In this way, the rules now being promulgated will be continually evaluated to insure that the intent of the statute is being met.

Written and oral comments were received from more than 150 organizations and individuals representing management, labor, Government agencies, training institutions, and the general public. More comments endorsed the proposal than opposed it.

Commenters objecting to the proposed regulations argued that the rules would prove inadequate because the requirements were not stringent enough. It was suggested that an individual licensed under the new regulations should be restricted to operating within an area which he could, from memory, draw detailed charts and diagrams reflecting physical features, safe courses, and navigable channels. Several labor organizations, representing already licensed officers, objected to the proposed name of "operator" and voiced concern that the issuance of licenses for service over broad geographic areas would not produce sufficiently qualified personnel. In general, these commenters advocated extending the existing master/mate and pilot license structure to the uninspected towboats.

The Coast Guard recognizes the appeal of applying the master/mate and pilot concept but considers it to be in direct contravention with congressional intent to create a new authority for licensing. Discussions by the Coast Guard with various organizations representing the towing vessel industry during the development of the regulations indicated the impracticality of extending the current structure. The Coast Guard approached the problem by recognizing the fact that there are many individuals

in the industry with limited education and limited formal training who have been productively employed and have gained extensive experience.

Accordingly, it is not the Coast Guard's intention to impose upon these individuals, and upon the towing industry as a whole, the relatively more severe requirements of the traditional master/pilot system which many applicants would have difficulty meeting in a timely fashion.

These regulations reflect only slight modifications from the preliminary proposals which were presented at congressional hearings on the subject. House Report No. 92-125, 92d Congress (1971), referring to the text of the same proposals, stated in part that "the Committee endorses the concept reflected in the draft regulations submitted as meeting the intent of the Committee to insure the proper qualification of an individual seeking a license as required by this bill."

In response to the comments received, certain changes have been made to the proposed regulations. What follows is a summary of the comments recorded, the sections to which they were directed, and an explanation of the Coast Guard's response.

**Section 10.16-5.** The proposed § 10.16-61 has been renumbered § 10.16-5, and a new paragraph has been added to the section which identifies the licenses issued.

The designations of operator and second class operator were favored by a large percentage of affected individuals, and are included in the language of the congressional committee reports. However, views were submitted that these terms reflected a break with custom and that towboat skippers would be demeaned, thereby. Also, the introduction of such terms would complicate existing and future collective bargaining agreements.

It is the Coast Guard's view that the term "operator" admirably suits the circumstances and serves additionally to protect the status and prestige of the traditional master. Subpart 10.16 places appropriate and reasonable requirements upon the uninitiated and allows their entry into the regulated arena with minimal qualifications for a special license. Considered as a preliminary step or intermediate approach, it is a particularly suitable approach for those individuals who will be eligible for a license under the "grandfather clause," § 10.16-71.

Furthermore, the path is open for the newly licensed "operator" to accept the challenge of the higher grade and after a given time make application and sit for the superior licenses, if he so desires.

Apart from any of the foregoing, if the master/pilot concept was adopted as requested by some commenters, it would automatically invoke more severe qualifying standards and criteria to the detriment of the entire program. Nevertheless, there is nothing to prevent the more

experienced or qualified candidate from sitting immediately for any of the existing master/mate or pilot licenses, by-passing the "operator" step altogether.

The question was raised as to whether the proposed "operator" would be authorized to serve on any or all uninspected towboats, regardless of size or route. The answer to that question is a qualified yes. He may serve except under those circumstances where an existing statute requires a licensed master to serve. A case in point is the Officers Competency Certificates Act (53 Stat. 1049; 46 U.S.C. 224a), which requires, among other things, that any vessel of 200 gross tons or over operating on the high seas must have licensed masters, mates, and engineers. This provision has been incorporated for clarification into § 10.16-5.

In response to the many inquiries received concerning the validity of licenses previously issued, the Coast Guard intends to endorse licenses as follows:

a. The holder of a license as master/mate (except as mate of inland steam or motor vessels) or pilot may serve as the operator of an uninspected towing vessel within the scope and limitations endorsed on his license (§ 10.16-5(d)). In addition, the holder of such a license may make application for and receive an endorsement as operator of uninspected towing vessels upon the broad geographic area which includes the limitations of his original license. Such endorsement will be given without further physical or written examination. As an example, the holder of a first class pilot's license between Memphis and St. Louis would receive an endorsement as operator of uninspected towing vessels upon the western rivers.

b. The holder of a license as inland mate, provided he met the service requirement of 1 year as person in charge of a towing vessel, would be required to complete the appropriate Rules of the Road examination prior to the issuance of an endorsement.

c. The holders of licenses as ocean operator, inland operator, or motorboat operator would qualify in the same manner as inland mates.

**Section 10.16-11.** The significance of this section is that it designates the geographic area of the licenses to be issued: inland waters, Great Lakes, western rivers, oceans, oceans not more than 200 miles offshore, or a limited local area designated by the Coast Guard. Section (b) (2) of the Act requires a person to be licensed "to operate in the particular geographic area." The interpretation of this wording appears in the Senate Report (Commerce Committee) 92-926, 92d Congress (1972), which states that the geographic area is intended to coincide with areas of applicability of the differing sets of nautical rules of the road. For example, inland rules, Great Lakes rules, and so on. It was also the Committee's intent that the license to be issued should be as broad in area as practicable.

It was at this concept that the earlier mentioned comments of "inadequate" were mainly directed. On the western

## RULES AND REGULATIONS

rivers, for instance, it was held that applicants should be restricted to areas over which they could document extensive service and of which they could successfully draw chart sketches showing distances, aids to navigation, courses, and other important features of the route.

Although, as stated above, this thinking represents the extreme point of view, i.e., full pilotage and existing licensing requirements, the Coast Guard believes that several lesser requirements can be made which will effectively strengthen the regulations. First, where the proposal was silent as to the acquiring and identification of service, a requirement has been added to §§ 10.16-23 and 10.16-25 so that a license will be restricted to the appropriate geographical waters upon which the applicant is experienced. Second, any additional endorsement on that license will be contingent upon the showing of experience on other geographic areas as well. In other words, an individual, initially licensed for western rivers, based on service thereupon, must sail on inland waters before becoming eligible for the additional endorsement. As a means of acquiring this experience, an applicant who passes an appropriate examination may have his operator's license endorsed as second class operator for the requested route which permits him to sail on inland waters provided an operator who is properly licensed is aboard. When the necessary experience is attained, the license may be upgraded to operator for both western rivers and inland waters without further examination.

Third, in response to the comment that the proposal was inadequate by not identifying the type or nature of experience that would be acceptable, the regulation now requires that duties or training in the wheelhouse must be included.

Another comment on this section suggested that the oceans (not more than 200 miles offshore) be increased to oceans (not more than 500 miles offshore). This view was based on the accurate range of electronic navigation equipment as well as the fact that in a few areas such operations had been conducted successfully by personnel who would perhaps find it difficult to pass an examination in celestial navigation as proposed for routes in excess of 200 miles offshore. The Coast Guard did not make the suggested change because, although the benefits and effectiveness of electronic navigation are recognized, there is no requirement to outfit a vessel with electronic navigation equipment. Even when a vessel has this equipment, fault or failure is not uncommon. Complete reliance on electronic aids instead of celestial navigation from great distances offshore is not in the best interests of safety.

Another comment on this section recommended that endorsement for inland waters be extended, in certain instances, to include portions of waters where the International Rules of the Road apply. There is insufficient justification for such deviation from the well defined and

established lines of demarcation between the various sets of the Rules of the Road. To provide for certain exceptions would only confuse the issue while to hold to the proposed dividing lines between the broad geographic areas should not cause undue hardship on those affected. Since the present routes of the commenters include both inland waters and oceans, they are already knowledgeable in both sets of the Rules of the Road.

Another comment on this section recommended that the licenses issued should be limited by gross tonnage or other suitable criteria, as well as by geographical area. Such additional restrictions for vessels with offshore routes are not considered necessary since licenses issued under this new subpart are only valid for those vessels of less than 200 gross tons that are not subject to 46 U.S.C. 224a. For operations on the western rivers, Great Lakes, and inland waters, gross tonnage, by itself, is not a satisfactory criteria for towing vessels as it is not an accurate indication of their overall capability to move a tow. After careful consideration of all aspects of the problem including the comments received, the licenses issued under this subpart will be limited only to geographic area and type of vessel.

Finally, in response to comments that the proposed geographic areas might prove too broad in scope, the Coast Guard points out that an applicant may request a more limited route or an Officer in Charge may limit a license commensurate with the experience of the applicant. In such cases, the Officer in Charge, Marine Inspection, will administer an examination he considers appropriate for the limited license to be issued.

**Section 10.16-21.** Concerning this section, the comments had to do with the need for clarification of intent with respect to literacy, physical, and experience eligibilities. Some commenters stated that the regulations were inconsistent by requiring a reading ability under this section while acknowledging the possible need for oral examination under the proposed § 10.16-21. This would not be the case. By way of background, Congressional intent is clearly reflected in Senate Report No. 92-926 which states, "Finally, it is intended that the examination given may, under appropriate circumstances, be oral rather than written, in order to accommodate individuals, particularly those who will have been serving as towboat operators prior to the effective date of the licensing regulations, who, for any reason may request an oral, in lieu of a written examination." It has been the Coast Guard's experience that an oral exam is appropriate when an applicant with limited reading and writing ability is hard pressed to cope with the formal, essay style examinations presently administered. It is believed that the newer, objective style, multiple choice type examinations being prepared will, together with growing educational opportunities, gradually reduce the need for oral examination. Related to the foregoing, it was also pointed out that

in some areas even being required to speak English would present a problem. This is recognized, but it is believed that the minimal fluency called for in the proposed examination will enable the earnest candidate to qualify. This minimal requirement would also satisfy the new vessel bridge-to-bridge radiotelephone regulations added to 33 CFR Part 26 (37 FR 12719) which prohibits the use or maintenance of a listening watch on such equipment unless the English language is spoken.

Comments concerning paragraph (d) of § 10.16-21 pointed out that the requirement for "2 other reputable persons" as personal references without being character references without being a professional recommendation. The Coast Guard agrees that the broadly worded proposal would permit this interpretation and has clarified the wording to restrict such references to persons with whom the applicant has worked.

Comments concerning paragraph (e) pointed out that the proposed requirement for a physical examination at a public health facility except "in exceptional cases and at great inconvenience" would result in hardship and expense for applicants since public health facilities are not available where a majority of the applicants live. The Coast Guard determined that the objection to the proposal was valid and a change has been made which will permit the required physical examination to be conducted by licensed physician other than a medical officer of the Public Health Service.

In agreement with various environmental groups for the protection of the marine environment, a new paragraph (g) has been added. This requires that every applicant to be licensed under the provisions of § 10.16-71 certify that he understands the contents of the Coast Guard publication "Oil Pollution Control for Tankermen," which is furnished by the Officer in Charge, Marine Inspection. This requirement is intended as an educational measure to promote greater awareness and responsibility to antipollution efforts.

Section 10.16-23. Some views expressed concern or uncertainty regarding the nature and amount of experience proposed for a second class operator's license. In response to such comment, two changes have been introduced for clarification. First, the on deck experience requirements have been extended to include duties of training in the wheelhouse. Second, where the location of experience gained was unspecified in the proposal, the regulation now includes a requirement for at least 3 months' service on each geographic area for which application is made.

The basic requirement for 18 months' deck experience, rather than 36 months as suggested, has not been changed. The Coast Guard believes that this license is intended to serve as an entry rating into the industry, and need not reflect the same length of service as the "Operator" license.

Section 10.16-25. A number of basic changes were made in this section. These

were generally responsive to that sentiment which criticized the proposals as being inadequate. The same changes made to § 10.16-23 were made herein. Also, the conversion of a second class to operator was clarified in a new paragraph (b).

A suggestion was made that training be considered as a substitute for sea service. Should this training ever be offered, the Coast Guard will evaluate it on an equivalency basis.

Section 10.16-31. Under this section, an oral examination in lieu of a written examination is allowed. Such examination will be practical, not theoretical.

Answers to questions by commenters are as follows:

a. On waters where a magnetic compass is not utilized (i.e., western rivers) questions on its use will not be included in the examination.

b. Under the laws and regulations examination (paragraph (a) (10)), all necessary publications will be available for use by the applicant during the examination. His ability to properly use such regulations for reference will be stressed rather than memorization of details. Since a license as operator will not automatically qualify the holder as a tankerman, questions on Subchapters D (Parts 30-40) and O (Part 151), of Title 46, Code of Federal Regulations, will be confined mainly to manning, information cards, and the regulations that must be observed on board a vessel transporting hazardous cargoes such as the safety procedures requirements and the reporting of casualties. The examination will not include questions on transfer operations, cargo venting, and piping, and similar questions which would be required in a tankerman's examination.

c. Pollution prevention and control questions (paragraph (a) (11)) will be based largely on recently published Coast Guard regulations, particularly those pertaining to the reporting of spills, and to good operating procedures. As authoritative reference books become available, including the Coast Guard Tankerman's Manual, CG-174, which is presently under revisions, the examination will be expanded and updated.

d. The word "navigation" in paragraph (b) has been clarified by adding the word "celestial" and indicating the problems an applicant is expected to solve.

e. To eliminate as much as possible the subjective differences in examination procedures from port to port, the examinations will be prepared and distributed from a central location. They are in the multiple choice format to insure objectivity and to require as little of the applicant's time as possible to complete. In an effort to develop practical, job-oriented examinations, discussions have been held with representatives of training institutions, labor groups, and management concerning the content of the examinations. Their comments will be reflected in detailed examinations specifications which, together with sample questions and a reference bibliography, will be published in a specimen examination booklet.

f. Radar, in the sense of a qualified radar observer, is not included as an examination subject. Fundamental questions on operation and use of radar may be contained in the examination "Operation and use of navigational instruments and accessories" (paragraph (a) (3)).

g. Paragraph (d) is hereby withdrawn because the use of multiple choice examinations has made this requirement impractical.

Section 10.16-51. The prohibition against renewing the second-class operator's license was questioned by commenters. The professional and full-time operator will never have occasion to renew a second-class operator's license since he will qualify for an operator's license by acquiring the necessary 3 years' service or reaching the age of 21. Only a casual part-time operator might conceivably request renewal of a second-class operator's license due to failure to obtain a total of 3 years' service during the 5 years his license is valid. This provision against renewal tends to insure that holders of valid licenses are, in fact, active operators with fairly recent experience. It also provides the man who leaves the industry for a few years with a means of once again obtaining a second-class operator's license provided he meets all qualifications for an original license, including examination. For these reasons, no change was made to this section.

Section 10.16-71. This section contains the "Grandfather clause" permitting those individuals with present or past experience operating towboats to qualify under lesser requirements.

It remains essentially unchanged, except for adding an eligibility provision for experienced shoreside personnel who can document continuous service in the industry. This corrects an oversight in the notice of proposed rule making which was pointed out by commenters.

Section 10.16-81. A comment pointed out that there were no provisions for requiring an operator or second-class operator to have the license on his person to evidence being licensed under law. This section was added to correct the oversight.

A number of comments were received which did not relate directly to the content of the proposed regulations but which sought further clarification of the language of the Act in general. Illustrative of these were questions with respect to the 12-hour work clause and the exclusion of vessels servicing the mineral and oil exploitation industry. Answers and interpretations have been and will continue to be given on such matters on an individual basis, without regard to the termination date for comments.

In continuing the Coast Guard policy of developing practical, objective, and job-oriented examinations, participation from industry has been welcomed during the development of the examinations that are required by the regulations.

The notice of proposed rule making of August 11, 1972, indicated that parts other than Part 10 would be amended to

reflect the adoption of the towboat licensing requirements. This document includes amendments to 46 CFR Parts 26 and 157.

In consideration of the foregoing, Chapter I of Title 46, Code of Federal Regulations, is amended as follows:

1. By amending Part 10 by adding a new Subpart 10.16 to follow Subpart 10.15 and to read as follows:

#### PART 10—LICENSING OF OFFICERS AND MOTORBOAT OPERATORS AND REGISTRATION OF STAFF OFFICERS

##### Subpart 10.16—Licenses for Operation of Uninspected Towing Vessels

Sec.	Purpose.
10.16-1	Definitions.
10.16-3	Privileges and limitations.
10.16-5	Application and issue.
10.16-11	Eligibility requirements: General.
10.16-23	Eligibility requirements: Second-class operator.
10.16-25	Eligibility requirements: Operator of towing vessels.
10.16-31	Knowledge requirements.
10.16-41	Applicability of other regulations.
10.16-51	Renewing limited and second-class licenses.
10.16-71	Exception to requirements for license as operator.
10.16-81	Possession of license while underway.

AUTHORITY: R.S. 4427 as amended, 46 U.S.C. 405(b); 46 CFR 1.46(c)(3), except as otherwise noted.

##### § 10.16-1 Purpose.

This subpart prescribes the requirements for issuing the licenses for the operation of uninspected towing vessels as required in 46 U.S.C. 405(b) and describes the licenses that authorize the operation of uninspected towing vessels.

##### § 10.16-3 Definitions.

As used in this subpart:

- (a) "Inland Waters" means waters on which the rules to prevent collisions in 33 U.S.C. 151-232 apply.
- (b) "Western Rivers" means waters on which the rules to prevent collisions in 33 U.S.C. 301-356 apply.
- (c) "Great Lakes" means waters on which the rules to prevent collisions in 33 U.S.C. 241-295 apply.
- (d) "Oceans" means waters on which the international rules to prevent collisions in 33 U.S.C. 1051-1094 apply.
- (e) "Original license" means the first license issued to any person under this subpart.

##### § 10.16-5 Privileges and limitations.

(a) A license issued under this subpart—

- (1) Is issued as—
- (i) Operator of uninspected towing vessels; or
- (ii) Second-class operator of uninspected towing vessels; and
- (2) Does not authorize service aboard towing vessels of 200 gross tons or more navigating on the high seas, which are registered, enrolled and licensed, or licensed under the laws of the United States, whether permanently, temporarily, or provisionally.

(R.S. 4438a, as amended; 46 U.S.C. 224a)

(b) Except as required in paragraph (c) of this section, the holder of a license issued under this subpart may operate uninspected towing vessels to which 46 U.S.C. 405(b) applies within the geographical areas and limitation endorsed on the license.

(c) The holder of a license as second-class operator of uninspected towing vessels may not operate a vessel unless a holder of a license as operator of uninspected towing vessels, or master, mate (except mate of inland steam or motor vessels), or pilot is on board that vessel.

(d) The holder of a license as master, mate (except mate of inland steam or motor vessels), or pilot issued under this part may operate uninspected towing vessels to which 46 U.S.C. 405(b) applies within the scope and limitations endorsed on the license.

##### § 10.16-11 Application and issue.

(a) An application for a license under this subpart is made on Form CG-866.

(b) An applicant who meets the requirements in this subpart is entitled to a license as operator of uninspected towing vessels endorsed for operation on one or more of the following geographic areas:

- (1) Inland waters.
- (2) Western rivers.
- (3) Great lakes.
- (4) Oceans.
- (5) Oceans not more than 200 miles offshore.

(6) A limited local area designated by the Officer in Charge, Marine Inspection.

(c) Each applicant for an original license under this subpart must include his fingerprints with the application unless he holds a license issued by the Coast Guard.

##### § 10.16-21 Eligibility requirements: General.

To be eligible for an original license issued under this subpart, a person must—

- (a) Meet the citizenship requirements in § 10.02-5(c) of this part;
- (b) Be able to speak the English language;
- (c) Be able to read and understand the Rules of the Road, aids to navigation publications, emergency equipment instructions, and machinery instructions applicable to operations for which his license is endorsed;
- (d) Meet the character check and personal reference requirements in § 10.02-5(i) except that the three written endorsements required in § 10.02-5(i)(1) may be from a recent marine employer or its authorized representative if at least one such endorsement is from the master, operator, or person in charge of a vessel on which the applicant has been employed but those persons licensed under the provisions of § 10.16-71 need not have worked directly for or with the master, operator, or person in charge of a vessel who provides such endorsement;
- (e) Meet the physical examination requirements in § 10.02-5(e) (1), (2), (3), (6), and (7) except that the required physical examination may be given by a licensed physician who records

the results of the examination and identifies the applicant on Form CG-954 which is furnished to the applicant by the Officer in Charge, Marine Inspection;

(f) Meet the experience requirements in § 10.02-5(g); and

(g) If licensed under § 10.16-71, certify that he understands the contents of the Coast Guard publication "Oil Pollution Control for Tankermen" which is furnished by the Officer in Charge, Marine Inspection.

##### § 10.16-23 Eligibility requirements: Second-class operator.

To be eligible for a license as second-class operator of uninspected towing vessels, a person must—

- (a) Be at least 19 years of age; and
- (b) Have at least 18 months' service on deck on a towing vessel that includes—

- (1) Training or duty in the wheelhouse; and
- (2) Three months' service in each particular geographic area for which endorsement for the license is made.

##### § 10.16-25 Eligibility requirements: Operator of towing vessels.

(a) To be eligible for a license as operator of uninspected towing vessels, a person must—

- (1) Be at least 21 years of age; and
- (2) Have at least—

- (i) Three years' service including at least 2 years on deck of a vessel of 26 feet or over in length, 1 year on deck of a towing vessel that includes training or duty in the wheelhouse, and 3 months' service in each particular geographic area for which application for the license is made;
- (ii) Three years' service on towing vessels including at least 1 year service on deck that includes training or duty in the wheelhouse and at least 3 months' service in each particular geographic area for which application for the license is made; or

(iii) For a license that is endorsed for a limited local area designated by an Officer in Charge, Marine Inspection, have at least 18 months service on deck on a towing vessel within the local area to which the license is limited.

(b) The holder of a license as second class operator of uninspected towing vessels who is 21 years old and possesses the total service required in paragraph (a) (2)(i) or (a) (2)(ii) of this section is eligible for a license as operator without the examination required in § 10.16-31.

(c) The holder of a license as operator of uninspected towing vessels may have that license endorsed as second class operator for a geographic area on which he has no operating experience if the examination required in § 10.16-31 is passed. When 3 months' experience on that geographic area is obtained, the second class restriction may be removed after the holder applies to the Officer in Charge, Marine Inspection.

##### § 10.16-31 Knowledge requirements.

(a) An applicant for each license issued under this part must pass a written examination on practical problems, unless an oral examination transcribed by

## RULES AND REGULATIONS

the examiner is determined to be necessary by the Officer in Charge, Marine Inspection, on the following subjects:

(1) Rules of the Road in the particular geographic area for which the license is to be endorsed.

(2) Practical use of the magnetic compass except for western rivers.

(3) Operation and use of navigation instruments and accessories.

(4) Emergency signals.

(5) Practical use of charts in navigation except as provided in paragraph (c) of this section.

(6) Aids to navigation except as provided in paragraph (c) of this section.

(7) Lifesaving and simple first aid.

(8) Firefighting equipment and procedures and fire prevention.

(9) Boatmanship for western rivers and limited area designated by the Officer in Charge, Marine Inspection and seamanship for all other areas designated in § 10.16-11(b).

(10) Regulations and laws applicable to the operation of a towing vessel, including the regulations in Subchapters C, D, and O of this chapter.

(11) Pollution prevention and control.

(b) An applicant for a license that is endorsed for more than 200 miles offshore must—

(1) Hold a first aid certificate issued by the U.S. Public Health Service; and

(2) Pass an examination in celestial navigation, including problems in—

(i) Latitude by Polaris;

(ii) Latitude by meridian altitude;

(iii) Longitude by observation of the sun; and

(iv) Compass error by observation of the sun.

(c) An applicant for a license that is endorsed for a limited area designated by an Officer in Charge, Marine Inspection, must pass an examination in practical use of charts in navigation and aids to navigation only for the area to which the license is limited.

§ 10.16-41 Applicability of other regulations.

The following regulations apply to each applicant for and holder of a license under this subpart:

(a) The regulations on the issuance of a license in § 10.02-1.

(b) The regulations on the right to appeal decisions of the Office in Charge, Marine Inspection, in § 10.02-33.

(c) Except as provided otherwise in § 10.16-51 the regulations on the renewal of a license in § 10.02-9 except paragraphs (e) (3), (4), (5), and (6) of this section.

(d) The regulations on the reporting of a lost license and the obtaining of a duplicate in § 10.02-23.

(e) The regulations on the parting with a license in § 10.02-25.

(f) Licenses issued under this subpart are subject to suspension and revocation on the same grounds and under the same procedures as provided for officers' licenses.

(g) The regulations on the lifting of limitations on a license in § 10.02-15.

§ 10.16-51 Renewing limited and second-class licenses.

(a) A license as a second-class operator of uninspected towing vessels is not renewable, but another license may be issued to the holder of an expired license if he meets the requirements for original issuance of a second-class license and passes another examination under § 10.16-31.

(b) A license endorsed for a limited local area designated by the Officer in Charge, Marine Inspection, is not renewed unless the holder meets the service requirements in § 10.16-25 (a) (2) (i) or (a) (2) (ii).

§ 10.16-71 Exception to requirements for license as operator.

The following requirements do not apply to any person who applies for a license as operator of towing vessels before June 1, 1974, and who has had at least 1 year of service as an operator of any towing vessel within the 36 months immediately preceding the date of application, except that employment in a position related to management or maintenance of a towing vessel is not counted in computing the 36 months:

(a) The experience requirements in § 10.16-25(a).

(b) The knowledge requirements in § 10.16-31(a), except that he must pass an examination on the Rules of the Road for the area in which his license authorizes operations, and applicants for ocean routes in excess of 200 miles offshore must comply with the requirements in § 10.16-31(b).

(c) The color vision requirements in § 10.02-5(e) if the license is limited to operations between sunrise and sunset.

(d) The vision requirements in § 10.02-5(e) for an applicant who has sight in only one eye, if his visual acuity is at least 20/100 uncorrected and 20/20 corrected.

§ 10.16-81 Possession of license while underway.

The holder of a license issued under this subpart shall have his license in his possession and available for examination by a boarding or investigating Coast Guard officer while the vessel is underway.

## PART 26—OPERATIONS

2. By amending § 26.25-1 by adding a new paragraph (c) to follow paragraph (b) and to read as follows:

§ 26.25-1 Licensed personnel.

(c) An uninspected towing vessel, as defined in section (b) (1) of R.S. 4427, as amended (86 Stat. 423; 46 U.S.C. 405(b)) shall, while underway, be under the actual direction and control of a person licensed by the Coast Guard. For details of these provisions, see 46 U.S.C. 405(b) and the implementing regulations contained in Subparts 10.16, 157.01, 157.10, and 157.30 of this chapter.

## PART 157—MANNING REQUIREMENTS

3. By amending § 157.01-10 by adding a second sentence in paragraph (c) (1) to read as follows:

§ 157.01-10 Authority for regulations.

(c) Manning of uninspected vessels.

(1) \* \* \* In addition, the authority for regulations regarding operators of uninspected towing vessels, is contained in R.S. 4427, as amended (86 Stat. 423, 46 U.S.C. 405(b)).

4. By amending Subpart 157.10 by adding two new sections, §§ 157.10-83 and 157.10-85, to follow § 157.10-80 and to read as follows:

§ 157.10-83 Operator of uninspected towing vessel.

The term "operator of uninspected towing vessels" means any person who is the holder of a valid license as operator of uninspected towing vessels issued by the Coast Guard attesting to his competency and who may serve in such capacity within the restriction placed on such license.

§ 157.10-85 Second-class operator of uninspected towing vessels.

The term "Second-class operator of uninspected towing vessels" means any person who is the holder of a valid license as second-class operator of uninspected towing vessels issued by the Coast Guard attesting to his competency and who may operate such a towing vessel only when the holder of a valid license authorizing service as an operator of uninspected towing vessels is aboard.

5. By amending Subpart 157.30 by adding a new § 157.30-45 to follow § 157.30-40 and to read as follows:

§ 157.30-45 Uninspected towing vessels operator's license.

(a) An uninspected towing vessel, as defined in R.S. 4427, as amended (86 Stat. 423; 46 U.S.C. 405(b)), shall, while underway, be under the actual direction and control of a person licensed by the Coast Guard as an operator of uninspected towing vessels.

(b) An uninspected towing vessel may, while underway, be under the actual direction and control of a person licensed by the Coast Guard as a Second-class operator of uninspected towing vessels, if the holder of a license as operator of uninspected vessels is also aboard.

(R.S. 4427, as amended; 46 U.S.C. 405(b); 49 CFR 1.46(o) (3))

Dated: February 26, 1973.

Effective date. These amendments shall become effective on September 1, 1973.

C. R. BENDER,  
Admiral, U.S. Coast Guard  
Commandant.

**V**

**DEPARTMENT OF LABOR**  
**Employment Standards Administration**  
**MINIMUM WAGES FOR FEDERAL AND**  
**FEDERALLY ASSISTED CONSTRUCTION**

**Area Wage Determination Decisions,**  
**Modifications and Supersedes Decisions**

**Area wage determination decisions.** Area Wage Determination Decisions of the Secretary of Labor specify, in accordance with applicable law and on the basis of information available to the Department of Labor from its study of local wage conditions and from other sources, the basic hourly wage rates and fringe benefit payments which are determined to be prevailing for the described classes of laborers and mechanics employed in construction activity of the character and in the localities specified therein.

The determinations in these decisions of such prevailing rates and fringe benefits have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 FR 306 following Secretary of Labor's Order No. 24-70) containing provisions for the payment of wages which are dependent upon determinations by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of Part 1 of Subtitle A of Title 29 of Code of Federal Regulations, Procedure for Predetermination of Wage Rates (37 FR 21138), and of Secretary of Labor's Orders 12-71 and 15-71 (36 FR 8755, 8756). The prevailing rates and fringe benefits determined in these decisions shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged on contract work of the character and in the localities described therein.

Good cause is hereby found for not utilizing notice and public procedure thereon prior to the issuance of these determinations as prescribed in 5 U.S.C. 553 and not providing for delay in effective date as prescribed in that section, because the necessity to issue construction industry wage determinations frequently and in large volume causes procedures to be impractical and contrary to the public interest.

Area Wage Determination Decisions are effective from their date of publication in the **FEDERAL REGISTER** without limitation as to time and are to be used in accordance with the provisions of 29

CFR, Parts 1 and 5. Accordingly, the applicable decision together with any modifications issued subsequent to its publication date shall be made a part of every contract for performance of the described work within the geographic area indicated as required by an applicable Federal prevailing wage law and 29 CFR, Part 5. The wage rates contained therein shall be the minimum paid under such contract by contractors and subcontractors on the work.

**Modifications and supersedes decisions to area wage determination decisions.** Modifications and Supersedes Decisions to Area Wage Determination Decisions are based upon information obtained concerning changes in prevailing hourly wage rates and fringe benefit payments since the decisions were issued.

The determinations of prevailing rates and fringe benefits made in the Modifications and Supersedes Decisions have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 FR 306 following Secretary of Labor's Order No. 24-70) containing provisions for the payment of wages which are dependent upon determination by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of Part 1 of Subtitle A of Title 29 of Code of Federal Regulations, Procedure for Predetermination of Wage Rates (37 FR 21138), and of Secretary of Labor's Orders 13-71 and 15-71 (36 FR 8755, 8756). The prevailing rates and fringe benefits determined in foregoing Area Wage Determination Decisions, as hereby modified, and or superseded shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged in contract work of the character and in the localities described therein.

Modifications and Supersedes Decisions are effective from their date of publication in the **FEDERAL REGISTER** without limitation as to time and are to be used in accordance with the provisions of 29 CFR, Parts 1 and 5.

Any person, organization, or governmental agency having an interest in the wages determined as prevailing is encouraged to submit wage rate information for consideration by the Department. Further information and self-explanatory forms for the purpose of submitting this data may be obtained by

writing to the U.S. Department of Labor, Employment Standards Administration, Office of Special Wage Standards, Division of Wage Determinations, Washington, D.C. 20210. The cause for not utilizing the rule making procedures prescribed in 5 U.S.C. 553 has been set forth in the original Area Wage Determination Decision.

Set forth below in this document are the following. New Area Wage Determination Decision No. AP-161 for the State of North Carolina.

Modifications to Area Wage Determination Decisions for the following States (the numbers of the decisions being modified and their dates of publication in the **FEDERAL REGISTER** are listed with each State):

Alabama:	
AP-140.....	Dec. 12, 1972.
AP-153.....	Feb. 9, 1973.
California:	
AP-245, AP-248.....	Oct. 13, 1972.
Delaware:	
AP-444.....	Nov. 17, 1972.
Florida:	
AP-130.....	Dec. 22, 1972.
Louisiana:	
AP-704.....	Feb. 16, 1973.
Maryland:	
AP-443.....	Nov. 17, 1972.
Massachusetts:	
AP-456, AP-457, AP-461.....	Jan. 10, 1973.
Oregon:	
AP-249.....	Nov. 10, 1972.
Pennsylvania:	
AP-421, AP-425.....	Sept. 29, 1972.
AP-464, AP-465.....	Jan. 26, 1973.
Tennessee:	
AP-138.....	Nov. 25, 1972.
Texas:	
AP-390, AP-392, AP-394.....	Jan. 26, 1973.
Utah:	
AP-254.....	Dec. 8, 1972.
Virginia:	
AP-441.....	Nov. 3, 1972.
AP-443.....	Nov. 17, 1972.
AP-468.....	Feb. 9, 1973.
Washington, D.C.:	
AP-442.....	Nov. 17, 1972.

Supersedes Decisions to Area Wage Determination Decisions for the following States (the numbers of the decisions being superseded and their dates of publication in the **FEDERAL REGISTER** are listed with each State; Supersedes Decision numbers are in parentheses following the number of the decision being superseded):

Pennsylvania:	
AM-1854 (AP-480); AM-1859 (AP-479).....	Aug. 20, 1971.
Tennessee:	
AM-8621 (AP-164).....	June 9, 1972.

Signed at Washington, D.C., this 26th day of February 1973.

WARREN D. LANDIS,  
 Assistant Administrator,  
 Wage and Hour Division.

HEAVY &amp; HIGHWAY CONSTRUCTION

Item	Unit	Rate	Volume	Cost	Rate	Volume	Cost
Construction laborer (including tender, handling, shoveling, etc.), P.P. machine or similar, etc.), air tender operator, asphalt tender, batchman (weigh), water's helper, blower man (bulk cement), blower, Goffier dam, concrete pumper, puffer including vibrator operators, drill runner's helper (includes drill mounted on truck, track or similar and heavy drills (spots-clean-up & helps to maintain), fence construction, form stripper and power, Hydro-Jet blaster nozzleman, manually moved emulsion sprayer, Radio activated traffic control operator (non-automatic), Rip rap work, Scaffolds and runways (as per agreement of record), Shelters and shoring, structural concrete top surfaces, walk behind street sweeper, welder's helper (pipeliner), Wood chipper		45.39	.30	.30			
Asphalt, batch and concrete plant operator (manually operated), asphalt tender, burner, Giffon men (operator), Chippable pump, or similar (air or rubber), Combination tamper and vibrator, Concrete buster (paving breaker), Grinding (concrete or steel), Curb machine operator (asphalt and concrete), (walk behind), Earth drill, Puck lift (walk behind), Form scatter (road forms line man), Handman, Highway slab reinforcement placers (incl. joint and basket vibrator), Hydraulic pipe pusher, Jack hammer operator, liner plates (tile or vitrified clay), Manually operated diamond head core drill, Mechanical joint sealer, Dope pot, and The Kettle, Mortar mixer (hand or mechanical), Pin drivers or puller (power-highway), Tape layers, Plant set-up, Rebarman, Rebar, Portable single unit, Concrete pump, Post hole auger (2 or 4 cycle), Chisel operator, Power fence operator, Prof. station roads and baggies, Earth pitter, or similar, Directed operator		5.64	.30	.30			
Signal man, blower		5.64	.30	.30			
All Railroad Truck Work		5.64	.30	.30			
Adzing machine, ballast router, Bolting machine, Power jacks, Rail drills, Rail road brakeman, Rail saws, Spike drivers, Spike pullers, Tamping machine		5.64	.30	.30			
Cement mortar lining car pusher, Cement saw operator (walk behind), Form scatter (road forms-lead man), Grout machine operator, Committee (nozzle and hose man), Facing block machine, Vagon drill (walk behind), Water tank operator, Walk behind roller (1 or 2 barrel), Walk behind roller and tamper, Walk behind ditching machine (trencher or similar)		5.93	.30	.30			
Blacksmith, Blaster, Brick and block pavers (wood, belgian and asphalt), Curb cutters and setters, Manhole or catch basin builder (brick, block, concrete or any prefabrication)		6.05	.30	.30			
Multi-plate pipe (aligning and securing), Placing wire mesh on gunite projects, Reinforcing steel placers (bending, aligning and securing)		6.55	.30	.30			
Welder (pipeline)		7.70	.30	.30			
Tunnel and Swift Work (Inside)		5.36	.30	.30			
Change house attendant		5.64	.30	.30			
Huckers, Braken and all other labor (includes installation of utility lines)		5.64	.30	.30			
Signal man, Drill runner helper		5.93	.30	.30			
Miners and drillers (including lining, supporting and form workmen, setting of shales, miscellaneous equipment & tools)		6.05	.30	.30			
Grasson and tunnel man under pressure (0-18 pounds)		6.35	.30	.30			
Reinforcing steel placers (bending, aligning and securing)		6.76	.30	.30			
Carpenters		7.05	.30	.30			
Cement masons		6.423	.30	.30			
Filed driverman		7.36	.30	.30

# INDEX TO AREA WAGE DETERMINATION DECISIONS AND MODIFICATIONS AS OF FEBRUARY 9, 1973

There is set forth below an Index to Area Wage Determination Decisions and Modifications as published in the FEDERAL REGISTER pursuant to the Davis-Bacon and related Acts. The Index lists Area Wage Determination Decisions and Modifications by State and County. An updated Index is published on the first Friday of each month.

The Index is published for the convenience of the public and the Department of Labor will endeavor to keep it accurate and up to date. In the event the data in the Index and published Area Decisions do not coincide, the published Area Decisions shall control.
